**Conflict Minerals Disclosure**

BioTelemetry, Inc. ( we, us or our ) is filing this Form SD pursuant to Rule 13p-1 under the Securities Exchange Act of 1934 for the reporting period January 1, 2014 to December 31, 2014 (the Reporting Period ).

Rule 13p-1, through Form SD, requires the disclosure of certain information if a company manufactures or contracts to manufacture products for which certain Conflict Minerals (as defined below) are present in their products and necessary to the functionality of such products. Form SD defines Conflict Minerals as: (i)(a) columbite-tantalite (or coltan, the metal ore from which tantalum is extracted), (b) cassiterite (the metal ore from which tin is extracted), (c) gold and (d) wolframite (the metal ore from which tungsten is extracted), or their derivatives, which are currently limited to tantalum, tin and tungsten or (ii) any other mineral or its derivatives determined by the U.S. Secretary of State to be financing conflict in the Democratic Republic of the Congo or an adjoining country (collectively, the Covered Countries ).

Our operations, including the operations of our consolidated subsidiaries, may at times manufacture, or contract to manufacture, products for which Conflict Minerals are present in and necessary to the functionality of those products (collectively, our Products ). As required by Form SD, we have conducted a good faith reasonable country of origin inquiry ( RCOI ) regarding the Conflict Minerals included in our Products during the Reporting Period (the Subject Minerals ) to determine whether any such Subject Minerals originated in the Covered Countries and/or whether any of the Subject Minerals may be from recycled or scrap sources. Where applicable, we have conducted additional due diligence regarding the sources of the Subject Minerals. Following the completion of this good faith RCOI, we were unable to determine the source and chain of custody of all the Subject Minerals. The results of our good faith RCOI regarding the Subject Minerals, as well as our additional due diligence regarding the sources of such Subject Minerals, are contained in our Conflict Minerals Report, a copy of which is filed as Exhibit 1.02 to this Form SD.
