Item 1.01 Entry into a Material Definitive Agreement.

As previously reported in a Current Report on Form 8-K filed January 20, 2006, Altura Power L.P. (“Altura”), an indirect subsidiary of PNM Resources, Inc. (“PNMR”), entered into an agreement to purchase the 305-megawatt coal fired Twin Oaks power plant facility (“Twin Oaks”) located 150 miles south of Dallas, Texas, for \$480 million in cash, using bridge financing arranged by PNMR.

On April 18, 2006, Altura completed the acquisition of Twin Oaks and PNMR entered into a new unsecured term loan agreement (the “Term Loan Agreement”) among PNMR, as borrower, Lehman Commercial Paper Inc. (“Lehman”), as administrative agent, Lehman Brothers Inc., as sole lead arranger and sole book-manager and the following five lender parties: Lehman, Bank of America, N.A., Citicorp North America, Inc., Merrill Lynch Bank USA and Morgan Stanley Bank. The Term Loan Agreement is described in Item 2.03 of this report, which is incorporated by reference into this Item 1.01.

The agents and lender parties to the Term Loan Agreement perform normal banking and investment banking and advisory services for PNMR from time to time for which they have received customary fees and expenses.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

Under the Term Loan Agreement, PNMR was permitted to borrow up to \$480 million in a single draw on or after April 18, 2006, to finance the acquisition of Twin Oaks and related expenses. Term loans made under the Term Loan Agreement bear interest at a base rate (the greater of the prime rate in effect and the Federal Funds rate plus ½ of 1%) or an adjusted Eurodollar rate (equal to the British Bankers Association LIBOR rate plus an additional percentage based on PNMR’s then current long-term senior unsecured non-credit enhanced debt rating). On April 18, 2006, PNMR borrowed \$480 million under the Term Loan Agreement. PNMR must repay the loan by April 17, 2007, unless accelerated as described below or prepaid in whole or in part upon the issuance of certain additional equity or debt. PNMR used the proceeds of the loan to make capital contributions totaling \$480 million to Altura through the two wholly owned subsidiaries that are partners in Altura to provide the funds for the acquisition of Twin Oaks. It is expected that the permanent financing for the \$480 million Twin Oaks purchase price will come from the issuance of debt and equity structured to maintain PNMR’s investment grade rating.

The Term Loan Agreement includes customary covenants, including requirements that PNMR maintain a maximum consolidated debt-to-consolidated capitalization ratio.

The Term Loan Agreement includes customary events of default, including a cross default provision and a change in control provision. If an event of default occurs, the administrative agent may, or upon the request and direction of lenders holding more than 50% of the outstanding term loan shall, declare the unpaid principal and interest on the term loan to be due and payable. Such acceleration will occur automatically in the event of an insolvency or bankruptcy default.

Item 8.01 Other Events.

On April 18, 2006, PNMR issued a press release announcing the closing of the acquisition of Twin Oaks by Altura and the related execution and delivery of the Term Loan Agreement by PNMR. The press release is furnished herewith as Exhibit 99.1 and incorporated by reference herein.

Item 9.01 Financial Statements and Exhibits.
