Item 8.01 Other Events.

As previously reported, Public Service Company of New Mexico (“PNM”), a wholly-owned subsidiary of PNM Resources, Inc. (the “Company”), made a filing with the New Mexico Public Regulation Commission (the “Commission”) in December 2016 requesting a general rate increase in its retail electric rates. On May 23, 2017, PNM and thirteen intervenors to the case filed a revised comprehensive settlement stipulation requesting a revenue increase totaling \$62.3 million, to be implemented over a two-year period.

On October 31, 2017, the Hearing Examiners issued a Certification of Stipulation, which contains their recommended decision (“RD”), to the Commission. The RD recommends approval of the previously agreed upon revised stipulation among the majority of the parties to the rate case, with certain substantive modifications. The Company is evaluating the RD and will be working with the other signatories to the May 23, 2017 revised stipulated agreement to determine responses to the RD. Based upon an initial evaluation of the RD, it includes the following recommendations:

- The ability for PNM to collect the \$62.3 million revenue requirement included in the revised stipulated agreement, with the previously agreed upon initial increase of \$32.3 million in 2018 and the remaining increase in 2019;
- The previously agreed-upon 9.575% Return on Equity;
- Identifies the continuation in the Four Corners Power Plant (“FCPP”) as imprudent and recommends against PNM’s ability to collect a debt or equity return on its future investments in the facility;
- Temporarily disallows approximately \$36 million of investments for improvements in the San Juan Generating Station, but allows PNM to request recovery of such investments in its future rate cases;
- Requires a pro-rata allocation of revenue increases across all rate classes; and
- The implementation of new rates for services rendered after January 1, 2018, rather than on bills rendered after such date.

While it appears that the revenue requirement from the stipulated agreement would remain at \$62.3 million under the RD, the Company strongly disagrees with the finding that the continuation of FCPP was imprudent. PNM believes as a matter of fact and law, that its investments in FCPP have been prudent. If the Commission were to approve the RD as recommended, PNM would be required to record a pre-tax write off of approximately \$62 million on certain of its investments in FCPP.

PNM will evaluate its options regarding any formal objections it may have to the RD in accordance with Commission procedures. Exceptions to the Certification of Stipulation are currently due by November 10, 2017, as provided under the Commission’s rules. The Commission must issue a final order by January 6, 2018 or further extend the suspension period until no later than March 6, 2018.

The full text of the RD can be found at <http://www.pnmresources.com/investors/rates-and-filings.aspx>. The contents of the website are not otherwise incorporated into this Form 8-K.
