SEMI-ANNUAL REPORT TO SHAREHOLDERS

OF

RENN FUND, INC.

June 30, 2017

Dear Shareholders,

As of June 29, 2017, the shareholders voted to have Horizon Asset Management LLC become the new investment manager. Under Horizon, major expenses will be saved and the Fund will have the opportunity to grow its assets. I am remaining on the Board of Directors and looking forward to serving on the Board and working with Horizon.

In the current portfolio, we have several investments that are making excellent progress. Bovie Medical (NYSE:BVX), had an excellent second quarter. The Company has a “killer app” with its J-Plasma treatment in dermatology, with amazing results in face lifts and other skin applications. We have a block of 615,000 shares of Bovie Medical. This investment could attract major new interest among investors. Another investment, AnchorFree, a private company in the secure internet area, has been growing rapidly. New downloads exceed 500,000,000 customers, passing Twitter on the number of Apple downloads. We are hoping for a liquidity event in this holding and to realize further gains. Horizon will be making new investments. I am optimistic about the future of this Fund.

Sincerely,

Russell Cleveland

Note 1

Organization and Business Purpose

RENN Fund, Inc. (the “Fund”), is a registered, non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund, a Texas corporation, was organized and commenced operations in 1994 and is registered under and pursuant to the provisions of Section 8(a) of the 1940 Act.

The investment objective of the Fund is to provide its stockholders with above-market rates of return through capital appreciation and income through a long-term, value-oriented investment strategy using a wide variety of financial instruments including, but not limited to common stocks, fixed income securities including convertible and non-convertible debt securities or loans, distressed debt, warrants and preferred stock, exchange traded funds and exchange traded notes, open and closed-end funds, derivatives including options and swaps and other instruments and securities which may or may not be listed on a regulated securities exchange.

RENN Capital Group, Inc. (“RENN Group”), a Texas corporation, served as the Investment Adviser to the Fund until June 29, 2017, when the shareholders elected Horizon Asset Management LLC (“Horizon”), a subsidiary of Horizon Kinetics LLC (“Horizon Kinetics”) as its Investment Adviser. In its capacity as Investment Advisor for the first six months of the year, RENN Group was responsible for the selection, evaluation, structure, valuation, and administration of the Fund’s investment portfolio, subject to the supervision of the Board of Directors. RENN Group is a registered investment adviser under the Investment Advisers Act of 1940, as amended.

On July 6, 2017, Horizon Asset Management LLC (“Horizon”) assumed advisory responsibilities of the Fund. Shareholders and Horizon modified the current investment strategy of the Fund to include a value discipline that is consistent with Horizon’s long-term, fundamental value approach. Under the new agreement, certain fees and expenses have changed. Additional information is provided in the special meeting proxy filed with the Securities and Exchange Commission on April 28, 2017.

Note 2

Summary of Significant Accounting Policies

Valuation of Investments

All investments are stated at their estimated fair value, as described in Note 4.

Revenue Recognition

The Fund recognizes realized gain/loss in the period of the sale based upon the identified cost basis. Change in unrealized gain/loss is reflected during the period of the change. Dividend income is recorded on the record date. Interest income is recorded as earned on an accrual basis. For debentures that are late in making payments as scheduled in the note agreements, the Fund determines whether to continue accruing interest on the note based upon the current circumstances facing the companies. The Fund reserves any dividends or interest income which is deemed to be potentially uncollectible based upon an analysis of several factors used in assessing the financial condition of each company.

Cash and Cash Equivalents

As of June 30, 2017, cash and cash equivalents are at risk to the extent that they exceed Federal Deposit Insurance Corporation insured amounts. The Fund has not experienced any losses as a result of this risk. The Fund considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. As of June 30, 2017, cash equivalents were held in the Federated Prime Obligations Fund which is not covered by depository insurance.

Notes to Financial Statements

Note 2**Summary of Significant Accounting Policies, continued**

Mutual Funds	Quantity	Value	% Net Assets	
Federated Government Obligation Fund (GOFXX)	2,467,942	\$2,467,942	38.19	%
Total Mutual Funds	2,467,942	\$2,467,942	38.19	%

Income Tax

The Fund has elected the special income tax treatment available to “regulated investment company” (“RIC”) under Subchapter M of the Internal Revenue Code (“IRC”) which allows the Fund to be relieved of federal income tax on that part of its net investment income and realized capital gain that it pays out to its stockholders. The requirements to qualify for RIC status include, but are not limited to certain qualifying income tests, asset diversification tests and distribution of substantially all of the Fund’s taxable investment income to its stockholders. It is the intent of management to comply with all IRC requirements as they pertain to a RIC and to distribute all of the Fund’s taxable investment income and realized long-term capital gain within the defined period under the IRC to qualify as a RIC. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in the Fund’s net assets as well as the amount of cash available for distribution to stockholders. Continued qualification as a RIC requires management to satisfy certain investment diversification requirements in future years. There can be no assurance that the Fund will qualify as a RIC in future years.

Federal income taxes payable on behalf of stockholders on realized capital gain that the Fund elects to retain are accrued and reflected as tax expense paid on behalf of stockholders on the last day of the tax year in which such gain is realized.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures in

the financial statements. Actual results could differ from these estimates.

Note 3

Due to/from Broker

The Fund conducts business with various brokers for its investment activities. The clearing and depository operations for the investment activities are performed pursuant to agreements with these brokers. “Due from broker” represents unsettled sales transactions. “Due to broker” represents a margin loan payable to these brokers, which is secured by cash maintained with the lending broker as collateral for the margin loan. The Fund is subject to credit risk to the extent the brokers are unable to deliver cash balances or securities, or clear security transactions on the Fund’s behalf. RENN Group actively monitors the Fund’s exposure to these brokers and believes the likelihood of loss under those circumstances is remote. At June 30, 2017, there was a “Due to Broker” margin balance of \$959,743. The terms on a margin loan are governed by federal regulation and by the rules of Financial Industry Regulatory Authority (“FINRA”). In general, under Federal Reserve Board Regulation T, firms can lend a customer up to 50% of the price of a security and 90% of a United States Treasury Bill. The rules of FINRA and the exchanges supplement the requirements of Regulation T by placing “maintenance” margin requirements on customer accounts.

The loan is not made for any specific term or duration but is due and payable at the brokerage firm’s discretion. The interest charges are added to the loan balance. At June 30, 2017, the margin interest rate was 5.125%. The Fund has a policy allowing it to borrow not more than 33% of the Fund’s Net Asset Value as of the time of borrowing for purposes of taking advantage of investments deemed to be in the best interest of the Fund or to borrow such amounts as deemed necessary and prudent as a temporary measure for extraordinary or emergency purposes. Federal regulations under the 1940 Act require that the Fund maintain 300% asset coverage in relation to any borrowed amount.

Note 4

Management Fees and Reimbursement

Pursuant to an Investment Advisory Agreement (the “Agreement”) effective May 15, 2009, RENN Group performs certain services, including certain management, investment advisory and administrative services necessary for the operation of the Fund. In addition, under the Agreement, the Investment Adviser is reimbursed by the Fund for certain directly allocable administrative expenses. A summary of fees and reimbursements paid by the Fund under either the Agreement or the prospectus is as follows:

RENN Group received a management fee equal to a quarterly rate of 0.4375% of the Fund’s net assets, as determined at the end of each quarter, each payment to be due as of the last day of the calendar quarter. The Fund incurred \$58,054, during the six months ended June 30, 2017, for such management fees.

The Investment Adviser was reimbursed by the Fund for directly allocable administrative expenses paid by the Investment Adviser on behalf of the Fund. Such reimbursements were \$2,021.85 during the six months ended June 30, 2017.

Effective July 6, 2017, Horizon now performs the aforementioned investment advisory and administrative services for the operation of the Fund. Pursuant to this new agreement, Horizon will receive a management fee computed at an annual rate of 1.0% of net assets in excess of \$25 million; Horizon receives no fee on assets less than \$25 million. A summary of additional fees and expenses of the Fund is provided in the special meeting proxy filed with the Securities and Exchange Commission on April 28, 2017.

Note 5

Valuation of Investments

Investments are carried in the statements of assets and liabilities at fair value, as determined in good faith by RENN Group, subject to the approval of the Fund’s Board of Directors. The fair values reported are subject to various risks including changes in the equity markets, general economic conditions, and the financial performance of the companies. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is possible that the amounts reported in the accompanying

financial statements could change materially in the near term.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities, and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

On a weekly basis, RENN Group prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation. Thinly traded unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation, less a marketability discount as determined appropriate by the Fund Managers and approved by the Board of Directors.

Restricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

RENN Fund, Inc.

Notes to Financial Statements

For the Six Months Ended June 30, 2017 (unaudited)

Note 5

Valuation of Investments (continued)

Debt securities are valued at fair value. The Fund considers, among other things, whether a debt issuer is in default or bankruptcy. It also considers the underlying collateral. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, NASDAQ or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or option has no value; thus, the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, *Fair Value Measurements*, under which the Fund has established a fair value hierarchy that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (Level 3 inputs).

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of June 30, 2017:

	Level 1	Level 2	Level 3	Total
Convertible Preferred Equities	\$0	\$ 0	\$1,987,111	\$1,987,111

Edgar Filing: RENN Fund, Inc. - Form N-CSRS

Common stock	1,574,466	0	127,996	1,702,462
US Treasury Note Maturity	1,199,961	0	0	1,199,961
Federal Government Obligation Fund	2,467,942	0	0	2,467,942
Total Investments	\$5,242,369	\$ 0	\$2,115,107	\$7,357,476

The Fund has adopted a policy of recording any transfers of investment securities between the different levels in the fair value hierarchy as of the end of the year unless circumstances dictate otherwise. There were no transfers between levels during the quarter ending June 30, 2017.

One portfolio company is being classified as Level 3. AnchorFree, Inc. is a private company and at June 30, 2016, the investment was valued primarily using forecasted revenues and thus qualifies as a Level 3 security.

Note 6

Income Taxes

During 2017 management has followed a policy of distributing all of the Fund's taxable investment income and realized capital gain within the defined period under the IRC to ensure that any federal income tax on such income, if any, is paid by the Fund's stockholders. During the six months ended June 30, 2017, there was no taxable investment income or taxable net realized long-term capital gain, and therefore no declaration of any distributions. Accordingly, no income tax expense was reported by the Fund for the six months ended June 30, 2017.
