FRANKLIN COVEY REPORTS
FIRST QUARTER SALES AND EARNINGS

SALT LAKE CITY, UTAH (NYSE: FC) - January 9, 2002 -- Franklin Covey today announced financial results for its first quarter of fiscal year 2002 ended November 24, 2001. Sales from continuing operations for the first quarter of fiscal 2002 decreased 33% to \$84.3 million compared to \$125.6 million for the first quarter of fiscal 2001. The Company reported an after-tax loss of \$21.7 million and a \$27.8 million loss attributable to the common stock (\$1.40 loss per share, after accounting for preferred dividends and discontinued operations) compared to \$4.4 million in net income and a \$0.7 million loss attributable to the common stock (\$0.03 loss per share, after accounting for preferred dividends and discontinued operations) for the same quarter in the prior year. EBITDA for the quarter was a negative \$20.0 million compared to positive EBITDA of \$20.4 million for the same quarter of fiscal 2001. The Company's fiscal first quarter of 2002 EBITDA and net loss included an \$11.8 million non-cash charge consisting of a \$10.0 million provision for losses on the management stock loans and \$1.8 million impairment of investment in Franklin Covey Coaching, LLC. Due to the sale of Premier Agendas on December 21, 2001, the operating results of Premier have been classified as discontinued operations.

The Company identified three major factors that impacted sales and EBITDA during the quarter: 1) the direct impact of the events of September 11; 2) an already weak economy that worsened during the quarter; and 3) a decline in sales of handheld electronic organizers (PDA's) and related accessories of approximately \$10 million. Also, because of the Company's modified 5-4-4 reporting calendar, the first quarter of fiscal year 2002 had one less business day compared to the first quarter of fiscal year 2001. This difference will be picked up in the last quarter of fiscal 2002.

Edgar Filing: FRANKLIN COVEY CO - Form SC TO-I/A

As a direct consequence of the events of September 11, the Company experienced a number of cancellations and postponements of scheduled training business. In addition, the booking pace for future organizational training business declined due to concerns related to travel and economic conditions. Retail sales were also negatively impacted with comparable store sales down 28% prior to September 11, but an overall 35% for the quarter. In addition, the sales from the Company's historically strong fall catalog mailing, which was mailed just days prior to September 11 and the subsequent anthrax scares associated with the mail, declined more than 40% during the quarter compared to the same quarter last year. This decline is consistent with those reported for many other catalog-based businesses during the same time period.

Total Consumer Business Unit sales were \$49.5 million during the first quarter of fiscal 2002 compared to \$74.9 million for the same quarter of fiscal 2001. Included in the Consumer Business Unit, retail store sales were \$28.6 million during the quarter compared to \$39.6 million for the same quarter of fiscal 2001. Comparable store sales decreased 35% during the quarter. The lower comparable store sales were a function of dramatically lower sales of PDA's, some cannibalization of existing store sales by the new stores that opened in the same markets, the impact of September 11 (where more than 100 of the Company's stores in malls or shopping centers were closed for at least one day) and the general unfavorable economy. The Company opened 6 new stores during the quarter bringing the total number of its stores to 172 compared to 149 a year ago. The Company noted that the combination of nationwide declines in mall foot traffic leading to fewer transactions, together with smaller average purchases due to lower technology sales adversely impacted the Company's

retail store sales. Catalog/e-commerce revenues decreased 38% to \$19.4 million compared to \$31.6 million for the same quarter a year ago. The decrease was primarily attributed to lower call volume.

Total Organizational Business Unit sales for the quarter were \$34.9 million compared to \$50.7 million during the first quarter of fiscal 2001. Included in the Organizational Business Unit, OSG sales decreased 38% to \$22.0 million compared to \$35.2 million for the same quarter of fiscal 2001. Lower revenues were attributed to postponed or canceled training seminars due to difficulties and concerns related to travel and the overall economy as well as restructuring activities within the business unit that were undertaken and completed during the first quarter of fiscal 2002. Organizational sales internationally, including direct and licensee operations, were \$12.9 million during the quarter compared to \$15.5 million for the same quarter last year.

Commencing in January 2001, the Company began to feel the impact of a weakening economy. Prior to then, the Company had benefited from a growing economy and strong demand for handheld electronic organizers. The Company believes, however, that many of its customers view the products and services offered by the Company as discretionary spending and, as general economic conditions worsened, total revenues for fiscal 2001 were down 13% from fiscal 2000. This trend was accelerated by the events that occurred in the first quarter of fiscal 2002 and the Company does not anticipate that revenues will significantly increase from current levels unless and until the Company's customers regain confidence in improving economic conditions and increase their productivity and training budgets.

The significant decrease in revenues from prior year periods continued through the Christmas buying season. While the Company has taken significant steps to decrease costs in order to address continuing lower revenues and currently has a very strong balance sheet after the benefit of the Premier sale, with essentially no debt and more than \$60 million (\$3 per share) of cash and cash

Edgar Filing: FRANKLIN COVEY CO - Form SC TO-I/A

equivalents, the Company is considering whether or not it should conserve this cash position to provide it with adequate resources to maintain flexibility in uncertain economic conditions. As a consequence, the Company is considering the possible cutback, delay or termination of its previously announced tender offer to purchase its common stock at \$6 per share and expects to announce a decision in the next week. The Company wants to be confident that under any scenario it is maintaining sufficient resources to fund initiatives aimed at strengthening its sales and profitability during fiscal 2002 and beyond.

ABOUT FRANKLIN COVEY

Franklin Covey Co. is a leading, learning and performance services firm assisting professionals and organizations in measurably increasing their effectiveness in leadership, productivity, communication and sales.
