PART I

This Quarterly Report includes forward-looking statements within the meaning of the Securities Exchange Act of 1934 (the "Exchange Act"). These statements are based on management's beliefs and assumptions, and on information currently available to management. Forward-looking statements include the information concerning possible or assumed future results of operations of the Company set forth under the heading "Management's Discussion and Analysis of Financial Condition or Plan of Operation." Forward-looking statements also include statements in which words such as "expect," "anticipate," "intend," "plan," "believe," "estimate," "consider" or similar expressions are used.

Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions. The Company's future results and shareholder values may differ materially from those expressed in these forward-looking statements. Readers are cautioned not to put undue reliance on any forward-looking statements.

CONDENSED NOTES TO FINANCIAL STATEMENTS

1. NATURE OF OPERATIONS AND ACCOUNTING POLICIES

Nature of Operations. The Company incorporated in Florida on March 27, 2001. The fiscal year end of the Company is December 31. Planned principal operations of the Company have not yet commenced; activities to date have been limited to forming the Company, developing its business plan, and obtaining initial capitalization. The Company's business plan is to develop, market and distribute branded and licensed hats and clothing at major events such as sporting events, concerts and conventions. The Company plans to focus on high-end events such as, the World Series, the Super Bowl, the Indianapolis 500, the Republican and Democratic National Conventions.

Principles of Accounting. The accompanying financial statements have been prepared in conformity with generally accepted accounting principles.

Accounting Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Shares Issued in Exchange for Services. The fair value of shares issued in exchange for services rendered to the Company is determined by the Company's officers and directors, as there is currently no market for the Company's stock. As of March 31, 2003, no shares have been issued for services provided to the Company.

Cash and Cash Equivalents. The Company includes cash on deposit and short-term investments with original maturities less than ninety days as cash and cash equivalents in the accompanying financial statements.

Edgar Filing: SKTF ENTERPRISES INC - Form 10QSB

General and Administrative Expenses. The Company's general and administrative expenses consisted primarily of legal and accounting fees for the three months ended March 31, 2003 and 2002.

Research and Development. Research and development costs are expensed as incurred as required by Statement of Financial Accounting Standards No. 2, "Accounting for Research and Development Costs." As of March 31, 2003, no research and development costs had been incurred.

Stock-Based Compensation. Statement of Financial Accounting Standards No. 123, Accounting for Stock Based Compensation, encourages, but does not require, companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to account for stock-based compensation using the intrinsic value method prescribed in previously issued standards. Accordingly, compensation cost for stock options issued to employees is measured as the excess, if any, of the fair market value of the Company's stock at the date of grant over the amount an employee must pay to acquire the stock. Compensation is charged to expense over the shorter of the service or vesting period. Stock options issued to non-employees are recorded at the fair value of the services received or the fair value of the options issued, whichever is more reliably measurable, and charged to expense over the service period.

CONDENSED NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. NATURE OF OPERATIONS AND ACCOUNTING POLICIES - Continued

Income Taxes. The Company has made no provision for income taxes because of financial statement and tax losses since its inception. A valuation allowance has been used to offset the recognition of any deferred tax assets due to the uncertainty of future realization. The use of any tax loss carry-forward benefits may also be limited as a result of changes in Company ownership.

Fair Value of Financial Instruments. The Company considers all liquid interest-earning investments with a maturity of three months or less at the date of purchase to be cash equivalents. Short-term investments generally mature between three months and six months from the purchase date. All cash and short-term investments are classified as available for sale and are recorded at market using the specific identification method; unrealized gains and losses are reflected in other comprehensive income. Cost approximates market for all classifications of cash and short-term investments; realized and unrealized gains and losses were not material.

Net Loss per Common Share. Net loss per share is calculated in accordance with Statement of Financial Accounting Standards No. 128, Earnings Per Share. Basic net loss per share is based upon the weighted average number of common shares outstanding. Diluted net loss per share is based on the assumption that options are included in the calculation of diluted earnings per share, except when their effect would be anti-dilutive. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Edgar Filing: SKTF ENTERPRISES INC - Form 10QSB

2. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has no established source of revenue, and as of March 31, 2003, the Company has no assets and negative working capital of \$31,450. In addition, the Company has been in the development stage since its inception on March 27, 2001 and is dependent on outside financing to fund its operations. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern.

Management's plans in regard to these matters are to continue to raise additional capital from selling the Company's stock. However, there is no assurance that the Company will be able to obtain such financing. Management believes actions currently being taken provide the opportunity for the Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

3. STOCKHOLDERS' EQUITY

Founders' Stock. The Company issued 6,000,000 shares of common stock on April 20, 2001 for cash totaling \$600.

Stock-Based Compensation. The Company did not issue nor did it recognize stock-based compensation from inception (March 27, 2001) through March 31, 2003.

3. STOCKHOLDERS' EQUITY - Continued

Private Placement Memorandum. On June 1, 2001, the Company began an offering to sell up to 100,000 shares of common stock at \$0.10 per share pursuant to a Private Placement Memorandum. In August 2001, the Company sold 13,000 shares of its common stock at \$0.10 under this private placement. All proceeds from the offering are to be used for pre-incorporation expenditures, consulting fees and working capital.

Registered Stock Offering. During the quarter ended September 30, 2002, the Company sold 31,750 shares of its common stock at \$1.00 per share for total proceeds of \$31,750. The stock offering was pursuant to the Company's effective Form SB-2/A registration statement dated December 12, 2001. The Company used the proceeds to repay advances and general and administrative expenses. The Company's registered offering expired on September 30, 2002.

Stock Option Plan. The Company's Board and shareholders approved a Stock Option Plan, effective June 1, 2001. The plan limits the aggregate number of shares available to 600,000. Each award under the plan will be evidenced by a Stock Purchase Agreement; each agreement will establish the vesting requirements and the maximum term of the options granted. As of March 31, 2003, no options had been granted.

4. RELATED PARTY TRANSACTIONS

Edgar Filing: SKTF ENTERPRISES INC - Form 10QSB

Legal and Administrative Services. The Company has engaged a shareholder as its corporate counsel. For the three months ended March 31, 2003 and 2002, total legal services and out of pocket costs were \$9,690 and \$2,494, respectively. As of March 31, 2003, and December 31, 2002, the Company had amounts due to its corporate counsel of \$24,826 and \$15,136, respectively, which are recorded in accounts payable and accrued liabilities in the accompanying financial statements.

The Company's president elected to forego a salary during the early developmental stages. The Company's president also provides office space for the Company. The Company estimates the value of these services to be \$1,500 and zero for the three months ended March 31, 2003 and 2002, respectively. As of March 31, 2003, and December 31, 2002, the Company had amounts due to its president of \$6,625 and \$5,125, respectively, which are recorded in accounts payable and accrued liabilities in the accompanying financial statements.

Stockholders Loans and Advances. From time to time, certain Company stockholders loan or advance monies to the Company. Loans bear interest at rates established at the time of the loan; advances bear no interest. While these loans and advances have no maturity dates, they are expected to be repaid as early as practicable.

ITEM 2 MANagements DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

We recently closed a public offering of up to \$1,000,000 pursuant to a Form SB-2 originally filed with the Securities and Exchange Commission on August 30, 2001 and declared effective on December 12, 2001. A total of 31,750 shares of our common stock were sold under the offering, which closed on September 30, 2002. For at least through the quarter ending June 30, 2003, management anticipates that SKTF will engage in very little business activity, will not hire any employees, and will not enter into any material contracts. As a result, our cash requirements will be minimal, related only to the cost of maintaining the Company in good standing. Our two primary shareholders, Mr. Berg and Mr. Lebrecht, have verbally agreed to advance funds to us to fund these minimal cash requirements that cannot otherwise be covered by the proceeds from the offering.

Although we had hoped to offer products focused on the 2002 Winter Olympics, we did not take any steps to obtain the necessary licenses or manufacture the products to do so, and did not successfully market any products at that event. Recently, the Board of Directors of the Company has undertaken an analysis of whether or not the historical business plan is economically viable, and whether or not it should continue to be pursued. If the historical business plan is not pursued, the Board of Directors will decide whether or not to pursue other lines of business, either from start up or through acquisitions. No decisions have been reached by the Board of Directors.

On December 19, 2002, the National Association of Securities Dealers notified our market maker that its request to submit a quote for our common stock on the Over the Counter Bulletin Board had been cleared. The trading symbol for our common stock is SKTE. As of the date of this filing, to the best of our knowledge, no transactions in our common stock have taken place. Trading in our common stock, if any, is anticipated to be very sporadic and should not be deemed to constitute an established public trading market. There is no assurance that there will be liquidity in the common stock.

It is not anticipated that current management will be paid a salary during the next twelve months.

Edgar Filing: SKTF ENTERPRISES INC - Form 10QSB

Management does not anticipate that we will engage in any material product research and development because we will negotiate for the acquisition of licenses to manufacture and sell products that are already in existence.

Management does not anticipate that we will purchase a plant or significant equipment because we will enter into agreements with existing hat and clothing manufacturers to manufacture the products.

Management anticipates that, if the historical business is pursued, over the next twelve months we will hire up to five full-time employees to oversee a temporary sales force at each location where we will sell our products. The temporary sales people will either be paid a commission based on sales, or will be paid an hourly wage plus a commission based on sales, depending on applicable laws at that location. The temporary sales people will not be offered benefits.

Our financial statements have been prepared assuming we will continue as a going concern. Because we have not generated any revenues to date and have minimal capital resources, our Certified Public Accountants included an explanatory paragraph in their report raising substantial doubt about our ability to continue as a going concern. We have not identified any critical accounting issues.

ITEM 3 CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer (or those persons performing similar functions), after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934, as amended) as of a date within 90 days of the filing of this quarterly report (the "Evaluation Date"), have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective to ensure the timely collection, evaluation and disclosure of information relating to the Company that would potentially be subject to disclosure under the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder. There were no significant changes in the Company's internal controls or in other factors that could significantly affect the internal controls subsequent to the Evaluation Date.
