MARKETABLE SECURITIES

On September 8, 2004, NutraCea purchased 1,272,026 shares of Langley Park Investment Trust, PLC, a United Kingdom closed-end mutual fund that is actively traded on a London exchange. Per the Stock Purchase Agreement, NutraCea paid with 7,000,000 shares of its own common stock.

Per the Agreement, NutraCea may sell 636,013 shares of Langley at any time, and the remaining 636,013 shares of Langley and the 7,000,000 shares of NutraCea are escrowed together for a 2-year period. At the end of the period, Langley's NutraCea shares are measured for any loss in market value and if so, NutraCea must give up that pro-rata portion of its Langley shares up to the escrowed 636,013 shares.

As of June 30, 2005, the NutraCea shares have not lost any value. However, the Langley shares are marked down to their fair market value of \$286,970, with one-half or \$143,485 shown as a current asset because they may be sold at any time, and the other one-half shown as long-term because they are held in escrow pending the 2-year review of NutraCea's stock valuation.

Any unrealized holding gains and losses on the marketable securities are excluded from operating results and are recognized as other comprehensive income. The fair value of the securities is determined based on prevailing market prices.

NOTE 4

Caution About Forward-Looking Statements

This Form 10-QSB includes "forward-looking" statements about future financial results, future business changes and other events that have not yet occurred. For example, statements like NutraCea "expects," "anticipates" or "believes" are forward-looking statements. Investors should be aware that actual results may differ materially from NutraCea's expressed expectations because of risks and uncertainties about the future. NutraCea does not undertake to update the information in this Form 10-QSB if any forward-looking statement later turns out to be inaccurate. Details about risks affecting various aspects of NutraCea's business are discussed throughout this Form 10-QSB and should be considered carefully.

Results of Operations

Three-Month Period Ended June 30, 2005 versus 2004

Revenues of NutraCea remained relatively flat, increasing by \$8,236, to \$299,237 for the quarter ended June 30, 2005 from \$291,001 for the quarter ended June 30, 2004.

Cost of goods sold increased by \$37,911, to \$190,671 for the quarter ended June 30, 2005 from \$152,760 for the quarter ended June 30, 2004. The increase relates to increased ingredient and packaging costs.

Operating expenses decreased by \$784,620, to \$1,766,805 for the quarter ended June 30, 2005 from \$2,551,425 for the quarter ended June 30, 2004. Other decreases in expenses include commissions and finders fees in the amount of \$39,000 and marketing expense of \$25,820. Offsetting these decreases in expenses during the quarter ended June 30, 2005 was the increase in non-cash stock issuances of \$722,655 to \$722,655 from \$0 for the quarter ended June 30, 2004. These stock issuances related primarily to various service/consulting agreements entered into during the quarter.

A customer forfeited its \$100,000 deposit for the three months ended June 30, 2005 by terminating a technology rights agreement.

Interest expense increased by \$243,892, to \$243,892 for the quarter ended June 30, 2005 from \$0 for the quarter ended June 30, 2004. The increase is due to \$48,389 of interest expense on notes payable that were funded in December 2004 and amortization of debt discount of \$195,503 related to the same notes payable.

The net loss for the quarter ended June 30, 2005 was \$1,516,405 compared to a net loss of \$2,411,065 recorded for the quarter ended June 30, 2004. The lower net loss for the second quarter of 2005 was due primarily to the higher non-cash stock expensed during the second quarter of 2004.

Operating Results for the Six Months Ended June 30, 2005 and 2004

Revenues of NutraCea increased by \$345,475, to \$758,545 for the six months ended June 30, 2005 from \$413,070 for the six months ended June 30, 2004. The NutraGlo subsidiary accounted for 99% of the increase in revenues due to increased orders from its primary equine customer.

Table of Contents

Costs of goods sold increased by \$240,431 to \$471,856 for the six months ended June 30, 2005 from \$231,425 for the six months ended June 30, 2004. The increase in costs of goods sold generally reflects the increase in products sold by the NutraGlo subsidiary during the first six months of 2005.

Operating expenses decreased by \$17,821,202, to \$2,576,682 for the six months ended June 30, 2005 from \$20,397,884 for the six months ended June 30, 2004. Most of the decrease is due to reduced expenses related to non-cash stock and option awards in the first quarter of 2005 as compared to the same expenses in the amount of \$16,844,444 recorded in the first quarter of 2004. Other decreases in expenses include reduced commissions and finders fees in the amount of \$209,437 and marketing expense of \$69,558. In addition, salaries and wages decreased by approximately \$148,097 in the first six months of 2005 as compared to the same period in 2004 due primarily to non-recurring cash bonuses paid in the first six months of 2004 to the CEO and previous President.

A customer forfeited its \$100,000 deposit for the six months ended June 30, 2005 by terminating a technology rights agreement.

Interest expense increased substantially to \$479,648 for the six months ended June 30, 2005 from \$495 for the six months ended June 30, 2004. The increase is due to \$90,790 of interest expense on notes payable that were funded in December 2004 and amortization of debt discount of \$388,858 related to the same notes payable.

The net loss for the six months ended June 30, 2005 was \$2,664,777 compared to a net loss of \$20,222,050 recorded for the six months ended June 30, 2004. The lower net loss for the first six months of 2005 was due primarily to the higher non-cash stock and options expensed during the first six months of 2004.

Liquidity and Sources of Capital

NutraCea has incurred significant operating losses since its inception, and, as of June 30, 2005 NutraCea had an accumulated deficit of \$47,592,560. NutraCea used approximately \$400,000 of cash to fund operations during the quarter ended June 30, 2005 leaving a cash and cash equivalents balance of \$875,206 at June 30, 2005 and a working capital deficit of \$1,432,882. The cash is not deemed sufficient to cover our operating deficits, expanded business plan and growth, nor the repayment of debt obligations.

Table of Contents

To date, NutraCea has funded its operations, in addition to sales revenues, through a combination of short-term debt and the issuance of common and preferred stock. During the six months ended June 30, 2005, NutraCea has issued a total of 1,692,230 shares of common stock of which 1,686,230 shares were issued as compensation to officers and consultants of NutraCea. NutraCea continues to pursue cost cutting or expense deferral strategies in order to conserve working capital.

Due to NutraCea's limited cash flow and operating losses, it is unlikely that NutraCea could obtain financing through commercial or banking sources. Consequently, NutraCea is dependent on continuous cash infusions from major investors and the exercise of outstanding warrants and options in order to fund its current operations. If these sources of capital were unwilling or unable to provide additional working capital to NutraCea, NutraCea would probably not be able to sustain its full range of operations. There are no contractual obligations which would require NutraCea's past funding sources to fund NutraCea's future operations.

As of June 30, 2005, NutraCea's principal commitments include a lease commitment for NutraCea's corporate offices of \$ 6,366 per month that expires in September 2006 .

Management of NutraCea believes that it will need to raise additional capital to continue to develop, promote and conduct its operations. Such additional capital may be raised through public or private financing as well as borrowing from other sources. Although NutraCea believes that current and/or future investors will continue to fund NutraCea's expenses, there is no assurance that such investors will continue to fund NutraCea's ongoing operations or that the terms upon which such investments will be made will be favorable to NutraCea.

Critical Accounting Policies

NutraCea's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of financial statements requires managers to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses and disclosures on the date of the financial statements. On an on-going basis, NutraCea's accountants' evaluate the estimates, including, but not limited to, those related to revenue recognition. NutraCea uses authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates.

NutraCea has adopted the fair value based method of accounting prescribed in Financial Accounting Standards Board ("FASB") Statement No. 123, "Accounting for Stock-Based Compensation," for its employee stock option plans.

NutraCea has adopted SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13 and Technical Corrections" which requires gains and losses from extinguishment of debt to be reported as part of recurring operations.

ITEM 3.

CONTROLS AND PROCEDURES

NutraCea carried out an evaluation, under the supervision and with the participation of NutraCea's management, including NutraCea's President and Chief Executive Officer and NutraCea's Chief Financial Officer, of the effectiveness of the design and operation of NutraCea's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based upon that evaluation, NutraCea's President and Chief Executive Officer and NutraCea's Chief Financial Officer concluded that NutraCea's disclosure controls and procedures are effective to ensure the information required to be disclosed by NutraCea in reports filed or submitted under the Exchange Act were timely recorded, processed and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

Table of Contents

There have been no significant changes in NutraCea's internal controls over financial reporting or in other factors which occurred during the quarter covered by this report, which could materially affect or are reasonably likely to materially affect NutraCea's internal controls over financial reporting.

Each of the individuals or entities had access to information about NutraCea and was deemed capable of protecting their own interests. The securities were issued pursuant to the private placement exemption provided by Section 4(2) of the Securities Act of 1933. These are deemed to be "restricted securities" as defined in Rule 144 under the 1933 Act and bear a legend stating the restrictions on resale.

ITEM 5. OTHER INFORMATION

Proposed Merger with The RiceX Company

On April 4, 2005, NutraCea entered into an Agreement and Plan of Merger and Reorganization ("Merger Agreement") with The RiceX Company, a publicly held manufacturer and distributor of foods and ingredients made from stabilized rice bran whose stock is traded on the OTC Bulletin Board ("RiceX"). The signing of the Merger Agreement was announced on April 4, 2005 in a press release and a report on Form 8-K that NutraCea filed with the Securities and Exchange Commission. The Merger Agreement provides that, subject to the satisfaction of certain conditions, a wholly owned subsidiary of NutraCea will merge with and into RiceX, which will result in RiceX becoming a wholly-owned subsidiary of NutraCea ("Merger").

Table of Contents

At the effective time of the Merger, the stockholders of RiceX will receive shares of NutraCea common stock in exchange for their shares of RiceX common stock, and NutraCea will assume the outstanding options and warrants to purchase RiceX common stock. NutraCea anticipates that the aggregate number of shares of NutraCea common stock that will be issued to the holders of RiceX common stock upon the effective date of the Merger will be between approximately 28,000,000 and 36,000,000 shares. In addition, after the Merger, NutraCea anticipates that the RiceX security holders will hold between approximately 42% and 48% of the combined company on a fully diluted basis, which includes shares underlying NutraCea and RiceX options and warrants. The number of shares of NutraCea common stock issuable to RiceX stockholders is subject to adjustment based upon the market price of NutraCea common stock and the number of outstanding RiceX options and warrants on the effective date of the Merger.

The Merger Agreement calls for certain changes in NutraCea's corporate structure. First, it calls for NutraCea to increase the size of its board of directors from five to seven directors upon the effective date of the Merger, with NutraCea's board of directors immediately after consummation of the merger consisting of three representatives from NutraCea, three representatives from RiceX and one representative mutually designated by NutraCea and RiceX. In addition, it is currently a condition to consummation of the Merger that NutraCea's articles of incorporation be amended to increase the authorized number of NutraCea's common shares from 100,000,000 to at least 150,000,000 shares.

The closing of the transactions contemplated by the Merger Agreement is also subject to (i) approval by the respective stockholders of NutraCea and RiceX, (ii) holders of no more than 17% of the outstanding shares of NutraCea common stock having exercised dissenters' rights with respect to their shares by virtue of the Merger, and (iii) holders of no more than 5% of the outstanding shares of RiceX common stock having exercised dissenters' rights with respect to their shares by virtue of the Merger, and (v) other customary closing conditions.

As disclosed in previous filings made by NutraCea with the Securities and Exchange Commission ("SEC"), RiceX is NutraCea's principal supplier of stabilized rice bran, and NutraCea subleases its principal executive offices from RiceX. In addition, RiceX's Chairman of the Board and the former Chief Executive Officer, Daniel L. McPeak, Sr., is the spouse of Patricia McPeak, NutraCea's current Chief Executive Officer and director. Mr. McPeak recused himself from the vote taken by the board of directors of RiceX to approve the Merger. Additional information regarding these relationships can be found in NutraCea's Annual Report on Form 10-KSB for the year ended December 31, 2004 filed with the SEC on March 31, 2005.

On July 12, 2005 NutraCea and RiceX after a fairness hearing obtained a permit from the Commissioner of Corporations of the State of California pursuant to Section 25121 of the California Corporate Securities Law of 1968, allowing the issuance of NutraCea Common Stock in the Merger to be exempt from registration under Section 3(a)(10) of the 1933 Act.

Table of Contents

Additionally, options to purchase 360,000 shares of common stock of NutraCea at an exercise price of \$0.60 per share were issued at the effective date of the contract, with 45,000 options vesting at the signing of the contract and the remainder of the options vesting at 15,000 options per month over the next 21 months. All options that vest are locked up until December 31, 2007.

- The grant of marketing and distribution rights to the customer covering: 1) the right of first offer to market new products as may be developed by NutraCea or proposed to be developed by the customer for non-human markets; and 2) the right of first refusal in the event that a third party independently contacts NutraCea regarding the marketing and distribution of new, non-human products. Also, the customer agrees to use NutraCea as the exclusive manufacturer for any new, non-human products as defined. Additionally, NutraCea may earn a 5% royalty on new products on revenues exceeding specified annual volume levels.

On April 18, 2005 the Chairman and Chief Executive Officer of NutraCea signed a talent and license agreement with a term of two years with a direct response marketing company whereby she will receive a royalty of \$1 per unit sold resulting from infomercials that will demonstrate specific products of NutraCea. Royalty payments will be made by the direct response marketing company and are not an obligation of NutraCea.

Table of Contents

On April 19, 2005 NutraCea signed an agreement with a direct response marketing company to market and sell products through infomercials. The agreement is for one year and may be extended for an additional year. The agreement covers pricing of specific products at wholesale prices which will be private labeled for direct sale by the marketing company.
