Explanatory Note

This Form 8-K/A amends the Current Report on Form 8-K of Genesis Energy, L.P. (“Genesis”) filed with the United States Securities and Exchange Commission on November 29, 2010 related to Genesis’ acquisition of Valero Unit Investments, L.L.C, Valero Services, Inc., Valero Energy Corporation (collectively “Valero”)’s indirect 50% equity interest in Cameron Highway Oil Pipeline Company (“Cameron Highway”). This amendment is filed to include the financial statements and pro forma financial information required by Items 9.01(a) and 9.01(b) of Form 8-K and to include exhibits under Item 9.01(d) of Form 8-K.

Valero’s interest in Cameron Highway was held through two subsidiaries, with Valero CHOPS I, L.P. and Valero CHOPS II, L.P. each holding a 25% interest in Cameron Highway, and Valero CHOPS GP, L.L.C. holding the general partner interest in Valero CHOPS I, L.P. and Valero CHOPS II, L.P. The limited partner interest in Valero CHOPS I, L.P. and Valero CHOPS II, L.P. was held by another Valero wholly-owned subsidiary. The three acquired entities (Valero CHOPS I, L.P., Valero CHOPS II, L.P., and Valero CHOPS GP, L.L.C.) are collectively referred to as the “Acquired Entities”. The balance sheets of the Acquired Entities included, as their only assets, the combined 50% interest in Cameron Highway, reflected using the equity method of accounting. The balance sheets of the Acquired Entities included, as their only liabilities, intercompany loans owed to Valero, which were subject to intercompany debt agreements. The intercompany loans were created when Valero loaned funds to the Acquired Entities related to funding one-half of the construction cost of the Cameron Highway crude oil pipeline. Those Acquired Entities recorded and paid interest to Valero on the intercompany loans, using funds from distributions from CHOPS to make those payments. The income statements of the Acquired Entities include such entities’ equity in the earnings of CHOPS and intercompany interest expense charged by Valero. In the transaction between Genesis and Valero, Valero retained the responsibility for the intercompany obligations; therefore, Genesis only acquired the interests in Cameron Highway and assumed no liabilities in the Acquired Entities.

As Cameron Highway is a material investment to Genesis, we believe that the most meaningful information to provide to investors is related to the historical performance of Cameron Highway. Additionally, information on our investment in Cameron Highway will be included in our future SEC filings as long as Cameron Highway is a significant equity-method investment. We believe that it is more meaningful to provide investors with the information in the Form 8-K/A on the same basis as the information investors can expect to see in our future SEC filings. We have not included financial information on the Acquired Entities as such information provides no additional meaningful information to our investors. Therefore, as exhibits to this Form 8-K, we have included the financial statements of Cameron Highway as described in Item 9.01 below. These financial statements of Cameron Highway were also utilized to present the pro forma effects on the financial statements of Genesis of its investment in Cameron Highway as required under SEC Regulation S-X Article 11.
