MercadoLibre, Inc. (together with its subsidiaries us, we, our or the Company) is the largest online commerce ecosystem in Latin America based on unique visitors and page views.

Our platform is designed to provide users with a complete portfolio of services to facilitate commercial transactions. We are a market leader in e-commerce in each of Argentina, Brazil, Chile, Colombia, Costa Rica, Ecuador, Mexico, Peru, Uruguay and Venezuela, based on number of unique visitors and page views. We also operate online commerce platforms in the Dominican Republic, Honduras, Nicaragua, Salvador, Panama, Bolivia, Guatemala and Paraguay.

Through our platform, we provide buyers and sellers with a robust environment that fosters the development of a large e-commerce community in Latin America, a region with a population of over 644 million people and with one of the fastest-growing Internet penetration rates in the world. We believe that we offer technological and commercial solutions that address the distinctive cultural and geographic challenges of operating an online commerce platform in Latin America.

We offer our users an ecosystem of six integrated e-commerce services: the MercadoLibre Marketplace, the MercadoPago FinTech solution, the MercadoEnvios logistics service, the MercadoLibre Classifieds service, the MercadoLibre advertising solution and the MercadoShops online webstores solution.

The MercadoLibre Marketplace is a fully-automated, topically-arranged and user-friendly online commerce platform, which can be accessed through our website and mobile app. This platform enables both businesses and individuals to list merchandise and conduct sales and purchases online in a fixed-price format.

MercadoPago is our FinTech solution, designed to facilitate transactions both on and off our marketplaces by providing a mechanism that allows our users to securely, easily and promptly send and receive payments online. Away from our marketplaces, MercadoPago allows merchants to process payments on their websites and mobile apps as well as in their stores through QR and MPOS devices. It also enables users to transfer money in a simple way to each other. Through MercadoFondo, our users are able to invest the stored balance in their MercadoPago accounts at competitive rates and in a simple way. MercadoCredito, our lending solution, allows us to finance merchants working

capital needs and consumers purchases.

Through our MercadoEnvios logistics solution, we offer sellers on our platform technological and operational integration with third party carriers and other logistics service providers, as well as fulfillment and warehousing services. Sellers using our the solution are able to offer a uniform and seamlessly integrated shipping experience to their buyers at competitive prices.

Through our MercadoLibre Classifieds, our online classifieds listing service, our users can also list and purchase motor vehicles, real estate and services in all countries in which we operate. Classifieds listings differ from Marketplace listings as they only charge optional placement fees and never final value fees. Our classifieds pages are also a major source of traffic to our website, benefitting both the Enhanced Marketplace and non-Marketplace businesses.

Our MercadoLibre advertising platform enables businesses to promote their products and services on the Internet. Through this platform, MercadoLibre's sellers and large advertisers are able to display ads on our webpages.

Additionally, through MercadoShops, our online store solution, users can set-up, manage and promote their own online stores. These stores are hosted by MercadoLibre and offer integration with the rest of the ecosystem, namely our marketplaces and payment services. Users can select between a free model and a subscription-based model for enhanced functionalities and value added services on their store.

MercadoLibre also develops and sells enterprise software solutions to e-commerce business clients in Brazil.

History of MercadoLibre

In March 1999, Marcos Galperin, our co-founder and Chief Executive Officer, wrote MercadoLibre's business plan while working towards his master's degree in business administration at Stanford Business School. Shortly thereafter, he began to assemble a team of professionals to implement it. We were incorporated in Delaware in October 1999 and commenced operations in Argentina in August 1999. In August 2007, we completed our initial public offering.

Our Strategy

Our main focus is to serve people in Latin America by enabling wide access to retail and payments e-commerce services, providing compelling technology-based solutions that democratize commerce and money, thus contributing to the development of a large and growing digital economy in a region with a population of over 644 million people and one of the fastest-growing Internet penetration rates in the world.

We serve our buyers by giving them access to a broad and affordable variety of products and services, a selection we believe to be larger than otherwise available to them via other online and offline sources serving our Latin American markets. We believe we serve our sellers by giving them access to a larger and more geographically diverse user base at a lower overall cost and investment than offline venues serving our Latin American markets. Additionally, we provide payment settlement services to facilitate such transactions, and advertising solutions to promote them. We also serve our users by making capital more accessible through different credit products, fostering entrepreneurship and social mobility, with the goal of creating significant value for our stakeholders.

More broadly, we strive to make markets more efficient through technology and in that process generate value for our stockholders.

To achieve these objectives, we intend to pursue the following strategies:

- ***Continue to grow our payments solution.*** We intend to continue to invest in our MercadoPago platform, which currently includes our payments solution, MercadoCredito and MercadoFondo. We have already expanded our payments solution beyond facilitating transactions on MercadoLibre's Marketplace and are focused on continuing to offer new online and mobile payment solutions in addition to growing our online-to-offline (o2o) solutions. We envision MercadoPago as a powerful disruptive provider of inclusive end-to-end financial technology solutions that will continue to generate new types of payment services,

including services targeting segments of the population that have been historically underserved and operate in the informal economy. We believe we are well positioned to capitalize on a large opportunity in payments and FinTech in the Latin America region. In addition, MercadoCredito and

S-3

TABLE OF CONTENTS

MercadoFondo have allowed us to leverage our existing user base to offer new services for which demand is high in Latin America and we are focused on continuing to use our MercadoPago platform to identify and fill currently unfulfilled demand for these types of services.

Continue to improve the shopping experience for our users. We intend to continually enhance our e-commerce ecosystem in order to better serve individuals, brands, retailers and other businesses that want to buy or sell goods and services online in a convenient, simple and safe way. We are committed to continued investing in the development of new tools and technologies that facilitate web and mobile commerce on our platform. Within our constant focus on innovation, a key component of user experience is the vertical solutions we offer across key categories. We will continue to focus on improving the functionality of our websites and apps, building a verticalized experience in key categories, driving increased usage of our payments and shipping solutions to deliver a more efficient and safe shopping experience and providing our users with the help of a dedicated customer support department. We will continue to focus on increasing purchase frequency and transaction volumes from our existing users, including the development of our MercadoPuntos loyalty program for frequent buyers.

Continue to grow our business and maintain market leadership. We focus on growing our business, achieving as many scale-related competitive advantages and strengthening our position as a preferred commerce and payments platform in each of the markets in which we operate. We also intend to grow our business and maintain our leadership by taking advantage of the expanding potential user base that has resulted from the growth of Internet penetration rates in Latin America. We intend to achieve these goals through organic growth, by introducing our business in new countries and entering new category segments, by launching new transactional business lines, and through potential strategic acquisitions of key businesses and assets.

Expand into additional transactional service offerings. Our strategic focus is to enable online transactions of multiple types of goods and services throughout Latin America. Consequently, we strive to launch online transactional offerings in new product and service categories where we believe business opportunities exist. These new transactional offerings include, but are not limited to, efforts involving: (a) offering additional product categories in our marketplace, (b) expanding our presence in vehicle, real estate and services classifieds, (c) maximizing utilization of MercadoPago on our platform and expanding off-platform in online and offline transactions, (d) maximizing the value and usage of account money through investments in MercadoFondo, (e) maximizing utilization of MercadoEnvios, (f) expanding our MercadoCredito service, (g) offering enterprise software solutions to our online commerce business clients and (h) expanding our advertising offerings. We believe that a significant portion of our growth will be derived from these new or expanded product and service launches in the future.

Increase monetization of our transactions. We focus on improving the revenue generation capacity of our business by implementing initiatives designed to maximize the revenues we generate from transactions on our platform. Some of these initiatives include increasing our fee structure, selling advertising on our platform, offering other e-commerce services and expanding our fee-based features.

Take advantage of the natural synergies that exist between our services. We strive to leverage our various services and our MercadoPuntos loyalty program, to promote greater cross-usage and synergies, thereby creating a fully integrated ecosystem of e-commerce offerings. Consequently, we will continue to promote the adoption of our MercadoEnvios logistics solution, our advertising solution, and our MercadoPago payments solution on our Marketplace.

TABLE OF CONTENTS

Enhanced Marketplace

Enhanced Marketplace is comprised of MercadoLibre Marketplace Service and MercadoEnvios Service:

MercadoLibre Marketplace Service

The MercadoLibre Marketplace is an online commerce platform where buyers and sellers can engage in transactions for a wide range of goods and services. We believe that the MercadoLibre Marketplace allows sellers to reach a large consumer audience more cost-effectively than through traditional offline commerce channels or other online venues serving our Latin American markets. Our platform is a fully-automated, topically-arranged and user-friendly online commerce service which permits both businesses and individuals to list items and conduct their sales and purchases online. Any Internet user can browse through the various products and services that are listed on our website and register for free with MercadoLibre to list or purchase items and services. Additionally, sellers and advertisers can purchase, display and link advertising on our websites to promote their brands, businesses and products. The MercadoLibre Marketplace offers buyers a large selection of new and used items that we believe are often more expensive or otherwise hard to find through traditional offline sellers, such as brick-and-mortar retail establishments, offline classified advertisements, community bulletin boards, auction houses and flea markets.

Our MercadoLibre Marketplace is on the same technological platform in each of our operating countries. However, each country has its own standalone website on the MercadoLibre platform. For example, searches carried out on our Brazilian site show only results of listings uploaded on our Brazilian site and do not show listings from other MercadoLibre webpages.

Additionally, we launched a loyalty program called Mercado Puntos in Brazil, Argentina, Mexico, Colombia and Chile. This program allows buyers to accumulate points for each purchase made on our platform, and grants access to certain benefits (i.e., free shipping services) as buyers advance through levels.

MercadoEnvios Shipping Service

MercadoEnvios is a shipping service for marketplace users, available in Brazil, Argentina, Mexico, Colombia, Chile and Uruguay. Through MercadoEnvios, we offer sellers on our platform cost-efficient integration with third-party logistics and shipping carriers, as well as fulfillment and warehousing services. This program offers a uniform and seamlessly integrated shipping experience to buyers at competitive prices.

Non-Marketplace Services

Non-Marketplace Services are comprised of our MercadoPago Service, MercadoLibre Classifieds Service, MercadoLibre Advertising Service, MercadoShops Webstores Service and other ancillary businesses:

MercadoPago

Payments Service

To complement the MercadoLibre Marketplace and also to enhance the user experience for our buyers and sellers, we developed MercadoPago in 2004. MercadoPago, an integrated online payments solution, was initially designed to facilitate transactions on MercadoLibre's Marketplaces by providing a mechanism that allowed our users to securely, easily and promptly send and receive payments. Our payments solution enables any MercadoLibre registered user to securely and easily send and receive payments online and also to pay for purchases made on MercadoLibre's Marketplaces. Currently, MercadoPago processes and settles all transactions on our Marketplaces in Brazil, Argentina,

Mexico, Chile, and Colombia, and is also available for our buyers and sellers in Perú and Uruguay.

Beyond facilitating Marketplace transactions over the years we have been expanding our array of MercadoPago services to third parties outside of MercadoLibre's Marketplaces. We began by addressing the growing demand for online-based payment solutions in Latin America through our merchant service business, providing a digital payment infrastructure for e-commerce to flourish in Latin America.

S-5

TABLE OF CONTENTS

MercadoPago's merchant service business allows merchants to facilitate checkout and payment processes on their websites through a branded or white label solution or software development kits, while also enabling users to simply transfer money to each other either through the website or using the MercadoPago app. Through MercadoPago we brought trust to the merchant-customer relationship, allowing online consumers to shop easily and safely, while giving them the confidence to share sensitive personal and financial data with us.

As we deployed our online-based payments solutions, we also observed that individuals, micro merchants and small and medium-sized enterprises (SMEs) in the physical world were being underserved or overlooked by incumbent payment providers and financial institutions in Latin America and that a very large number of retail transactions were settled in cash throughout the region. Consequently, we are now also aggressively deepening our payments offering by growing our online-to-offline (o2o) products and services. We envision MercadoPago as a powerful disruptive provider of inclusive end-to-end financial technology solutions that will generate financial inclusion to segments of the population that have been historically underserved and operate in the informal economy. Therefore, we currently offer in our main locations solutions for:

- In-store physical payments by selling MPOS and quick response (QR) payment codes.
- Digital payment solutions for utilities, mobile phone top up, peer-to-peer payments and more through our mobile wallet.
- Pre-paid cards for users to spend and withdraw their account balances from their MercadoPago wallet, as well as co-branded credit cards in Argentina.
- Merchant credits on and off the MercadoLibre Marketplace and Consumer Credits on the MercadoLibre Marketplace.
- A money market fund to invest balances on MercadoPago accounts, which we market under the name MercadoFondo.

In July 2015 we began to expand our O2O payments offering by launching our MPOS initiative in Brazil, MercadoPago Point, which allows long-tail merchants, SMEs, and individuals not only to receive in-person payments, but most importantly enables them to offer installments on the products and services they historically sold only for cash. Our MPOS solution allows merchants and individuals to process physical credit and debit cards, either by reading the chip and entering a personal identification number (PIN) or by swiping it. Our MPOS device was designed specifically to fit the needs of underserved or overlooked individuals and SMEs, as we do not require a rental fee for the device and offer a competitive transaction fee structure that gives them the flexibility to advance their sales. It also gives these users access to our full suite of FinTech solutions by integrating with the MercadoPago app and pre-paid card, without needing a bank account. We subsequently launched our physical point-of-sale solution in Argentina and Mexico during 2016.

The results of our MPOS business not only have been encouraging, but also have given us greater confidence that we are well positioned to capitalize on a large opportunity in payments and FinTech in the region. Since its launch, MercadoPago Point has already grown to represent almost 50% of our off-platform payment volume on a consolidated basis and, in Brazil, total payment volume coming from MPOS devices is already more than double the volume of our online merchant service business.

MercadoCredito

We launched MercadoCredito, our credit solution, during the fourth quarter of 2016 in Argentina and during 2017 in Brazil and Mexico. MercadoCredito leverages our user base, which is not only loyal and engaged, but also has been historically underserved or overlooked by financial institutions and suffers from a lack of access to needed credit. Facilitating credit is a key service overlay that enables us to further strengthen the engagement and lock-in rate of our users, while also generating additional touchpoints and incentives to use MercadoPago as an end-to-end financial solution. Initially, we began offering credit to our merchants, given our ability to easily distribute funds to merchants

and our in-depth understanding of their sales history on the MercadoLibre Marketplace. This has also allowed us to develop our own proprietary credit risk models with unique data that differentiate our scoring from

S-6

TABLE OF CONTENTS

traditional financial institutions, as we are able to leverage machine learning and artificial intelligence algorithms that we historically used for fraud prevention. Additionally, because our merchants' business flows through MercadoPago, we are able to collect principal and interest payments from their existing sales on MercadoLibre's Marketplaces, meaningfully reducing the risk of uncollectability on the loans we originate to our merchants.

Having identified a similar opportunity to fill a gap in terms of demand for credit, we have begun to originate working capital loans to merchants who adopt our MPOS solution. Merchant credit to MPOS merchants was launched in Argentina and Brazil during the second half of 2018.

Because a significant segment of the population in Latin America does not have access to credit cards, and given that the access to credit is a prohibitive factor for consumers when purchasing high-ticket items, we have also identified a significant opportunity for consumer lending. We have begun to extend consumer credit to our buyers as well, leveraging their existing data on MercadoLibre's Marketplaces and the distribution from our marketplace to proactively offer loans to them. Consumer credits were introduced in Argentina in 2017 and Brazil in 2018.

MercadoFondo

During the second half of 2018, we launched our asset management product for individuals in Argentina and for individuals and businesses in Brazil. This product is a critical pillar to building our alternative two-sided network vision. It incentivizes our users to begin to fund their digital wallets with cash as opposed to credit or debit cards given that the return our product offers is greater than that of traditional checking accounts.

With a seamless onboarding, this product allows users to withdraw and use the value stored in their digital wallets at any time through QR code in-store payments, pre-paid cards, or cash withdrawn from an ATM, without requiring that their funds be trapped in a money market fund or a certificate of deposit to obtain an equivalent return.

This product is another way in which we continue to innovate, leveraging the rising trust in third-party e-commerce platforms and low levels of formal sector financial inclusion, which generate a unique opportunity for investment products aimed at users in Latin America who are unbanked or underbanked.

MercadoLibre Classifieds Service

The MercadoLibre Classifieds Service enables users to list their offerings related to motor vehicles, vessels, aircraft, real estate and services outside the Marketplace platform. Classifieds listings differ from Marketplace listings, as they only charge optional placement fees instead of final value fees. Our classifieds pages are also a major source of traffic to our website, benefitting both Marketplace and non-Marketplace businesses.

MercadoLibre Advertising Service

The MercadoLibre Advertising platform enables large retailers and various other consumer brands to promote their products and services on the Internet by providing branding and performance marketing solutions. Advertisers place product ads, display or banner advertisements in order to promote their brands and offerings on our webpages and our associated sites in the region. Advertisers can purchase improved search standing and/or specific categories, on a cost-per-click basis or per-impression basis. Our integrated advertising solutions allow brands to create the complete consumer discovery experience on our platform.

MercadoShops Webstores Service

MercadoShops is a software-as-a-service, fully hosted online store solution. Through MercadoShops, users can set-up, manage and promote their own webstores. These webstores are hosted by MercadoLibre and offer integration with the other marketplace and payment services we offer. Users can choose from a basic, free webstore or pay monthly subscriptions for enhanced functionality and added services on their webstores.

S-7

TABLE OF CONTENTS

Marketing

Our marketing strategy is designed to grow our platform by promoting the MercadoLibre brand, attracting new users and generating more frequent trading by our existing users. To this end, we employ various means of advertising, including placement in leading online channels across Latin America, paid and organic positioning in leading search engines, email and push notification marketing, onsite marketing and presence in offline events. During 2018, we also carried out a complete coverage of promotional campaigns on commercial dates such as child's day, mother's day, father's day, Christmas and dates specific to the e-commerce industry such as Hot Sale, Cybermonday and Black Friday. We also ran video advertisements in Mexico, Colombia and Chile designed to improve awareness of some of the functional attributes of our products such as free shipping (for qualifying purchases) and our buyer protection program. Our expenditures in marketing activities were \$249.6 million during 2018, \$175.2 million during 2017 and \$72.0 million during 2016.

Product Development and Technology

At December 31, 2018, we had 2,409 employees on our information technology and product development staff, an increase from 754 employees at December 31, 2017, due to new hires and as a consequence of improvements in our ecosystem products such as MercadoCredito, our loyalty program MercadoPuntos and MercadoEnvios, which increased our information technology and product development staff. We incurred product development expenses (including salaries) in the amount of \$146.3 million in 2018, \$127.2 million in 2017 and \$98.5 million in 2016.

We continually work to improve both our MercadoLibre Marketplace and MercadoPago websites so that they better serve our users' needs and function more efficiently. A significant portion of our information technology resources are allocated to these purposes. We strive to maintain the right balance between offering new features and enhancing the existing functionality and architecture of our software and hardware.

The adequate management of the MercadoLibre Marketplace and MercadoPago software architecture and hardware requirements is as important as introducing additional and better features for our users. Because our business has grown relatively fast, we must ensure that our systems are capable of absorbing this incremental volume. Therefore, our engineers work to optimize our processes and equipment by designing more effective ways to run our platform.

We develop most of our software technology in-house. We have a development center in Buenos Aires where we concentrate the majority of our development efforts and a center in the province of San Luis in Argentina, which is a collaborative effort with the Technological University of La Punta. In this effort, the University offers us access to dedicated development facilities and a recruiting base for potential employees. We also opened a development center in Aguada Park, Montevideo, Uruguay, that is dedicated to software development activities and development centers in the Provinces of Córdoba, Mendoza, Entre Rios and Santa Fe in Argentina. We also have other research and/or development centers in Brazil, Chile and Uruguay.

While we have developed most of our software technology in-house, we have made acquisitions in the past to enhance our software development capabilities, and we outsource certain projects to outside developers. We believe that outsourcing the development of certain projects allows us to have a greater operating capacity and strengthens our internal know-how by incorporating new expertise into our business. In addition, our developers frequently interact with technology suppliers and attend technology-related events to familiarize themselves with the latest inventions and developments in the field.

We also rely on certain technologies that we license from third parties, suppliers of key database technology, operating system and specific hardware components for our services.

Since 2010, we have been continuously working on a deep technology overhaul to switch from a closed and monolithic system to an open and decoupled one. We are splitting MercadoLibre into many small cells. A cell is a functional unit with its own team, hardware, data and source code. Cells interact with each other using Application Programming Interfaces, or APIs. All the Front-Ends are also being rewritten on top of these APIs. This effort has consumed a large amount of capital, people and

management's focus, and we intend to keep investing in this area. In October 2012, we opened our platform to the developer community during a launch event in Sao Paulo, Brazil. We seek to further open our platform to developers in the other locations in which we operate, with the objective of continuing to enhance our ecosystem.

We anticipate that we will continue to devote significant resources to product development in the future as we add new features and functionality to our services. The market in which we compete is characterized by rapidly changing and disruptive technologies, evolving industry and regulatory standards, frequent new service and product announcements, introductions and enhancements and changing customer demands. Accordingly, we believe the cornerstone of our future success will depend on our ability to adapt to rapidly changing technologies, to adapt our services to evolving industry and regulatory standards and to continually improve the performance, features, user experience and reliability of our services in response to competitive product and service offerings and evolving demands of the marketplace.

Dividend policy

During 2016 and 2017, we paid quarterly dividends on shares of our common stock. After reviewing the Company's capital allocation process the Board of Directors concluded that the Company has multiple investment opportunities that could generate greater return to shareholders through investing capital in the business rather than paying a regular quarterly dividend. Consequently, the decision was made to suspend the payment of dividends to shareholders as of the first quarter of 2018. All dividends are declared at the discretion of our Board of Directors and depend on our earnings, our financial condition and other factors as our Board of Directors may deem relevant from time to time.

TABLE OF CONTENTS**Non-GAAP Measures of Financial Performance**

To supplement our audited consolidated financial statements presented in accordance with U.S. GAAP, we use foreign exchange (FX) neutral measures as a non-GAAP measure.

This non-GAAP measure should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. GAAP and may be different from non-GAAP measures used by other companies. In addition, this non-GAAP measure is not based on any comprehensive set of accounting rules or principles. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with U.S. GAAP. This non-GAAP financial measure should only be used to evaluate our results of operations in conjunction with the most comparable U.S. GAAP financial measures.

Reconciliation of this non-GAAP financial measure to the most comparable U.S. GAAP financial measures can be found in the table included below.

Non-GAAP financial measures are provided to enhance investors' overall understanding of our current financial performance. Specifically, we believe that reconciliation of FX neutral measures to the most directly comparable GAAP measure provides investors an overall understanding of our current financial performance and its prospects for the future. Specifically, we believe these non-GAAP measures provide useful information to both management and investors by excluding the foreign currency exchange rate impact that may not be indicative of our core operating results and business outlook.

The FX neutral measures for 2018 were calculated by using the average monthly exchange rates for each month during 2017 and applying them to the corresponding months in 2018, so as to calculate what our results would have been had exchange rates remained stable from one year to the next. The table below excludes intercompany allocation FX effects. Finally, these measures do not include any other macroeconomic effect such as local currency inflation effects, the impact on impairment calculations or any price adjustment to compensate local currency inflation or devaluations.

The following table sets forth the FX neutral measures for 2018 related to our reported results of the operations for years ended December 31, 2018 and 2017:

TABLE OF CONTENTS**U.S. FEDERAL TAX CONSIDERATIONS**

The following discussion describes material U.S. federal income tax and estate tax consequences of the ownership and disposition of shares of our common stock. This discussion deals only with shares of our common stock held as capital assets by investors who purchase shares of our common stock in this offering. This discussion does not cover all aspects of U.S. federal income taxation that may be relevant to the ownership or disposition of shares of our common stock by prospective investors in light of their specific facts and circumstances. In particular, this discussion does not address all of the tax considerations that may be relevant to persons in special tax situations, including banks, insurance companies or other financial institutions, dealers in securities, persons that will hold more than 5% of our common stock, certain former citizens or residents of the United States, controlled foreign corporations or passive foreign investment companies, persons holding shares of our common stock as part of a hedge, straddle, conversion or other integrated financial transaction, a partnership or other pass-through entity for U.S. federal income tax purposes, or that are otherwise subject to special treatment under the Internal Revenue Code of 1986, as amended (the Code). This section does not address any other U.S. federal tax considerations (such as the gift tax, the Medicare tax on net investment income or estate tax considerations applicable to U.S. Holders as defined below) or any state, local or non-U.S. tax considerations. You should consult your own tax advisors about the tax consequences of the ownership and disposition of shares of our common stock in light of your own particular circumstances, including the tax consequences under state, local, non-U.S. and other tax laws and the possible effects of any changes in applicable tax laws.

For purposes of this discussion, a U.S. Holder means a beneficial owner of shares of our common stock that is an individual citizen or resident of the United States, a domestic corporation or otherwise subject to U.S. federal income tax on a net basis with respect to income from our common stock. A non-U.S. beneficial owner for whom income from our common stock is effectively connected with the conduct of a U.S. trade or business is treated as a U.S. Holder for these purposes. A Non-U.S. Holder means any beneficial owner of shares of our common stock that is not a U.S. Holder.

Furthermore, this discussion is based on the tax laws of the United States, including the Code, existing and proposed regulations promulgated thereunder, administrative and judicial interpretations, all as currently in effect. Such authorities may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive basis, so as to result in U.S. federal income tax or estate tax consequences different from those discussed below.

Tax Consequences to U.S. Holders

Dividends. A distribution paid on shares of our common stock, other than certain *pro rata* distributions of such shares, will be treated as a dividend to the extent paid out of current or accumulated earnings and profits and will be includible in income by the U.S. Holder and taxable as ordinary income when received. If a distribution exceeds our current and accumulated earnings and profits, the excess will be first treated as a tax-free return of the U.S. Holder's investment, up to the U.S. Holder's tax basis in the shares of our common stock. Any remaining excess will be treated as a capital gain. Dividends received by a non-corporate U.S. Holder will be eligible to be taxed at reduced rates if the U.S. Holder meets certain holding period and other applicable requirements. Dividends received by a corporate U.S. Holder will be eligible for the dividends-received deduction if the U.S. Holder meets certain holding period and other applicable requirements.

Sale, Exchange or Other Taxable Disposition of Common Stock. For U.S. federal income tax purposes, gain or loss a U.S. Holder realizes on the sale or other disposition of shares of our common stock will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder held the shares of our common stock for more than one year. The amount of the U.S. Holder's gain or loss will be equal to the difference between the amount realized on the disposition and the U.S. Holder's tax basis in the shares of our common stock. Long-term capital gains recognized by

non-corporate U.S. Holders will be subject to reduced tax rates. The deductibility of capital losses may be subject to limitations.

TABLE OF CONTENTS

Tax Consequences to Non-U.S. Holders

Dividends. Dividends paid to a Non-U.S. Holder generally will be subject to U.S. federal withholding tax at a 30% rate, or such lower rate as may be specified by an applicable tax treaty. Even if a Non-U.S. Holder is eligible for a lower treaty rate, we and other payers will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to a Non-U.S. Holder, unless the Non-U.S. Holder has furnished a valid Internal Revenue Service (IRS) Form W-8BEN or Form W-8BEN-E or other documentary evidence establishing the Non-U.S. Holder's entitlement to the lower treaty rate with respect to such payments and the withholding agent does not have actual knowledge or reason to know to the contrary.

If a Non-U.S. Holder is eligible for a reduced rate of U.S. federal withholding tax pursuant to an applicable income tax treaty or otherwise, the Non-U.S. Holder generally may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Investors are encouraged to consult with their own tax advisors regarding the possible implications of these withholding requirements on their investment in shares of our common stock.

Sale, Exchange or Other Taxable Disposition of Common Stock. Non-U.S. Holders generally will not be subject to U.S. federal income tax with respect to gain recognized on a sale, exchange or other taxable disposition of shares of our common stock.

U.S. Federal Estate Tax. Shares of our common stock held (or deemed held) by an individual Non-U.S. Holder at the time of his or her death will be included in the Non-U.S. Holder's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Foreign Account Tax Compliance Act

Under the U.S. tax rules known as the Foreign Account Tax Compliance Act (FATCA), a Non-U.S. Holder of common stock will generally be subject to a 30% U.S. withholding tax on dividends in respect of our common stock if the Non-U.S. Holder is not FATCA compliant, or holds its common stock through a foreign financial institution that is not FATCA compliant. In order to be treated as FATCA compliant, a Non-U.S. Holder must provide us or an applicable financial institution certain documentation (usually an IRS Form W-8BEN or W-8BEN-E) containing information about its identity, its FATCA status, and if required, its direct and indirect U.S. owners. These requirements may be modified by the adoption or implementation of a particular intergovernmental agreement between the United States and another country or by future U.S. Treasury Regulations. We will not pay any additional amounts to holders of our common stock in respect of any amounts withheld. Prospective investors should consult their tax advisors regarding the possible implications of these rules for their investment in our common stock.

Documentation that Non-U.S. Holders provide in order to be treated as FATCA compliant may be reported to the IRS and other tax authorities, including information about a Non-U.S. Holder's identity, its FATCA status, and if applicable, its direct and indirect U.S. owners. Prospective investors should consult their own tax advisors about how information reporting and the possible imposition of withholding tax under FATCA may apply to their investment in our common stock.

Information Reporting and Backup Withholding

Information returns will be filed with the IRS with respect to payments of dividends and in connection with the sale or other disposition of shares of our common stock by certain U.S. Holders and may be filed in connection with the sale or other disposition of shares of our common stock by Non-U.S. Holders. In addition, certain U.S. Holders may be subject to backup withholding in respect of such payments if they do not provide their taxpayer identification numbers

to the applicable payor, fail to certify that they are not subject to backup withholding, or otherwise fail to comply with applicable backup withholding tax rules. Non-U.S. Holders may be required to comply with applicable certification procedures to establish that they are Non-U.S. Holders in order to avoid the application of certain information reporting requirements and backup withholding. Any amount paid as backup withholding may be creditable against the beneficial owner's U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

The underwriters are obligated to take and pay for all of the shares of common stock offered by this prospectus supplement if any such shares are taken. However, the underwriters are not required to take or pay for the shares covered by the underwriters' option to purchase additional shares described below.

The underwriters initially propose to offer part of the shares of common stock directly to the public at the offering price listed on the cover page of this prospectus supplement and part to certain dealers at a price that represents a concession not in excess of \$5.616 per share under the public offering price. After the initial offering of the shares of common stock, the underwriters may change the offering price and may offer shares from time to time for sale in negotiated transactions or otherwise, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices, subject to receipt and acceptance by them and subject to their right to reject any order in whole or in part. Sales of shares made outside of the United States may be made by affiliates of the underwriters.

The underwriters have an option to buy up to 312,500 additional shares of common stock from the Company to cover sales of shares by the underwriters which exceed the number of shares specified in the table above. The underwriters have 30 days from the date hereof to exercise this option to purchase additional shares. If any shares are purchased with this option to purchase additional shares, the underwriters will purchase those shares in approximately the same proportions as shown in the table above. If any additional shares of common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered. Goldman Sachs & Co. LLC will act as sole stabilization agent in connection with this offering.

The following table shows the per share and total public offering price, underwriting discounts and commissions, and proceeds before expenses to the Company, assuming no exercise and full exercise of the option granted to the underwriters to purchase additional shares.

TABLE OF CONTENTS

We and each of our executive officers and directors have entered into lock-up agreements with the underwriters under which they have agreed that, without the prior written consent of Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC, on behalf of the underwriters, we and they will not, during the period ending 90 days after the date of this prospectus:

- offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock beneficially owned (as such term is used in Rule 13d-3 of the Securities Exchange Act of 1934) by them or any other securities so owned convertible into or exercisable or exchangeable for shares of our common stock or publicly announce the intention to do any of the foregoing;
- enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of our common stock, whether any such transaction described above is to be settled by delivery of our common stock or such other securities, in cash or otherwise; or
- participate in the filing of any registration statement with the SEC relating to the offering of any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock.

The restrictions described in the immediately preceding paragraph do not apply to:

- i. the sale of shares of our common stock to the underwriters;
- ii. the issuance by us of shares of common stock upon the exercise of an option or a warrant or the conversion of a security outstanding on the date hereof of which the underwriters have been advised in writing; transactions by an executive officer or director relating to shares of our common stock or other securities acquired in open market transactions after the completion of this offering; provided that no filing under Section 16(a) of the Securities Exchange Act of 1934 is required or voluntarily made in connection with subsequent sales of our common stock or other securities acquired in such open market transactions;
- iii. transfers by an executive officer or director of shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock as a bona fide gift;
- iv. the filing by us of any registration statement on Form S-8 or a successor form; the establishment of a trading plan pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934 for the transfer of shares of common stock, provided that (i) such plan does not provide for the transfer of common stock during the 90 day restricted period and (ii) to the extent a public announcement or filing under the Securities Exchange Act of 1934, if any, is required or voluntarily made by or on behalf of us regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of common stock may be made under such plan during the 90 day restricted period;
- v. the transfer or sale by a director or executive officer of our securities by operation of law, such as pursuant to a domestic relations order, pursuant to a will or in connection with a divorce settlement;
- vi. transfers by a director or executive officer of our securities to any immediate family member, trusts for the direct or indirect benefit of such director or executive officer or the immediate family members of such director or executive officer or any of their successors upon death; and
- vii. forfeitures of securities to us by a director or executive officer during the 90 day restricted period only to satisfy tax withholding requirements;
- viii. ix.

provided, that in the case of any transfer or distribution pursuant to clause (iv), (vii) or (viii) above, each donee, distributee or transferee shall agree to be bound by the lock-up restrictions, subject to the foregoing exceptions; and *provided, further*, that in the case of any transfer or distribution pursuant to clause (iv),

TABLE OF CONTENTS

(vii) or (viii), no filing under Section 16(a) of the Securities Exchange Act of 1934 reporting a reduction in beneficial ownership of shares of our common stock, shall be required or shall be voluntarily made during the 90 day restricted period (and any such filing relating to a transfer or distribution under clause (ix) shall briefly note the applicable circumstances that cause such clause to apply and explain that the filing relates solely to transfers or distributions falling within the category described in the relevant clause).

Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC, in their sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time.

In order to facilitate the offering of the common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the option to purchase additional shares. The underwriters can close out a covered short sale by exercising the option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the option to purchase additional shares. The underwriters may also sell shares in excess of the option to purchase additional shares, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase shares in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of common stock in the open market to stabilize the price of the common stock. These activities may raise or maintain the market price of the common stock above independent market levels or prevent or retard a decline in the market price of the common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act of 1933.

A prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

One of the members of our board, Alejandro Nicolás Aguzin, serves as the CEO of the International Private Bank and CEO of J.P. Morgan Asia Pacific, an affiliate of J.P. Morgan Securities LLC, one of the underwriters in this offering.

Canada

The shares of our common stock may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of shares of our common stock must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Chile

The shares are not registered in the Securities Registry (Registro de Valores) or subject to the control of the Chilean Securities and Exchange Commission (Superintendencia de Valores y Seguros de Chile). This prospectus supplement and other offering materials relating to the offer of the shares do not constitute a public offer of, or an invitation to subscribe for or purchase, the shares in the Republic of Chile, other than to individually identified purchasers pursuant to a private offering within the meaning of Article 4 of the Chilean Securities Market Act (Ley de Mercado de Valores) (an offer that is not addressed to the public at large or to a certain sector or specific group of the public).

European Economic Area

In relation to each member state of the European Economic Area (each, a Member State), no offer of any shares of our common stock which are the subject of the offering has been, or will be made to the public in that Member State, other than under the following exemptions under the Prospectus Directive:

S-24

TABLE OF CONTENTS

(a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
(b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the representatives for any such offer; or
(c) in any other circumstances falling within Article 3(2) of the Prospectus Directive,
provided that no such offer of shares of our common stock referred to in (a) to (c) above shall result in a requirement for us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person located in a Member State to whom any offer of shares of our common stock is made or who receives any communication in respect of an offer of shares, or who initially acquires any shares will be deemed to have represented, warranted, acknowledged and agreed to and with the representatives and us that (1) it is a qualified investor within the meaning of the law in that Member State implementing Article 2(1)(e) of the Prospectus Directive; and (2) in the case of any shares of our common stock acquired by it as a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offer have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Member State other than qualified investors, as that term is defined in the Prospectus Directive, or in circumstances in which the prior consent of the representatives has been given to the offer or resale; or where shares have been acquired by it on behalf of persons in any Member State other than qualified investors, the offer of those shares to it is not treated under the Prospectus Directive as having been made to such persons.

We, the representatives and our and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgments and agreements.

This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of shares of our common stock in any Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Member State of shares which are the subject of the offering contemplated in this prospectus supplement and the accompanying prospectus may only do so in circumstances in which no obligation arises for the Company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the representatives have authorized, nor do they authorize, the making of any offer of shares of our common stock in circumstances in which an obligation arises for us or the representatives to publish a prospectus for such offer.

For the purposes of this provision, the expression offer of shares of our common stock to the public in relation to any shares of our common stock in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC (as amended) and includes any relevant implementing measure in each Member State.

The above selling restriction is in addition to any other selling restrictions set out in this section.

MercadoPago is our FinTech solution, designed to facilitate transactions both on and off our marketplaces by providing a mechanism that allows our users to securely, easily and promptly send and receive payments online. Away from our marketplaces, MercadoPago allows merchants to process payments on their websites and mobile apps as well as in their stores through QR and MPOS devices. Through our MercadoLibre Classifieds, our online classifieds listing service, our users can also list and purchase motor vehicles, real estate and services in all countries in which we operate. Classifieds listings differ from Marketplace listings as they only charge optional placement fees and never final value fees. Our classifieds pages are also a major source of traffic to our website, benefitting both the Enhanced Marketplace and non-Marketplace businesses.

Our MercadoLibre advertising platform enables businesses to promote their products and services on the Internet. Through this platform, MercadoLibre's sellers and large advertisers are able to display ads on our webpages.

Additionally, through MercadoShops, our online store solution, users can set-up, manage and promote their own online stores. These stores are hosted by MercadoLibre and offer integration with the rest of the ecosystem, namely our marketplaces and payment services. Users can select between a free model and a subscription-based model for enhanced functionalities and value added services on their store.

MercadoLibre also develops and sells enterprise software solutions to e-commerce business clients in Brazil.

DESCRIPTION OF OUR CAPITAL STOCK

The following summary of some of the terms of our capital stock is subject to and qualified in its entirety by reference to Delaware law, our amended and restated certificate of incorporation and by-laws, each of which is filed as an exhibit to the registration statement of which this prospectus is a part.

General matters

Our authorized capital stock consists of (1) 110,000,000 shares of common stock, par value \$0.001 per share, and (2) 40,000,000 shares of preferred stock, par value \$0.001 per share.

All of our existing stock is validly issued, fully paid and non-assessable. The discussion set forth below describes the most important terms of our capital stock, our amended and restated certificate of incorporation and our by-laws. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description you should refer to our amended and restated certificate of incorporation and by-laws and the registration rights agreement referred to below, copies of which have been filed as exhibits to the registration statement of which this prospectus is a part, and to the applicable provisions of the Delaware General Corporation law.

Common stock

Set forth below is a brief discussion of the principal terms of our common stock.

Dividend rights

Holders of our common stock are entitled to receive dividends ratably, if as and when dividends are declared from time to time by our board of directors out of funds legally available for that purpose. The board of directors may, in its sole discretion, increase or decrease the amount of the quarterly dividend per share, change the frequency with which the dividend is paid or eliminate or reinstate the dividend.

As of January 1, 2018, our board of directors declared the suspension of the payment of dividends to shareholders and we currently do not pay a quarterly dividend on shares of our common stock. All dividends are declared at the discretion of our board of directors and depend on our earnings, our financial condition and other factors as our board of directors, in its sole discretion, may deem relevant from time to time.

Voting rights

Each outstanding share of our common stock is entitled to one vote on all matters submitted to a vote of holders of our common stock, except for stockholders that beneficially own more than 20% of the shares of our outstanding common stock, in which case any shares of stock above such 20% do not have voting rights. The holders of common stock do not have cumulative voting rights in the election of directors.

Preemptive or similar rights

Our common stock is not entitled to preemptive or other similar subscription rights to purchase any of our securities.

Right to receive liquidation distributions

Upon our liquidation, dissolution or winding up, the holders of our common stock are entitled to receive pro rata our assets which are legally available for distribution, after payment of all debts and other liabilities and subject to the

prior rights of any holders of preferred stock then outstanding.

Conversion rights

Our common stock has no conversion rights.

NASDAQ listing

Our common stock is listed on the NASDAQ Global Select Market under the symbol MELI.

TABLE OF CONTENTS

Preferred stock

Our board of directors may, without further action by our stockholders, from time to time, direct the issuance of shares of preferred stock in series and may, at the time of issuance, determine the rights, preferences and limitations of each series. Satisfaction of any dividend preferences of outstanding shares of preferred stock would reduce the amount of funds available for the payment of dividends on shares of common stock. Holders of shares of preferred stock may be entitled to receive a preference payment in the event of our liquidation, dissolution or winding-up before any payment is made to the holders of shares of common stock. Under specified circumstances, the issuance of shares of preferred stock may render more difficult or tend to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of our securities or the removal of incumbent management. Upon the affirmative vote of a majority of the total number of directors then in office, the board of directors, without stockholder approval, may issue shares of preferred stock with voting and conversion rights which could adversely affect the holders of shares of common stock. We have no shares of preferred stock outstanding.

Anti-takeover effects of the Delaware general corporation law and our amended and restated certificate of incorporation and by-laws

Our amended and restated certificate of incorporation and by-laws contain certain provisions that are intended to enhance the likelihood of continuity and stability in the composition of the board of directors and which may have the effect of delaying, deferring or preventing a future takeover or change in control of the company unless such takeover or change in control is approved by the board of directors, including:

Advance notice procedures

Our by-laws establish an advance notice procedure for stockholder proposals to be brought before an annual meeting of our stockholders, including proposed nominations of persons for election to the board of directors. Stockholders at an annual meeting may only consider proposals or nominations specified in the notice of meeting or brought before the meeting by or at the direction of the board of directors or by a stockholder who was a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has given our Secretary timely written notice, in proper form, of the stockholder's intention to bring that business before the meeting. Although the by-laws do not give the board of directors the power to approve or disapprove stockholder nominations of candidates or proposals regarding other business to be conducted at a special or annual meeting, the by-laws may have the effect of precluding the conduct of certain business at a meeting if the proper procedures are not followed or may discourage or defer a potential acquiror from conducting a solicitation of proxies to elect its own slate of directors or otherwise attempting to obtain control of us.

No cumulative voting

The General Corporation Law of the State of Delaware, or DGCL, provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our amended and restated certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation expressly provides that no stockholder shall be entitled to cumulate votes in the election of directors.

No stockholder action by written consent

The DGCL permits stockholder action by written consent unless otherwise provided by our amended and restated certificate of incorporation. Our amended and restated certificate of incorporation precludes stockholder action by written consent.

Business combinations under Delaware law

We are subject to the provisions of Section 203 of the DGCL regulating corporate takeovers. In general, Section 203 prohibits a publicly-traded Delaware corporation from engaging, under certain circumstances, in a business combination with an interested stockholder for a period of three years following the date the person became an interested stockholder unless certain conditions are met.

Authorized but unissued shares

Our authorized but unissued shares of common stock and preferred stock are available for future issuance without stockholder approval. These additional shares may be utilized for a variety of corporate purposes, including

TABLE OF CONTENTS

future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of a majority of our common stock by means of a proxy contest, tender offer, merger or otherwise.

Ability to adopt a stockholder rights plan

Our amended and restated certificate of incorporation provides our board of directors the authority to adopt a stockholder rights plan, which, if adopted, could render more difficult or discourage an attempt to obtain control of a majority of our common stock by means of a proxy contest, tender offer, merger or otherwise.

Classified board of directors

Our board of directors is classified in three classes, with each class elected every year for a term of three years. This would delay the ability of a majority stockholder to gain majority representation in our board of directors.

Removal of directors

Our stockholders may not remove directors other than for cause, which consists of a declaration of unsound mind by an order of a court of competent jurisdiction, conviction of a felony or of an offense punishable by imprisonment for a term of more than one year by a court of competent jurisdiction, or declaration of liability by a court of competent jurisdiction for gross negligence or willful misconduct in the performance of such director's fiduciary duties. If cause exists, a vote of two-thirds of our stockholders is required for such director's removal.

Amendment to our amended and restated certificate of incorporation and by-laws

Our amended and restated certificate of incorporation and by-laws provide that the anti-takeover provisions therein can only be amended or repealed with a vote of two-thirds of our stockholders. This would make any majority stockholder that does not have a two-thirds majority unable to amend any takeover protections in our amended and restated certificate of incorporation or by-laws and therefore preclude such stockholder from exercising control over our management.

Voting limitations

Each outstanding share of our common stock is entitled to one vote on all matters submitted to a vote of holders of our common stock, except for stockholders that beneficially own more than 20% of the shares of our outstanding common stock, in which case our board of directors may declare that any shares of stock above such 20% do not have voting rights.

Transfer agent and registrar

Computershare serves as the transfer agent and registrar for our common stock.

PLAN OF DISTRIBUTION

We may sell the securities from time to time pursuant to underwritten public offerings, negotiated transactions, block trades or a combination of these methods or through underwriters or dealers, through agents and/or directly to one or more purchasers. (As used under this caption Plan of Distribution, the term securities means the common stock offered by this prospectus and any applicable prospectus supplement, unless otherwise expressly stated or the context otherwise requires). The securities may be distributed from time to time in one or more transactions, each of which will be described in the applicable prospectus supplement and which may include transactions:

- at a fixed price or prices, which may be changed from time to time;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

Each time that we sell securities covered by this prospectus, we will provide a prospectus supplement or supplements that will describe the method of distribution and set forth the terms and conditions of the offering of such securities, including (i) the name or names of any underwriters, dealers or agents and the amounts of securities underwritten or purchased by each of them; (ii) if a fixed price offering, the public offering price of the securities; (iii) any options under which underwriters may purchase additional securities from us; (iv) any underwriting discounts or commissions or agency fees and other items constituting underwriters or agents compensation; (v) terms and conditions of the offering; and (vi) any discounts, commissions or concessions allowed or reallocated or paid to dealers.

Offers to purchase the securities being offered by this prospectus may be solicited directly. Agents may also be designated to solicit offers to purchase the securities from time to time. Any agent involved in the offer or sale of our securities will be identified in a prospectus supplement.

If a dealer is utilized in the sale of the securities being offered by this prospectus, the securities will be sold to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale.

If an underwriter is utilized in the sale of the securities being offered by this prospectus, an underwriting agreement will be executed with the underwriter at the time of sale and the name of any underwriter will be provided in the prospectus supplement that the underwriter will use to make resales of the securities to the public. In connection with the sale of the securities, we or the purchasers of securities for whom the underwriter may act as agent, may compensate the underwriter in the form of underwriting discounts or commissions. The underwriter may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for which they may act as agent. Unless otherwise indicated in a prospectus supplement, an agent will be acting on a best efforts basis and a dealer will purchase securities as a principal, and may then resell the securities at varying prices to be determined by the dealer.

Any compensation paid to underwriters, dealers or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers, will be disclosed in the applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act of 1933, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. We may enter into agreements to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments they may be required to make in respect thereof and to reimburse those persons for certain expenses.

To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their option, if any, to purchase additional securities from us. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be

TABLE OF CONTENTS

reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. None of the persons participating in any such offering will be obligated to engage in these transactions and these transactions, if commenced, may be discontinued at any time.

If indicated in the applicable prospectus supplement, underwriters or other persons acting as agents may be authorized to solicit offers by institutions or other suitable purchasers to purchase the securities at the public offering price set forth in the prospectus supplement, pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. These purchasers may include, among others, commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions. Delayed delivery contracts will be subject to the condition that the purchase of the securities covered by the delayed delivery contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the purchaser is subject. The underwriters and agents will not have any responsibility with respect to the validity or performance of these contracts.

The underwriters, dealers and agents may engage in transactions with us, or perform services for us, in the ordinary course of business for which they receive compensation.
