ADVANCE TECHNOLOGIES, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE COMPANY)

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Condensed - Advance Technologies, Inc. and Subsidiary ("the Company") Has elected to omit substantially all footnotes to the financial statements for the six months ended March 31, 2006 since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on Form 10-KSB for the fiscal year ended September 30, 2005.

Unaudited Information - The information furnished herein was taken from the books and records of the Company without audit. However, such Information reflects all adjustments (normal recurring) which are, in the

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

opinion of management, necessary to properly reflect the results of the interim periods presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

Reclassification Certain amounts in prior-year financial statements have been reclassified for comparative purposes to conform with presentation in the current-year financial statements.

Recent Accounting Standards - Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections a replacement of APB Opinion No. 20 and FASB Statement No. 3," was recently issued and is effective for fiscal years beginning after December 15, 2005. Had the Company applied the provisions of SFAS No. 154, their effects on the financial statements would not have been significant.

NOTE 2 - RESTATEMENT

Subsequent to filing its Form 10-KSB for the year ended September 30, 2005, the Company discovered that (1) its revenues had been recorded on a cash basis rather than accrual, (2) its revenues had not been recorded net of discounts, (3) officer and director compensation had not been accrued, and (4) interest had not been imputed on non-interest-bearing related party loans. The restatement had the following effects on the amounts presented herein:

September 30, 2005

NOTE 3 SUBSEQUENT EVENT

In April 2006, the Company formed a wholly-owned Nevada subsidiary named Infrared Systems International.

9

ADVANCE TECHNOLOGIES, INC. AND SUBSIDIARY
(A DEVELOPMENT STAGE COMPANY)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The management discussions contain certain forward-looking statements and information that are based on the beliefs of management as well as assumptions made by and information currently available to management. When used in this document, the words "anticipate," "believe," "estimate," "expect," "intend," "will," "plan," "should," "seek," and similar expressions, are intended to identify forward-looking statements. Such statements reflect the current view of management regarding future events

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

and are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual actions or results may vary materially from those described herein as anticipated, believed, estimated, expected or intended.

The following discussion and analysis should be read in conjunction with the company's consolidated financial statements and related footnotes for the quarter ended March 31, 2006. The discussion of results, causes and trends should not be construed to imply any conclusion that such results or trends will necessarily continue in the future.

Results of Operations

EXECUTIVE SUMMARY

(A) Advanced Technologies Inc. has been receiving royalty income from Kollsman Inc. Since August 12, 2002. This income is computed and paid on a quarterly basis. Income fluctuates within quarterly intervals, variations of +/- 30% are typical.

(B) Advance Technologies operations are based upon the present on going sales revenue (royalties from Kollsman) and new business operations focused on creating additional revenue in the future.

The Kollsman revenues have resulted from sales of Enhanced Vision Systems to Gulfstream. The contract with Gulfstream continues, and the sales provide a stay source of income to Advance Technologies.

Gulfstream has indicated they are pleased with the EVS and have contracted for an improved EVS (EVS II) for both their new aircraft sales and a retrofit market for sales of earlier models in previous years. No projects have been provided by either Gulfstream Aerospace Corporation or Kollsman for this market.

Kollsman has signed a contract with FedEx for future sales of EVS II to FedEx. These sales are contingent upon FedEx receiving EVS certification for each aircraft type and model. The total FedEx sales have been estimated at 300 systems. It is anticipated that the sales will be between 5 10 units per month.

The revenue to the company from Gulfstream & FedEx royalties is expected to double by the end of 2006 and double again by the end of 2007.

10

Advance Technologies Inc. will be providing consultation and export sales to United Integrated Services Inc., a Taiwan Corporation in 2006. The income from the sales will be approximately \$200,000, and the expense incurred is approximately \$190,000. Since the contract is a time & material, there is no incurred risk beyond potential loss of profit.

Advance Technologies Inc. is pursuing a new product (Infrared Security System). The funds for this new venture will be obtained from investment sources without liability to Advance Technologies Inc. Therefore, no incurred expense or set aside provisions for future expense has been made.

(c) There are no off-balance sheet arrangements.

MAJOR ACTIVITY

Highlights of Second Quarter

The Enhanced Vision System project continues with on going sales by Kollsman to Gulfstream. These sales generally track the new aircraft deliveries by Gulfstream. The retrofit market for Gulfstream continues at a slow rate.

The introduction of EVS II for FedEx remains on schedule, with certification anticipated before the end of 2006. When EVS II is placed in production for FedEx it is expected that the Gulfstream retro-fit program for older models of their G series aircraft, which will use the new EVS II will increase.

United Integrated Services Inc. of Taiwan has informed ATI that they plan on proceeding forward with the purchase and export of the 50 NV-2000 cameras authorized under our Dept. of Commerce Export license D326061, validated Sep 21, 2004, expires Sep. 30 2006. The NV-2000 Cameras components are produced in Taiwan and exported to ATI. ATI purchases the detectors, and install the detectors in the Cameras for export as a complete IR camera. 25 NV-2000 Cameras will be exported in May, and another 25 Cameras are scheduled for September.

ATI has formed a subsidiary company to pursue the Infrared Security System (ISS) opportunity. This wholly owned, Infrared Systems International (ISIX or I-6) has been licensed by ATI for the intellectual property pertaining to ISS. The ISS project requires a major effort that encompasses advance technology in the areas of Infrared, Image Processing, Wireless conductivity, Advanced Server Design, and Security Response Providers.

Our initial discussions under binding Non-disclosure agreements have been positive. As a result of these discussions the Board of Directors of ATI recognizes the need to form ISIX. ISIX, as an arms length extension of ATI, allows the structuring of the development team where equality participation, exclusive or limited rights, preferred vendor relationships and consultants can be accommodated consisted with the scope of the ISS project. The ISS license agreement for ISS is attached as Exhibit 33.1 to this filing.

Recreational Vehicle Systems Inc. is completing their incorporation filing, and hopes to initiate operations this quarter. The degree of ATI's participation, if any, will evolve over the next several months.

11

ATI continues to utilize the services of an SEC Attorney on retainer, and contract for bookkeeping services on a time and material basis. This has substantially added to our cost of ensuring that we are and remain fully compliant to all SEC regulations.

SIX MONTHS ENDED MARCH 31, 2006 COMPARED WITH THE SIX MONTHS ENDED MARCH 31, 2005

NET SALES

Net sales for the company were approximately \$11,100 for the six month period ending on March 31, 2006 as compared to approximately \$6,653 for the

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

same period a year earlier. The \$6,653 for last year included \$2,453 consulting fee. For the three month period ending on March 31, 2006 sales were \$4,800 as compared to \$5,753 for the same period last year. The increase in sales resulted from the total quantity of EVS units exceeded the "royalty free" threshold in early 2005. The total sales of EVS by our licensee were essentially the same.

GROSS PROFIT

The gross profit was the same as the NET PROFIT. Since Royalty income or consulting fees have no cost of goods, the gross and net profits would be the same.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Operating expense for the 6 month period ending March 31, 2006 was \$38,962 as compared to \$26,834 for the same six month period in 2005. The operating expenses for the three month period ending on March 31, 2006 were \$23,371 versus \$9,911 in 2005. The major increase in our operating cost can be attributed to two factors. First additional controls and procedures that have been implemented to ensure the company reporting are fully compliant with Oxley Sarbanes requirements and other SEC reporting. This represented about \$5,000 increase in expense over prior periods. The second expense is the inclusion of the cost for the President (\$6,000 per quarter), and Board of directors (\$2,000 per quarter). This resulted in a \$16,000 loss for the six month period that included the \$8,000 loss for the three month period.

OTHER INCOME AND EXPENSE

For the six month period this year income expense was \$2,919 versus \$2,696 in 2005. Interest expense for the three month period ending March 31, 2006 was \$1,487 compared to \$1,435 in the like period of 2005.

NET PROFIT (LOSS) BEFORE PROVISIONS FOR INCOME TAXES

The net loss for the six month period ending March 31, 2006 was \$30,781 versus \$22,877 in 2005

The company's net loss for the 3 months ending on March 31, 2006 was \$20,058 versus \$5,593 for the same three month period in 2005. The major cost item for the company has been the changes in reporting and the compensation for the President and the Board of Directors. Part of this cost was a one time change over associated with a new system. We expect that these costs will be reduced as our new procedures become a routine. That, coupled with the likely potential for additional revenues in 2006 should reduce or eliminate our loss in the future.

12

THREE MONTHS ENDED MARCH 31, 2006 COMPARED WITH THE THREE MONTHS ENDED MARCH 31, 2006:

NET SALES

For the three month period ending on March 31, 2006 sales were \$4,800 as compared to \$5,753 for the same period last year. The increase in sales resulted from the total quantity of EVS units exceeded the "royalty free" threshold in early 2005.

GROSS PROFIT

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

The gross profit was the same as the NET PROFIT. Since Royalty income or consulting fees have no cost of goods, the gross and net profits is the same.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

The operating expenses for the three month period ending on March 31, 2006 were \$23,371 versus \$9,911 in 2005. The major increase in our operating cost can be attributed to two factors. First additional controls and procedures that have been implemented to ensure the company reporting are fully compliant with Oxley Sarbanes requirements and other SEC reporting. This represented about \$5,000 increase in expense over prior periods. The second expense is the inclusion of the cost for the President (\$6,000 per quarter), and Board of directors (\$2,000 per quarter). This resulted in a loss \$8,000 loss for the three month period.

OTHER INCOME AND EXPENSE

Interest expense for the three month period ending March 31, 2006 was \$1,487 compared to \$1,435 in the like period of 2005.

NET PROFIT (LOSS) BEFORE PROVISION FOR INCOME TAXES

The company's net loss for the 3 months ending on March 31, 2006 was \$20,058 versus \$5,593 for the same three month period in 2005. The major cost item for the company has been the changes in reporting and the compensation for the President and the Board of Directors. Part of this cost was a one time change over associated with a new system. We expect that these costs will be reduced as our new procedures become a routine.

LIQUIDITY AND CAPITAL RESOURCES

The company's primary source of revenues is from royalties from our EVS licensee Kollsman. Our Royalties reported as revenues are net royalties with the gross revenue at 2.27 times the reported royalties. The reduction to net royalties is caused by the repayment of advance royalties as specified in the Kollsman License Agreement. Based upon current sales, the advance royalties will be fully paid by the end of 2006. This will cause our net income to jump by a factor of 2.67 on the same number of sales.

The other source of income comes from our Agent agreement with United Integrated Service Co. LTD, Taiwan. The collaboration with UIS has allowed our company to be coupled into the Far East market. This Agent relationship in 2006 will add between 4 and 6 thousand dollars to our net earnings. The gross sale will be in excess of \$200,000, but the cost of goods at approximately 95% of the gross sales. This small margin reflects the low risk nature of the transaction.

13

The company has formed a wholly owned subsidiary called I-6. The Infrared Security System has been licensed to I-6. Under terms of the license (see exhibit 10.1), I-6 has issued a promissory note to the company for \$100,000. This note when collected will defer internal expenses, the most notable being for a patent attorney to complete the ISS patent filed last November 6, 2005.

The company income has not been sufficient for meeting our expenses, as a result our short term debt has increased slightly and the President has loan additional money to the company, see discussion under OPERATIONS.

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

I-6 expects to receive investment funds from ISS Associates for considerations limited to the ISS Venture. The company stands to benefit through the success of I-6, but is structured to be insulated from any liability. Investments in I-6 will be separately reported, but as part of Advance Technologies Inc. for the immediate future.

OPERATIONS

The company operated at a substantial loss over the last six months of \$30,781. \$16,000 of this loss was financed by the issuing of preferred restricted shares at a 100% of face value to the President and Board of Directors. The company has a short term corporate credit line that was used to offset several thousands dollars. And lastly, the President loaned the company an additional \$4,000.

The reduction in audit and compliance costs through procedural efficiency combined with increase in revenue by the end of 2006 are judged to be adequate to preclude further selling of shares to raise capital.

INVESTING

The company made no investments during this reporting period.

FINANCING

The company believes that no additional financing will be required, and present interim financing will meet all of our short term needs until royalties will cover all of our expenses.

Item 3. Controls and Procedures

The President/CEO/CFO maintains direct control over all financial proceeding of the company.

The President reviews all expenditures and reconciles the all income and expenses through the Corporate Bank account. The President is the only person authorized for this account. This procedure has been used since the original company was established in 1993.

The President maintains budget control, and the Board of Directors authorizes any new expenses.

14

PART II OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended March 31, 2006, the Company issued or approved the issuance of an aggregate of 340,000 shares of AVTX Preferred Stock to four directors or employees of the Company in consideration for services provided to the Company. The transactions were non-public offerings of securities exempt from registration under the Securities Act of 1933, as amended, by virtue of Section 4(2) thereof.
