Edgar Filing: MARKETSHARE RECOVERY INC - Form 8-K/A

of bioMETRX Technologies, Inc.

Item 2.01 Completion of Acquisition or Disposition of Assets

Introduction

On May 27, 2005, we completed the merger ("Merger") of MarketShare Merger Sub, Inc., a wholly owned subsidiary of the Company ("Merger Sub") with bioMetrX, Technologies, Inc., a Delaware corporation ("bioMetrX") pursuant to the Agreement and Plan of Merger dated April 27, 2005, by and among the Company Merger Sub and bioMetrX ("Merger Agreement").

The Transactions

On June 1, 2005 (the "Effective Date"), Merger Sub, our wholly owned subsidiary, filed a Merger Certificate completing the acquisition of bioMetrX, a previously unaffiliated Delaware corporation. The consideration for the Merger was 14,218,424 restricted shares of our common stock and the issuance of approximately 182,026 stock options to the holders of corresponding instruments in bioMetrX. The Merger was completed according to the terms of the Merger Agreement. Simultaneously with the Merger, certain of our stockholders surrendered 2,208,521 shares of our common stock which was cancelled and returned to the status of authorized and unissued. In addition, 300,000 shares of our common stock were deposited by these stockholders into escrow to cover contingent liability, if any. Our shares of common stock were issued in reliance upon Section 4(2) and 4(6) of the Securities Act of 1933, as amended (the "Act"). As a result of the Merger, bioMetrX was merged into Merger Sub and became our wholly owned subsidiary.

Since we had no meaningful operations immediately prior to the Merger, the Merger will be treated as a reorganization of bioMetrX via a reverse merger with the MarketShare Recovery, Inc. for accounting purposes.

The 14,000,000 shares and the shares issuable upon the exercise of 402,500 stock options issued as part of the Merger to the former bioMetrX stockholders represent approximately 90% of total outstanding post-merger stock.

Founded in 2001, bioMetrX, Technologies, Inc. is developing a line of home security products under the trade name SmartTouch(TM) which includes biometrically enabled thermostats, garage/gate openers, central station keypads, and residential door locks. More detailed information is furnished pursuant to Item 7.01 below.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
bioMetrX Technologies, Inc.

We have audited the accompanying balance sheet of bioMetrX Technologies, Inc. (A Development Stage Company) ("the Company") as of December 31, 2004, and the related statements of operations, changes in stockholders' deficit and cash flows for the years ended December 31, 2004 and 2003 and for the period August 1, 2001 (inception) to December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial

Edgar Filing: MARKETSHARE RECOVERY INC - Form 8-K/A

statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. Also, an audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of bioMetrX Technologies, Inc. as of December 31, 2004 and the results of its operations and its cash flows for the years ended December 31, 2004 and 2003 and for the period August 1, 2001 (inception) to December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company is a development stage company whose operations have generated recurring losses and cash flow deficiencies for the years ended December 31, 2004 and 2003. In addition, as of December 31, 2004 the Company has a significant working capital deficit and stockholders' deficit. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(Information as of March 31, 2005 and for the three months ended March 31, 2005 and 2004 is unaudited)

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates- The preparation of financial statements in conformity in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising Costs - Advertising costs are expensed as incurred. Advertising expenses for the years ended December 31, 2004 and 2003 was \$4,484 and \$1,830, respectively.

Income Taxes - The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109 "Accounting for Income Taxes". SFAS No. 19 requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carry forwards.

Research and Development - Research and development costs are expensed as incurred.

Fair Value of Financial Instruments - The carrying value of the Company's financial instruments, including cash and cash equivalents, loans receivable, accounts payable and accrued expenses approximated fair value because of the short maturity of these instruments.

Recently-Enacted Accounting Standards - Statement of Financial Accounting Standards ("SFAS") No. 146, "Accounting for Costs Associated with Exit or Disposal Activities", SFAS No. 147, "Acquisitions of Certain Financial Institutions - an Amendment of FASB Statements No. 72 and 144 and FASB Interpretation No. 9", SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an Amendment of FASB Statement No. 123", SFAS No. 149, "Amendment of Statement 33 on Derivative Instruments and Hedging Activities", and SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", were recently issued. SFAS No. 146, 147, 148, 149 and 150 have no current applicability to the Company or their effect on the financial statements would not have been significant.

NOTES TO FINANCIAL STATEMENTS

(Information as of March 31, 2005 and for the three months ended March 31, 2005 and 2004 is unaudited)

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently-Enacted Accounting Standards (Continued) - In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement No. 123R ("SFAS 123R") "Share Based Payment, "a revision of Statement No. 123, "Accounting for Stock Based Compensation." This standard requires the Company to measure the cost of employee services received in exchange for equity awards based on grant date fair value of the awards. The Company is required to adopt SFAS 123R effective January 1, 2006. The standard provides for a prospective application. Under this method, the Company will begin recognizing compensation cost for equity based compensation for all new or modified grants after the date of adoption.

In addition, the Company's policy will be to recognize the unvested portion of the grant date fair value of awards issued prior to the adoption based on the fair values previously calculated for disclosure purposes. At December 31, 2004, the Company had no unvested options.

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Non-monetary Assets," ("SFAS 153"). SFAS 153 amends Accounting Principles Board ("APB") Opinion No. 29, Accounting for Non-monetary Transactions," to require exchanges of non-monetary assets are accounted for at fair value, rather than carryover basis. Non-monetary exchanges that lack commercial substance are exempt from this requirement.

SFAS 153 is effective for non-monetary exchanges entered into in fiscal years beginning after June 15, 2005. The Company does not routinely enter into exchanges that could be considered non-monetary; accordingly the Company does not expect adoption of SFAS 153 to have a material impact on the Company's financial statements.

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities - an Interpretation of Accounting Research Bulletin No. 51" (FIN No. 46"). This interpretation provides guidance related to identifying variable interest entities (previously known generally as special purpose entities or SPEs) and determining whether such entities should be consolidated. Certain disclosures are required when FIN No. 46 becomes effective if it is reasonably possible that a company will consolidate or disclose information about a variable interest entity when it initially applies FIN No. 46. This interpretation must be applied immediately to variable interest entities created or obtained after January 31, 2003. For those variable interest entities created or obtained on or before January 31, 2003, the Company must apply the provisions of FIN No. 46 for the year ended December 31, 2003. FIN No. 46 did not apply to the Company's financial position or results of operations.

NOTE 3 - GOING CONCERN

Edgar Filing: MARKETSHARE RECOVERY INC - Form 8-K/A

The Company has incurred net losses of \$768,214 and \$526,536 during the years ended December 31, 2004 and 2003, respectively. In addition, the Company had a working capital deficiency of \$558,869 and a stockholders' deficiency of \$558,869 at December 31, 2004. These factors raise substantial doubt about the Company's ability to continue as a going concern.

There can be no assurance that sufficient funds required during the next year or thereafter will be generated from operations or that funds will be available from external sources such as debt or equity financings or other potential sources. The lack of additional capital resulting from the inability to generate cash flow from operations or to raise capital from external sources would force the Company to substantially curtail or cease operations and would, therefore, have a material adverse effect on its business. Furthermore, there can be no assurance that any such required funds, if available, will be available on attractive terms or that they will not have a significant dilutive effect on the Company's existing stockholders.

The accompanying financial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern.

During the year ended December 31, 2004, the Company relied on issuance of common stock for its financing needs through private placements by raising an aggregate of \$362,000 through Private Placements of the Company's common stock.

The Company is attempting to address its lack of liquidity by raising additional funds from the private sale of debt or equity securities or some combination thereof. During the quarter ended March 31, 2005 the Company raised an aggregate of \$705,000 through private placements of the Company's common stock.

There can be no assurance that the Company will be able to raise the additional funds it requires.

NOTE 4 - RESTRICTED CASH

Restricted cash represents cash held in escrow by corporate counsel in connection with the sale of common stock and in contemplation of the proposed merger. Such restricted cash should be released after satisfaction of certain requirements of the merger agreement (see Note 10).

Officer/shareholder advances - These advances are non-interest bearing, unsecured, and payable on demand. These advances were made to the Company's CEO and majority stockholder.

Due from Related Party - This amount represents funds advanced in connection with the Company's proposed merger (see Note 10).

NOTE 7 - INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No.109, "Accounting for Income Taxes". SFAS No.109 requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carry-forwards. At December 31, 2004, the Company has an available net operating loss carry-forward of approximately \$1,407,000, which may be applied against future taxable income, if any, thru 2024. NOTE 7 - INCOME TAXES (Continued)

At December 31, 2004 the Company had provided a 100% valuation allowance for the deferred tax assets, because the ultimate realizations of those assets are uncertain.

The Company has not recorded a tax benefit because realization of the tax benefit is uncertain and therefore a valuation allowance has been fully provided against the deferred tax asset. The difference between the Federal Statutory rate of 34% and the Company's effective tax rate of 0% is due to an increase in the valuation allowance of approximately \$169,000 and \$136,000 in 2004 and 2003, respectively.

NOTE 8 - CONCENTRATIONS CREDIT RISK

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash and cash equivalents.
