Attachment A

Set forth below is preliminary consolidated results of operations data for Acorn Factor, Inc. (the "Company") for the quarter ended September 30, 2006 and comparative data for the same period in 2005. The data for 2006 is subject to change pending finalization of the accounting for the Company's acquisition of an interest in Paketeria in the third quarter. Numbers are in thousands.

Sales. Sales increased from \$782 for the third quarter ended 2005 to \$923 for the third quarter ended 2006, due to increased RT Solutions sales and other non-segment sales partially offset by a decrease in IT Solutions sales.

Gross profit. Gross profits increased from \$152 in the third quarter of 2005 to \$276 in the third quarter of 2006, as a result of increased gross profits in our RT Solutions segment. The decrease in IT Solutions gross profit during the quarter was offset by an almost comparable increase in other non-segment gross profit.

Operating expenses. Operating expenses increased from \$1,012 in the third quarter of 2005 to \$1,856 in the third quarter of 2006 due to the inclusion in 2006 of \$0.8 million in selling, marketing, general and administrative expenses with respect to SFAS 123R stock compensation expense. In 2005, the Company did not record any stock option compensation expense with respect to SFAS 123R.

Net loss. The net loss for the third quarter ended 2006 increased to \$1,651 from \$127 in the third quarter of 2005, primarily as a result of the sale in August 2005 of our dsIT outsourcing consulting business in Israel, the sale in March 2006 of our Databit Inc. subsidiary (which are both accounted for as discontinued operations), and the increase in operating expenses described above.
