PART I - FINANCIAL INFORMATION

Renhuang Pharmaceuticals, Inc. has restated its Quarterly Report on Form 10-Q. This Quarterly Report is for the quarter ended July 31, 2006, and was originally filed with the Commission on Form 10-QSB on September 18, 2006. The purpose of this amendment is to correctly file this Quarterly Report on Form 10-Q rather than as a 10-QSB, since, under Reg. § 228.10 of Regulation S-B, a reporting company that is not a small business company must meet the definition of a small business issuer at the end of two consecutive fiscal years before it will be considered a small business issuer for purposes of using Form 10-QSB. We have not met the definition of a small business issuer at the end of two consecutive fiscal years because we have not had revenues of less than \$25,000,000 at the end of two consecutive fiscal years. Consequently, we must file this Annual Report on Form 10-Q rather than on Form 10-QSB. References throughout this Quarterly Report are accurate as of the date originally filed. We have not undertaken to update all of the information in this Quarterly Report, but instead have only (i) added the additional Item numbers and information required for a non-small business issuer filing a Quarterly Report on Form 10-Q; (ii) revised the Unaudited Proforma Condensed Consolidated Statement of Income contained in Note 7 to the financial statements in order to reduce our revenue and selling expenses as the commission/rebate expenses should be net off against the revenue, rather than being reported as selling expenses and included in the revenue respectively; and (ii) changed the voice throughout this Quarterly Report from third-person to first-person. Please read all of our filings with the Commission in conjunction with this Quarterly Report.

This Quarterly Report includes forward-looking statements within the meaning of the Securities Exchange Act of 1934 (the "Exchange Act"). These statements are based on management's beliefs and assumptions, and on information currently available to management. Forward-looking statements include the information concerning possible or assumed future results of operations of the Company set forth under the heading "Management's Discussion and Analysis of Financial Condition or Plan of Operation." Forward-looking statements also include statements in which words such as "expect," "anticipate," "intend," "plan," "believe," "estimate," "consider" or similar expressions are used.

Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions. The Company's future results and shareholder values may differ materially from those expressed in these forward-looking statements. Readers are cautioned not to put undue reliance on any forward-looking statements.

NOTE 1. BUSINESS DESCRIPTION

Renhuang Pharmaceuticals, Inc., (“Renhuang”) or the (“Company”) was incorporated in the State of Nevada on August 18, 1988 as Solutions, Incorporated. Since that time, we have undergone a series of name changes as follows: Suarro Communications, Inc., e-Net Corporation, e-Net Financial Corp., e-Net.Com Corporation, e-Net Financial.Com Corporation, Anza Capital, Inc. and finally on July 28, 2006 we changed our name to Renhuang Pharmaceuticals, Inc.

On March 3, 2006 the Company discontinued its operations as disclosed in our Current Report 8 K/A dated and filed with the Commission on March 15, 2006, incorporated herein by reference.

On September 7, 2006 the Company acquired Harbin Renhuang Pharmaceutical Company Limited, a Corporation incorporated under the laws of the British Virgin Island on January 18, 2006, (“BVI”) including its 100% owned and only subsidiary, Harbin Renhuang Pharmaceutical Co. Ltd., incorporated under the laws of the Peoples Republic of China on February 15, 2006 (“Renhuang China”) in exchange for issuing 29,750,000 shares of the Company's common stock, par value \$0.001 per share (the "Common Stock") to the BVI's stockholders, representing 85% of the Company's capital stock on a fully diluted basis after taking into account the contemplated transaction. This transaction is referred to throughout this report as the “Merger”.

Upon closing of the Merger, BVI became a wholly owned subsidiary of the Company. After giving effect to the Merger, the Company has 34,999,601 shares issued and outstanding and the former stockholders of BVI own approximately 85% of the issued and outstanding Common Stock of the Company. Accordingly, the Merger represents a change in control of the Company.

Shares of the Company's Common Stock are trading on the NASD-Over the Counter (OTC) Bulletin Board Market under the symbol RHGP.

For accounting purposes, the Merger has been accounted for as a reverse acquisition with the shell as the accounting acquiree and Renhuang China as the accounting acquirer. Upon effectiveness of the Merger, Renhuang China's business plan became the business plan of the Company.

The Merger agreement was filed as Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on August 29, 2006 and is incorporated herein by reference. The foregoing description of the Merger and the transactions contemplated thereby do not purport to be complete and are qualified in their entireties to the Merger agreement.

On August 31, 2006, the Company's Board of Directors approved the Merger.

Unless otherwise provided in this current report, all references in this current report to “we”, “us”, “our company”, “our”, or the “Company” refer to the combined Renhuang Pharmaceuticals, Inc. entity.

**PRO FORMA
CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR RENHUANG PHARMACEUTICALS, INC.
INCORPORATED UNDER THE LAWS OF NEVADA**

AS OF JULY 31, 2006

The following un-audited pro forma condensed consolidated financial statements combine the historical balance sheets of Harbin Renhuang Pharmaceutical Co., Ltd., incorporated in the People's Republic of China, ("Renhuang China") with the historical balance sheet of Renhuang Pharmaceuticals, Inc., ("Renhuang") at July 31, 2006, and their respective income statements for the three months ended July 31, 2006, giving effect to the reverse merger between Renhuang China and Renhuang as if the merger had taken place on November 1, 2003.

Because Renhuang China's owners as a group retained or received the larger portion of the voting rights in the combined entity and Renhuang China's senior management represents a majority of the senior management of the combined entity, Renhuang China was considered the acquirer for accounting purposes and we will account for the exchange transaction as a re-capitalization of Renhuang China.

We provide the following information to aid you in your analysis of the financial aspects of the reverse merger, referred to elsewhere in this Current 8 K Report as the Merger. We derived this information for Renhuang from its unaudited financial statements for the period ended July 31, 2006. We derived this information for Renhuang China from its unaudited but reviewed financial statements for the three months ended July 31, 2006.

The unaudited pro forma condensed consolidated financial statements should be read in conjunction with the separate historical financial statements of Renhuang China, appearing elsewhere herein, and the historical financial statements of Renhuang, as filed and included in our Current Form 10-KSB for the annual periods ended April 30, 2006.

The fiscal year end of Renhuang China and Renhuang is October 31 and April 30, respectively.

The un-audited pro forma condensed consolidated financial information is for illustrative purposes only. The companies may have performed differently had they always been combined. You should not rely on the pro forma condensed consolidated financial information as being indicative of the historical results that would have been achieved had the companies always been combined or the future results that the combined company will experience after the Merger.

These unaudited pro forma condensed consolidated financial statements have been revised in order to reduce our revenue and selling expenses due to the fact that the commission/rebate expenses should be net off against the revenue, rather than being reported as selling expenses and included in the revenue respectively.

As a result the sales, gross profit (loss), and selling and distribution expenses originally reported in these pro forma financial statements for the three months ended July 31, 2006 have been revised as follows:

ITEM 2 Managements Discussion and Analysis of Financial Condition and Results of Operations.

Overview

The following discussion of the financial condition and results of operation of Renhuang Pharmaceuticals, Inc. should be read in conjunction with the financial statements and the notes to those statements included in this Quarterly Report on Form 10-Q. This discussion includes forward-looking statements that involve risk and uncertainties. As a result of many factors, actual results may differ materially from those anticipated in the forward-looking statements.

On September 7, 2006, we acquired 100% of the issued and outstanding shares of Harbin Renhuang Pharmaceutical Company Limited, a corporation incorporated under the laws of the British Virgin Island, (“BVI”), whose only asset was its wholly-owned subsidiary, Harbin Renhuang Pharmaceutical Co. Ltd., incorporated under the laws of the Peoples Republic of China (“Renhuang China”), which mainly focused on the research, production and sales of traditional Chinese and Western medical and bio-pharmaceutical products in China. This transaction is referred to throughout this report as the “Merger.”

On May 1, 2006, Harbin Renhuang Pharmaceutical Stock Co. Ltd. (“Old Renhuang”) transferred the majority of its operating assets, except buildings, account receivables, inventories and other assets with zero or insignificant value to Renhuang China. The principal business activities of Renhuang China remained unchanged. On March 3, 2006, Renhuang Medicine for Animals Co. Ltd., a company controlled by Mr. Li Shaoming, invested 25 million RMB (approximately US \$3.3 million) in cash in Renhuang China.

The products are distributed through more than 60 sales offices with more than 2,000 commission-based sales people. Upon the effectiveness of the Merger, we adopted the business of Renhuang China, which we intend to continue as our sole line of business.

Upon closing of the Merger, BVI and Renhuang China became our wholly-owned subsidiary. The former stockholders of BVI currently own approximately 85% of our issued and outstanding common stock.

Since we intend to operate our sole line of business through Renhuang China, the analysis of the pro forma financial statements for the quarterly period ended July 31, 2006 is from the operations of Renhuang China.

Reverse Merger

Our acquisition of BVI and its wholly-owned subsidiary, Renhuang China, was accounted for as a reverse merger, because, after giving effect to the share exchanges, the former stockholders of BVI hold a majority of our outstanding common stock on a voting and fully diluted basis. As a result of the share exchanges, Renhuang China was deemed to be the acquirer for accounting purposes. Accordingly, the financial statements presented are those of Renhuang China for all periods prior to our acquisition of BVI on September 7, 2006, and the financial statements of the consolidated companies from the acquisition date forward.

Results of Operations

We did not conduct operations during the quarter ended July 31, 2006. Our plan of operation for the year ending April 30, 2007 is to implement Renhuang China’s business strategy, which as discussed above involves the research, production and sales of traditional Chinese and Western medical and bio-pharmaceutical products in China.

Off-Balance Sheet Arrangements

We do not have any “off-balance sheet arrangements,” as that term is defined by SEC regulations.

ITEM 3 Quantitative and Qualitative Disclosures About Market Risk

Our primary financial instruments are cash in banks and money market instruments. We do not believe that these instruments are subject to material potential near-term losses in future earnings from reasonably possible near-term changes in market rates or prices. We do not have derivative financial instruments for speculative or trading purposes. We are not currently exposed to any material currency exchange risk.

ITEM 4 Controls and Procedures

Evaluation of disclosure controls and procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules, regulations and related forms, and that such information is accumulated and communicated to our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this quarterly report, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective.

Changes in internal controls

During the quarter ended July 31, 2006, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Harbin Renhuang Pharmaceutical, Co., Ltd. (Renhuang China) Merger with Renhuang Pharmaceuticals, Inc.

On September 7, 2006, pursuant to the Merger, we acquired BVI, including its wholly-owned and only subsidiary. Upon effectiveness of the Merger, our business was abandoned and the business plan of Renhuang China was adopted. The transaction was therefore accounted for as a reverse acquisition with BVI as the accounting acquirer and us as the accounting acquiree. On August 31, 2006, our Board of Directors approved the transaction.

We disclosed these events in our Current Report on Form 8-K, filed with the Commission on September 11, 2006, incorporating in such filing the audited financial statements of Renhuang China for the years ended October 31, 2005 and 2004, unaudited financials for the period November 1, 2005 to April 30, 2006, and condensed consolidated unaudited pro forma financial statements for the years ended October 31, 2005 and 2004.

Our unaudited pro forma financial statements for the quarterly period ended July 31, 2006 is included under Note 7, Subsequent Event, to our financial statements and are incorporated herein by reference.
