Q: Who is entitled to vote?

A: Shareholders as of the close of business on April 3, 2008 (the **Record Date**), are entitled to vote. Each Common Share is entitled to one vote on those items of business identified in the Notice of Meeting.

If you acquired your shares after the Record Date, please refer to the answer to the question "What if ownership of shares has been transferred after April 3, 2008?" to determine how you may vote such shares.

Q: How do I vote?

A: There are two ways you can vote your shares if you are a registered shareholder. You may vote in person at the Meeting or you may sign the enclosed form of proxy appointing the named persons or some other person you choose, who need not be a shareholder, to represent you as proxyholder and vote your shares at the Meeting. If your shares are held in the name of a nominee, please refer to the answer to the question "If my shares are not registered in my name but are held in the name of a nominee (a bank, trust company, securities broker, trustee or other), how do I vote my shares?" to determine how you may vote your shares.

Q: What if I plan to attend the Meeting and vote in person?

A: If you are a registered shareholder and plan to attend the Meeting on May 7, 2008 and wish to vote your shares in person at the Meeting, do not complete or return the form of proxy. Your vote will be taken and counted at the Meeting. Please register with the transfer agent, CIBC Mellon Trust Company, upon arrival at the Meeting. If your shares are held in the name of a nominee, refer to the answer to the question "If my shares are not registered in my name but are held in the name of a nominee (a bank, trust company, securities broker, trustee or other), how do I vote my shares?" for voting instructions.

If you change your mind and wish to revoke your proxy, prepare a written statement to this effect or, if you are a registered shareholder, you may attend the annual meeting and vote and this will automatically revoke your proxy. If you prepare the written statement, the statement must be signed by you or your attorney as authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney of the corporation duly authorized. This statement must be delivered either to the executive office of the Corporation at 5655 South Yosemite Street, Suite 200, Greenwood Village, Colorado 80111-3220 no later than 5:00 p.m. (Toronto time) on May 5, 2008 or to the Chairman of the Meeting on the day of the Meeting, May 7, 2008, or any adjournment of the Meeting, prior to the time of voting.

Q: How will my shares be voted if I give my proxy?

A: The persons named on the form of proxy must vote for or against or withhold from voting your shares in accordance with your directions. In the absence of such directions, however, your shares will be voted in favor of the election of directors to the board of directors and the appointment of auditors.

Q: What if amendments are made to these matters or if other matters are brought before the Meeting?

A: The persons named in the form of proxy will have discretionary authority with respect to amendments or variations to matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting.

As of the date of this Circular, management of the Corporation knows of no such amendment, variation or other matter expected to come before the Meeting. If any other matters properly come before the Meeting, the persons named in the form of proxy will vote on them in accordance with their best judgment.

Q: How many shares are entitled to vote?

A: As of April 3, 2008, there were 160,965,258 Common Shares outstanding. Each registered shareholder has one vote for each Common Share held at the close of business on April 3, 2008.

Q: What if ownership of shares has been transferred after April 3, 2008?

A:

The person who acquired such shares after April 3, 2008, must produce properly endorsed share certificates or otherwise establish that he or she owns the shares and must ask the Corporation no later than 5:00 p.m. (Toronto time) on April 25, 2008, that his or her name be included in the list of shareholders before the Meeting in order to be entitled to vote these shares at the Meeting.

Q: Who counts the votes?

A: The Corporation's transfer agent, CIBC Mellon Trust Company, counts and tabulates the proxies. This is done independently of the Corporation to preserve the confidentiality of individual shareholder votes. Proxies are referred to the Corporation only in cases where a shareholder clearly intends to communicate with management or when it is necessary to do so to meet the requirements of applicable law.

Q: If my shares are not registered in my name but are held in the name of a nominee (a bank, trust company, securities broker, trustee or other), how do I vote my shares?

A: There are two ways you can vote your shares held by your nominee. Unless you have previously informed your nominee that you do not wish to receive material relating to the Meeting, you will have received this Circular from your nominee, together with a request for voting instructions for the number of shares you hold.

For your shares to be voted for you please follow the voting instructions provided by your nominee. If you are a non-registered shareholder who has voted and want to change your mind and vote in person, contact your nominee to discuss whether this is possible and what procedure to follow.

Since the Corporation does not have access to the names of its non-registered shareholders, if you attend the Meeting, the Corporation will have no record of your shareholdings or of your entitlement to vote unless your nominee has appointed you as proxyholder. Therefore, if you are a non-registered shareholder and wish to vote in person at the Meeting, insert your own name in the space provided on the voting instruction form sent to you by your nominee. By doing so, you are instructing your nominee to appoint yourself as proxyholder. Then sign and return the voting instruction form by following the signing and returning instructions provided by your nominee. Do not otherwise complete the voting instruction form, as your vote will be taken at the Meeting. Please register with the transfer agent, CIBC Mellon Trust Company, upon arrival at the Meeting.

Q: What rights of appraisal or similar rights of dissent do I have with respect to any matter to be acted upon at the Meeting?

A: No action is proposed herein for which the laws of the Yukon Territory or By-laws of the Corporation provide a right of a shareholder to dissent and obtain appraisal of or payment for such shareholder's Common Shares.

TABLE OF CONTENTS

BOARD COMMITTEES

During 2007, the board of directors had an Audit Committee, Compensation Committee, Technical Committee, and Nominating Committee.

Audit Committee

The Audit Committee held 8 meetings during the year ended December 31, 2007. The Audit Committee is composed of the following three independent non-employee directors: Messrs. Babensee, Kaiser and Peat. Mr. Peat is Chairperson of the Audit Committee. The board of directors has determined that each of Messrs. Babensee, Kaiser and Peat meet the independence and the financial literacy requirements of the TSX and AMEX. The board of directors has determined that Mr. Peat is the Audit Committee's financial expert as defined in the AMEX Standards.

The board of directors has adopted a Charter of the Audit Committee, which, among other responsibilities, requires the Audit Committee to oversee the Corporation's financial reporting process and the quality of its financial reporting. In discharging its responsibilities, the Audit Committee meets regularly with the Corporation's auditors and Chief Financial Officer. The Audit Committee Charter is posted on the Corporation's website at www.apollogold.com.

Report of the Audit Committee

In the performance of its oversight function, the Audit Committee reviewed and discussed the Corporation's audited consolidated financial statements as of and for the year ended December 31, 2007, with management and Deloitte & Touche LLP. Management and Deloitte & Touche LLP represented to the Audit Committee that the Corporation's audited consolidated financial statements as of and for the year ended December 31, 2007, were prepared in accordance with accounting principles generally accepted in Canada (except for Note 21, Differences Between Canadian and U.S. GAAP). The Audit Committee also discussed with Deloitte & Touche LLP the matters required to be discussed by Statement on Auditing Standards (**SAS**) Nos. 61, 89 and 90 issued by the Auditing Standards Board of the American Institute of Certified Public Accountants. SAS Nos. 61, 89 and 90 set forth requirements pertaining to the independent auditor's communications with the Audit Committee regarding the conduct of the audit.

The Audit Committee received the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board (**ISB**) Standard No. 1, Independence Discussions with Audit Committees, as amended. ISB Standard No. 1 requires the independent auditor to disclose in writing to the Audit Committee all relationships between the auditor and the Corporation that, in the auditor's judgment, reasonably may be thought to bear on independence and to discuss the auditor's independence with the Audit Committee. The Audit Committee discussed

with Deloitte & Touche LLP its independence and considered in advance whether the provision of any non-audit services by Deloitte & Touche LLP is compatible with maintaining its independence.

Based on the reviews and discussions of the Audit Committee described above, in reliance on the unqualified opinion of Deloitte & Touche LLP dated March 18, 2008 regarding the Corporation's audited consolidated financial statements as of and for the year ended December 31, 2007, the Audit Committee recommended to the board of directors, and the board of directors approved, that such financial statements be included in the Corporation's annual report on Form 10-K for the year ended December 31, 2007, to be filed with the Securities and Exchange Commission.

The Audit Committee met 8 times during the year ended December 31, 2007, and is satisfied that it appropriately fulfilled its mandate to the best of its ability during the year ended December 31, 2007.

COMPENSATION DISCUSSION AND ANALYSIS

This section provides information regarding the compensation program in place for the Corporation's Named Executive Officers for 2007. It includes information regarding, among other things, the overall objectives of the Corporation's compensation program and each element of compensation that we provide.

Objectives of the Corporation's Compensation Program

The Compensation Committee of the Corporation's board of directors (the **Committee**) has responsibility for approving the compensation program for the Corporation's Named Executive Officers. The Committee acts pursuant to the Compensation Committee Charter that has been approved by the board of directors.

The compensation program for the Corporation's Named Executive Officers is designed to attract, retain and reward talented executives who can contribute to the Corporation's long-term success and thereby build value for the Corporation's shareholders. The program is organized around four fundamental principles:

A Substantial Portion of the Corporation's Named Executive Officer Compensation Program Should Be Performance-Based. The Corporation's compensation program is designed to reward superior performance. It accomplishes this in a number of ways. In terms of cash compensation, target award opportunities provided to each Named Executive Officer under the Corporation's bonus plan (which pays bonuses on the basis of performance over a one-year period) are set at a percentage of each Named Executive Officer's base salary, which is generally in the range of 50% for vice presidents up to 100% for senior vice presidents and the Chief Executive Officer. Whether and to what extent bonuses under the bonus plan are paid depends entirely on the extent to which the company-wide, business unit and individual goals set by the Committee pursuant to the bonus plan are attained.

A Substantial Portion of Named Executive Officer Compensation Should Be Delivered in the Form of Equity Awards. The Committee believes that a substantial portion of total compensation should be delivered in the form of equity in order to align the interests of the Corporation's Named Executive Officers with the interests of the Corporation's shareholders. In terms of equity awards, the target award opportunities provided to each Named Executive Officer are set as a percentage of each Named Executive Officer's base salary, which is generally in the range of 50% for vice presidents, 75% for senior vice presidents and 100% for the Chief Executive Officer. Whether

and to what extent equity awards are made depends entirely on the extent to which the company-wide, business unit and individual goals set by the Committee are attained. The equity compensation that was delivered to the Corporation's Named Executive Officers in 2007 was in the form of stock options. The stock option awards are valued at the grant date fair value.

The Corporation's Compensation Program for Named Executive Officers Should Enable the Corporation to Compete for First-Rate Executive Talent. Shareholders are best served when we can attract and retain talented executives with compensation packages that are competitive but fair. The Committee has historically striven to create a compensation package for Named Executive Officers that delivers total compensation that is competitive in comparison to the average of the total compensation delivered by certain peer companies with which we compete for executive talent (the **Peer Group**). To assist in making this comparison, the Committee also subscribes to the annual Mining Compensation Report published by Strategic Human Resources Pty Ltd. In 2007, the Peer Group selected by the Committee consisted of the following companies:

Metallica Resources Inc.
Aurizon Mines Ltd
Golden Star Resources Ltd.

Alamos Gold Inc.
Eldorado Gold Corp.
Minefinders Ltd.

The Corporation's Compensation Program for Named Executive Officers Should Be Fair, and Perceived as Such, Both Internally and Externally. The Committee strives to create a compensation program that will be perceived as fair, both internally and externally. It accomplishes this by comparing the compensation that is provided to the Corporation's Named Executive Officers:

- (i) to the compensation, as described above, provided to officers of the companies included in the Peer Group, as a means to measure external fairness; and
- (ii) to other senior employees of the Corporation, as a means to measure internal fairness.

TABLE OF CONTENTS

The Elements of the Corporation's Compensation Program

This section describes the various elements of the Corporation's compensation program for Named Executive Officers, together with a discussion of various matters relating to those items, including why the Committee chooses to include the items in the compensation program.

Cash Compensation

The Corporation's compensation program for Named Executive Officers for 2007 was designed so that a percentage of each Named Executive's total compensation could be paid in cash comprising a combination of salary or cash bonus. These percentages are generally set at up to 75% of total compensation in the case of Vice Presidents, up to 70% for Senior Vice Presidents and up to 67% for the President. Cash compensation is paid in the form of salary or bonuses under the Corporation's bonus plan. Salary is included in the Corporation's Named Executive Officer compensation package because the Committee believes it is appropriate that some portion of the compensation that is provided to Named Executive Officers be in a form that is fixed and liquid. Performance-based bonuses are included to incentivize the Corporation's Named Executive Officers to attain particular objectives that the Committee believes are consistent with the overall goals set for the Corporation by its board of directors. The components comprising the cash portion of total compensation are described below.

Salary. Base salary for Named Executive Officers for any given year is generally fixed by the Committee at its meeting in March of each year. Increases or decreases in base salary on a year-over-year basis are dependent on the Committee's assessment of the performance of the Corporation overall, the Corporation's mining projects and the particular individual. Other than the fact that executive officers have employment agreements with a minimum level of salary specified within the agreement, the Committee is free to set Named Executive Officer salary at any level it deems appropriate. In fixing salaries, the Committee is generally mindful of its overall goal to keep cash compensation for its executive officers within the range of cash compensation paid by companies in the Corporation's Peer Group. The amount of cash compensation that is provided in the form of salary is generally less, assuming threshold performance levels are met, than the amount that is provided in the form of bonuses and equity awards under the Corporation's short and long-term bonus plans, each of which is described below. This weighting reflects the Committee's objective of ensuring that a substantial amount of each Named Executive Officers total compensation is tied to company-wide, mine and project results and individual performance goals.

Bonus Plans. We have a cash bonus plan in which Named Executive Officers participate. This plan, which is described below, provides cash compensation to Named Executive Officers only if, and to the extent that, performance conditions set by the Committee are met. Target bonuses under the bonus plan are set each year by the Committee.

In determining the amount of target bonuses under the bonus plan, the Committee considers several factors, including:

- (i) the target bonuses set, and actual bonuses paid, in recent years;
- (ii) the desire to ensure, as described above, that a substantial portion of total compensation is performance-based;
- (iii) the relative importance, in any given year, of the long and short-term performance goals established pursuant to the bonus plan; and
- (iv) the compensation practices of the Peer Group, as determined in published compensation surveys.

Performance objectives for the bonus plan are developed through an iterative process. Based on a review of business plans, management, which includes the Named Executive Officers, develops preliminary recommendations for Committee review. The Committee reviews management's preliminary recommendations and establishes final goals. In establishing final goals, the Committee strives to ensure that the incentives provided pursuant to the bonus plan are consistent with the strategic goals set by the board of directors, that the goals set are sufficiently ambitious so as to provide a meaningful incentive and that bonus payments, assuming target levels of performance are attained, will be consistent with the overall Named Executive Officer compensation program established by the Committee. The Committee reserves the discretion to reduce or not pay bonuses under the bonus plan even if the relevant performance targets are met.

13

TABLE OF CONTENTS

Bonus targets are set annually based on the Corporation's plan and budget for such fiscal year and are set at levels that the Corporation believes will be reasonably difficult to achieve. For fiscal 2007 the annual cash bonus is discretionary based on several factors, including:

attaining or exceeding certain budgeted goals for metal production and the related cash operating costs of such production at the Montana Tunnels mine;

commencement of milling operations in March 2007 at the Montana Tunnels mine;

targets set on development of the Black Fox project, including increases in reserves to at least 850,000 ounces of gold, advancement of the Black Fox feasibility study and publication of the NI 43-101 feasibility study on the Black Fox project in the third quarter 2007 and progress with the permitting process;

measured progress of the Huizopa project, such as commencement of drilling and construction of a drill road;

the Corporation's share price to be at least \$0.75 per share by December 31, 2007 and overall financial results, including balance sheet and cash management; and

the performance of the area of responsibility of each individual Named Executive Officer.

Actual payments under the bonus plan can range, on the basis of performance, from 0% (threshold) to 100% (maximum) of the target bonus established by the Committee.

For fiscal 2006, the Corporation did not achieve all of its targets, and therefore the award payments were restricted under the bonus plan. Payments made to Named Executives ranged from 5% to 15% of their base salary, compared to the target range of 50% to 100% of base salary. Payments to Named Executives for fiscal year 2007 are to be determined and paid in 2008.

Equity Compensation

As described above, the Committee believes that a portion of each Named Executive Officer's compensation should be in the form of equity awards. As described above, we pay a portion of Named Executive Officer compensation in the form of equity awards because the Committee believes that such awards serve to align the interests of Named Executive Officers and the Corporation's shareholders. Equity awards to the Corporation's Named Executive Officers are made pursuant to Stock Option Plan. The Stock Option Plan provides for awards in the form of stock options.

The amount of equity compensation that is provided to each Named Executive Officer in a given year is generally determined by reference to the Named Executive Officer's base salary for that year. That is, the Committee each year approves an equity award or awards for each Named Executive Officer with a cash value that is determined by multiplying the Named Executive Officer's base salary by a percentage that is chosen by the Committee. The percentage that the Committee selects for these purposes in a given year is dependent on the Committee's assessment, for that year, of the appropriate balance between cash and equity compensation. In making that assessment, the Committee considers factors such as the relative merits of cash and equity as a device for retaining and incentivizing Named Executive Officers and the practices, as reported in published compensation surveys, of other companies in the Peer Group. The Committee made equity awards at its first meeting held in February 2007 which had fair values in the range of 20% to 56% of cash compensation (including bonus opportunities, assuming performance at target levels).

The Committee believes that its current compensation program for Named Executive Officers, pursuant to which the compensation delivered in the form of equity, is designed to be in the range 33% to 50% in value to compensation delivered in the form of salary and cash bonus, strikes the correct balance. This mix of equity and cash compensation gives the Corporation's Named Executive Officers a substantial alignment with shareholders, while also permitting the Committee to incentivize the Named Executive Officers to pursue specific short and long-term performance goals.

TABLE OF CONTENTS

A description of the Stock Option Plan follows:

Stock Option Plan. The Committee, which administers the Stock Option Plan, has authority to fix the terms and conditions of individual agreements with participants, including the duration of the award and any vesting requirements, subject to requirements of applicable regulatory authorities. The Stock Option Plan permits the board of directors to grant options for the purchase of Common Shares of the Corporation for a term of up to 10 years. The number of Common Shares granted pursuant to each option is determined in the discretion of the board of directors, provided that in the case of any one person, the aggregate number of Common Shares reserved for issuance may not exceed 5% of the Common Shares outstanding at the time of the grant.

In accordance with the provisions of the Stock Option Plan, the option price and the terms and conditions on which the options may be exercised are set out in written stock option agreements, in the form approved by the board of directors, entered into by the Corporation and each option holder. Under the Stock Option Plan, the option price is determined by the board of directors and may either be in Canadian dollars or United States dollars. If the exercise price is in Canadian dollars, the exercise price shall not be lower than the closing price on the TSX on the trading day prior to the date of the grant. If the exercise price is in United States dollars, the exercise price shall not be lower than the greater of: (a) the closing price on the AMEX on the trading day prior to the date of the grant, or (b) the closing price on the TSX (such closing price converted into United States dollars using the Bank of Canada noon nominal rate of exchange on the same date as such closing price) on the trading day prior to the date of the grant. The options are not transferable and terminate on the earlier of the expiry date and the date that the optionee ceases to be eligible for any reason whatsoever, other than death. In the event of death, the option is fully exercisable by the optionee's legal representative on the earlier of the expiry date and one year from the date of death. Option agreements approved by the board of directors may provide that all or any part of the options that are outstanding upon the occurrence of a change of control may continue to be exercised by the holder for such extended period up to and including the normal expiry date of such options.

The Stock Option Plan may be amended by the board of directors, subject to approval of the shareholders as well as the TSX and the AMEX, and subject to compliance with applicable legislation.

Practices Regarding the Grant of Options

The Committee has generally followed a practice of making all option grants to its executive officers during the first quarter of each year based on the previous year's performance. For the last 5 years, the Committee has granted these annual awards at its regularly scheduled meeting in February or March. We do not otherwise have any program, plan or practice to time annual option grants to its executives in coordination with the release of material non-public information.

While the bulk of the Corporation's option awards to Named Executive Officers have historically been made pursuant to the Corporation's annual grant program, the Committee retains the discretion to make additional awards to Named Executive Officers at other times, in connection with the initial hiring of a new officer, for retention purposes or otherwise. We refer to such grants as ad hoc awards. The Committee has generally followed the practice of making such ad hoc awards only during a time when the Corporation's Named Executive Officers would be permitted, pursuant to the Corporation's insider trading policy, to trade in the Corporation's securities. Other than in this respect, we do not have any program, plan or practice to time ad hoc awards in coordination with the release of material non-public information.

Perquisites

The Corporation's Named Executive Officers receive various perquisites provided by or paid for by us. These perquisites can include memberships in social and sports clubs, car allowances and gross up payments equal to the taxes payable on certain perquisites.

We provide these perquisites because:

- (i) in many cases, such as membership in social and sports clubs, the perquisite makes the Corporation's executives more efficient and effective and thereby is a benefit to us, and
- (ii) these perquisites are provided by many companies in the Peer Group to their named executive officers and it is therefore important for retention and recruitment purposes that we do the same.

15

TABLE OF CONTENTS

The Committee reviews the perquisites provided to its Named Executive Officers on a regular basis, in an attempt to ensure that they continue to be appropriate in light of the Committee's overall goal of designing a compensation program for Named Executive Officers that maximizes the interests of the Corporation's shareholders.

Employment Agreements

The Corporation has employment agreements with the following Named Executive Officers: R. David Russell, its President and Chief Executive Officer, Melvyn Williams, its Senior Vice President Finance and Corporate Development and Chief Financial Officer, Richard F. Nanna, its Senior Vice President Exploration and Timothy G. Smith, its Vice President and General Manager of the Montana Tunnels mine. The Committee believes that the employment agreements and the severance provided for therein are an important part of overall compensation for the Corporation's Named Executive Officers. The Committee believes that these agreements will help to secure the continued employment and dedication of the Corporation's Named Executive Officers, notwithstanding any concern that they might have at such time regarding their own continued employment, prior to or following a change in control. The Committee also believes that these agreements are important as a recruitment and retention device, as all or nearly all of the companies with which we compete for executive talent have similar agreements in place for their senior employees. To determine the terms of the change in control provisions, the Committee analyzed the terms of the similar arrangements. These factors lead to the amounts and the triggering events provided for under the agreements.

R. David Russell. The Corporation assumed the terms and conditions of an employment agreement dated as of April 1, 2002 between Mr. Russell and Nevoro Gold Corporation, the Corporation's predecessor. Mr. Russell's employment agreement provides that:

Mr. Russell receives a minimum annual base salary of \$255,000 and a discretionary annual cash bonus based on the Corporation's performance. As at April 3, 2008 Mr. Russell's annual salary was \$310,000;

Mr. Russell is entitled to receive an automobile allowance of \$15,000 per annum and an allowance for social/sports club membership of \$5,000 per annum; and

In the event of the termination of his employment without cause or upon a change of control of the Corporation (defined as a change in the beneficial ownership of 20% or more of the issued and outstanding shares of the Corporation), (i) Mr. Russell will be entitled to receive severance equal to 36 months of his base salary, 50% of the bonus entitlement for the 36 month period, and any other compensation to which he would otherwise have been entitled during such 36 month period, (ii) all such severance shall be calculated on a grossed-up basis for all taxes and (iii) any options granted to Mr. Russell shall immediately vest.

Melvyn Williams. Mr. Williams' employment agreement provides that:

Mr. Williams receives a minimum annual base salary of \$150,000 and a discretionary annual cash bonus based on the Corporation's performance; As at April 3, 2008 Mr. Williams' annual salary was \$180,000;

Mr. Williams is entitled to receive an automobile allowance of \$10,000 per annum; and in the event of the termination of his employment without cause or upon a change of control of the Corporation (defined as the occurrence, within a single transaction or series of related transactions occurring within the same 12-month period, of a change in the identity of persons who individually or collectively hold rights to elect, or to approve the election of, a majority of the members of the board of directors, including, without limitation, transactions consisting of one or more sales or other transfers of assets or equity securities, mergers, consolidations, amalgamations, reorganizations, or any similar transactions), (i) Mr. Williams will be entitled to receive severance equal to 24 months of his base salary, 50% of the bonus entitlement for the 24 month period, and any other compensation to which he would otherwise have been entitled during such 24 month period, (ii) all of such severance shall be calculated on a grossed-up basis for all taxes

Stock Ownership Guidelines

The Corporation has not established stock ownership guidelines for the Named Executive Officers. The Corporation's Insider Trading and Confidentiality Policy prohibits the Corporation's executive officers from engaging in selling short the Corporation's common stock or engaging in hedging or offsetting transactions regarding the Corporation's common stock.

TABLE OF CONTENTS**Role of Executive Officers in Compensation Decisions**

The Chief Executive Officer annually reviews the performance of each Named Executive Officer (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions and recommendations reached, which cover salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise discretion in modifying any of the recommended salary adjustments or annual awards.

Indemnification Agreements

The Corporation has entered into indemnification agreements with its directors and senior executives. These agreements indemnify such persons against certain liabilities that may arise by reason of their status as a director or officer, to advance their expenses incurred as a result of a proceeding as to which they may be indemnified and to cover such person under the directors and officers liability insurance policy. We believe these indemnification agreements enhance the Corporation's ability to attract and retain knowledgeable and experienced executives and independent, non-management directors.

Tax Implications of Executive Compensation

We have structured the Corporation's program to comply with Section 162(m) of the Internal Revenue Code of 1986, as amended, which places a limit of \$1,000,000 on the amount of compensation that may be deducted by the Corporation in any year with respect to the Named Executive Officers unless the compensation is performance based compensation as described in such Section 162(m).

The re-appointment of Deloitte & Touche LLP must be approved by a majority of the votes cast at the Meeting.

28

TABLE OF CONTENTS

The following table shows the aggregate fees, all of which were fully approved by the Audit Committee, billed to the Corporation for professional services by Deloitte & Touche LLP for fiscal years 2007 and 2006 (in Cdn\$):

	Fiscal 2007	Fiscal 2006
Audit Fees	\$ 290,000	\$ 245,000
Audit-Related Fees	\$ 29,000	\$ 41,000
Tax Fees	\$ 0	\$ 0
All Other Fees	\$ 0	\$ 0
Total	\$ 319,000	\$ 286,000

Audit Fees. This category includes the aggregate fees billed for professional services rendered for the audits of the Corporation's consolidated financial statements for fiscal years 2007 and 2006, for the reviews of the financial statements included in the Corporation's quarterly reports on Form 10-Q during fiscal 2007 and 2006, and for other services that are normally provided by the independent auditors in connection with statutory and regulatory filings or engagements for the relevant fiscal years.

Audit-Related Fees. This category includes the aggregate fees billed in each of the last two fiscal years for assurance and related services by the independent auditors that are reasonably related to the performance of the audits or reviews of the financial statements and are not reported above under Audit Fees, and generally consist of fees for other engagements under professional auditing standards, accounting and reporting consultations, internal control-related matters, and audits of employee benefit plans.

Tax Fees. This category includes the aggregate fees billed in each of the last two fiscal years for professional services rendered by the independent auditors for tax compliance, tax planning and tax advice. Of these amounts, \$0 was related to tax compliance services for review of federal and state tax returns for both 2007 and 2006.

All Other Fees. This category includes the aggregate fees billed in each of the last two fiscal years for products and services provided by the independent auditors, other than those reported above under Audit Fees, Audit-Related Fees and Tax Fees.

In the past, the board of directors has reviewed and approved the fees to be paid to the auditors. Such fees have been based upon the complexity of the matters in question and the time incurred by the auditors. Management believes that the fees negotiated in the past with the auditors of the Corporation were reasonable in the circumstances and would be comparable to fees charged by other auditors providing similar services.

As discussed in the Report of the Audit Committee in this Circular, the Audit Committee has reviewed and considered whether the provision of services other than audit services is compatible with maintaining the auditors' independence.

Commencing in 2003, the Audit Committee considered and pre-approved expenditure limits for the Corporation's auditors and reviewed and pre-approved the provision of non-audit services by the Corporation's auditors to ensure they are consistent with maintaining the auditor's independence.

It is intended that on any ballot that may be called relating to the appointment of auditors, the shares represented by proxies in favor of the management nominees will be voted in favor of the appointment of Deloitte & Touche LLP as auditors of the Corporation and the resolution authorizing the directors to fix remuneration of the auditors, unless a shareholder has specified in his proxy that his shares are to be withheld from voting on the appointment of auditors.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services and Independent Auditors

The Audit Committee has established a policy requiring pre-approval of all audit engagement letters and fees for all auditing services (including providing comfort letters in connection with securities underwritings) and all permissible non-audit services performed by the independent auditors. Such services may be approved at a meeting of the Audit Committee or by the Chairman of the Audit Committee, provided that the Chairman presents any such pre-approvals to the Audit Committee at each of its scheduled meetings.

SCHEDULE A

CORPORATE GOVERNANCE PROCEDURES

The Canadian securities regulatory authorities have adopted National Instrument 58-101 Disclosure of Corporate Governance Practices (**NI 58-101**), which requires disclosure of the approach of the Corporation to corporate governance, and National Policy 58-201 Corporate Governance Guidelines (**NP 58-201**), which provides guidance on corporate governance practices, and in the U.S., the United States *Sarbanes-Oxley Act of 2002* as well as the AMEX listing standards and corporate governance requirements (the **AMEX Standards**) require similar disclosure.

OVERVIEW OF CORPORATE GOVERNANCE PRACTICES

Assumption of Responsibilities by the Board of Directors

The board of directors participates fully in assessing and approving strategic plans and prospective decisions proposed by management. In order to ensure that the principal business risks borne by the Corporation are appropriate, the board of directors receives and comments on periodic reports from management of the Corporation's assessment and management of such risks. The board of directors regularly monitors the financial performance of the Corporation, including receiving and reviewing detailed financial information contained in management reports. The board of directors, directly and through the Audit Committee, assesses the integrity of the Corporation's internal control and management information systems. In 2003, the board of directors adopted a Disclosure Policy and appointed a Disclosure Policy Officer being an Assistant Secretary of the Corporation, to determine, among other things, the appropriateness and timing of the release of information with respect to developments at the Corporation.

The board of directors regularly receives reports regarding the monitoring of senior management of the Corporation and its subsidiaries. Input is received at both the Compensation Committee and board of directors meetings regarding the performance of senior management. Both the Compensation Committee and the board of directors have specifically assumed responsibility for reviewing the performance of senior management.

The board of directors meets at least four times each calendar year, and more frequently as required. The frequency of meetings, as well as the nature of the agenda items, change depending on the state of the Corporation's affairs and in light of opportunities or risks which the Corporation faces from time to time. In 2007, the board of directors held 8 meetings.

Corporate Governance Principles

In 2003, the board of directors formally adopted a set of corporate governance principles. Those principles provide guidelines on board of directors size, independence of board of directors members, nominating and orientation of new directors, retirement and resignation of board of directors members, conduct of board of directors meetings, conflicts of interest, share ownership by directors, compensation review, assessing board of directors and committee performance, interaction with third parties and confidentiality. The principles also require each of the committees of the board of directors to adopt a written charter approved by the board of directors, as well as set out minimum numbers for committee meetings. In addition, in 2004, the board of directors created a Nominating Committee to comply with the AMEX Standards.

Composition of the Board of Directors

NI 58-101 and the AMEX Standards define an independent director as a director who is affirmatively determined by the board of directors not to have a material relationship with the listed company that would interfere with the exercise of independent judgment.

NP 58-201 states that the board of directors of every corporation should be constituted with a majority of individuals who qualify as unrelated directors. The AMEX Standards require that each listed company must have a sufficient number of independent directors on its board of directors such that at least a majority of such directors are independent directors subject to the certain exceptions. The board of directors has determined that five of the proposed nominees for director are independent directors. Mr. Hobart is a partner of law firm that provides legal services to the Corporation, and the board of directors has determined that Mr. Hobart is not independent. The other director that is not independent is Mr. Russell, the President and Chief Executive Officer of the Corporation.

A-1

TABLE OF CONTENTS

The Chairman of the board of directors is Mr. Stott, an independent director. The Chairman's responsibilities include acting as liaison between the board of directors and the Chief Executive Officer and establishing, in consultation with the Chief Executive Officer and the board of directors, procedures to govern the board of directors' performance. Further, the Chairman ensures that the board of directors operates independently of management and that directors have an independent leadership contact. As part of his responsibilities, the Chairman is responsible for obtaining peer reviews of the operation of the board of directors to obtain insight as to areas where the board of directors and its committees could be operating more effectively. The Chairman chairs all board of directors meetings including meetings at which only independent directors are present. During their meetings, several committees of the board of directors also hold sessions with only independent directors present.

The board of directors believes that the current size and composition of the board of directors serves the Corporation and its shareholders well. The board of directors believes that all of its directors, including its non-independent directors, make a valuable contribution to the board of directors and the Corporation. As indicated above, a majority of the Corporation's directors are independent. The non-independent directors possess an extensive knowledge of the Corporation's business and have extensive business experience, both of which have proven to be beneficial to the other directors, and their participation as directors contribute to the effectiveness of the board of directors. The board of directors also believes that the directors are sensitive to conflicts of interest and excuse themselves from deliberations and voting in appropriate circumstances.

See Particulars of Matters to be Acted Upon Election of Directors for biographies of the nominee directors, which includes details of other boards on which the Corporation's directors serve.

Committees

The board of directors has four committees: an Audit Committee, a Compensation Committee, a Technical Committee and a Nominating Committee. The board of directors committees are generally composed of outside directors, a majority of whom are independent directors in accordance with the AMEX Standards. All of the directors on the Audit Committee, Compensation Committee and Nominating Committee are independent directors in accordance with NP 58-201. The composition, mandate and certain activities of each committee are set out under Statement of Corporate Governance Practices Board Committees of this Circular.

Position Descriptions

The board of directors has given a mandate to the Compensation Committee to develop position descriptions for senior management. Guidelines have been developed and approved by the board of directors which set out those matters requiring board of directors approval. See above under **Composition of the Board of Directors** for the position description for the Chairman of the board of directors.

Director Orientation and Continuing Education

In accordance with NI 58-101 and NP 58-201, the Corporation has established a process to provide an orientation and education program for new recruits to the board of directors. Such orientation and education program consists of details of the Corporation's organizational structure, the structure of the board of directors and its committees, compliance requirements for directors, corporate policies and by-laws. They also meet with a number of directors and senior management personnel of the Corporation and its material subsidiaries to learn of the functions and activities of the Corporation. On an ongoing basis, presentations are made to the board of directors on various aspects of the Corporation's operations.

Board Functioning and Independence

In accordance with the NP 58-201 and the AMEX Standards, the Corporation provides orientation to new recruits to the board of directors. Such orientation consists of orientation sessions with management, a review of prior board of directors activity, receipt of documentation including the Corporation's articles, by-laws, policies and procedures and personal meetings with directors and management of subsidiaries.

The board of directors has a formal policy that all acquisitions and divestitures of a material nature require the approval of the board of directors. In addition, the board of directors policy requires that all major strategic decisions, including any change in the strategic direction of the Corporation, be presented by management to the

A-2

TABLE OF CONTENTS

board of directors for approval. As part of its ongoing activity, the board of directors regularly receives and comments upon reports of management as to the performance of the Corporation's business and management's expectations and planned actions in respect thereto.

The board of directors reviews the adequacy and form of the compensation of directors to ensure the compensation realistically reflects the responsibility and risk involved in being an effective director. The board of directors has made it a priority to continue to examine and develop the processes which it follows in its deliberations in order that it will continue to fulfill its mandate.

The board of directors and the Chief Executive Officer engage in regular dialogue regarding the performance of the senior management team, including the Chief Executive Officer, in achieving the Corporation's strategic objectives as determined by management and the board of directors. As the board of directors has plenary power, any responsibility which is not delegated to management or a board of directors committee remains with the board of directors.

The board of directors conducts in-camera sessions without management present as it deems appropriate and also conducts in-camera sessions to review the recommendations of the Compensation Committee. The Compensation Committee also conducts part of its deliberations without management present. As well, the Audit Committee has a

policy to meet annually with the Corporation's auditors without management present.

The By-laws of the Corporation provide for a system which enables an individual director to engage an outside adviser at the expense of the Corporation in appropriate circumstances. Prior approval of the Audit Committee is required for the retention of such an adviser.

The Corporation has adopted a formal policy that all members of the board of directors are encouraged, but not required, to attend the annual meeting of shareholders of the Corporation. Other than Mr. W. S. Vaughan and Mr. M. Hobart, all members of the board attended the Corporation's 2007 annual and special meeting held on May 16, 2007.

Shareholder Communications

The Corporation endeavours to keep all shareholders well informed as to the financial performance of the Corporation, primarily by means of its annual and quarterly reports, and by press releases. The board of directors has specifically adopted a disclosure policy in furtherance of these goals.

Management of the Corporation is receptive to shareholder feedback in any form. It is the policy of the Corporation to receive and respond promptly to shareholder enquiries, while being guided by legal requirements as well as the Corporation's policies in respect to confidentiality and disclosure. Shareholders wishing to send communications to the board of directors should write to either the Chairman of the board of directors or the Secretary of the Corporation at the following address: Apollo Gold Corporation, 5655 South Yosemite Street, Suite 200, Greenwood Village, Colorado, 80111-3220. All such communication shall state the type and amount of Corporation securities held by the security holder and shall clearly state that the communication is intended to be shared with the board of directors, or if applicable, with a specific committee of the board of directors. The Chairman of the board of directors or the Secretary of the Corporation, as applicable, will forward all such communication to the members of the board of directors or specific committee of the board of directors.

Code of Business Conduct and Ethics

In 2003, the Corporation formally adopted a Code of Business Conduct and Ethics and related policies, which sets high standards for ethical behavior throughout the organization. The Code of Business Conduct and Ethics provides the entire organization with the same frame of reference for dealing with sensitive and complex issues such as conflicts of interest, use of information, confidentiality of personal information, confidentiality of business information, corporate opportunities, use of inside information, fair trading, protection and use of company assets, accounting practices, records retention, compliance with laws, rules and regulations, and duty to report and consequences.

In addition, in 2004 the Corporation formally adopted a Code of Ethics (the **Code**) pursuant to section 406 of SOX and the Rules of AMEX in order to provide written standards and guidance to the Corporation's directors, principal executive officer, principal financial officer, principal accounting officer or controller or those

A-3

TABLE OF CONTENTS

performing similar functions and any executive officers (as defined under Rule 16a-1(f) of the Securities Exchange Act of 1934, as amended) of the Corporation not named above. The purpose of the Code is to promote:

honest, and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal

and professional relationships;

compliance with applicable governmental laws, rules and regulations;

full, fair, accurate, timely and understandable disclosure in reports and documents that the Corporation files with, or submits to, the Securities and Exchange Commission and in other public communications made by the Corporation; the prompt internal reporting of violations of the Code to an appropriate person or persons identified in the Code; and accountability for adherence to the Code.

The Code is posted on the Corporation's website at *www.apollogold.com*. Amendments of/and waivers granted under the Code will be disseminated on the Corporation's website.

Whistleblower Policy

The Corporation's internal controls and corporate reporting and disclosure procedures are intended to prevent, deter and remedy any violation of the applicable laws and regulations that relate to corporate reporting and disclosure, accounting and auditing controls and procedures, securities compliance and other matters pertaining to fraud against shareholders. Even the best systems of control and procedures, however, cannot provide absolute safeguard against such violations.

In 2004, the Audit Committee of the Corporation formally adopted a Whistleblower Policy which governs the process through which employees and others, either directly or anonymously, can notify the Corporation's Compliance Officer or Audit Committee of potential violations or concerns.

The Whistleblower Policy also establishes a mechanism for responding to, and keeping records of, complaints from employees and others regarding such potential violations or concerns.
