The Company's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2008 cannot be filed within the prescribed time period because the Company requires additional time for compilation and review to insure adequate disclosure of certain information required to be included in the Form 10-Q. If the answer is no, identify report(s)

Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reason why a reasonable estimate of the results cannot be made.

Patient Safety Technologies, Inc. (the “*Company*”) anticipates that its revenue for the three months ended March 31, 2008 will significantly exceed its revenue for the three months ended March 31, 2007. The increase in revenue is the result of an increase in sales of the Company’s Safety-Sponge™ System during the 2008 period. The Company anticipates that its operating expenses will be significantly greater than the three months ended March 31, 2008 as a result of increases in salary and marketing expenses. The net loss for the three months ended March 31, 2008 is expected to be slightly more than the three months ended March 31, 2007 primarily as a result of these factors.

A reasonable estimate of the results cannot be made at this time due to the fact that the compilation, dissemination and review of the information required to be presented in the Form 10-Q has not been completed.
