NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

To be held on November 24, 2008

To the Stockholders of SMF Energy Corporation

NOTICE IS HEREBY GIVEN that an annual meeting of Stockholders of SMF Energy Corporation (the “Company”) will be held at the Company’s Corporate Offices, 200 West Cypress Creek Rd., Suite 400, Fort Lauderdale, Florida, on November 24, 2008 beginning at 9:00 a.m. local time. At the meeting, stockholders will act on the following matters:

- To approve an amendment to the Company’s Certificate of Incorporation to effect a reverse stock split of the Company’s Common Stock at a specific ratio to be determined by the Board of Directors in its discretion, no later than 12 months after the annual meeting, within a range of not less than 2 to 1 and not more than 5 to 1;
- To approve an amendment to the 2001 Director Stock Option Plan to increase the amount of shares of Common Stock reserved for issuance from 350,000 to 500,000 (pre-split), or 70,000 to 100,000 (post the maximum 5 to 1 split);
- To approve an amendment to the 2000 Stock Option Plan to increase the amount of shares of Common Stock reserved for issuance from 1,000,000 to 2,500,000 (pre-split), or 200,000 to 500,000 (post the maximum 5 to 1 split);
- To elect seven (7) directors to the Company’s Board of Directors to serve until the next Annual Meeting of Stockholders or until their successors are elected;
- To ratify the appointment of Grant Thornton LLP as our independent registered public accounting firm for the current fiscal year; and

Any other matters that may properly come before the meeting.

Only stockholders of record at the close of business on September 25, 2008 are entitled to receive notice of and to vote at the annual meeting or any postponement or adjournment thereof.

Your vote is important. Whether you plan to attend the meeting or not, you may vote your shares by marking, signing, dating and mailing the enclosed proxy card in the envelope provided. If you hold your shares through your brokerage account or in "street name", telephone or Internet voting may be available to you. Check your proxy card for information. If you attend the meeting and prefer to vote in person, you may do so even if you have already voted your shares. You may revoke your proxy in the manner described in the proxy statement at any time before it has been voted at the meeting.

PROXY STATEMENT

This proxy statement contains information related to the annual meeting of Stockholders to be held on November 24, 2008 at 9:00 a.m. local time, at the Company's Corporate Office, 200 West Cypress Creek Rd., Suite 400, Fort Lauderdale, Florida, or at such other time and place to which the annual meeting may be adjourned or postponed. The enclosed proxy is solicited by the Board of Directors of SMF Energy Corporation. The proxy materials relating to the annual meeting are being mailed to stockholders entitled to vote at the meeting on or about September 8, 2008.

ABOUT THE MEETING

Why are we calling this annual meeting?

We are calling the annual meeting to seek the approval of our stockholders to:

- Approve an amendment to the Company's Certificate of Incorporation to effect a reverse stock split of the Company's Common Stock at a specific ratio to be determined by the Board of Directors in its discretion, within 12 months from the annual meeting and within a range of not less than 2 to 1 and not more than 5 to 1;
- Approve an increase the amount of shares of Common Stock reserved for issuance from 350,000 to 500,000 (pre-split), or 70,000 to 100,000 (post the maximum 5 to 1 split);
- Approve an increase the amount of shares of Common Stock reserved for issuance from 1,000,000 to 2,500,000 (pre-split), or 200,000 to 500,000 (post the maximum 5 to 1 split);
- To elect seven directors to the Company's Board of Directors to serve until the next Annual Meeting of Stockholders or until their successors are elected;
- To ratify the appointment of Grant Thornton LLP as our independent registered public accounting firm for the current fiscal year; and

· Any other matters that may properly come before the meeting.

What are the Board of Directors' recommendations?

Our Board of Directors believes that (i) the approval of an amendment to the Company's Certificate of Incorporation in order to effect a reverse stock split of the Company's common stock within a range of not less than 2 to 1 and not more than 5 to 1; (ii) the approval of an amendment to

the Company's 2001 Director Stock Option Plan to increase the amount of shares reserved for issuance from 350,000 to 500,000 (pre-split), or 70,000 to 100,000 (post the maximum 5 to 1 split); (iii) the approval of an amendment to the Company's 2000 Stock Option Plan to increase the amount of shares reserved for issuance from 1,000,000 to 2,500,000 (pre-split), or 200,000 to 500,000 (post the maximum 5 to 1 split); (iv) the election of the nominated directors and (v) ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm are advisable and in the best interests of the Company and its stockholders and recommends that you vote FOR the amendment to the Certificate of Incorporation, the amendment to the 2001 Director Stock Option Plan, the amendment to the 2000 Stock Option Plan, the nominees and the ratification of Grant Thornton LLP.

Who is entitled to vote at the meeting?

Only stockholders of record at the close of business on the record date, September 25, 2008, are entitled to receive notice of the annual meeting and to vote the shares of common stock that they held on that date at the meeting, or any postponement or adjournment of the meeting.

Holders of our common stock (the "Common Stock") are entitled to one vote per share on each matter to be voted upon. Holders of our Series A Convertible Preferred Stock (the "Series A Preferred Stock") and Series B Convertible Preferred Stock (the "Series B Preferred Stock," and together with the Series A Preferred Stock, the "Preferred Stock") are also entitled to one vote per share on each matter to be voted upon at the meeting. Except as may be required by law, the holders of Preferred Stock vote together with the holders of Common Stock as a single class. For each of the actions described herein, the holders of Preferred Stock will vote with the Common Stock as a single class. The holders of our Common Stock and Preferred Stock are collectively referred to in this proxy statement as the "Voting Stockholders."

As of the record date, we had [14,556,295] outstanding shares of Common Stock, 4,587 outstanding shares of Series A Preferred Stock and 1,985 outstanding shares of Series B Preferred Stock, for a total of [14,562,867] Voting Stockholders. If and to the extent holders of our Preferred Stock convert their shares of Preferred Stock to Common Stock before the record date for the meeting, the number of shares held by Voting Stockholders would increase, since each share of Preferred Stock is convertible into 1000 shares of Common Stock.

Who can attend the meeting?

All stockholders as of the record date, or their duly appointed proxies, may attend the annual meeting. Please note that if you hold your shares in "street name" (that is, through a broker or other nominee), to be admitted to the meeting, you will need to bring a copy of your proxy card as it was delivered to you by your brokerage firm. You cannot vote that proxy card at the meeting, however, since your brokerage firm has the record ownership of your shares. If you want to vote your "street name" shares at the meeting, your brokerage firm can give you a legal proxy that will give you the right to cast your vote in person at the meeting. Otherwise, you can cast your vote through your brokerage firm by returning your proxy and bringing a copy of it to the meeting for admittance.

What constitutes a quorum?

The presence at the annual meeting, in person or by proxy, of the holders of not less than one-third of the shares of our Common Stock outstanding on the record date will constitute a quorum for our annual meeting. Signed proxies received but not voted and broker non-votes will be included in the calculation of the number of shares considered to be present at the annual meeting.

How do I vote?

You may vote your shares at the annual meeting either in person or by proxy. To vote by proxy, you should mark, date, sign and mail the enclosed proxy in the prepaid envelope. Giving a proxy will not affect your right to vote your shares if you attend the annual meeting and want to vote in person. The shares represented by the proxies received in response to this solicitation and not properly revoked will be voted at the annual meeting in accordance with the instructions therein. On the matters coming before the annual meeting for which a choice has been specified by a stockholder on the proxy card, the shares will be voted accordingly. If you return your proxy, but do not mark your voting preference, the individuals named as proxies will vote your shares FOR the matters submitted for a vote at the meeting.

What if I vote by proxy and then change my mind?

You may revoke your proxy at any time before it is exercised by:

- filing with the Secretary of the Company a notice of revocation;
- sending in another duly executed proxy bearing a later date; or
- attending the meeting and casting your vote in person.

Your latest vote will be the vote that is counted.

What vote is required to approve the items of business?

The proposal to approve an amendment to the Company's Certificate of Incorporation to effect a reverse stock split of the Common Stock requires the affirmative vote of a majority of our Voting Stockholders entitled to vote at the meeting. Approval of the amendments to the 2001 Director Stock Option Plan and the 2000 Stock Option Plan to increase the number of shares reserved for issuance under each of those plans requires the affirmative vote of a majority of the Voting Stockholders present, in person or by proxy, at the Meeting. For purposes of electing directors, the nominees receiving the greatest number of votes from our Voting Stockholders represented and entitled to vote at the Annual Meeting shall be elected as directors. Ratification of Grant Thornton LLP as our independent registered public accounting firm requires the affirmative vote of a majority of the shares of our Voting Stockholders that are present, in person or by proxy, at the Meeting. Approval of any other matter that may properly come before the Annual Meeting requires the affirmative vote of the majority of our Voting Stockholders represented in person or by

proxy at the Meeting (unless such other matter requires a greater vote under our Articles of Incorporation or Delaware law).

How are we soliciting this proxy?

We are soliciting this proxy on behalf of our Board of Directors and we will pay all expenses associated therewith. In addition to solicitation by mail, officers, directors and other employees of the Company may, without compensation other than their regular compensation, solicit proxies by further mailing or personal conversations, or by telephone, facsimile or other electronic means. We will also, upon request, reimburse brokers and other persons holding stock in their names, or in the names of nominees, for their reasonable out-of-pocket expenses for forwarding proxy materials to the beneficial owners of the capital stock and to obtain proxies. If, for any reason, we have not obtained enough proxies to have a quorum at the meeting or enough votes to approve a particular matter submitted for approval, we may engage the services of proxy solicitation firm to encourage persons to cast their votes, though we have no plans to do so at this time.

PROPOSAL NO. 1

APPROVAL OF AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO EFFECT A REVERSE STOCK SPLIT

Introduction

The Board of Directors is recommending that the stockholders approve an amendment to our Certificate of Incorporation to effect a reverse stock split of outstanding shares of our Common Stock at a ratio within a range of 2 to 1 to 5 to 1. If this proposal is approved, the Board of Directors will have the authority to decide, within 12 months from the annual meeting, whether to implement the split and the exact ratio of the split.

If a reverse stock split is implemented by the Board of Directors, all of the issued and outstanding shares of Common Stock will be reduced in accordance with the exchange ratio selected by the Board. Following the reverse stock split, all of our other outstanding securities that are convertible into or exercisable for shares of Common Stock, including convertible promissory notes and warrants, will be convertible or exercisable at a proportionately higher price for a lesser number of shares of Common Stock, as determined by the documents governing such security. The reverse stock split, if implemented, would not change the number of authorized shares of Common Stock or the par value of our Common Stock.

If this proposal is approved and the Board does implement a reverse stock split, it will become effective after the amendment to the Company's Certificate of Incorporation is filed with the Secretary of State of the State of Delaware (the "Effective Date"). The form of the Certificate of Amendment is attached hereto as Appendix A. The following discussion is qualified in its entirety by the full text of the Certificate of Amendment, which is hereby incorporated by reference.

Purposes of the Reverse Stock Split

The principal purpose of the reverse stock split is to increase the market price of the Common Stock above \$1.00 per share. The Common Stock is a listed security on the Nasdaq Capital Market and, in order for the Common Stock to continue to be quoted thereon, the Company must satisfy various listing standards established by the Nasdaq Stock Market ("Nasdaq"), including but not limited to maintenance of a closing bid price per share of \$1.00 or more.

On December 28, 2007, the Company received a notice from Nasdaq (the "Notice") that the bid price of its Common Stock had closed below the minimum \$1.00 per share requirement for 30 consecutive business days. The notice further provided that, in accordance with Marketplace Rule 4310(c)(8)(D), the Company had 180 calendar days, or until June 25, 2008, to regain compliance. Compliance would be achieved if at any time before June 25, 2008, the bid price of the Common Stock closes at \$1.00 or more per share for a minimum of 10 consecutive business days (or, subject to Nasdaq's discretion, as many as 20 consecutive trading days), in which event Nasdaq would provide written notification that the Company is in compliance with the minimum bid price requirement. The notice also stated that, if the Company could not demonstrate compliance with the minimum bid price requirement by June 25, 2008, but met all of the other Nasdaq Capital Market initial listing criteria as set forth in Nasdaq Marketplace Rule 4310(c)(which are more

rigorous than the continued listing criteria), then the Company would be eligible for an additional 180 days to regain compliance.

On June 26, 2008, the Company received a second notice from Nasdaq (the Letter”) indicating that its common stock had not regained compliance with the \$1 minimum bid price continued listing requirement set forth in Marketplace Rule 4310(c)(4) during the 180 day period. The Letter further stated that, because the Company did not meet the Rule 4310(c) initial listing criteria on that date, it was not eligible for an additional 180 day compliance period from the Nasdaq Staff. Accordingly, the Letter stated that, in the absence of an appeal of the Staff’s determination to a Nasdaq Listing Qualifications Panel (the “Panel”), the Company’s common stock was subject to delisting from Nasdaq at the opening of business on July 8, 2008. On July 1, 2008, the Company filed its appeal of the Staff’s determination and requested a hearing before the Panel. The Company’s appeal and hearing request stayed the delisting action pending the issuance of a final decision by the Panel. The hearing on the Company’s appeal has been scheduled for August 14, 2008.

At the hearing, the Company intends to seek a temporary exception to the minimum bid price requirement to allow time for the Company to complete the reverse stock split, and for the reverse stock split to take effect. There can be no assurance, however that the Panel will grant the Company’s request for continued listing on this basis. Moreover, while the Company expects that such a reverse stock split, once in effect, would increase the Company’s stock price above the minimum bid price, there can be no assurance that the market price per post-split share will either exceed or remain in excess of the \$1.00 minimum bid price for the sustained period of time necessary to ensure long term compliance with Marketplace Rule 4310(c)(4). The market price of our common stock may be affected by various other factors unrelated to the number of shares outstanding after the reverse stock split, including our future performance and general market conditions.

If a delisting were to occur, the Common Stock would likely trade in the over-the-counter market on the National Association of Securities Dealers’ OTC Bulletin Board (the “OTCBB”), which was established for trading the securities of reporting companies that do not meet the Nasdaq listing requirements. The OTCBB is generally considered less efficient than the Nasdaq Capital Market. As a result, it could be more difficult for an existing shareholder to sell shares of the Common Stock. On the OTCBB, trading volumes are typically lower, transactions can be delayed, and coverage of the Company by securities analysts and news media, which is already limited, may be reduced. In turn, these factors could result in lower prices for the Common Stock or larger “spreads” between the “bid” and “ask” prices quoted by market makers for shares of the Common Stock, either of which could reduce the prices available for sales of the Common Stock by existing shareholders.

Delisting from Nasdaq could also impair the Company’s ability to raise additional capital through equity or debt financing since Nasdaq listed securities are typically viewed as more liquid than securities that are not traded on a national securities exchange. In addition, if delisting does cause lower prices for the Common Stock, it could then cause an increase in the ownership dilution to stockholders when the Company issues equity securities in financing or other transactions. The price at which the Company issues shares in such transactions is generally based on or related to the market price of its Common Stock, so a decline in the market price of its Common Stock could

result in the need for the Company to issue a greater number of shares to raise a given amount of funding or to acquire a given dollar value of goods or services.

In addition, if the Common Stock is not listed on the Nasdaq Capital Market, the Company may become subject to Rule 15g-9 under the Securities and Exchange Act of 1934, as amended (the "Exchange Act") because the Common Stock may be classified as a "penny stock" under Exchange Act Rule 3a51-1. That rule imposes additional sales practice requirements on broker-dealers who sell low-priced securities to persons other than established customers and institutional accredited investors. For transactions covered by this rule, a broker-dealer must make a special suitability determination for the purchaser and have received the purchaser's written consent to the transaction prior to sale. Consequently, the rule may affect the ability of broker-dealers to sell the Common Stock and may affect the ability of holders to sell their shares of Common Stock in the secondary market. Moreover, investors may be less interested in purchasing low-priced securities because the brokerage commissions, as a percentage of the total transaction value, tend to be higher for such securities. Also, institutional investors will usually not invest in low-priced securities (other than those which focus on small-capitalization companies or low-priced securities).

As a consequence of no longer having its shares listed on a national securities exchange, the Company will no longer be able to use the SEC's short form registration forms, such as Form S-3, to register under the Securities Act of 1933 the resale of Common Stock previously sold by the Company in unregistered offerings or the Common Stock underlying warrants or convertible notes but will have to instead use the longer Form S-1. As a result, the registration of these securities for resale will probably require more time and effort, which may in turn reduce the value of any Common Stock or other securities that are sold in unregistered offerings. The negative impact of long form registration has been reduced, however, by recent SEC rule changes that permit most purchasers of stock in unregistered offering to freely resell their securities six months after the purchase under Rule 144.

While there is no guarantee, the Board of Directors believes that the reverse stock split, at the split ratio ultimately selected by the Board, will increase the per share closing bid price of our Common Stock enough to ensure continued compliance with the Nasdaq minimum bid price listing requirement and to generate additional interest in the Company among investors. On the other hand, it is possible that the closing bid price will not remain above \$1.00 for the 10 to 20 trading days required by Nasdaq to determine that the Company has regained compliance with the minimum bid price requirement. In addition, even if the closing bid price does stay above \$1.00 long enough for Nasdaq to make such a determination, if it subsequently falls below \$1.00 for another 30 consecutive trading days, the Company will once again receive a notice of noncompliance from Nasdaq and another 180 days to reestablish compliance with the \$1.00 minimum price standard. If this proposal passes and the Board does decide to effect the reverse stock split, the Board will consider these risks when it selects the split ratio.

If this reverse stock split proposal passes, the Board of Directors may nevertheless decide not to declare any reverse stock split at all. Under the proposal, the Board is retaining this discretion for several reasons. First, the closing bid price of the Common Stock could go over \$1.00 for 10 or 20 consecutive trading days before the annual meeting of shareholders without the need for any reverse stock split. Second, the closing bid price could be so low that a reverse stock split could not assure a post-split price above \$1.00. Finally, the Company may not otherwise meet

the requirements for continued listing on the Nasdaq Capital Market. In particular, Nasdaq Marketplace Rule 4310 provides that, for continued listing, the issuer must maintain either (A) stockholders' equity of \$2.5 million; or (B) market value of listed securities of \$35 million; or (C) net income from continuing operations of \$500,000 in the most recently completed fiscal year or in two of the last three most recently completed fiscal years. Because (a) the market value of the Company's common stock is currently less than \$10 million, (b) the Company did not have net income from operation in the last three fiscal years, and (c) because the Company's stockholders' equity was below the \$2.5 million minimum as of December 31, 2007, the Company received notice in March of 2008 that it did not otherwise qualify for continued listing on Nasdaq. While the Company subsequently raised additional equity capital to increase its stockholders' equity above the \$2.5 million level and continues to meet that criterion for Nasdaq listing as of the date hereof, there is no assurance that the Company will continue to meet the stockholders' equity or other Nasdaq listing requirements. If this reverse stock split proposal passes but Nasdaq makes a final determination to delist the Common Stock on account of the stockholders' equity or any other reason before a reverse stock split has been declared by the Board, it is unlikely that the Board would declare any reverse stock split.

In any event, the efficacy of a reverse stock split in maintaining compliance with Nasdaq's minimum bid price requirement is uncertain. While the short-term result of a reverse stock split can be fairly predicted, the long-term consequences are less predictable. The price of the Common Stock is likely to be affected by our performance and by general market and economic conditions that cannot be predicted or evaluated by the Board of Directors at this time. Accordingly, even if the reverse stock split is successful in reestablishing compliance with Nasdaq's minimum bid price requirement and we meet the stockholders' equity and other requirements needed to maintain our Nasdaq listing, there is no assurance that the market value of the Common Stock will be greater after a reverse stock split than it would be without ever effecting a reverse stock split.

Determination of Reverse Stock Split Ratio

If the stockholders approve the proposal, the Board will be authorized to exercise its discretion as to whether to effect the reverse stock split, when to effect it, and what the split ratio should be. In making these determinations, the Board of Directors will consider a number of factors, including:

- the historical and projected performance of our Common Stock and volume level before and after the reverse stock split,
- prevailing market conditions,
- general economic and other related conditions prevailing in our industry and in the marketplace generally,
- the projected impact of the selected reverse stock split ratio on trading liquidity in our Common Stock and our ability to continue our Common Stock's listing on the Nasdaq Capital Market,

- our capitalization (including the number of shares of our Common Stock issued and outstanding),
- the prevailing trading price for our Common Stock and the volume level thereof, and
- potential devaluation of our market capitalization as a result of a reverse stock split.

The proposal gives the discretion to select the reverse stock split ratio from within a range to the Board of Directors, rather than proposing fixing a specific ratio at this time, in order to give the Company the flexibility to implement a reverse stock split at a ratio that reflects the Board's then-current assessment of the factors described above and to respond to other developments that may be deemed relevant, when considering the appropriate ratio. This flexibility is considered essential for the Board to be able to react to changes in market conditions between the date of this proxy statement and the date of the annual meeting, as well as the length of time that would be required for the Company to hold an additional annual meeting to approve the final reverse stock split ratio.

Material Effects of Proposed Reverse Stock Split

The reverse stock split and amendment of our Certificate of Incorporation will not change the terms of the Common Stock. After the reverse stock split, the shares of Common Stock will have the same voting rights and rights to dividends and distributions, if any, and will be identical in all other respects to the Common Stock now authorized. Each stockholder's percentage ownership of the new Common Stock will not be altered except for the effect of eliminating fractional shares. The common stock issued pursuant to the reverse stock split will remain fully paid and non-assessable. The reverse stock split is not intended as, and will not have the effect of, a "going private transaction" covered by Rule 13e-3 under the Exchange Act. Following the reverse stock split, the Company will continue to file Forms 10-K, 10-Q, and 8-K and will remain subject to the reporting requirements of the Exchange Act.

The principal effects of the reverse stock split will be that:

- The number of shares of Common Stock issued and outstanding will be reduced from approximately 14,556,295 shares to a range of approximately 2.911 million to 7.278 million shares, depending on the reverse stock split ratio selected by the Board of Directors.
- All outstanding warrants entitling holders to purchase shares of Common Stock will enable such holders to purchase, upon exercise of their warrants, the number of shares of Common Stock as proportionately reduced by the same ratio as selected for the reverse stock split at an exercise price proportionately increased by the same ratio.
- All outstanding convertible promissory notes entitling holders to convert the notes into shares of Common Stock will enable such holders to convert the number of shares of Common Stock as proportionately reduced by the same ratio as selected for the reverse stock split at a conversion price proportionately increased by the same ratio.

- All outstanding shares of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock (collectively, the “Preferred Stock”) entitling holders to convert the notes into shares of Common Stock will enable such holders to convert the number of shares of Common Stock as proportionately reduced by the same ratio as selected for the reverse stock split at a conversion price proportionately increased by the same ratio.
- All of our equity incentive plans, which include the SMF Energy Corporation Stock Option Plan, the SMF Energy Corporation 2000 Stock Option Plan and the SMF Energy Corporation 2001 Director Stock Option Plan, include provisions requiring appropriate adjustments to the number of shares of Common Stock covered by the plans and stock options and other grants under those plans, as well as option exercise prices. Further, the number of shares of our Common Stock reserved for issuance (including the number of shares subject to automatic annual increase and the maximum number of shares that may be subject to options) under our existing stock option plans and employee stock purchase plans will be reduced by the same ratio as selected for the reverse stock split.

Stockholders should recognize that if the reverse stock split is effected they will own fewer number of shares than they presently own, depending on the ratio of the reverse stock split effected by the Board of Directors. In addition, the reverse stock split will increase the number of stockholders of the Company who own odd-lots (less than 100 shares). Stockholders who hold odd-lots may experience an increase in the cost of selling their shares, as well as greater difficulty in effecting such sales.

Procedure for Effecting Reverse Stock Split and Exchange of Stock Certificates

If our stockholders approve this proposal, and the Board of Directors subsequently elects to effect the reverse stock split, we will file the Certificate of Amendment included as Appendix A to this proxy statement (as completed to reflect the reverse stock split ratio as determined by the Board of Directors, in its discretion, within the range of not less than 2 to 1 and not more than 5 to 1). The Certificate of Amendment will become effective when it is filed with the Secretary of State of the State of Delaware or such later time as is set forth in the Certificate of Amendment.

Effect on Beneficial Holders of Common Stock (i.e. stockholders who hold in “street name”)

Upon the reverse stock split, the Company intends to treat shares of Common Stock held by stockholders in “street name,” through a bank, broker or other nominee, in the same manner as registered stockholders whose shares of Common Stock are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding the Common Stock in “street name.” However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If a stockholder holds shares of Common Stock with a bank, broker or other nominee and has any questions in this regard, stockholders are encouraged to contact their bank, broker or other nominee.

Effect on Registered “Book-Entry” Holders of Common Stock (i.e. stockholders that are registered on the transfer agent’s books and records but do not hold certificates)

Some of the Company’s registered holders of Common Stock may hold some or all of their shares electronically in book-entry form with the Company’s transfer agent. These stockholders do not have stock certificates evidencing their ownership of the Common Stock. They are, however, provided with a statement reflecting the number of shares registered in their accounts.

If a stockholder holds registered shares in book-entry form with the transfer agent, no action needs to be taken to receive post-reverse stock split shares. If a stockholder is entitled to post-reverse stock split shares, a transaction statement will automatically be sent to the stockholder’s address of record indicating the number of shares of Common Stock held following the reverse stock split.

Effect on Certificated Shares

Upon the reverse stock split, our transfer agent will act as our exchange agent and will act for holders of our Common Stock in implementing the exchange of their certificates.

Commencing on the effective date of a reverse stock split, stockholders holding shares in certificated form will be sent a transmittal letter from the Company’s transfer agent for the Common Stock. The letter of transmittal will contain instructions on how a stockholder should surrender his or her certificate(s) representing shares of the Common Stock (“Old Certificates”) to the transfer agent in exchange for certificates representing the appropriate number of whole shares of post-reverse stock split Common Stock (“New Certificates”). No New Certificates will be issued to a stockholder until that stockholder has surrendered all Old Certificates, together with a properly completed and executed letter of transmittal, to the transfer agent. No stockholder will be required to pay a transfer or other fee to exchange the stockholder’s Old Certificates. Stockholders will then receive a New Certificate(s) representing the number of whole shares of Common Stock to which they are entitled as a result of the reverse stock split. Until surrendered, the Company will deem outstanding Old Certificates held by stockholders to be canceled and only to represent the number of whole shares of post-reverse stock split Common Stock to which these stockholders are entitled.

Any Old Certificates submitted for exchange, whether because of a sale, transfer or other disposition of stock, will automatically be exchanged for New Certificates. If an Old Certificate has a restrictive legend on the back of the Old Certificate(s), the New Certificate(s) will be issued with the same restrictive legends that are on the back of the Old Certificate(s) unless that legend is no longer effective because of the passage of time.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNTIL REQUESTED TO DO SO.

No Fractional Shares

No fractional shares of Common Stock will be issued in connection with the reverse stock split. If, as a result of the reverse stock split, a stockholder of record would otherwise hold a fractional share, the number of shares to be received by the shareholder will be rounded up to the next highest number of shares.

Accounting Matters

The par value of the shares of our Common Stock is not changing as a result of the implementation of the reverse stock split. Our stated capital, which consists of the par value per share of our Common Stock multiplied by the aggregate number of shares of our Common Stock issued and outstanding, will be reduced proportionately on the effective date of the reverse stock split. Correspondingly, our additional paid-in capital, which consists of the difference between our stated capital and the aggregate amount paid to us upon the issuance of all currently outstanding shares of our Common Stock, will be increased by a number equal to the decrease in stated capital. Further, net loss per share and book value per share will be increased as result of the reverse stock split because there will be fewer shares of Common Stock outstanding.

No Dissenter's Rights

Under the General Corporation Law of the State of Delaware, stockholders are not entitled to dissenter's rights with respect to the proposed amendment to the Certificate of Incorporation to effect the reverse stock split, and the Company will not independently provide stockholders with any such right.

Possible Disadvantages of Reverse Stock Split

Even though the Board of Directors believes that the potential advantages of a reverse stock split outweigh any disadvantages that might result, the following are some of the possible disadvantages of a reverse stock split:

- The reduced number of shares of our Common Stock resulting from a reverse stock split could adversely affect the liquidity of our Common Stock.
- A reverse stock split could result in a significant devaluation of the Company's market capitalization and the trading price of its Common Stock, on an actual or an as-adjusted basis, based on the experience of other companies that have effected reverse stock splits.
- A reverse stock split may leave certain stockholders with one or more "odd lots," which are stock holdings in amounts of less than 100 shares of our Common Stock. These odd lots may be more difficult to sell than shares of Common Stock in even multiples of 100.
- There can be no assurance that the market price per new share of our Common Stock after the reverse stock split will remain unchanged or increase in proportion to the reduction in the number of old shares of our Common Stock outstanding before the reverse stock split.
- Accordingly, the total market capitalization of our Common Stock after the proposed reverse stock split may be lower than the total market capitalization before the proposed reverse stock split and, in the future, the market price of our Common

Stock following the reverse stock split may not exceed or remain higher than the market price prior to the proposed reverse stock split.

- While the Board of Directors believes that a higher stock price may help generate investor interest, there can be no assurance that the reverse stock split will result in a per-share price that will attract institutional investors or investment funds or that such share price will satisfy the investing guidelines of institutional investors or investment funds. As a result, the trading liquidity of our Common Stock may not necessarily improve.
- If the reverse stock split is effected and the market price of our Common Stock declines, the percentage decline may be greater than would occur in the absence of a reverse stock split. The market price of our Common Stock will, however, also be based on our performance and other factors, which are unrelated to the number of shares outstanding.

Certain U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain U.S. federal income tax consequences relating to the reverse stock split as of the date hereof. This summary addresses only U.S. holders who hold their shares of Common Stock as a capital asset for U.S. federal income tax purposes (i.e., generally, property held for investment).

For purposes of this summary, a “U.S. holder” means a beneficial owner of Common Stock who is any of the following for U.S. federal income tax purposes: (i) an individual who is a citizen or resident of the United States, (ii) a corporation created or organized in or under the laws of the United States, any state thereof, or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) a trust if (1) its administration is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all of its substantial decisions, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

This summary is based on interpretations of the Internal Revenue Code of 1986, as amended (the “Code”), and regulations, rulings and judicial decisions as of the date hereof. These authorities may be changed, perhaps retroactively, and may adversely affect the U.S. federal income tax consequences described herein. This summary does not discuss all of the tax consequences that may be relevant to particular stockholders or to stockholders subject to special treatment under U.S. federal income tax laws.

Moreover, this description does not address the U.S. federal estate and gift tax, alternative minimum tax, state, local, foreign or other tax consequences of the reverse stock split.

Each stockholder should consult their own tax adviser concerning the particular U.S. federal tax consequences of the reverse stock split, as well as any consequences arising under the laws of any other taxing authority, such as any state, local or foreign income tax consequences to which they may be subject.

To ensure compliance with Treasury Department Circular 230, each holder of Common Stock is hereby notified that: (a) any discussion of U.S. federal tax issues in this proxy statement is not intended or written to be used, and cannot be used, by such holder for the purpose of avoiding penalties that may be imposed on such holder under the Code; (b) any such discussion has been included by the Company in furtherance of the reverse stock split on the terms described herein; and (c) each such holder should seek advice based on its particular circumstances from an independent tax advisor.

Generally, a reverse stock split will not result in the recognition of gain or loss by a U.S. holder for U.S. federal income tax purposes. The aggregate adjusted basis of the post-reverse stock split shares will be the same as the aggregate adjusted basis of the pre-reverse stock split shares. The holding period of the post-reverse stock split shares will include a U.S. holder's holding periods for the pre-reverse stock split shares.

The Company will not recognize any gain or loss as a result of the reverse stock split.

PROPOSAL NO. 2

APPROVAL OF AMENDMENT TO THE COMPANY'S 2001 DIRECTOR STOCK OPTION PLAN

The 2001 Directors Stock Option Plan (the "2001 Plan") was adopted by the Board of Directors on May 10, 2001 and approved by the shareholders on July 19, 2001. The 2001 Plan was subsequently amended in December 2004. The purpose of the 2001 Plan is to provide an additional incentive to attract and retain qualified and competent directors whose efforts and judgment are important to the success of the Company, through the encouragement of stock ownership in the Company by such persons.

On July 11, 2008, the Board of Directors approved an amendment to the 2001 Plan to increase the number of shares reserved under the 2001 Plan. The Board believes that an increase in the number of options available for grant is important to permit the Company to continue to attract and retain directors and to encourage stock ownership by them. Accordingly, the shareholders are being asked to increase the number of shares of Common Stock reserved for issuance from 350,000 to 500,000 (pre-split), or from 70,000 to 100,000 (post the maximum 5 to 1 split).

Description of the 2001 Director Stock Option Plan

The following description is qualified in its entirety by reference to the 2001 Plan, which was filed as an exhibit to our post-effective amendment to our Registration Statement on Form S-8, filed on June 7, 2007.

Administration

The 2001 Plan is presently administered by the Board of Directors (the "Board"). Subject to the 2001 Plan, the Board has the authority to determine to whom stock options may be granted, the time or times at which stock options are granted, the number of shares covered by each such grant, the duration of any options and rights, and any other terms and conditions relating to stock options. All decisions and interpretations made by the Board are binding and conclusive on all participants in the 2001 Plan.

Securities

The securities to be issued upon the exercise of stock options under the 2001 Plan are shares of the Company's \$.01 par value Common Stock. If any options granted under the 2001 Plan are surrendered, or for any other reason cease to be exercisable in whole or in part, the shares as to which the option ceases to be exercisable are available for options to be granted to the same or other participants under the 2001 Plan.

Based on the closing price of the Company's Common Stock on July 10, 2008 of \$0.46, the market value of 350,000 shares of Common Stock was \$161,000.

Eligible Directors

Only directors of the Company who are not employees, full time or part time, of the Company are eligible to receive stock options under the 2001 Plan "Eligible Directors".

As of July 10, 2008, the Company had six directors eligible to receive grants under the 2001 Plan.

Stock Options

Options granted under the 2001 Plan are nonqualified stock options.

Option Price and Duration

The option price for nonqualified stock options may be less than the fair market value of the stock on the business day immediately preceding the date of grant, but in no event will the option price be less than the par value of the stock on the date of the grant.

"Fair market value" means the closing price on the business day immediately preceding the date of grant. For purposes of determining fair market value, the closing price on any business day is (a) if there is an established market for the Company's Common Stock on a national securities exchange, or if actual transactions are otherwise reported on a consolidated transaction reporting system, the last report sale price of the Common Stock on such exchange or reporting system, (b) if quoted on Nasdaq or any similar system of automated dissemination of quotations of securities prices in common use, the last reported sale price on such system, or if sales prices are not reported, the mean between the closing high bid and low asked quotations for such day as reported in any newspaper of general circulation, or (c) if neither (a) or (b) is applicable, the mean between the high bid and low asked quotations as reported by the National Quotation Bureau, Incorporated if at least two securities dealers have inserted both bid and asked quotations for the Common Stock on at least five of the ten preceding days.

Exercise of Options and Payment for Stock

Options are exercisable in accordance with the terms and conditions of the grant to the participant. The exercise price of options may be paid in cash or in shares of the Company's Common Stock (valued at the fair market value of the shares on the date of exercise) or by a combination thereof. The Board in its discretion may agree to lend money to a participant, guarantee a loan to a participant, or otherwise assist a participant to obtain the cash necessary to exercise all or a portion of an option granted under the 2001 Plan or to pay any tax liability of the participant attributable to such exercise. If the exercise price is paid in whole or in part with the participant's promissory note, such note shall (i) provide for full recourse to the maker, (ii) be collateralized by the pledge of the shares that the participant purchases upon exercise of such option, (iii) bear interest at the prime rate of the Company's principal lender, and (iv) contain such other terms as the Board in its sole discretion shall reasonably require. The Board may elect to permit a participant to effect a net exercise of an option without tendering shares of the Company's stock as payment for the option. In such an event, the participant would be deemed to have paid for

the exercise of the option with shares of the Company's stock and would receive from the Company a number of shares equal to the difference between the shares that would have been tendered and the number of options exercised. Also, the Board may elect to permit a participant to effect a cashless exercise through a broker acceptable to the Company and delivery to the Company by the broker of proceeds from the sale of shares or a margin loan sufficient to pay the exercise price and any applicable income taxes.

Nontransferability of Options

Unless the prior written consent of the Board is obtained and the transaction does not violate the requirements of Rule 16b-3 promulgated under the Securities Exchange Act, no option shall be subject to alienation, assignment, pledge, charge or other transfer other than by the participant by will or the laws of descent and distribution. Each option is exercisable during a participant's lifetime, or in the case of an option that has been assigned or transferred with the prior written consent of the Board, only by the permitted assignee.

Termination of Option Period

Unless otherwise provided in any option agreement, the unexercised portion of any option shall automatically and without notice terminate and become null and void at the time of the earliest to occur of the following: (i) immediately upon the removal of the optionee as a director for Cause which, for purposes of the 2001 Plan, shall mean the removal of the optionee as a director by reason of any act by the optionee of (x) fraud or intentional misrepresentation, (y) embezzlement, misappropriation, or conversion of assets or opportunities of the Company or any subsidiary or (z) willful misconduct or gross negligence, (ii) immediately in the event that the optionee shall file any lawsuit or arbitration claims against the Company or any subsidiary, or any of their respective officers, directors or shareholders, other than a claim for indemnification, whether by contract or under applicable law, or (iii) ten years from the date of grant of the option.

Amendment, Suspension and Termination

The Committee may at any time amend, suspend or terminate the 2001 Plan or any option, provided, however, that, any amendment to the 2001 Plan shall be subject to the approval of the Company's shareholders if such shareholder approval is required by any federal or state law or regulation (including, without limitation, Rule 16b-3 or the rules of any stock exchange or automated quotation system on which the Common Stock may then be listed or granted. Except as otherwise provided by the 2001 Plan, no amendment, suspension or termination of the 2001 Plan or any option under the 2001 Plan shall substantially impair the rights or benefits of any optionee pursuant to any option previously granted without the consent of the optionee.

2001 Plan Benefits

The 2001 Plan provides that Eligible Directors are granted options to purchase 20,000 shares of Common Stock on his or her initial election to the Board. In addition, on the last day of each fiscal quarter of

the Company, each then Eligible Director is granted options to purchase 1,500 shares. The Board of Directors also has the discretion to from time to time grant additional options to the Eligible Directors under the 2001 Plan. Set forth below in tabular form are the benefits or amounts received or to be received by or allocated to each of the named persons or groups under the 2001 Plan during fiscal 2008.

(1) All options are granted at not less than the fair market value on the date of grant. The dollar value to the grantee is solely dependent on the increase in the stock price subsequent to the date of grant.

Federal Income Tax Consequences

NONQUALIFIED OPTIONS. Nonqualified options are taxed in accordance with Section 83 of the Code and the Regulations issued thereunder. The following general rules are applicable to United States holders of such options and to the Company for Federal income tax purposes under existing law:

- i. The optionee does not realize any taxable income upon the grant of nonqualified option, and the Company is not allowed a business expense deduction by reason of such grant.

- ii. The optionee will recognize ordinary compensation income at the time of exercise of a nonqualified option in an amount equal to the excess, if any, of the fair market value of the shares on the date of exercise over the exercise price.
- iii. When the optionee sells the shares, he or she will recognize a capital gain or loss in an amount equal to the difference between the amount realized upon the sale of the shares and his or her basis in the shares (i.e., the exercise price plus the amount taxed to the optionee as compensation income). If the optionee holds the shares for longer than one year, this gain or loss will be a long-term capital gain or loss.
- iv. In general, the Company will be entitled to a tax deduction in the year in which compensation income is recognized by the optionee.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR”
THE AMENDMENT TO THE COMPANY’S 2001 DIRECTOR STOCK OPTION PLAN**

PROPOSAL 3

APPROVAL OF AMENDMENT TO THE COMPANY'S 2000 STOCK OPTION PLAN

The 2000 Stock Option Plan (the "2000 Plan") was adopted by the Board of Directors on December 21, 2000 and approved by the shareholders on February 28, 2001. The purpose of the 2000 Plan is to provide an additional incentive to attract and retain qualified competent persons who provide services and upon whose efforts and judgment our success is largely dependent, through the encouragement of ownership of our stock by such persons.

On July 11, 2008, the Board of Directors voted to submit to the Company's shareholders a proposed amendment to the 2000 Plan to increase the number of shares reserved under the 2000 Plan and to eliminate the annual automatic 10% increase in the number of shares available for issuance. The Board believes an increase in the number of options available for grant is important to permit the Company to continue to attract and retain employees and to encourage stock ownership by them. In connection with the increase in reserved shares, the Board also desires to remove from the 2000 Plan Section 3(b), which provides as follows:

"The number of Shares available for issuance under the Plan shall automatically increase on the first trading day of each calendar year during the term of the Plan, beginning with the 2002 calendar year, by an amount equal to ten percent (10%) of the total Shares subject to the Plan as of the last trading day of the immediately preceding calendar year. No incentive Stock Options may be granted on the basis of the additional Shares resulting from such annual increases."

Through these annual increases, the 1,000,000 shares originally reserved for issuance has currently increased to 1,939,853 and will continue to increase accordingly in subsequent years. Instead of providing for subsequent annual increases, the Company desires to increase the reserved shares to 2,500,000 and eliminate Section 3(b) from the 2000 Plan.

Accordingly, the shareholders are being asked to increase the number of shares reserved under the 2000 Plan from 1,000,000 to 2,500,000 (pre-split), or 200,000 to 500,000 (post the maximum 5 to 1 split) and to remove Section 3(b) from the 2000 Plan.

Description of the 2000 Stock Option Plan

The following description is qualified in its entirety by reference to the 2000 Plan, which was filed as an exhibit to our post-effective amendment to our Registration Statement on Form S-8, filed on June 6, 2007.

Administration

The 2000 Plan provides that it shall be administered by our Board or a committee appointed by the Board (the "Committee") which shall be composed of two or more directors all of whom shall be "outside directors" (as defined in the 2000 Plan) in compliance with Rule 16b-3 of

the Exchange Act and Section 162(m) of the tax code (although Rule 16b-3 also may be complied with if the option grants are approved by the board of directors).

The Committee or the Board, in its sole discretion, determines the terms of the Options. In addition, the Committee or the Board has full power and authority to construe and interpret the 2000 Plan, and the acts of the Committee or the Board are final, conclusive and binding on all interested parties, including our company, shareholders, officers and employees, recipients of grants under the 2000 Plan, and all persons or entities claiming by or through such persons.

Prior to the effectiveness of the Amendment, an aggregate of 1,000,000 shares of common stock was reserved for issuance upon the exercise of Options granted under the 2000 Plan. Based on the closing price of the Company's Common Stock on July 10, 2008 of \$0.46, the market value of 1,000,000 shares of Common Stock was \$460,000. The maximum number of shares of common stock to which Options may be granted to any one individual under the 2000 Plan is 750,000. The shares acquired upon exercise of Options granted under the 2000 Plan will be authorized and issued shares of common stock. Our shareholders will not have any preemptive rights to purchase or subscribe for any common stock by reason of the reservation and issuance of common stock under the 2000 Plan. If any option granted under the 2000 Plan should expire or terminate for any reason other than having been exercised in full, the unpurchased shares subject to that option will again be available for purposes of the 2000 Plan.

Terms and Conditions

All Options granted under the 2000 Plan must be evidenced by a written agreement between us and the grantee. The agreement will contain such terms and conditions as the committee or the board of directors shall prescribe, consistent with the 2000 Plan, including, without limitation, the exercise price, term and any restrictions on the exercisability of the Options granted.

For any Option granted under the 2000 Plan, the exercise price per share of common stock may be any price determined by the Committee or the Board; however, the exercise price per share of any Incentive Stock Option may not be less than the Fair Market Value of the common stock on the date such Incentive Stock Option is granted. For purposes of the 2000 Plan, the "Fair Market Value" on any date of reference is deemed to be the closing price of common stock on the business day immediately preceding such date, unless the committee or the board of directors in its sole discretion determines otherwise in a fair and uniform manner. For this purpose, the closing price of common stock on any business day is (i) if the common stock is listed or admitted for trading on any United States national securities exchange, or if actual transactions are otherwise reported on a consolidated transaction reporting system, the last reported sale price of common stock on such exchange or reporting system, as reported in any newspaper of general circulation; (ii) if common stock is quoted on the National Association of Securities Dealers Automated Quotations System ("NASDAQ"), or any similar system of automated dissemination of quotations of securities prices in common use, the mean between the closing high bid and low asked quotations for such day of common stock on such system; or (iii) if neither clause (i) nor (ii) is applicable, the mean between the high bid and low asked quotations for common stock as reported by the National Quotations

Bureau, Incorporated if at least two securities dealers have inserted both bid and asked quotations for common stock on at least 5 of the 10 preceding days.

The Committee or the Board may permit the exercise price of an Option to be paid for in cash, by certified or official bank check or personal check, by money order, with already owned shares of common stock that have been held by the optionee for at least six (6) months (or such other shares as we determine will not cause us to recognize for financial accounting purposes a charge for compensation expense), the withholding of shares of common stock issuable upon exercise of the Option, by delivery of a properly executed exercise notice together with such documentation as shall be required by the Committee or the Board of Directors (or, if applicable, the broker) to effect a cashless exercise, or a combination of the above. If paid in whole or in part with shares of already owned common stock, the value of the shares surrendered is deemed to be their Fair Market Value on the date the Option is exercised. The 2000 Plan also authorizes us to lend money to Optionee, guarantee a loan to Optionee, or otherwise assist Optionee in obtaining the cash necessary to exercise all or a portion of the Option granted thereunder or to pay any of Optionee's tax liability attributable to such exercise. If the exercise price is paid in whole or part with the Optionee's promissory note, such note shall (i) provide for full recourse to the maker, (ii) be collateralized by the pledge of the shares that the Optionee purchases upon exercise of such Option, (iii) bear interest at the prime rate of our principal lender or such other rate as the board of directors shall determine, and (iv) contain such other terms as the board of directors in its sole discretion shall reasonably require.

The use of already owned shares of common stock applies to payment for the exercise of an option in a single transaction and to the "pyramiding" of already owned shares in successive, simultaneous Option exercises. In general, pyramiding permits an Option holder to start with as little as one share of common stock and exercise an entire Option to the extent then exercisable (no matter what the number of shares subject thereto). By utilizing already owned shares of common stock, no cash (except for fractional share adjustments) is needed to exercise an Option. Consequently, the optionee would receive common stock equal in value to the spread between the fair market value of the shares subject to the Option and the exercise price of such Option.

No Incentive Stock Option, and unless the prior written consent of the Committee or the Board is obtained (which consent may be withheld for any reason) and the transaction does not violate the requirements of Rule 16b-3 of the Exchange Act, no non-qualified stock option granted under the 2000 Plan is assignable or transferable, other than by will or by the laws of descent and distribution. During the lifetime of the optionee, an Option is exercisable only by him or her, or in the case of a non-qualified stock option, by his or her permitted assignee. The expiration date of an Option under the 2000 Plan will be determined by the Committee or the Board at the time of grant, but in no event may such an Option be exercisable after 10 years from the date of grant. An Option may be exercised at any time or from time to time or only after a period of time in installments, as the committee or the board of directors determines. The Committee or the Board may, in its sole discretion, accelerate the date on which any Option may be exercised. Each outstanding Option granted under the 2000 Plan may become immediately fully exercisable in the event of certain transactions, including certain changes in control, certain mergers and reorganizations, and certain dispositions of substantially all of our assets.

Unless otherwise provided in the Option agreement, the unexercised portion of any Option granted under the 2000 Plan shall automatically be terminated (a) three months after the date on which the optionee's employment or service is terminated for any reason other than (i) Cause (as defined in the 2000 Plan), (ii) mental or physical disability, or (iii) death; (b) immediately upon the termination of the optionee's employment or service for Cause; (c) one year after the date on which the optionee's employment or service is terminated by reason of mental or physical disability; or (d) one year after the date on which the optionee's employment or service is terminated by reason of optionee's death, or if later, three months after the date of optionee's death if death occurs during the one year period following the termination of the optionee's employment by reason of mental or physical disability.

To prevent dilution of the rights of the optionee, the 2000 Plan provides for appropriate adjustment of the number of shares for which Options may be granted, the number of shares subject to outstanding Options and the exercise price of outstanding Options, in the event of any increase or decrease in the number of issued and outstanding shares of our capital stock resulting from a stock dividend, a recapitalization or other capital adjustment. The Committee or the Board has discretion to make appropriate antidilution adjustments to outstanding Options in the event of a merger, consolidation or other reorganization of or a sale or other disposition of substantially all of our assets.

Amendment, Suspension and Termination

The 2000 Plan will expire on December 20, 2010, and any Option outstanding on such date will remain outstanding until it expires or is exercised. The Committee or the Board may amend, suspend or terminate the 2000 Plan or any Option at any time, provided that such amendment shall be subject to the approval of the shareholders if such shareholder approval is required by any federal or state law or regulation (including, without limitation, Rule 16b-3 or to comply with Section 162(m) of the tax code) or the rules of any stock exchange or automated quotation system on which the common stock may then be listed or granted. In addition, no amendment, suspension or termination shall substantially impair the rights or benefits of Optionee, pursuant to any Option previously granted, without the consent of the Optionee.

Federal Income Tax Consequences

The 2000 Plan is not qualified under the provisions of Section 401(a) of the tax code, and is not subject to any of the provisions of the Employee Retirement Income Security Act of 1974, as amended.

Nonqualified Stock Options. On exercise of a nonqualified stock option granted under the 2000 Plan, an optionee will recognize ordinary income equal to the excess, if any, of the fair market value on the date of exercise of the shares of common stock acquired on exercise of the Option over the exercise price and that income will be subject to the withholding of Federal income tax. The optionee's tax basis in those shares will be equal to their fair market value on the date of exercise of the Option, and his holding period for those shares will begin on that date.

If an optionee pays for shares of common stock on exercise of an Option by delivering shares of our common stock, the optionee will not recognize gain or loss on the shares delivered, even if their fair market value at the time of exercise differs from the optionee's tax basis in them. The Optionee, however, otherwise will be taxed on the exercise of the Option in the manner described above as if he had paid the exercise price in cash. If a separate identifiable stock certificate is issued for that number of shares equal to the number of shares delivered on exercise of the Option, the optionee's tax basis in the shares represented by that certificate will be equal to his tax basis in the shares delivered, and his holding period for those shares will include his holding period for the shares delivered. The optionee's tax basis and holding period for the additional shares received on exercise of the Option will be the same as if the optionee had exercised the Option solely in exchange for cash.

We will be entitled to a deduction for Federal income tax purposes equal to the amount of ordinary income taxable to the optionee, provided that amount constitutes an ordinary and necessary business expense for us and is reasonable in amount, and either the employee includes that amount in income or we timely satisfy our reporting requirements with respect to that amount.

Incentive Stock Options. The 2000 Plan provides for the grant of stock options that qualify as "incentive stock options" as defined in Section 422 of the tax code. Under the tax code, the optionee generally is not subject to tax upon the grant or exercise of an incentive stock option. In addition, if the optionee holds a share received on exercise of an incentive stock option for at least two years from the date the Option was granted and at least one year from the date the Option was exercised (the "Required Holding Period"), the difference, if any, between the amount realized on a sale or other taxable disposition of that share and the holder's tax basis in that share will be long-term capital gain or loss.

If, however, an optionee disposes of a share acquired on exercise of an incentive stock option before the end of the Required Holding Period (a "Disqualifying Disposition"), the optionee generally will recognize ordinary income in the year of the Disqualifying Disposition equal to the excess, if any, of the fair market value of the share on the date the incentive stock option was exercised over the exercise price. If, however, the Disqualifying Disposition is a sale or exchange on which a loss, if realized, would be recognized for Federal income tax purposes, and if the sales proceeds are less than the fair market value of the share on the date of exercise of the Option, the amount of ordinary income recognized by the optionee will not exceed the gain, if any, realized on the sale. If the amount realized on a Disqualifying Disposition exceeds the fair market value of the share on the date of exercise of the Option, that excess will be short-term or long-term capital gain, depending on whether the holding period for the share exceeds one year.

An optionee who exercises an incentive stock option by delivering shares of common stock acquired previously pursuant to the exercise of an incentive stock option before the expiration of the Required Holding Period for those shares, it is treated as if the Optionee made a Disqualifying Disposition of those shares. This rule prevents "pyramiding" the exercise of an incentive stock option (that is, exercising an incentive stock option for one share and using that share, and others so acquired, to exercise successive incentive stock options) without the imposition of current income tax.

For purposes of the alternative minimum tax, the amount by which the fair market value of a share of common stock acquired on exercise of an incentive stock option exceeds the exercise price of that Option generally will be an adjustment included in the optionee's alternative minimum taxable income for the year in which the Option is exercised. If, however, there is a Disqualifying Disposition of the share in the year in which the Option is exercised, there will be no adjustment with respect to that share. If there is a Disqualifying Disposition in a later year, no income with respect to the Disqualifying Disposition is included in the optionee's alternative minimum taxable income for that year. In computing alternative minimum taxable income, the tax basis of a share acquired on exercise of an incentive stock option is increased by the amount of the adjustment taken into account with respect to that share for alternative minimum tax purposes in the year the Option is exercised.

We are not allowed an income tax deduction with respect to the grant or exercise of an incentive stock option or the disposition of a share acquired on exercise of an incentive stock option after the Required Holding Period. However, if there is a Disqualifying Disposition of a share, we are allowed a deduction in an amount equal to the ordinary income included in income by the optionee, provided that amount constitutes an ordinary and necessary business expense for us and is reasonable in amount, and either the employee includes that amount in income or we timely satisfy our reporting requirements with respect to that amount.

Section 162 Limitations. The Omnibus Budget Reconciliation Act of 2003 added Section 162(m) to the tax code, which generally disallows a public company's tax deduction for compensation to covered employees in excess of \$1 million in any tax year beginning on or after January 1, 2004. Compensation that qualifies as "performance-based compensation" is excluded from the \$1 million deductibility cap, and therefore remains fully deductible by the company that pays it. We intend that Options granted to employees whom the committee expects to be covered employees at the time a deduction arises in connection with such Options, will qualify as such "performance-based compensation," so that such Options will not be subject to the Section 162(m) deductibility cap of \$1 million. Future changes in Section 162(m) or the regulations thereunder may adversely affect our ability to ensure that Options under the employee 2000 Plan will qualify as "performance-based compensation" that is fully deductible by us under Section 162(m).

Importance of Consulting Tax Adviser. The information set forth above is a summary only and does not purport to be complete. In addition, the information is based upon current Federal income tax rules and therefore is subject to change when those rules change. Moreover, because the tax consequences to any optionee may depend on his particular situation, each optionee should consult his tax adviser as to the Federal, state, local and other tax consequences of the grant or exercise of an Option or the disposition of common stock acquired on exercise of an Option.

2000 Plan Benefits

PROPOSAL 4

ELECTION OF SEVEN INDIVIDUALS TO THE BOARD OF DIRECTORS

Nominees

The Board of Directors has fixed at seven the number of directors that will constitute the Board of Directors for the ensuing year. Each director elected at the Annual Meeting will serve for a term expiring at the 2008 Annual Meeting of Stockholders, or until his successor has been duly elected and qualified. Wendell R. Beard, Richard E. Gathright, Steven R. Goldberg, Nat Moore, Larry S. Mulkey, C. Rodney O'Connor and Robert S. Picow, each of whom is an incumbent director, have been nominated to be elected at the Annual Meeting by the Voting Stockholders and proxies will be voted for such persons absent contrary instructions.

Our Board of Directors has no reason to believe that any nominee will refuse to act or be unable to accept election; however, in the event that a nominee for a directorship is unable or unwilling to accept election or if any other unforeseen contingencies should arise, it is intended that proxies will be voted for the remaining nominees and for such other person as may be designated by the Board of Directors, unless it is directed by a proxy to do otherwise.

Each of the nominees for election as a director is a current member of our Board of Directors. Mr. O'Connor has served as a director since 1999, Messrs. Beard, Gathright and Picow have served as directors since 2001, Mr. Moore has served as a director since 2006, Mr. Mulkey has served as a director since 2002, and Mr. Goldberg has served as a director since 2005.

The nominees receiving the greatest number of votes from the Voting Stockholders that are entitled to vote at the Annual Meeting shall be elected as directors.

THE ELECTION OF EACH OF THE SEVEN INDIVIDUALS TO THE
BOARD OF DIRECTORS**

PROPOSAL 5**RATIFICATION OF SELECTION OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The independent registered public accounting firm of Grant Thornton LLP has been engaged by the Audit Committee to perform the audit of the consolidated financial statements of the Company for the year ended June 30, 2008. The Audit Committee of the Company's Board of Directors has also determined to engage Grant Thornton LLP as the Company's independent accountants for the year ending June 30, 2009 and to audit the Company's financial statements for that year. At the direction of the Board of Directors, this appointment is being presented to the stockholders for ratification or rejection at the Annual Meeting. If the stockholders do not ratify the appointment of Grant Thornton LLP, the Audit Committee will reconsider its selection of Grant Thornton LLP to serve as our independent registered public accounting firm and will make another proposal to the stockholders with respect to the appointment of independent accountants for the year ending June 30, 2009.

We expect that a representative of Grant Thornton LLP will be present at the meeting and will be given an opportunity to make a statement if they desire to do so. We also expect that the representative will be available to respond to appropriate questions from stockholders.

Fees paid to Grant Thornton LLP

Grant Thornton LLP served as our Independent Registered Accountant for the fiscal years ended June 30, 2007 and has been engaged by the Audit Committee to serve as our Independent Registered Accountant for the fiscal year ended June 30, 2008. Grant Thornton LLP provided services in the following category and amount:

	2008	2007
Audit Fees ⁽¹⁾	\$ 324,051	\$ 332,315
Audited Related Fees ⁽²⁾	\$ 31,244	\$ 30,539
Tax Fees	\$ -	\$ -
All Other Fees	\$ -	\$ -

⁽¹⁾Represents the aggregate fees billed for professional services rendered for the audit and/or reviews of the Company's financial statements and in connection with the Company's regulatory filings or engagements. Also includes services related to consents for registration statements filings.

⁽²⁾Represents fees for audit-related services for research and consultation on various issues including the conversion of promissory notes, private placements and other related services. Also includes certain services related to the Company's acquisitions.

There were no non-audit related services rendered to the Company by Grant Thornton in fiscal 2007 and 2008. While the Audit Committee has not established formal policies and procedures concerning pre-approval of audit or non-audit services, the Company's executive officers and the Committee have agreed that all audit and non-audit services by the Company's independent accountants will be approved in advance by the Audit Committee. The establishment of any such formal policies or procedures in the future is subject to the approval of the Audit Committee. One-hundred percent of the services provided under the caption "Audit Related Fees" were approved by the Audit Committee.

The affirmative vote of the holders of a majority of the common stock present in person or represented by proxy at the meeting will be required to ratify the selection of Grant Thornton LLP as the Company's independent registered public accounting firm.

Ms. Messenbaugh is a Certified Public Accountant and holds a Bachelors degree in Computer Science and a MBA degree, both from Oral Roberts University, Tulsa, Oklahoma.

CORPORATE GOVERNANCE

Independence

After considering all of the relevant facts and circumstances, the Company's Board of Directors has determined that each of Messrs. Goldberg, Moore, Mulkey and Picow is independent from our management and qualifies as an "independent director" under the NASDAQ listing standards. This means that, in the judgment of the Board of Directors, none of those directors (1) is an officer or employee of the Company or its subsidiaries or (2) has any direct or indirect relationship with the Company that would interfere with the exercise of his independent judgment in carrying out the responsibilities of a director. As a result, the Company has a majority of independent directors as required by the NASDAQ listing standards.

Code of Business Conduct

The Company has adopted a Code of Business Conduct that applies to all of the Company's employees, including its senior financial officer and Chief Executive Officer, which complies with the requirements of the Sarbanes-Oxley Act of 2002 and NASDAQ listing standards. Accordingly, the Code of Business Conduct is designed to deter wrongdoing, and to promote, among other things, honest and ethical conduct, full, timely, accurate and clear public disclosures, compliance with all applicable laws, rules and regulations, the prompt internal reporting of violations of the Code of Business Conduct, and accountability. The Company's Code of Business Conduct is available on the Company's website at www.mobilefueling.com. To access our corporate governance materials, click on "Investors" and then click on "Corporate Governance."

Meetings and Committees of the Board of Directors

During the fiscal year ended June 30, 2008, the Board of Directors held five (5) meetings and took action by unanimous written consent seventeen (17) times. No incumbent director attended fewer than 75 percent of the aggregate of (i) the number of meetings of the Board of Directors held during the period he served on the Board of Directors, and (ii) the number of meetings of committees of the Board of Directors held during the period he served on such committees.

The standing committees of the Board of Directors are as follows: (i) the Audit Committee, (ii) the Compensation Committee and (iii) the Nominating and Corporate Governance Committee.

Audit Committee. Messrs. Goldberg, Moore and Mulkey currently serve on the Audit Committee, which met five (5) times and took action by unanimous written consent one (1) time during the fiscal year ended June 30, 2008. Each member of the Audit Committee is independent as defined in the NASDAQ listing standards. The duties and responsibilities of the Audit Committee include (a) the appointment of the Company's auditors and any termination of such engagement, including the approval of fees paid for audit and non-audit services, (b) reviewing the plan and scope of audits, (c) reviewing the Company's significant accounting policies and internal controls and (d) having general responsibility for oversight of related auditing matters. The Audit

Committee was established in accordance with Section 3(a)(58)(A) of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”).

The Board of Directors has determined that Mr. Goldberg qualifies as an “Audit Committee Financial Expert” as that term is defined by the Securities and Exchange Commission (the “SEC”). In addition, each member of the Audit Committee is financially literate, as required pursuant to the NASDAQ listing standards.

The Board of Directors has adopted a written charter for the Audit Committee, a copy of which is available on the Company’s website at <http://www.mobilefueling.com>. To access our corporate governance materials, click on “Investors” and then click on “Corporate Governance.”

Compensation Committee. Messrs. Moore, Mulkey and Picow currently serve on the Compensation Committee, which did not hold any meetings but took action by unanimous written consent six (6) times during the fiscal year ended June 30, 2008. Each member of the Compensation Committee is independent as defined in the NASDAQ listing standards. This Committee administers the 1996 and 2000 Stock Option Plans and has the power and authority to (a) determine the persons to be awarded options and the terms thereof and (b) construe and interpret the 1996 and 2000 Stock Option Plans. This Committee also is responsible for the final review and determination of compensation of the Chief Executive Officer and other executive officers. The compensation of executive officers other than the Chief Executive Officer generally is set by the Compensation Committee based on recommendations from the Chief Executive Officer and such other input as the Committee believes appropriate and necessary in each case.

The Compensation Committee has the authority to retain and terminate compensation consultants or other experts to assist the Committee in the evaluation of the Chief Executive Officer, his compensation or the compensation of any of the other executive officers. The Company has never engaged any compensation consultants or similar firms.

The Board of Directors has adopted a written charter for the Compensation Committee, a copy of which is available on the Company’s website at <http://www.mobilefueling.com>. To access our corporate governance materials, click on “Investors” and then click on “Corporate Governance.”

Nominating and Corporate Governance Committee. Messrs. Moore, Mulkey and Picow currently serve on the Nominating and Corporate Governance Committee, which did not hold any meetings but took action by unanimous written consent one (1) time during the fiscal year ended June 30, 2008. Each member of the Nominating and Governance Committee is independent as defined in the NASDAQ listing standards.

This Committee is responsible for identifying individuals qualified to become directors of the Company, recommending to the Board of Directors director candidates to fill vacancies of the Board of Directors and to stand for election by the stockholders at the Annual Meeting of the Company, periodically assessing the performance of the Board of Directors, periodically reviewing and assessing the Company’s Code of Business Conduct, and reviewing and recommending to the Board of Directors appropriate corporate governance policies and procedures for the Company.

The Board of Directors has adopted a written charter for the Nominating and Corporate Governance Committee, a copy of which is available on the Company's website at <http://www.mobilefueling.com>. To access our corporate governance materials, click on "Investors" and then click on "Corporate Governance."

The Board of Directors will, as a matter of policy, give consideration to nominees for the Board that are recommended by stockholders. A stockholder who wishes to recommend a nominee should direct his or her recommendation in writing to the Company's Corporate Secretary at the Company's address. Stockholder recommendations will be evaluated under the same criteria as the Board of Director recommendations. The Company must receive the required notice (as defined below) by the date set forth in the prior year's annual proxy statement under the heading "Shareholder Proposals" in order to be considered by the Nominating and Corporate Governance Committee in connection with the Company's next annual meeting of stockholders.

Stockholders wishing to recommend a director candidate for service on the Board of Directors may do so by providing advance written notice to the Corporate Secretary. The notice must include the following information:

As to each proposed nominee:

- the name, age, business address and residence address;
- the principal occupation or employment;
- the class or series and number of shares of capital stock of the Company which are owned beneficially or of record by the nominee; and
- any other information relating to the nominee that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Exchange Act, and the rules and regulations promulgated thereunder.

As to the stockholder giving notice:

- the name and record address of such stockholder;
- the class or series and number of shares of capital stock of the Company which are owned beneficially or of record by such stockholder;
- a description of all arrangements or understandings between such stockholder and each proposed nominee and any other person or persons (including their names) pursuant to which the nomination(s) are to be made by such stockholder;
- a representation that such stockholder intends to appear in person or by proxy at the meeting to nominate the persons named in its notice; and

·any other information relating to such stockholder that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder.

Such notice must be accompanied by a written consent of each proposed nominee to be named as a nominee and to serve as a director if elected.

A nominee for director should be a person of integrity and must be committed to devoting the time and attention necessary to fulfill his or her duties to the Company. The Nominating and Corporate Governance Committee will evaluate the independence of directors and potential directors, as well as their business experience, understanding of and experience in the industry, personal skills, or specialized skills or experience, relative to those of the then-current directors. The Nominating and Corporate Governance Committee also will consider issues involving possible conflicts of interest of directors or potential directors, the results of interviews of selected candidates by members of the Nominating and Corporate Governance Committee and the Board of Directors, and the totality of the circumstances.

There were no nominee recommendations provided by stockholders for consideration for inclusion in this year's proxy statement.

Director Attendance at Annual Meeting

All members of the Board of Directors are encouraged, but not required, to attend the annual meeting of stockholders. Each director attended the 2007 Annual Meeting of Stockholders held on December 7, 2007.

Communications with the Board of Directors

Stockholders who wish to communicate with the Board of Directors may do so by addressing their correspondence to the Board of Directors at SMF Energy Corporation, Attention: Corporate Secretary, 200 West Cypress Creek Road, Suite 400, Fort Lauderdale, Florida 33309. The Board of Directors has approved a process pursuant to which the Corporate Secretary shall review and forward correspondence to the appropriate director or group of directors for response.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires that our directors, executive officers and persons who own more than ten percent of our Common Stock, file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock. Directors, officers and greater than ten percent stockholders are required by SEC rules to furnish us with copies of all ownership reports they file with the SEC.

To our knowledge, based solely on review of the copies of such reports furnished to us and representations that no other reports were required, during the period ended June 30, 2008, all required reports were timely filed.

Certain Relationships and Related Transactions

Mr. E. Wayne Wetzel, the Company's Senior Vice President, Lubricants, was previously one of the owners of H & W Petroleum Company, Inc., which was acquired by the Company in 2005. The Company is currently indirectly obligated to Mr. Wetzel and various other former owners of H & W, including Mr. Wetzel's spouse, Kay Wetzel, his children Quinton E. Wetzel and Peyton W. Wetzel and various members of his wife's family, under four operating leases that expire September 30, 2010. The Company paid a total of \$261,160 in rent on these leases during the fiscal year ended June 30, 2008. The properties are located in Houston, Lufkin, Freeport and Waxahachie, Texas. These leases were negotiated prior to the acquisition of H & W as part of an arm's length transaction. The Company believes that the leases were entered into in good faith and on fair and reasonable terms.

C. Rodney O'Connor, a Director of the Company, also is Chairman of Cameron Associates, Inc., a financial consulting and investor relations public relations firm, that has provided investor relations services to the Company since 1997. During the fiscal year ended June 30, 2008, the Company paid \$79,031 to Cameron Associates, Inc. for such services.

The Company believes that the foregoing transactions were entered into in good faith and on fair and reasonable terms that are no less favorable to the Company than those that would be available for comparable transactions in arm's length dealings with unrelated third parties.

The Company's Corporate Secretary, Louise P. Lungaro, became the spouse of Richard E. Gathright, the Company's President and Chief Executive Officer during fiscal 2007. Ms. Lungaro has been employed by the Company since 2001. Even though she is not an executive officer, Ms. Lungaro's compensation is determined by the Compensation Committee without the participation of Mr. Gathright.

The Company has a stated policy against any conflict of interest transaction in its Code of Business Conduct, which was most recently revised by the Board of Directors in March 2007. The Code of Business Conduct specifically prohibits officers, directors and employees from employment by, or investment in, any current or prospective customer, supplier or competitor of the Company. The Code of Business Conduct also prohibits acceptance of commissions, compensation or excessive gifts or entertainment from persons or firms with which the Company does or may do business, as well as any exploitation of a corporate opportunity for personal profit. Exceptions to the prohibitions on conflict of interest transactions may be made on a case-by-case basis to avoid undue hardship, such as investments made before employment or other pre-existing relationships.

The Audit Committee Charter includes a requirement for Audit Committee approval of any transaction involving the Company and a related party in which the parties' relationship could enable the negotiation of terms on other than an independent, arm's length basis. For these purposes, a "related party transaction" includes any transaction that is required to be disclosed pursuant to Item 404 of SEC Regulation S-K. In making any determination concerning whether to approve a related party transaction, the Audit Committee is guided by the Company's Code of Business Conduct. The Audit Committee Charter specifically provides that the Committee shall review with management actions taken to ensure compliance with the Code of Conduct. The Charter also requires the Committee to review any conduct of executive officers or directors that is alleged to be in violation or potential violation of the Code and, in appropriate instances, grant a

waiver or exception for specific individuals. The Committee has the authority to cause the Company to take remedial, disciplinary or other measures against executive officers and directors who violate the Code of Conduct and to cause the prompt public disclosure of any waiver of or change to the Code as it relates to executive officers or directors.

Copies of the Code of Business Conduct and the Audit Committee Charter are available on the Company's website at <http://www.mobilefueling.com>. To access these corporate governance materials, click on "Investors" and then click on "Corporate Governance."

EXECUTIVE COMPENSATION AND OTHER INFORMATION

COMPENSATION DISCUSSION AND ANALYSIS

Compensation paid to our named executive officers for the fiscal year ended June 30, 2008 is shown in the Summary Compensation Table that follows this discussion. The Company's executive compensation program is administered by the Compensation Committee of the Board of Directors, which is comprised of Messrs. Moore, Mulkey and Picow. As of the date hereof, in the judgment of our Board of Directors, each member of the Compensation Committee is independent as required by the NASDAQ listing standards. The following discussion and analysis by the Company, which has also been reviewed and approved by the Compensation Committee, analyzes the objectives and elements of our executive officer compensation policies and procedures for 2008.

Overall Program Objectives

The Company strives to attract, motivate, and retain high-quality executives by providing total compensation that is performance-based and competitive within the labor market in which the Company competes for executive talent. The Company's compensation program is intended to align the interests of management with the interests of stockholders by linking pay with performance, thereby incentivizing performance and furthering the ultimate objective of improving stockholder value.

The Company, through its Compensation Committee, seeks to achieve these objectives through three key compensation elements:

Base salary;

Grants of long-term, equity based compensation in the form of stock options; and

Performance-based bonus.

In making compensation decisions with respect to each of these three elements of compensation, the Compensation Committee considers the competitive market for executives and the compensation levels provided by comparable companies in our industry.

The Compensation Committee does not attempt to set each compensation element for each executive within a specific range related to levels provided by industry peers. Instead, the Compensation Committee uses market comparisons as one factor—albeit a significant factor—in making compensation decisions. Other factors considered when making individual executive compensation decisions regarding each of the three key compensation elements include individual contribution and performance, reporting structure, internal pay relationships, complexity and importance of role and responsibility, leadership and growth potential. The performance of the Company overall can also be an overriding factor in making executive compensation decisions.

Elements of Compensation

Set forth below is a discussion of each element of compensation, what each element is designed to reward, the reason the Company pays each element, and how that element fits into the Company's overall compensation philosophy.

Base Salary. The base salary for the named executive officers is intended to reflect job responsibilities, value to the Company and individual performance with respect to market competitiveness. These salaries are determined based on a variety of factors, including:

- the nature and responsibility of the position and, to the extent available, salary norms for persons in comparable positions at comparable companies;
- the expertise of the individual executive and his or her history with the Company; and
- the competitiveness of the market for the executive's services.

Base salary amounts are generally reviewed annually. The Compensation Committee sets the base salary level of the Company's Chief Executive Officer, and, based on input from the Chief Executive Officer, of the other executive officers. Under the Chief Executive Officer's employment agreement, as amended and restated in 2005, Mr. Gathright has a minimum annual base salary of \$323,000, which salary may be increased if the Compensation Committee determines an increase is warranted under the circumstances. To date, the Compensation Committee has not elected to increase Mr. Gathright's compensation above the minimum provided in his employment agreement.

None of the salaries of the other named executive officers were increased during fiscal 2008. To date, none of the salaries of any of the other named executive officers have been increased on account of their performance during fiscal 2008 or otherwise.

Long-term Incentive Compensation—Stock Options. The Company provides executive officers and other employees with long-term incentive compensation in the form of stock options. While it is the Company's intent to provide awards on an annual basis, the decision to make any grants in a given year is typically performance based. The objective is to align compensation for executive officers over a multi-year period directly with the interests of stockholders of the Company by motivating and rewarding the creation and preservation of long-term stockholder value. The level of long-term incentive compensation is determined based on an evaluation of competitive factors in conjunction with total compensation provided to the executive officers and the goals of the compensation program.

Stock options produce value for executives only if our stock price increases over the exercise price, which is equal to the Fair Market Value (as determined under the Plan) of a share of stock on the Grant Date. Also, through vesting and forfeiture provisions, stock options serve to encourage executive officers to remain with the Company. Stock options grants are often made to executive officers and other employees in connection with new hires or promotions and, from time to time, as part of a broad series of grants to officers and key employees generally. There is, however, no specific time of year at which regular grants to executive officers or other existing employees are

made. The most recent broad series of grants to employees, including executive officers, was made in October of 2007. Automatic grants are also made each quarter to members of the Board of Directors as compensation for service as directors.

Bonuses - Discretionary Cash Bonuses: The Company's compensation program also provides for consideration of a discretionary cash bonus if the Committee believes that bonuses are justified under the circumstances. In making its judgment as to whether to give a discretionary cash bonus to an individual executive officer, the Committee considers the Company's financial performance and the individual's performance, as assessed by the Committee, with input from the Chief Executive Officer and, occasionally, other named executive officers, except as to any individual's own performance or compensation. The objective of the Company's cash bonus program is to compensate individuals based on the achievement of specific goals and achievements. Some of these goals or achievements may be specified prior to the period during which performance is evaluated but, generally speaking, there are no pre-established objective goals by which a cash bonus is to be measured. In most cases, cash bonuses are based upon a subjective analysis of performance and achievements that, in the Committee's view, correlate closely with the growth of long-term stockholder value. Historically, the Committee has granted cash bonuses to executive officers only in rare circumstances based on extraordinary performance or achievements. As the Company's overall performance improves in the future, however, the Committee expects that the frequency and the amount of cash bonuses will increase commensurately.

In making a determination as to whether to grant discretionary cash bonuses to named executive officers other than the Chief Executive Officer, the preliminary determination as to bonuses is typically based upon the recommendation of the Chief Executive Officer combined with the Committee's assessment of each officer's performance and, if individual goals are set at the beginning of the year, the achievement of those performance goals. The subjective assessments of the Committee and the Chief Executive Officer allow bonus decisions to take into account each named executive officer's individual performance and unique contributions during the year. The bonus can then be adjusted up or down depending on the level of achievement of the individual's objective performance goals, if any.

As noted above, the Compensation Committee has not generally set individual performance goals for the Chief Executive Officer or other individual named executive officers at the beginning of the fiscal year for purposes of calculating entitlement to base salary increases, discretionary cash bonuses or incentive compensation such as stock options. As the Company's performance improves in the future, however, the Committee may elect to establish such individually tailored goals at the beginning of a fiscal year for purposes of measuring performance and determining compensation at year-end. In establishing any such performance objectives, the Committee would seek to provide incentives that would reward exceptional performance of job responsibilities, leadership, innovation, collaboration, the successful completion of particular projects, and other activities critical to creating long-term value for stockholders. The Compensation Committee does not utilize any objective overall Company performance goals for the year in determining whether to pay the Chief Executive Officer a cash bonus other than the bonus pool described below.

Mandatory Bonus Pool. Under the Chief Executive Officer's employment agreement, as amended and restated in 2005, 10% of the Company's pretax profits must be set aside

in a bonus pool. That agreement provides that, in addition to and not as a replacement for any discretionary bonus payments and incentive compensation such as that described above, the Chief Executive Officer shall participate in an annual management incentive bonus pool equal to ten percent (10%) of the Company's pre-tax earnings. If the Company does not achieve positive pre-tax earnings for any fiscal year, no bonus pool is established for that year. If there is a bonus pool, it is allocated among the Chief Executive Officer and such other officers of the Company as recommended by the Chief Executive Officer and approved by the Committee. While the Committee, in its sole discretion, determines the allocation of funds among the eligible participants, the agreement requires that the entire bonus pool be allocated each year. The agreement also requires the Company to pay any allocation made to the Chief Executive Officer within ninety days after the end of the fiscal year.

In light of the Company's financial performance, no bonus pool has ever been created nor have any allocations from such a pool ever been made to Mr. Gathright or any other officer under the agreement.

The Compensation Committee intends to review the Company's financial performance annually to determine whether it is appropriate to initiate the payment of regular annual bonuses to executive officers in addition to the mandatory bonus plan created by Mr. Gathright's employment agreement. In addition, the Committee plans to review both the annual bonus program and the long-term incentive program on an annual basis to ensure that the key elements of each program continue to meet the objectives previously discussed.

Compliance with Section 162(m). Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation over \$1 million paid for any fiscal year to the corporation's Chief Executive Officer and four other most highly compensated executive officers as of the end of the fiscal year. However, the statute exempts qualifying performance-based compensation from the \$1 million deduction limit if certain requirements are met. While the Company has never paid compensation to an executive officer in an amount that would trigger the statute, the Compensation Committee nevertheless seeks, to the extent practicable, to design the components of compensation so that these requirements are met and full deductibility under Section 162(m) is allowed. The Compensation Committee believes, however, that stockholder interests are best served by not restricting the Committee's discretion and flexibility in crafting compensation programs even though such programs may result in certain non-deductible compensation expenses. Accordingly, the Compensation Committee may from time to time approve elements of compensation for certain officers that are not fully deductible under Section 162(m).

Perquisites and Other Personal Benefits. The Company does not provide named executive officers with any significant perquisites or other personal benefits.

Retirement Plans. The Company does not provide any of its executive officers with pension benefits, deferred compensation or other similar plans other than a tax qualified 401(k) defined contribution plan in which an executive officer may be able to participate on the same terms as those generally offered to other employees. However, executive officers are currently prohibited

from participating in the 401(k) defined contribution plan due to plan qualification rules that affect highly compensated employees.

Health and Insurance Benefits. The Company provides no health or insurance benefits to executive officers other than those generally offered to salaried employees. The executive officers are eligible to participate in Company-sponsored benefit programs on the same terms and conditions as those generally made available to salaried employees. Basic health benefits, life insurance, disability benefits and similar programs are provided to ensure that all employees have access to healthcare and income protection for themselves and their family members.

Process for Determining Executive Officer Compensation

In setting the amounts of each component of an executive officer's compensation and considering their overall compensation package, the Committee considers the following factors:

Benchmarking. For executive officers, the Committee may consider the level of compensation paid to individuals in comparable executive positions of other similar companies of comparable size, such as small to midsize trucking, fueling and lubricants distribution companies. The Compensation Committee believes that these companies are the most appropriate for comparison because they are representative of the types of companies with which we compete to recruit and retain executive talent. In some cases, the Compensation Committee may review data on salary, annual cash incentive bonuses and equity compensation, as well as total compensation, from such other companies. In most cases, however, considering the Company's limited resources and the rare situations in which salary increases or cash bonuses are considered, the information considered by the Committee has been limited to comparable salary information paid by a small group of competitors or comparable local businesses.

Internal Equity. The Compensation Committee considers the salary level for each executive officer and each position in overall management in order to reflect not only their relative value to the Company but also the market demand for the particular skills of the executive officer. In many cases, because of the burdens placed on public companies after the Sarbanes-Oxley Act of 2002, the market demand for executives with particular skills, such as information systems management and accounting, may be a greater consideration than their relative value to the Company's business.

Individual Performance. The Compensation Committee considers the individual responsibilities and performance of each named executive officer. For the executive officers other than the Chief Executive Officer, the Compensation Committee's evaluation is partially based on the Chief Executive Officer's assessment of that individual's performance. In the case of the Chief Executive Officer, the Compensation Committee alone judges his job performance.

Fiscal Year Ended June 30, 2008 Decisions. The Compensation Committee did not establish any objective performance goals for the Company's individual executive officers for fiscal 2008 against which their entitlement to increased base salaries, discretionary cash bonuses or other incentive compensation, such as stock options, could be measured quantitatively at the end of fiscal 2008. The Committee did determine, however, that in light of the paucity of cash bonuses and other

incentive compensation in recent years, it was necessary and appropriate to grant stock options to named executive officers and certain other employees in the fiscal year ended June 30, 2008. Accordingly, the Compensation Committee granted a total of 263,000 stock options to officers and other key employees whose performance has, in the Committee's judgment, materially benefited the Company. The number of stock options awarded to the various executive officers other than the Chief Executive Officer was determined by the Committee after consultation with the Chief Executive Officer.

Of the 263,000 stock options granted in fiscal year ended June 30, 2008, the Compensation Committee granted a total of 175,000 stock options to five of its named executive officers on October 8, 2007. All of the options granted to the named executive officers were unvested ten year incentive stock options with an exercise price of \$1.28 per share which is equal to the Fair Market Value (as determined under the Plan) of a share of stock on the Grant Date, vesting over three years, with forty percent vesting each of the first two years after the grant date and twenty percent vesting after the third year. Richard Gathright received 75,000 options, Paul Vinger and Michael Shore each received 40,000 options, and Robert Beard and Timothy Shaw each received 10,000 options.

The Compensation Committee has determined not to establish any objective performance criteria for the executive officers for fiscal 2009 other than the mandatory bonus pool established by the Chief Executive Officer's employment agreement.

Summary Compensation

The following table provides information concerning total compensation earned or paid to the Chief Executive Officer, the Chief Financial Officer, and the three other most highly compensated executive officers of the Company for services rendered to the Company for the fiscal year ended June 30, 2008. These six officers are referred to as the named executive officers in this proxy statement.

Option Exercises and Stock Vested

During the fiscal year ended June 30, 2008, no amounts were received by the named executive officers upon exercise or vesting of stock options.

Potential Payments Upon Termination of Employment or Change in Control

The Company has no agreements with any of its named executive officers or with any other person that would require the Company to make any payments or provide any other consideration in the event of a transaction or other event resulting in a change in control of the Company.

Chief Executive Officer. The Company entered into an employment agreement (the “Agreement”) with Richard E. Gathright, its Chief Executive Officer, on October 26, 2000, pursuant to which Mr. Gathright serves as Chief Executive Officer and President of the Company. That Agreement had a term of three years, commencing on October 26, 2000. On September 25, 2003, the Company and Mr. Gathright amended the terms of the Agreement extending it from three to four years and increasing his annual base salary to \$323,000. On September 23, 2004, the Company and Mr. Gathright extended the term of the Agreement until October 31, 2005. In March 2005, the Agreement was amended and restated and further extended to February 28, 2006, and providing for automatic one year extensions thereafter unless either party gives notice of intent not to renew prior to such extension. As amended and restated, the Agreement provides for a minimum annual base salary of \$323,000, participation, with other members of management, in a bonus program whereby up to 10% of the Company’s pretax profits will be set aside for bonus payments, and the grant of 500,000 options to purchase shares of the Company’s Common Stock at a price of \$1.50 per share. By its terms, Mr. Gathright’s employment agreement is automatically renewed on an annual basis.

However, the Company may terminate Mr. Gathright’s employment agreement at any time and for any reason. If the Agreement is terminated by the Company without cause, Mr. Gathright shall be due a severance payment equal to the greater of all base salary payable through the remaining term of the Agreement or eighteen months base salary. At the end of fiscal 2008, the greater amount would be the eighteen months salary, or \$484,500. The agreement provides that the severance payment, which may be paid in a lump sum or ratably over the term on which the payment was calculated, as the Company elects, is subject to the limitations on severance payments imposed by the American Jobs Creation Act of 1986 and Section 409A of the Internal Revenue Code. Those limits would generally require that the \$484,500 cannot be paid to Mr. Gathright until six months after the termination of his employment. The agreement provides, however, that if Mr. Gathright’s severance payments are so deferred, however, he will not be bound by the post-employment restrictions on non-competitive employment during the period of time that no payments are made, provided, however, that the Company has the option of electing, at the time of termination, to pay Mr. Gathright an amount equal to his salary for such six month period, or \$161,500, in exchange for his being immediately bound by the non-competition covenant. Because the Agreement provides that such an election by the Company also causes the maximum severance benefit payable to Mr. Gathright to be reduced to twelve months base salary rather than eighteen months base salary, the maximum amount of cash payments that would be made to Mr. Gathright after a termination for cause would remain at \$484,500. If the agreement is terminated for cause, Mr. Gathright will not be entitled to the severance payments specified in the Agreement. Termination of the agreement on account of Mr. Gathright’s death or disability is treated as a termination without cause so the severance payment would be \$484,500 in either event.

Mr. Gathright’s agreement also provides that he is entitled to receive certain severance benefits upon a termination without cause for the same period of time for which he is entitled to severance payments, though severance benefits may not be paid in a lump sum like severance payments. In particular, Mr. Gathright would be entitled to receive, at the Company’s expense, health insurance, an automobile allowance and all other employee benefits for a period of eighteen months after a termination without cause. If it is assumed that the Company’s cost for the health insurance averages \$1,500 per month over the eighteen month period, that Mr. Gathright’s

automobile allowance remains at the current level of \$1,000 per month specified in the agreement, that his reimbursement for continuing education expenses are \$1,000 per year and that his entitlement to other miscellaneous employee benefits does not exceed \$2,500 per year, then the value of the severance benefits to Mr. Gathright for the eighteen month period would be \$51,250.

These estimate of the value of Mr. Gathright's severance payments and severance benefits upon a termination without cause are "forward looking statements" which may prove to be inaccurate because they are based upon assumptions that may not prove to be correct. While the Company believes that all of those assumptions are reasonable and does not believe that it has not made any other assumptions other than those expressly stated above, stockholders and others should not rely on the accuracy of any forward looking statements in making a decision with respect to the purchase or sale of the Company's securities or how to vote their shares of the Company's stock.

E. Wayne Wetzel. When the Company acquired H & W Petroleum Company, Inc. in October 2005, it entered into an employment agreement with E. Wayne Wetzel, who was the President and former owner of H & W prior to the acquisition, to continue in that role and to serve as Senior Vice President of Lubricants for the Company. The five year agreement provides for an annual salary of \$200,000 and a \$700 monthly car allowance. Under the agreement, the Company may not terminate Mr. Wetzel's employment before September 30, 2008 except for cause. While the Company may terminate Mr. Wetzel's employment without cause after that date, if such termination occurs before September 30, 2010, the Company must engage him as a consultant to the Company for at least one (1) year after the termination at rate of \$200 per hour for at least 20 hours per week, or \$208,000. During the consulting period, Mr. Wetzel would continue to participate in the Company's health insurance plan, or comparable COBRA benefits, for the same cost that he would pay if he were still an employee of the Company. Accordingly, the Company believes that the total payments due to Mr. Wetzel upon a termination of his employment by the Company without cause at the end of fiscal 2008 would have been approximately \$271,975, comprised of \$50,000 for unpaid salary through September 30, 2008, \$2,100 in automobile allowance through that date, \$208,000 for consulting services, \$11,250 in health insurance contributions (based on an average employer contribution of \$750 during the 15 month period ending September 30, 2009) and \$625 in miscellaneous employee benefits (based on annual cost of \$2,500 over the 3 month period ending September 30, 2008. Of that amount, however, \$208,000 would only be paid if Mr. Wetzel in fact provides the consulting services or the Company declines to accept such services.

As the term of Mr. Wetzel's agreement passes, the amount payable for a termination without cause declines.

Under the agreement, if Mr. Wetzel's employment is terminated by the Company prior to September 30, 2008, because of disability, the Company would be required to engage him as a consultant for six months after termination on the same terms described above, for a total estimated cost of \$104,000. If Mr. Wetzel dies prior to that date, the agreement provides that his estate is to receive at least \$100,000 in proceeds from a Company supplied insurance policy on his life, the cost of which is included in the \$2,500 in miscellaneous benefits described above.

Michael S. Shore. By letter agreement dated February 7, 2002, the Company and Mr. Shore agreed to his employment as the Company's Chief Financial Officer and Senior Vice President at an

initial base salary of \$125,000 per annum. The letter agreement also provides that the Company will give Mr. Shore six months notice prior to terminating his employment without cause and that Mr. Shore will give a corresponding six month notice to the Company prior to any resignation. As of the end of fiscal 2008, Mr. Shore's base salary was \$175,000. The Company therefore estimates its liability for terminating Mr. Shore's employment at the end of fiscal 2008 would have been no greater than \$97,750, comprised of a maximum of \$87,500 for six months salary, \$6,000 in auto allowance, \$3,000 in employer health insurance contributions (based on an average of \$500 per month over a 6 month period) and \$1,250 in miscellaneous employee benefits (based on a \$2,500 annual estimate of such benefits). Mr. Shore's entitlement to such payments and compensation would, however, require him to continue to provide services as a full time employee for the six month period unless the Company declines to accept those services.

Other Named Executive Officers. None of the other named executive officers have entered into any written agreements with respect to the termination of their employment by the Company except that Paul Vinger and the Company intend to abide by an informal agreement with respect to notice of termination substantially identical to the agreement between Mr. Shore and the Company. Accordingly, the Company estimates its liability for terminating Mr. Vinger's employment at the end of fiscal 2008 would have been no greater than \$84,250, comprised of a maximum of \$74,000 for six months salary, \$6,000 in auto allowance, \$3,000 in employer health insurance contributions (based on an average of \$500 per month over a 6 month period) and \$1,250 in miscellaneous employee benefits (based on a \$2,500 annual estimate of such benefits). Like Mr. Shore, Mr. Vinger's entitlement to such payments and compensation would, however, require him to continue to provide services as a full time employee for the six month period unless the Company declines to accept those services.

NON-EMPLOYEE DIRECTOR COMPENSATION

The Company compensates each non-employee director with a director's fee of \$2,000 per quarter. In addition, the Company's directors are reimbursed for any out-of-pocket expense incurred by them for attendance at meetings of the Board of Directors or committees thereof. Because Mr. Goldberg serves as Chairman of the Audit Committee, he receives an additional fee of \$4,000 per quarter. Because Mr. Moore serves as Chairman of the Compensation and Nominating and Corporate Governance Committees, he receives additional fees of \$2,500 and \$1,500 per quarter, respectively, for serving as Chairman of these committees.

Each non-employee who served as a member of the Company's Board of Directors as of May 10, 2001, the effective date of the Directors Plan, and each non-employee who is elected or otherwise appointed as one of the Company's directors thereafter, received a fully vested option to purchase 20,000 shares of stock at an exercise price which was equal to the Fair Market Value (as determined under the Plan) of a share of stock on the Grant Date. In addition, on the last day of each fiscal quarter while the Directors Plan is in effect, each non-employee director receives an additional grant of an option to purchase 1,500 shares at an exercise price which is equal to the Fair Market Value (as determined under the Plan) of a share of stock on the Grant Date. Prior to March 31, 2007, the grant was 725 shares. Further, in accordance with the Directors Plan, additional options may be granted to non-employee directors from time to time on a discretionary basis.

The following table discloses the cash, equity awards and other compensation earned, paid or awarded, as the case may be, to each of the Company's non-employee Directors during the fiscal year ended June 30, 2008

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)	Option Awards (\$) (1)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings	All Other Compensation (\$) (2)	Total (\$)

(1) The amounts in this column reflect the aggregate grant date fair value under SFAS 123(R) of awards made during the fiscal year ended June 30, 2008. The assumptions we use in calculating these amounts are discussed in Note 2 - Summary of Significant Accounting Policies on Stock-Based Compensation to the Consolidated Financial Statements included in the Company's Form 10-K for the year ended June 30, 2007.

The aggregate number of outstanding option awards for each director as of June 30, 2008, was as follows: Mr. Beard - 43,150 options; Mr. Goldberg - 33,150 options; Mr. Moore - 31,175 options; Mr. Mulkey - 40,025 options; Mr. O'Connor - 43,150 options; and Mr. Picow - 43,150 options.

(2) This column represents reimbursable out-of-pocket expenses incurred in connection with activities as a Director.

(3) Includes a \$4,000 payment per quarter for management consultation and oversight duties.

(4) Includes a \$4,000 payment per quarter for duties as the Chairman of the Audit Committee.

(5) Includes a \$2,500 payment per quarter for duties as the Chairman of the Compensation Committee, a \$1,500 payment per quarter as Chairman of the Nominating & Corporate Governance Committee and \$10,000 earned in prior fiscal year but paid this fiscal year.

OTHER MATTERS

As of the date of this proxy statement, the Board of Directors does not intend to present at the annual meeting any matters other than those described herein and does not presently know of any matters that will be presented by other parties. If any other matter requiring a vote of the stockholders should come before the meeting, it is the intention of the persons named in the proxy to vote with respect to any such matter in accordance with the recommendation of the Board of Directors or, in the absence of such a recommendation, in accordance with the best judgment of the proxy holder.

STOCKHOLDER PROPOSALS

Stockholders interested in presenting a proposal for consideration at our 2009 annual meeting of Stockholders may do so by following the procedures prescribed in Rule 14a-8 promulgated by the Securities and Exchange Act of 1934, as amended, and our Bylaws. Shareholder proposals must be submitted, in writing, to the Corporate Secretary of the Company at 200 West Cypress Road, Suite 400, Fort Lauderdale, Florida 33309. To be eligible for inclusion in our proxy statement and form of proxy relating to the 2009 annual meeting, our Corporate Secretary must receive shareholder proposals no later than August 26, 2009. If the date of the 2009 annual meeting is advanced by more than 30 days or delayed (other than as a result of adjournment) by more than 60 days from the anniversary of the November 24, 2008 annual meeting, any such proposals must be submitted no later than the close of business on the later of the 90th day prior to the 2009 annual meeting or the 10th day following the day on which public announcement of the date of such meeting is first made. You can obtain a copy of the Company's Bylaws by writing to the Corporate Secretary at the address stated above.

We reserve the right to reject, rule out of order, or take other appropriate action with respect to any proposal or nomination that does not comply with these and other applicable requirements.
