BRT REALTY TRUST AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Note 1 – Organization and Background

BRT Realty Trust is a real estate investment trust organized as a business trust in 1972 under the laws of the Commonwealth of Massachusetts. Our principal business is to generate income by originating and holding for investment, for our own account, senior and junior real estate mortgage loans secured by real property. The Trust may also participate as both an equity investor in, and as a mortgage lender to, joint ventures which acquire income producing properties.

Note 2 - Basis of Preparation

The accompanying interim unaudited consolidated financial statements as of March 31, 2009 and for the three and six months ended March 31, 2009 and March 31, 2008 reflect all normal recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the results for such interim periods. The results of operations for the three and six months ended March 31, 2009 are not necessarily indicative of the results for the full year. The balance sheet as of September 30, 2008 has been derived from the audited financial statements at that date but does not include all the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

Certain items on the consolidated financial statements for the preceding period have been reclassified to conform with the current consolidated financial statements.

The consolidated financial statements include the accounts and operations of BRT Realty Trust, its wholly owned subsidiaries and its majority-owned or controlled real estate entities. With respect to its unconsolidated joint ventures, as (i) the Trust is primarily the managing member but does not exercise substantial operating control over these entities pursuant to EITF 04-5 "Determining Whether a General Partner, or the General Partners as a Group Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights," and (ii) such entities are not variable-interest entities pursuant to FASB Interpretation No. 46(R), "Consolidation of Variable Interest Entities – an interpretation of ARB No.5," the Trust has determined that such joint ventures should be accounted for under the equity method of accounting for financial statement purposes. Material intercompany items and transactions have been eliminated. BRT Realty Trust and its subsidiaries are hereinafter referred to as "BRT" or the "Trust."

These statements should be read in conjunction with the consolidated financial statements and related notes which are included in BRT's Annual Report on Form 10-K for the year ended September 30, 2008.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from those estimates.

Note 3 - Shareholders' Equity

Distributions

During the quarter ended March 31, 2009, BRT did not declare a cash distribution to its shareholders.

Note 3 - Shareholders' Equity (Continued)

Stock Options

As of March 31, 2009, there were 22,500 stock options outstanding. All of these options are exercisable. During the quarter ended March 31, 2009, no options were exercised.

Restricted Shares

During the quarter ended March 31, 2009 the Trust issued 118,660 restricted shares of beneficial interest under its 2003 incentive plan. The total number of shares available for issuance under this plan is 350,000, all of which have been issued as of March 31, 2009. Since inception of the plan, 55,760 shares have vested. During the quarter ended March 31, 2009, the Trust also issued 7,790 shares of beneficial interest under its 2009 incentive plan which was approved by BRT shareholders in March 2009. The total number of shares available for issuance under this plan is 500,000. The shares granted under both plans vest five years from the date of issuance and, under certain circumstances, may vest earlier. For accounting purposes, the restricted shares are not included in the outstanding shares shown on the balance sheet until they vest, but are included in the earnings per share computation. The Trust adopted the provisions of Financial Accounting Standards Board ("FASB") No. 123 (R), "Share-Based Payment (revised 2004)." These provisions require that the estimated fair value of restricted shares at the date of grant be amortized ratably into expense over the appropriate vesting period. For the three and six months ended March 31, 2009 and 2008, the Trust recorded \$220,000 and \$441,000, and \$223,000 and \$411,000, respectively, of compensation expense, as a result of the outstanding restricted shares. At March 31, 2009, \$2,399,000 has been deferred as unearned compensation and will be charged to expense over the remaining weighted average vesting period of approximately 3.5 years.

Per Share Data

Basic (loss) earnings per share were determined by dividing net (loss) income for the period by the weighted average number of common shares outstanding during each period.

Diluted (loss) earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares or resulted in the issuance of common shares that then shared in the earnings of the Trust.

The following table sets forth the computation of basic and diluted shares:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2009	2008	2009	2008
Basic	11,682,037	11,733,741	11,688,473	11,550,843
Effect of dilutive securities	-	-	-	9,497
Diluted (1)	11,682,037	11,733,741	11,688,473	11,560,340

(1) The impact of dilutive securities is not included in the computation of loss per share for the three months ended March 31, 2009 and 2008 and for the six months ended March 31, 2009, as the inclusion of such common share equivalents would be anti-dilutive.

Note 4 - Real Estate Loans

At March 31, 2009, information relating to real estate loans, all of which are short term (three years or less), is summarized as follows (dollar amounts in thousands):

First mortgage loans:	Earning Interest	Non-Earning Interest	Total	Allowance For Possible Losses (1)	Real Estate Loans, Net

Real estate loans	\$ 59,155	\$ 67,249	\$ 126,404	\$ (16,699)	\$ 109,705

(1) All allowance for possible losses relate to non-earning loans.

At March 31, 2009, there were 24 non-earning loans outstanding to 6 separate, unrelated borrowers. These loans have an aggregate outstanding principal balance of \$67,647,000, and represent 53% of total real estate loans and 33% of total assets. The Trust recognized \$67,000 of cash basis interest on non-earning loans in the three and six month periods ended March 31, 2009.

Note 4 - Real Estate Loans (Continued)

Information regarding these non-earning loans is set forth in the table below (dollar amounts in thousands):

Principal balance at March 31, 2009	\$ 67,647	\$ 67,647

(a) During the quarter ended March 31, 2009, the Trust acquired by foreclosure, title to a residential home located in Purchase, New York. At December 31, 2008, the gross principal balance of the loan secured by such property, which was reported as non-earning, was \$2,700,000, before loan loss allowances of \$1,165,000 of which \$700,000 was recorded in prior periods.

Note 4 - Real Estate Loans (Continued)

During the quarter ended December 31, 2008, the Trust acquired by foreclosure, title to a development parcel of land located in Manhattan, New York and a 44 unit garden apartment complex in Naples, Florida. At September 30, 2008, the gross principal balance of the loans, secured by such properties, both of which were reported as non-earning, was \$12,660,000, before loan loss allowances of \$5,160,000.

(b) During the quarter ended March 31, 2009, BRT took a direct charge-off of \$2,300,000 against a loan due to a fraud committed by the borrower against BRT. BRT reported the fraud to the criminal authorities, who are currently investigating the matter. BRT is considering whether to pursue a legal action against a third party service provider.

At March 31, 2009, four separate, unaffiliated borrowers had loans outstanding in excess of 5% of the total portfolio before loan loss allowances. Information regarding the loans outstanding to each of these borrowers is set forth in the table below:

Gross Loan Balance	# of Loans	% of Gross Loans	% of Assets	Type	State	Status
\$37,804,000	19	29.8%	18.7%	Existing office, retail, parking and vacant land	NJ	Non-Performing

\$ 8,700,000	1	6.9%	4.3%	Multi-family, condo units	NY	Performing

Note 5 - Allowance for Possible Loan Losses

The Trust added an additional \$17,530,000 to its existing loan loss allowance in the three and six months ended March 31, 2009. The total additional allowances are primarily related to 19 loans, collateralized by several land assemblage sites in Newark, NJ (which includes existing office, retail, parking and vacant land), and a loan collateralized by an eight story vacant office building with occupied retail space in Brooklyn, NY, both of which became non-earning during the current quarter.

An analysis of the loan loss allowance for the three and six month period ended March 31, 2009 and March 31, 2008, respectively, is as follows (dollar amounts in thousands):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2009	2008	2009	2008
Balance at beginning of period	\$ 1,550	\$ 6,620	\$ 6,710	\$ 8,917
Provision for loan loss	17,530	5,300	17,530	5,300
Charge-offs	(3,431)	(4,050)	(8,591)	(6,347)
Recoveries	1,050	-	1,050	-
Balance at end of period	\$ 16,699	\$ 7,870	\$ 16,699	\$ 7,870

The allowance for possible loan losses applies to 21 loans aggregating \$62,935,000 at March 31, 2009, all of which are non-earning, and three loans aggregating \$26,049,000 at March 31, 2008, all of which were non-earning.

Note 6 - Real Estate Properties

A summary of real estate properties for the six months ended March 31, 2009 is as follows (dollar amounts in thousands):

	September 30, 2008 Balance	Additions	Costs Capitalized	Net Transfers from held for sale	Sales	Depreciation and Amortization	Impairment Charges	March 31, 2009 Balance

(a) During the quarter ended December 31, 2008, the Trust acquired by foreclosure a 44 unit garden apartment complex in Naples, Florida. At December 31, 2008, this property had a book value of \$2,960,000. This balance is net of loan chargeoffs of \$3,515,000. This property was transferred to real estate properties held for sale and subsequently sold in the quarter ended March 31, 2009.

(b) During the quarter ended December 31, 2008, the Trust acquired by foreclosure a development parcel located in Manhattan, New York. This property had a book value at December 31, 2008 of \$4,419,000. This balance is net of loan charge offs of \$1,645,000.

(c) Includes catch up depreciation of \$217,000 relating to properties previously reported as held for sale.

(d) Land and building allocation for properties recently transferred from held for sale are preliminary and will be finalized within 12 months of the respective dates of acquisition.

Note 7 – Impairment Charges

The Trust reviews each real estate asset owned, including investments in unconsolidated joint ventures, for which indicators of impairment are present to determine whether the carrying amount of the asset can be recovered. Measurement is then based upon the fair value of the asset. Real estate assets held for sale are valued at the lower of cost or fair value, less costs to sell on an individual asset basis.

As a result of the credit crisis and the continued deterioration in the value of real estate where the Trust owns properties, the Trust took additional impairment charges of \$20,750,000 and \$24,250,000 for the three and six month periods ended March 31, 2009, respectively, against 11 properties, of which \$8,435,000 in both periods relates to six properties held for sale and is shown as a component of discontinued operations.

Note 8 – Investment in Unconsolidated Joint Ventures at Equity

BRT Funding LLC

A joint venture between the Trust and CIT Capital USA, Inc. engages in the business of investing in short-term commercial real estate loans for terms of six months to three years, commonly referred to as bridge loans.

Note 8 – Investment in Unconsolidated Joint Ventures at Equity (Continued)

The Trust is the managing member and holds an equity interest of 25% as adjusted, and is responsible for the payment of a fee to a merchant bank for arranging the transaction and securing capital from CIT Capital USA Inc. Amortization of the remaining portion of the fee totaled \$68,000 and \$136,000 for the three and six month period ending March 31, 2009, respectively, and is shown as a reduction in equity in (loss) earnings of unconsolidated joint ventures.

The Trust has agreed to present all loan proposals received by it to the joint venture for its consideration on a first refusal basis. There were no loans originated by the joint venture in the three or six months ended March 31, 2009 or in the three or six months ended March 31, 2008.

Unaudited condensed financial information regarding the joint venture is shown below (dollar amounts in thousands):

(1) In the quarter ended March 31, 2009, the venture recorded a provision for loan loss of \$8,928,000 on a multi-family apartment complex located in Mesa, Arizona, which was subsequently acquired by the venture in a foreclosure sale.

(2) This amount is net of \$68,000 and \$136,000 in the three and six months ended March 31, 2009, respectively and \$78,000 and \$154,000, in the three and six months ended March 31, 2008, respectively, of amortization of the fee that the Trust paid to a merchant bank for arranging the transaction and securing the capital from the CIT member. This amount also includes a management allocation equal to 1% per annum of the loan portfolio, as defined, of \$16,000 and \$32,000, respectively, in the three and six month period ended March 31, 2009 and \$477,000, in the three and six month periods ended March 31, 2008 paid to the BRT member, which includes an out of period adjustment of \$268,000 pertaining to the year ended September 30, 2007 and \$115,000 pertaining to the three months ended December 31, 2007.

Other Real Estate Ventures

The Trust is also a partner in unconsolidated joint ventures which owned and operated six properties which generated \$(69,000) and \$20,000 of equity in (loss) earnings for the three months ended March 31, 2009 and 2008, respectively, and \$(19,000) and \$24,000 in the six months ended March 31, 2009 and 2008, respectively.

In the current quarter, the Trust sold its interest in four of these properties, located in Connecticut, and recognized a gain of \$271,000 on the sale. The Trust's equity in these unconsolidated joint ventures totaled \$821,000 and \$1,857,000 at March 31, 2009 and September 30, 2008, respectively.

Note 9 – Available-For-Sale Securities

The cost of available-for-sale securities at March 31, 2009 was \$3,364,000. The fair value of these securities was \$3,491,000 at March 31, 2009. Gross unrealized gains were \$654,000 and gross unrealized losses totaled \$527,000 at

March 31, 2009. These amounts are reflected as net accumulated other comprehensive income – net unrealized gains on available-for-sale securities in the accompanying consolidated balance sheets.

Note 9 – Available-For-Sale Securities (Continued)

The valuation of the Trust's available-for-sale securities was determined to be a Level 1 financial asset within the valuation hierarchy established by SFAS No. 157, and is based on current market quotes received from financial sources that trade such securities.

Included in available-for-sale securities are 131,289 shares of Entertainment Properties Trust (NYSE:EPR), which have a cost basis of \$1,725,000 and a fair market value at March 31, 2009 and September 30, 2008 of \$2,069,000 and \$7,184,000, respectively. At May 1, 2009, these securities had a market value of \$4,888,000.

Note 10 – Real Estate Properties Held for Sale

A summary of changes in real estate properties held for sale for the six months ended March 31, 2009 is shown below (dollar amounts in thousands):

Total	\$ 34,665	\$ 1,476	\$ (9,924)	\$ 1,365	\$ (8,435)	\$ (2,213)	\$ 16,934

(a) During the quarter ended March 31, 2009, the Trust acquired by foreclosure a 6,000 square foot single family residence in Purchase, NY. At the time of foreclosure, this property had a book value of \$1,476,000, which is net of charge offs of \$1,165,000. A contract has been entered into for the sale of the property which will result in proceeds to us approximating our book value.

(b) In the quarter ended March 31, 2009, the Trust sold a 44 unit multi-family apartment complex located in Naples, Florida. The property was sold for its approximate book value and no gain or loss was recognized. The Trust recorded an impairment charge of \$760,000 prior to the sale. In connection with the sale, the Trust provided a purchase money mortgage in the amount of \$1,645,000 maturing on March 31, 2011 which provides for a fixed rate of interest at 6.50% per annum.

Note 11 – Debt Obligations

Debt obligations consist of the following (dollar amounts in thousands):

	March 31, 2009	September 30, 2008
Borrowed funds	\$ 6,000	\$ 3,000
Junior subordinated notes	56,702	56,702

Note 11 – Debt Obligations (Continued)

Borrowed Funds

The Trust has a \$185 million credit facility with Capital One Bank, VNB New York Corp., Signature Bank and Manufacturers and Traders Trust Company. The facility bears interest at LIBOR + 225 basis points. The credit facility matures on February 1, 2010 and there are no extension options. Under the credit facility, the Trust is required to maintain cash or marketable securities at all times of not less than \$15 million. The amount which can be outstanding under the revolving credit facility may not exceed an amount equal to the sum of (1) 65% of our earning first mortgages, plus (2) 50% of our earning second mortgages and (3) 50% of the fair market value of certain of our owned real estate, all of which are pledged to the lending banks as collateral and the sum of (2) and (3) may not exceed 15% of the borrowing base or \$22.5 million.

At March 31, 2009, \$27,700,000 was available to be drawn under the credit facility, of which \$6,000,000 was outstanding. The following is summary information relating to the credit facility:

	For the Three Months Ended March 31,		For the Six Months Ended March 31,	
	2009	2008	2009	2008
Average balance	\$ 6,000,000	\$ 21,473,000	\$ 4,533,000	\$ 18,885,000
Outstanding balance at period end	\$ 6,000,000	\$ 33,000,000	\$ 6,000,000	\$ 33,000,000
Weighted average interest rate during the period	2.69%	5.82%	3.33%	6.46%
Interest rate at period end	2.75%	5.36%	2.75%	5.36%

The interest rates do not reflect deferred fee amortization of \$116,000 for both the three months ended March 31, 2009 and 2008, respectively, and \$231,000 and \$303,000 for the six months ended March 31, 2009 and 2008, respectively, which is a component of interest expense. These fees are being amortized over the life of the credit facility. At March 31, 2009, there was \$385,000 of unamortized deferred fees, which is included in other assets.

In addition to the credit facility, the Trust has the ability to borrow funds through its two margin accounts. In order to maintain one of the accounts, the company is required to pay an annual fee equal to .3% of the market value of the pledged securities, which is included in interest expense. Marketable securities with a fair market value at March 31, 2009 of \$3,491,000 were pledged as collateral. At March 31, 2009, there was no outstanding balance.

Junior Subordinated Notes

BRT issued \$30,928,000 principal amount 30-year subordinated notes to BRT Realty Trust Statutory Trust II, an unconsolidated affiliate of BRT. Statutory Trust II was formed to issue \$928,000 of its common securities to BRT and to sell \$30 million of preferred securities to third party investors. The notes pay interest quarterly at a fixed rate of 8.49% per annum for ten years at which time they convert to a floating rate of LIBOR plus 290 basis points. Dividends are paid to the security holders under the same terms as the subordinated notes. The notes and preferred securities mature in April 2036 and may be redeemed in whole or in part anytime after April 2011, without penalty, at BRT's option. Issuance costs of \$944,500 are being amortized over the intended 10 year holding period of the notes. At March 31, 2009, unamortized issuance costs totaled \$668,000.

Note 11 – Debt Obligations (Continued)

BRT issued \$25,774,000 principal amount 30-year subordinated notes to BRT Realty Trust Statutory Trust I, an unconsolidated affiliate of BRT. Statutory Trust I was formed to issue \$774,000 of its common securities to BRT and to sell \$25 million of preferred securities to third party investors. The notes pay interest quarterly at a fixed rate of 8.23% per annum for ten years at which time they convert to a floating rate of LIBOR plus 300 basis points. Dividends are paid to security holders under the same terms as the subordinated notes. The notes and preferred securities mature in April 2036 and may be redeemed in whole or in part anytime after March 2011, without penalty, at BRT's option. Issuance costs of \$822,000 are being amortized over the intended 10 year holding period of the notes. At March 31, 2009, unamortized issuance costs totaled \$573,000.

BRT Realty Trust Statutory Trusts I and II are variable interest entities under FIN 46R. Under the provisions of FIN 46R, BRT has determined that the holders of the preferred securities are the primary beneficiaries of the two Statutory Trusts. This determination is based on the fact that BRT's investments in the Statutory Trusts were financed directly by the Statutory Trusts and these investments are not considered to be at risk. Accordingly, BRT is not considered to be the primary beneficiary and does not consolidate the Statutory Trusts. The obligations to the Statutory Trusts are recorded under the caption "Junior Subordinated Notes" in the consolidated balance sheets. The investments in the common securities of the Statutory Trusts are reflected in other assets in the consolidated balance sheets and is accounted for under the equity method of accounting. BRT has not provided financial or other support during the periods presented to these variable interest entities that is was not contractually required to provide.

The table below provides the classification and carrying amounts of the assets and liabilities that relate to the variable interest entities and the maximum exposure to loss as a result of its involvement with the variable interest entities:

	Carrying Value
Assets:	
Other Assets- common securities Statutory Trusts	\$ 1,702,000
Liabilities:	
Junior subordinated notes – BRT	1,702,000
Junior subordinated notes – preferred securities third party	55,000,000
Net carrying value	\$ 56,702,000
Maximum exposure to loss (a)	\$ 0

(a) As BRT's investment in the common securities of the Statutory Trusts was directly financed by the Statutory Trusts, there is no exposure to loss.

Mortgage Payable

The mortgage payable represents a first mortgage on a long term leasehold position on a shopping center owned by a joint venture in which the Trust holds a majority interest. The mortgage, with an original principal balance of \$2,850,000, bears interest at a fixed rate of 6.25% for the first five years and has a maturity of October 1, 2011. There is an option to extend the mortgage to October 1, 2016. At March 31, 2009, the outstanding balance was \$2,273,000.

Note 12 – Comprehensive (loss) income

Comprehensive (loss) income for the three and six month periods was as follows (dollar amounts in thousands):

Note 14 – New Accounting Pronouncements

In September 2006, the FASB issued Statement No. 157, “Fair Value Measurements” (“SFAS No. 157”). SFAS No. 157 provides guidance for using fair value to measure certain financial assets and liabilities. This statement clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing the asset or liability. SFAS No.157 establishes a fair value hierarchy, giving the highest priority to quoted prices in active markets and the lowest priority to unobservable data. SFAS No. 157 applies whenever other standards require assets or liabilities to be measured at fair value. The Trust adopted SFAS No. 157 on October 1, 2008.

The valuation of the Company’s available-for-sale securities was determined to be a Level 1 within the valuation hierarchy established by SFAS No. 157, and are approximated on current market quotes received from financial sources that trade such securities. Accordingly, the adoption of SFAS No. 157, as it relates to fair value measurements of financial assets and liabilities, has not had a material effect on the Trust’s consolidated financial statements.

In February 2007, the FASB issued Statement No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities” (“SFAS No. 159”). SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS No. 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. The FASB believes that SFAS No. 159 helps to mitigate this type of accounting-induced volatility by enabling companies to report related assets and liabilities at fair value, which would likely reduce the need for companies to comply with detailed rules for hedge accounting. SFAS No. 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The Trust adopted SFAS No. 159 on October 1, 2008 and has elected not to report selected financial assets and liabilities at fair value.

Note 14 – New Accounting Pronouncements (Continued)

In December 2007, the FASB issued SFAS No. 141(R), “Business Combinations – a replacement of FASB Statement No. 141”, which applies to all transactions or events in which an entity obtains control of one or more businesses. SFAS 141(R) (i) establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, (ii) requires expensing of most transaction costs, and (iii) requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008 and early adoption is not permitted. The impact of adopting SFAS 141 (R) on the Trusts consolidated financial statements will be the requirement to expense most transaction costs relating to its acquisition activities.

In December 2007, the FASB issued Statement No. 160 “Non-controlling Interests in Consolidated Financial Statements an amendment of ARB No 51”. SFAS 160 requires non-controlling interest in a consolidated subsidiary to be displayed in the statement of financial position as a separate component of equity and earnings and losses attributable to non-controlling interests are no longer reported as part of consolidated earnings, rather they are disclosed on the face of the income statement. This statement is effective in fiscal years beginning after December 15, 2008. Adoption is prospective and early adoption is not permitted. The Trust is currently evaluating the impact that the adoption of FAS 160 will have on its consolidated financial statements.

In December 2008, the FASB issued FASB Staff Position (“FSP”) FAS 140-4 and FIN 46(R)-8, Disclosures by Public Entities (Enterprises) about Transfers of Financial Assets and Interests in Variable Interest Entities. The document increases disclosure requirements for public companies and is effective for reporting periods (interim and annual) that end after December 15, 2008. The purpose of this FSP is to promptly improve disclosures by public entities and enterprises until the pending amendments to FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, and FASB Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities, are finalized and approved by the Board. The FSP amends Statement 140 to require public entities to provide additional disclosures about transferors' continuing involvements with transferred financial assets. It also amends Interpretation 46(R) to require public enterprises, including sponsors that have a variable interest in a variable interest entity, to provide additional disclosures about their involvement with variable interest entities. This pronouncement is related to disclosure only and upon its adoption during the quarter ended December 31, 2008, did not have an impact on our consolidated financial position, results of operations or cash flows.

In June 2008, the FASB issued FSP No. EITF 03-6-1, “Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities,” (FSP EITF 03-6-1). FSP EITF 03-6-1 states that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share. The Company adopted FSP EITF 03-6-1 on January 1, 2009 and the adoption had no impact on the Company as the unvested restricted stock awards were previously included in the per share amounts for both basic and diluted earnings per share.

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1 “Interim Disclosures about Fair Value of Financial Instruments”. This FSP requires disclosures about fair value of financial instruments for interim periods of publicly traded companies as well as in annual statements. FSP 107-1 and APB 28-1 is effective for periods ending after June 15, 2009. The adoption of this FSP is not expected to have a significant impact on the consolidated financial statements.

Note 15 – Subsequent Events

On May 7, 2009 the Trust closed on the sale of a 112 unit multi-family apartment complex located in Nashville, Tennessee. The net proceeds from the sale were approximately \$3,070,000 which approximates the current book value. The Trust recorded \$1,325,000 of impairment charges related to this loan, of which \$1,250,000 was taken in the current quarter.

Forward-Looking Statements

With the exception of historical information, this report on Form 10-Q contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended. We intend such forward-looking statements to be covered by the safe harbor provision for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words "may", "will", "believe", "expect", "intend", "anticipate", "estimate", "project", or similar expressions or variations thereof. Forward-looking statements involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond our control and which could materially affect actual results, performance or achievements. Investors are cautioned not to place undue reliance on any forward-looking statements.

Overview

We are a real estate investment trust, also known as a REIT. Our business is to originate and hold for investment short-term senior and junior commercial mortgage loans, and our primary source of revenue is interest and loan fee income. The continuing crisis in the credit and real estate markets has had a substantial effect on our lending business by significantly limiting investments in real estate and substantially reducing demand for short-term commercial mortgage loans. In addition, in the current credit environment we have concerns about the ability of potential borrowers to be able to (i) refinance and repay loans we originate, (ii) sell the underlying collateral for an amount in excess of a loan we originate or (iii) otherwise raise funds to repay loans. As a result we only originated one new loan in the aggregate principal amount of \$8,700,000 and advanced funds pursuant to prior commitments in the aggregate amount of \$4,026,000 during the six months ended March 31, 2009.

In the fiscal year ending September 30, 2008 and the six months ending March 31, 2009 many of our borrowers defaulted on their monetary obligations to us, which has required us to focus significant resources on servicing our loan portfolio, work-out activities, pursuing foreclosure actions and acquiring the underlying real property by foreclosure or deed in lieu of foreclosure, operating and stabilizing real property acquired by us (including interfacing with receivers and local property managers), and engaging in activities related to the sale process with respect to properties we are attempting to sell. Set forth below are material effects the crisis in the credit and real estate markets has had on our business during the three or six months ended March 31, 2009:

- non-earning loans increased by \$49,240,000 to \$67,647,000 at March 31, 2009 from \$18,407,000 at September 30, 2008;
- during the three months ended March 31, 2009, 19 loans totaling \$37,804,000 to 19 separate entities controlled by the same individual and three other loans to three separate borrowers totaling \$27,500,000, became non-earning. These loans, totaling \$65,304,000, represent approximately 97% of our non-earning loans, 50% of our total loan portfolio of \$126,905,000 and 31% of our total assets of \$202,822,000. The 19 loans are secured by several land assemblage sites which include existing office, retail, parking and vacant land located, in Newark, New Jersey. Another loan in the amount of \$22,967,000 is secured by an existing eight story vacant office building, with occupied retail, located in Brooklyn, New York. In view of the accelerating decline in the value of real estate in which these properties are located we established a loan loss allowance of \$11,500,000 against the Newark assemblage and \$4,350,000 against the Brooklyn property. We established additional allowances of \$2,730,000 against two other loans with aggregate principal balances totaling \$5,000,000;

- during the quarter ending March 31, 2009, we offered properties for sale that we acquired in foreclosure. In the course of this process, we ascertained that real estate values in the current recessionary environment, coupled with the serious difficulties potential purchasers are having in obtaining mortgage money, has significantly and adversely impacted the market values of commercial real estate in the geographic areas in which these properties are located. Accordingly, we took impairment charges of \$12,315,000 against five real estate properties and impairment charges of \$8,435,000 against six properties classified as held for sale. Included in the charges against real estate properties is \$10,720,000 relating to two separate multi family residential properties and one multi-family condominium complex consisting of 388, 250 and 162 units, respectively, located in Ft. Wayne, Indiana, Nashville, Tennessee and Apopka, Florida. Included in impairment charges against properties held for sale is \$7,075,000 against four multi-family residential properties, with a total of 484 units, located in Nashville, Tennessee that are under contracts of sale for a total consideration of \$14,150,000 which, after all costs of sale and impairment charges, we anticipate will result in no gain or loss. On May 7, 2009 the sale with respect to one of these properties, with 112 units, was consummated at a contract price of \$3,150,000.
- for the six months ended March 31, 2009, our income from real estate properties, excluding our real estate properties held for sale, was \$2,525,000 and our operating expenses for these properties was \$4,169,000, resulting in a loss from real estate operations of \$1,644,000 as compared to operating income of \$944,000, operating expenses of \$1,328,000 and a net loss from operations of \$384,000 in the six months ended March 31, 2008.

Until the credit markets stabilize and credit is made available to real estate owners and developers, we could experience (i) more borrower defaults, (ii) additional foreclosure actions (with an increase in direct and indirect expenses in pursuing such actions), (iii) the acquisition of additional properties in foreclosure or by deed in lieu of foreclosure, (iv) a continuing decline in real estate values, and (v) limited origination activity, all of which will result in a decline in our revenues and net income (or an increase in our net loss).

Liquidity and Capital Resources

Our total available liquidity at March 31, 2009 was approximately \$37,534,000, including \$14,089,000 of cash and cash equivalents, \$21,700,000 of availability under our revolving credit facility and \$1,715,000 of availability under our margin lines of credit. We believe that our existing sources of capital will be adequate for purposes of meeting our short-term and long-term liquidity needs. In addition, many of the properties we have acquired by foreclosure are being offered for sale. Consummation of any such sales will increase our liquidity.

During the six months ended March 31, 2009, we generated cash of \$6,074,000 from real estate loan collections, and \$3,000,000 from net advances from our credit facility. The cash, along with our cash on hand of \$35,765,000 at September 30, 2008, was used primarily to fund real estate loan originations of \$12,726,000, pay shareholder dividends in October 2008 of \$15,565,000 and fund an operating loss of \$2,464,000. If we continue to incur losses, we may be required to draw down additional amounts under our credit facility to fund our operations.

We have a revolving credit facility with a group of banks consisting of Capital One Bank, VNB New York Corp., Signature Bank and Manufacturers and Traders Trust Company. Under the revolving credit facility, Capital One Bank, VNB New York Corp., Signature Bank and Manufacturers and Traders Trust Company make available to us up to an aggregate of \$185,000,000 on a revolving basis. The credit facility matures on February 1, 2010 and there are no extension options. Under the credit facility, we are required to maintain cash or marketable securities at all times of not less than \$15,000,000. Borrowings under the credit facility are secured by specific receivables and the facility provides that the amount borrowed will not exceed (1) 65% of our earning first mortgages, plus (2) 50% of our earning second mortgages plus (3) 50% of the fair market value of certain owned real estate, all of which is pledged to the lending banks as collateral and the sum of (ii) and (iii) may not exceed 15% of the borrowing base or \$22,500,000. At March 31, 2009, \$27,700,000 was available to be drawn based on the lending formula under our credit facility and

\$6,000,000 was outstanding.

23

We also have the ability to borrow under our margin lines of credit maintained with national brokerage firms, secured by the common shares we own in EPR and other investment securities. Under the terms of the margin lines of credit, we may borrow up to 50% of the market value of the shares we pledge. At March 31, 2009, \$1,715,000, was available under the margin lines of credit, of which zero was outstanding. If the value of the EPR shares (our principal securities investment) declines, the available funds under the margin lines of credit would decline.

Cash Distribution Policy

Our board of trustees suspended the payment of dividends on our common shares in December 2008. In view of the problems facing the real estate industry and the Trust at the present time, and the need to preserve capital, the board considered it prudent to suspend the payment of dividends. Our board of trustees reviews the dividend policy at each regularly scheduled quarterly board meeting. Since we will likely report a tax loss for the year ended December 31, 2008, no distributions are likely to be required in 2009 in order for us to retain our REIT status.

Results of Operations

Interest on loans decreased by \$1,376,000, or 36%, to \$2,457,000 for the three months ended March 31, 2009 from \$3,833,000 for the three months ended March 31, 2008. A decline in the average balance of earning loans outstanding, due to a combination of payoffs, reduced originations caused by weakness in the real estate and credit markets, transfers to owned real estate and transfers to non performing loans, accounted for a decrease in interest income of \$1,299,000. A decrease in the rate earned on the performing loan portfolio of 14 basis points from 12.50% to 12.36% in the three months ended March 31, 2009 when compared to March 31, 2008 caused a decrease in interest income of \$77,000.

Interest on loans decreased by \$3,310,000, or 34%, to \$6,305,000 for the six months ended March 31, 2009 from \$9,615,000 for the six months ended March 31, 2008. A decline in the average balance of earning loans outstanding due to a combination of payoffs, reduced originations caused by weakness in the real estate and credit markets, transfers to owned real estate and transfers to non performing loans accounted for a decrease in interest income of \$3,033,000. The average interest rate earned on the earning loan portfolio decreased 24 basis points to 12.49% in the six months ended March 31, 2009 from 12.73% in the six months ended March 31, 2008, which caused interest income to decrease by \$277,000.

Loan fee income decreased by \$312,000, or 72%, to \$123,000 for the three months ended March 31, 2009 from \$435,000 for the three months ended March 31, 2008. This category also decreased by \$503,000, or 45%, to \$607,000 for the six months ended March 31, 2009 from \$1,110,000 for the six months ended March 31, 2008. The decreases in both the three and six month periods are the result of a decline in our loan originations over the past several quarters due to the weakness in the real estate and credit markets.

Operating income from real estate properties increased \$716,000, or 143%, for the three month period ended March 31, 2009 to \$1,215,000 from \$499,000 in the three month period ended March 31, 2008. Operating income from real estate properties increased \$1,581,000, or 167%, for the six month period ended March 31, 2009 to \$2,525,000 from \$944,000 in the six month period ended March 31, 2008. The increase for both the three and six month periods was primarily the result of rental revenues received from tenants at two multi-family apartment complexes located in Fort Wayne, Indiana and Nashville, Tennessee and the rental of condominium units located in Miami Beach, Florida. The Trust acquired title to these properties by foreclosure or deed in lieu of foreclosure in the prior fiscal year.

Other, primarily investment income declined by \$374,000, or 70%, to \$162,000 in the three months ended March 31, 2009 from \$536,000 in the three months ended March 31, 2008, and declined by \$779,000, or 68%, to \$363,000 in the six months ended March 31, 2009 from \$1,142,000 in the six months ended March 31, 2008. The decline in both periods was primarily due to reduced dividend income that resulted from the sale of shares of EPR in the prior fiscal year.

Interest expense on borrowed funds decreased to \$1,403,000 for the three months ended March 31, 2009, from \$1,710,000 for the three months ended March 31, 2008, a decline of \$307,000, or 18%. For the three month period ended March 31, 2009, the average outstanding balance of borrowed funds declined from \$78.2 million for the three months ended March 31, 2008 to \$62.7 million, the result of our paydown of the credit facility with funds from loan repayments. This decline accounted for a decrease in interest expense of \$158,000. A decline of 313 basis points in the interest rate paid on the credit facility caused a decrease in interest expense of \$118,000. The remaining decrease of \$31,000 was the result of a decline in the amortization of deferred fees on our credit facility.

Interest expense on borrowed funds decreased to \$2,802,000 for the six months ended March 31, 2009, from \$3,445,000 for the six months ended March 31, 2008, a decline of \$643,000, or 19%. For the six month period ended March 31, 2009, the average outstanding balance of borrowed funds declined from \$75.6 million for the six months ended March 31, 2008 to \$61.2 million, the result of our paydown of the credit facility with funds from loan repayments. This decline accounted for a decrease in interest expense of \$332,000. A decline of 313 basis points in the interest rate paid on the credit facility caused a further decrease in interest expense of \$211,000. The remaining decrease of \$100,000 was the result of a decline in the amortization of deferred fees on our credit facility.

The advisor's fee, which is calculated based on invested assets, decreased by \$162,000, or 35%, for the three months ended March 31, 2009, to \$295,000 from \$457,000 for the three months ended March 31, 2008 and decreased by \$269,000, or 29%, for the six months ended March 31, 2009, to \$652,000 from \$921,000 for the six months ended March 31, 2008. The decline in both periods was the result of a decreased level of invested assets on which the fee is based, resulting primarily from the impairment charges taken on our real estate assets.

For the three months ended March 31, 2009, the Trust recorded \$12,315,000 of impairment charges against its real estate portfolio. Management in its regular review process, analyzed the real estate portfolio and determined that the continuing deterioration in the credit markets and in the real estate markets where the Trust's properties are located, has made it necessary to recognize declines in the value of our properties. The impairment charge was taken against five properties with an aggregate book value of approximately \$30,886,000. For the three months ended March 31, 2008, there was no comparable expense.

For the six months ended March 31, 2009, the Trust recorded \$15,815,000 of impairment charges against its real estate portfolio. Management analyzed the real estate portfolio and determined that the deterioration in the credit markets and real estate markets where the Trust's properties are located has made it necessary to record declines in the value of our properties, which includes \$3,500,000 taken in the quarter ended December 31, 2008. The impairment charges were taken against five properties with an aggregate book value of approximately \$34,386,000. For the six months ended March 31, 2008 there was no comparable expense.

For the three and six months ended March 31, 2009, the Trust recorded \$17,530,000 in provisions for loan losses. Management in its regular review process, analyzed the loan portfolio and the underlying value of the collateral securing its loans and determined that it was necessary to record this provision to reflect an accelerated decrease in the value of the collateral securing several loans due to the continuation of the credit crisis and the national recession. The provision was taken against 22 loans with an aggregate outstanding balance of \$65,771,000 and includes \$2,265,000 taken against a loan due to a fraud committed by a borrower which has been reported to the criminal authorities. For the three and six month period ended March 31, 2008, the Trust recorded a \$5,300,000 provision for loan losses. The prior period's provision was taken against three loans with an aggregate outstanding balance of \$35,410,000.

Professional fees related to foreclosure activity decreased to \$242,000 for the three months ended March 31, 2009 from \$487,000 for the three months ended March 31, 2008, a decrease of \$245,000, or 50%. This category also decreased to \$590,000 for the six months ended March 31, 2009 from \$1,226,000 for the six months ended March 31, 2008, a decline of \$636,000, or 52%. These decreases are primarily the result of reduced legal fees and expenses incurred in connection with foreclosure actions and workouts.

Other taxes decreased by \$52,000, or 72%, to \$21,000 in the three months ended March 31, 2009 from \$73,000 in the three months ended March 31, 2008, and decreased by \$83,000, or 83%, to \$17,000 in the six months ended March 31, 2009 from \$100,000 in the six months ended March 31, 2008. Current period amounts represent the accrual of state franchise and excise taxes, while the prior periods include federal excise tax which is based on income generated in the prior year but not distributed until the current year.

Operating expenses relating to real estate properties increased \$1,134,000, or 122%, from \$933,000 in the three month period ended March 31, 2008 to \$2,067,000 in the three month period ended March 31, 2009. Operating expenses relating to real estate properties also increased \$2,841,000, or 214%, from \$1,328,000 in the six month period ended March 31, 2008 to \$4,169,000 in the six month period ended March 31, 2009. The increase in both periods is the result of operating expenses relating to four additional properties acquired by foreclosure or deed in lieu of foreclosure in the current six month period and a full period of operations at two properties that were acquired by foreclosure in the fiscal year ended September 30, 2008.

Amortization and depreciation increased \$337,000, or 143%, from \$235,000 in the three month period ended March 31, 2008 to \$572,000 in the three month period ended March 31, 2009. For the six month period ended March 31, 2009, amortization and depreciation increased \$573,000, or 206%, to \$851,000 from \$278,000 in the six months ended March 31, 2008. The increase in both periods is the result of depreciation expense relating to properties acquired in foreclosure and catch up depreciation taken on those properties reclassified from real estate properties held for sale.

Equity in (loss) earnings of unconsolidated ventures decreased \$2,872,000 in the three months ended March 31, 2009 to a loss of \$2,171,000 from earnings of \$701,000 in the three months ended March 31, 2008. This category also decreased \$3,239,000 in the six months ended March 31, 2009 to a loss of \$2,087,000 from earnings of \$1,152,000 in the six months ended March 31, 2008. This decrease in both periods is primarily the result of a loss recorded by our joint venture with the CIT Group. In the current three and six month period the venture recorded a loan loss provision to reflect a decrease in the value of a performing multi-family garden apartment complex which secured a non performing loan.

Gain on sale of joint venture interests increased \$271,000 for both the three and six month period ended March 31, 2009 from \$-0- in the three and six period ended March 31, 2008. In the current period the Trust sold its interests in four of its joint venture properties located in Connecticut. The proceeds of the sale were \$1,350,000 and the Trust recognized a gain on the sale of \$271,000.

Gain on sale of available-for-sale securities declined from \$3,818,000 in both the three and six month periods ended March 31, 2008 to \$-0- in the three and six month periods ended March 31, 2009. In the prior three and six month periods the Trust sold 101,400 shares of Entertainment Properties Trust. These securities, with a cost basis of \$1,332,000 were sold for \$5,150,000. There were no sales in the current three or six month period.

Loss from discontinued operations was \$8,188,000 in the three month period ended March 31, 2009 as compared to income of \$1,135,000 in the three month period ended March 31, 2008. Loss from discontinued operations was \$8,041,000 in the six month period ended March 31, 2009 as compared to income of \$1,591,000 in the six month period ended March 31, 2008. The losses in the current three and six month periods are due to impairment charges of \$8,435,000 taken on four multi-family properties located in Tennessee and one multi-family property located in Naples, Florida. The Naples Florida property was sold in the quarter ended March 31, 2009. The impairment charges were taken to reflect the deterioration in the multi-family real estate market where these properties are located.

The discontinued operations in the quarter ended March 31, 2008 reflect income of \$83,000 from the operations of a shopping center in Stuart, Florida and a gain of \$154,000 from the sale of six condominium units, \$632,000 from the sale of a cooperative apartment unit in New York, New York, and \$266,000 from the sale of an industrial property located in South Plainfield, New Jersey. The discontinued operations in the six month period ended March 31, 2008 reflect income of \$145,000 from the operations of a shopping center in Stuart, Florida and an industrial building in South Plainfield, New Jersey, a \$1,180,000 gain from the sale of eight condominium and coop units, and a \$266,000 gain from the sale of an industrial property located in South Plainfield, New Jersey.

Item 3. Quantitative and Qualitative Disclosures About Market Risks

Our primary component of market risk is interest rate sensitivity. Our interest income and our interest expense is subject to changes in interest rates. We seek to minimize these risks by originating loans that are indexed to the prime rate, with a stated minimum interest rate, and borrowing, when necessary, from our available credit line which is adjustable and is indexed to LIBOR. At March 31, 2009, approximately 94% of our loan portfolio was variable rate based primarily on the prime rate. Accordingly, changes in the prime interest rate or LIBOR would have an effect on our net interest income. When determining interest rate sensitivity, we assume that any change in interest rates is immediate and that the interest rate sensitive assets and liabilities existing at the beginning of the period remain constant over the period being measured. We assessed the market risk for our variable rate mortgage receivables and variable rate debt and believe that a one percent increase in interest rates would have a negative annual effect of approximately \$60,000 on income before taxes and a one percent decline in interest rates would have a positive annual effect of approximately \$60,000 on income before taxes. In addition, we originate loans with short maturities and maintain a strong capital position. At March 31, 2009, our loan portfolio was primarily secured by properties located in New York and New Jersey and it is therefore subject to risks associated with the economies of these localities.

Item 4. Controls and Procedures

As required under Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, we carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer, Senior Vice President-Finance and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2008. Based upon that evaluation, the Chief Executive Officer, Senior Vice President-Finance and Chief Financial Officer concluded that our disclosure controls and procedures as of March 31, 2009 are effective.

There have been no changes in our internal control over financial reporting during the quarter ended March 31, 2009 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Part II

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On March 10, 2008, our board of trustees authorized a program for us to repurchase up to 1,000,000 of our common shares in the open market from time to time. Set forth below is a table which provides the purchases we made in the quarter ended March 31, 2009:

Issuer Purchases of Equity Securities
