Mr. Yuzhu Shi, Giant’s Chairman and Chief Executive Officer commented, “Although our financial results in the second half of 2009 were adversely impacted by the cancellation of ‘Treasure Box’ monetization features within ZT Online, we are beginning to see signs of recovery in our key performance metrics driven by our segmentation strategy and commitment to innovative gameplay. Since the launch of limited closed beta testing in October 2009, our ZT Online Green Edition has quickly gained traction among China’s online gamers and has achieved robust ACU and PCU levels. Ongoing enhancements and the addition of new features to ZT Online have also helped stabilize user levels and contributed to a rebound in players within our flagship game.

“While our strategic initiatives to reach a broader, more diverse audience will ultimately improve the vitality and sustainability of the ZT Online family of games, we are also actively developing new potential growth drivers through our pipeline, partnerships and licensing opportunities. In recent months, we have partnered with Astrum Nival to expand ZT Online’s geographic footprint into Russia and bolstered our own game pipeline by becoming the exclusive operator of Allods Online in China. With a healthy ZT Online series and a number of new products slated for release in the coming year, we believe the first quarter of 2010 will lay the foundation for a return to sustainable growth in 2010.”

Fourth Quarter and Fiscal Year 2009 Unaudited Financial Results

Net Revenue. Net revenue for the fourth quarter 2009 was RMB276.0 million (US\$40.4 million), representing a 4.9% decrease from RMB290.2 million in the third quarter 2009 and a 21.8% decrease from RMB353.1 million in the fourth quarter 2008.

FOR IMMEDIATE RELEASE

Net revenue decreased 18.2% to RMB1,303.8 million (US\$191.0 million) for the fiscal year 2009, from RMB1,594.7 million in 2008.

Revenue from online games<sup>1</sup> in the fourth quarter totaled RMB273.7 million (US\$40.1 million), representing a decrease of 4.8% from RMB287.5 million in the third quarter 2009 and a 22.2% decrease from RMB351.9 million in the fourth quarter 2008. Online game net revenue decreased sequentially and year-over-year quarterly as ZT Online experienced continued pressure from the cancellation of selected in-game monetization features, such as “Treasure Box,” during the third quarter 2009.

ACU for online games<sup>1</sup> in the fourth quarter 2009 was 485,000, representing a 14.0% sequential increase and a 12.7% decrease over the fourth quarter 2008. PCU for online games<sup>1</sup> in the fourth quarter 2009 was 1,391,000, representing an 8.6% sequential increase and a 7.6% decrease over the fourth quarter 2008. ACU and PCU were up on a sequential basis due to increased interest and usage for the newly launched games such as ZT Online Green Edition. ARPU for online games<sup>1</sup> in the fourth quarter 2009 decreased 7.3% sequentially and 11.8% year-over-year quarterly to RMB240.5. The sequential decline in ARPU in the fourth quarter of 2009 is attributable to the launch of new games geared toward users with lower spending habits. APA for online games<sup>1</sup> in the fourth quarter 2009 increased 2.7% sequentially and decreased 11.8% from the fourth quarter 2008 to 1,138,000. The sequential increase in APA is attributable to users subscribing for paying accounts within the Company’s newly launched games. The year-over-year quarterly decreases in operating metrics were primarily attributable to the cancellation of “Treasure Box” monetization features within ZT Online during the third quarter 2009.

Cost of Services. Cost of services was RMB44.4 million (US\$6.5 million), representing a decrease of 2.2% from the third quarter 2009 and a 21.6% decrease over the fourth quarter 2008. The sequential decrease in cost of services was primarily due to a slight decrease in business tax and the Company’s continuous efforts to control operating costs such as IDC expenses.

Cost of services decreased 6.3% to RMB204.1 million (US\$29.9 million) for the fiscal year 2009, from RMB217.9 million in 2008. This decrease was primarily attributable to the decrease in business tax resulting from lower sales of prepaid game cards and more stringent cost control in IDC costs and other operating expenses.

Gross Profit and Gross Margin. Gross profit for the fourth quarter 2009 was RMB231.6 million (US\$33.9 million), representing a 5.4% sequential decrease and a 21.9% year-over-year quarterly decrease. Gross margin for the fourth quarter 2009 was 83.9%, down slightly from 84.3% in the third quarter 2009 and in line with 84.0% in the fourth quarter 2008.

Gross profit fell to RMB1,099.8 million (US\$161.1 million) for the fiscal year 2009, from RMB1,376.8 million in 2008, caused by the decrease in net revenue. Gross margin for the fiscal year 2009 was 84.3%, compared with 86.3% in 2008.

Operating Expenses. Total operating expenses for the fourth quarter 2009 were RMB55.8 million (US\$8.2 million), representing an increase of 5.0% from RMB53.1 million in the third quarter 2009 and a decline of 32.7% from RMB82.9 million in the fourth quarter 2008. The sequential increase in operating expenses is mainly attributable to higher R&D expenditure and increased sales and marketing expenses.

FOR IMMEDIATE RELEASE

For the fiscal year 2009, total operating expenses decreased 34.9% to RMB265.9 million (US\$39.0 million) from RMB408.8 million in 2008, as the Company raised the effectiveness and efficiency of marketing resources and cut back its sales and marketing spending. Also, due to stringent cost controls, G&A expenses decreased in fiscal year 2009. These decreases more than offset the increase in R&D spending, which was used to broaden the Company's game pipeline.

Research and product development ("R&D") expenses for the fourth quarter 2009 increased 12.2% sequentially to RMB27.5 million (US\$4.0 million) from RMB24.5 million in the third quarter 2009 and 9.3% year-over-year quarterly from RMB25.2 million in the fourth quarter 2008. The sequential rise in R&D expenses was mainly due to the increase in staff headcount as additional R&D talents were hired for the development of new game projects. For the fiscal year 2009, R&D expenses increased 28.0% to RMB113.4 million (US\$16.6 million) from RMB88.5 million in 2008 as the R&D department expanded to accommodate additional product development and existing game enhancements.

Sales and marketing ("S&M") expenses were RMB34.8 million (US\$5.1 million) in the fourth quarter 2009, up 14.5% sequentially from RMB30.4 million in the third quarter 2009, as the Company spent more on advertisements and marketing campaigns for the promotion of ZT Online Green Edition. However, S&M expenses were down 23.4% year-over-year quarterly from RMB45.4 million in the fourth quarter 2008, as the Company exercised tighter cost controls over S&M liaison personnel and implemented more streamlined advertising campaigns compared to a year ago. For fiscal year 2009, S&M expenses were RMB119.6 million (US\$17.5 million), down 50.5% from RMB241.6 million for fiscal year 2008, as the Company enhanced the effectiveness and efficiency of its marketing expenditure throughout the year.

General and administrative expenses ("G&A") for the fourth quarter 2009 were RMB33.2 million (US\$4.9 million), up 23.3% sequentially from RMB26.9 million in the third quarter 2009, but down 20.7% from RMB41.8 million in the fourth quarter 2008. The sequential rise was mainly caused by an increase in consulting fees and year-end human resources-related expenditures. The year-over-year quarterly decrease in G&A expenses was mainly attributable to management's strict control of expenses. For fiscal year 2009, G&A expenses decreased 14.3% to RMB121.4 million (US\$17.8 million) from RMB141.8 million in fiscal year 2008, caused by the decrease of consulting fees and option expenses due to the implementation of the accelerated amortization method.

Financial Incentive. The financial incentive, which mainly relates to sales tax received from the municipal government, was RMB39.7 million (US\$5.8 million) in the fourth quarter 2009. This refund mainly relates to the sales tax accounted for in the Company's cost of services and is treated as a deduction in operating expenses. The total financial incentive received for fiscal year 2009 increased to RMB88.5 million from RMB63.1 million in 2008.

Interest Income. Interest income for the fourth quarter 2009 was RMB30.1 million (US\$4.4 million), compared to RMB23.1 million in the third quarter 2009 and RMB41.3 million in the fourth quarter 2008. The sequential increase in interest income was mainly due to the Company's efforts to more efficiently manage short-term and held-to-maturity securities, while the year-over-year quarterly decrease was primarily caused by a decline in the market interest rate.

FOR IMMEDIATE RELEASE

For the fiscal year 2009, interest income decreased to RMB102.2 million (US\$15.0 million) from RMB185.0 million in fiscal year 2008, which was mainly attributable to the decrease in market interest rates.

**Income Tax.** Income tax expense for the fourth quarter 2009 was RMB15.3 million (US\$2.2 million), compared to income tax expense of RMB18.1 million in the third quarter 2009 and income tax benefit of RMB34.9 million in the fourth quarter 2008. Income tax expense for fiscal year 2009 was RMB85.1 million (US\$ 12.5 million).

**Net Income Attributable to the Company's Shareholders.** Net income attributable to the Company's shareholders for the fourth quarter 2009 was RMB197.8 million (US\$29.0 million), in line with RMB197.7 million in the third quarter 2009 and a year-over-year quarterly decrease of 31.9% from RMB290.3 million. Net income declined from the same period last year as the Company remained in a transitional period following the cancellation of certain monetization features in ZT Online during the third quarter 2009. The margin of net income attributable to the Company's shareholders was 71.7% for the fourth quarter 2009, compared to 68.1% in the third quarter 2009 and 82.2% in the fourth quarter 2008.

For fiscal year 2009, net income attributable to the Company's shareholders decreased 22.9% to RMB859.3 million (US\$125.9 million), from RMB1,113.6 million in 2008. Net income margin declined to 65.9% for the fiscal year 2009, as compared to 69.8% in 2008.

**Cash, Cash Equivalents, Short-Term Investments and Held-To-Maturity Investments.** As of December 31, 2009, Giant's cash, cash equivalents, short-term investments and held-to-maturity securities totaled RMB5,399.2 million (US\$791.0 million), compared to RMB5,179.4 million as of September 30, 2009. The sequential increase consists of cash generated by the Company's operating business.

**Share Repurchase Program.** In August 2009, the Board of Directors terminated the share repurchase plan authorized in August 2008 and approved a new share repurchase plan, authorizing the Company to repurchase up to US\$150.0 million of its ADSs. Under this share repurchase plan, the Company may repurchase its shares under one year, unless further extended or shortened by the Board of Directors within one year, as under the board resolution and as defined by SEC regulations. As of December 31, 2009, the Company had not repurchased any shares under this new plan.

Over the coming months, Giant will localize and tailor the game to Chinese gamers’ preferences in advance of expected commercial launch in late 2010.

First Quarter 2010 Guidance—Throughout the fourth quarter 2009, the Company was encouraged by signs of increasing stability and positive growth momentum in the performance of ZT Online as the effects from the cancellation of “Treasure Box” diminished. Supported by a strengthening ZT Online and expected contributions from new games such as ZT Online Green Edition, the Company anticipates a return to sustainable top-line growth in the first quarter 2010. Statements in this release contain “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as “will,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates” and similar statements and among others include our business outlook for the first quarter of 2010, the ability of ZT Online to attract players and extend its life cycle with the enhancement introduced in the fourth quarter 2009, our expectations on the performances of our newly launched games, our ability to successfully commercially launch our new games, our continued efforts to successfully operate and adjust features of our existing games, including introduction of expansion packs, and our ability to continue to grow our business and build long-term shareholder value. These forward-looking statements are not historical facts but instead represent only our belief regarding future events, many of which, by their nature, are inherently uncertain and outside of our control. Our actual results and financial condition and other circumstances may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements. Among the factors that could cause our actual results to differ from what we currently anticipate may include failure by ZT Online gamers to resume in-game spending or continue in-game spending at historical levels, our ability to develop, purchase or license additional online games that are attractive to our players, our ability to develop and successfully launch expansion packs for our online games, our ability to adjust and enhance our online games to users’ preferences to generate revenues, our dependence on one online game, which currently accounts for the majority of our historical net revenues, our ability to respond to competition, our ability to adjust to the current global economic crisis, our need to implement and maintain effective internal control over financial reporting, our limited operating history and unproven long-term potential of our online game business model, our uncertainties with respect to the PRC legal and regulatory environments and volatility in the markets we operate in. The financial information contained in this release should be read in conjunction with the consolidated financial statements and notes thereto included in our annual report on Form 20F for the fiscal year 2008, as filed with the Securities and Exchange Commission on June 19, 2009, and is available on the Securities and Exchange Commission’s website at [www.sec.gov](http://www.sec.gov). For additional information on these and other important factors that could adversely affect our

business, financial condition, results of operations and prospects, see “Risk Factors” beginning on page 8 of our annual report for fiscal year 2008. Our actual results of operations for the fourth quarter and fiscal year 2009 are not necessarily indicative of our operating results for any future periods. Any projections in this release are based on limited information currently available to us, which is subject to change. Although such projections and the factors influencing them will likely change, we undertake no obligation to update or revise these forward-looking statements, whether as a result of new information, future events or otherwise, after the date of this press release. Such information speaks only as of the date of this release.
