ItemMANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS

Results of Operations

Revenue

Oil and gas revenues for the first six months of 2010 increased by \$3,213 to \$740,762. Royalty revenue from oil and gas revenues declined by \$102,291 from 2009. However, oil and gas lease bonuses and rentals increased by \$105,504 from 2009. The following schedule summarizes barrels and MCF reported from producers and presents an average price per barrel and per MCF for 2010 and 2009.

	2010	2009
Oil Royalty Revenue	\$ 425,577	\$ 411,793
Barrels produced	6,766	7,728
Average price per barrel	\$ 62.90	\$ 53.29
Gas Royalty Revenue	\$ 187,356	\$ 290,026
MCF produced	33,502	45,323
Average price per MCF	\$ 5.59	\$ 6.40

The increase in oil royalty revenue is a net effect of a decrease in barrels produced and an increase in the average price per barrel. Whereas the decrease in gas royalty revenue is the result of a decrease in both MCF produced and the average price per MCF.

Agriculture revenue decreased from \$48,972 to \$43,567 in 2010, primarily due to non-renewal of one sugarcane related lease.

Timber revenue increased to \$114,125 in 2010 from \$18,503 in 2009. During the second quarter of 2010, the Company harvested timber for internal maintenance programs which was not performed in 2009. Generally, timber prices have been depressed for the last several years and the Company has elected to only harvest timber for internal maintenance programs for age class timber and storm protection measures.

Costs and Expenses

Oil and gas production costs, primarily severance taxes, decreased by \$11,759 in 2010. This decrease is directly related to lower oil and gas revenues.

Timber expenses decreased by \$6,953 in 2010 due to a 2009 timber cruise mapping project.

General and administrative expenses increased by \$17,209 primarily due to an increase in office rental expense and public company compliance expense as well as the timing of recording auditing and employee training expenses.

Financial Condition

Current assets and non-current certificates of deposit and securities available for sale totaled \$6,551,605 and total liabilities equaled \$267,762 at June 30, 2010. Management believes existing cash and investments together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions.

The Company declared and paid another seven cents per common share during the quarter ended June 30, 2010. It is anticipated that the Company will be able to continue paying a seven cents per common share dividend each quarter. From time to time, the Company may elect to pay an extra dividend. In determining if an extra dividend will be declared, the Board of Directors will take into consideration the Company's current liquidity and capital resources and the availability of suitable timberland that has mineral potential.

Issues and Uncertainties

This Quarterly Report contains forward-looking statements. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those discussed below, which, among others, should be considered in evaluating the Company's financial outlook.

Revenues from oil and gas provide most of the Company's income. All of these revenues come from wells operated by other companies from property belonging to CKX Lands, Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of the other companies.

Item 3. Not applicable.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by the report.

Changes in Internal Control Over Financial Reporting

There were no significant changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the quarter covered by this report.
