### Company Press Release

## NOVA ANNOUNCES 2011 SECOND QUARTER RESULTS

Rehovot, Israel – August 2, 2011 - Nova Measuring Instruments Ltd. (Nasdaq: NVMI), provider of leading edge stand alone metrology and the market leader of integrated metrology solutions to the semiconductor process control market, today reported its 2011 second quarter results.

### Highlights for the Second Quarter of 2011

- Quarterly revenues of \$29.6 million, up 53% year over year
- Gross margin of 58%; Record services gross margin of 39%
  - Net margin of 31%
- Record quarterly net income of \$9.1 million, or \$0.34 per diluted share
  - Positive cash flow from operating activities of \$7 million
  - Total cash reserves of \$78.2 million

### Management Comments

“Second quarter results continued to demonstrate strong financial performance,” said Gabi Seligsohn, President and CEO of Nova. “We set all-time records in revenues and earnings, with margins well above our long-term targets, and we generated significant operating cash flow.”

“During recent quarters we utilized our significant operating leverage and made investments into the development of new products and capabilities. Last month we were pleased to announce two new ground breaking products for the Optical CD metrology market. These products, which are already shipping to leading customers, position us well to

further strengthen our position and expand our footprint in this market. Furthermore, we are progressing well with our plan to penetrate the 3D interconnect market and have recently concluded the development of the first phase of this product. We have already received excellent customer feedback to the tool capabilities and expect to ship initial evaluation units during the second half of this year”.

---

“Industry-wide, the pace of business began to slow somewhat in the second quarter, after extremely aggressive capital spending early in the first half of the year. Given the continued strong end market demand, we believe this is a mid cycle correction related to absorption and inventory realignment, which should result in lower revenues during the second half of 2011”.

“Looking forward, we expect the continuous growth in consumer demand for high-performance mobile devices to continue to drive spending, and we believe we are particularly well-positioned to benefit from the resumption of the uptrend. We have recently introduced innovative new products that will be crucial to our foundry and memory customers as they strive to enable smaller footprints and lower power consumption via advanced nodes and complex structures below 22nm.”

#### 2011 Third Quarter Guidance

For the third quarter of 2011, management expects revenues of \$24-\$27 million, with net profitability of 20%-25%.

#### 2011 Second Quarter Results

Total revenues for the second quarter of 2011 were \$29.6 million, an increase of 52.5% relative to the second quarter of 2010, and an increase of 5.2% relative to the first quarter of 2011.

Gross margin for the second quarter of 2011 was 57.7%, compared with 53.6% in the second quarter of 2010 and 57.6% in the first quarter of 2011.

Operating expenses in the second quarter of 2011 were \$8.2 million, compared with \$5.8 million in the second quarter of 2010 and \$8.4 million in the first quarter of 2011.

The company reported net income of \$9.1 million, or \$0.34 per diluted share, in the second quarter of 2011. This compares to a net income of \$4.7 million, or \$0.18 per diluted share, in the second quarter of 2010, and a net income of \$8.1 million, or \$0.30 per diluted share, in the first quarter of 2011.

The company generated \$7.0 million in cash from operating activities during the second quarter of 2011. Total cash reserves at the end of the second quarter of 2011 were \$78.2 million.

The Company will host a conference call today, August 2, 2011, at 9:00am ET. To participate, please dial in the US: 1 888 935 4575; or internationally: +972-3-721 9509. A recording of the call will be available on Nova’s website, within 24 hours following the end of the call. In addition, a presentation to accompany the conference call will be available together with a live webcast of the conference call. This will be accessible from a link on Nova’s website at [www.nova.co.il](http://www.nova.co.il).

#### About Nova

Nova Measuring Instruments Ltd. develops, produces and markets advanced integrated and stand alone metrology solutions for the semiconductor manufacturing industry. Nova is traded on the NASDAQ & TASE under the symbol NVMI. The Company's website is [www.nova.co.il](http://www.nova.co.il).

This press release contains forward-looking statements within the meaning of safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to future events or our future performance, such as statements regarding trends, demand for our products, expected deliveries, transaction, expected revenues, operating results, earnings and profitability. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied in those forward looking statements. These risks and other factors include but are not limited to: our dependency on two product lines; the highly cyclical nature of the markets we target; our inability to reduce spending during a slowdown in the semiconductor industry; our ability to respond effectively on a timely basis to rapid technological changes; our dependency on OEM suppliers; our ability to retain our competitive position despite the ongoing consolidation in our industry; risks associated with our dependence on a single manufacturing facility; our ability to expand our manufacturing capacity or marketing efforts to support our future growth; our dependency on a small number of large customers and small number of suppliers; our dependency on our key employees; risks related to changes in our order backlog; risks related to the financial, political and environmental instabilities in Asia; risks related to our intellectual property; changes in customer demands for our products; new product offerings from our competitors; changes in or an inability to execute our business strategy; unanticipated manufacturing or supply problems; changes in tax requirements; changes in customer demand for our products; risks related to currency fluctuations; and risks related to our operations in Israel. We cannot guarantee future results, levels of activity, performance or achievements. The matters discussed in this press release also involve risks and uncertainties summarized under the heading "Risk Factors" in Nova's Annual Report on Form 20-F for the year ended December 31, 2010 filed with the Securities and Exchange Commission on March 30, 2011. These factors are updated from time to time through the filing of reports and registration statements with the Securities and Exchange Commission. Nova Measuring Instruments Ltd. does not assume any obligation to update the forward-looking information contained in this press release.
