Information Concerning Solicitation and Voting

Place, Time and Date of Meeting. The accompanying proxy is being solicited on behalf of the Board of Directors (the “Board”) of Medifast, Inc., a Delaware corporation (the “Company” or “Medifast”), for use at the 2014 Annual General Meeting of Stockholders (the “Meeting”) to be held on Tuesday, June 17, 2014 at 8:00 a.m., Eastern Daylight Time, at the Company’s principal executive offices located at 3600 Crondall Lane, Suite 100, Owings Mills, Maryland 21117, and any adjournments, postponements or continuations thereof.

In accordance with Securities and Exchange Commission (“SEC”) rules, instead of mailing a printed copy of our proxy materials to each stockholder of record, we are furnishing proxy materials to our stockholders via the Internet. If you received a Notice of Internet Availability of Proxy Materials by mail, you will not receive a printed copy of the proxy materials other than as described below. Instead, the Notice of Internet Availability of Proxy Materials will instruct you as to how you may access and review all of the important information contained in the proxy materials. The Notice of Internet Availability of Proxy Materials also instructs you as to how you may submit your proxy over the Internet. If you received a Notice of Internet Availability of Proxy Materials by mail and would like to receive a printed copy of our proxy materials, including this proxy statement (this “Proxy Statement”), the accompanying proxy card, our Annual Report on Form 10-K for the fiscal year ending December 31, 2013 filed with the SEC on March 17, 2014 (the “Annual Report”) and related proxy materials, you should follow the instructions for requesting such materials included in the Notice of Internet Availability of Proxy Materials.

It is anticipated that the Notice of Internet Availability of Proxy Materials will first be sent to stockholders on or about May 6, 2014. This Proxy Statement and accompanying proxy card, Annual Report, and related proxy materials will first be made available to stockholders on or about May 6, 2014 at www.astproxyportal.com/ast/08676 for registered holders of the Company’s common stock and at www.proxyvote.com for beneficial holders of the Company’s common stock. In accordance with the rules and regulations of the SEC, the websites provide complete anonymity with respect to a stockholder accessing the websites.

Record Date and Voting Securities. Only stockholders of record at the close of business on April 28, 2014 (the “Record Date”) are entitled to notice of and to vote at the Meeting. The Company has one series of capital stock, comprised of shares of common stock (the “Common Shares”), outstanding. At the close of business on April 28, 2014, 13,143,309 Common Shares were issued and outstanding and held of record by 135 registered holders. Stockholders of record on the Record Date may vote by (i) internet, as instructed in the Notice of Internet Availability of Proxy Materials; (ii) by mail, by requesting a paper copy of the proxy card, as instructed in the Notice of Internet Availability of Proxy Materials; or (iii) by attending the meeting in person. Stockholders who hold their shares through a broker must vote their shares in the manner prescribed by their broker.

Voting. Each stockholder is entitled to one vote for each Common Share held by them on the Record Date on all matters submitted for consideration at the Meeting. A quorum, representing the holders of not less than a majority of the issued and outstanding Common Shares entitled to vote at the Meeting, must be present in person or by proxy at the Meeting for the transaction of business. Abstentions and broker non-votes are counted for purposes of establishing a quorum, but they are not counted as votes cast for or against a proposal. Provided that a quorum is present: (i) each nominee for election as a Class I Director will be elected by a majority vote, that is, the affirmative vote of a majority of the votes cast with respect to such nominee; (ii) the ratification of the appointment of McGladrey, LLP (“McGladrey”) as the Company’s independent registered public accountant will require the affirmative vote of a majority of the votes cast on such proposal; and (iii) the approval of a non-binding advisory resolution to approve the Company’s executive compensation will require the affirmative vote of a majority of the votes cast on such proposal. The Company is not aware of any matter, other than as referred to in this Proxy Statement, to be presented at the meeting.

When a proxy is properly executed and authorized, the Common Shares underlying such proxy will be voted in accordance with the instructions of the stockholder. Any properly authorized proxy received on a timely basis for which no specification has been made by the stockholder will be voted “FOR” the election of the nominees of Class I Directors listed in this Proxy Statement in Proposal 1, “FOR” the ratification of the appointment of McGladrey as the Company’s independent registered public accountant for the fiscal year ending December 31, 2014 in Proposal 2 and “FOR” the approval of a non-binding advisory resolution approving the Company’s executive compensation in Proposal 3, to the extent permitted by the rules and regulations of the SEC, and in accordance with the judgment of the persons voting the proxies upon such other matters as may come before the Meeting and any adjournments or postponements thereof.

If you hold shares beneficially in street name and do not provide your broker with voting instructions, your shares may be treated as “broker non-votes.” Generally, broker non-votes occur when a broker is not permitted to vote on a particular matter without instructions from the beneficial owner and instructions have not been given. Brokers that have not received voting instructions from their clients cannot vote on their clients’ behalf on “non-routine” proposals, such as the election of directors and the advisory approval of the Company’s executive compensation, although they may vote their client’s shares on “routine” proposals such as the proposal seeking ratification of McGladrey as our independent registered public accountant for the fiscal year ending December 31, 2014. In tabulating the voting result for any particular proposal, shares that constitute broker non-votes are not considered entitled to vote on that proposal.

Only stockholders registered on the books of our transfer agent may vote in person at the Meeting. If you hold your Common Shares indirectly through a broker, bank or similar institution and desire to vote your Common Shares in person at the Meeting, you will need to obtain a legal proxy from the bank, broker or nominee that holds your Common Shares.

Revocability of Proxies. Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by either (a) delivering to the Corporate Secretary of the Company a written notice of revocation or a duly executed proxy bearing a later date or (b) attending the Meeting and voting in person.

Solicitation Expenses. This solicitation of proxies is being made on behalf of the Board and all related costs will be borne by the Company. Proxies may be solicited by certain of our directors, officers and regular employees, without additional compensation, in person, by telephone, facsimile or electronic mail. We will, upon request, reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to the beneficial owners of Common Shares.

This Proxy Statement contains summaries of certain documents, but you are urged to read the documents themselves for the complete information. The summaries are qualified in their entirety by reference to the complete text of the applicable document. In the event that any of the terms, conditions or other provisions of any such document is inconsistent with or contrary to the description or terms in this Proxy Statement, such document will control. Each of these documents, as well as those documents referenced in this Proxy Statement as being available in print upon request, are available upon request to the Company by following the procedures described under “Stockholder Communications with the Board.”

PROPOSAL 1:

THE ELECTION OF DIRECTORS

The number of directors in each class is determined by the Board. The directors are classified as Class I, Class II and Class III. The term of Class I Directors will expire at the Meeting. The terms of Class II and III Directors will expire at the annual meeting in 2015. Each Class I Director is up for re-election at the Meeting for a one-year term expiring at the 2015 annual meeting.

On February 5, 2014, the Board approved an amendment to the Company's By-laws to implement a majority voting standard for the election of directors in uncontested elections. Under a majority voting standard, in order to be elected, the number of votes cast "for" a nominee must exceed the number of votes cast "against" such nominee. Each stockholder is entitled to only one vote per share in the election of directors and each director nominee is voted upon separately. The holders of Common Shares are not entitled to cumulate their votes in the election of directors. If an incumbent director who is a candidate for re-election is not elected, the director will be required to tender his or her resignation to the Board. The Nomination Committee will make a recommendation to the Board on whether to accept or reject the resignation, or whether other action should be taken. The Board will act on the Nomination Committee's recommendation and disclose its decision and the rationale for the decision within 90 days from the date of the certification of the election results. The director who tenders his or her resignation will not participate in the Board's decision. In contested elections, where the number of nominees exceeds the number of directors to be elected, the voting standard will continue to be a plurality of votes cast.

The nominees for Class I Directors are to be voted on at the Meeting. The Board has nominated Charles P. Connolly, Jason L. Groves, Esq., John P. McDaniel, Donald F. Reilly, and Carl E. Sassano for election as Class I Directors to serve one-year terms expiring at the 2015 annual general meeting. Information concerning each of the Class I Director nominees has been provided below. Each nominee has previously been elected as a director by stockholders and has consented to be named as a nominee and, to the present knowledge of the Company, is willing to serve as a director, if elected. If, at the time of the Meeting, any of the Class I Director nominees is not available to serve as a director (a situation which is not anticipated), solicited proxies will be voted in favor of those who remain as nominees and may be voted for substitute Class I Director nominees nominated by the Board. Unless contrary instructions are given on the proxy, the shares represented by a properly executed proxy will be voted "FOR" the election of the nominees – Charles P. Connolly, Jason L. Groves, Esq., John P. McDaniel, Donald F. Reilly, and Carl E. Sassano.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE "FOR" EACH OF THE CLASS I DIRECTOR NOMINEES.

ADDITIONAL INFORMATION ABOUT THE BOARD AND COMMITTEES

Director Independence

As of April 30, 2014, the Board consists of 12 members, 9 of whom are independent directors. The Company is required to have a majority of independent directors serving pursuant to the rules of the New York Stock Exchange (the “NYSE”). Our Board undertook an annual review of director and director nominee independence. The purpose of this review was to determine whether any relationships or transactions involving directors and director nominees (including their immediate family members and affiliates) were inconsistent with a determination that the director or director nominee is independent under the independence standards set forth in the NYSE rules and the Company’s Corporate Governance Guidelines (the “Guidelines”).

In making this determination, the Board considered our directors’ responses to a questionnaire provided by management asking them to disclose, among other things, any relationships or transactions, direct or indirect, that they (or any of their immediate family members or affiliates) have with the Company and/or its subsidiaries, but also any other relevant facts and circumstances that may have come to the Board’s attention relating to transactions, relationships or arrangements between the director or director nominee (or any of their immediate family members or affiliates) on the one hand, and the Company or any of its subsidiaries or affiliates, on the other hand, that might signal potential conflicts of interest, or that might bear on the materiality of a director’s or a director nominee’s relationship to the Company or any of its subsidiaries.

Based on its review, and applying the NYSE standards for determining independence as well as the additional independence criteria set forth in our Guidelines, the Board affirmatively determined that the following directors are independent: Harvey C. Barnum, Jr., Barry B. Bondroff, Kevin G. Byrnes, Charles P. Connolly, Catherine T. Maguire, John P. McDaniel, Jerry D. Reece, Donald F. Reilly, and Carl E. Sassano. The Board also determined that George L. Lavin, Esq. was an independent director until his resignation on July 31, 2013, and Jeannette M. Mills was an independent director until her resignation on May 23, 2013.

Board Meetings

During the fiscal year ended December 31, 2013 (“Fiscal 2013”), the Board held five meetings. Each Board member attended at least 75% of the aggregate number of the total number of Board meetings (held during the period for which such person was serving on the Board) and the total number of meetings held by all committees of the Board on which such person served (during the period during which such person served).

Under the Guidelines, which are available on the Company's website <http://ir.medifastdiet.com>, by following the link through "Investor Relations" to "Corporate Governance," each director is expected to dedicate sufficient time, energy and attention to ensure the diligent performance of his or her duties, including attending meetings of the stockholders of the Company, the Board and committees of which he or she is a member. All of the directors attended the 2013 Annual General Meeting of Stockholders.

Board Leadership Structure and Risk Oversight

Board Leadership Structure

The Board is committed to strong corporate governance and board independence. The Board recognizes that having a shared Chief Executive Officer and Chairmanship can present an issue for some companies or some boards. However, the 2004 Blue Ribbon Commission of the National Association of Corporate Directors found that separation of the roles of chairman and chief executive officer was not necessary for effective board leadership. The Nominations Committee and the Board continue to consider the issue of board leadership and do not believe there is any material corporate governance benefit to separating these positions at this time. Our Chairman of the Board does not have any enhanced rights as a director, but has the same voting authority as any other director and the role of Chairman is one which is principally that of presiding at meetings of the Board and taking the initiative on establishing the proposed agenda for meetings of the Board, which is a role our senior management would play a significant part in regardless of which director serves as Chairman. Our Board continues to believe that the current structure is in our best interests and our stockholders' best interests and allows Michael C. MacDonald, who serves as our Chairman and Chief Executive Officer, to focus on our strategy, business and operations.

The Board believes that there is no one best leadership structure model that is most effective in all circumstances. The Board retains the authority to separate the positions of Chairman and Chief Executive Officer in the future if such change is determined to be in our best interests and those of our stockholders. Thus, the Board remains flexible and committed to a strong corporate governance structure and board independence. The Board is committed to adopting corporate management and governance policies and strategies that promote our effective and ethical management. In this regard, the Board strongly believes that it should have maximum flexibility in deciding whether the offices of Chairman and Chief Executive Officer are combined or separate and, if separate, whether the Chairman should be an independent director or an employee.

The 2004 Blue Ribbon Commission also found that it is most important that an independent director serve as a focal point for the work of the independent directors. In July 2013, as part of its commitment to strong corporate governance and independence, the Board appointed Barry B. Bondroff as Lead Independent Director.

Lead Director

As noted above, the Board appointed Barry B. Bondroff, CPA, as Lead Independent Director effective July 22, 2013. Mr. Bondroff has served as a director since 2008. The Lead Independent Director is responsible for facilitating and coordinating the activities of the independent directors. For the purpose of balancing the interests of the stockholders and management when the CEO also serves as the Chairman of the Board, the Lead Independent Director serves as Chairman for meetings of the independent directors separate from management. The Lead Independent Director also represents the best practices regarding corporate governance, provides independent leadership to the Board, and performs such other duties and responsibilities as the Board may determine.

The principal responsibilities of the Lead Independent Director are as follows:

- Act as the principal liaison between the independent directors of the Board and the CEO and Chairman of the Board;
 - Develop the agenda for and preside at executive sessions of the Board's independent directors;
 - Communicate to the Chairman any and all feedback from the executive sessions;
- Prepare minutes of the meeting of independent directors, share minutes with the full Board when appropriate, and deliver the minutes to the Company for filing with the minutes of the Company;
 - Review and approve the agenda for the Board;
 - Participate in the compensation committee's evaluation of the CEO's performance;
 - Supervise the evaluations (self and otherwise) of the directors;
- Initiate a review of the independent Board members' performances, discuss the results with the Chairman and make recommendations for improvement, if required;
 - Handle difficult and underperforming directors to improve the functionality of the Board;
 - Assist in Board succession plans;
 - Preside at all meetings at which the Chairman is not present;
 - Retain the authority to call meetings of the independent directors;
- Subject to the authority of any committee of the Board, recommend to the Board the retention of advisors and consultants who report directly to the Board;
- As the Board determines, serve as a liaison and be available for consultation and direct communication with major stockholders;
 - Make recommendations to the Board on behalf of the independent directors; and
- Undertake further such responsibilities that the independent directors may designate to the Lead Independent Director from time to time.

Risk Oversight

The Company takes a comprehensive approach to risk management and believes risk can arise in every decision and action taken by the Company, whether strategic or operational. The Company, therefore, seeks to include risk management principles in all of its management processes and in the responsibilities of its employees at every level. Our comprehensive approach is reflected in the reporting processes by which our management provides timely and comprehensive information to the Board to support the Board's role in oversight, approval and decision-making.

The Board closely monitors the information it receives from management and provides oversight and guidance to our management team concerning the assessment and management of risk. The Board has delegated oversight for matters involving certain specific areas of risk exposure to its committees. Each committee reports to the Board at regularly scheduled Board meetings, and more frequently if appropriate, with respect to the matters and risks for which the committee provides oversight.

Our senior executives provide the Board and its committees with regular updates about the Company's strategies and objectives and the risks inherent within them at Board and committee meetings and in regular reports. Board and committee meetings also provide a venue for directors to discuss issues with management. The Board and committees call special meetings when necessary to address specific issues. In addition, our directors have access to Company management at all levels to discuss any matters of interest, including those related to risk. Those members of management most knowledgeable of the issues attend Board meetings to provide additional insight into items being discussed, including risk exposures.

The Board approves the Company's high level goals, strategies and policies to set the tone and direction for appropriate risk taking within the business. The Board and its committees then emphasize this tone and direction in its oversight of management's implementation of the Company's goals, strategies and policies.

Code of Conduct and Business Ethics and Corporate Governance Guidelines

Our Board has adopted a corporate Code of Conduct and Business Ethics applicable to our directors, officers, including our principal executive officer, principal financial officer and principal accounting officer, and employees, as well as Corporate Governance Guidelines, in accordance with applicable rules and regulations of the SEC and the NYSE. Each of our Code of Conduct and Business Ethics and Corporate Governance Guidelines are available on our website at <http://ir.medifastdiet.com/> by following the links through "Investor Relations" to "Corporate Governance."

Any amendment to, or waiver from, a provision of the Company's Code of Conduct and Business Ethics with respect to the Company's principal executive officer, principal financial officer, principal accounting officer or controller will be posted on the Company's website, <http://ir.medifastdiet.com/>.

Audit Committee Report

The following is the report of the Audit Committee of the Board with respect to the Company's audited financial statements for Fiscal 2013.

The Audit Committee reviews the Company's financial reporting process on behalf of the Board. The Audit Committee has met, reviewed and discussed the Company's audited financial statements with management, which has primary responsibility for the financial statements and the reporting process, including the system of internal controls. In this context, the Audit Committee has held discussions with management and McGladrey, the Company's independent registered public accountant for Fiscal 2013, regarding the fair and complete presentation of the Company's financial position and results of operations in accordance with accounting principles generally accepted in the United States of America and regulations of the SEC. The Audit Committee also has held discussions with management and McGladrey regarding the effectiveness of the Company's internal control over financial reporting in accordance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002. The Audit Committee has

discussed significant accounting policies applied by the Company in its financial statements, as well as alternative treatments. Management has represented to the Audit Committee that the Company's consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. McGladrey is responsible for expressing an opinion on the conformity of the Company's financial statements with accounting principles generally accepted in the United States of America. The Audit Committee has also discussed with McGladrey the matters required under Auditing Standard No. 16, "Communications with Audit Committees," and other generally accepted auditing standards.

In addition, the Audit Committee has received the written disclosures and the letter from McGladrey required by the applicable requirements of the Public Company Accounting Oversight Board, regarding the independent registered public accountant's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accountant its independence. The Audit Committee has also considered whether the independent registered public accountant's provision of non-audit services to the Company is compatible with the auditor's independence. The Audit Committee has concluded that McGladrey is independent from the Company and its management. The Audit Committee has pre-approved all Fiscal 2013 audit and permissible non-audit services and the fees associated with those services. Further, the Audit Committee has discussed with McGladrey the overall scope and plans for the audit.

Based upon the review and discussions referred to above, the Audit Committee recommended to the Board, and the Board approved, that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for Fiscal 2013.

These services may include audit services, audit-related services, tax services and other services. The Audit Committee has adopted a policy for the pre-approval of services provided by the independent registered public accountant.

The Audit Committee has approved in advance certain permitted services whose scope is routine across business units, including statutory or other financial audit work for non-U.S. subsidiaries that is not required for Exchange Act audits.

The Audit Committee pre-approved all audit, audit-related, tax and other services provided by McGladrey and RSM McGladrey, Inc. during Fiscal 2013 in accordance with this policy.

proposal 3:

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Exchange Act, the Company is seeking a non-binding advisory vote from our stockholders to approve the compensation paid to our Named Executive Officers (as hereinafter identified in the Summary Compensation Table), as disclosed in this Proxy Statement. At the Company's 2011 Annual Meeting, our stockholders overwhelmingly approved, with approximately 97% of the votes cast, our named executive officers' compensation.

As described in detail below under the heading “–Compensation Discussion and Analysis,” the Company's goals for its executive compensation program are to (1) attract and retain highly effective executive officers, including the Named Executive Officers, (2) reward these executive officers with respect to our annual operating performance and (3) align these executive officers' interests with those of long-term stockholders. The compensation program is designed to accomplish these objectives cost effectively and with a predictable income statement impact, while providing rewards to senior executives if we achieve superior annual operating performance and increases in long-term stockholder value. The compensation program is further designed to accomplish these objectives with simplicity and transparency to ensure the reward structure is clear to our executives and stockholders.

Our current compensation structure for senior executives consists of the following components: a base salary, year-end cash bonus based on our annual operating performance; and restricted stock grants with multi-year vesting. The Company believes the compensation program for the Named Executive Officers is instrumental in helping the Company achieve its financial performance.

While this is a non-binding, advisory vote, the Compensation Committee, which is responsible for designing and administering the Company's executive compensation program, values the opinions expressed by stockholders and intends to consider the outcome of the vote when considering future executive compensation arrangements. Specifically, the Company is seeking a vote on the following resolution:

“RESOLVED, that the stockholders approve on an advisory basis, the compensation paid to the Company's named executive officers as disclosed in this Proxy Statement pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, the compensation tables and related narrative discussion.”

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE FOREGOING RESOLUTION.

COMPENSATION DISCUSSION AND ANALYSIS

Purpose and Philosophy

The Compensation Committee is responsible for developing and recommending to the Board the executive compensation program for all named executive officers. The Compensation Committee is also responsible for the creation and periodic review of the overall executive compensation philosophy of the Company related analysis and assessment of any material risk to the Company related thereto, and outlines the components of executive compensation. The Company believes that strong, effective leadership is the cornerstone of its continued growth and success. To be successful, the Company must be able to attract, retain, and motivate highly qualified executives with the competencies needed to excel in a rapidly changing marketplace and to understand issues relating to a diverse group of companies in several different industries.

Executive compensation at Medifast is focused on executive performance keyed to results. The Company provides fair and equitable compensation to its executives by combining conservative base pay, annual cash incentives, and stock-based long-term incentives. The executive cash bonus plan is designed to reward executives for the Company's current year financial success and recognizes the responsibilities of the executives for meeting the Company's financial performance goals. Stock-based incentives focus on the Company's long-term performance by aligning the executives' long-term financial interests with the Company's stockholders' interest.

Total direct compensation (which includes base pay, annual cash incentives and stock-based long-term incentives) is measured against other organizations in the general weight-loss industry. In general, there is a wide variety of diet products and programs which comprise the weight loss industry. These include a wide variety of commercial weight loss programs, pharmaceutical products, weight loss books, self-help diets, dietary supplements, appetite suppressants and meal replacement shakes and bars. Some of our competitors are substantially larger than we are, and have considerably greater financial resources than the Company has. Our ability to remain competitive depends, in significant part, on our success in recruiting and retaining executive leadership with an attractive compensation package. The Company targets total direct compensation for each executive near median for organizations in the general weight-loss industry. The mix of pay (base pay, annual cash incentives and long-term incentives) is designed to reflect a strong bias towards pay for performance by placing a majority of target compensation at risk. The only element of total direct compensation that is not performance-based is base pay. Both the annual cash incentive and the long-term incentive are performance-based.

Compensation Consultants

During Fiscal 2013, the Compensation Committee engaged an independent executive compensation consultant firm, Keating Advisors, LLC. (“Keating”), to advise and make recommendations regarding Medifast’s executive compensation program. The Compensation Committee utilized the following materials, along with other resources and tools, to render compensation decisions for 2013: (i) surveys and reports of executive compensation paid by other public companies with characteristics similar to ours and (ii) professionally published surveys from Towers Watson, WTPF Compensation Survey, Direct Selling Association Management Compensation & Benefits Survey, Economic Research Institute Salary Assessor, and HRA-NCA. These materials and other resources help to provide us with solid benchmarks for each component of our executive compensation package as well as a general understanding of best practices of companies in our industry who are competing for with us for top talent. The Compensation Committee has evaluated the independence of Keating and concluded that no conflict of interest exists that would prevent Keating from independently advising the Compensation Committee.

Peer Group

We believe that it is appropriate to offer industry competitive cash and equity compensation to our executives in support of our objective to assemble and maintain a high performing management team. Our current level of compensation for our executives was compared to compensation paid by an industry peer group approved by the Compensation Committee. The criteria used to identify the peer group were: (1) industry — Medifast competes for talent with other healthy living and wellness companies and general weight-loss industry companies of similar and larger size; and (2) financial scope — our management talent should be compensated similar to that of companies of a similar and larger size in terms of revenues.

For 2013, the peer group was comprised of the following five corporations. The peer group revenue range is from \$300 million to \$3.5 billion.

NutriSystem Inc.,
Nutraceutical, Inc.,

Weight Watchers International Inc.

Elements of Executive Compensation

Base Salary

Our base salary determinations principally reflect the skills and performance levels of our individual executives, the needs of the Company, and pay practices of comparable public companies within the general health and wellness diet industry.

It is not our policy to pay our executive officers at the highest base salary level. Instead, we establish executive base salaries below the midpoint level relative to our peers. Consistent with this philosophy, the Compensation Committee, on an annual basis, evaluates our executives' base salaries. The Committee asks for input and recommendations from the CEO and CFO and then considers (i) the particular executive's role and responsibilities; (ii) his or her level of performance, achievements, and contributions to the Company; (iii) current market data and salary levels for such executive's particular position; and (iv) the total compensation paid to such executive. We believe this policy sets a prudent and fiscally responsible tone for the Company's overall base salary compensation program.

With respect to the Named Executive Officers listed in the Summary Compensation Table, our Board, after reviewing the information described above, determined that an increase of approximately three to three-and-a-half percent (3% - 3.5%) to each named executive officer's base salary was appropriate to ensure that the respective executive's compensation is fair and competitive with the market.

Target Bonus

Cash and equity bonuses principally reflect the Company's financial performance and achievement of corporate objectives approved by our Board. The executive cash bonus plan is designed to reward our executives for the achievement of shorter-term financial goals, predominantly revenue growth, profitability, and cash flow. In consultation with the Chairman and Chief Executive Officer, the Compensation Committee evaluates, adjusts and approves the amount and allocation of the bonus pool to each executive officer. In determining the cash bonus allocation among senior executives, the Compensation Committee and the Chairman and Chief Executive Officer consider each executive's (i) contribution to current and long-term corporate goals, and (ii) value in the labor market.

The financial targets for annual cash and equity incentives are premised upon the Executives delivering on their financial performance projections to Medifast, as reflected in part, in the annual budget that was approved by the Board in the first quarter of 2013. The Compensation Committee set the target for pre-tax profit at \$37.9 million, the

target for corporate revenue at \$402.1 million, and net increase in cash and cash equivalents at \$22.5 million (excluding adjustments from / to investment accounts, treasury stock repurchases and change in year over year deferred income tax and Income tax payable balances versus last year). The target performance level is set to promote solid performance. The financial targets for annual cash and equity incentives are divided into three components as follows:

Corporate Revenue: Each executive officer receives 25% of the total target payout if the Company achieves \$402.1 million in net revenue, an increase of 13% over 2012 net revenue of \$356.7 million, and additional increments for performance levels above the target.

Income Before Tax (“IBT”): 50% of the total target payout is paid to each executive officer if pre-tax profit of \$37.9 million is achieved, an increase of 55% over 2012 IBT of \$24.5 million, and additional increments for performance above the target. IBT for the purposes of compensation may be adjusted for certain non-recurring items as approved by the Compensation Committee.

Cash Flow: Each executive officer receives 25% of the total target payout if the Company achieves an increase in cash and cash equivalents of \$22.5 million, and additional increments if total adjusted cash generated is above the target. Cash flow is defined as total cash generated adjusted for treasury stock repurchases and the change in year over year deferred income tax and Income tax payable year end balances versus last year or adjustments from/to investment accounts.

2013 Annual Incentive Opportunities by Executive and Target

Executive	Potential Bonus Payout		
	Minimum Payout	@ Target Level	@ Operating Plan
Michael MacDonald	\$300,000	\$600,000	\$1,200,000
Margaret Sheetz	\$200,000	\$400,000	\$800,000
Timothy Robinson	\$90,000	\$180,000	\$360,000
Jason Groves	\$40,000	\$80,000	\$80,000
Jeannette Mills	\$27,416	\$54,833	\$54,833

Following the end of Fiscal 2013, the Compensation Committee reviewed the actual performance delivered by the Company under the 2013 executive cash bonus plan. The Compensation Committee determined that the Company delivered excellent financial and operating performance in 2013 as described below:

.	Corporate Revenue: Achieved \$356.9 million
.	Income Before Tax: Achieved \$37.0 million
.	Cash Flow: Achieved \$31.5 million

Based on the Company's performance, and the criteria of the 2013 executive cash bonus plan, the Compensation Committee determined that the executives, on average, earned a cash bonus equal to 59.2% of salaries under the 2013 executive cash bonus plan. The actual cash bonuses earned by our Named Executive Officers under the 2013 executive cash bonus plan are reflected in column of the Summary Compensation Table entitled "Non-Equity Incentive Plan Compensation."

Equity Compensation

Restricted stock awards principally reflect the responsibilities to be assumed by each executive in the upcoming fiscal year, the responsibilities of each executive in prior periods, the size of awards made to each executive in prior years relative to the Company's overall performance, available stock for issuance under share plans, and potential grants in future years. The Compensation Committee believes that restricted stock grants (1) align the interests of executives with long-term stockholder interests as the grants vest immediately or within 7 years, (2) give executives a significant, long-term interest in the Company's success, and (3) help retain key executives in a competitive market for executive talent. The restricted stock awards reward the continuity of service of the Executives since the restricted stock awards vest up to 7 years and unvested restricted stock is forfeited upon an executive's voluntary termination. In addition, the value of shares awarded increase or decrease commensurate with the value provided to stockholders.

In 2012 a new Share Incentive Plan was approved by the Company's stockholders. See the 2013 Grants of Plan-Based Awards section for an explanation of awards granted to the Named Executive Officers in 2013. As of March 17, 2014, 392,237 shares have been granted to directors, Named Executive Officers, and employees under the plan (subject to applicable vesting conditions); 16,163 of these shares have been issued.

Retention Shares

The Company granted restricted stock awards to the Chairman of the Board and Chief Executive Officer, the President and Chief Operating Officer and the Chief Financial Officer as an incentive to retain their service with the Company in future years. The Chairman of the Board and Chief Executive Officer and the Chief Operating Officer were granted 100,000 and 50,000 restricted shares, respectively, on February 19, 2013. The awards are comprised of five equal tranches of restricted shares. Each tranche vests in equal increments over a three year period, such that the first tranche began vesting on the first anniversary of the grant date, the second tranche will begin vesting on the second anniversary of the grant date, the third tranche will begin vesting on the third anniversary of the grant date, and so forth. The total vesting period for these retention awards is seven years.

Similarly, the Chief Financial Officer was granted 12,000 restricted shares on February 19, 2013. The award is comprised of three equal tranches of restricted shares. Each tranche vests in equal increments over a three year terms, such that the first tranche began vesting on the first anniversary of the grant date, the second tranche will begin vesting on the second anniversary of the grant date, and so forth. The total vesting period for the retention award granted to the Company's Chief Financial Officer is five years.

Equity Ownership by Executives

We do not currently have a formal equity ownership requirement for our executives. However, we encourage our executives to own equity in the Company on a voluntary basis. All of our executives own stock, and restricted stock. We periodically review the vested and unvested equity holdings of our executives and evaluate whether these holdings sufficiently align the interests of our executives with the long-term interests of our stockholders. We may consider adopting equity ownership requirements in the future.

Other Compensation

We do not at this time provide benefits to our executives that are different from or in addition to those that are provided to its general employees.

Retirement Benefits

Executives may participate in the Company 401(k) retirement plans on the same terms and conditions, including Company matching provisions, as other employees.

Perquisites

It is our general practice not to provide significant perquisites or personal benefits to our executives. The Compensation Committee, however, retains the discretion to consider and award reasonable perquisites or personal benefits to Executives as necessary to accomplish the objectives under our compensation philosophy. In this regard, it should be noted that we do not currently provide pension arrangements, post-retirement health coverage, or similar benefits for our executives or employees. In 2013, we paid health, life, and disability insurance premiums on behalf of our executives, all on the same terms as those that we provided to all of the Company's employees.

Advisory Vote on the Company's Executive Officers' Compensation

At the Annual Meeting of Stockholders on September 2, 2011 our stockholders overwhelmingly approved on a non-binding advisory basis the compensation of our named executive officers in 2011, as disclosed in the proxy statement for the 2011 annual meeting of stockholders. At our 2011 annual meeting, our stockholders overwhelmingly approved the proposal, with more than 97% of the votes cast voting in favor of the proposal. At the 2011 annual meeting of stockholders, we also asked our stockholders to indicate if we should hold a "say-on-pay" vote every one, two or three years. Consistent with the recommendation of our Board, our stockholders indicated by advisory vote their preference to hold a say-on-pay vote every three years. After consideration of the 2011 voting results, and based upon its prior recommendation, our Board elected to hold a stockholder "say-on-pay" vote every three years until the next required vote on the frequency of stockholder votes on the compensation of our Named Executive Officers, which is scheduled to occur at the 2017 annual general meeting of stockholders. As the Compensation Committee evaluated the Company's compensation practices throughout Fiscal 2013, the Compensation Committee was mindful of the strong support our stockholders expressed by the 2011 stockholder advisory vote. Going forward, future advisory votes on executive compensation will serve as an additional tool to assist the Board and the Compensation Committee in evaluating the alignment of the Company's executive compensation program with the interests of the Company and its stockholders.

Compensation Committee Interlocks and Insider Participation

No member of our Compensation Committee was an officer or employee while serving on the Compensation Committee during Fiscal 2013, or has ever been an officer of Medifast or its subsidiaries. No executive officer of Medifast has served as a director or a member of the Compensation Committee of another entity that has one or more executive officers who are also members of our Board or Compensation Committee.

Compensation Committee Report

We have reviewed and discussed with management certain Compensation Discussion and Analysis provisions to be included in this Proxy Statement. Based on the review and discussions referred to above, we recommend to the Board that the Compensation Discussion and Analysis referred to above be included on this Proxy Statement and be incorporated into the Company's Annual Report on Form 10-K for the year-ended December 31, 2013.

ANALYSIS OF RISK INHERENT IN OUR COMPENSATION POLICIES AND PRACTICES

The Compensation Committee has conducted a risk assessment of all of our compensation policies and practices to ensure that they do not foster risk taking above the level of risk associated with our business model. Based upon that review and a review by management of the Company's internal controls, the Compensation Committee has concluded that the Company's compensation programs do not encourage executives or other employees to take inappropriate risks that are reasonably likely to have a material adverse effect on the Company.

The Compensation Committee based its conclusion on a variety of factors, including the following specific aspects of the Company's compensation practices:

- Our annual incentive compensation program is based on balanced performance metrics that promote disciplined progress towards longer-term Company goals;
- We do not offer significant short-term incentives that might drive high-risk investments at the expense of long-term Company and shareowner value;

At the senior management and executive levels, our compensation programs are weighted towards offering

- long-term incentives that reward sustainable performance, especially when considering our vesting requirements;

and

All of our compensation awards are capped at reasonable and sustainable levels, as determined by a review of our

- economic position and prospects, as well as the compensation offered within our peer group and by comparable companies.
