UMH PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2011 (UNAUDITED)

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc. (the Company or we) owns and operates thirty-eight manufactured home communities containing approximately 8,744 sites. The communities are located in New Jersey, New York, Ohio, Pennsylvania and Tennessee. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. This company was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

The Company has elected to be taxed as a real estate investment trust (REIT) under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ended December 31, 2011. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2010.

Use of Estimates

In preparing the consolidated financial statements in accordance with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the periods then ended. Actual results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and recognized over the service period (generally equal to

8

the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$48,950 and \$98,150 have been recognized for the three and six months ended June 30, 2011, respectively, and, \$7,547 and \$15,220 for the three and six months ended June 30, 2010, respectively.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants during the six months ended June 30, 2010:

	2010
Dividend yield	9.85%
Expected volatility	22.37%
Risk-free interest rate	3.31%
Expected lives	8
Estimated forfeitures	-0-

There were no options or restricted stock granted during the six months ended June 30, 2011. The weighted-average fair value of options granted during the six months ended June 30, 2010 was \$0.32.

During the six months ended June 30, 2011, one employee exercised her stock options to purchase 10,000 shares for a total of \$75,600. As of June 30, 2011, there were options outstanding to purchase 721,000 shares and 735,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended. During the six months ended June 30, 2010, options to six employees to purchase a total of 38,000 shares expired. As of June 30, 2010, there were options outstanding to purchase 645,000 shares and 881,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended.

Recent Accounting Pronouncements

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. This ASU requires new disclosures and clarifies certain existing disclosure requirements about fair value measurements. ASU 2010-06 requires a reporting entity to disclose significant transfers in and out of Level 1 and Level 2 fair value measurements, to describe the reasons for the transfers and to present separately information about purchases, sales, issuances and settlements for fair value measurements using significant unobservable inputs. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements, which is effective for interim and annual reporting periods beginning after December 15, 2010; early adoption is

permitted. The adoption of ASU 2010-06 did not have a material impact on our financial position, results of operations or cash flows.

In July 2010, the FASB issued ASU 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses, which amends ASC Topic 310, "Receivables," which will require significant new disclosures about the allowance for credit losses and the credit quality of an entity's financing receivables. The requirements are intended to enhance transparency regarding credit losses and the credit quality of financing receivables by disclosing an evaluation of (i) the nature of credit risk inherent in the entity's portfolio of financing receivables, (ii) how that risk is analyzed and assessed in arriving at the allowance for credit losses and (iii) the changes and reasons for those changes in the allowance for credit losses. The new and amended disclosures as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. The new and amended disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. The adoption of ASU 2010-20 did not have a material impact on our financial position, results of operations or cash flows.

In December 2010, the FASB issued ASU 2010-29, Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations. ASU 2010-29 addresses the diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations. The amendments in ASU 2010-29 specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments in ASU 2010-29 also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The amendments in ASU 2010-29 are effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. The adoption of ASU 2010-29 did not have a material impact on our financial position, results of operations or cash flows.

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. The pronouncement was issued to provide a uniform framework for fair value measurements and related disclosures between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for interim and annual reporting periods beginning after December 15, 2011. The adoption of ASU 2011-04 will not have a material impact on our financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 allows an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two

separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of ASU 2011-05 will not have a material impact on our financial position, results of operations or cash flows.

NOTE 2 – NET INCOME PER SHARE AND COMPREHENSIVE INCOME

Basic net income per share is calculated by dividing net income (loss) attributable to common shareholders by the weighted average shares outstanding for the period. Diluted net income per share is calculated by dividing net income (loss) attributable to common shareholders by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method.

Options in the amount of 57,938 and 56,143 shares for the three and six months ended June 30, 2011, respectively are included in the diluted weighted average shares outstanding. Options in the amount of 49,082 and 46,009 shares for the three and six months ended June 30, 2010, respectively are included in the diluted weighted average shares outstanding. As of June 30, 2011 and 2010, options to purchase 518,000 and 432,000 shares, respectively, were antidilutive.

The following table sets forth the components of the Company's comprehensive income (loss) for the three and six months ended June 30, 2011 and 2010:

	Three Months		Six Months	
	2011	2010	2011	2010
Net income (loss) attributable to common shareholders	\$(40,152)	\$1,472,638	\$2,084,712	\$3,357,636
Change in unrealized gain on securities available for sale	1,048,195	(2,937,062)	(710,937)	1,152,881
Comprehensive income (loss)	\$1,008,043	\$(1,464,424)	\$1,373,775	\$4,510,517

NOTE 3 – INVESTMENT PROPERTY AND EQUIPMENT

On June 29, 2011, the Company acquired three manufactured home communities from ARCPA Properties, LLC, an unrelated entity, for a total purchase price of \$13,300,000. The

purchase price also included rental homes and equipment. These three all-age communities, Countryside Village in Columbia TN, Shady Hills in Nashville TN, and Trailmont in Goodlettsville TN, total 693 sites situated on 209 acres. The average occupancy for these communities is approximately 73%. The Company used proceeds from the preferred stock offering (See Note 6) to finance this acquisition.

Accounting Standards Codification (ASC) 805-10, Business Combinations, requires most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at “full fair value”. Accordingly, acquisition costs incurred, which would have previously been capitalized, are expensed currently. The Company has recognized \$135,626 and \$160,058 in professional fees and other acquisition costs in our results of operations for the three and six months ended June 30, 2011 and 2010, respectively.

NOTE 4 – SECURITIES AVAILABLE FOR SALE

The Company holds a portfolio of securities of other REITs. During the six months ended June 30, 2011, the Company sold securities with an adjusted cost of \$1,152,212 and recognized a gain on sale of \$1,541,856. The Company also made purchases of \$9,729,476 in securities available for sale. Of this amount, the Company made total purchases of 62,505 common shares of Monmouth Real Estate Investment Corporation (MREIC), a related REIT, in its Dividend Reinvestment and Stock Purchase Plan for a total cost of \$497,021 or an average cost of \$7.95 per share. As of June 30, 2011, the Company owned a total of 1,689,892 shares of MREIC at a total cost of \$13,849,397 or an average cost of \$8.20 per share.

As of June 30, 2011, the Company had five securities that were temporarily impaired. The Company considers many factors in determining whether a security is other than temporarily impaired, including the nature of the security and the cause, severity and duration of the impairment. The following is a summary of temporarily impaired securities at June 30, 2011:

	Less Than 12 Months		12 Months or Longer

Interest rates on these new lines range from prime with a minimum of 6% to prime plus 2% with a minimum of 8% after 18 months. Additionally, GE reviews the Company's inventory financing line annually and adjusts the amount of the line based upon the amount outstanding on the line. During its current review, GE reduced the line from \$6,000,000 to \$2,000,000. As of June 30, 2011 and December 31, 2010, the total amount outstanding on these lines was \$671,823 and \$3,450,951, respectively.

following the closing of any transaction referred to above, neither the Company nor the acquiring or surviving entity has a class of common securities (or ADRs representing such securities) listed on the NYSE, the NYSE Amex or NASDAQ, or listed or quoted on an exchange or quotation system that is a successor to the NYSE, NYSE Amex or NASDAQ.

Stock held, unless the Company elects to redeem the Series A Preferred Stock.

Holders of the Series A Preferred Stock generally have no voting rights, except if the Company fails to pay dividends for six or more quarterly periods, whether or not consecutive, or with respect to certain specified events.

NOTE 7 - FAIR VALUE MEASUREMENTS

In accordance with ASC 820-10, Fair Value Measurements and Disclosures, the Company measures certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of this financial asset was determined using the following inputs at June 30, 2011:

Fair Value Measurements at Reporting Date Using			
Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

Securities available for sale - 28,451,161	28,451,161	-0-	-0-

The Company is required to disclose certain information about fair values of financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a

specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's securities available for sale have quoted market prices. However, for a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties, future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents and notes receivables approximates their current carrying amounts since all such items are short-term in nature. The fair value of securities available for sale is primarily based upon quoted market values. The fair value of variable rate mortgages payable and loans payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of June 30, 2011, the fair and carrying value of fixed rate mortgages payable amounted to \$77,871,152 and \$76,288,866, respectively. The fair value of mortgages payable is based upon discounted cash flows at current market rates for instruments with similar remaining terms.

NOTE 8 - CONTINGENCIES

The Company is subject to claims and litigation in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the consolidated balance sheet or results of operations.

In May 2011, Memphis Mobile City, a 157-site community in Memphis TN, experienced heavy flooding. All residents of the community were evacuated. While, at this time, we anticipate re-opening Memphis Mobile City, we have not yet reached any final decision as to the future of this community. The net amount, including rental homes and after depreciation at which Memphis Mobile City was carried on our books at June 30, 2011 was approximately \$1 million.

In 2010, a rainstorm bringing 13 inches of rain in a two-hour period caused flooding at Memphis Mobile City. All homes owned by us were fully restored as were the homes of all residents who elected to make repairs. On May 9, 2011, we were notified that a lawsuit had been filed in the United States District Court for the Western District of Tennessee on behalf of a purported class of all individuals of Mexican national origin who are current or former residents of Memphis Mobile City. The complaint alleges various claims based on federal and state discrimination and consumer protection laws, seeking monetary damages and injunctive relief. This complaint has not yet been served. We believe the action to be without merit and plan to defend it vigorously. Our insurance company is supporting our defense of this action.

NOTE 9 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid during the six months ended June 30, 2011 and 2010 for interest was \$2,500,462 and \$2,303,392, respectively. Interest cost capitalized to Land Development was \$144,526 and \$142,442 for the six months ended June 30, 2011 and 2010, respectively.

During the six months ended June 30, 2011 and 2010, the Company had dividend reinvestments of \$846,350 and \$626,282, respectively, which required no cash transfers.

NOTE 10 – SUBSEQUENT EVENTS

Material subsequent events have been evaluated and are disclosed in the consolidated financial statements through the date these consolidated financial statements were issued.

On July 5, 2011, the Compensation Committee of the Board of Directors awarded 65,000 shares of restricted stock grants to five participants under the Company's 2003 Stock Option and Stock Award Plan. Additionally, restricted stock grants of 1,000 shares were granted to each of the nine directors of the Company. The fair value of stock awards is equal to the fair value of the Company's stock on the grant date. The grant date fair value of restricted stock grants awarded to participants in 2011 was approximately \$826,000. In accordance with ASC Topic 718, the Company recognizes compensation expense for restricted stock awards upon the explicit vesting period stated in the individual award agreements, which for fiscal 2011 had an average term of five years. The Compensation Committee also awarded stock options to purchase 80,000 shares to twelve participants.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2010.

The Company is a self-administered, self-managed, real estate investment trust (REIT) with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities – leasing manufactured home spaces on a month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to residents and prospective residents of our communities. During the six months ended June 30, 2011, we have purchased three manufactured home communities located in Tennessee for a total purchase price of \$13,300,000. The Company now owns thirty-eight communities containing approximately 8,744 sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania and Tennessee. The Company also invests in debt and equity securities of other REITs.

The Company's income primarily consists of rental and related income from the operation of its manufactured home communities. Income also includes sales of manufactured homes. Total income rose 22% and 16% for the quarter and six months ended June 30, 2011, respectively, as compared to the quarter and six months ended June 30, 2010, primarily due to the new acquisitions in 2010. Sales of manufactured homes have stabilized but continue to be disappointing due to weaknesses in the overall economy. Our customers still face difficulties in selling their existing homes. This coupled with continued high unemployment rates, has negatively impacted our sales and our gross profit percentage.

Economic growth in the US economy has moderated and high unemployment rates have persisted. However, activity in our communities has recently increased as conventional home ownership rates continue to fall. We are seeing increased demand for rental units and have added approximately 100 rental units, not including those purchased with the recent acquisitions, to selected communities.

The Company also holds a portfolio of securities of other REITs with a fair value of \$36,623,804 at June 30, 2011. The Company invests in these securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments. At June 30, 2011, the Company's portfolio consisted of 78% common stocks and 22% preferred stocks. The Company's weighted-average yield on the securities portfolio was approximately 7% at June 30, 2011.

The market for REIT securities has continued to be strong. The Company took advantage of this and realized a net gain of \$1,541,856 and \$1,684,084 on securities transactions for the six months ended June 30, 2011 and 2010, respectively. At June 30, 2011, the Company had unrealized gains of \$5,739,444 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Total expenses increased by approximately 26% and 19% for the quarter and six months, respectively, ended June 30, 2011 as compared to the quarter and six months ended June 30, 2010. This was primarily due to the new acquisitions in 2010.

Net income decreased from \$1,472,638 for the quarter ended June 30, 2010 to \$235,976 for the quarter ended June 30, 2011. Net income decreased from \$3,357,636 for the six months ended June 30, 2010 to \$2,360,840 for the six months ended June 30, 2011. Funds from operations decreased from \$2,551,774 for the quarter ended June 30, 2010 to \$1,613,377 for the quarter ended June 30, 2011. Funds from operations decreased from \$5,440,315 for the six months ended June 30, 2010 to \$5,125,311 for the six months ended June 30, 2011. Income from community operations increased from \$3,121,250 for the quarter ended June 30, 2010 to \$3,683,061 for the quarter ended June 30, 2011. Income from community operations increased from \$6,390,870 for the six months ended June 30, 2010 to \$7,378,295 for the six months ended June 30, 2011.

In spite of challenges in the broad economy, the Company continues to strengthen its balance sheet. On May 26, 2011, we issued 1,338,800 shares of 8.25% Series A Cumulative Redeemable Preferred Stock for net proceeds of \$31,861,173, after underwriting discounts of \$1,054,305 and other expenses, including legal and other professional fees, of \$554,522. With these proceeds, we have purchased three Tennessee communities and paid down certain loans and mortgages.

We have recently closed on a \$9,520,000 mortgage loan. We have extended our \$5,000,000 unsecured line of credit through August 31, 2012. We have modified and extended our \$10,000,000 revolving line of credit through June 30, 2014. We have one mortgage with a current balance of approximately \$4.6 million maturing in December 2011 and are in the process of refinancing/extending that loan.

As of June 30, 2011, the Company had approximately \$8 million in cash and cash equivalents, \$37 million in securities encumbered by \$3 million in margin loans, \$5 million available on its unsecured line of credit and \$10 million available on its revolving line of credit. The Company also has facilities totaling \$5 million to finance inventory purchases, of which \$672,000 was utilized.

The Company intends to continue to increase its real estate investments. In 2010, we added seven manufactured home communities, encompassing over 1,200 sites, to our portfolio. As of June 30, 2011, we have added three additional communities, encompassing almost 700 sites. We have been positioning ourselves for future growth and will continue to seek

opportunistic investments. However, there is no guarantee that any new opportunities will materialize or that the Company will be able to take advantage of such opportunities.

The Company believes that funds generated from operations and the DRIP, the funds available on the line of credit, together with the ability to finance and refinance its properties will provide sufficient funds to adequately meet its obligations over the next year.

See PART I, Item 1 – Business in the Company’s 2010 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Changes In Results Of Operations

Rental and related income increased 19% from \$6,771,160 for the quarter ended June 30, 2010 to \$8,047,979 for the quarter ended June 30, 2011. Rental and related income increased 19% from \$13,475,481 for the six months ended June 30, 2010 to \$15,978,189 for the six months ended June 30, 2011. This was primarily due to the acquisition of seven communities during 2010. This was partially offset by a decrease in occupancy in one of our communities in Memphis, TN due to a severe rainstorm that swept the region in May 2010, and severe flooding in May 2011. All residents of the community were evacuated in 2011. At this time, we anticipate re-opening Memphis Mobile City. Without the effect of this community, occupancy remained relatively stable at approximately 78%. The Company has faced many challenges in filling vacant homesites due to the current economic environment.

Sales of manufactured homes amounted to \$1,557,701 and \$1,091,480 for the quarters ended June 30, 2011 and 2010, respectively, an increase of 43%. Sales of manufactured homes amounted to \$2,643,945 and \$2,548,431 for the six months ended June 30, 2011 and 2010, respectively, an increase of 4%. Cost of sales of manufactured homes amounted to \$1,473,634 and \$1,057,946 for the quarters ended June 30, 2011 and 2010, respectively. Cost of sales of manufactured homes amounted to \$2,458,005 and \$2,431,979 for the six months ended June 30, 2011 and 2010, respectively. Selling expenses amounted to \$490,671 and \$397,512 for the quarters ended June 30, 2011 and 2010, respectively. Selling expenses amounted to \$875,767 and \$796,230 for the six months ended June 30, 2011 and 2010, respectively. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses) amounted to \$406,604, or 26% of total sales, for the quarter ended June 30, 2011 as compared to \$363,978, or 33% of total sales, for the quarter ended June 30, 2010. Loss from sales operations amounted to \$689,827, or 26% of total sales, for the six months ended June 30, 2011 as compared to \$679,778, or 27% of total sales, for the six months ended June 30, 2010. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of the communities.

Community operating expenses increased 20% from \$3,649,910 for the quarter ended June 30, 2010 to \$4,364,918 for the quarter ended June 30, 2011. Community operating expenses increased 21% from \$7,084,611 for the six months ended June 30, 2010 to \$8,599,894 for the six months ended June 30, 2011. This was primarily due to the acquisition

of seven communities during 2010 and an increase in personnel and related costs, and repairs and

20

maintenance. General and administrative expenses increased 38% from \$743,564 for the quarter ended June 30, 2010 to \$1,025,912 for the quarter ended June 30, 2011. General and administrative expenses increased 24% from \$1,610,292 for the six months ended June 30, 2010 to \$1,991,965 for the six months ended June 30, 2011. This was primarily due to an increase in compensation costs. Acquisition costs relating to transaction and due diligence costs associated with the acquisition of the communities in 2010 and 2011 amounted to \$135,626 and \$160,058 for the quarter and six months ended June 30, 2011 and 2010, respectively. These costs would have previously been capitalized. Depreciation expense increased 30% from \$1,070,226 for the quarter ended June 30, 2010 to \$1,394,901 for the quarter ended June 30, 2011. Depreciation expense increased 34% from \$2,088,874 for the six months ended June 30, 2010 to \$2,790,535 for the six months ended June 30, 2011. This was primarily due to the acquisition of seven communities during 2010. Amortization expense increased 45% from \$57,369 for the quarter ended June 30, 2010 to \$83,283 for the quarter ended June 30, 2011. Amortization expense increased 48% from \$108,489 for the six months ended June 30, 2010 to \$160,566 for the six months ended June 30, 2011. This was primarily due to the new mortgages in 2010 and 2011.

Interest and dividend income decreased 16% from \$1,243,060 for the quarter ended June 30, 2010 to \$1,044,593 for the quarter ended June 30, 2011. Interest and dividend decreased 10% from \$2,320,672 for the six months ended June 30, 2010 to \$2,087,808 for the six months ended June 30, 2011. This was primarily due to a decrease in the average balance of notes receivables.

Gain on securities transactions, net amounted to \$-0- for the quarter ended June 30, 2011, as compared to \$702,169 for the quarter ended June 30, 2010 and \$1,541,856 for the six months ended June 30, 2011, as compared to \$1,684,084 for the six months ended June 30, 2010. The market for REIT securities has continued to be strong. At June 30, 2011, the Company had unrealized gains of \$5,739,444 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Interest expense increased 22% from \$1,212,270 for the quarter ended June 30, 2010 to \$1,474,200 for the quarter ended June 30, 2011. Interest expense increased 20% from \$2,432,175 for the six months ended June 30, 2010 to \$2,929,906 for the six months ended June 30, 2011. This was primarily due to an increase in mortgages payable due to the new mortgages for the 2010 acquisitions.

Changes in Financial Condition

Total investment property and equipment increased 9% or \$15,372,495 during the six months ended June 30, 2011. This increase was primarily due to the acquisition of the three manufactured home communities in Tennessee for a total purchase price of approximately \$13,300,000. The Company also added approximately 100 rental units, not including those purchased with the recent acquisitions, to selected communities.

Securities available for sale increased 27% or \$7,866,327 during the six months ended June 30, 2011. This increase was due primarily to purchases of \$9,729,476, partially offset by the sales

of securities with a cost of \$1,152,212 and a decrease in unrealized gain of \$710,937.

Inventory of manufactured homes remained relatively stable. Because conventional home ownership rates continue to decline, the Company is optimistic about future sales and rental prospects.

Mortgages payable increased 5% or \$4,588,046 during the six months ended June 30, 2011. This increase was due to a new \$9,520,000 mortgage partially offset by principal repayments of \$4,931,954, including the repayment of one mortgage with a balance of approximately \$3.8 million.

Loans payable decreased 85% or \$18,858,910 during the six months ended June 30, 2011. This decrease was primarily due to proceeds from the new mortgage and, in part, proceeds from the preferred stock offering, being used to pay down the margin loans and the lines of credit.

On May 26, 2011, the Company issued 1,338,800 shares of 8.25% Series A Cumulative Redeemable Preferred Stock for net proceeds of \$31,861,173, after underwriting discounts of \$1,054,305 and other expenses, including legal and other professional fees, of \$554,522. With these proceeds, we have purchased three Tennessee communities and paid down certain loans and mortgages. The Company intends to make additional acquisitions when opportunities arise. On July 5, 2011, the Board of Directors declared a preferred stock dividend for the period commencing May 26, 2011 and ending August 31, 2011, of \$.55 per share on the Series A Preferred Stock to be paid on September 15, 2011 to shareholders of record, August 15, 2011.

The Company raised \$8,185,453 from the issuance of shares in the DRIP during the six months ended June 30, 2011, which included dividend reinvestments of \$846,350. Dividends paid on the common stock for the six months ended June 30, 2011 were \$5,119,394 of which \$846,350 was reinvested. On July 5, 2011, the Company declared a common stock dividend of \$0.18 per common share to be paid September 15, 2011 to common shareholders of record as of August 15, 2011.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its line of credit, refinance debt, or raise capital through the DRIP or capital markets.

Liquidity And Capital Resources

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt

service, purchases of manufactured home inventory, investment in debt and equity securities of other REITs and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

Net cash provided by operating activities amounted to \$4,368,380 and \$2,759,865 for the six months ended June 30, 2011 and 2010, respectively.

As of June 30, 2011, the Company had approximately \$8 million in cash, \$37 million in securities encumbered by \$3 million in margin loans, \$5 million available on its unsecured line of credit and \$10 million available on its revolving line of credit, and facilities totaling \$5 million to finance inventory purchases, of which \$672,000 was utilized. The Company also owns 38 properties, of which 17 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital by accessing the capital markets and through its DRIP. The Company believes that funds generated from operations, the capital markets, the DRIP, the funds available on the lines of credit, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next several years.

The Company has one mortgage with a balance of approximately \$4,600,000 maturing in December 2011. We are currently in the process of refinancing/extending this mortgage and are optimistic that we will be successful.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from Operations (FFO) is defined as net income excluding preferred dividends and gains (or losses) from sales of depreciable assets, plus depreciation. FFO should be considered as a supplemental measure of operating performance used by real estate investment trust (REITs). FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding and assessing the Company's financial performance. FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three and six months ended June 30, 2011 and 2010 is calculated as follows:

	Three Months		Six Months	
	2011	2010	2011	2010
Net Income	\$235,976	\$1,472,638	\$2,360,840	\$3,357,636
