Telenor's revenues excluding gains increased by 15.9% to NOK 15,610 million. Adjusted for the effects of acquisitions and disposals of operations and currency fluctuations, the growth in revenues was just above 7%.

EBITDA increased by NOK 713 million to NOK 5,605 million. Telenor's EBITDA margin adjusted for special items was 36.1% compared to 37.2%.

Telenor's operating profit increased by NOK 300 million to NOK 2,600 million. Profit before taxes and minority interests increased by NOK 659 million to NOK 2,664 million. Net income per share increased by NOK 0.10 to NOK 0.82.

In Broadcast, at the end of the third quarter of 2004 the number of subscribers with satellite dish exceeded 800,000 in the Nordic area. EBITDA increased by NOK 105 million to NOK 424 million.

market share for fixed line telephony in Norway measured in traffic minutes was sustained from previous quarters at 69%.

Capital expenditure was NOK 3,140 million compared with NOK 1,460 million in the third quarter of 2003 mainly as a consequence of increased network investments in Mobile due to strong subscriber growth and the purchase of an ownership interest in a satellite in Broadcast.

Net interest-bearing liabilities were NOK 20.6 billion, a reduction of NOK 1.4 billion from the second quarter of 2004.

In the third quarter of 2004 Telenor purchased 3,000,000 own shares in the market for NOK 145 million. So far in 2004, Telenor has purchased shares for NOK 2.85 billion, including shares, which according to an agreement, have been or will be purchased from the Kingdom of Norway.

The Intelsat AGM has approved the agreement involving today's shareholders selling their shares to private investors for \$18.75 a share. Telenor has approximately 6.9 million shares in Intelsat. The sale will give Telenor a book profit of around NOK 400 million. The settlement for the shares will be in cash, and is expected to be concluded around year-end 2004.

**Outlook:**

Telenor confirms its expectations for 2004 as presented in Telenor's report for the second quarter of 2004 of a continued positive development in Telenor's results compared to 2003. This also applies to the fourth quarter of 2004.

Continued growth in revenues is expected, in particular driven by the international mobile operations, where we experience a strong growth in the customer base in several markets.

The EBITDA margin for 2004 is expected to be in line with 2003, excluding special items. This includes the consolidation of Sonofon and the establishment of mobile operations in Pakistan. This expectation is based on, among other factors, the effects of increased marketing efforts to secure growth in several of our mobile operations. Capital expenditure in the fourth quarter is expected to be higher than in the fourth quarter of 2003 due to expectations of continued high network investments in Telenor's international mobile operations.
