Converium Holding Ltd, Zug

Zug, Switzerland - October 26, 2004 - Converium today reports on its financial results for the third quarter of 2004.

Converium reports a third quarter 2004 loss of US\$ 116.3 million. This result reflects the continuing satisfactory underlying performance of its in-force book and a number of previously announced extraordinary charges. The main items are an additional reserve strengthening of US\$ 96.4 million net based on an in-depth analysis of Tillinghast's actuarial review, losses of US\$ 95.8 million from an unusual cumulation of hurricanes and typhoons and a US\$ 20.0 million expense for a retrospective stop-loss retrocession cover purchased from National Indemnity Company. Adjusted for the reserve action and natural catastrophes, Converium recorded a third quarter non-life combined ratio of 96.0%, which testifies to the favorable performance of the Company's more recent underwriting years. In addition, investment activities continued to exhibit very satisfactory results, with total investment income yield improving further to 4.9%.

Third quarter 2004 highlights

o	Operating loss:	US\$ -125
o	Impact from reserve strengthening and hurricanes/typhoons:	US\$ -192
o	Net loss:	US\$ -116
o	Gross premiums written:	US\$ 1,03
o	Non-life combined ratio:	117.3%
o	Impact from reserve strengthening and hurricanes/typhoons:	21.3%
o	Adjusted non-life combined ratio:	96.0%
o	Total investment income yield:	4.9%
o	Shareholders' equity:	US\$ 1,27
o	Cash flows:	US\$ 21.1

Overview of third quarter performance and short-term outlook

The following developments had measurable effects on Converium's third quarter 2004 financial results:

- o The business written by Converium in the underwriting years 2002, 2003, and 2004 continued to show a satisfactory performance, both for the non-life segments as well as for the Life & Health Reinsurance segment. Excluding prior years' reserves, the non-life combined ratio was 106.6% (including a 10.6% impact by hurricanes and typhoons) for the third quarter 2004, respectively 98.3% for the first nine months of 2004.
- o Following a detailed analysis of the specific conclusions in Tillinghast's actuarial study, Converium has - as anticipated on August 31, 2004 - made additional adjustments to carried reserves aggregating to a net increase of US\$ 96.4 million net in the third quarter of 2004. This amount equals 1.3% of Converium's non-life net reserves as of September 30, 2004. The reserve strengthening primarily arose from prior years' North American professional liability, umbrella, excess & surplus, workers' compensation, and non-US

Edgar Filing: CONVERIUM HOLDING AG - Form 6-K

motor liability business. It added 10.7 percentage points to the quarter's non-life combined ratio.

- o Since June 30, 2004, Converium has commuted approximately US\$ 265.0 million in loss reserves related to prior years' business assumed by the Company's North American operation, Converium Reinsurance (North America) Inc. ("CRNA"), with a corresponding reduction in cash and invested assets. Currently, CRNA is in negotiations with several clients for additional offers of commutation, and is pursuing these diligently. The third quarter reserve adjustment of US\$ 96.4 million net takes into account recent commutations. In general, commutations can accelerate the realization of profit inherent in long-tail reserves by crystallizing outstanding claims reserves into payments, which are discounted to reflect the time value of money. Since commutation payments essentially reflect a discounted present value of future cash flows, future investment income earned will decline as the assets backing those reserves are liquidated to make payments.

2

- o As announced on August 31, 2004, Converium has acquired a retrospective stop-loss retrocession cover from National Indemnity Company, a Standard & Poor's AAA-rated member of the Berkshire Hathaway group of insurance companies. The cost of this cover represents a one-off charge to the third quarter of 2004 of US\$ 20.0 million.
- o Net losses from Hurricanes Charley, Frances, Ivan and Jeanne and typhoons in Japan amounted to US\$ 95.8 million and added 10.6 percentage points to the quarter's non-life combined ratio.
- o In the third quarter of 2004 Converium has incurred restructuring charges of US\$ 3.4 million related to severance payments and the discontinuation of the Company's North American operations.

Against this backdrop there is a marked difference between Converium's reported results and its performance adjusted for the various extraordinary items. For the third quarter 2004 Converium reported an operating loss of US\$ 125.0 million and a net loss of US\$ 116.3 million that reflect total charges of US\$ 215.6 million due to an additional strengthening of reserves, losses from hurricanes and typhoons, the cost of a retrospective stop-loss cover and restructuring charges.

The increase in gross premiums written, net premiums written, and net premiums earned in the third quarter of 2004 (by 2.3%, 5.2% and 10.4%, respectively) reflects market conditions, new client relationships in certain key markets and the weakening of the US\$ compared to other major currencies; special terminations did not materially impact the quarter's top line.

Converium reports a non-life combined ratio of 117.3% for the third quarter of 2004. Adjusted for the additional strengthening of reserves by US\$ 96.4 million net and the losses from hurricanes and typhoons of US\$ 95.8 million, the non-life combined ratio was 96.0%, which is indicative of a continuing favorable performance of recent underwriting years.

Converium's Life & Health Reinsurance segment reported a segment income of US\$ 5.7 million, an improvement of US\$ 20.5 million compared to the same period of the previous year, when Converium recorded an adverse development of its Guaranteed Minimum Death Benefits (GMDB) book. No further reserving actions were required for GMDB in 2004.

Converium's investment results continued to improve markedly. The Company's

Edgar Filing: CONVERIUM HOLDING AG - Form 6-K

net investment income increased for the three and nine months ended September 30, 2004 as compared to the same periods of 2003. This increase largely resulted from growth in invested assets over 2003, particularly in Converium's fixed-maturities portfolio, as well as income received from the transition of a fixed-income bond to a direct fixed-income investment portfolio.

The Company's average annualized net investment income yield (pre-tax) was 3.9% and 3.8% for the three and nine months ended September 30, 2004, respectively, as compared to 3.0% and 3.4% for the same periods of 2003, reflecting increasing interest rates in 2004.

Converium's average annualized total investment income yield (pre-tax) was 4.9% and 4.5% for the three and nine months ended September 30, 2004, respectively, as compared to 2.9% and 3.5% for the same periods of 2003. During the third quarter 2004, the total investment income yields were positively impacted by the increase in realized gains as well as the decline in impairment charges compared to 2003 resulting from the sale of equity securities to adjust our asset allocation to reduce investment portfolio risks.

Converium has reached an agreement in principle on the main terms of a new US\$ 1.6 billion credit facility, comprising a US\$ 1.5 billion tranche for letter-of-credit issuance and a US\$ 0.1 billion stand-by revolving credit tranche with its principal international relationship banks. The parties intend to finalize the transaction by mid-November 2004. This facility will replace the existing syndicated credit line of US\$ 0.9 billion that was signed in July 2003.

The Company believes that its "BBB+" rating from Standard & Poor's and the availability of adequate letter-of-credit facilities will support Converium's efforts to maintain its franchise in its European, Asian and Latin American target markets and to retain relationships with key clients and intermediaries in the upcoming January 2005 renewals.

Business Development

The following are comments on the development of Converium's three main business segments and the Corporate Center. Reference is made to the tables attached to this press release.

Standard Property & Casualty Reinsurance represented approximately 38.7% of total net premiums written in the third quarter of 2004. For this period of time Converium's Standard Property & Casualty Reinsurance segment reported a segment income of US\$ 18.9 million, a decline of US\$ 31.9 million compared to the same period of the previous year.

In the third quarter of 2004 gross premiums written increased by 6.3% to US\$ 407.4 million, net premiums written increased by 6.6% to US\$ 361.2 million, and net premiums earned decreased by 0.2% to US\$ 422.1 million. The Standard Property & Casualty Reinsurance segment's non-life combined ratio was 105.0% for the third quarter of 2004 (compared to 93.7% for the third quarter of 2003). The results were substantially influenced by hurricanes Charley, Frances, Ivan and Jeanne and Japanese typhoons which generated losses of US\$ 95.8 million and added 22.7 percentage points to the segment's third quarter loss ratio.

For the third quarter of 2004, the Standard Property & Casualty Reinsurance segment recorded a positive reserve development of US\$31.8 million. This favorable development primarily related to property (US\$ 31.5 million) and general third party liability (US\$ 45.6 million) and was partially offset by reserve strengthening, mainly for motor outside the United States (US\$ 45.8 million).

For the nine months ended September 30, 2004, gross premiums written increased 7.2% to US\$ 1,483.5 million, net premiums written increased 5.5% to US\$ 1,349.7 million and net premiums earned increased 6.0% to US\$ 1,282.3 million.

For the nine months ended September 30, 2004, net premiums written growth in the Standard Property & Casualty Reinsurance segment by lines of business included:

6

- o Motor (increased by 17.1% or US\$ 66.3 million to US\$ 454.0 million), which grew as a result of the expansion of motor business in Western Europe;
- o Personal accident non-life (increased by 15.5% or US\$ 4.1 million to US\$ 30.7 million), which expanded on the back of new or extended relationships with cedents in Italy and a number of other European countries; and
- o General third party liability (increased by 18.1% or US\$ 48.8 million to US\$ 317.9 million), which grew mainly due to continuing rate increases and new business.

These increases were partially offset by a decrease in net premiums written within the property line of business. Property contracted by 8.3% or US\$ 49.3 million to US\$ 547.1 million, which was primarily driven by the softening of property rates and a consequent non-renewal of several large contracts in North America, and by reduced premium writings with cedents in Asia and Latin America.

Specialty Lines represented approximately 49.1% of total net premiums

Edgar Filing: CONVERIUM HOLDING AG - Form 6-K

written in the third quarter of 2004. For this period of time Converium's Specialty Lines segment reported a segment loss of US\$ 81.2 million. In the third quarter of 2004, gross premiums written decreased by 6.7% to US\$ 506.9 million, and net premiums written decreased by 3.5% to US\$ 458.3 million; net premiums earned increased by 17.2% to US\$ 478.3 million. These developments reflect the strict underwriting discipline and cycle management applied by Converium. The Specialty Lines segment's non-life combined ratio was 128.2% for the third quarter of 2004.

Specialty Lines reported a segment loss which was primarily attributable to reserve additions. In the third quarter of 2004, US\$ 128.2 million of reserve strengthening were recorded, which added 26.8 percentage points to the segment's loss ratio. The strengthening arose mainly from workers' compensation (US\$ 26.9 million) and from the professional liability & other special liability lines, in particular umbrella, professional liability and excess & surplus lines of business in the United States (US\$ 101.9 million).

For the nine months ended September 30, 2004, gross premiums written increased 2.9% to US\$ 1,577.3 million, net premiums written increased 4.9% to US\$ 1,473.9 million and net premiums earned increased 13.3% to US\$ 1,395.2 million.

For the nine months ended September 30, 2004, the Specialty Lines segment exhibited the following growth dynamics:

- o Professional liability and other special liability (increased by 7.0% or US\$ 34.4 million to US\$ 528.6 million), which grew as a result of new business written and an increase in premium volume for Converium's Medical Defence Union (MDU) business;
- o Agribusiness (increased by 34.2% or US\$ 22.4 million to US\$ 88.0 million), which expanded as new business was written as well as return premium received on a specific contract due to favorable technical results; and
- o Aviation & space (increased by 8.6% or US\$ 23.0 million to US\$ 289.7 million), which grew as a result of an increased net retention in the business underwritten by Global Aerospace Underwriting Managers Ltd.

Life & Health Reinsurance represented approximately 12.2% of total net premiums written in the third quarter of 2004. For this period of time Converium's Life & Health Reinsurance segment reported a segment income of US\$ 5.7 million, an increase of US\$ 20.5 million compared to the same period of the previous year.

In the third quarter of 2004 gross premiums written increased by 43.9% to US\$ 119.0 million, net premiums written increased by 54.9% to US\$ 114.3 million, and net premiums earned increased by 29.7% to US\$ 113.5 million.

Life & Health Reinsurance reported a segment income for the nine months ended September 30, 2004 as compared to a segment loss for the same period in 2003. The technical result increased from minus US\$ 12.6 million to US\$ 5.2 million for the same period. The increases in 2004 were primarily attributable to:

- o Strong growth in premium volume driven by the expansion of existing financing reinsurance transactions in Continental Europe and increased shares of current business; and
- o The development of Converium's GMDB book during the first nine months of 2004 as compared to 2003. Whereas in the first nine months of 2003 reserves were strengthened by US\$ 22.6 million, no actions were required in 2004.

For the nine months ended September 30, 2004, gross premiums written increased 25.6% to US\$ 383.7 million, net premiums written increased 25.0% to US\$ 357.6 million and net premiums earned increased 24.0% to US\$ 339.3 million. Converium continues to build its Life & Health Reinsurance operations in order to further reduce the volatility of the Company's net income, because life and health reinsurance has a low correlation to property and casualty risk and can therefore improve risk diversification.

The Corporate Center carries certain administration expenses such as the costs of the Board of Directors, the Global Executive Committee, and other global functions. In the third quarter of 2004 other operating and administration expenses were US\$ 8.2 million (an increase of 1.2% as compared to the same period in 2003).

Rights Offering

In October 2004, Converium's share capital was increased by CHF 533,416,225 by issuing 106,683,245 shares at CHF 5.00 each. The capital increase (and reduction of the nominal value) was recorded, in the Commercial Register of the Canton of Zug (Switzerland) on October 12, 2004. After the registration of the share capital increase in the Commercial Register of the Canton of Zug, Converium's issued outstanding share capital is now CHF 733,447,310, divided into 146,689,462 shares with a nominal value of CHF 5.00. The capital increase brings Converium's total tangible capital close to the level of December 31, 2003.

After the reduction of the nominal value from CHF 10 to CHF 5 for each of Converium's shares, its conditional capital is now CHF 20,000,000 pursuant to which up to 4,000,000 shares can be issued upon exercise of conversion or option rights allotted in connection with bonds and other financial market instruments. Similarly, Converium's authorized capital is now CHF 20,000,000 pursuant to which the Board is authorized to issue up to 4,000,000 shares.
