

**Item 7.01 Regulation FD Disclosure**

On October 26, 2009, Antigenics Inc. announced that the Brain Tumor Research Center at the University of California, San Francisco (UCSF), has presented an update on a Phase 2 clinical trial of Oncophage (vitespen) for recurrent high grade glioma (brain cancer) at the 2009 Joint Meeting of SNO (Society for Neuro-Oncology) and AANS/CNS Section on Tumors 2009 in New Orleans, LA. Data were presented in Sunrise Session #6: Immunotherapy: Current Status of Clinical Trials on Saturday, October 24.

Data reported in the first 20 patients treated with Oncophage show a median survival of 10.1 months. While survival data continues to accrue on all patients in the study, to date six patients (30 percent) have survived at or beyond 12 months.

The full text of the press release issued in connection with the announcement is being furnished as Exhibit 99.1 to this current report on Form 8-K.
