Item 2.05 Costs Associated With Exit or Disposal Activities.

On October 11, 2011, Verso Paper Corp. (“Verso”) announced that it will permanently reduce its annual production capacity by 193,000 tons. The capacity reduction will be accomplished by the permanent shutdown of the No. 2 coated groundwood paper machine at Verso’s mill in Bucksport, Maine, effective October 23, 2011, and the No. 1 and No. 2 supercalendered (“SC”) paper machines at its mill in Sartell, Minnesota, effective December 14, 2011.

The shutdown of the No. 2 paper machine at the Bucksport mill will reduce Verso’s annual coated groundwood capacity by 90,000 tons or approximately 10 percent. The Bucksport mill’s workforce will be reduced by approximately 125 employees. The shutdown of the No. 1 and No. 2 paper machines at the Sartell mill will eliminate approximately 103,000 tons annually of SCA and SCB paper capacity. The Sartell mill’s workforce will be reduced by approximately 175 employees.

The paper machine shutdowns will result in an aggregate pre-tax charge to earnings of approximately \$22 million, which is expected to occur primarily in the fourth quarter of 2011. This includes approximately \$13 million for severance and benefit costs; approximately \$7 million in non-cash charges related to the accelerated depreciation of property and equipment over a reduced remaining useful life and the write-off of related spare parts; and approximately \$2 million related to other costs. The severance and other shutdown costs require the outlay of cash, which is expected to occur primarily in the fourth quarter of 2011.

Costs associated with shutdown activities are based on currently available information and reflect management’s best estimates; accordingly, actual cash costs and non-cash charges and their timing may differ from the projections stated above.

A copy of the news release issued by Verso on October 11, 2011, is included as Exhibit 99.1 to this report.
