Hawthorne, NY, August 6, 2012 - Taro Pharmaceutical Industries Ltd. (NYSE: TARO) (“Taro” or the “Company”) today provided unaudited financial results for the three month period ended June 30, 2012.

As a result, the financial results contained in this release represent the first quarter of the Company's new fiscal year ending March 31, 2013.

Cash Flow and Balance Sheet Highlights

Cash flow provided by operations was \$19.2 million compared to \$33.3 million, primarily due to the payment of income taxes as reflected in the significant decrease in trade and other payables

Cash, including marketable securities, increased \$18.3 million to \$352.6 million from March 31, 2012.

Mr. Kal Sundaram, Taro's Chairman stated, “We are pleased to present this quarter's results to Taro's shareholders, reflecting a good performance despite the prevailing economic uncertainties in our major markets. We are also pleased to note the increased R&D spend which is essential to keep us competitive in the long-term. However, we remain cautious of the increasing competition and consequential erosion of volume on some of our major products and the challenge in maintaining current performance.”
