ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT
ITEM 2.01 COMPLETION OF ACQUISITION OR DISPOSITION OF ASSETS.

On October 15, 2006 our wholly owned subsidiary, CDI China, Inc. ("CDI

Edgar Filing: China Direct, Inc - Form 8-K

China"), entered into an acquisition agreement with Chang Magnesium Company, Limited., a Chinese limited liability company ("Chang Magnesium"), and its parent, Taiyuan YiWei Magnesium Co., Ltd. ("Taiyuan YiWei Magnesium"). Under the terms of the agreement, CDI China was to acquire a 51% equity ownership of Chang Magnesium from Taiyuan YiWei Magnesium in exchange for a total capital contribution to Chang Magnesium of \$2,550,000, of which \$1,000,000 is to be made 10 days after the closing, an additional \$800,000 is to be made on or before September 30, 2007, and the remaining \$750,000 is to be made on or before December 31, 2007. The closing of the transaction was subject to receipt by us of audited financial statements of the operating entity and the contribution to Chang Magnesium by Taiyuan YiWei Magnesium of property, plant or equipment of at least \$2,450,000.

On December 22, 2006 the transaction closed pursuant to its terms.

Following the closing, Taiyuan YiWei Magnesium retains a 49% equity interest in Chang Magnesium. On the closing date Mr. Yuwei Huang entered into an employment agreement with Chang Magnesium and CDI Shanghai Management Company, Ltd., a wholly owned subsidiary of CDI China, to serve as CEO of Chang Magnesium and an Executive Vice President of CDI Shanghai Management pursuant to which he is responsible for the day to day operations of Chang Magnesium. Under the terms of the one year agreement he will not receive any salary.

Our operations are presently conducted within two operating segments, CDI China and China Direct Consulting. CDI China operates as a management company for Chinese entities in which we have acquired a majority interest. China Direct Consulting is a full service advisory division specializing in companies based in and operating within the People's Republic of China and which are traded on the U.S. public markets. We intend that Chang Magnesium, which includes the operations of its wholly-owned subsidiary Taiyuan Changxin YiWei Trading Co., Ltd. ("Changxin Trading"), will operate as a segment within CDI China. Changxin Trading reported net revenues of \$23,622,221 and \$15,957,667 for the fiscal year ended December 31, 2005 and the nine months ended September 30, 2006, and net income of \$516,443 and \$336,174, respectively, for those periods. Chang Magnesium has not yet generated any revenues from its proposed operations. The financial statements included elsewhere herein reflect the operations of Changxin Trading for the periods presented.

About Chang Magnesium

Chang Magnesium was formed in March 2006 by Taiyuan YiWei Magnesium to operate a newly constructed magnesium plant that will process and manufacture a variety of magnesium by-products, including magnesium powder, magnesium scrap, magnesium alloy and various grades of magnesium slabs. Taiyuan YiWei Magnesium owns interests in seven subsidiary magnesium factories, a magnesium alloy factory and a magnesium powder desulphurization reagent factory, all located in China. It is generally regarded as the largest exporter of magnesium products in China and the second largest producer in China. Following our acquisition of Chang Magnesium as described above, Mr. Yuwei Huang, Taiyuan YiWei Magnesium's Chairman, will serve as Chang Magnesium's CEO and an Executive Vice President for CDI Shanghai Management Co. Ltd.

In June 2006 Taiyuan YiWei Magnesium contributed property, plant and equipment valued at \$2,567,353, which represented all the assets related to the magnesium plant, to Chang Magnesium. This satisfied one condition preceding to the closing of our acquisition of a majority interest in Chang Magnesium as described above. In June 2006 Chang Magnesium acquired 100% of Changxin Trading from Taiyuan YiWei Magnesium for approximately \$125. Changxin Trading, which was formed in November 2003, is an exporter of magnesium products.

Edgar Filing: China Direct, Inc - Form 8-K

The newly constructed magnesium plant from which Chang Magnesium will operate is located in the Aluminum & Magnesium Industrial Park in Yangqu County, of the Shangxi Province. According to the China Magnesium Industry Report 2005 (March 2006) China, which has been the world's leading magnesium producer for the past eight years, has in excess of 100 magnesium manufacturers with approximately 468,000 metric tons production in 2005. Raw magnesium production volume increased 139% from 2000 to 2005; the production of magnesium ingot increased 345.5% and magnesium powder increased 89.04% in the same time period.

Most of the magnesium in China is produced in the Shanxi Province which has abundant resources of dolomite, large coal deposits and some ferrosilicon production. In recent years, the Shangxi Province has taken a leadership position in China in various aspects of magnesium extraction technology and related environmental protection work and officials from the Ministry of Commerce (MOC) have designated the Shanxi Province as the central magnesium production region of China.

As a result the Shangxi Province has emerged as an important region for magnesium related companies. The annual output of magnesium in the Shangxi Province is approximately 360,000 metric tons, accounting for 55% of the world's total magnesium output, and 77% of the total output in China. As such the manufacturers in the region have a degree of pricing power of magnesium in both domestic and international markets.

Chang Magnesium owns the buildings and all the equipment located at the plant. The land use rights are owned by Taiyuan Sanxing Coal Gasification Co., Ltd ("Sanxing"), an unrelated third party. Sanxing has granted Chang Magnesium with the land use rights through 2021 at no cost. The plant is approximately 250,000 square feet and has an annual production capacity of 6,000 metric tons of magnesium and related magnesium products.

The plant has the ability to process and manufacture a variety of magnesium by-products, including magnesium powder, magnesium scrap, magnesium alloy and various grades of magnesium slabs, which Chang Magnesium expects to sell in bulk. Chang Magnesium expects to produce magnesium ingot with a magnesium element in excess of 99.95% and it intends to produce 10 specifications of magnesium ingot ranging in size from 2 kg to 150 kg. It is anticipated that Chang Magnesium will produce magnesium alloy which meets ASTM International standards.

It is estimated that approximately 80% of Chang Magnesium's annual revenue from the plant will be related to sales of magnesium ingot and approximately 20% from sales of magnesium powder, magnesium scraps, magnesium alloy and other magnesium related products. Chang Magnesium will sell its products directly in the global market through its subsidiary Changxin Trading. Chang Magnesium expects the plant to commence operations in January 2007.

Changxin Trading is an exporter of magnesium products including magnesium powder, magnesium scrap, magnesium alloy and various grades of ordinary magnesium slabs. It purchases product from a number of suppliers, including several related parties.

According to webelements.com, the Chinese government has recently eliminated the VAT (value added tax) rebate on magnesium. Previously industry participants were eligible for a 5% tax credit on magnesium exports. The elimination of the tax credit has effectively increased market prices on magnesium and currently the market price is approximately \$2,100 per metric ton on the European market. Changxin Trading exported 40,000 metric tons of

Edgar Filing: China Direct, Inc - Form 8-K

magnesium products in fiscal 2005, representing approximately 10% of China's magnesium-related exports. Changxin Trading is reliant on a limited number of customers which are located in the United States, Canada, Australia and Japan. For fiscal 2005 one customer represented approximately 10% of Changxin Trading's revenues.

Changxin Trading's operations are located at Yifen Street, Maite Moore Business Center Suite 910 Taiyuan, China 030006

At December 22, 2006 Chang Magnesium had 35 full-time employees, including its executive officer, which included 29 employees related to the magnesium plant and six at Changxin Trading.

Chang Magnesium was formed as a new Sino-American joint venture. As a Sino-American joint venture, it is governed by the Income Tax Law of the Peoples Republic of China concerning Foreign Investment Enterprises and Foreign Enterprises and local income tax laws pursuant to which foreign invested enterprises are subject to two-year tax exemption from the first profitable year after the joint venture is established and are subject to three-year tax at a statutory rate of 15% from the third profitable year.

As an exporter of goods, Changxin Trading receives cash incentives from the central government of up to 14% to 15% of the gross amount of goods exported to encourage the export of goods from China. As a result of this government incentive, from time to time, Changxin Trading may export goods at its cost or at a loss up to the amount of the government incentive. For the fiscal year ended December 31, 2005 and the nine months ended September 30, 2006 these incentives totaled \$2,543,606 and \$1,331,401,

From time to time Changxin Trading has engaged in transactions with related parties, including:

- o it purchases products from Taiyuan YiWei Magnesium and its affiliated entities (collectively, the "Taiyuan YiWei Magnesium Group") for resale to its customers. For the fiscal year ended December 31, 2005 and the nine months ended September 30, 2006, Changxin Trading purchased \$11,050,596 and \$6,214,588, respectively, of products from the Taiyuan YiWei Magnesium Group for resale. At December 31, 2005 and September 30, 2006, Changxin Trading owed the Taiyuan YiWei Magnesium Group \$1,264,765 and \$994,444, respectively, for these purchases,

- o from time to time Changxin Trading would receive working capital advances from, or make working capital advances to, Taiyuan YiWei Magnesium and its affiliates. The advances were non-interest bearing, unsecured and due on demand. At December 31, 2005 Changxin Trading's financial statements which appear elsewhere in this report reflect an aggregate of \$640,981 due from related parties, which includes \$619,153 due from Taiyuan YiWei Magnesium and its affiliates. At December 31, 2005 Changxin Trading did not owe Taiyuan YiWei Magnesium or its affiliates any funds for working capital advances. At September 30, 2006 Changxin Trading owed Taiyuan YiWei Magnesium or its affiliates \$303,080 and Changxin Trading was not owed any funds by these entities,

4

- o from time to time Changxin Trading also advances funds to its executive officers. At December 31, 2005 and September 30, 2006 these executive officers owed Changxin Trading \$21,828 and \$22,260, respectively. These amounts are non-interest bearing, unsecured and due on demand.

TAIYUAN CHANGXIN YIWEI TRADING COMPANY, LIMITED
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2005 AND 2004

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

THE COMPANY

Taiyuan Changxin YiWei Trading Co., Ltd., a Chinese limited liability company, is referred to in this report as the "Company", "Changxin Trading", "we", "us" or "our".

Taiyuan Changxin YiWei Trading Co., Ltd. ("Changxin Trading"), a Chinese limited liability company, was established November 23, 2003. Changxin Trading is a reseller, distributor and exporter of magnesium products.

Changxin Trading resells various forms of magnesium including but not limited to magnesium powder, magnesium scrap, magnesium alloy and various grades of ordinary magnesium slabs. Changxin Trading resells magnesium products locally within China and exports magnesium from China. Changxin Trading has forged relationships with global magnesium consumers. In the past Changxin Trading has supplied various magnesium related products to Alcoa Inc. (United States), Alcan, Inc. (Canada), Capral (Australia), and Japan Materials Co., Ltd. Approximately 70% of Changxin Trading revenues are derived from the distribution of magnesium slabs. Changxin Trading exported 40,000 metric tons in 2005, representing approximately 10% of China magnesium related exports.

In March 2006, Chang Magnesium Co. Ltd. ("Chang Magnesium") was formed by Taiyuan YiWei Magnesium Co., Ltd. ("Taiyuan YiWei Magnesium")

In June 2006 Chang Magnesium acquired 100% of Changxin Trading from Taiyuan YiWei Magnesium for approximately \$125. As a result Changxin Trading is a wholly owned subsidiary of Chang Magnesium.

In June 2006 Taiyuan YiWei Magnesium contributed property, plant and equipment valued at \$2,567,353, which represented all the assets related to the magnesium plant, to Chang Magnesium. Chang Magnesium was formed by Taiyuan YiWei Magnesium to operate a newly constructed magnesium plant that will process and manufacture a variety of magnesium by-products, including magnesium powder, magnesium scrap, magnesium alloy and various grades of magnesium slabs.

Taiyuan YiWei Magnesium is a diversified magnesium organization which owns interests in seven subsidiary magnesium factories, a magnesium alloy factory and a magnesium powder desulfurization reagent factory, all located in China. China

It is anticipated that Chang Magnesium will produce magnesium alloy which meets ASTM International standards.

On October 15, 2006 our wholly owned subsidiary, CDI China, Inc. ("CDI China"), entered into an acquisition agreement with Chang Magnesium. Under the terms of the agreement CDI China agreed to infuse \$1,000,000 to Chang Magnesium ("Initial Funds") 10 days post closing. On or before September 30, 2007, CDI China shall deliver \$800,000 of investment capital to Chang Magnesium, on or before December 31, 2007 CDI China shall deliver \$750,000 of investment capital to Chang Magnesium. The closing of the transaction was subject to audited financial statements for Chang Magnesium which reflected a contribution to Chang Magnesium by Taiyuan YiWei Magnesium of property, plant or equipment with a minimum value of \$2,450,000. On June 1, 2006 Taiyuan YiWei Magnesium contributed property, plant and equipment valued at \$2,567,353, which represented all the assets related to the magnesium plant, to Chang Magnesium.

On December 22, 2006 the transaction closed pursuant to its terms. As a result CDI China holds a 51% majority interest in Chang Magnesium.

Changxin Trading classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents.

ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable consists primarily of amounts due to Changxin Trading from normal business activities. Changxin Trading maintains an allowance for doubtful accounts to reflect the expected non-collection of accounts receivable based on past collection history and specific risks identified within the portfolio. If the financial condition of the customers were to deteriorate resulting in an impairment of their ability to make payments, or if payments from customers are significantly delayed, additional allowances might be required. As of December 31, 2005 and 2004, Changxin Trading recorded Accounts Receivable of \$312,416 and \$0 respectively. As of December 31, 2005 and 2004, Changxin Trading recorded allowance for doubtful accounts of \$0 and \$0 respectively.

Changxin Trading commenced operations in November 2003. In 2004, the first full calendar year of operations for Changxin Trading, the standard collection policy was to receive payment upon delivery. As such for the year ended December 31, 2004, Changxin Trading recorded an accounts receivable of \$0. In 2005 as Changxin Trading matured, Changxin Trading revised its collections policy. Changxin Trading eased collection terms in an effort to extend more favorable payment terms to customers in an effort to attract additional orders. As such for the year ended December 31, 2005, Changxin Trading recorded an accounts receivable of \$312,416.

Changxin Trading sets similar collection terms for customers. However, as the relationship matures Changxin Trading develops a level of comfort with each customer. Furthermore, each customer will have varied credit worthiness.

Presently Changxin Trading employs three different forms of payment when dealing with its customers.

- o Letter of credit; which typically pays in 30 - 40 business days.
- o Telegraphic transfer; which typically pays in 7-10 business days
- o Document against payment; which typically pays in 15 - 30 business days

Typically collection terms are specified in the sales contract. Changxin Trading seeks to dictate the collection terms depending on the customer's credit worthiness.

INVENTORY

Inventory, consisting of raw materials related to Changxin Trading products are stated at the lower of cost or market utilizing the first in first out method.

Changxin Trading records inventory consisting of raw materials related to Changxin Trading at the lower of cost or market utilizing the first in first out method. Changxin Trading does not record as inventory those items for which it is (i) not entitled to the inventory or (ii) the control or risk of the inventory is not transferred to Changxin Trading. Changxin Trading will utilize shipping records or billing statements as proof to indicate (i) entitlement to

Edgar Filing: China Direct, Inc - Form 8-K

the inventory or (ii) the inventory is under the control of Changxin Trading. Those items for which Changxin Trading has not been presented with a bill are recorded as prepaid expenses. Changxin Trading will recognize inventory as suppliers present a billing statement in compliance with its accounting policy. Inventory is discussed further in NOTE 2.

DUE TO/FROM RELATED PARTY

The financial statements include balances and transactions with related parties. From time to time, as a private company, Changxin Trading would receive advances from, or advance funds to related parties for working capital purposes. These related parties would either be (i) an officer, director or shareholder of Changxin Trading or (ii) a company in which an officer, director or shareholder of Changxin Trading was an officer, director or shareholder or (iii) a company in which Changxin Trading was a shareholder. These advances are non interest bearing, unsecured and payable on demand. Due to/from related party is discussed further in NOTE 7.

PREPAID EXPENSES

Prepaid expenses and other assets consist of prepayments to suppliers for merchandise which has not yet been shipped from the suppliers.

ADVANCES FROM CUSTOMERS

Advances from customers consist of a prepayment to Changxin Trading for merchandise that had not yet been shipped to their customers. Changxin Trading will recognize the deposits as revenue as customers take delivery of the goods, in compliance with its revenue recognition policy.

Changxin Trading commenced operations in November 2003. In 2004, the first full calendar year of operations for Changxin Trading, the standard policy was to request a deposit on purchase orders. This deposit amount was reflected as Advances from Customers. In 2005, as Changxin Trading matured, and the relationship with customers progressed, the policy towards deposits against purchase orders was revised. Changxin Trading no longer required a deposit against purchase orders in 2005. Advances from customers are discussed further in NOTE 6.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost. Depreciation and amortization are provided using the straight line method over the estimated economic lives of the assets, which are from five to ten years. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", Changxin Trading examines the possibility of decreases in the value of fixed assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable.

Edgar Filing: China Direct, Inc - Form 8-K

FAIR VALUE OF FINANCIAL INSTRUMENTS

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments", requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts reported in the balance sheet for cash, accounts receivable, accounts payable and accrued expenses, loans and amounts due from related parties approximate their fair market value based on the short-term maturity of these instruments.

REVENUE RECOGNITION

Changxin Trading follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, Changxin Trading records revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectibility is reasonably assured. The following policies reflect specific criteria for the various revenues streams of Changxin Trading: Changxin Trading revenues from the sale of products are recorded when the goods are shipped, title passes, and collectibility is reasonably assured.

FOREIGN CURRENCIES

Transactions and balances in other currencies are converted into U.S. dollars in accordance with Statement of Financial Accounting Standards (SFAS) No. 52, "Foreign Currency Translation", and are included in determining net income or loss.

For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date. Revenues and expenses are translated at weighted average exchange rates for the period to approximate translation at the exchange rates prevailing at the dates those elements are recognized in the financial statements. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive loss.

The reporting currency is the U.S. dollar. The functional currency of Changxin Trading is the local currency, the Chinese dollar or Renminbi ("RMB"). The financial statements of Changxin Trading are translated into United States dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues, costs, and expenses. Net gains and losses resulting from foreign exchange transactions are included in the consolidated statements of operations and were not material during the periods presented due to fluctuations between the Chinese dollar ("RMB") and the United States dollar. The cumulative translation adjustment and effect of exchange rate

Edgar Filing: China Direct, Inc - Form 8-K

changes on cash on December 31, 2005 and 2004 were \$32,259 and \$0 respectively.

On July 21, 2005, the central government of China allowed the Chinese dollar or RMB to fluctuate, ending its decade-old policy of valuation pegged to the U.S. dollar. The new RMB rate reflects an approximately 2% increase in value against the U.S. dollar. Historically the Chinese government has benchmarked the RMB exchange ratio against the U.S. dollar, thereby mitigating the associated foreign currency exchange rate fluctuation risk. Changxin Trading does not believe that its foreign currency exchange rate fluctuation risk is significant, especially if the Chinese government continues to benchmark the RMB against the U.S. dollar.

INCOME TAXES

Income tax expense is based on reported income before income taxes. Deferred income taxes reflect the effect of temporary differences between asset and liability amounts that are recognized for financial reporting purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying currently enacted tax laws. Valuation allowances are recognized to reduce the deferred tax assets to the amount that is more likely than not to be realized. In assessing the likelihood of realization, management considers estimates of future taxable income.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

COMPREHENSIVE INCOME

Changxin Trading uses Statement of Financial Accounting Standards No. 130 (SFAS 130) "Reporting Comprehensive Income". Comprehensive income is comprised of net income and all changes to the statements of members' equity, except those due to investments by members, changes in members' equity and distributions to members. For Changxin Trading, comprehensive income for the year ended December 31, 2005 and 2004 included net income and foreign currency translation adjustments.

NOTE 8 - INCOME TAX

Changxin Trading accounts for income taxes under Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" "SFAS 109". SFAS 109 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and the tax basis of assets and liabilities, and for the expected future tax benefit to be derived from tax losses and tax credit carry forwards. SFAS 109 additionally requires the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets.

Changxin Trading operations in China are governed by the Income Tax Law of the People's Republic of China concerning Foreign Investment Enterprises and Foreign Enterprises and local income tax laws (the "PRC Income Tax Law"). Pursuant to the PRC Income Tax Law, wholly-owned foreign enterprises are subject to tax at a statutory rate of 33% (30% state income tax plus 3% local income tax).

NOTE 10 - SUBSEQUENT EVENTS

The Financial Statements reflect the name Taiyuan Changxin YiWei Trading, Co. Ltd. ("Changxin Trading"). The financial statements for the years ended December 31, 2005 and 2004 solely reflect the operations of Changxin Trading.

In March 2006 Chang Magnesium was formed by Taiyuan YiWei Magnesium. In November 2006 the official stamp for Chang Magnesium was received and the name recognized by the central government of China. Chang Magnesium expects to commence

Edgar Filing: China Direct, Inc - Form 8-K

operations at the new plant in January 2007. On June 1, 2006, Chang Magnesium entered into an acquisition agreement to purchase 100% of Changxin Trading from Taiyuan YiWei Magnesium. Chang Magnesium acquired Changxin Trading from Taiyuan YiWei Magnesium in exchange for \$125 (1,000 RMB). As a result, Changxin Trading is now a wholly owned subsidiary of Chang Magnesium. As such the financial statements for the years ended December 31, 2005 and 2004 solely reflect the operations of Changxin Trading

On June 1, 2006, as per the terms of an acquisition agreement, Taiyuan YiWei Magnesium was to contribute \$2,450,000 worth of property plant and equipment to Chang Magnesium. On June 1, 2006 Taiyuan YiWei Magnesium contributed property, plant and equipment with a value of \$2,567,353 to Chang Magnesium. The financial statements for the nine months ended September 30, 2006 for Changxin Trading reflect the contribution of \$2,567,353 worth of Property, Plant and Equipment to Chang Magnesium.

On October 15, 2006 our wholly owned subsidiary, CDI China, Inc. ("CDI China"), entered into an acquisition agreement with Chang Magnesium. Under the terms of the agreement CDI China agreed to infuse \$1,000,000 to Chang Magnesium ("Initial Funds") 10 days after closing. On or before September 30, 2007, CDI China shall deliver \$800,000 of investment capital to Chang Magnesium and on or before December 31, 2007 CDI China shall deliver \$750,000 of investment capital to Chang Magnesium. The closing of the transaction was subject to audited financial statements for Chang Magnesium which reflected a contribution to Chang Magnesium by Taiyuan YiWei Magnesium of property, plant or equipment with a minimum value of \$2,450,000. In June 2006 Taiyuan YiWei Magnesium contributed property, plant and equipment valued at \$2,567,353, which represented all the assets related to the magnesium plant, to Chang Magnesium.

On December 22, 2006 the transaction closed pursuant to its terms. As a result CDI China holds a 51% majority interest in Chang Magnesium.

At the closing of the transaction, CDI Shanghai Management Company, Limited, a wholly owned subsidiary of CDI China, Inc., entered into an employment agreement with Yuwei Huang. Mr. Huang will serve as Executive Vice President, supervising the operations of Chang Magnesium. The term of the five year agreement provides for no annual compensation with bonuses at the discretion of the company. The agreement contains customary confidentiality provisions.

TAIYUAN CHANGXIN YIWEI TRADING COMPANY, LIMITED NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2005 AND 2004

NOTE 10 - SUBSEQUENT EVENTS (CONTINUED)

We intend that Chang Magnesium, which includes the operations of its wholly-owned subsidiary Changxin Trading, will operate as a segment within CDI China. Chang Magnesium has not yet generated any revenues from its proposed operations.

NOTE 11 - OPERATING RISK

(a) Country risk

Currently, Changxin Trading revenues are primarily derived from the sale of line of disinfectant product offerings to customers in the Peoples Republic of China (PRC). Changxin Trading hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that Changxin Trading will be able to achieve such an expansion successfully.

Edgar Filing: China Direct, Inc - Form 8-K

Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on Changxin Trading financial condition.

(b) Products risk

In addition to competing with other manufacturers of disinfectant product offerings, Changxin Trading competes with larger U.S. companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel. These U.S. companies may be able to offer products at a lower price. There can be no assurance that Changxin Trading will remain competitive should this occur.

(c) Exchange risk

Changxin Trading can not guarantee that the current exchange rate will remain steady, therefore there is a possibility that Changxin Trading could post the same amount of profit for two comparable periods and because of a fluctuating exchange rate actually post higher or lower profit depending on exchange rate of Renminbi converted to US dollars on that date. The exchange rate could fluctuate depending on changes in the political and economic environments without notice.

(d) Political risk

Currently, PRC is in a period of growth and is openly promoting business development in order to bring more business into PRC. Additionally PRC allows a Chinese corporation to be owned by a United States corporation. If the laws or regulations are changed by the PRC government, Changxin Trading ability to operate the PRC subsidiaries could be affected.

Taiyuan Changxin YiWei Trading Co., Ltd., a Chinese limited liability company, is referred to in this report as the "Company", "Changxin Trading", "we", "us" or "our".

Taiyuan Changxin YiWei Trading Co., Ltd. ("Changxin Trading"), a Chinese limited liability company, was established November 23, 2003. Changxin Trading is a reseller, distributor and exporter of magnesium products.

Changxin Trading resells various forms of magnesium including, but not limited to magnesium powder, magnesium scrap, magnesium alloy and various grades of ordinary magnesium slabs. Changxin Trading resells magnesium products locally within China and as well exports magnesium from China. Changxin Trading has forged relationships with global magnesium consumers. In the past Changxin Trading has supplied various magnesium related products to Alcoa Inc. (United States), Alcan, Inc. (Canada), Capral (Australia), and Japan Materials Co., Ltd. Approximately 70% of Changxin Trading revenues are derived from the distribution of magnesium slabs. Changxin Trading exported 40,000 metric tons in 2005, representing approximately 10% of China magnesium related exports.

Edgar Filing: China Direct, Inc - Form 8-K

In March 2006, Chang Magnesium Co. Ltd. ("Chang Magnesium") was formed by Taiyuan YiWei Magnesium Co., Ltd. ("Taiyuan YiWei Magnesium")

In June 2006 Chang Magnesium acquired 100% of Changxin Trading from Taiyuan YiWei Magnesium for approximately \$125. As a result Changxin Trading is a wholly owned subsidiary of Chang Magnesium.

In June 2006 Taiyuan YiWei Magnesium contributed property, plant and equipment valued at \$2,567,353, which represented all the assets related to the magnesium plant, to Chang Magnesium. Chang Magnesium was formed by Taiyuan YiWei Magnesium to operate a newly constructed magnesium plant that will process and manufacture a variety of magnesium by-products, including magnesium powder, magnesium scrap, magnesium alloy and various grades of magnesium slabs.

Taiyuan YiWei Magnesium is a diversified magnesium organization which owns interests in seven subsidiary magnesium factories, a magnesium alloy factory and a magnesium powder desulphurization reagent factory, all located in China. China is generally regarded as the largest exporter for magnesium products in China, and the second largest producer in the world.

THE COMPANY (CONTINUED)

The newly constructed magnesium plant from which Chang Magnesium will operate is located in the Aluminum & Magnesium Industrial Park in Yangqu County, of the Shangxi Province. According to the China Magnesium Industry Report 2005 (March 2006) China, which has been the world's leading magnesium producer for the past eight years, has in excess of 100 magnesium manufacturers with approximately 468,000 metric tons of production in 2005. Raw magnesium production volume increased 139% from 2000 to 2005; the production of magnesium ingot increased 345.5% and magnesium powder increased 89.04% in the same time period.

Most of the magnesium in China is produced in the Shanxi Province which has abundant resources of dolomite, large coal deposits and some ferrosilicon production. In recent years, the Shangxi Province has taken a leadership position in China in various aspects of magnesium extraction technology and related environmental protection work and officials from the Ministry of Commerce (MOC) have designated the Shanxi Province as the central magnesium production region of China.

As a result the Shangxi Province has emerged as an important region for magnesium related companies. The annual output of magnesium in the Shangxi Province is approximately 360,000 metric tons, accounting for 55% of the world's total magnesium output, and 77% of the total output in China. As such the manufacturers in the region have a degree of pricing power of magnesium in both domestic and international markets.

Chang Magnesium expects to produce magnesium ingot with a magnesium element in excess of 99.95% and it intends to produce 10 specifications of magnesium ingot ranging in size from 2 kg to 150 kg. It is anticipated that Chang Magnesium will produce magnesium alloy which meets ASTM International standards.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared on the historical cost basis, except for the certain financial instruments. The principal accounting policies adopted are set out below.

F-29

TAIYUAN CHANGXIN YIWEI TRADING COMPANY, LIMITED NOTES TO UNAUDITED FINANCIAL STATEMENTS SEPTEMBER 30, 2006

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BASIS OF FINANCIAL STATEMENTS

The financial statements are prepared in accordance with generally accepted accounting principles in U.S. Certain adjustments and reclassifications have been incorporated in the accompanying financial statements to conform to accounting principles generally accepted in the United States of America.

CASH AND CASH EQUIVALENTS

Changxin Trading classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents.

ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable consists primarily of amounts due to Changxin Trading from normal business activities. Changxin Trading maintains an allowance for doubtful accounts to reflect the expected non-collection of accounts receivable based on past collection history and specific risks identified within the portfolio. If the financial condition of the customers were to deteriorate resulting in an impairment of their ability to make payments, or if payments from customers are significantly delayed, additional allowances might be required. For the nine months ended September 30, 2006, Changxin Trading recorded Accounts receivable of \$1,208,697. For the nine months ended September 30, 2006 Changxin Trading recorded allowance for doubtful accounts of \$0.

Changxin Trading commenced operations in November 2003. In 2004, the first full calendar year of operations for Changxin Trading, the standard collection policy was to receive payment upon delivery. As a result, for the year ended December 31, 2004, Changxin Trading recorded an accounts receivable of \$0. In 2005 as Changxin Trading matured, Changxin Trading revised its collections policy. Changxin Trading eased collection terms in an effort to extend more favorable payment terms to customers in an effort to attract additional orders. As such for the nine months ended September 30, 2006, Changxin Trading recorded Accounts receivable of \$1,208,697.

Changxin Trading sets similar collection terms for customers. However, as the relationship matures Changxin Trading develops a level of comfort with each customer. Furthermore, each customer will have varied credit worthiness.

Presently Changxin Trading employs three different forms of payment when dealing with its customers. O Letter of credit; which typically pays in 30 - 40 business days. O Telegraphic transfer; which typically pays in 7-10 business days O Document against payment; which typically pays in 15 - 30 business days

Typically collection terms are specified in the sales contract. Changxin Trading seeks to dictate the collection terms depending on the customer's credit worthiness.

INVENTORY

Inventory, consisting of raw materials related to Changxin Trading products are stated at the lower of cost or market utilizing the first in first out method.

DUE TO/FROM RELATED PARTY

The financial statements include balances and transactions with related parties. From time to time, as a private company, Changxin Trading would receive advances from or advance funds to related parties for working capital purposes. These related parties would either be (i) an officer, director or shareholder of Changxin Trading or (ii) a company in which an officer, director or shareholder of Changxin Trading was an officer, director or shareholder or (iii) a company in which Changxin Trading was a shareholder. These advances are non interest bearing, unsecured and payable on demand. Due to/from related party is discussed further in NOTE 6.

PREPAID EXPENSES

Prepaid expenses and other assets consist of prepayments to suppliers for merchandise which has not yet shipped by the suppliers.

ADVANCES FROM CUSTOMERS

Advances from customers consist of a prepayment to Changxin Trading for merchandise that had not yet been shipped to the customer. Changxin Trading will recognize the deposits as revenue as customers take delivery of the goods, in compliance with its revenue recognition policy.

Changxin Trading commenced operations in November 2003. In 2004, the first full calendar year of operations for Changxin Trading, the standard policy was to request a deposit on purchase orders. This deposit amount was reflected as Advances from Customers. In 2005, as Changxin Trading matured, and the relationship with customers progressed, the policy towards deposits against purchase orders was revised. Changxin Trading no longer required a deposit against purchase orders in 2005. Advances from customers are discussed further in NOTE 5.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost. Depreciation and amortization are provided using the straight line method over the estimated economic lives of the assets, which are from five to ten years. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", Changxin Trading examines the possibility of decreases in the value of fixed assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable.

The financial statements for the nine months ended September 30, 2006 reflect the operations of Changxin Trading as well as the operations of Chang Magnesium.

On June 1, 2006, Taiyuan YiWei Magnesium contributed property, plant and equipment with a value of \$2,567,333 to Chang Magnesium. As such the financial statements for the nine months ended September 30, 2006 reflect the contribution of \$2,567,353 worth of property, plant and equipment to Chang Magnesium. Furthermore the financial statements for the nine months ended September 30, 2006 reflect the operations of Changxin Trading as well as the operations of Chang Magnesium from June 1, 2006 through September 30, 2006.

FAIR VALUE OF FINANCIAL INSTRUMENTS

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments", requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts reported in the balance sheet for cash, accounts receivable, accounts payable and accrued expenses, loans and amounts due from related parties approximate their fair market value based on the short-term maturity of these instruments.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

REVENUE RECOGNITION

Changxin Trading follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, Changxin Trading records revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectibility is reasonably assured. The following policies reflect specific criteria for the various revenues streams of Changxin Trading: Changxin Trading revenues from the sale of products are recorded when the goods are shipped, title passes, and collectibility is reasonably assured.

FOREIGN CURRENCIES

Edgar Filing: China Direct, Inc - Form 8-K

Transactions and balances in other currencies are converted into U.S. dollars in accordance with Statement of Financial Accounting Standards (SFAS) No. 52, "Foreign Currency Translation", and are included in determining net income or loss.

For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date. Revenues and expenses are translated at weighted average exchange rates for the period to approximate translation at the exchange rates prevailing at the dates those elements are recognized in the financial statements. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive loss.

The reporting currency is the U.S. dollar. The functional currency of Changxin Trading is the local currency, the Chinese dollar or Renminbi ("RMB"). The financial statements of Changxin Trading are translated into United States dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues, costs, and expenses. Net gains and losses resulting from foreign exchange transactions are included in the consolidated statements of operations and were not material during the periods presented due to fluctuations between the Chinese dollar ("RMB") and the United States dollar. The cumulative translation adjustment and effect of exchange rate changes on cash on September 30, 2006 and 2005 were \$99,355 and \$32,259 respectively.

On July 21, 2005, the central government of China allowed the Chinese dollar or RMB to fluctuate, ending its decade-old policy of valuation pegged to the U.S. dollar. The new RMB rate reflects an approximately 2% increase in value against the U.S. dollar. Historically the Chinese government has benchmarked the RMB exchange ratio against the U.S. dollar, thereby mitigating the associated foreign currency exchange rate fluctuation risk. Changxin Trading does not believe that its foreign currency exchange rate fluctuation risk is significant, especially if the Chinese government continues to benchmark the RMB against the U.S. dollar.

INCOME TAXES

Income tax expense is based on reported income before income taxes. Deferred income taxes reflect the effect of temporary differences between asset and liability amounts that are recognized for financial reporting purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying currently enacted tax laws. Valuation allowances are recognized to reduce the deferred tax assets to the amount that is more likely than not to be realized. In assessing the likelihood of realization, management considers estimates of future taxable income.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates

Edgar Filing: China Direct, Inc - Form 8-K

and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

COMPREHENSIVE INCOME

Changxin Trading uses Statement of Financial Accounting Standards No. 130 (SFAS 130) "Reporting Comprehensive Income". Comprehensive income is comprised of net income and all changes to the statements of members' equity, except those due to investments by members, changes in members' equity and distributions to members. For Changxin Trading, comprehensive income for the nine months ended September 30, 2006 and 2005 included net income and foreign currency translation adjustments.

NOTE 2 - PREPAID EXPENSES AND OTHER

Prepaid expenses and other current assets are assets that arise on a balance sheet because of the payment of something in advance (prepayment) or the services for the payment will be received in the near future. The prepaid expenses and others consist of prepayments to third party customers from us for merchandise that had not yet shipped. We will recognize the payments as expenses as the Company takes delivery of the goods.

NOTE 4 - ACCOUNTS PAYABLE

Accounts payable was \$1,929,250 and \$2,074,018 as of September 30, 2006 and 2005. Such liabilities as of September 30, 2006 and 2005 included, operating payables and other accounts payable.

Edgar Filing: China Direct, Inc - Form 8-K

NOTE 5 - ADVANCE FROM CUSTOMERS

Advances from customers consist of a prepayment to Changxin Trading for merchandise that had not yet shipped to the customer. Changxin Trading will recognize the deposits as revenue as customers take delivery of the goods, in compliance with its revenue recognition policy. At September 30, 2006 and 2005, advances from customers amounted to \$411,745 and \$5,250,130 respectively. In 2005, as Changxin Trading matured, and the relationship with customers progressed, the policy towards deposits against purchase orders was revised. Changxin Trading no longer required a deposit against purchase orders in 2005. As a result, the advance from customer decreased significantly in 2006.

Generally, a customer will prepay for an order prior to shipment. At September 30, 2006 and 2005, our balance sheet reflected advances from customers of \$411,745 and \$5,250,130. Advances from customers consist of prepayments from third party customers made to us for merchandise that had not yet been shipped. We will recognize the deposits as revenue as customers take delivery of the goods, in compliance with its revenue recognition policy.

NOTE 9 - OPERATING RISK

(a) Country risk

Currently, Changxin Trading revenues are primarily derived from the sale of line of disinfectant product offerings to customers in the Peoples Republic of China (PRC). Changxin Trading hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that Changxin Trading will be able to achieve such an expansion successfully. Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on Changxin Trading financial condition.

(b) Products risk

In addition to competing with other manufacturers of disinfectant product offerings, Changxin Trading competes with larger U.S. companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel. These U.S. companies may be able to offer products at a lower price. There can be no assurance that Changxin Trading will remain competitive should this occur.

(c) Exchange risk

Changxin Trading cannot guarantee that the current exchange rate will remain steady, therefore there is a possibility that Changxin Trading could post the same amount of profit for two comparable periods and because of a fluctuating exchange rate actually post higher or lower profit depending on exchange rate of Renminbi converted to US dollars on that date. The exchange rate could fluctuate depending on changes in the political and economic environments without notice.

(d) Political risk

Currently, PRC is in a period of growth and is openly promoting business development in order to bring more business into PRC. Additionally PRC allows a Chinese corporation to be owned by a United States corporation. If the laws or regulations are changed by the PRC government, Changxin Trading ability to operate the PRC subsidiaries could be affected.

UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL INFORMATION

The acquisition by China Direct, Inc. (the "Company") of Shanghai Lang Chemical Company, Inc. ("Lang Chemical"), a privately held Chinese company, closed October 1, 2006. China Direct acquired 51% equity ownership of Shanghai Lang Chemical Company Limited in exchange for an initial capital infusion of US\$375,000 and a follow-up capital infusion of US\$326,250 to be made on or before June 30, 2007. The Company's two shareholders, Messrs. Chen and Zhu each retained a 24.5% equity interest in Lang Chemical, and remained as officers. The purchase price was determined based on arm's length negotiations and no finder's fees or commissions were paid in connection with the acquisition.

Shanghai Lang Chemical Company., Ltd. ("Lang Chemical") was established in January 1998 with registered capital of \$603,865 (RMB 5,000,000). Shanghai Lang Chemical Co., Ltd. is located in the Shanghai region of the Yangtze River delta.

Lang Chemical specializes in the sale and distribution of industrial grade synthetic chemicals. It maintains a relationship with both the supplier and the customer, managing the logistics of the distribution channel. Lang Chemical is a distribution agent in the eastern section of China for manufacturers such as BASF YPC Co., Ltd, Celanese (China) Holding Co., Ltd. and Lucite International (China) Chemical Industry Co., Ltd. Lang Chemical primarily distributes products to industrial manufacturing company and trading companies, including property developers, textile factories and pharmaceutical factories located in Eastern China. Products sold and distributed by Lang Chemical are used by customers as a raw material in the production of a variety of finished products including paint, glue, plastics, textiles, leather goods as well as various medical products. Lang Chemical was founded in January 1998 by Mr. Chen and Ms. Zhu.

Lang Chemical generates revenues through a commission ranging from 3% to 5% of the sale, with the amount of commission varying depending on the product sold.

Lang Chemical maintains a small inventory of chemicals at various storage centers across the eastern section of China. In most cases, Lang Chemical remits full payment to the suppliers upon receipt of the products for its inventory. Approximately 20% of Lang Chemical sales are derived from smaller orders of these chemicals sold from their inventory. These chemicals, which include acrylic acid, butyl acrylate, methyl acrylate, vinyl acetate, glacial acetic acid, vinyl acetic, methanol and VAE, are typically subject to price fluctuations. Lang Chemical maintains a small inventory of these chemicals in an effort to supply the customer efficiently on short term notice and to reduce the impact of fluctuating prices. These smaller orders are generally less than 10 tons and are shipped to the customer directly from one of Lang Chemical's storage centers. at a 3 % to 5% markup. Generally the customer pays the full amount of the order at the time the order is placed.

The balance of the approximately 80% of the Lang Chemical sales are derived from frequently used products which are shipped directly from the supplier to the customer. In most cases these are larger orders which Lang Chemical cannot supply from their inventory. Usually these larger orders are in excess of 10 tons and will be shipped from the suppliers to the clients directly. Lang Chemical will bill and collect payment from the customer. Generally customers will pay 10% to 20% of the purchase price as a deposit to Lang Chemical. Lang Chemical must pay the full balance to the supplier before the order is shipped. Upon receipt of the goods the customer will remit the balance of the payment for the order to Lang Chemical. Although Lang Chemical pays the suppliers upon receipt, the products can be returned with full refund only in the event there is an issue with quality.

Lang Chemical utilizes storage centers located in Shanghai as well as Qidong City and Jiangyin City in Jiangsu Province to provide the infrastructure to support its distribution channels. These storage centers aggregate approximately 119,000 cubic feet of liquid storage tanks and approximately 38,000 square feet of warehouse space used for solid or dry materials. The storage centers located in Shanghai and Qidong City are operated by unrelated third parties and Lang Chemical uses the storage space on an as needed basis. The Jiangyin City storage facility is owned by Lang Chemical.

Lang Chemical has 17 full time employees, of which five are in management, two are in accounting, six are in sales, two are in the international trade department and the remaining two are in the logistics department. Lang Chemical's management includes Mr. Jingdong Chen and Ms. Qian Zhu who are the CEO and Chairman and CFO, respectively. Mr. Chen and Ms. Zhu are husband and wife.

Lang Chemical's principal executive offices are located at Suite 901, No. 970, Da Liang Rd., Shanghai, China in a 3,270 square foot office space owned by Ms. Zhu. Lang Chemical owns office space located at 58 Jinqiao Rd, Suite 21A Shanghai with total space of approximately 4,360 square feet. Currently Lang Chemical does not have any personnel in this space and there are no Lang Chemical operations at this location.

Lang Chemical also owns a storage facility in the Jiangsu Province is located in the Beixin Fine Chemical Industrial Park, Qidong, Jiangsu Province. This facility, which consists of a 105,000 cubic foot storage tank area and 21,800 square feet of warehousespace, is owned and operated by Lang Chemical. Lang Chemical purchased the land in April 2005 at a cost of \$308,900 and it owns the warehouse, storage area as well as the land use rights.

On October 15, 2006 our wholly owned subsidiary, CDI China, Inc. ("CDI China"), entered into an acquisition agreement with Chang Magnesium Company, Limited, a Chinese limited liability company ("Chang Magnesium"). Under the terms of the agreement CDI China agreed to infuse \$1,000,000 to Chang Magnesium ("Initial Funds") 10 days post closing. On or before September 30, 2007, CDI China shall deliver \$800,000 of investment capital to Chang Magnesium and on or before December 31, 2007 CDI China shall deliver \$750,000 of investment capital to Chang Magnesium. The closing of the transaction was subject to audited financial statements for Chang Magnesium which reflected a contribution to Chang Magnesium by Taiyuan YiWei Magnesium Co., Ltd. ("Taiyuan YiWei Magnesium") of property, plant or equipment with a minimum value of \$2,450,000. In June 2006 Taiyuan YiWei Magnesium contributed property, plant and equipment valued at \$2,567,353, which represented all the assets related to the magnesium plant, to Chang Magnesium.

On December 22, 2006 the transaction closed pursuant to its terms. As a result CDI China holds a 51% majority interest in Chang Magnesium.

At the closing of the transaction, CDI Shanghai Management Company, Limited, a wholly owned subsidiary of CDI China, entered into an employment agreement with Yuwei Huang. Mr. Huang will serve as Executive Vice President, supervising the operations of Chang Magnesium. The term of the five year agreement provides for no annual compensation with bonuses at the discretion of the company. The agreement contains customary confidentiality provisions.

Chang Magnesium, established in March 2006, is involved in the manufacture, sale and exporting of magnesium and magnesium related products. Chang Magnesium Company, Limited expects to operate a newly constructed magnesium plant that will process and manufacture a variety of magnesium by-products, including magnesium powder, magnesium scrap, magnesium alloy and various grades of magnesium slabs.

The newly constructed magnesium plant from which Chang Magnesium will operate is located in the Aluminum & Magnesium Industrial Park in Yangqu County, of the Shangxi Province. According to the China Magnesium Industry Report 2005 (March 2006) China, which has been the world's leading magnesium producer for the past eight years, has in excess of 100 magnesium manufacturers with approximately 468,000 metric tons production in 2005. Raw magnesium production volume increased 139% from 2000 to 2005; the production of magnesium ingot increased 345.5% and magnesium powder increased 89.04% in the same time period.

Most of the magnesium in China is produced in the Shanxi Province which has abundant resources of dolomite, large coal deposits and some ferrosilicon production. In recent years, the Shangxi Province has taken a leadership position in China in various aspects of magnesium extraction technology and related environmental protection work and officials from the Ministry of Commerce (MOC) have designated the Shanxi Province as the central magnesium production region of China.

As a result the Shangxi Province has emerged as an important region for magnesium related companies. The annual output of magnesium in the Shangxi Province is approximately 360,000 metric tons, accounting for 55% of the world's total magnesium output, and 77% of the total output in China. As such the manufacturers in the region have a degree of pricing power of magnesium in both domestic and international markets.

Chang Magnesium expects to produce magnesium ingot with a magnesium element in excess of 99.95% and it intends to produce 10 specifications of magnesium ingot ranging in size from 2 kg to 150 kg. It is anticipated that Chang Magnesium will produce magnesium alloy which meets ASTM International standards.

Chang Magnesium holds a 100% interest in Taiyuan Changxin YiWei Trading Co., Ltd. ("Changxin Trading"). Changxin Trading, a Chinese limited liability company, was established November 23, 2003. Changxin Trading is a reseller, distributor and exporter of magnesium products. Changxin Trading resells various forms of magnesium including but not limited to magnesium powder, magnesium scrap, magnesium alloy and various grades of ordinary magnesium slabs. Changxin Trading resells magnesium products locally within China and as well exports Magnesium from China. Changxin Trading has forged relationships with global magnesium consumers. In the past Changxin Trading has supplied various magnesium related products to Alcoa Inc. (United States), Alcan, Inc. (Canada), Capral (Australia), and Japan Materials Co., Ltd. Approximately 70% of Changxin Trading revenues are derived from the distribution of magnesium slabs. Changxin Trading exported 40,000 metric tons in 2005, representing approximately 10% of China magnesium related exports.

We intend that Chang Magnesium, which includes the operations of its wholly-owned subsidiary Changxin Trading, will operate as a segment within CDI China. Chang Magnesium has not yet generated any revenues from its proposed operations.
