Item 1. Security and Issuer.

Common stock of Natus Medical Incorporated, 1501 Industrial Road, San Carlos, CA 94070

## Edgar Filing: NATUS MEDICAL INC - Form SC 13D/A

### Item 2. Identity and Background.

The D3 Family Funds are Washington State limited partnerships, whose principal business is investing in the equities of public micro-cap issuers. The D3 Family Funds consist of: D3 Family Fund, L.P, D3 Family Retirement Fund, L.P, D3 Children's Fund, L.P, D3 Offshore Fund, L.P., D3 Family Bulldog Fund, L.P. Located at 19605 N.E. 8th St., Camas, Washington 98607. No convictions or administrative proceedings as described in 2 (d) and (e).

### Item 3. Source and Amount of Funds or Other Consideration

Source of funds is money invested in the partnerships by their partners.

### Item 4. Purpose of Transaction

We acquired an additional 600,000 shares of BABY as a long term investment.

Before this most recent investment, we already had built a substantial investment in BABY for the following reasons: the company's strong market share and recurring revenues from the newborn hearing screening business, the company's excellent growth prospects as newborn hearing screening becomes the medical-legal standard of care in developed foreign markets just as it has become the gold standard here in the United States, the prospects for additional growth through pediatric hearing screening and newborn phototherapy, and the strong management of the company.

BABY's acquisition of and merger with BLSC is a company building event, one which increases further our already high level of enthusiasm for the company. It combines two of the leading newborn hearing screening companies with multiple modalities, capable of addressing customer needs in the full range of applications and environments. It complements BABY's franchise among neonatologists with BLSC's franchise with audiologists and neurologists. It combines hearing screening and hearing diagnostic products under the same company and creates the potential for future products which may combine both screening and precise diagnostics capability, potentially giving the combined company the opportunity to become a global leader in the overall hearing business. It complements BABY's historic strengths in sales and service with BLSC's strengths in technology and BLSC's relationships with leading clinicians. The acquisition brings new products which the combined sales force can sell into neonatal and pediatric applications in sleep and neurology. The acquisition should enhance BLSC's ability to sell its products abroad, particularly into those developed

country markets where BABY already has sufficient scale to have its own direct distribution.

The acquisition looks reasonably priced to us when one considers the amount of cash on BLSC's balance sheet and the value of its real estate. Similarly, from a prospective earnings point of view, there will be an opportunity to eliminate duplicated public company costs as well as numerous other savings opportunities throughout the cost

structures of both companies. We would not be surprised if the combined company were capable of earning 65-70 cents per share, annualized, in 2006, and considerably more in the future, once new generations of products are developed and marketed.

We congratulate both companies on this shrewd move and are delighted to be the largest shareholder.

Item 5. Interest in Securities of the Issuer.
