### 3.1. Salaries and Payroll Charges

Increased by R\$ 186.8 million or 22.1%, mainly due to the following factors:

- Increase in wages, benefits and payroll-related charges of 14.45% beginning May 2003, as a result of the collective labor agreement;
- Allocation of 2% of payroll to the redefinition of personnel roles and compensation (as from September 2003), related to the Performance-based Compensation Plan;
- Provision for benefits to retired employees in the amount of R\$ 18.1 million, calculated pursuant to CVM Deliberation # 371, in accordance to independent report; and
- Compensation expenses totaling R\$ 34.6 millions for former employees who left the company through the PDI Plano de Demissão Incentivada (Dismissal Encouragement Program).

### 3.2. General Supplies

Increased by R\$ 9.2 million or 12.0%, mainly in fuels and lubricants, arising from the price increase during the year. Other items that contributed to this increase consisted of maintenance of residential connections and networks and higher consumption of materials used in safety and protection.

### 3.3. Treatment Supplies

Increased by R\$ 10.9 million or 14.0%, as a result of price readjustment and strong drought in the period. The strong drought led to low quality of raw water sources with the proliferation of algae, which leaves odor and taste in the water when dead, resulting in increased demand for treatment supplies and coagulants.

The table below shows the impact of the cost increases on the main chemical supplies used by SABESP in its treatment process:

Cost per Supply Item in R\$ million	2002	2003	Difference	%
Ferric Sulfate	12.0	15.7	3.7	30.8
Chlorine	15.0	17.3	2.3	15.3
Aluminum Sulfate	6.9	9.0	2.1	30.4
Aluminum Polychloride	1.7	3.6	1.9	111.8

Other Treatment Supplies	31.3	29.7	(1.6)	(5.1)

Total	77.7	88.6	10.9	14.0
-------	------	------	------	------

---

### 3.4. Third Party Services

Decreased by R\$ 32.1 million or 8.9%, as a result of the reduction in advertising services, network maintenance services and residential connection maintenance services.

### 3.5. Electric Power

Electric Power presented an increase of R\$ 56.8 million or 21.4%, due to the following factors:

- Increase of 3.7% in the consumption from 1,972,777 MWh (2002) to 2,045,418 MWh (2003);
- Increase of 0.85% due to the collection of the Emergency Contribution Charge (ECE), which changed from R\$ 5.70/MWh to R\$ 8.50/MWh;
- Weighted average increase of 16.0% of electricity tariffs in the period.

### 3.6. General Expenses

General Expenses recorded an increase of R\$ 37.7 million or 40.9%, due to the following factors:

- Increase of provisions for losses in the amount of R\$ 26.0 million, related to provisions for receivables from suppliers and from judicial deposits;
- Increase of R\$ 5.8 million of billing expenses, due to the readjustment of banking collection services; and
- Increase of other general expenses by R\$ 5.7 million, as a result of the use of tax incentives during the year 2003.

### 3.7. Depreciation and Amortization

Depreciation increased by R\$ 45.4 million or 8.8%, due to recognition of R\$ 796.2 million related to sites under construction as permanent assets.

### 3.8. Credit Write-offs

This line presented a decrease of R\$ 125.3 million or 76.9%, mainly due to the reversion of the allowance for doubtful accounts related to invoices issued to the municipality of São Bernardo do Campo in the amount of R\$ 129.1 million, following the transfer of the service of this city.

### 3.9. PASEP Credit

Beginning in December 2002, the Law # 10,637/2003 has changed the calculation basis and accounting of PASEP. Consequently, starting in 2003, this credit in the amount of R\$ 20.9 million has been presented in Costs and Operating Expenses.

## 4. Net Financial Expenses (Income)

Financial Expenses showed a decrease of R\$ 1,929.8 million in 2003, due to:

### a) Financial Expenses

Showed an increase of R\$ 53.0 million due to the following factors:

- Interest expenses on domestic loans and financing, which rose R\$ 62.0 million due to the increase in the Certificates of Interbank Deposits (CDI) annual interest rate on the outstanding amount of debentures and the addition of the 5th issuance of debentures starting in April 2002.
- Interest expenses on foreign loans and financing, which decreased R\$ 20.9 million due to the appreciation of the Real against the US dollar throughout the period. This appreciation resulted in a reduction in interest expenses in 2003.
- Increase of other financial expenses by R\$ 5.0 million related mainly to banking fees on the debentures issue;
- Increase of taxes paid on international money transfer by R\$ 13.5 million, due to the larger volume of money remitted abroad during 2003;
- Other financial expenses decreased R\$ 4.1 million, mainly due to interest related to tax lawsuits that took place in 2002;
- Provisions decreased by R\$ 2.5 million due to the reduction of the provision for lawsuits with suppliers.

b) Monetary/Foreign Exchange Variation

Decreased by R\$ 1,815.2 million due to:

- Foreign Exchange Variation on foreign loans and financing decreased R\$ 1,888.2 million due to the impact of the appreciation of the Real against the US dollar R\$3.5333/US\$ in 2002 to R\$2.8892/US\$ in 2003.
- Monetary Variation on domestic loans and financing grew by R\$ 52.8 million due to higher variation of Unidade Padrão de Referência (UPR) in 2003 (4.65%) when compared to 2002 (2.80%)
- Other Monetary Variation increased by R\$ 20.0 million, mainly as a result of the monetary variation of the interest on own capital by the amount of R\$ 31.1 million.

c) Monetary Variation

Increased by R\$ 168.6 million mainly due to the recognition and reassessment of R\$ 75.0 million in accounts receivables related to the municipality of São Bernardo do Campo and the amount of R\$ 58.5 million resulting from monetary variation on the settlement with São Paulo State Government (GESP).

5. Non-Operating Expenses (Income)

This line showed an increase of R\$ 42.8 million mainly due to the write-off of permanent assets and other projects by the amount of R\$ 35.4 million and R\$ 11.2 million respectively.

6. Income Taxes and Social Contribution

The provision for income taxes and social contribution increased by R\$ 213.2 million, as a result of the comparison between the positive value of fiscal year of 2003 and the negative value of the fiscal year of 2002.

The deferred income taxes and social contribution decreased by R\$ 352.7 million, due to reassessment of the fiscal loss in 2002, the negative base for social contribution and the provision for contingencies of COFINS/PASEP, among others.

Financing

In order to guarantee the investment funding for the coming years (Plano Plurianual de Investimentos), SABESP continued its negotiations with several financing agents, as follows:

General Federal Budget OGU (Non-Onerous Resources)

SABESP is the executor of São Paulo State, obtaining from Federal Government, through the Ministry of Cities, the resources destined to water and sewage services.

The resources were allocated to construction of the main trunk sewer of Ribeirão Pires and Rio Grande da Serra Municipalities, part of the São Paulo metro area, to perform the reversion of the sewage of these two areas to the ABC Region Sewage Treatment Plant.

The total value of the investment is R\$ 27.5 million, of which the Federal Government provides R\$ 17.3 million, through two agreements referring to years 2002 and 2003.

FGTS - Resources from the Federally-managed Severance Indemnity Fund

In 2003, SABESP signed 16 financing contracts with the resources of FGTS and its financial agent Caixa Economica Federal, repayable over 180 months, with up to 36 months of grace period, bearing the following interest rates: TR plus 8.0% p.a. for the water systems and TR plus 6.5% p.a. for the sewage systems. The total amount of the financing was R\$ 324.5 million for a total investment needed of R\$ 361 million, of which R\$ 36.5 million came from company's own resources.

FEHIDRO State Fund for Hydro Resources

In 2003, SABESP contracted resources from FEHIDRO for 13 projects, for investments totaling R\$ 5.9 million, of which R\$ 2.8 million are without financial costs and without repayment obligation, and the counterpart of R\$ 3.1 million provided by the Company.

## Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K

In 2003 the total disbursement from FEHIDRO was R\$ 518.3 thousand, related to 28 ongoing projects.

**PRODES** National Hydro Resources Decontamination Program by National Water Agency - ANA

In 2001 SABESP signed 6 contracts (Pindamonhangaba-Araretama, Pindamonhangaba-Moreira Cesar, Itatiba, São José dos Campos, Hortolândia and São Luiz do Paraitinga) with Federal Government, through National Water Agency, aiming the financial stimulus by receiving the payment of R\$ 16.2 million for the treated sewage under PRODES guidelines.

Of these contracts, the construction in Pindamonhangaba (Moreira Cesar) was finished in 2003, and its certification process will start in March 2004. The other projects are under construction, except for Itatiba, which is now in the final stages of the bidding process.

In 2003 two more contracts were signed related to the construction of sewage network and treatment plants in the municipalities of Arujá and Biritiba Mirim (R\$ 3.3 million). The total amount of the eight contracts signed is R\$ 19.5 million.

**Japan Bank for International Cooperation (JBIC)**

SABESP concluded the negotiation of a yen-denominated loan, in the amount of ¥ 21,320 million, equivalent to approximately R\$ 571.5 million. The funds will be used in the Environmental Recovery Program for the Santos metro region, a total investment of ¥ 39,221 million equivalent to approximately R\$ 1,051.4 million, of which SABESP will provide the remaining amount of ¥ 17,901 million equivalent to approximately R\$ 479.9 million.

The State of Sao Paulo Legislative approved the Law #10,820/01 conceding the counter guarantee of Federal approval. The financing was already approved by COFIEX External Financing Commission, Federal committee that analyses and approves projects undertaken with international governmental agencies funding.

The Exchange of Diplomatic Notes agreement between the Brazilian and Japanese governments was signed in August 2003 and forwarded to the Congress for approval (Message #700/2003).

The concession of Federal guarantee to JBIC should be submitted for approval in Senate. The referred process is now under analysis in National Treasury (STN) and Finance Ministry State Attorney (PGFN).

The Environmental Program was included in State of Sao Paulo budget for 2004 (Law #11,607 of 12/29/2003) and in the Law of Budgetary Regulation for year 2004 (Law #11,437 of 07/16/2003).

The Company already accepted the financial terms of the project. The main coming events are the signing of the Financing Contract SABESP & JBIC, expected for May 2004, followed by the final stage of the appointment of Program Manager.

**Water and Sewage System Program 2004 (Programa Pró-Saneamento 2004)**

SABESP requested to Ministry of Cities and Urban Areas through Federal Savings and Loans Bank (Caixa Econômica Federal - FGTS) funding for new 40 projects, totaling R\$ 714.2 million. The total value of the new investment is R\$ 794.6 million, in the Water and Institutional Development categories. The Proposals for the 40 enterprises are now under analysis of the Ministry of Cities and Urban Areas (responsible for the allocation of FGTS resources), for standardization, classification and selection, and the credit should be approved till the end of April 2004, according to Resolution #3,153 of 12/11/2003 of National Monetary Committee.

**BNDES**

On August 8, 2002, SABESP entered into the first loan contract with BNDES and four private banks that work as BNDES on lending agents, amounting to R\$ 240 million. This loan will be used to finance part of the domestic portion of the funding of the TietêProject 2nd phase. BNDES has already disbursed R\$ 100 million of that amount.

SABESP is in the final stages of formalizing till April 30, 2004 a new loan contract of R\$ 300 million. This amount will be used to finance part of the domestic portion of the Environmental Recovery Program for the Santos metro region, which will be co-funded by the JBIC: R\$ 140 million will be allocated to sewage system projects and the remaining R\$ 160 million will be allocated to water system projects. The bearing interest are equivalent to TJLP plus 3% pa for water systems and TJLP plus 1% pa for sewage systems, repayable over 10 years, with a three-year grace period.
