CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This 2006 Annual Report on Form 10-K contains statements which constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended. Those statements include statements regarding our intent, belief or current expectations. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements. Such risks and uncertainties include, among other things, our ability to face stiff competition, profitably manage a sourcing and distribution business, the financial strength of our major customers, the continued acceptance of our existing and new products by our existing and new customers, dependence on key customers, the risks of foreign manufacturing, competitive and economic factors in the textile and apparel markets, the availability of raw materials, the ability to manage growth, weather-related delays, dependence on key personnel, general economic conditions, global manufacturing costs and restrictions, and other risks and uncertainties that may be detailed herein. See "Item 1A. Risk Factors."

ITEM 1. BUSINESS

OVERVIEW

Tarrant Apparel Group is a design and sourcing company for private label and private brand casual apparel serving mass merchandisers, department stores, branded wholesalers and specialty chains located primarily in the United States. Our major customers include retailers, such as Macy's Merchandising Group, Kohl's, Mervyn's, Mothers Work, Chico's, New York & Co., Wal-Mart, Charlotte Russe, the Avenue, Lane Bryant, Sears, and J.C. Penney. Our products are manufactured in a variety of woven and knit fabrications and include jeans

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

wear, casual pants, shorts, skirts, dresses, t-shirts, blouses, shirts and other tops and jackets.

In 2004 and 2005, our net sales were \$155 million and \$215 million, respectively. In 2006, our net sales increased by 8.3% to \$232 million. In 2004, we experienced a net loss of \$104.7 million, which included non-cash charges of \$22.8 million of foreign currency translation loss and \$78.0 million of asset impairments. In 2005, we experienced net income of \$1.0 million. In 2006, we experienced a net loss of \$22.2 million, which included a non-cash charge of \$27.1 million of a loss on notes receivable - related parties. See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations."

We launched our private brands initiative in 2003, in which we acquire ownership of or license rights to a brand name and sell apparel products under the brand, generally to a single retail company within a geographic region. At March 27, 2007, we are selling apparel products under the following brands at the following retailers:

BRAND -----	STORES -----
American Rag CIE Alain Weiz	Macy's Merchandising Group Specialty stores, department stores

During 2005 we sold Gear 7 branded apparel to K-Mart. During the fourth quarter of 2005, K-Mart decided to discontinue this line, and we did not have sales of Gear 7 products in 2006. Additionally, in March 2006, we terminated our license agreement for the brand House of Dereon by Tina Knowles,

1

and sold our remaining inventory to the licensor. As a result, we will no longer sell apparel products under this private brand. In March 2006, we became involved in a dispute with the licensor of the Jessica Simpson brands over our continued rights to these brands. Accordingly, we did not have sales of Jessica Simpson branded apparel after the first quarter of 2006, and will not have sales in the future unless and until we successfully resolve our dispute with the licensor.

RECENT DEVELOPMENTS - THE BUFFALO GROUP

On December 6, 2006, we entered into a definitive stock and asset purchase agreement to acquire certain assets and entities comprising The Buffalo Group. The Buffalo Group designs, imports and sells contemporary branded apparel and accessories, primarily in Canada and the United States. For further description of The Buffalo Group and a summary of the material terms of the definitive purchase agreement, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation".

The proposed acquisition of The Buffalo Group is part of our strategy to grow and diversify our business. We believe its benefits to us will include:

- o Expanding our operations by adding additional proprietary brands and products to compete more effectively;
- o Expanding the scope, scale and strength of our operations by expanding its marketing, sales and distribution capabilities;

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

- o Enhancing our capabilities to compete in Canada, the United States and other markets; and utilize The Buffalo Group's existing sales and marketing infrastructure as a platform for expanding sales of our apparel products; and
- o Providing opportunities for us to penetrate new markets and expand our share in existing markets.

The Buffalo Group was started in 1985 as the distributor of Buffalo branded products in Canada. Initially, the Buffalo brand was a denim line, but it has been expanded over time. In 1993, The Buffalo Group widened its customer base by adding U.S. retailers. In 2000, The Buffalo Group started a private label business for retailers in Canada and the U.S. In 1996, Buffalo opened its first retail store in Canada and it currently operates 45 retail stores in Canada. Over this time Buffalo has added additional brand names to its line. It has also developed a licensing program for the Buffalo brand for the sale of apparel-related products in Canada, and the sale of apparel products in foreign countries.

We will be filing a definitive proxy statement and other documents concerning the proposed transaction with the Securities and Exchange Commission ("SEC"). Shareholders are urged to read the proxy statement when it becomes available and any other relevant documents filed with the SEC because they will contain important information on the proposed transaction.

BUSINESS STRATEGY

We believe that the following trends are currently affecting apparel retailing and manufacturing:

- o Consolidation among apparel retailers has increased their ability to demand value-added services from apparel manufacturers, including fashion expertise, rapid response, just-in-time delivery, Electronic Data Interchange and favorable pricing.

2

- o Increased competition among retailers due to consolidation has resulted in an increased demand for private label and private brand apparel, which generally offers retailers higher margins and permits them to differentiate their products.
- o The current fashion cycle requires more design and product development, in addition to quickly responding to emerging trends. Apparel manufacturers that offer these capabilities are in demand.

We believe that we have the capabilities to take advantage of these trends and remain a principal value-added supplier of casual, moderately priced apparel as well as increase our share of the higher retail, "branded" segment that the major retailers are pursuing.

DESIGN EXPERTISE. As one of the very few sourcing companies with our own design team, we believe that we have established a reputation with our customers as a fashion resource and manufacturer that is capable of providing design assistance to customers in the face of rapidly changing fashion trends.

RESEARCH AND DEVELOPMENT CAPABILITIES. We believe our design capability

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

combined with our fabric research and development provide a major advantage that our customers respond to, and that we have skills in the advanced development of washes and finishes that give us a position of competitive strength.

MARKETING EXPERTISE. We have the understanding and resources to develop strong "brand-like" product marketing to support the need to extend traditional store brands into product presentations that have more value to the consumer in terms of product design and imaging.

SAMPLE-MAKING AND MARKET-TESTING CAPABILITIES. We seek to support customers with our design expertise, sample-making capability and ability to rapidly produce small test orders of products.

ON-TIME DELIVERY. We have developed a diversified network of international contract manufacturers and fabric suppliers, which enable us to accept orders of varying sizes and delivery schedules and to produce a broad range of garments at varying prices depending upon lead time and other requirements of the customer.

QUALITY AND COMPETITIVELY PRICED PRODUCTS. We believe that our long time presence in the Far East and our experienced product management teams provide a superior supply chain that enables us to meet the individual needs of our customers in terms of quality and lead time.

PRODUCT DIVERSIFICATION. Our experiencing in designing and delivering complete apparel collections for some of our customers has improved our overall ability to deliver product classifications beyond our core casual bottoms offerings, which has further diversified the merchandise we offer to other customers.

PRIVATE BRANDS. With a private brand relationship, we own and control the brand and thus build equity in the brand as the product gains acceptance by consumers. In a private label relationship, we source products for our customers who own and control the brand and thus benefit from any increase in value of the brand.

We believe that forming strong alliances with premier retailers allows us greater penetration of apparel categories in addition to our core casual bottoms business. In addition to the increased breadth of classifications, we have improved our ability to compete for private label business based on expertise gained from our private brand development. We receive higher margins for development of product by design and marketing assistance.

3

PRODUCTS

Women's jeans historically have been, and continue to be, our principal product. Our products also include moderately priced women's apparel to include casual, non-denim, fabrications including twill and other cotton and cotton blends, in woven tops and bottoms. Our women's apparel products currently include jeans wear, casual pants, shorts, skirts, dresses, t-shirts, blouses, shirts, other tops and jackets. These products are manufactured in petite, standard and large sizes and are sold at a variety of wholesale prices generally ranging from less than \$5 to over \$30 per garment. We have produced men's and children's apparel in varying significance for the last several years.

Over the past three years, approximately 64% of net sales were derived from the sales of pants and jeans, approximately 6% from the sale of shorts,

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

approximately 13% from the sale of shirts, blouses and tops and approximately 6% from the sale of skirts and skort-all. The balance of net sales consisted of sales of dresses, jackets and other products.

CUSTOMERS

We generally market our products to high-volume retailers that we believe can grow into major accounts. By limiting our customer base to a select group of larger accounts, we seek to build stronger long-term relationships and leverage our operating costs against large bulk orders. Although we continue to diversify our customer base, the majority of sales growth is most predictable from existing customers.

The following table shows the percentage of our net sales in fiscal year 2006 attributable to each customer that accounted for more than 10% of net sales.

CUSTOMER	PERCENTAGE OF NET SALES
	2006
Macy's Merchandising Group.....	18.9
Kohl's.....	14.1
Mervyn's.....	11.9

We currently serve over 15 customers, which in addition to those identified above, include, Mothers Work, Chico's, New York & Co., Wal-Mart, Charlotte Russe, the Avenue, Lane Bryant, Sears and J.C. Penney. In 2004, 2005 and 2006, net sales of private brands represented approximately 14%, 26% and 22%, respectively, of our total net sales. We launched our private brands initiative in 2003, in which we acquire ownership of or license rights to a brand name and sell apparel products under this brand, generally to a single retail company within a geographic region. We sell products in our brands "American Rag Cie" exclusively to Macy's Merchandising Group. We sold products in our licensed brand "Alain Weiz" to Dillard's in 2005 and 2006. From January 1, 2007, we may sell our licensed brand "Alain Weiz" to specialty stores and department stores.

We do not have long-term contracts with any of our customers except for Macy's Merchandising Group for American Rag Cie and, therefore, there can be no assurance that other customers will continue to place orders with us of the same magnitude as it has in the past, or at all. In addition, the apparel industry historically has been subject to substantial cyclical variation, with consumer spending for purchases of apparel and related goods tending to decline during recessionary periods. To the extent that these financial difficulties occur, there can be no assurance that our financial condition and results of operations would not be adversely affected. See "Item 1A. Risk Factors."

DESIGN, MERCHANDISING AND SALES

While many private label producers only arrange for the bulk production of styles specified by their customers, we not only design garments, but also assist some of our customers in market testing new designs. We believe that our design, sample-production and test-run capabilities give us a competitive advantage in obtaining bulk orders from our customers. We also often receive bulk orders for garments we have not designed because many of our customers

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

allocate bulk orders among more than one producer.

We have developed integrated teams of design, merchandising and support personnel, some of whom serve on more than one team, that focus on designing and producing merchandise that reflects the style and image of their customers. Teams are divided between private label and private brands for sourcing operations.

Each team is responsible for all aspects of its customer's needs, including designing products, developing product samples and test items, obtaining orders, coordinating fabric choices and procurement, monitoring production and delivering finished products. The team seeks to identify prevailing fashion trends that meet its customer's retail strategies and design garments incorporating those trends. The team also works with the buyers of its customer to revise designs as necessary to better reflect the style and image that the customer desires to project to consumers. During the production process, the team is responsible for informing the customer about the progress of the order, including any difficulties that might affect the timetable for delivery. In this way, our customer and we can make appropriate arrangements regarding any delay or other change in the order. We believe that this team approach enables our employees to develop an understanding of the customer's distinctive styles and production requirements in order to respond effectively to the customer's needs.

From time to time and at scheduled seasonal meetings, we present samples to the customer's buyers who determine which, if any, of the samples will be produced on a test run or a bulk order. Samples are often presented in coordinated groupings or as part of a product line. Some customers, particularly specialty retail stores, may require that a product be tested before placing a bulk order. Testing involves the production of as few as several hundred copies of a given sample in different size, fabric and color combinations. The customer pays for these test items, which are placed in selected stores to gauge consumer response. The production of test items enables our customers to identify garments that may appeal to consumers and also provides us with important information regarding the cost and feasibility of the bulk production of the tested garment. If the test is determined to be successful, we generally receive a significant percentage of the customer's total bulk order of the tested item. In addition, as is typical in the private label business, we receive bulk production orders to produce merchandise designed by our competitors or other designers, since most customers allocate bulk orders among a number of suppliers.

SOURCING

GENERAL

When bidding for or filling an order, our international or domestic sourcing network enables us to choose from among a number of suppliers and manufacturers based on the customer's price requirements, product specifications and delivery schedules. Historically, we manufactured our products through independent cutting; sewing and finishing contractors located primarily in Hong Kong and China, and have purchased our fabric from independent fabric manufacturers with weaving mills located primarily in Hong Kong and China. In recent years, we have expanded our network to include suppliers and manufacturers located in a number of additional countries, including India, Vietnam, Mongolia, Thailand,

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Egypt and Mexico. Our sourcing strategy is based on a strong presence in Hong Kong, China and Southeast Asia.

DEPENDENCE ON CONTRACT MANUFACTURERS

The use of contract manufacturers and the resulting lack of direct control over the production of our products could result in our failure to receive timely delivery of products of acceptable quality. Although we believe that alternative sources of cutting, sewing and finishing services are readily available, the loss of one or more contract manufacturers could have a materially adverse effect on our results of operations until an alternative source can be located and commence producing our products.

Although we have adopted a code of vendor conduct and monitor the compliance of our independent contractors with our code of conduct and applicable labor laws, we do not control our contractors or their labor practices. The violation of federal, state or foreign labor laws by one of our contractors can result in us being subject to fines and our goods, which are manufactured in violation of such laws, being seized or their sale in interstate commerce being prohibited. Additionally, certain of our customers may refuse to do business with us based on our contractors' labor practices. From time to time, we have been notified by federal, state or foreign authorities that certain of our contractors are the subject of investigations or have been found to have violated applicable labor laws. To date, we have not been subject to any sanctions that, individually or in the aggregate, have had or could have a material adverse effect upon us, and we are not aware of any facts on which any such sanctions could be based. There can be no assurance, however, that in the future we will not be subject to sanctions or lose business from our customers as a result of violations of applicable labor laws by our contractors, or that such sanctions or loss of business will not have a material adverse effect on us. In addition, our customers require strict compliance by their apparel manufacturers, including us, with applicable labor laws. To that end, we are regularly inspected by some of our major customers. There can be no assurance that the violation of applicable labor laws by one of our contractors will not have a material adverse effect on our relationship with our customers.

Except for a commitment to purchase \$5 million of fabric annually manufactured at facilities in Mexico that we previously owned and sold to affiliates of Mr. Nacif, a shareholder at the time of transaction in 2004, we do not have any long-term contracts with independent fabric suppliers. The loss of any of our major fabric suppliers could have a material adverse effect on our financial condition and results of operations until alternative arrangements are secured.

DIVERSIFIED PRODUCTION NETWORK

We have a production network that is capable of servicing a wide range of customer needs. Some customers place a priority on "speed to market," and are willing to pre-approve several different fabric styles, and pay air freight in order to quickly get the most current styling into their stores. Other customers seek lower costs, and are willing to source production from more remote areas with long lead-times. Although mass merchandisers, such as Wal-Mart, are beginning to operate on shorter lead times, they are occasionally able to estimate their needs as much as six months to nine months in advance for "program" business--basic products that do not change in style significantly from season to season. Our ability to operate on different production schedules helps us to meet our customers' varying needs.

By allocating an order among different manufacturers, we seek to fill the high-volume orders of our customers, while meeting their delivery requirements. Upon receiving an order, we determine which of our suppliers and manufacturers can best fill the order and meet the customer's price, quality and

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

delivery requirements. We consider, among other things, the price charged by each manufacturer and the manufacturer's available production capacity to complete the order, as well as the availability of quota, if

6

applicable, for the product from various countries and the manufacturer's ability to produce goods on a timely basis subject to the customer's quality specifications. Our personnel also consider the transportation lead times required to deliver an order from a given manufacturer to the customer. In addition, some customers prefer not to carry excess inventory and therefore require that we stagger the delivery of products over several weeks.

INTERNATIONAL SOURCING

We conduct and monitor our sourcing operations from our Hong Kong office. The staff has extensive knowledge about, and experience with, sourcing and production, including purchasing, manufacturing and quality control. Several times each year, members of our senior management, including local staff, visit and inspect the facilities and operations of our international suppliers and manufacturers.

Foreign manufacturing is subject to a number of risk factors, including, among other things, transportation delays and interruptions, political instability, expropriation, currency fluctuations and the imposition of tariffs, import and export controls, other non-tariff barriers (including changes in the allocation of quotas), natural disasters and cultural issues. Each of these factors could have a material adverse effect on us.

While we are in the process of establishing business relationships with manufacturers and suppliers located in countries other than Hong Kong, Macau or China, such as in India, Vietnam, Mongolia, Thailand and Egypt, we still primarily contract with manufacturers and suppliers located in Hong Kong and China for our international sourcing needs, and currently expect that we will continue to do so for the foreseeable future. Any significant disruption in our operations or our relationships with our manufacturers and suppliers located in Hong Kong or China could have a material adverse effect on us.

THE IMPORT SOURCING PROCESS

As is customary in the apparel industry, we do not have any long-term contracts with our manufacturers. During the manufacturing process, our quality control personnel visit each factory to inspect garments when the fabric is cut, as it is being sewn and as the garment is being finished. Daily information on the status of each order is transmitted from the various manufacturing facilities to our offices in Hong Kong and Los Angeles. We, in turn, keep our customers apprised, often through daily telephone calls and frequent written reports. These calls and reports include candid assessments of the progress of a customer's order, including a discussion of the difficulties, if any, that have been encountered and our plans to rectify them.

We often arrange, on behalf of manufacturers, for the purchase of fabric from a single supplier. We have the fabric shipped directly to the cutting factory and invoice the factory for the fabric. Generally, the factories pay us for the fabric with offsets against the price of the finished goods. For our longstanding program business, we may purchase or produce fabric in advance of receiving the order, but in accordance with the customer's specifications. By procuring fabric for an entire order from one source, we believe that production costs per garment are reduced and customer specifications as to fabric quality

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

and color can be better controlled.

The anti-terrorist measures adopted by the U.S. government and in particular, by the U.S. Customs, have meant more stringent inspection processes before imported goods are cleared for delivery into the U.S. In some instances, these measures have caused delays in the pre-planned delivery of products to customers.

7

DISTRIBUTION

Based on our worldwide sourcing capability and in order to properly fulfill orders, we have tailored our distribution system to meet the needs of the customer. Some customers, like Wal-Mart and Kohl's, use Electronic Data Interchange, or "EDI", to send orders and receive merchandise and invoices. The EDI distribution function has been centralized in our Los Angeles corporate headquarter in order to expedite and control the flow of merchandise and electronic information, and to insure that the special requirements of our EDI customers are met.

For orders sourced outside the United States and Mexico, the merchandise is shipped from the production facility by truck to a port where it is consolidated and loaded on containerized vessels for ocean transport to the United States. For customers with West Coast and Mid West distribution centers, the merchandise is brought into the port of Los Angeles. After Customs clearance, the merchandise is shipped by truck to either our Los Angeles warehouse facility or an independent bonded warehouse in Ohio. Proximity to the customer's distribution center is important for customer support. For merchandise produced in the Middle East and destined for an East Coast customer distribution center, the port of entry is New York. After Customs clearance, the merchandise is trucked to an independent public warehouse in New Jersey. The independent warehouses are instructed in writing by the Los Angeles office when to ship the merchandise to the customer.

BACKLOG

As of March 22, 2007, we had unfilled customer orders of approximately \$85 million as compared to approximately \$74 million as of March 22, 2006. We believe that all of our backlog of orders as of March 22, 2007 will be filled before the end of fiscal year 2007. Backlog is based on our estimates derived from internal management reports. The amount of unfilled orders at a particular time is affected by a number of factors, including the scheduling of manufacturing and shipping of the product, which in some instances, depends on the customer's requirements. Accordingly, a comparison of unfilled orders from period to period is not necessarily meaningful and may not be indicative of eventual annual bookings or actual shipments. Our experience has been that the cancellations, rejections or returns of orders have not materially reduced the amount of sales realized from our backlog.

SEGMENT INFORMATION

Our predominant business is the design, distribution and importation of private label and private brand casual apparel. Substantially all of our revenues are from the sales of apparel. We are organized into four geographic regions: the United States, Asia, Mexico and Luxembourg. We evaluate performance of each region based on profit or loss from operations before income taxes not including the cumulative effect of change in accounting principles. For information regarding the revenues and assets associated with our geographic

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

regions, see Note 18 of the "Notes to Consolidated Financial Statements."

IMPORT RESTRICTIONS

QUOTAS

We imported substantially all of our products sold in 2006. Approximately 1% of this merchandise was imported from Mexico, which is subject to special rules under NAFTA. NAFTA allows for the duty and quota free entry into the United States of certain qualifying merchandise.

A majority of the merchandise imported by us in 2006 was manufactured in various countries (e.g., China) with which the U.S. had entered into bilateral trade agreements.

8

As of January 1, 2005, quota on apparel from all WTO countries, including China (except that certain commodities still require quotas as a result of "safeguard measures"), was eliminated. As China is now a member of the WTO, its exports of textiles and apparel to the U.S. are covered by the WTO Agreement on Textiles and Clothing. In 2006, quota was temporarily reinstated for China until 2008 for certain import merchandise categories. Quota is traded on the open market through quota holders who possess the quota holdings. We purchase quota from the open market. Quota gives us the right within the year to ship our goods to the U.S. Quota is non-dutiable.

DUTIES AND TARIFFS

As with all goods imported into the U.S., our imported merchandise is subject to duty (unless statutorily exempt from duty) at rates established by U.S. law. These rates range, depending on the type of product, from approximately 2% to 30% of the FOB value of the product. In addition to duties, in the ordinary course of our business, we are occasionally subject to claims by the U.S. Bureau of Customs and Border Protection for penalties, liquidated damages and other charges relating to import activities. Similarly, we are at times entitled to refunds from Customs, resulting from the overpayment of duties.

Products imported from China into the United States receive the same preferential tariff treatment accorded goods from other countries granted Normal Trade Relations ("NTR") status. This status has been in place conditionally for a number of years and is now guaranteed on a more permanent basis by China's accession to WTO membership in December 2001.

Our continued ability to source products from foreign countries may be adversely affected or improved by future trade agreements and restrictions, changes in U.S. trade policy, embargoes, the disruption of trade from exporting countries as a result of political instability or the imposition of additional duties, taxes and other charges or restrictions on all imports or specified classes of imports.

COMPETITION

There is intense competition in the sectors of the apparel industry in which we participate. We compete with many other manufacturers, many of which are larger and have greater resources than us. We also face competition from our own customers and potential customers, many of which have established, or may establish, their own internal product development and sourcing capabilities. We

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

believe that we compete favorably on the basis of design and sample capabilities, the quality and value of our products, price, and the production flexibility that we enjoy as a result of our sourcing network.

TRADEMARKS

As part of our private brands strategy, we acquire ownership of or rights to a brand name and sell apparel products under this brand. We have ownership rights to the registered trademarks "American Rag Cie," "Gear7" and "NO! Jeans". In addition, we have acquired license rights to design, market and distribute certain apparel products under the Alain Weiz and Jessica Simpson brands. We are currently involved in litigation with the licensor of the Jessica Simpson brands over our continued rights to these brands.

SEASONALITY

We have typically experienced seasonal fluctuations in sales volume. These seasonal fluctuations result in sales volume decreases in the first and fourth quarters of each year due to the seasonal fluctuations experienced by the majority of our customers.

9

EMPLOYEES

At December 31, 2006, we had approximately 145 full-time employees in the United States and 141 in Hong Kong. None of our employees are unionized. We consider our relations with our employees to be satisfactory in all areas of our operations.

ITEM 1A. RISK FACTORS

This Annual Report on Form 10-K contains forward-looking statements, which are subject to a variety of risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth below.

RISKS RELATED TO OUR BUSINESS

WE DEPEND ON A GROUP OF KEY CUSTOMERS FOR A SIGNIFICANT PORTION OF OUR SALES. A SIGNIFICANT ADVERSE CHANGE IN A CUSTOMER RELATIONSHIP OR IN A CUSTOMER'S FINANCIAL POSITION COULD HARM OUR BUSINESS AND FINANCIAL CONDITION.

Three customers accounted for approximately 45% of our net sales in fiscal year 2006. We believe that consolidation in the retail industry has centralized purchasing decisions and given customers greater leverage over suppliers, like us, and we expect this trend to continue. If this consolidation continues, our net sales and results of operations may be increasingly sensitive to deterioration in the financial condition of, or other adverse developments with, one or more of our customers.

While we have long-standing customer relationships, we generally do not have long-term contracts with them except for Macy's Merchandising Group for American Rag Cie. Purchases generally occur on an order-by-order basis, and relationships exist as long as there is a perceived benefit to both parties. A decision by a major customer, whether motivated by competitive considerations, financial difficulties, and economic conditions or otherwise, to decrease its purchases from us or to change its manner of doing business with us, could adversely affect our business and financial condition. In addition, during

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

recent years, various retailers, including some of our customers, have experienced significant changes and difficulties, including consolidation of ownership, increased centralization of purchasing decisions, restructurings, bankruptcies and liquidations.

These and other financial problems of some of our retailers, as well as general weakness in the retail environment, increase the risk of extending credit to these retailers. A significant adverse change in a customer relationship or in a customer's financial position could cause us to limit or discontinue business with that customer, require us to assume more credit risk relating to that customer's receivables, limit our ability to collect amounts related to previous purchases by that customer, or result in required prepayment of our receivables securitization arrangements, all of which could harm our business and financial condition.

FAILURE TO COMPLETE THE PROPOSED ACQUISITION OF THE BUFFALO GROUP COULD CAUSE OUR STOCK PRICE TO DECLINE.

We have entered into a stock and asset purchase agreement to acquire certain assets and entities comprising The Buffalo Group, as discussed further in "Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operation." The completion of the transaction is subject to the satisfaction of a number of conditions as set forth in the purchase agreement, including among others, the approval of the acquisition and related transactions by our shareholders, our obtaining the necessary

10

financing to complete the acquisition, obtaining certain third party consents, and other customary closing conditions. There can be no guaranty that the acquisition will be completed in a timely manner, if at all.

If the proposed acquisition is not consummated for certain reasons specified in the purchase agreement, our stock price may decline because we will incur significant costs relating to the acquisition that must be paid even though the acquisition is not completed. Most importantly, the sellers may be entitled to retain the \$5 million deposit. In addition, we will incur significant legal, accounting and other expenses, and may be required to pay Buffalo's out-of-pocket expenses. If the acquisition is not completed for any reason, our stock price may decline to the extent that the current market price reflects a market assumption that the acquisition will be completed.

THE PROPOSED ACQUISITION OF THE BUFFALO GROUP WILL RESULT IN SIGNIFICANT COSTS TO US, WHETHER OR NOT IT IS COMPLETED, WHICH COULD RESULT IN A REDUCTION IN OUR INCOME AND CASH FLOWS.

The proposed acquisition of The Buffalo Group will result in significant costs to us. Transaction costs are estimated to be at least \$2.1 million. These costs are expected to consist primarily of fees for attorneys, accountants, filing fees and financial printers. We will also incur substantial fees and costs associated with the amended credit facility that we are putting in place in connection with the proposed acquisition. All of these costs will be incurred whether or not the transaction is completed. In addition, if the stock and asset purchase agreement is terminated under specified circumstances, the \$5 million deposit we made upon signing the purchase agreement will be retained by the sellers and will not be returned to us. Under most circumstances, we are also required to pay out-of-pocket expenses incurred by Buffalo in connection with the transaction. Incurring these expenses will cause a reduction in our income and cash flows, and harm our business.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

FAILURE OF THE TRANSPORTATION INFRASTRUCTURE TO MOVE SEA FREIGHT IN ACCEPTABLE TIME FRAMES COULD ADVERSELY AFFECT OUR BUSINESS.

Because the bulk of our freight is designed to move through the West Coast ports in predictable time frames, we are at risk of cancellations and penalties when those ports operate inefficiently creating delays in delivery. We experienced such delays from June 2004 until November 2004, and we may experience similar delays in the future especially during peak seasons. Unpredictable timing for shipping may cause us to utilize air freight or may result in customer penalties for late delivery, any of which could reduce our operating margins and adversely affect our results of operations.

UNPREDICTABLE DELAYS AS THE RESULT OF INCREASED AND INTENSIFIED CUSTOMS ACTIVITY.

U.S. Customs has stepped up efforts to scrutinize imports from Hong Kong in order to verify all details of shipments under the OPA rules allowing certain processes to be performed in China without shipping under China country of origin documentation. Such "detentions" are unpredictable and cause serious interruption of normally expected freight movement timetables.

THE OUTCOME OF LITIGATION IN WHICH WE ARE INVOLVED IS UNPREDICTABLE AND AN ADVERSE DECISION IN ANY SUCH MATTER COULD HAVE A MATERIAL ADVERSE AFFECT ON OUR FINANCIAL POSITION AND RESULTS OF OPERATIONS.

We are currently in litigation with the licensors of the Jessica Simpson brands regarding our rights to sell apparel under these brands. See Item 3 "Legal Proceedings" for a detailed description of this lawsuit. The licensor has filed a counterclaim against us seeking damages. These claims may divert financial and management resources that would otherwise be used to benefit our operations. Although we believe that we have meritorious claims and defenses to the counter-claims made against us, and intend to pursue the lawsuit vigorously, no assurances can be given that the results of these matters will be

11

favorable to us. An adverse resolution of any of these lawsuits could have a material adverse affect on our financial position and results of operations. Additionally, we have incurred significant legal fees in this litigation, and unless the case is settled, we will continue to incur additional legal fees in increasing amounts as the case accelerates to trial.

FAILURE TO MANAGE OUR GROWTH AND EXPANSION COULD IMPAIR OUR BUSINESS.

Since our inception, we have experienced periods of rapid growth. No assurance can be given that we will be successful in maintaining or increasing our sales in the future. Any future growth in sales will require additional working capital and may place a significant strain on our management, management information systems, inventory management, sourcing capability, distribution facilities and receivables management. Any disruption in our order processing, sourcing or distribution systems could cause orders to be shipped late, and under industry practices, retailers generally can cancel orders or refuse to accept goods due to late shipment. Such cancellations and returns would result in a reduction in revenue, increased administrative and shipping costs and a further burden on our distribution facilities.

OUR OPERATING RESULTS MAY FLUCTUATE SIGNIFICANTLY.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

We have experienced, and expect to continue to experience, substantial variations in our net sales and operating results from quarter to quarter. We believe that the factors which influence this variability of quarterly results include the timing of our introduction of new product lines, the level of consumer acceptance of each new product line, general economic and industry conditions that affect consumer spending and retailer purchasing, the availability of manufacturing capacity, the seasonality of the markets in which we participate, the timing of trade shows, the product mix of customer orders, the timing of the placement or cancellation of customer orders, the weather, transportation delays, the occurrence of charge backs in excess of reserves and the timing of expenditures in anticipation of increased sales and actions of competitors. Due to fluctuations in our revenue and operating expenses, we believe that period-to-period comparisons of our results of operations are not a good indication of our future performance. It is possible that in some future quarter or quarters, our operating results will be below the expectations of securities analysts or investors. In that case, our stock price could fluctuate significantly or decline.

WE DEPEND ON OUR COMPUTER AND COMMUNICATIONS SYSTEMS.

As a multi-national corporation, we rely on our computer and communication network to operate efficiently. Any interruption of this service from power loss, telecommunications failure, weather, natural disasters or any similar event could have a material adverse affect on our business and operations. Additionally, hackers and computer viruses have disrupted operations at many major companies. We may be vulnerable to similar acts of sabotage, which could have a material adverse effect on our business and operations.

WE MAY REQUIRE ADDITIONAL CAPITAL IN THE FUTURE.

We may not be able to fund our future growth or react to competitive pressures if we lack sufficient funds. Currently, we believe we have sufficient cash on hand and cash available through our bank credit facilities, issuance of long-term debt and equity securities, and proceeds from the exercise of stock options to fund existing operations for the foreseeable future. However, in the future we may need to raise additional funds through equity or debt financings or collaborative relationships. This additional funding may not be available or, if available, it may not be available on economically reasonable terms. In addition, any additional funding may result in significant dilution to existing shareholders. If adequate

12

funds are not available, we may be required to curtail our operations or obtain funds through collaborative partners that may require us to release material rights to our products.

OUR BUSINESS IS SUBJECT TO RISKS ASSOCIATED WITH IMPORTING PRODUCTS.

Substantially all of our import operations are subject to tariffs imposed on imported products, safeguards and growth targets imposed by trade agreements. In addition, the countries in which our products are manufactured or imported may from time to time impose additional new duties, tariffs or other restrictions on our imports or adversely modify existing restrictions. Adverse changes in these import costs and restrictions, or our suppliers' failure to comply with customs or similar laws, could harm our business. We cannot assure that future trade agreements will not provide our competitors with an advantage over us, or increase our costs, either of which could have an adverse effect on our business and financial condition.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Our operations are also subject to the effects of international trade agreements and regulations such as the North American Free Trade Agreement, and the activities and regulations of the World Trade Organization. Generally, these trade agreements benefit our business by reducing or eliminating the duties assessed on products manufactured in a particular country. However, trade agreements can also impose requirements that adversely affect our business, such as limiting the countries from which we can purchase raw materials and setting duties or restrictions on products that may be imported into the United States from a particular country. In addition, the World Trade Organization may commence a new round of trade negotiations that liberalize textile trade by further eliminating or reducing tariffs. The elimination of quotas on World Trade Organization member countries in 2005 has resulted in explosive growth in textile imports from China, and subsequent safeguard measures including embargo of certain China country of origin products. Actions taken to avoid these measures caused disruption, and a negative impact on margins. In 2006, quota was temporarily reinstated for China until 2008 for certain import merchandise categories. Such disruptions and the temporary measures may continue to affect us to some extent in the future.

OUR DEPENDENCE ON INDEPENDENT MANUFACTURERS REDUCES OUR ABILITY TO CONTROL THE MANUFACTURING PROCESS, WHICH COULD HARM OUR SALES, REPUTATION AND OVERALL PROFITABILITY.

We depend on independent contract manufacturers to secure a sufficient supply of raw materials and maintain sufficient manufacturing and shipping capacity in an environment characterized by declining prices, labor shortage, continuing cost pressure and increased demands for product innovation and speed-to-market. This dependence could subject us to difficulty in obtaining timely delivery of products of acceptable quality. In addition, a contractor's failure to ship products to us in a timely manner or to meet the required quality standards could cause us to miss the delivery date requirements of our customers. The failure to make timely deliveries may cause our customers to cancel orders, refuse to accept deliveries, impose non-compliance charges through invoice deductions or other charge-backs, demand reduced prices or reduce future orders, any of which could harm our sales, reputation and overall profitability. We do not have material long-term contracts with any of our independent contractors and any of these contractors may unilaterally terminate their relationship with us at any time. To the extent we are not able to secure or maintain relationships with independent contractors that are able to fulfill our requirements, our business would be harmed.

We have implemented a factory compliance agreement with our suppliers, and monitor our independent contractors' compliance with applicable labor laws, but we do not control our contractors or their labor practices. The violation of federal, state or foreign labor laws by one of the our contractors could result in our being subject to fines and our goods that are manufactured in violation of such laws being seized or their sale in interstate commerce being prohibited. From time to time, we have been

notified by federal, state or foreign authorities that certain of our contractors are the subject of investigations or have been found to have violated applicable labor laws. To date, we have not been subject to any sanctions that, individually or in the aggregate, have had a material adverse effect on our business, and we are not aware of any facts on which any such sanctions could be based. There can be no assurance, however, that in the future we will not be subject to sanctions as a result of violations of applicable

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

labor laws by our contractors, or that such sanctions will not have a material adverse effect on our business and results of operations. In addition, certain of our customers, require strict compliance by their apparel manufacturers, including us, with applicable labor laws and visit our facilities often. There can be no assurance that the violation of applicable labor laws by one of our contractors will not have a material adverse effect on our relationship with our customers.

OUR BUSINESS IS SUBJECT TO RISKS OF OPERATING IN A FOREIGN COUNTRY AND TRADE RESTRICTIONS.

We are subject to the risks associated with doing business in foreign countries, including, but not limited to, transportation delays and interruptions, political instability, expropriation, currency fluctuations and the imposition of tariffs, import and export controls, other non-tariff barriers and cultural issues. Any changes in those countries' labor laws and government regulations may have a negative effect on our profitability.

RISK ASSOCIATED WITH OUR INDUSTRY

OUR SALES ARE HEAVILY INFLUENCED BY GENERAL ECONOMIC CYCLES.

Apparel is a cyclical industry that is heavily dependent upon the overall level of consumer spending. Purchases of apparel and related goods tend to be highly correlated with cycles in the disposable income of our consumers. Our customers anticipate and respond to adverse changes in economic conditions and uncertainty by reducing inventories and canceling orders. As a result, any substantial deterioration in general economic conditions, increases in interest rates, acts of war, terrorist or political events that diminish consumer spending and confidence in any of the regions in which we compete, could reduce our sales and adversely affect our business and financial condition.

OUR BUSINESS IS HIGHLY COMPETITIVE AND DEPENDS ON CONSUMER SPENDING PATTERNS.

The apparel industry is highly competitive. We face a variety of competitive challenges including:

- o anticipating and quickly responding to changing consumer demands;
- o developing innovative, high-quality products in sizes, colors and styles that appeal to consumers of varying age groups and tastes;
- o competitively pricing our products and achieving customer perception of value; and
- o the need to provide strong and effective marketing support.

WE MUST SUCCESSFULLY GAUGE FASHION TRENDS AND CHANGING CONSUMER PREFERENCES TO SUCCEED.

Our success is largely dependent upon our ability to gauge the fashion tastes of our customers and to provide merchandise that satisfies retail and customer demand in a timely manner. The apparel business fluctuates according to changes in consumer preferences dictated in part by fashion and season. To the extent we misjudge the market for our merchandise our sales may be adversely affected. Our ability to anticipate and effectively respond to changing fashion trends depends in part on our ability to attract and retain key personnel in our design, merchandising and marketing staff. Competition for these

personnel is intense, and we cannot be sure that we will be able to attract and retain a sufficient number of qualified personnel in future periods.

OUR BUSINESS IS SUBJECT TO SEASONAL TRENDS.

Historically, our operating results have been subject to seasonal trends when measured on a quarterly basis. This trend is dependent on numerous factors, including the markets in which we operate, holiday seasons, consumer demand, climate, economic conditions and numerous other factors beyond our control. There can be no assurance that our historic operating patterns will continue in future periods as we cannot influence or forecast many of these factors.

OTHER RISKS RELATED TO AN INVESTMENT IN OUR COMMON STOCK

THE ULTIMATE RESOLUTION OF THE INTERNAL REVENUE SERVICE'S EXAMINATION OF OUR TAX RETURNS MAY REQUIRE US TO INCUR AN EXPENSE BEYOND WHAT HAS BEEN RESERVED FOR ON OUR BALANCE SHEET OR MAKE CASH PAYMENTS BEYOND WHAT WE ARE THEN ABLE TO PAY.

In January 2004, the Internal Revenue Service proposed adjustments to increase our federal income tax payable for the years ended December 31, 1996 through 2001. In addition, in July 2004, the IRS initiated an examination of our Federal income tax return for the year ended December 31, 2002. In March 2005, the IRS proposed an adjustment to our taxable income of approximately \$9 million related to similar issues identified in their audit of the 1996 through 2001 federal income tax returns. This adjustment would also result in additional state taxes, penalties and interest. We believe that we have meritorious defenses to and intend to vigorously contest the proposed adjustments made to our federal income tax returns for the years ended 1996 through 2002. If the proposed adjustments are upheld through the administrative and legal process, they could have a material impact on our earnings and cash flow. We believe we have provided adequate reserves for any reasonably foreseeable outcome related to these matters on the consolidated balance sheets under the caption "Income Taxes". The maximum amount of loss in excess of the amount accrued in the financial statements is \$8.3 million. If the amount of any actual liability, however, exceeds our reserves, we would experience an immediate adverse earnings impact in the amount of such additional liability, which could be material. Additionally, we anticipate that the ultimate resolution of these matters will require that we make significant cash payments to the taxing authorities. Presently we do not have sufficient cash to make any future payments that may be required. No assurance can be given that we will have sufficient surplus cash from operations to make the required payments. Additionally, any cash used for these purposes will not be available for other corporate purposes, which could have a material adverse effect on our financial condition and results of operations.

INSIDERS OWN A SIGNIFICANT PORTION OF OUR COMMON STOCK, WHICH COULD LIMIT OUR SHAREHOLDERS' ABILITY TO INFLUENCE THE OUTCOME OF KEY TRANSACTIONS.

As of March 23, 2007, our executive officers and directors and their affiliates owned approximately 43% of our common stock. Gerard Guez, our Chairman and Interim Chief Executive Officer, and Todd Kay, our Vice Chairman, alone own approximately 33% and 8%, respectively, of our common stock at March 23, 2007. Accordingly, our executive officers and directors have the ability to affect the outcome of, or exert considerable influence over, all matters requiring shareholder approval, including the election and removal of directors and any change in control. If the proposed Buffalo acquisition is completed, the shares our stock to be issued to the sellers in the stock and asset purchase

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

transaction will collectively comprise approximately 30% of the total voting power of our shares immediately after the closing of these transactions. As a result, the Buffalo sellers and our existing significant shareholders would have the ability, if voting together, to control the outcome over most

15

matters requiring shareholder approval. This concentration of ownership of our common stock could have the effect of delaying or preventing a change of control of us or otherwise discouraging or preventing a potential acquirer from attempting to obtain control of us. This, in turn, could have a negative effect on the market price of our common stock. It could also prevent our shareholders from realizing a premium over the market prices for their shares of common stock.

WE HAVE ADOPTED A NUMBER OF ANTI-TAKEOVER MEASURES THAT MAY DEPRESS THE PRICE OF OUR COMMON STOCK.

Our shareholders rights plan, our ability to issue additional shares of preferred stock and some provisions of our articles of incorporation and bylaws could make it more difficult for a third party to make an unsolicited takeover attempt of us. These anti-takeover measures may depress the price of our common stock by making it more difficult for third parties to acquire us by offering to purchase shares of our stock at a premium to its market price without approval of our board of directors.

OUR STOCK PRICE HAS BEEN VOLATILE.

Our common stock is quoted on the NASDAQ Global Market, and there can be substantial volatility in the market price of our common stock. The market price of our common stock has been, and is likely to continue to be, subject to significant fluctuations due to a variety of factors, including quarterly variations in operating results, operating results which vary from the expectations of securities analysts and investors, changes in financial estimates, changes in market valuations of competitors, announcements by us or our competitors of a material nature, loss of one or more customers, additions or departures of key personnel, future sales of common stock and stock market price and volume fluctuations. In addition, general political and economic conditions such as a recession, or interest rate or currency rate fluctuations may adversely affect the market price of our common stock.

In addition, the stock market in general has experienced extreme price and volume fluctuations that have affected the market price of our common stock. Often, price fluctuations are unrelated to operating performance of the specific companies whose stock is affected. In the past, following periods of volatility in the market price of a company's stock, securities class action litigation has occurred against the issuing company. If we were subject to this type of litigation in the future, we could incur substantial costs and a diversion of our management's attention and resources, each of which could have a material adverse effect on our revenue and earnings. Any adverse determination in this type of litigation could also subject us to significant liabilities.

ABSENCE OF DIVIDENDS COULD REDUCE OUR ATTRACTIVENESS TO YOU.

Some investors favor companies that pay dividends, particularly in general downturns in the stock market. We have not declared or paid any cash dividends on our common stock. We currently intend to retain any future earnings for funding growth, and we do not currently anticipate paying cash dividends on our common stock in the foreseeable future. Additionally, we cannot pay

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

dividends on our common stock unless the terms of our bank credit facilities and outstanding preferred stock, if any, permit the payment of dividends on our common stock. Because we may not pay dividends, your return on this investment likely depends on your selling our stock at a profit.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

16

ITEM 2. PROPERTIES

At March 23, 2007, we conducted our operations from 9 facilities, 7 of which were leased. The following table sets forth our facilities, and for leased facilities the annual rental amount of, expiration of the current lease:

Location -----	Purpose -----	Annual Rental Amount -----	Expiration -----
Los Angeles, CA (Washington Blvd.)	Executive offices and warehouse	\$656,000	July 2011
New York, NY	Showroom	\$150,000	August 2007
New York, NY	Showroom	\$559,000	June 2015
Ruleville, MS (2 facilities)	Office and warehouse	Own	
Hong Kong	Office and warehouse	\$480,000	January 2008
Hong Kong	Warehouse	\$17,000	July 2007
Tehuacan, Mexico	Storage	\$5,000	Month-to-month
Puebla, Mexico	Office and Storage	\$5,000	March 2008

We lease our executive offices and warehouse in Los Angeles, California from GET, a corporation which is owned by Gerard Guez, our Chairman and Interim Chief Executive Officer, and Todd Kay, our Vice Chairman. Additionally, we lease our warehouse and office space in Hong Kong from Lynx International Limited, a Hong Kong corporation that is owned by Messrs. Guez and Kay. On August 1, 2006, we entered into a lease agreement with GET for our executive offices and warehouse in Los Angeles, which lease has a term of five years with an option to renew for an additional five year term. On February 1, 2007, we entered into a one year lease agreement with Lynx International Limited for our office space and warehouse in Hong Kong.

We own two facilities in Ruleville, Mississippi with an aggregate of 70,000 square feet.

We entered into a lease agreement in June 2005 in New York for our showroom through June 2015. This is currently the location used for the private brands sales, design and technical departments, which functions were moved from our Los Angeles executive office.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

We renewed our lease agreement in March 2007 in Mexico for our office and storage through March 2008.

We believe that all of our existing facilities are well maintained, in good operating condition and adequate to meet our current and foreseeable needs.

ITEM 3. LEGAL PROCEEDINGS

On or about April 6, 2006, we commenced an action against the licensor of the Jessica Simpson brands (captioned Tarrant Apparel Group v. Camuto Consulting Group, Inc., VCJS LLC, With You, Inc. and Jessica Simpson) in the Supreme Court of the State of New York, County of New York. The suit named Camuto Consulting Group, Inc., VCJS LLC, With You, Inc. and Jessica Simpson as defendants, and asserts that the defendants failed to provide promised support in connection with our sublicense agreement for the Jessica

17

Simpson brands. Our complaint includes eight causes of action, including two seeking a declaration that the sublicense agreement is exclusive and remains in full force and effect, as well as claims for breach of contract by Camuto Consulting, breach of the duty of good faith and fair dealing and fraudulent inducement against Camuto Consulting, and a claim against With You, Inc. and Ms. Simpson that we are an intended third party beneficiary of the licenses between those defendants and Camuto Consulting. On or about April 26, 2006, Camuto Consulting served its answer to our complaint and included a counterclaim against us for breach of the sublicense agreement and alleging damages of no less than \$100 million. With You, Inc. has also filed counterclaims against us, alleging trademark infringement, unfair competition and business practices, violation of the right of privacy and other claims, and seeking injunctive relief and damages in an amount to be determined but no less than \$100 million plus treble and punitive damages. Discovery in the matter has been underway since May 2006. Oral argument on the appeal of the trial court's ruling with respect to one motion was held on March 21, 2007, and the parties await a decision. We intend to continue to vigorously pursue this action and defend the counterclaims.

From time to time, we are involved in various routine legal proceedings incidental to the conduct of our business. Our management does not believe that any of these legal proceedings will have a material adverse impact on our business, financial condition or results of operations, either due to the nature of the claims, or because our management believes that such claims should not exceed the limits of the our insurance coverage.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of our shareholders during the fourth quarter of 2006.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

NASDAQ GLOBAL MARKET

Our common stock is quoted on the NASDAQ Stock Market's Global Market under the symbol "TAGS." The following table sets forth, for the periods

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

indicated, the range of high and low sale prices for our common stock as reported by NASDAQ.

	Low	High
2005		

First Quarter.....	1.50	2.62
Second Quarter.....	1.35	3.88
Third Quarter.....	2.76	4.12
Fourth Quarter.....	1.02	3.15
2006		

First Quarter.....	1.06	1.44
Second Quarter.....	1.25	2.11
Third Quarter.....	1.29	2.00
Fourth Quarter.....	1.19	1.60

On March 23, 2007, the last reported sale price of our common stock as reported by NASDAQ was \$1.55. As of March 23, 2007, we had 25 shareholders of record.

18

DIVIDEND POLICY

We have not declared dividends on our common stock during either of the last two fiscal years. We intend to retain any future earnings for use in our business and, therefore, do not anticipate declaring or paying any cash dividends in the foreseeable future. The declaration and payment of any cash dividends in the future will depend upon our earnings, financial condition, capital needs and other factors deemed relevant by the Board of Directors. In addition, our credit agreements prohibit the payment of dividends during the term of the agreements.

PERFORMANCE GRAPH

The following graph sets forth the percentage change in cumulative total shareholder return of our common stock during the five-year period from December 31, 2001 to December 31, 2006, compared with the cumulative returns of the NASDAQ Composite Index and a peer group of companies. The component entities of the peer group consist of Accesstel Inc., GS Energy Corp., Maidenform Brands Inc. and Nitches Inc. and were generated by Research Data Group, Inc. The comparison assumes \$100 was invested on December 31, 2001 in our common stock and in each of the foregoing indices. The stock price performance on the following graph is not necessarily indicative of future stock price performance.

[PERFORMANCE GRAPH OMITTED]

	Cumulative Total Return

(1) Major components of other income (expense) (as presented above) include rental and lease income, and foreign currency gains or losses. See "Item 7.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Management's Discussion and Analysis of Financial Condition and Results of Operations."

- (2) Effective January 1, 2002, we adopted Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets." According to this statement, goodwill and other intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment applied on a fair-value-based test. We adopted SFAS No. 142 in fiscal 2002 and performed our first annual assessment of impairment, which resulted in an impairment loss of \$4.9 million.
- (3) The expense in 2004 was the impairment of long-lived assets of our Mexico operations due to our decision to sell the manufacturing operations in Mexico. The expense in 2003 was the impairment of our goodwill and intangible assets and write-off of prepaid expenses due to our decision to cease directly operating a substantial majority of our equipment and fixed assets in Mexico commencing in the third quarter of 2003. See Note 5 of the "Notes to Consolidated Financial Statements."
- (4) Cumulative translation loss attributable to liquidated Mexico operations in 2004 was due to our decision to cease our Mexico operations. See Note 5 of the "Notes to Consolidated Financial Statements."
- (5) In the third quarter of 2006, we evaluated the recoverability of the notes receivable - related parties and recorded a reserve on the notes receivable in an amount equal to the outstanding balance less the value of the underlying assets securing the notes. The loss was estimated to be approximately \$27.1 million, resulting in a notes receivable balance at September 30, 2006 of approximately \$14 million. We believe there was no significant change subsequently on the value of the underlying assets securing the notes; therefore, we did not have additional reserve in the fourth quarter of 2006. We will continue to pursue payment of all amounts under the notes receivable and believe the remaining \$14 million balance at December 31, 2006 is realizable. See Note 5 of the "Notes to Consolidated Financial Statements."

21

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read together with the Consolidated Financial Statements of Tarrant Apparel Group and the "Notes to Consolidated Financial Statements" included elsewhere in this Form 10-K. This discussion summarizes the significant factors affecting the consolidated operating results, financial condition and liquidity and cash flows of Tarrant Apparel Group for the fiscal years ended December 31, 2004, 2005 and 2006. Except for historical information, the matters discussed in this Management's Discussion and Analysis of Financial Condition and Results of Operations are forward looking statements that involve risks and uncertainties and are based upon judgments concerning various factors that are beyond our control. See "Cautionary Statement Regarding Forward-Looking Statements" and "Item 1A. Risk Factors."

OVERVIEW

Tarrant Apparel Group is a design and sourcing company for private label and private brand casual apparel serving mass merchandisers, department stores, branded wholesalers and specialty chains located primarily in the United States. Our private brands include American Rag Cie and Alain Weiz.

We generate revenues from the sale of apparel merchandise to our

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

customers that we have manufactured by third party contract manufacturers located outside of the United States. Revenues and net income (loss) for the years ended December 31, 2004, 2005 and 2006 were as follows (dollars in thousands):

REVENUES AND NET INCOME (LOSS):	2004 -----	2005 -----	2006 -----
Net sales	\$ 155,453	\$ 214,648	\$ 232,402
Net income (loss)	\$(104,677)	\$ 993	\$ (22,221)

Cash flows for the years ended December 31, 2004, 2005 and 2006 were as follows (dollars in thousands):

CASH FLOWS:	2004 -----	2005 -----	2006 -----
Net cash provided by (used in) operating activities	\$ 12,168	\$(12,900)	\$ 15,047
Net cash provided by (used in) investing activities	\$ 1,250	\$ 3,555	\$ (5,071)
Net cash provided by (used in) financing activities	\$(15,552)	\$ 9,772	\$(10,713)

SIGNIFICANT DEVELOPMENTS IN 2006

THE BUFFALO GROUP

On December 6, 2006, we entered into a definitive stock and asset purchase agreement (the "Purchase Agreement") to acquire certain assets and entities comprising The Buffalo Group. The Buffalo Group designs, imports and sells contemporary branded apparel and accessories, primarily in Canada and the United States.

Pursuant to the Purchase Agreement, we and our subsidiaries agreed to acquire (1) all the outstanding capital stock of four principal operating subsidiaries of The Buffalo Group - Buffalo Inc., 3163946 Canada Inc., 3681441 Canada Inc. and Buffalo Corporation, and (2) certain assets, consisting

22

primarily of intellectual property rights and licenses, from The Buffalo Trust. The consideration for the stock and assets to be purchased by us under the Purchase Agreement will consist of:

- o \$40,000,000 in cash, subject to reduction prior to closing;
- o \$15,000,000 in promissory notes that are due and payable in five equal annual installments beginning on the second anniversary of the closing date;
- o The issuance to the sellers of 13,000,000 exchangeable shares of our Canadian subsidiary, which shares will be exchangeable by the holders into shares of our common stock on a 1-to-1 basis;
- o The issuance by us to a trustee of shares of our Series A

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Special Voting Preferred Stock that will entitle the sellers to direct the trustee to vote a number of shares equal to the number of exchangeable shares of our Canadian subsidiary that remain outstanding from time to time on all matters on which our shareholders are entitled to vote;

- o Assumption of debt of the entities being acquired by us; and
- o Earn-out payments of up to \$12,000,000 in the aggregate over a four year period, contingent upon achievement by the acquired business of specified earnings targets in years 2007 through 2010.

In addition, we may be required to make a contingent cash payment following the fifth anniversary of the closing if the average price of our common stock does not equal or exceed \$3.076 within any 10 trading days during the five year period following the closing of the purchase transaction.

At signing of the Purchase Agreement, we delivered \$5,000,000 to the sellers as a deposit against the purchase price payable under the agreement. Upon closing, this deposit will be used to pay a portion of the consideration payment and will reduce the amount of cash delivered at closing. Under certain conditions specified under the agreement, if we or the Buffalo Group terminate the agreement prior to closing, the \$5.0 million deposit may or may not be refundable to us.

Pursuant to the Purchase Agreement, at the closing we will enter into employment agreements with each of Gabriel Bitton, Gilbert Bitton, David Bitton, Charles Bitton and Michel Bitton pursuant to which they will serve as senior executives of the acquired business, and we have agreed to issue options to purchase an aggregate of 2,000,000 shares of our common stock to the Bittons. Gabriel Bitton will continue to serve as Chief Executive Officer of the acquired business following closing and will be appointed to our Board of Directors. A second nominee of the sellers reasonably acceptable to us will also be nominated to serve on our Board of Directors upon completion of the transaction.

The completion of the transaction is subject to the satisfaction of a number of conditions as set forth in the Purchase Agreement, including among others, the approval of the acquisition and related transactions by our shareholders, our obtaining the necessary financing to complete the acquisition, obtaining certain third party consents, and other customary closing conditions. Dates for closing the acquisition and for our shareholders' meeting to vote on the acquisition have not yet been determined. The Purchase Agreement may be terminated under certain conditions, including by mutual written consent of the parties, by either party in the event of a material breach by the other party, or by either party if the closing does not occur by April 30, 2007.

There are no material relationships between us and The Buffalo Group, other than in respect of the Purchase Agreement.

The Buffalo Group transaction is part of our strategy to grow and diversify our business. We believe its benefits to us will include:

23

- o Expanding our operations by adding additional proprietary brands and products to compete more effectively;
- o Expanding the scope, scale and strength of our operations by

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

expanding its marketing, sales and distribution capabilities;

- o Enhancing our capabilities to compete in Canada, the United States and other markets; and utilize The Buffalo Group's existing sales and marketing infrastructure as a platform for expanding sales of our apparel products; and
- o Providing opportunities for us to penetrate new markets and expand our share in existing markets.

The Buffalo Group was started in 1985 as the distributor of Buffalo branded products in Canada. Initially, the Buffalo brand was a denim line, but it has been expanded over time. In 1993, The Buffalo Group widened its customer base by adding U.S. retailers. In 2000, The Buffalo Group started a private label business for retailers in Canada and the U.S. In 1996, Buffalo opened its first retail store in Canada. Currently it operates 45 retail stores in Canada. Over this time Buffalo has added additional brand names to its line. It has also developed a licensing program for the Buffalo brand for the sale of apparel-related products in Canada, and the sale of apparel products in foreign countries.

PRIVATE LABEL

Private label business has been our core competency for over twenty years, and involves a one to one relationship with a large, centrally controlled retailer with whom we can develop product lines that fit with the characteristics of their particular customer. Private label sales in 2006 were \$181.2 million compared to \$159.6 million in 2005.

PRIVATE BRANDS

We launched our private brands initiative in 2003, pursuant to which we acquire ownership of or license rights to a brand name and sell apparel products under this brand, generally to a single retail company within a geographic region. Private brands sales in 2006 were \$51.2 million compared to \$55.0 million in 2005. During 2006, we owned or licensed rights to the following private brands:

- o AMERICAN RAG CIE: During the first quarter of 2005, we extended our agreement with Macy's Merchandising Group through 2014, pursuant to which we exclusively distribute our American Rag Cie brand through Macy's Merchandising Group's national Department Store organization of more than 600 stores. Net sales of American Rag Cie branded apparel totaled \$34.4 million in 2006 compared to \$21.8 million in 2005.
- o ALAIN WEIZ: We have previously sold Alan Weiz apparel exclusively to Dillard's Department Stores. Net sales of Alain Weiz branded apparel totaled \$5.5 million in 2006 compared to \$5.3 million in 2005. From January 1, 2007, we may sell our licensed brand "Alain Weiz" to specialty stores and department stores.
- o SOUVENIR BY CYNTHIA ROWLEY: In July 2006, we terminated our License Agreements and the parent guaranty with Cynthia Rowley. In consideration of termination of the License Agreements, \$400,000 was paid to Cynthia Rowley in July 2006.
- o GEAR 7: During the fourth quarter of 2005, K-Mart discontinued sales of Gear 7 products, which resulted in a decline in sales for this brand in the fourth quarter of 2005. Net sales

of Gear 7 branded apparel totaled \$14.4 million in 2005. We did not have any sales of Gear 7 branded apparel in 2006.

- o JESSICA SIMPSON brands: The JS by Jessica Simpson brand was originally launched as a denim line with Charming Shoppes. Net sales of JS by Jessica Simpson and Princy by Jessica Simpson, which is the department store and better specialty store brand, totaled \$8.9 million in 2006 compared to \$12.6 million in 2005. In March 2006, we became involved in a dispute with the licensor of the Jessica Simpson brands over our continued rights to these brands, and we are presently in litigation with this licensor. Accordingly, we did not have any sales of Jessica Simpson branded apparel after the first quarter of 2006 and do not anticipate any sales unless and until we are able to successfully resolve our dispute and retain our rights to these brands.
- o HOUSE OF DEREON BY TINA KNOWLES: We began shipping products for the House of Dereon by Tina Knowles brand in the fourth quarter of 2005, resulting in net sales of \$309,000 in 2005. In March 2006, we terminated our license agreement for this brand, and sold our remaining inventory to the licensor or its designee. Prior to December 31, 2005, we had written off the capitalized balance of \$1.2 million related to the agreement and recognized a corresponding loss in 2005. Net sales of House of Dereon by Tina Knowles branded apparel totaled \$2.2 million in 2006 which included \$1.5 million of sales of inventory to a designee of the licensor.

NOTES RECEIVABLE - RELATED PARTY RESERVE

In connection with the sale in 2004 of our assets and real property in Mexico, the purchasers of the Mexico assets issued us unsecured promissory notes of \$3,910,000 that mature on November 30, 2007 and secured promissory notes of \$40,204,000 that mature on December 31, 2014 and are payable in partial or total amounts anytime prior to the maturity of each note. The secured notes are secured by the real and personal property in Mexico that we sold to the purchasers. As of September 30, 2006, the outstanding balance of the notes and interest receivables were \$41.1 million prior to the reserve. Historically, we have placed orders for purchases of fabric from the purchasers pursuant to the purchase commitment agreement we entered into at the time of the sale of the Mexico assets, and we have satisfied our payment obligations for the fabric by offsetting the amounts payable against the amounts due to us under the notes. However, during 2006, the purchasers ceased providing fabric and are not currently making payments under the notes. We further evaluated the recoverability of the notes receivable and recorded a loss on the notes receivable in the third quarter of 2006 in an amount equal to the outstanding balance less the value of the underlying assets securing the notes. The loss was estimated to be approximately \$27.1 million, resulting in a net notes receivable balance at September 30, 2006 of approximately \$14 million. We believe there was no significant change subsequently on the value of the underlying assets securing the notes; therefore, we did not have additional reserve in the fourth quarter of 2006. We will continue to pursue payment of all amounts under the notes receivable and believe the remaining \$14 million balance at December 31, 2006 is realizable. The entire reserve was recorded in the Luxembourg geographic reporting segment.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

CREDIT FACILITY REFINANCING

In June 2006, we entered into a new \$65 million credit facility with Guggenheim Corporate Funding, LLC (as agent for certain lenders) and expanded our existing facilities with GMAC Commercial Finance Credit, LLC and DBS Bank (Hong Kong) Limited. The credit facility with Guggenheim consists of an initial term loan of \$25 million, of which \$15.5 million was advanced at the initial closing. The initial term loan was or will be used to repay certain existing indebtedness and fund general operating and

25

working capital needs. A second term loan of up to \$40 million will be available to finance acquisitions acceptable to Guggenheim as agent. In addition, in June 2006, our credit facility with GMAC Commercial Finance Credit, LLC and other lenders was increased from \$45 million to \$55 million, and our credit facility with DBS Bank (Hong Kong) Limited was increased from \$4.5 million to \$25 million. These financings significantly expand our borrowing base, which provides us with enhanced financial flexibility.

INTERNAL REVENUE SERVICE AUDIT

In January 2004, the Internal Revenue Service completed its examination of our Federal income tax returns for the years ended December 31, 1996 through 2001. The IRS has proposed adjustments to increase our income tax payable for the six years under examination. In addition, in July 2004, the IRS initiated an examination of our Federal income tax return for the year ended December 31, 2002. In March 2005, the IRS proposed an adjustment to our taxable income of approximately \$9 million related to similar issues identified in their audit of the 1996 through 2001 federal income tax returns. The proposed adjustments to our 2002 federal income tax return would not result in additional tax due for that year due to the tax loss reported in the 2002 federal return. However, it could reduce the amount of net operating losses available to offset taxes due from the preceding tax years. This adjustment would also result in additional state taxes, penalties and interest. We believe that we have meritorious defenses to and intend to vigorously contest the proposed adjustments made to our federal income tax returns for the years ended 1996 through 2002. If the proposed adjustments are upheld through the administrative and legal process, they could have a material impact on our earnings and cash flow. We believe we have provided adequate reserves for any reasonably foreseeable outcome related to these matters on the consolidated balance sheets under the caption "Income Taxes". The maximum amount of loss in excess of the amount accrued in the financial statements is \$8.3 million. We do not believe that the adjustments, if any, arising from the IRS examination, will result in an additional income tax liability beyond what is recorded in the accompanying consolidated balance sheets.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. We are required to make assumptions about matters, which are highly uncertain at the time of the estimate. Different estimates we could reasonably have used or changes in the estimates that are reasonably likely to occur could have a material effect on our financial condition or result of

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

operations. Estimates and assumptions about future events and their effects cannot be determined with certainty. On an ongoing basis, we evaluate estimates, including those related to returns, discounts, bad debts, inventory, notes receivable - related parties reserve, intangible assets, income taxes, stock options valuation, contingencies and litigation. We base our estimates on historical experience and on various assumptions believed to be applicable and reasonable under the circumstances. These estimates may change as new events occur, as additional information is obtained and as our operating environment changes. In addition, management is periodically faced with uncertainties, the outcomes of which are not within its control and will not be known for prolonged period of time.

We believe our financial statements are fairly stated in accordance with accounting principles generally accepted in the United States of America and provide a meaningful presentation of our financial condition and results of operations.

26

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements. For a further discussion on the application of these and other accounting policies, see Note 1 of the "Notes to Consolidated Financial Statements."

ACCOUNTS RECEIVABLE--ALLOWANCE FOR RETURNS, DISCOUNTS AND BAD DEBTS

We evaluate the collectibility of accounts receivable and chargebacks (disputes from the customer) based upon a combination of factors. In circumstances where we are aware of a specific customer's inability to meet its financial obligations (such as in the case of bankruptcy filings or substantial downgrading of credit sources), a specific reserve for bad debts is taken against amounts due to reduce the net recognized receivable to the amount reasonably expected to be collected. For all other customers, we recognize reserves for bad debts and uncollectible chargebacks based on our historical collection experience. If collection experience deteriorates (for example, due to an unexpected material adverse change in a major customer's ability to meet its financial obligations to us), the estimates of the recoverability of amounts due to us could be reduced by a material amount.

As of December 31, 2006, the balance in the allowance for returns, discounts and bad debts reserves was \$2.1 million, compared to \$3.0 million at December 31, 2005.

INVENTORY

Our inventories are valued at the lower of cost or market. Under certain market conditions, we use estimates and judgments regarding the valuation of inventory to properly value inventory. Inventory adjustments are made for the difference between the cost of the inventory and the estimated market value and charged to operations in the period in which the facts that give rise to the adjustments become known.

VALUATION OF LONG-LIVED AND INTANGIBLE ASSETS AND GOODWILL

We assess the impairment of identifiable intangibles, long-lived assets and goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors considered important that could trigger an impairment review include, but are not limited to, the following:

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

- o a significant underperformance relative to expected historical or projected future operating results;
- o a significant change in the manner of the use of the acquired asset or the strategy for the overall business; or
- o a significant negative industry or economic trend.

Effective January 1, 2002, we adopted Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." According to this statement, goodwill and other intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment applied on a fair-value-based test on an annual basis or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

We utilized the discounted cash flow methodology to estimate fair value. At December 31, 2006, we have a goodwill balance of \$8.6 million, and a net property and equipment balance of \$1.4 million, as compared to a goodwill balance of \$8.6 million and a net property and equipment balance of \$1.7 million

27

at December 31, 2005. During the years ended December 31, 2005 and 2006, we did not recognize any impairment related to goodwill and property and equipment.

We assess the carrying value of long-lived assets in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." In 2004, we evaluated the long-lived assets in Mexico for recoverability and concluded that the book value of the asset group was significantly higher than the expected future cash flows and that impairment had occurred. Accordingly, we recognized a non-cash impairment loss of approximately \$78 million in the second quarter of 2004. The impairment charge was the difference between the carrying value and fair value of the impaired assets. Our determination of fair value was determined based on independent appraisals of the property and equipment obtained in June 2004.

FOREIGN CURRENCY TRANSLATION

Assets and liabilities of our Mexico and Hong Kong subsidiaries are translated at the rate of exchange in effect on the balance sheet date; income and expenses are translated at the average rates of exchange prevailing during the respective periods. The functional currency in which we transact business in Hong Kong is the Hong Kong dollar and in Mexico is the peso.

Foreign currency gains and losses resulting from translation of assets and liabilities are included in other comprehensive income (loss). Transaction gains or losses, other than inter-company debt deemed to be of a long-term nature, are included in net income (loss) in the period in which they occur.

REVENUE RECOGNITION

Revenue is recognized at the point of shipment for all merchandise sold based on FOB shipping point. For merchandise shipped on landed duty paid ("LDP") terms, revenue is recognized at the point of either leaving Customs for direct shipments or at the point of leaving our warehouse where title is transferred, net of an estimate of returned merchandise and discounts. Customers are allowed the rights of return or non-acceptance only upon receipt of damaged products or

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

goods with quality different from shipment samples. We do not undertake any after-sale warranty or any form of price protection.

We often arrange, on behalf of manufacturers, for the purchase of fabric from a single supplier. We have the fabric shipped directly to the cutting factory and invoice the factory for the fabric. Generally, the factories pay us for the fabric with offsets against the price of the finished goods.

STOCK-BASED COMPENSATION

On January 1, 2006, we adopted SFAS No. 123 (revised 2004), "Share-Based Payment," which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. SFAS No. 123(R) supersedes our previous accounting under Accounting Principles Board Opinion ("ABP") No. 25, "Accounting for Stock Issued to Employees" for periods beginning in fiscal 2006. In March 2005, the SEC issued Staff Accounting Bulletin ("SAB") No. 107 relating to SFAS No. 123(R). We have applied the provisions of SAB No. 107 in our adoption of SFAS No. 123(R).

We adopted SFAS No. 123(R) using the modified prospective transition method, which requires the application of the accounting standard as of January 1, 2006, the first day of our fiscal year 2006. Our financial statements as of and for year ended December 31, 2006 reflect the impact of SFAS 123(R). In accordance with the modified prospective transition method, our financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS No. 123(R). Stock-based

28

compensation expense recognized under SFAS No. 123(R) during the year ended December 31, 2006 was \$187,000. Basic and dilutive earnings per share for the year ended December 31, 2006 were decreased by \$0.01 from \$(0.72) to \$(0.73) by the additional stock-based compensation recognized.

The fair value of each option granted to employees and directors is estimated on the date of grant using the Black-Scholes option-pricing model ("Black-Scholes model") with the following weighted average assumptions used for grants in 2004, 2005 and 2006: weighted-average volatility factors of the expected market price of our common stock of 0.51 to 0.55 for 2004, 0.55 for 2005 and 0.7 for 2006, weighted-average risk-free interest rates of 3% to 4% for 2004, 4% for 2005 and 5.075% for 2006, dividend yield of 0% for 2004, 2005 and 2006, and weighted-average expected life of the options of 4 years for 2004, 2005 and 6.25 years for 2006.

INCOME TAXES

As part of the process of preparing our consolidated financial statements, management is required to estimate income taxes in each of the jurisdictions in which we operate. The process involves estimating actual current tax expense along with assessing temporary differences resulting from differing treatment of items for book and tax purposes. These timing differences result in deferred tax assets and liabilities, which are included in our consolidated balance sheets. Management records a valuation allowance to reduce its deferred tax assets to the amount that is more likely than not to be realized. Management has considered future taxable income and ongoing tax planning strategies in assessing the need for the valuation allowance. Increases in the valuation allowance result in additional expense to be reflected within the tax provision in the consolidated statement of operations.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

In addition, accruals are also estimated for ongoing audits regarding U.S. Federal tax issues that are currently unresolved, based on our estimate of whether, and the extent to which, additional taxes will be due. We routinely monitor the potential impact of these situations and believe that amounts are properly accrued for. If we ultimately determine that payment of these amounts is unnecessary, we will reverse the liability and recognize a tax benefit during the period in which we determine that the liability is no longer necessary. We will record an additional charge in our provision for taxes in any period we determine that the original estimate of a tax liability is less than we expect the ultimate assessment to be. See Note 12 of the "Notes to Consolidated Financial Statements" for a discussion of current tax matters.

DEBT COVENANTS

Our debt agreements require certain covenants including a minimum level of EBITDA and specified tangible net worth; and required interest coverage ratio and leverage ratio as discussed in Note 9 of the "Notes to Consolidated Financial Statements." If our results of operations erode and we are not able to obtain waivers from the lenders, the debt would be in default and callable by our lenders. In addition, due to cross-default provisions in our debt agreements, substantially all of our long-term debt would become due in full if any of the debt is in default. In anticipation of us not being able to meet the required covenants due to various reasons, we either negotiate for changes in the relative covenants or an advance waiver or reclassify the relevant debt as current. We also believe that our lenders would provide waivers if necessary. However, our expectations of future operating results and continued compliance with other debt covenants cannot be assured and our lenders' actions are not controllable by us. If projections of future operating results are not achieved and the debt is placed in default, we would be required to reduce our expenses, including by curtailing operations, and to raise capital through the sale of assets, issuance of equity or otherwise, any of which could have a material adverse effect on our financial condition and results of operations. As of December 31, 2006, we were in violation of the EBITDA, tangible net worth and leverage ratio covenants and waivers of the defaults were obtained in March 2007 from our lenders.

29

DERIVATIVE ACTIVITIES

WARRANT DERIVATIVES

SFAS No. 133 "Accounting for Derivative Instruments and Hedging Activities" requires measurement of certain derivative instruments at their fair value for accounting purposes. In determining the appropriate fair value, we use the Black-Scholes-Merton Option Pricing Formula (the "Black-Scholes model"). Derivative liabilities are adjusted to reflect fair value at each period end, with any increase or decrease in the fair value being recorded in consolidated statements of operations as adjustments to fair value of derivatives. At December 31, 2006, there was an income of \$511,000 recorded as adjustment to fair value of derivative on our consolidated statements of operations. See Note 10 of the "Notes to Consolidated Financial Statements"

FOREIGN CURRENCY FORWARD CONTRACT

We source our products in a number of countries throughout the world, as a result, are exposed to movements in foreign currency exchange rates. The primary purpose of our foreign currency hedging activities is to manage the

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

volatility associated with foreign currency purchases of materials in the normal course of business. We utilize derivative financial instruments consist primarily of forward currency contracts. These instruments are intended to protect against exposure related to financing transactions and income from international operations. We do not enter into derivative financial instruments for speculative or trading purposes. We enter into certain foreign currency derivative instruments that do not meet hedge accounting criteria.

SFAS No. 133 requires measurement of certain derivative instruments at their fair value for accounting purposes. All derivative instruments are recorded on our balance sheet at fair value; as a result, we mark to market all derivative instruments. Derivative liabilities are adjusted to reflect fair value at each period end, with any increase or decrease in the fair value being recorded in consolidated statements of operations as adjustments to fair value of derivatives. There were no exchange contracts at December 31, 2005. During the year ended December 31, 2006, we entered into foreign currency forward contracts to hedge against the effect of exchange rate fluctuations on cash flows denominated in foreign currencies and certain inter-company financing transactions. This transaction is undesignated and as such an ineffective hedge. At December 31, 2006, we had one open foreign exchange forward which has a maturity of less than one year. Hedge ineffectiveness resulted in an impact of \$196,000 in our consolidated statements of operations as of December 31, 2006

NEW ACCOUNTING PRONOUNCEMENTS

For a description of recent accounting pronouncements including the respective expected dates of adoption and effects on results of operations and financial condition, see Note 1 of the "Notes to Consolidated Financial Statements."

30

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain items in our consolidated statements of income as a percentage of net sales:

	YEARS ENDED DECEMBER 31,		
	2004	2005	2006
	-----	-----	-----
Net sales	100.0%	100.0%	100.0%
Cost of sales	86.5	79.1	78.2
	-----	-----	-----
Gross profit	13.5	20.9	21.8
Selling and distribution expenses	6.0	5.0	4.7
General and administration expenses	20.6	12.5	11.6
Royalty expenses	0.4	1.7	1.2
Loss on notes receivable-related parties	--	--	11.7
Impairment charges	50.2	--	--
Cumulative translation loss	14.7	--	--
	-----	-----	-----
Income (loss) from operations	(78.4)	1.7	(7.4)
Interest expense	(1.8)	(2.2)	(2.6)
Interest income	0.2	1.0	0.5
Minority interest	9.9	0.0	0.0

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Interest in income of equity method investee	0.5	0.3	0.0
Other income	4.1	0.1	0.2
Adjustment to fair value of derivative	0.0	0.0	0.1
Other expense	(0.3)	(0.0)	(0.2)
	-----	-----	-----
Income (loss) before provision for income taxes ..	(65.8)	0.9	(9.4)
Provision for income taxes	(1.5)	(0.4)	(0.2)
	-----	-----	-----
Net Income (loss)	(67.3)%	0.5%	(9.6)%
	=====	=====	=====

COMPARISON OF 2006 TO 2005

Net sales increased by \$17.8 million, or 8.3%, from \$214.6 million in 2005 to \$232.4 million in 2006. The increase in net sales was primarily due to increased sales of the private label business, which was \$181.2 million in 2006 compared to \$159.6 million in 2005, with the increase in 2006 resulting primarily from higher sales to Mothers Work and Charlotte Russe which is a new customer. Private brands sales in 2006 was \$51.2 million compared to \$55.0 million in 2005 with the decrease resulting primarily from no sales of Gear 7 in 2006, compared to \$14.4 million in 2005, and offset by an increase in sales to Macy's Merchandising Group of \$11.6 million which included \$1.5 million of sublicensing royalty income in 2006.

Gross profit consists of net sales less product costs, direct labor, duty, quota, freight in, brokerage, warehouse handling and markdown. Gross profit for 2006 was \$50.6 million, or 21.8% of net sales, compared to \$44.9 million, or 20.9% of net sales for 2005, representing an increase of \$5.8 million or 12.8%. The increase in gross profit for 2006 occurred primarily because of an increase in sales volume including \$1.5 million of sublicensing royalty income and gross margin. The improvement in gross margin is primarily attributable to the change of relative product mix in private label business and improved sourcing in private brand business in 2006.

31

Selling and distribution expenses increased by \$290,000, or 2.7%, from \$10.7 million in 2005 to \$11.0 million in 2006. As a percentage of net sales, these variable expenses decreased from 5.0% in 2005 to 4.7% in 2006 due to the increase in sales volume in 2006.

General and administrative expenses increased by \$14,000, or 0.1%, from \$26.86 million in 2005 to \$26.88 million in 2006. As a percentage of net sales, these expenses decreased from 12.5% in 2005 to 11.6% in 2006 due to the increase in sales volume in 2006. Included in general and administrative expenses in 2006 was \$187,000 stock-based compensation as compared to no such expense in 2005.

Royalty and marketing allowance expenses decreased by \$850,000, or 23.2%, to \$2.8 million in 2006 from \$3.7 million in 2005. The decrease was primarily due to the royalty payment to House of Dereon in 2005 as compared to no such expense in 2006. As a percentage of net sales, these expenses decreased to 1.2% in 2006 from 1.7% in 2005.

Loss on notes receivable - related parties was \$27.1 million or 11.7% of net sales in 2006, compared to no such expense in 2005. During 2006, the

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

purchasers of our Mexico assets ceased providing fabric and are not currently making payments under the notes. We evaluated the recoverability of the notes receivable and recorded a loss on the notes receivable in an amount equal to the outstanding balance less the value of the underlying assets securing the notes. See Note 5 of the "Notes to Consolidated Financial Statements".

Loss from operations was \$17.2 million in 2006, or 7.4% of net sales, compared to income from operation of \$3.6 million in 2005, or 1.7% of net sales, due to the factors described above.

Interest expense increased by \$1.4 million, or 31.0%, from \$4.6 million in 2005 to \$6.1 million in 2006. As a percentage of net sales, this expense increased to 2.6% in 2006 from 2.2% in 2005. The increase was primarily due to an interest expense of \$1.6 million in 2006 related to interest payments and amortization of debt discount arising from the credit facility from Guggenheim Corporate Funding LLC. Included in the interest expense was \$1.3 million in 2005 and \$1.1 million in 2006 related to interest payments to holders of convertible debentures and amortization of debt discount arising from convertible debentures issued in 2005. Interest income decreased by \$900,000, or 43.2%, from \$2.1 million in 2005 to \$1.2 million in 2006. The decrease was primarily due to the interest earned from the notes receivable related to the sale of our fixed assets in Mexico of \$1.9 million in 2005, compared to \$901,000 in 2006 due to the purchasers of the Mexico assets discontinuing making payments under the notes. Other income decreased by \$19,000, or 5.3%, from \$354,000 in 2005 to \$336,000 in 2006. Other expenses were \$1,000 in 2005, compared to \$436,000 in 2006 due to a payment of \$400,000 upon the termination of the license agreements with Cynthia Rowley.

In 2005, we allocated \$75,000 of profit to minority interest, which consisted of profit shared with the minority partner in the PBG7, LLC. Loss allocated to minority interest in 2006 was \$21,000, for its 25% share in the loss.

Interest in income of equity method investee decreased by \$480,000 or 85.8%, from \$560,000 in 2005 to \$80,000 in 2006. As a percentage of net sales, this interest in income of equity method decreased to 0.0% in 2006 from 0.3% in 2005. Interest in income of equity method investee represented our 45% share of equity interest in the owner of the trademark "American Rag CIE" and the operator of American Rag retail stores.

Income (loss) before provision for income taxes was \$(21.8) million in 2006 and \$1.9 million in 2005, representing (9.4)% and 0.9% of net sales, respectively. The increase in loss before provision for

32

income taxes was primarily due to the loss on notes receivable - related parties of \$27.1 million recorded in 2006 and the other factors discussed above.

Provision for income taxes was \$453,000 in 2006 compared to \$927,000 in 2005, representing 0.2% and 0.4% of net sales, respectively.

Net income (loss) was \$(22.2) million in 2006 as compared \$1.0 million in 2005, representing (9.6)% and 0.5% of net sales, respectively. Included in the \$22.2 million net loss in 2006 was a loss on notes receivable - related parties of \$27.1 million. There was no such expense in 2005.

COMPARISON OF 2005 TO 2004

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Net sales increased by \$59.2 million, or 38.1%, from \$155.5 million in 2004 to \$214.6 million in 2005. The increase in net sales was primarily due to increased sales of private brands, which was \$55.0 million in 2005 compared to \$21.7 million in 2004. Gear 7, JS by Jessica Simpson and Princy by Jessica Simpson recorded significant sales contributions in 2005, as compared to sales of \$1.2 million for these brands in 2004. We expect sales of these brands to decline significantly in 2006 due to the discontinuance of the Gear 7 line by K-Mart, the dispute over our continued rights to the Jessica Simpson line and the discontinuation of House of Dereon. Private label sales in 2005 were \$159.6 million compared to \$133.8 million in 2004, with the increase resulting primarily from increased sales in 2005 to Wal-Mart, Chico's, Mothers Work and Macy's Merchandising Group.

Gross profit for 2005 was \$44.9 million, or 20.9% of net sales, compared to \$21.0 million, or 13.5 % of net sales, for 2004, representing an increase of \$23.9 million or 114.1%. The increase in gross profit for 2005 occurred primarily because of an increase in sales volume and gross margin. The improvement in gross margin is primarily attributable to the change of relative product mix in favor of the higher margin private brands business as compared to private label as well as improved margins in the private label business due to expansion of our business to include more knitwear and woven tops at better margins using private brand product developments.

Selling and distribution expenses increased by \$1.4 million, or 15.5%, from \$9.3 million in 2004 to \$10.7 million in 2005. As a percentage of net sales, these variable expenses decreased from 6.0% in 2004 to 5.0% in 2005 due to the significant increase in sales volume during 2005.

General and administrative expenses decreased by \$5.2 million, or 16.3%, from \$32.1 million in 2004 to \$26.9 million in 2005. The decrease was primarily due to the depreciation and amortization of our Mexico assets of \$6.8 million and \$1.1 million of severance paid to the Mexican workers in 2004 as compared to no such expense in 2005 after disposition of our fixed assets in Mexico in late 2004. As a percentage of net sales, these expenses decreased from 20.6% in 2004 to 12.5% in 2005.

Royalty and marketing allowance expenses increased by \$3.1 million, or 505.8%, to \$3.7 million in 2005 from \$605,000 in 2004. The increase was primarily due to increased sales under the licensed Alain Weiz and Jessica Simpson brands and a write-off of the remaining balance of \$1.2 million of prepaid royalty on House of Dereon in 2005 as a result of termination of our agreement to design, market and sell House of Dereon by Tina Knowles branded apparel in March 2006. See Note 13 of the "Notes to Consolidated Financial Statements." As a percentage of net sales, these expenses increased to 1.7% in 2005 from 0.4% in 2004.

Impairment charges were \$78.0 million in 2004 or 50.2% of net sales, compared to no such expense in 2005. The expense in 2004 was the impairment of long-lived assets of our Mexico operations

due to our decision to sell the manufacturing operations in Mexico. See Note 5 of the "Notes to Consolidated Financial Statements."

Cumulative translation loss attributable to liquidated Mexico operations was \$22.8 million in 2004, or 14.7% of net sales, compared to no such expense in 2005. We incurred this charge upon the sale of our fixed assets in Mexico in the fourth quarter of 2004.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Income from operations was \$3.6 million in 2005, or 1.7% of net sales, compared to loss from operation of \$121.8 million in 2004, or 78.4% of net sales, due to the factors described above.

Interest expense increased by \$1.7 million, or 61.9%, from \$2.9 million in 2004 to \$4.6 million in 2005. As a percentage of net sales, this expense increased to 2.2% in 2005 from 1.8% in 2004. The increase was primarily due to an interest expense of \$1.3 million in 2005 related to interest payments to holders of convertible debentures and amortization of debt discount arising from issuing convertible debentures, compared to no such expense in 2004. Interest income increased by \$1.7 million, or 451.3%, from \$378,000 in 2004 to \$2.1 million in 2005. The increase was primarily due to the interest earned from the notes receivable related to the sale of our fixed assets in Mexico of \$1.9 million in 2005, compared to no such income in 2004. Other income decreased by \$6.0 million, or 94.4%, from \$6.4 million in 2004 to \$354,000 in 2005, due primarily to \$5.5 million of lease income received for the lease of our facilities and equipment in Mexico in 2004, compared to no such income in 2005 due to the sale of our Mexico operations in the fourth quarter of 2004. Other expenses were \$529,000 in 2004 compared to \$1,000 in 2005.

In 2005, we allocated \$75,000 of profit to minority interest, which consisted of profit shared with the minority partner in the PBG7, LLC. Loss allocated to minority interests in 2004 was \$15.3 million, representing \$471,000 attributed to the minority shareholder in United Apparel Ventures, LLC, for its 49.9% share in the loss and \$14.8 million attributed to the minority shareholder in Tarrant Mexico for its 25% share in the loss.

Income before provision for income taxes was \$1.9 million in 2005 and loss before provision for income taxes was \$102.3 million in 2004, representing 0.9% and (65.8)% of net sales, respectively. The increase in income before provision for income taxes was due to the factors discussed above.

Provision for income taxes was \$927,000 in 2005 compared to \$2.3 million in 2004, representing 0.4% and 1.5% of net sales, respectively.

Net income was \$1.0 million in 2005 as compared to net loss of \$104.7 million in 2004, representing 0.5% and (67.3)% of net sales, respectively. Included in the \$104.7 million loss in 2004 were charges of \$78.0 million for the impairment of long-lived assets and \$22.8 million of cumulative translation loss attributable to liquidated Mexico operations. There were no such charges in 2005.

QUARTERLY RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain items in our consolidated statements of income in millions of dollars and as a percentage of net sales:

QUARTER ENDED						
MAR. 31	JUN. 30	SEP. 30	DEC. 31	MAR. 31	JUN. 30	SEP. 30
2005	2005	2005	2005	2006	2006	2006
-----	-----	-----	-----	-----	-----	-----

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Net Sales	\$ 44.8	\$ 50.5	\$ 69.6	\$ 49.7	\$ 61.3	\$ 59.1	\$ 54.6
Gross profit	8.9	11.5	14.5	10.0	12.5	12.7	11.8
Operating income							
(loss)	0.2	1.5	3.0	(1.1)	1.6	2.6	(24.7)
Net income (loss)	(0.1)	0.9	1.7	(1.5)	0.8	0.6	(25.3)

QUARTER ENDED

	MAR. 31 2005 -----	JUN. 30 2005 -----	SEP. 30 2005 -----	DEC. 31 2005 -----	MAR. 31 2006 -----	JUN. 30 2006 -----	SEP. 30 2006 -----
Net sales	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%
Gross profit	20.0	22.7	20.9	20.0	20.4	21.4	21.6
Operating income							
(loss)	0.5	2.8	4.3	(2.1)	2.7	4.4	(45.3)
Net income (loss)	(0.2)	1.7	2.5	(3.0)	1.4	1.0	(46.4)

As is typical for us, quarterly net sales fluctuated significantly because our customers typically place bulk orders with us, and change in the number of orders shipped in any one period may have a material effect on the net sales for that period.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity requirements arise from the funding of our working capital needs, principally inventory, finished goods shipments-in-transit, work-in-process and accounts receivable, including receivables from our contract manufacturers that relate primarily to fabric we purchase for use by those manufacturers. Our primary sources for working capital and capital expenditures are cash flow from operations, borrowings under our bank and other credit facilities, issuance of long-term debt, sales of equity and debt securities, and vendor financing. In the near term, we expect that our operations and borrowings under bank and other credit facilities will provide sufficient cash to fund our operating expenses, capital expenditures and interest payments on our debt. In the long-term, we expect to use internally generated funds and external sources to satisfy our debt and other long-term liabilities.

Our liquidity is dependent, in part, on customers paying on time. Any abnormal chargebacks or returns may affect our source of short-term funding. Any changes in credit terms given to major customers may have an impact on our cash flow. Suppliers' credit is another major source of short-term financing and any adverse changes in their terms will have negative impact on our cash flow.

Other principal factors that could affect the availability of our internally generated funds include:

- o deterioration of sales due to weakness in the markets in which we sell our products;
- o decreases in market prices for our products;
- o increases in costs of raw materials; and

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

- o changes in our working capital requirements.

Principal factors that could affect our ability to obtain cash from external sources include:

- o financial covenants contained in our current or future bank and debt facilities; and
- o volatility in the market price of our common stock or in the stock markets in general.

Certain of our private brands product lines are generally associated with higher selling, general and administrative expenses, due to significant design, development, and marketing costs compared to our private label business.

Cash flows for the years ended December 31, 2004, 2005 and 2006 were as follows (dollars in thousands):

CASH FLOWS:	2004	2005	2006
	-----	-----	-----
Net cash provided by (used in) operating activities	\$ 12,168	\$(12,900)	\$ 15,047
Net cash provided by (used in) investing activities	\$ 1,250	\$ 3,555	\$ (5,071)
Net cash provided by (used in) financing activities	\$(15,552)	\$ 9,772	\$(10,713)

Net cash provided by operating activities was \$15.0 million in 2006, as compared to net cash used in operating activities in 2005 of \$12.9 million and net cash provided by operating activities in 2004 of \$12.2 million. Net cash provided by operating activities in 2006 resulted primarily from a net loss of \$22.2 million and a decrease of \$10.6 million in accounts payable, offset by \$27.1 million of loss on notes receivable - related parties, \$3.0 million of depreciation and amortization of fixed assets and deferred financing cost, a decrease of \$13.3 million in inventory and \$6.5 million in accounts receivable. The decrease in inventory was primarily due to the increase in sales in 2006, the decrease in accounts payable resulted from the pay down of payables and the decrease in accounts receivable was due to increased collections.

During 2006, net cash used in investing activities was \$5.1 million, as compared to net cash provided by investing activities of \$3.6 million in 2005 and \$1.3 million in 2004. Cash used in investing activities in 2006 included approximately \$5.0 million in a deposit and \$1.1 million in due diligence fees incurred in connection with our pending acquisition of the Buffalo Group, offset by \$1.1 million of collection on notes receivable.

During 2006, net cash used in financing activities was \$10.7 million as compared to net cash provided by financing activities of \$9.8 million in 2005 and net cash used in financing activities of \$15.6 million in 2004. Net cash used in financing activities in 2006 resulted primarily from net repayments of our long-term obligations and financing cost of \$19.2 million, and repayments of borrowings from convertible debentures of \$6.9 million, offset by financing of \$15.5 million under our credit facility with Guggenheim Corporate Funding LLC.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS

Following is a summary of our contractual obligations and commercial commitments available to us as of December 31, 2006 (in millions):

CONTRACTUAL OBLIGATIONS	PAYMENTS DUE BY PERIOD				
	Total	Less than 1 year	Between 2-3 years	Between 4-5 years	After 5 years
Long-term debt (1)	\$ 44.4	\$ 23.2	\$ 3.8	\$ 17.4	\$ --
Operating leases	\$ 9.2	\$ 1.8	\$ 2.6	\$ 2.3	\$ 2.5
Minimum royalties (2)	\$ 14.5	\$ 6.0	\$ 2.7	\$ 2.5	\$ 3.3
Purchase commitment	\$ 45.4	\$ 10.4	\$ 10.0	\$ 10.0	\$ 15.0
Total Contractual Cash Obligations	\$ 113.5	\$ 41.4	\$ 19.1	\$ 32.2	\$ 20.8

(1) Includes interest on long-term debt obligations. Based on outstanding borrowings as of December 31, 2006, and assuming all such indebtedness remained outstanding during 2006 and the interest rates remained unchanged, we estimate that our interest cost on long-term debt would be approximately \$9.3 million.

(2) Includes minimum royalties of \$6.1 million under the agreement with the licensor of the Jessica Simpson brands.

OTHER COMMERCIAL COMMITMENTS AVAILABLE TO US	TOTAL AMOUNTS COMMITTED TO US	AMOUNT OF COMMITMENT EXPIRATION PER PERIOD			
		Less than 1 year	Between 2-3 years	Between 4-5 years	After 5 years
Lines of credit	\$ 80.0	\$ 80.0	\$ --	\$ --	\$ --
Letters of credit (within lines of credit)	\$ 25.0	\$ 25.0	\$ --	\$ --	\$ --
Total Commercial Commitments	\$ 80.0	\$ 80.0	\$ --	\$ --	\$ --

On June 13, 2002, we entered into a letter of credit facility of \$25 million with UPS Capital Global Trade Finance Corporation ("UPS"). Under this facility, we could arrange for the issuance of letters of credit and acceptances. The facility was collateralized by the shares and debentures of all of our subsidiaries in Hong Kong. In addition to the guarantees provided by us and our subsidiaries, Fashion Resource (TCL) Inc. and Tarrant Luxembourg Sarl, Gerard Guez, our Chairman and Interim Chief Executive Officer, also signed a guarantee of \$5 million in favor of UPS to secure this facility. Additionally, Gerard Guez pledged to UPS 4.6 million shares of our common stock held by Mr. Guez to secure the obligations under the credit facility. On June 9, 2006, we completed the pay-off of all remaining amounts due under the letter of credit facility with UPS. As a result of the payment of these obligations, the letter of credit facility was terminated and all collateral released. There was no prepayment penalty under this arrangement. As of December 31, 2006, \$0 was outstanding under this facility with UPS.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

On December 31, 2004, our Hong Kong subsidiaries entered into a loan agreement with UPS pursuant to which UPS made a \$5 million term loan, the proceeds of which were used to repay \$5 million of indebtedness owed to UPS under the letter of credit of facility. The principal amount of this loan was due and payable in 24 equal monthly installments of approximately \$208,333 each, plus interest equivalent to the "prime rate" plus 2% commencing on February 1, 2005. The obligations under the loan agreement were collateralized by the same security interests and guarantees provided under our letter of credit facility with UPS. Additionally, the term loan was secured by two promissory notes payable to Tarrant Luxembourg Sarl in the amounts of \$2,550,000 and \$1,360,000 and a pledge by Gerard Guez, of 4.6 million shares of our common stock. On June 9, 2006, we completed the pay-off of all remaining amounts due under the

37

term loan agreement with UPS. As a result of the payment of these obligations, the term loan agreement was terminated and all collateral released. There was no prepayment penalty under this arrangement. As of December 31, 2006, \$0 was outstanding under this loan arrangement with UPS.

Since March 2003, DBS Bank (Hong Kong) Limited ("DBS") had made available a letter of credit facility of up to HKD 20 million (equivalent to US \$2.6 million) to our subsidiaries in Hong Kong. This was a demand facility and was secured by the pledge of our office property, which is owned by Gerard Guez, our Chairman and Interim Chief Executive Officer, and Todd Kay, our Vice Chairman, and by our guarantee. The letter of credit facility was increased to HKD 30 million (equivalent to US \$3.9 million) in June 2004. In September 2006, a tax loan for HKD 8.438 million (equivalent to US \$1.1 million) was also made available to our Hong Kong subsidiaries and bears interest at the rate equal to the Hong Kong prime rate plus 1% and are subject to the same security. It bore interest at 9% per annum at December 31, 2006. As of December 31, 2006, \$1.0 million was outstanding under this tax loan.

In June 2006, our subsidiaries in Hong Kong, Tarrant Company Limited, Marble Limited and Trade Link Holdings Limited, entered into a new credit facility with DBS. Under this facility, we may arrange for letters of credit and acceptances. The maximum amount our Hong Kong subsidiaries may borrow under this facility at any time is US \$25 million. The interest rate under the letter of credit facility is equal to the Standard Bills Rate quoted by DBS minus 0.5% if paid in Hong Kong Dollars, which the interest rate was 8.5% per annum at December 31, 2006, or the Standard Bills Rate quoted by DBS plus 0.5% if paid in any other currency, which the interest rate was 8.6% per annum at December 31, 2006. This is a demand facility and is secured by a security interest in all the assets of the Hong Kong subsidiaries, by a pledge of our office property where our Hong Kong office is located, which is owned by Gerard Guez and Todd Kay and by our guarantee. The DBS facility includes customary default provisions. In addition, we are subject to certain restrictive covenants, including that we maintain a specified tangible net worth, and a minimum level of EBITDA at December 31, 2006, interest coverage ratio, leverage ratio and limitations on additional indebtedness. As of December 31, 2006, we were in violation with the EBITDA, tangible net worth and leverage ratio covenants and a waiver was obtained on March 19, 2007. As of December 31, 2006, \$12.5 million was outstanding under this facility. In addition, \$4.1 million of open letters of credit was outstanding and \$7.4 million was available for future borrowings as of December 31, 2006.

On October 1, 2004, we amended and restated our previously existing credit facility with GMAC Commercial Finance Credit, LLC ("GMAC CF") by entering into a new factoring agreement with GMAC CF. The amended and restated agreement

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

(the factoring agreement) extended the expiration date of the facility to September 30, 2007 and added as parties our subsidiaries Private Brands, Inc and No! Jeans, Inc. In addition, in connection with the factoring agreement, our indirect majority-owned subsidiary PBG7, LLC entered into a separate factoring agreement with GMAC CF. Pursuant to the terms of the factoring agreement, we and our subsidiaries agree to assign and sell to GMAC CF, as factor, all accounts which arise from our sale of merchandise or rendition of service created on a going forward basis. At our request, GMAC CF, in its discretion, may make advances to us up to the lesser of (a) up to 90% of our accounts on which GMAC CF has the risk of loss or (b) \$40 million, minus in each case, any amount owed by us to GMAC CF. In May 2005, we amended our factoring agreement with GMAC CF to permit our subsidiaries party thereto and us, to borrow up to the lesser of \$3 million or 50% of the value of eligible inventory. In connection with this amendment, we granted GMAC CF a lien on certain of our inventory located in the United States. On January 23, 2006, we further amended our factoring agreement with GMAC CF to increase the amount we might borrow against inventory to the lesser of \$5 million or 50% of the value of eligible inventory. The \$5 million limit was reduced to \$4 million on April 1, 2006.

On June 16, 2006, we expanded our credit facility with GMAC CF by entering into a new Loan and Security Agreement and amending and restating our previously existing Factoring Agreement with GMAC CF. UPS Capital Corporation is also a lender under the Loan and Security Agreement. This is a

38

revolving credit facility and has a term of 3 years. The amount we may borrow under this credit facility is determined by a percentage of eligible accounts receivable and inventory, up to a maximum of \$55 million, and includes a letter of credit facility of up to \$4 million. Interest on outstanding amounts under this credit facility is payable monthly and accrues at the rate of the "prime rate" plus 0.5%. Our obligations under the GMAC CF credit facility are secured by a lien on substantially all our domestic assets, including a first priority lien on our accounts receivable and inventory. This credit facility contains customary financial covenants, including covenants that we maintain minimum levels of EBITDA and interest coverage ratios and limitations on additional indebtedness. This facility includes customary default provisions, and all outstanding obligations may become immediately due and payable in the event of a default. The facility bore interest at 8.75% per annum at December 31, 2006. As of December 31, 2006, we were in violation with the EBITDA covenant and a waiver was obtained on March 23, 2007. A total of \$19.6 million was outstanding with respect to receivables factored under the GMAC CF facility at December 31, 2006.

The amount we can borrow under the factoring facility with GMAC is determined based on a defined borrowing base formula related to eligible accounts receivable. A significant decrease in eligible accounts receivable due to the aging of receivables, can have an adverse effect on our borrowing capabilities under our credit facility, which may adversely affect the adequacy of our working capital. In addition, we have typically experienced seasonal fluctuations in sales volume. These seasonal fluctuations result in sales volume decreases in the first and fourth quarters of each year due to the seasonal fluctuations experienced by the majority of our customers. During these quarters, borrowing availability under our credit facility may decrease as a result of decrease in eligible accounts receivables generated from our sales.

On June 16, 2006, we entered into a Credit Agreement with certain lenders and Guggenheim Corporate Funding LLC ("Guggenheim"), as administrative agent and collateral agent for the lenders. This credit facility provides for borrowings of up to \$65 million. This facility consists of an initial term loan

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

of up to \$25 million, of which we borrowed \$15.5 million at the initial funding, to be used to repay certain existing indebtedness and fund general operating and working capital needs. An additional term loan of up to \$40 million will be available under this facility to finance acquisitions acceptable to Guggenheim. All amounts under the term loans become due and payable in December 2010. Interest under this facility is payable monthly, with the interest rate equal to the LIBOR rate plus an applicable margin based on our debt leverage ratio (as defined in the credit agreement). Our obligations under the Guggenheim credit facility are secured by a lien on substantially all of our assets and our domestic subsidiaries, including a pledge of the equity interests of our domestic subsidiaries and 65% of our Luxembourg subsidiary. This credit facility contains customary financial covenants, including covenants that we maintain minimum levels of EBITDA and interest coverage ratios and limitations on additional indebtedness.

In connection with Guggenheim credit facility, on June 16, 2006, we issued the lenders under this facility warrants to purchase up to an aggregate of 3,857,143 shares of our common stock. These warrants have a term of 10 years. These warrants are exercisable at a price of \$1.88 per share with respect to 20% of the shares, \$2.00 per share with respect to 20% of the shares, \$3.00 per share with respect to 20% of the shares, \$3.75 per share with respect to 20% of the shares and \$4.50 per share with respect to 20% of the shares. The exercise prices are subject to adjustment for certain dilutive issuances pursuant to the terms of the warrants. 357,143 shares of the warrants will not become exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. The warrants were evaluated under SFAS No. 133 and Emerging Issues Task Force ("EITF") No. 00-19 "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock" and determined to be a derivative instrument due to certain registration rights. As such, the warrants excluding the ones not exercisable were valued at \$4.9 million using the Black-Scholes model with the following assumptions:

39

risk-free interest rate of 5.1%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.70; and contractual term of ten years. We also paid to Guggenheim 2.25% of the committed principal amount of the loans which was \$563,000 on June 16, 2006. The \$563,000 fee paid to Guggenheim is included in the deferred financing cost, and the value of the warrants to purchase 3.5 million shares of our common stock of \$4.9 million is recorded as debt discount, both of them are amortized over the life of the loan. As of December 31, 2006, \$654,000 was amortized.

Durham Capital Corporation ("Durham") acted as our advisor in connection with the Guggenheim credit facility. As compensation for its services, we agreed to pay Durham a cash fee in an amount equal to 1% of the committed principal amount of the loans under the Guggenheim credit facility. As a result, \$250,000 was paid on June 16, 2006. In addition, we issued Durham a warrant to purchase 77,143 shares of our common stock. This warrant has a term of 10 years and is exercisable at a price of \$1.88 per share, subject to adjustment for certain dilutive issuances. 7,143 shares of this warrant will not become exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. The warrants were evaluated under SFAS No. 133 and EITF No. 00-19 and determined to be a derivative instrument due to certain registration rights. As such, the warrants excluding the ones not exercisable were valued at \$105,000 using the Black-Scholes model with the following assumptions: risk-free interest rate of 5.1%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.70; and contractual term of ten years. The \$250,000 fee paid to Durham and the value of

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

the warrants to purchase 70,000 shares of our common stock of \$105,000 is included in the deferred financing cost, and is amortized over the life of the loan. As of December 31, 2006, \$43,000 was amortized.

The Guggenheim facility bore interest at 12.36% per annum at December 31, 2006. As of December 31, 2006, we were in violation with the EBITDA covenant and a waiver was obtained on March 23, 2007. A total of \$11.2 million, net of \$4.3 million of debt discount, was outstanding under this facility at December 31, 2006.

As of June 30, 2006, the warrants were being accounted for as a liability pursuant to the provisions of SFAS No. 133 and EITF No. 00-19. This was because we granted the warrant holders certain registration rights that were outside our control. In accordance with SFAS No. 133, the warrants were being valued at each reporting period. Changes in fair value were recorded as adjustment to fair value of derivative in the statements of operations. The outstanding warrants were fair valued on June 16, 2006, the date of the transaction, at \$5.0 million and we, in accordance with SFAS No. 133, revaluated the warrants on June 30, 2006 at the closing stock price on June 30, 2006 to \$5.2 million; as a result, an expense of \$218,000 was recorded as an adjustment to fair value of derivative on our consolidated statements of operations. On August 11, 2006, the registration rights agreement relating to the warrants was amended to provide that if we were unable to file or have the registration statement declared effective by the required deadlines, we would be required to pay the warrant holders cash payments as partial liquidated damages each month until the registration statement was filed and/or declared effective. The liquidated damages payable by us to the warrant holders are limited to 20% of the purchase price of the shares underlying the warrants, which we determined to be a reasonable discount for restricted stock as compared to registered stock. As a result of amending the registration rights relating to the warrants on August 11, 2006, the warrants were reclassified from debt to equity in accordance with EITF No. 00-19 in the third quarter of 2006. The outstanding warrants were revaluated on August 11, 2006 at the closing stock price on August 11, 2006 to \$4.5 million; as a result, income of \$729,000 was recorded as an adjustment to fair value of derivative on our consolidated statements of operations. As such, a net gain of \$511,000 was recognized in our statements of operations as an adjustment to fair value of derivative in 2006.

The credit facilities with GMAC CF and Guggenheim include cross-default clauses subject to certain conditions. An event of default under the GMAC CF facility would constitute an event of default under the Guggenheim facility entitling Guggenheim to demand payment in full of all outstanding amounts under its

40

facility. An event of default under the Guggenheim facility, under circumstances where Guggenheim has accelerated the debt or has exercised any other remedy available to Guggenheim which constitutes a Lien Enforcement Action under its Intercreditor Agreement with GMAC CF, would entitle GMAC CF to demand payment in full of all outstanding amounts under its debt facilities.

On December 14, 2004, we completed a \$10 million financing through the issuance of (i) 6% Secured Convertible Debentures ("Debentures") and (ii) warrants to purchase up to 1,250,000 shares of our common stock. Prior to maturity, the investors could convert the Debentures into shares of our common stock at a price of \$2.00 per share. The warrants have a term of five years and an exercise price of \$2.50 per share. The warrants were valued at \$866,000 using the Black-Scholes model with the following assumptions: risk-free interest rate

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

of 4%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.55; and an expected life of four years. The Debentures bore interest at a rate of 6% per annum and have a term of three years. We could elect to pay interest on the Debentures in shares of our common stock if certain conditions are met, including a minimum market price and trading volume for our common stock. The Debentures contained customary events of default and permit the holder thereof to accelerate the maturity if the full principal amount together with interest and other amounts owing upon the occurrence of such events of default. The Debentures were secured by a subordinated lien on certain of our accounts receivable and related assets. The closing market price of our common stock on the closing date of the financing was \$1.96. The Debentures were thus valued at \$8,996,000, resulting in an effective conversion price of \$1.799 per share. The intrinsic value of the conversion option of \$804,000 was being amortized over the life of the loan. The value of the warrants of \$866,000 and the intrinsic value of the conversion option of \$804,000 were netted from the \$10 million presented as the convertible debentures, net on our accompanying balance sheets at December 31, 2004.

The placement agent in the financing, received compensation for its services in the amount of \$620,000 in cash and issuance of five year warrants to purchase up to 200,000 shares of our common stock at an exercise price of \$2.50 per share. The warrants to purchase 200,000 shares of our common stock were valued at \$138,000 using the Black-Scholes model with the following assumptions: risk-free interest rate of 4%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.55; and an expected life of four years. The financing cost paid to the placement agent of \$620,000, and the value of the warrants to purchase 200,000 shares of our common stock of \$138,000 were included in the deferred financing cost, net on our accompanying balance sheets and was amortized over the life of the loan.

In June 2005, holders of our Debentures converted an aggregate of \$2.3 million of Debentures into 1,133,687 shares of our common stock. In August 2005, holders of our Debentures converted an aggregate of \$820,000 of Debentures into 410,000 shares of our common stock. The Debentures were converted at the option of the holders at a price of \$2.00 per share. Debt discount of \$248,000 related to the intrinsic value of the conversion option of \$804,000 was expensed upon the conversion. Of the \$620,000 financing cost paid to the placement agent, \$191,000 was expensed upon the conversion. The intrinsic value of the conversion option, and the value of the warrant amortized in the 2006 was \$237,000. Total deferred financing cost amortized in 2006 was \$95,000. Total interest paid to the holders of the Debentures in 2006 was \$198,000. On June 26, 2006, we paid off the remaining balance of the outstanding Debentures of \$6.9 million plus all accrued and unpaid interest and a prepayment penalty of \$171,000. As a result of the repayment, the Debentures were terminated effective June 26, 2006. Upon paying off the Debentures, debt discount of \$278,000 related to the intrinsic value of the conversion option of \$804,000 was expensed, and of the \$620,000 financing cost paid to the placement agent, \$214,000 was expensed. The remaining value of the warrants to holders of our Debentures of \$433,000 and warrants to the placement agent of \$69,000 was also expensed.

On January 19, 2006, we borrowed \$4.0 million from Max Azria pursuant to the terms of a promissory note, which amount bore interest at the rate of 5.5% per annum and was payable in weekly installments of \$200,000 beginning on March 1, 2006. This was an unsecured loan. We paid off the remaining balance of this loan in July 2006. As of December 31, 2006, \$0 was outstanding under this loan.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

We had three equipment loans outstanding during 2006. One of these equipment loans bore interest at 6% payable in installments through 2009, which we paid off in January 2006. The second loan bears interest at 15.8% payable in installment through 2007 and the third loan bears interest at 6.15% payable in installment through 2007. In August 2006, we entered into a new auto loan that bears interest at 4.75% payable in installment through 2008. As of December 31, 2006, \$38,000 was outstanding under the three remaining loans.

From time to time, we open letters of credit under an uncommitted line of credit from Aurora Capital Associates which issues these letters of credits out of Israeli Discount Bank. As of December 31, 2006, \$190,000 was outstanding under this facility (classified above under import trade bills payable) and \$532,000 of letters of credit was open under this arrangement. We pay a commission fee of 2.25% on all letters of credits issued under this arrangement.

The effective interest rates on short-term bank borrowing as of December 31, 2005 and 2006 were 7.8% and 10.9%, respectively.

We have financed our operations from our cash flow from operations, borrowings under our bank and other credit facilities, issuance of long-term debt, and sales of equity and debt securities. Our short-term funding relies very heavily on our major customers, banks and suppliers. From time to time, we have had temporary over-advances from our banks. Any withdrawal of support from these parties will have serious consequences on our liquidity.

From time to time in the past, we borrowed funds from, and advanced funds to, certain officers and principal shareholders, including Gerard Guez and Todd Kay. See disclosure under "-Related Party Transactions" below.

The Internal Revenue Service has proposed adjustments to our Federal income tax returns to increase our income tax payable for the years ended December 31, 1996 through 2001. In addition, in July 2004, the IRS initiated an examination of our Federal income tax return for the year ended December 31, 2002. In March 2005, the IRS proposed an adjustment to our taxable income of approximately \$9 million related to similar issues identified in their audit of the 1996 through 2001 federal income tax returns. We believe that we have meritorious defenses to and intend to vigorously contest the proposed adjustments made to our federal income tax returns for the years ended 1996 through 2002. This adjustment would also result in additional state taxes, penalties and interest. We believe that we have meritorious defenses to and intend to vigorously contest the proposed adjustments. If the proposed adjustments are upheld through the administrative and legal process, they could have a material impact on our earnings and, in particular, cash flow. We may not have an adequate cash reserve to pay the final adjustments resulting from the IRS examination. As a result, we may be required to arrange for payments over time or raise additional capital in order to meet these obligations. We believe we have provided adequate reserves for any reasonably foreseeable outcome related to these matters on the consolidated balance sheets under the caption "Income Taxes." The maximum amount of loss in excess of the amount accrued in the financial statements is \$8.3 million. We do not believe that the adjustments, if any, arising from the IRS examination, will result in an additional income tax liability beyond what is recorded in the accompanying consolidated balance sheets.

We may seek to finance future capital investment programs through various methods, including, but not limited to, borrowings under our bank credit facilities, issuance of long-term debt, sales of equity securities, leases and long-term financing provided by the sellers of facilities or the suppliers of certain equipment used in such facilities. As described above, in December 2006, we entered into a definitive stock and asset purchase agreement to acquire The Buffalo. If the acquisition is approved by our shareholders and is consummated pursuant to the terms of the agreement, we will be required to issue 13

million exchangeable shares of our Canadian subsidiary to the sellers (which are exchangeable in shares of our common stock on a one-for-one basis), incur additional long-term and medium-term debt of approximately \$40 million to pay the cash portion of the purchase price, issue promissory notes of \$15 million to sellers, and assume certain debt of The Buffalo Group. In addition, we may have to pay additional \$12 million in cash earn-out payments to the sellers over a four year period, contingent upon achievement of the acquired business of specified earnings targets. We believe we have sufficient internal resources and borrowing capability to cover all the related expenses.

We do not believe that the moderate levels of inflation in the United States in the last three years have had a significant effect on net sales or profitability.

RELATED PARTY TRANSACTIONS

We lease our principal offices and warehouse located in Los Angeles, California from GET and office space in Hong Kong from Lynx International Limited. GET and Lynx International Limited are each owned by Gerard Guez, our Chairman and Interim Chief Executive Officer, and Todd Kay, our Vice Chairman. We believe, at the time the leases were entered into, the rents on these properties were comparable to then prevailing market rents. During the first seven months of 2006, our Los Angeles offices and warehouse were leased on a month to month basis. On August 1, 2006, we entered into a lease agreement with GET for the Los Angeles offices and warehouse, which lease has a term of five years with an option to renew for an additional five year term. On February 1, 2007, we entered into a one year lease agreement with Lynx International Limited for our office space and warehouse in Hong Kong. We paid \$1,330,000, \$1,019,000 and \$1,076,000, respectively, in 2004, 2005 and 2006 in rent for office and warehouse facilities at these locations. On May 1, 2006, we sublet a portion of our executive office in Los Angeles, California and our sales office in New York to Seven Licensing Company, LLC ("Seven Licensing") for a monthly payment of \$25,000 on a month to month basis. Seven Licensing is beneficially owned by Gerard Guez. We received \$200,000 in rental income from this sublease in the year ended December 31, 2006.

On October 16, 2003, we leased to affiliates of Mr. Kamel Nacif, a shareholder at the time of the transaction, for a substantial portion of our manufacturing facilities and operations in Mexico including real estate and equipment. We leased our twill mill in Tlaxcala, Mexico, and our sewing plant in Ajalpan, Mexico, for a period of 6 years and for an annual rental fee of \$11 million. In connection with this lease transaction, we also entered into a management services agreement pursuant to which Mr. Nacif's affiliates agreed to manage the operation of our remaining facilities in Mexico in exchange for the use of such facilities. The term of the management services agreement was also for a period of 6 years. In 2004, \$5.5 million of lease income was recorded in other income. We agreed to purchase annually, six million yards of fabric manufactured at the facilities leased and/or operated by Mr. Nacif's affiliates at market prices to be negotiated. We purchased \$5.3 million of fabric under this agreement in 2004.

In August 2004, we entered into an Agreement for Purchase of Assets with affiliates of Mr. Kamel Nacif, a shareholder at the time of the transaction, which agreement was amended in October 2004. Pursuant to the agreement, as amended, on November 30, 2004, we sold to the purchasers substantially all of our assets and real property in Mexico, including the

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

equipment and facilities we previously leased to Mr. Nacif's affiliates in October 2003, for an aggregate purchase price consisting of: a) \$105,400 in cash and \$3,910,000 by delivery of unsecured promissory notes bearing interest at 5.5% per annum; and b) \$40,204,000, by delivery of secured promissory notes bearing interest at 4.5% per annum, with payments due on December 31, 2005 and every year thereafter until December 31, 2014. The secured promissory notes are payable in partial or total amounts anytime prior to the maturity of each note. As of September 30, 2006, the outstanding balance of the notes and interest receivables were \$41.1 million prior to the reserve. Historically, we have placed orders for purchases of fabric from the purchasers pursuant to the purchase

43

commitment agreement we entered into at the time of the sale of the Mexico assets, and we have satisfied our payment obligations for the fabric by offsetting the amounts payable against the amounts due to us under the notes. However, during 2006, the purchasers ceased providing fabric and are not currently making payments under the notes. We further evaluated the recoverability of the notes receivable and recorded a loss on the notes receivable in the third quarter of 2006 in an amount equal to the outstanding balance less the value of the underlying assets securing the notes. The loss was estimated to be approximately \$27.1 million, resulting in a notes receivable balance at September 30, 2006 of approximately \$14 million. We will continue to pursue payments on the notes receivable and believe the remaining \$14 million balance at December 31, 2006 is realizable.

Upon consummation of the sale of our Mexico assets, we entered into a purchase commitment agreement with the purchasers, pursuant to which we agreed to purchase annually over the ten-year term of the agreement, \$5 million of fabric manufactured at our former facilities acquired by the purchasers at negotiated market prices. This agreement replaced a previously existing purchase commitment agreement with Mr. Nacif's affiliates. We purchased \$6.4 million of fabric, of which \$2.4 million was paid in cash and \$4.0 million was offset against the notes receivable principal and accrued interest on the note receivable from the affiliates of Mr. Kamel Nacif in 2005. We did not purchase any fabric in 2006. Net amount due from Mr. Kamel Nacif and his affiliates was \$236,000 and \$116,000 as of December 31, 2005 and 2006, respectively.

From time to time in the past, we had advanced funds to Mr. Guez. These were net advances to Mr. Guez or payments paid on his behalf before the enactment of the Sarbanes-Oxley Act in 2002. The promissory note documenting these advances contains a provision that the entire amount together with accrued interest is immediately due and payable upon our written demand. The greatest outstanding balance of such advances to Mr. Guez during 2006 was approximately \$2,279,000. At December 31, 2006, the entire balance due from Mr. Guez totaling \$2.2 million was reflected as a reduction of shareholders' equity. All amounts due from Mr. Guez bore interest at the rate of 7.75% during the period. Total interest paid by Mr. Guez was \$370,000, \$209,000 and \$171,000 for the years ended December 31, 2004, 2005 and 2006, respectively. Mr. Guez paid expenses on our behalf of approximately \$400,000, \$397,000 and \$299,000 for the years ended December 31, 2004, 2005 and 2006, respectively, which amounts were applied to reduce accrued interest and principal on Mr. Guez's loan. These amounts included fuel and related expenses incurred by 477 Aviation, LLC, a company owned by Mr. Guez, when our executives used this company's aircraft for business purposes. Since the enactment of the Sarbanes-Oxley Act in 2002, no further personal loans (or amendments to existing loans) have been or will be made to officers or directors of Tarrant.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

On July 1, 2001, we formed an entity to jointly market, share certain risks and achieve economies of scale with Azteca Production International, Inc. ("Azteca"), called United Apparel Ventures, LLC ("UAV"). Azteca is owned by the brothers of Gerard Guez. This entity was created to coordinate the production of apparel for a single customer of our branded business. UAV is owned 50.1% by Tag Mex, Inc., our wholly owned subsidiary, and 49.9% by Azteca. Results of the operation of UAV have been consolidated into our results since July 2001 with the minority partner's share of all gains and losses eliminated through the minority interest line in our financial statements. Due to the restructuring of our Mexico operations, we discontinued manufacturing for UAV customers in the second quarter of 2004. We have been consolidating 100% of the results of the operation of UAV into our results since 2005. Two and one half percent of gross sales as management fees were paid in 2004 to each of the members of UAV, per the operating agreement. The management fees paid to Azteca in 2004 was \$179,000. We purchased \$11.5 million, \$135,000 and \$1.1 million of finished goods, fabric and service from Azteca and its affiliates for the years ended December 31, 2004, 2005 and 2006, respectively. Our total sales of fabric and service to Azteca in 2004, 2005 and 2006 were \$1.0 million, \$88,000 and \$9,000, respectively.

44

Since June 2003, UAV had been selling to Seven Licensing, jeans wear bearing the brand "Seven7", which was ultimately purchased by Express. In the third quarter of 2004, in order to strengthen our own private brand business, we decided to discontinue sourcing for Seven7. Total sales to Seven Licensing in the year ended December 31, 2004 were \$2.6 million. On September 1, 2006, our subsidiary in Hong Kong, Tarrant Company Limited, entered into an agreement with Seven Licensing to be its buying agent to source and purchase apparel merchandise. Total sales to Seven Licensing during the year ended December 31, 2006 were \$4.4 million.

At December 31, 2006, Messrs. Guez and Kay beneficially owned 488,400 and 1,003,500 shares, respectively, of common stock of Tag-It Pacific, Inc. ("Tag-It"), collectively representing 8.1% of Tag-It's common stock. Tag-It is a provider of brand identity programs to manufacturers and retailers of apparel and accessories. Tag-It assumed the responsibility for managing and sourcing all trim and packaging used in connection with products manufactured by or on our behalf in Mexico. Due to the restructuring of our Mexico operations, Tag-It no longer manages our trim and packaging requirements. We purchased \$1.0 million, \$450,000 and \$205,000 of trim from Tag-It during the years ended December 31, 2004, 2005 and 2006. Our sales of garment accessories to Tag-It for the year ended December 31, 2006 were \$39,000.

We believe that each of the transactions described above has been entered into on terms no less favorable to us than could have been obtained from unaffiliated third parties. We have adopted a policy that any transactions between us and any of our affiliates or related parties, including our executive officers, directors, the family members of those individuals and any of their affiliates, must (i) be approved by a majority of the members of the Board of Directors and by a majority of the disinterested members of the Board of Directors and (ii) be on terms no less favorable to us than could be obtained from unaffiliated third parties.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

FOREIGN CURRENCY RISK. Our earnings are affected by fluctuations in the value of the U.S. dollar as compared to foreign currencies as a result of doing business in foreign jurisdictions. As a result, we bear the risk of exchange

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

rate gains and losses that may result in the future. At times we use forward exchange contracts to reduce the effect of fluctuations of foreign currencies on purchases and commitments. These short-term assets and commitments are principally related to trade payables positions. At December 31, 2006, we had one open foreign exchange forward which has a maturity of less than one year. We do not utilize derivative financial instruments for trading or other speculative purposes. We actively evaluate the creditworthiness of the financial institutions that are counter parties to derivative financial instruments, and we do not expect any counter parties to fail to meet their obligations.

INTEREST RATE RISK. Because our obligations under our various credit agreements bear interest at floating rates, we are sensitive to changes in prevailing interest rates. Any major increase or decrease in market interest rates that affect our financial instruments would have a material impact on earning or cash flows during the next fiscal year.

Our interest expense is sensitive to changes in the general level of U.S. interest rates. In this regard, changes in U.S. interest rates affect interest paid on our debt. A majority of our credit facilities are at variable rates. As of December 31, 2006, we had \$228,000 of fixed-rate borrowings and \$48.6 million of variable-rate borrowings outstanding. A one percentage point increase in interest rates would result in an annualized increase to interest expense of approximately \$0.5 million on our variable-rate borrowings.

45

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See "Item 15. Exhibits, Financial Statement Schedules" for our financial statements, and the notes thereto, and the financial statement schedules filed as part of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH THE ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

EVALUATION OF CONTROLS AND PROCEDURES

Members of the company's management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of our disclosure controls and procedures, as defined by paragraph (e) of Exchange Act Rules 13a-15 or 15d-15, as of December 31, 2006, the end of the period covered by this report. Members of the Company's management, including our Chief Executive Officer and Chief Financial Officer, also conducted an evaluation of our internal control over financial reporting to determine whether any changes occurred during the further quarter of 2006 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

CHANGES IN CONTROLS AND PROCEDURES

During the fourth quarter ended December 31, 2006, there were no changes in our internal control over financial accounting that has materially affected, or is reasonably likely to materially affect, our internal control

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information concerning our directors and executive officers will appear in our definitive Proxy Statement to be filed pursuant to Regulation 14A within 120 days after the end of our last fiscal year (the "Proxy Statement"), and is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION

The information concerning executive compensation will appear in our definitive Proxy Statement and is incorporated herein by reference.

46

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information concerning the security ownership of certain beneficial owners and management and related stockholder matters will appear in our definitive Proxy Statement and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information concerning certain relationships and related transactions will appear in our definitive Proxy Statement and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information concerning principal accounting fees and services will appear in our definitive Proxy Statement and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a) Financial Statements and Schedule. Reference is made to the Index to Financial Statements and Schedule on page F-1 for a list of financial statements and the financial statement schedule filed as part of this report. All other schedules are omitted because they are not applicable or the required information is shown in the Company's financial statements or the related notes thereto.

(b) Exhibits. See the Exhibit Index attached to this Form 10-K annual report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Tarrant Apparel Group
Los Angeles, California

We have audited the consolidated balance sheets of Tarrant Apparel Group and subsidiaries (collectively, the "Company") as of December 31, 2006 and 2005, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the two years in the period ended December 31, 2006. Our audits also included the financial statement schedule of Tarrant Apparel Group listed in Item 15(a). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tarrant Apparel Group and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and
Shareholders of Tarrant Apparel Group

We have audited the accompanying consolidated statements of operations and comprehensive loss, shareholders' equity and cash flows of Tarrant Apparel Group (a California corporation) and subsidiaries for the year ended December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated results of operations and cash flows of Tarrant Apparel Group for the year ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

We have also audited Schedule II of Tarrant Apparel Group for the year ended December 31, 2004. In our opinion, this schedule presents fairly, in all material respects, the information required to be set forth therein.

TARRANT APPAREL GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

ORGANIZATION AND BASIS OF CONSOLIDATION

The accompanying financial statements consist of the consolidation of Tarrant Apparel Group, a California corporation, and its majority owned subsidiaries located primarily in the U.S., Asia, Mexico, and Luxembourg. At December 31, 2006, we own 50.1% of United Apparel Ventures ("UAV") and 75% of PBG7, LLC ("PBG7"). We consolidate these entities and reflect the minority interests in earnings (losses) of the ventures in the accompanying financial statements. All inter-company amounts are eliminated in consolidation. The 49.9% minority interest in UAV is owned by Azteca Production International, a corporation owned by the brothers of our Chairman and Interim Chief Executive Officer, Gerard Guez. The 25% minority interest in PBG7 is owned by BH7, LLC, an unrelated party.

We serve specialty retail, mass merchandisers, department store chains and branded wholesalers by designing, merchandising, contracting for the manufacture of, and selling casual apparel for women, men and children under private label and private brand. Commencing in 1999, we expanded our operations from sourcing apparel to sourcing and operating our own vertically integrated manufacturing facilities. In August 2003, we determined to abandon our strategy of being both a trading and vertically integrated manufacturing company, and effective September 1, 2003, we leased and outsourced operation of our manufacturing facilities in Mexico to affiliates of Mr. Kamel Nacif, a shareholder at the time of the transaction. In August 2004, we entered into a purchase and sale agreement to sell these facilities to affiliates of Mr. Nacif, which transaction consummated in the fourth quarter of 2004. See Note 5 and Note 17 of the "Notes to Consolidated Financial Statements."

Historically, our operating results have been subject to seasonal trends when measured on a quarterly basis. This trend is dependent on numerous factors, including the markets in which we operate, holiday seasons, consumer demand, climate, economic conditions and numerous other factors beyond our control. Generally, the second and third quarters are stronger than the first and fourth quarters. There can be no assurance that the historic operating patterns will continue in future periods.

RISK AND UNCERTAINTIES - IRS EXAMINATION

As discussed in Note 12 of the "Notes to Consolidated Financial Statements," our federal income tax returns for the years ended December 31, 1996 through 2002 were under examination by the Internal Revenue Service ("IRS"). The IRS has proposed adjustments to increase our federal income tax payable for these years. This adjustment would also result in additional state taxes, penalties and interest. We believe that we have meritorious defenses to and intend to vigorously contest the proposed adjustments made to our federal income tax returns for the years ended 1996 through 2002. If the proposed adjustments are upheld through the administrative and legal process, they could have a material impact on our earnings and cash flow. The maximum amount of loss in excess of the amount accrued in the financial statements is \$8.3 million. If the amount of any actual liability, however, exceeds our reserves, we would experience an immediate adverse earnings impact in the amount of such additional liability, which could be material. Additionally, we anticipate that the ultimate resolution of these matters will require that we make significant cash payments to the taxing authorities. Presently we do not have sufficient cash to make any future payments that may be required. No assurance can be given that we will have sufficient surplus cash from operations to make the required payments. Additionally, any cash used for these purposes will not be available for other corporate purposes, which could have a material adverse effect on our financial condition and results of operations. See Note 12 of the "Notes to Consolidated Financial Statements" for a further discussion on the IRS examination.

RISK AND UNCERTAINTIES - DEBT COVENANTS

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

As discussed in Note 9 of the "Notes to Consolidated Financial Statements," our debt agreements require certain covenants including a minimum level of EBITDA and specified tangible net worth; and required interest coverage

F-8

ratio and leverage ratio. If our results of operations erode and we are not able to obtain waivers from the lenders, the debt would be in default and callable by our lenders. In addition, due to cross-default provisions in our debt agreements, substantially all of our long-term debt would become due in full if any of the debt is in default. In anticipation of us not being able to meet the required covenants due to various reasons, we either negotiate for changes in the relative covenants or an advance waiver or reclassify the relevant debt as current. We also believe that our lenders would provide waivers if necessary. However, our expectations of future operating results and continued compliance with other debt covenants cannot be assured and our lenders' actions are not controllable by us. If projections of future operating results are not achieved and the debt is placed in default, we would be required to reduce our expenses, including by curtailing operations, and to raise capital through the sale of assets, issuance of equity or otherwise, any of which could have a material adverse effect on our financial condition and results of operations. See Note 9 of the "Notes to Consolidated Financial Statements" for a further discussion of the credit facilities and related debt covenants. As of December 31, 2006, we were in violation of the EBITDA, tangible net worth and leverage ratio covenants and waivers of the defaults were obtained in March 2007 from our lenders.

REVENUE RECOGNITION

Revenue is recognized at the point of shipment for all merchandise sold based on FOB shipping point. For merchandise shipped on landed duty paid ("LDP") terms, revenue is recognized at the point of either leaving Customs for direct shipments or at the point of leaving our warehouse where title is transferred, net of an estimate of returned merchandise and discounts. Customers are allowed the rights of return or non-acceptance only upon receipt of damaged products or goods with quality different from shipment samples. We do not undertake any after-sale warranty or any form of price protection.

We often arrange, on behalf of manufacturers, for the purchase of fabric from a single supplier. We have the fabric shipped directly to the cutting factory and invoice the factory for the fabric. Generally, the factories pay us for the fabric with offsets against the price of the finished goods.

SHIPPING AND HANDLING COSTS

Freight charges are included in selling and distribution expenses in the statements of operations and amounted to \$783,000, \$667,000 and \$781,000 for the years ended December 31, 2004, 2005 and 2006, respectively. We did not bill customers for shipping and handling costs for the year 2004. In 2005 and 2006, we did some billing for freight to specialty stores although the amount was insignificant.

CASH AND CASH EQUIVALENTS

Cash equivalents consist of cash and highly liquid investments with an original maturity of three months or less when purchased. Cash and cash equivalents held in foreign financial institutions totaled \$1,062,000 and \$260,000 as of December 31, 2005 and 2006, respectively. Cash is deposited with what we believe are highly credited quality financial institutions and may exceed FDIC insured

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

limits. As of December 31, 2005 and 2006, cash deposited in financial institutions that exceeded FDIC insured limits was \$1.1 million and \$1.4 million, respectively.

ACCOUNTS RECEIVABLE--ALLOWANCE FOR RETURNS, DISCOUNTS AND BAD DEBTS

We evaluate the collectibility of accounts receivable and chargebacks (disputes from the customer) based upon a combination of factors. In circumstances where we are aware of a specific customer's inability to meet its financial obligations (such as in the case of bankruptcy filings or substantial downgrading of credit sources), a specific reserve for bad debts is taken against amounts due to reduce the net recognized receivable to the amount reasonably expected to be collected. For all other customers, we recognize reserves for bad debts and uncollectible chargebacks based on our historical collection experience. If collection experience deteriorates (for example, due to an unexpected material adverse change in a major customer's ability to meet its financial obligations to us), the estimates of the recoverability of amounts due to us could be reduced by a material amount. As of December 31, 2005 and 2006, the balance of the allowance for returns, discounts and bad debts was \$3.0 million and \$2.1 million, respectively.

F-9

INVENTORIES

Inventories are stated (valued) at the lower of cost (first-in, first-out) or market. Under certain market conditions, we use estimates and judgments regarding the valuation of inventory to properly value inventory. Inventory adjustments are made for the difference between the cost of the inventory and the estimated market value and charged to operations in the period in which the facts that give rise to the adjustments become known.

COST OF SALES

Cost of sales includes costs related to product costs, direct labor, duty, quota, freight in, brokerage, warehouse handling and markdown.

SELLING AND DISTRIBUTION EXPENSES

Selling and distribution expenses include expenses related to samples, travel and entertainment, salaries, rent, warehouse handling, other office expenses, professional fees, freight out, and selling commissions incurred in the sales process.

GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses include expenses related to research and product development, travel and entertainment, salaries, rent, other office expenses, depreciation and amortization, professional fees and bank charges.

LICENSE AGREEMENTS AND ROYALTY EXPENSES

We enter into license agreements from time to time that allow us to use certain trademarks and trade names on certain of its products. These agreements require us to pay royalties and marketing fund commitments, generally based on the sales of such products, and may require guaranteed minimum royalties, a portion of which may be paid in advance. Our accounting policy is to match royalty expense with revenue by recording royalties at the time of sale at the greater of the contractual rate or an effective rate calculated based on the guaranteed minimum

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

royalty and our estimate of sales during the contract period. If a portion of the guaranteed minimum royalty is determined not to be recoverable, the unrecoverable portion is charged to expense at that time. See Note 13 of the "Notes to Consolidated Financial Statements" regarding various agreements we have entered into.

Royalty expense for each of the three fiscal years ended December 31, 2004, 2005 and 2006 were \$605,000, \$3.7 million and \$2.8 million, respectively.

DEFERRED RENT PROVISION

When a lease requires fixed escalation of the minimum lease payments, rental expense is recognized on a straight line basis over the initial term of the lease, and the difference between the average rental amount charged to expense and amounts payable under the lease is included in deferred amount. As of December 31, 2006, deferred rent of \$93,000 was recorded under accrued expense in our consolidated financial statements.

DERIVATIVE ACTIVITIES

WARRANT DERIVATIVES

Statement of Financial Accounting Standards ("SFAS") No. 133 "Accounting for Derivative Instruments and Hedging Activities" requires measurement of certain derivative instruments at their fair value for accounting purposes. In determining the appropriate fair value, we use the Black-Scholes-Merton Option Pricing Formula ("Black-Scholes model"). Derivative liabilities are adjusted to reflect fair value at each period end, with any increase or decrease in the fair value being recorded in consolidated statements of operations as adjustments to fair value of derivatives. At December 31, 2006, there was an income of \$511,000 recorded as adjustment to fair value of

F-10

derivative on our consolidated statements of operations. See Note 9 of the "Notes to Consolidated Financial Statements"

FOREIGN CURRENCY FORWARD CONTRACT

We source our product in a number of countries throughout the world, as a result, are exposed to movements in foreign currency exchange rates. The primary purpose of our foreign currency hedging activities is to manage the volatility associated with foreign currency purchases of materials in the normal course of business. We utilize derivative financial instruments consist primarily of forward currency contracts. These instruments are intended to protect against exposure related to financing transactions and income from international operations. We do not enter into derivative financial instruments for speculative or trading purposes. We enter into certain foreign currency derivative instruments that do not meet hedge accounting criteria.

SFAS No. 133 requires measurement of certain derivative instruments at their fair value for accounting purposes. All derivative instruments are recorded on our balance sheet at fair value; as a result, we mark to market all derivative instruments. Derivative liabilities are adjusted to reflect fair value at each period end, with any increase or decrease in the fair value being recorded in consolidated statements of operations as adjustments to fair value of derivatives. There were no exchange contracts at December 31, 2005. During the year ended December 31, 2006, we entered into foreign currency forward contracts to hedge against the effect of exchange rate fluctuations on cash flows

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

denominated in foreign currencies and certain inter-company financing transactions. This transaction is undesignated and as such an ineffective hedge. At December 31, 2006, we had one open foreign exchange forward which has a maturity of less than one year. Hedge ineffectiveness resulted in an impact of \$196,000 in our consolidated statements of operations as of December 31, 2006

PRODUCT DESIGN, ADVERTISING AND SALES PROMOTION COSTS

Product design, advertising and sales promotion costs are expensed as incurred. Product design, advertising and sales promotion costs included in selling, general and administrative expenses in the accompanying statements of operations (excluding the costs of manufacturing production samples) amounted to approximately \$2,106,000, \$3,009,000 and \$2,731,000 in 2004, 2005 and 2006, respectively.

PROPERTY AND EQUIPMENT

Property and equipment is recorded at cost. Additions and betterments are capitalized while repair and maintenance costs are charged to operations as incurred. Depreciation of property and equipment is provided for by the straight-line method over their estimated useful lives. Leasehold improvements are amortized using the straight-line method over the lesser of their estimated useful lives or the term of the lease. Upon retirement or disposal of property and equipment, the cost and related accumulated depreciation are eliminated from the accounts and any gain or loss is reflected in the statement of operations. The estimated useful lives of the assets are as follows:

Buildings	35 to 40 years
Equipment	5 to 15 years
Furniture and Fixtures	5 to 7 years
Vehicles	5 years
Leasehold Improvements	Term of lease or Estimated useful life

IMPAIRMENT OF LONG-LIVED ASSETS

The carrying value of long-lived assets are reviewed when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If it is determined that an impairment loss has occurred based on the lowest level of identifiable expected future cash flow, then a loss is recognized in the statement of operations using a fair value based model.

F-11

VALUATION OF LONG-LIVED AND INTANGIBLE ASSETS AND GOODWILL

Effective January 1, 2002, we adopted SFAS No. 142, "Goodwill and Other Intangible Assets." According to this statement, goodwill and other intangible assets with indefinite lives are no longer subject to amortization, but rather an assessment of impairment applied on a fair-value-based test on an annual basis or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

We utilized the discounted cash flow methodology to estimate fair value. At December 31, 2006, we had a goodwill balance of \$8.6 million, and a net property and equipment balance of \$1.4 million, as compared to a goodwill balance of \$8.6 million and a net property and equipment balance of \$1.7 million at December 31, 2005. See Note 5 and Note 8 of the "Notes to Consolidated Financial Statements."

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Factors considered important that could trigger an impairment review include, but are not limited to, the following:

- o a significant underperformance relative to expected historical or projected future operating results;
- o a significant change in the manner of the use of the acquired asset or the strategy for the overall business; or
- o a significant negative industry or economic trend.

During the years ended December 31, 2005 and 2006, we did not recognize any impairment related to goodwill and property and equipment.

DEFERRED FINANCING COST

Deferred financing costs were \$839,000 and \$2.4 million at December 31, 2005 and 2006, respectively. These costs of obtaining financing and issuance of convertible debt instruments are being amortized on a straight-line basis over the term of the related debt. Amortization expenses for deferred charges were \$387,000, \$1,399,000 and \$2,525,000 for the years ended December 31, 2004, 2005 and 2006, respectively.

INCOME TAXES

We utilize SFAS No. 109, "Accounting for Income Taxes," which prescribes the use of the liability method to compute the differences between the tax basis of assets and liabilities and the related financial reporting amounts using currently enacted tax laws and rates. A valuation allowance is recorded to reduce deferred taxes to the amount that is more likely than not to be realized.

Our foreign subsidiary had an accumulated earning and profit deficit at December 31, 2006. Any current year foreign earning and profit will be reported by us as dividends on our tax returns.

F-12

NET INCOME (LOSS) PER SHARE

Basic and diluted income (loss) per share has been computed in accordance with SFAS No. 128, "Earnings Per Share". A reconciliation of the numerator and denominator of basic income (loss) per share and diluted income (loss) per share is as follows:

	YEAR ENDED DECEMBER 31,		
	2004	2005	2006
Basic EPS Computation:			
Numerator:			
Reported net income (loss)	\$(104,676,671)	\$ 993,344	\$ (22,220,748)
Denominator:			
Weighted average common shares outstanding .	28,732,796	29,728,997	30,545,599
Basic EPS	\$ (3.64)	\$ 0.03	\$ (0.73)

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

	=====	=====	=====
Diluted EPS Computation:			
Numerator:			
Reported net income (loss)	\$ (104,676,671)	\$ 993,344	\$ (22,220,748)
Denominator:			
Weighted average common shares outstanding .	28,732,796	29,728,997	30,545,599
Incremental shares from assumed exercise of warrants	--	--	--
convertible debentures	--	--	--
options	--	5,294	215
	-----	-----	-----
Total shares	28,732,796	29,734,291	30,545,814
Diluted EPS	\$ (3.64)	\$ 0.03	\$ (0.73)
	=====	=====	=====

The following potentially dilutive securities were not included in the computation of income (loss) per share, because to do so would have been anti-dilutive:

	2004	2005	2006
	-----	-----	-----
Options	8,331,962	6,727,756	7,673,444
Warrants	2,361,732	2,361,732	5,931,732
Convertible debentures	5,000,000	3,456,313	--
	-----	-----	-----
Total	15,693,694	12,545,801	13,605,176

DIVIDENDS

We did not declare or pay any cash dividends in 2004, 2005 or 2006. We intend to retain any future earnings for use in our business and, therefore, do not anticipate declaring or paying any cash dividends in the foreseeable future. The declaration and payment of any cash dividends in the future will depend upon our earnings, financial condition, capital needs and other factors deemed relevant by the Board of Directors. In addition, our credit agreements prohibit the payment of dividends during the term of the agreements.

F-13

FOREIGN CURRENCY TRANSLATION

Assets and liabilities of the Mexico and Hong Kong subsidiaries are translated at the rate of exchange in effect on the balance sheet date; income and expenses are translated at the average rates of exchange prevailing during the year. The functional currencies in which we transact business are the Hong Kong dollar and the peso in Mexico.

Foreign currency gains and losses resulting from translation of assets and liabilities are included in other comprehensive income (loss). Transaction gains or losses, other than inter-company debt deemed to be of a long-term nature, are included in net income (loss) in the period in which they occur. In 2004, we substantially liquidated our Mexico subsidiaries following the sale of the fixed

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

assets in Mexico. The accumulated foreign currency translation adjustment related to the Mexico subsidiaries of \$22.8 million of loss was reclassified and charged to income. The adjustment occurred in the fourth quarter of 2004. See Note 5 of the "Notes to Consolidated Financial Statements." Foreign currency gains and losses resulting from translation of assets and liabilities were insignificant in 2005 and 2006.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of financial instruments is determined by reference to various market data and other valuation techniques as appropriate. Considerable judgment is required in estimating fair values. Accordingly, the estimates may not be indicative of the amounts that we could realize in a current market exchange. The carrying amounts of cash and cash equivalents, receivables, inventory, prepaid expenses, accounts payable and accrued expenses approximate fair values. The carrying amounts of our variable rate borrowings under the various short-term borrowings and long-term debt arrangements approximate fair value.

CONCENTRATION OF CREDIT RISK

Financial instruments, which potentially expose us to concentration of credit risk, consist primarily of cash equivalents, trade accounts receivable, related party receivables and amounts due from factor.

Our products are primarily sold to mass merchandisers and specialty retail stores. These customers can be significantly affected by changes in economic, competitive or other factors. We make substantial sales to a relatively few, large customers. In order to minimize the risk of loss, we assign certain of our domestic accounts receivable to a factor without recourse or requires letters of credit from our customers prior to the shipment of goods. For non-factored receivables, account-monitoring procedures are utilized to minimize the risk of loss. Collateral is generally not required. At December 31, 2005 and 2006, approximately 22% and 23% of accounts receivable were due from two customers, respectively. The following table presents the percentage of net sales concentrated with certain customers.

CUSTOMER	PERCENTAGE OF NET SALES		
	2004	2005	2006
Macy's Merchandising Group	10.3	13.4	18.9
Kohl's	16.4	13.5	14.1
Mervyn's	15.4	11.2	11.9
Wal-Mart	5.9	11.1	4.5
New York & Co.	15.0	8.6	4.5

We maintain demand deposits with several major banks. At times, cash balances may be in excess of Federal Deposit Insurance Corporation or equivalent foreign insurance limits.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Significant estimates used by us in preparation of the financial statements include allowance for returns, discounts and bad debts, inventory, notes receivable - related parties

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

reserve, valuation of long-lived and intangible assets and goodwill, income taxes, stock options valuation, contingencies and litigation. Actual results could differ from those estimates.

STOCK-BASED COMPENSATION

On January 1, 2006, we adopted SFAS No. 123 (revised 2004), "Share-Based Payment," ("SFAS No. 123(R)") which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. SFAS No. 123(R) supersedes our previous accounting under Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees" for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin ("SAB") No. 107 relating to SFAS No. 123(R). We have applied the provisions of SAB No. 107 in our adoption of SFAS No. 123(R).

We adopted SFAS No. 123(R) using the modified prospective transition method, which requires the application of the accounting standard as of January 1, 2006, the first day of our fiscal year 2006. Our financial statements as of and for year ended December 31, 2006 reflect the impact of SFAS No. 123(R). In accordance with the modified prospective transition method, our financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS No. 123(R). Stock-based compensation expense recognized under SFAS No. 123(R) during the year ended December 31, 2006 was \$187,000. Basic and dilutive earnings per share for the year ended December 31, 2006 were decreased by \$0.01 from \$(0.72) to \$(0.73) by the additional stock-based compensation recognized.

The following table illustrates the effect on net loss and net loss per share if we had applied the fair value recognition provisions of SFAS No. 123 to stock-based payment awards granted under our stock option plans for the year ended December 31, 2004 and 2005:

	2004 -----	2005 -----
Net income (loss) as reported	\$(104,676,671)	\$ 993,344
Add stock-based employee compensation		
charges reported in net income (loss) ...	\$ 161,038	\$ 38,740
Pro forma compensation expense, net of tax .	\$ (3,852,990)	\$ (4,298,193)
	-----	-----
Pro forma net loss	\$(108,368,623)	\$ (3,266,109)
	=====	=====
 Net income (loss) per share		
Basic	\$ (3.64)	\$ 0.03
Add stock-based employee compensation		
charges reported in net income (loss)		
Basic	\$ 0.01	\$ 0.00
Pro forma compensation expense per share		
Basic	\$ (0.14)	\$ (0.14)
	-----	-----
Pro forma loss per share		
Basic	\$ (3.77)	\$ (0.11)
	=====	=====
 Net income (loss) per share		
Diluted	\$ (3.64)	\$ 0.03
Add stock-based employee compensation		
charges reported in net income (loss)		

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Diluted	\$	0.01	\$	0.00
Pro forma compensation expense per share				
Diluted	\$	(0.14)	\$	(0.14)

Pro forma loss per share				
Diluted	\$	(3.77)	\$	(0.11)
=====				

SFAS No. 123(R) requires companies to estimate the fair value of share-based payment awards to employees and directors on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately

F-15

expected to vest is recognized as expense over the requisite service periods in our consolidated statements of operations. Prior to the adoption of SFAS No. 123(R), we accounted for stock-based payment awards to employees and directors using the intrinsic value method in accordance with APB No. 25 as allowed under SFAS No. 123, "Accounting for Stock-Based Compensation". Under the intrinsic value method, no stock-based compensation expense had been recognized in our consolidated statements of operations for awards to employees and directors because the exercise price of our stock options equaled the fair market value of the underlying stock at the date of grant.

On September 23, 2005, the Board of Directors approved the acceleration of vesting of all our unvested stock options, including those not issued under the plan; see Note 14 of the "Notes to Consolidated Financial Statements." In total, 1.7 million stock options with an average exercise price of \$3.69 and an average remaining contractual life of 7.9 years were subject to this acceleration. The exercise prices and number of shares subject to the accelerated options were unchanged. The acceleration was effective as of September 23, 2005. As a result, there were no stock options granted prior to, but not yet vested as of January 1, 2006.

IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets", which provides an approach to simplify efforts to obtain hedge-like (offset) accounting. This Statement amends FASB Statement No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities", with respect to the accounting for separately recognized servicing assets and servicing liabilities. The Statement (1) requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in certain situations; (2) requires that a separately recognized servicing asset or servicing liability be initially measured at fair value, if practicable; (3) permits an entity to choose either the amortization method or the fair value method for subsequent measurement for each class of separately recognized servicing assets or servicing liabilities; (4) permits at initial adoption a one-time reclassification of available-for-sale securities to trading securities by an entity with recognized servicing rights, provided the securities reclassified offset the entity's exposure to changes in the fair value of the servicing assets or liabilities; and (5) requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value in the balance sheet and additional disclosures for all separately recognized servicing assets and servicing liabilities. SFAS No. 156 is effective for all separately recognized servicing assets and liabilities as of the beginning of an entity's fiscal year that begins after September 15, 2006, with earlier adoption

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

permitted in certain circumstances. The Statement also describes the manner in which it should be initially applied. We are currently evaluating the impact of this Statement.

In June 2006, the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109," ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes." FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return that results in a tax benefit. Additionally, FIN 48 provides guidance on de-recognition, income statement classification of interest and penalties, accounting in interim periods, disclosure, and transition. This interpretation is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the effect that the application of FIN 48 will have on our results of operations and financial condition.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". SFAS No. 157 establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. We are required to adopt the provision of SFAS No. 157, as applicable, beginning in fiscal year 2008. We do not believe the adoption of SFAS No. 157 will have a material impact on our financial position or results of operations.

In September 2006, the FASB issued SFAS No. 158, "Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106 and 132(R)". SFAS No. 158 requires us to (a) recognize a plan's funded status in the statement of financial position, (b) measure a plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year and (c) recognize changes in the funded status of a

F-16

defined postretirement plan in the year in which the changes occur through other comprehensive income. SFAS No. 158 is effective for fiscal years ending after December 15, 2006. We do not believe that SFAS No. 158 will have a material impact on our results of operations and financial condition.

In September 2006, the SEC issued SAB No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements", to address diversity in practice in quantifying financial statement misstatements. SAB No. 108 requires the quantification of misstatements based on their impact on both the balance sheet and the income statement to determine materiality. The guidance provides for a one-time cumulative effect adjustment to correct for misstatements that were not deemed material under a company's prior approach but are material under the SAB No. 108 approach. SAB No. 108 is effective for fiscal years ending after November 15, 2006. We are currently evaluating the potential impact that SAB 108 may have on our results of operations and financial condition.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Liabilities- Including an amendment of FASB Statement No. 115". SFAS No. 159 permits entities to choose to measure certain financial assets and liabilities at fair value (the "fair value option"). Unrealized gains and losses, arising subsequent to adoption, are reported in earnings. SFAS No.

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

159 is effective for fiscal years beginning after November 15, 2007. We are currently assessing the impact of SFAS No. 159 on our results of operations and financial condition.

RECLASSIFICATIONS

Certain prior year amounts have been reclassified to conform to the current year presentation.

2. ACCOUNTS RECEIVABLE

Accounts receivable consists of the following:

	DECEMBER 31	
	2005	2006
	-----	-----
U.S. trade accounts receivable	\$ 2,893,217	\$ 2,975,840
Foreign trade accounts receivable	19,619,172	16,986,357
Factored accounts receivable	33,222,354	29,697,935
Other receivables	1,815,450	496,253
Allowance for returns, discounts and bad debts .	(2,951,750)	(2,076,858)
	-----	-----
	\$ 54,598,443	\$ 48,079,527
	=====	=====

Under the asset-based lending arrangement we had with GMAC before September 29, 2004, we factored trade receivables from clients with credit ratings below BBB. GMAC did not advance any funds to us and only afforded us a credit insurance coverage. We received funds from GMAC only after such funds were collected from customers at their respective due dates. Effective as of September 29, 2004, the asset based lending arrangement was amended and converted to a factoring arrangement. At December 31, 2006, substantially all trade receivables, irrespective of their debt ratings, were factored and GMAC advances up to 90% of the invoice value to us immediately upon the submission of invoices. See Note 9 of "Notes to Consolidated Financial Statements."

3. INVENTORY

Inventory consists of the following:

	DECEMBER 31,	
	2005	2006
	-----	-----
Raw materials, fabric and trim accessories	\$ 5,079,428	\$ 3,271,610
Finished goods shipments-in-transit	8,800,014	7,331,422
Finished goods	17,749,518	7,171,071
	-----	-----
	\$31,628,960	\$17,774,103
	=====	=====

F-17

4. PROPERTY AND EQUIPMENT

Property and equipment consists of the following:

DECEMBER 31,

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

	2005	2006
Land	\$ 85,000	\$ 85,000
Buildings	819,372	819,372
Equipment	6,249,487	4,621,339
Furniture and fixtures	2,308,537	2,197,648
Leasehold improvements	2,684,720	2,727,243
Vehicles	322,487	333,311
	-----	-----
	12,469,603	10,783,913
	-----	-----
Less accumulated depreciation and amortization .	(10,766,763)	(9,369,559)
	-----	-----
	\$ 1,702,840	\$ 1,414,354
	=====	=====

Depreciation expense, including amortization of assets recorded under capital leases, totaled \$7,853,000, \$727,000 and \$455,000 for the years ended December 31, 2004, 2005 and 2006, respectively.

5. RESTRUCTURING AND SALE OF MEXICO OPERATIONS

Following our restructuring of our Mexican operations in 2003, and the resulting reduction in our Mexican work force, we became the target of workers' rights activists who picketed our customers, stuffed electronic mailboxes with inaccurate, protest e-mails, and threatened customers with retaliation for continuing business with us. While we had defended our position to our customers, some of our larger customers for Mexico-produced jeans wear had been reluctant to place orders with us in response to actions taken and contemplated by these activist groups. As a consequence, we experienced a significant decline in revenue from sales of Mexico-produced merchandise during 2004. As a result of this reduction in revenue from the sale of Mexico-produced merchandise, the Board of Directors approved a resolution in July 2004 authorizing management to sell the manufacturing operations in Mexico.

In accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," we evaluated the long-lived assets in Mexico for recoverability and concluded that the book value of the asset group was significantly higher than the expected future cash flows and that impairment had occurred. Accordingly, we recognized a non-cash impairment loss of approximately \$78 million in the second quarter of 2004. The impairment charge was the difference between the carrying value and fair value of the impaired assets. Fair value was determined based on independent appraisals of the property and equipment obtained in June 2004. There was no tax benefit recorded with the impairment loss due to a full valuation allowance recorded against the future tax benefit as of June 30, 2004. The entire impairment charge was recorded in the Mexico geographic reporting segment.

In connection with our restructuring of our Mexico operations, we incurred \$1.1 million of severance costs in 2004 in the Mexico reportable segment. We did not relocate any employees in connection with this restructuring and therefore did not incur any relocation costs. In addition, we did not incur any contract termination costs. There was no ending liability balance for the severance costs incurred in 2004 since such amounts were all paid in 2004. Severance costs incurred in 2004 were included in general and administrative expenses in the accompanying consolidated statements of operations.

In August 2004, through Tarrant Mexico, S. de R.L. de C.V., our majority owned and controlled subsidiary in Mexico, we entered into an Agreement for Purchase

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

of Assets with affiliates of Mr. Kamel Nacif, a shareholder at the time of the transaction, which agreement was amended in October 2004. Pursuant to the agreement, as amended, on November 30, 2004, we sold to the purchasers substantially all of our assets and real property in Mexico which include equipment and facilities previously leased to Mr. Nacif's affiliates in October 2003, for an aggregate purchase price consisting of a) \$105,400 in cash and \$3,910,000 by delivery of unsecured promissory

F-18

notes that mature on November 30, 2007, bearing interest at 5.5% per annum; and b) \$40,204,000, by delivery of secured promissory notes bearing interest at 4.5% per annum, with payments due on December 31, 2005 and every year thereafter until December 31, 2014. The secured promissory notes are payable in partial or total amounts anytime prior to the maturity of each note. The secured notes are secured by the real and personal property in Mexico that we sold to the purchasers.

Upon consummation of the sale of our Mexico assets, we entered into a purchase commitment agreement with the purchasers, pursuant to which we agreed to purchase annually over the ten-year term of the agreement, \$5 million of fabric manufactured at our former facilities acquired by the purchasers at negotiated market prices. This agreement replaced a previously existing purchase commitment agreement whereby we were obligated to purchase annually from Mr. Nacif's affiliates, 6 million yards of fabric (or approximately \$19.2 million of fabric at today's market prices) manufactured at these same facilities through October 2009. The annual future purchase commitments approximate the annual maturities of the notes receivable from the related party and are allowed to be offset against annual principal and interest requirements.

Included in the \$41.4 million notes receivable - related parties on the accompanying balance sheet as of December 31, 2005 was \$1,317,000 of Mexico valued added taxes on the real property component of this transaction. As of September 30, 2006, the outstanding balance of the notes and interest receivables were \$41.1 million prior to the reserve. Historically, we have placed orders for purchases of fabric from the purchasers pursuant to the purchase commitment agreement we entered into at the time of the sale of the Mexico assets, and we have satisfied our payment obligations for the fabric by offsetting the amounts payable against the amounts due to us under the notes. However, during 2006, the purchasers ceased providing fabric and are not currently making payments under the notes. We further evaluated the recoverability of the notes receivable and recorded a loss on the notes receivable in the third quarter of 2006 in an amount equal to the outstanding balance less the value of the underlying assets securing the notes. The loss was estimated to be approximately \$27.1 million, resulting in a net notes receivable balance at September 30, 2006 of approximately \$14 million. We believe there was no significant change subsequently on the value of the underlying assets securing the notes; therefore, we did not have additional reserve in the fourth quarter of 2006. We will continue to pursue payment of all amounts under the notes receivable and believe the remaining \$14 million balance at December 31, 2006 is realizable. The entire reserve was recorded in the Luxembourg geographic reporting segment.

6. EQUITY METHOD INVESTMENT - AMERICAN RAG

In the second quarter of 2003, we acquired a 45% equity interest in the owner of the trademark "American Rag CIE" and the operator of American Rag retail stores for \$1.4 million, and our subsidiary, Private Brands, Inc., acquired a license to certain exclusive rights to this trademark. We have guaranteed the payment to

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

the licensor of minimum royalties of \$10.4 million over the initial 10-year term of the agreement. The guaranteed annual minimum royalty is payable in equal monthly installments during the term of the agreement. The royalty owed to the licensor in excess of the guaranteed minimum, if any, is payable no later than 30 days after the end of the preceding full quarter with the amount for last quarter adjusted based on actual royalties owed for the year. The guaranteed annual minimum royalty for 2006 is \$661,000. At December 31, 2006, the total commitment on royalties remaining on the term was \$8.4 million. Private Brands also entered into a multi-year exclusive distribution agreement with Macy's Merchandising Group ("MMG"), the sourcing arm of Federated Department Stores, to supply MMG with American Rag CIE, a casual sportswear collection for juniors and young men. Under this arrangement, Private Brands designs and manufactures American Rag apparel, which is distributed by MMG exclusively to Federated stores across the country. Beginning in August 2003, the American Rag collection was available in approximately 100 select Macy's locations and is currently available in approximately 600 Macy's stores nationally. The investment in American Rag CIE, LLC totaling \$2.1 million and \$2.2 million at December 31, 2005 and 2006, respectively, is accounted for under the equity method and included in equity method investment on the accompanying consolidated balance sheets. Income from the equity method investment is recorded in the United States geographical segment. The change in investment in American Rag for 2005 and 2006 was as follows:

F-19

Balance as of December 31, 2004		\$ 1,880,281
Share of income		559,634
Distribution		(301,050)

Balance as of December 31, 2005		\$ 2,138,865
Share of income		79,696
Distribution		(67,500)

Balance as of December 31, 2006		\$ 2,151,061
		=====

We hold a 45% member interest in American Rag. The remaining 55% owners are an unrelated third party who contributed the American Rag trademark and other assets and liabilities relating to two retail stores operating under the name of "American Rag". The entity is generating positive cash flow and net operating profit from its retail stores. The royalty income paid by us to American Rag is considered other income and is ancillary to the primary operations. Reported revenue from the retail business in fiscal 2004, 2005 and 2006 was approximately \$9 million, \$10 million and \$10 million, respectively. The amount of royalty income to American Rag in 2004, 2005 and 2006 was \$500,000, \$575,000 and \$1.1 million, respectively. We do not have sole decision-making ability. Day to day management of American Rag is effectively controlled by one of the 55% owners.

We do not expect to receive a guaranteed return on its investment. We determined that we were not the primary beneficiary of American Rag under FIN 46. In June 2006, we signed a guarantee of certain liabilities of American Rag CIE to California United Bank to the aggregate amount equal at all times to the lesser of (A) 45% of the aggregate amount of the outstanding liabilities or (B) \$675,000. Upon execution of the guarantee, we re-evaluated our investment under the provisions of FIN 46. In our analysis, we determined that consolidation under FIN 46 is still not appropriate. Our variable interest will not absorb a majority of the VIE's expected losses. We record its proportionate share of income and losses but are not obligated nor do we intend to absorb losses beyond

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

its 45% investment interest. Additionally, we do not expect to receive a majority of the entity's expected residual returns, other than their 45% ownership interest.

7. OTHER ASSETS

THE BUFFALO GROUP

On December 6, 2006, we entered into a definitive stock and asset purchase agreement (the "Purchase Agreement") to acquire certain assets and entities comprising The Buffalo Group. The Buffalo Group designs, imports and sells contemporary branded apparel and accessories, primarily in Canada and the United States.

Pursuant to the Purchase Agreement, we and our subsidiaries agreed to acquire (1) all the outstanding capital stock of four principal operating subsidiaries of The Buffalo Group - Buffalo Inc., 3163946 Canada Inc., 3681441 Canada Inc. and Buffalo Corporation, and (2) certain assets, consisting primarily of intellectual property rights and licenses, from The Buffalo Trust. The consideration for the stock and assets to be purchased by us under the Purchase Agreement will consist of:

- o \$40 million in cash, subject to reduction prior to closing;
- o \$15 million in promissory notes that are due and payable in five equal annual installments beginning on the second anniversary of the closing date;
- o The issuance to the sellers of 13 million exchangeable shares of our Canadian subsidiary, which shares will be exchangeable by the holders into shares of our common stock on a 1-to-1 basis;
- o The issuance by us to a trustee of shares of our Series A Special Voting Preferred Stock that will entitle the sellers to direct the trustee to vote a number of shares equal to the number of exchangeable shares of our Canadian subsidiary that remain outstanding from time to time on all matters on which our shareholders are entitled to vote;
- o Assumption of debt of the entities being acquired by us; and
- o Earn-out payments of up to \$12 million in the aggregate over a four year period, contingent upon achievement by the acquired business of specified earnings targets in years 2007 through 2010.

F-20

In addition, we may be required to make a contingent cash payment following the fifth anniversary of the closing if the average price of our common stock does not equal or exceed \$3.076 within any 10 trading days during the five year period following the closing of the purchase transaction.

At signing of the Purchase Agreement, we delivered \$5.0 million to the sellers as a deposit against the purchase price payable under the agreement. Upon closing, this deposit will be used to pay a portion of the consideration payment and will reduce the amount of cash delivered at closing. Under certain conditions specified under the agreement, if we or The Buffalo Group terminate

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

the agreement prior to closing, the \$5.0 million deposit may or may not be refundable to us. This \$5.0 million deposit and \$1.1 million due diligence fees paid were included in other assets in our consolidated balance sheets.

The completion of the transaction is subject to the satisfaction of a number of conditions as set forth in the Purchase Agreement, including among others, the approval of the acquisition and related transactions by our shareholders, our obtaining the necessary financing to complete the acquisition, obtaining certain third party consents, and other customary closing conditions. Dates for closing the acquisition and for our shareholders' meeting to vote on the acquisition have not yet been determined. The Purchase Agreement may be terminated under certain conditions, including by mutual written consent of the parties, by either party in the event of a material breach by the other party, or by either party if the closing does not occur by April 30, 2007.

8. IMPAIRMENT OF ASSETS

IMPAIRMENT OF GOODWILL

Goodwill on the accompanying consolidated balance sheets represents the as "excess of costs over fair value of net assets acquired in previous business combination". SFAS No. 142, "Goodwill and Other Intangible Assets," requires that goodwill and other intangibles be tested for impairment using a two-step process. The first step is to determine the fair value of the reporting unit, which may be calculated using a discounted cash flow methodology, and compare this value to its carrying value. If the fair value exceeds the carrying value, no further work is required and no impairment loss would be recognized. The second step is an allocation of the fair value of the reporting unit to all of the reporting unit's assets and liabilities under a hypothetical purchase price allocation.

The following table displays the change in the gross carrying amount of goodwill by reporting units for the years ended December 31, 2005 and 2006. The reporting unit below is one level below the reportable segments included in Note 18, "Operations by Geographic Areas". The reporting unit FR TCL - Chazz & MGI Division was included within the United States geographical segment of Note 18 of the "Notes to the Consolidated Financial Statements."

REPORTING UNITS	
FR TCL - CHAZZZ & MGI DIVISION	
Balance as of January 1, 2005	\$8,582,845
Activities for the year	--

	=====	=====

IMPORT TRADE BILLS PAYABLE, BANK DIRECT ACCEPTANCES AND OTHER HONG KONG CREDIT FACILITIES

On June 13, 2002, we entered into a letter of credit facility of \$25 million with UPS Capital Global Trade Finance Corporation ("UPS"). Under this facility, we could arrange for the issuance of letters of credit and acceptances. The facility was collateralized by the shares and debentures of all of our subsidiaries in Hong Kong. In addition to the guarantees provided by us and our subsidiaries, Fashion Resource (TCL) Inc. and Tarrant Luxembourg Sarl, Gerard Guez, our Chairman and Interim Chief Executive Officer, also signed a guarantee of \$5 million in favor of UPS to secure this facility. Additionally, Gerard Guez pledged to UPS 4.6 million shares of our common stock held by Mr. Guez to secure the obligations under the credit facility. On June 9, 2006, we completed the pay-off of all remaining amounts due under the letter of credit facility with UPS. As a result of the payment of these obligations, the letter of credit facility was terminated and all collateral released. There was no prepayment penalty under this arrangement. As of December 31, 2006, \$0 was outstanding under this facility with UPS.

Since March 2003, DBS Bank (Hong Kong) Limited ("DBS") had made available a letter of credit facility of up to HKD 20 million (equivalent to US \$2.6 million) to our subsidiaries in Hong Kong. This was a demand facility and was secured by the pledge of our office property, which is owned by Gerard Guez, our Chairman and Interim Chief Executive Officer, and Todd Kay, our Vice Chairman, and by our guarantee. The letter of credit facility was increased to HKD 30 million (equivalent to US \$3.9 million) in June 2004. In September 2006, a tax loan for HKD 8.438 million (equivalent to US \$1.1 million) was also made available to our Hong Kong subsidiaries and bears interest at the rate equal to the Hong Kong prime rate plus 1% and are subject to the same security. It bore interest at 9% per annum at December 31, 2006. As of December 31, 2006, \$1.0 million was outstanding under this tax loan.

In June 2006, our subsidiaries in Hong Kong, Tarrant Company Limited, Marble Limited and Trade Link Holdings Limited, entered into a new credit facility with DBS. Under this facility, we may arrange for letters of credit and acceptances. The maximum amount our Hong Kong subsidiaries may borrow under this facility at

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

any time is US \$25 million. The interest rate under the letter of credit facility is equal to the Standard Bills Rate quoted by DBS minus 0.5% if paid in Hong Kong Dollars, which the interest rate was 8.5% per annum at December 31, 2006, or the Standard Bills Rate quoted by DBS plus 0.5% if paid in any other currency, which the interest rate was 8.6% per annum at December 31, 2006. This is a demand facility and is secured by a security interest in all the assets of the Hong Kong subsidiaries, by a pledge of our office property where our Hong Kong office is located, which is owned by Gerard Guez and Todd Kay and by our guarantee. The DBS facility includes customary default provisions. In addition, we are subject to certain restrictive covenants, including that we maintain a specified tangible net worth, and a minimum level of EBITDA at December 31, 2006, interest coverage ratio, leverage ratio and limitations on

F-22

additional indebtedness. As of December 31, 2006, we were in violation with the EBITDA, tangible net worth and leverage ratio covenants and a waiver was obtained on March 19, 2007. As of December 31, 2006, \$12.5 million was outstanding under this facility. In addition, \$4.1 million of open letters of credit was outstanding and \$7.4 million was available for future borrowings as of December 31, 2006.

As of December 31, 2006, the total balance outstanding under the DBS Bank credit facilities was \$13.5 million (classified above as follows: \$5.6 million in import trade bills payable, \$3.4 million in bank direct acceptances and \$4.5 million in other Hong Kong credit facilities).

From time to time, we open letters of credit under an uncommitted line of credit from Aurora Capital Associates which issues these letters of credits out of Israeli Discount Bank. As of December 31, 2006, \$190,000 was outstanding under this facility (classified above under import trade bills payable) and \$532,000 of letters of credit was open under this arrangement. We pay a commission fee of 2.25% on all letters of credits issued under this arrangement.

LOAN FROM MAX AZRIA

On January 19, 2006, we borrowed \$4.0 million from Max Azria pursuant to the terms of a promissory note, which amount bore interest at the rate of 5.5% per annum and was payable in weekly installments of \$200,000 beginning on March 1, 2006. This was an unsecured loan. We paid off the remaining balance of this loan in July 2006. As of December 31, 2006, \$0 was outstanding under this loan.

EQUIPMENT FINANCING

We had three equipment loans outstanding during 2006. One of these equipment loans bore interest at 6% payable in installments through 2009, which we paid off in January 2006. The second loan bears interest at 15.8% payable in installment through 2007 and the third loan bears interest at 6.15% payable in installment through 2007. In August 2006, we entered into a new auto loan that bears interest at 4.75% payable in installment through 2008. As of December 31, 2006, \$38,000 was outstanding under the three remaining loans.

TERM LOAN - UPS

On December 31, 2004, our Hong Kong subsidiaries entered into a loan agreement with UPS pursuant to which UPS made a \$5 million term loan, the proceeds of which were used to repay \$5 million of indebtedness owed to UPS under the letter of credit of facility. The principal amount of this loan was due and payable in 24 equal monthly installments of approximately \$208,333 each, plus interest

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

equivalent to the "prime rate" plus 2% commencing on February 1, 2005. The obligations under the loan agreement were collateralized by the same security interests and guarantees provided under our letter of credit facility with UPS. Additionally, the term loan was secured by two promissory notes payable to Tarrant Luxembourg Sarl in the amounts of \$2,550,000 and \$1,360,000 and a pledge by Gerard Guez of 4.6 million shares of our common stock. On June 9, 2006, we completed the pay-off of all remaining amounts due under the term loan agreement with UPS. As a result of the payment of these obligations, the term loan agreement was terminated and all collateral released. There was no prepayment penalty under this arrangement. As of December 31, 2006, \$0 was outstanding under this loan arrangement with UPS.

DEBT FACILITY AND FACTORING AGREEMENT - GMAC CF

On October 1, 2004, we amended and restated our previously existing credit facility with GMAC Commercial Finance Credit, LLC ("GMAC CF") by entering into a new factoring agreement with GMAC CF. The amended and restated agreement (the factoring agreement) extended the expiration date of the facility to September 30, 2007 and added as parties our subsidiaries Private Brands, Inc and No! Jeans, Inc. In addition, in connection with the factoring agreement, our indirect majority-owned subsidiary PBG7, LLC entered into a separate factoring agreement with GMAC CF. Pursuant to the terms of the factoring agreement, we and our subsidiaries agree to assign and sell to GMAC CF, as factor, all accounts which arise from our sale of merchandise or rendition of service created on a going forward basis. At our request, GMAC CF, in its discretion, may make advances to us up to the lesser of (a) up to 90% of our accounts on which GMAC CF has the risk of loss or (b) \$40 million, minus in each case, any amount owed by us to GMAC CF. In May 2005, we amended our factoring agreement with GMAC CF to permit our

F-23

subsidiaries party thereto and us, to borrow up to the lesser of \$3 million or 50% of the value of eligible inventory. In connection with this amendment, we granted GMAC CF a lien on certain of our inventory located in the United States. On January 23, 2006, we further amended our factoring agreement with GMAC CF to increase the amount we might borrow against inventory to the lesser of \$5 million or 50% of the value of eligible inventory. The \$5 million limit was reduced to \$4 million on April 1, 2006.

On June 16, 2006, we expanded our credit facility with GMAC CF by entering into a new Loan and Security Agreement and amending and restating our previously existing Factoring Agreement with GMAC CF. UPS Capital Corporation is also a lender under the Loan and Security Agreement. This is a revolving credit facility and has a term of 3 years. The amount we may borrow under this credit facility is determined by a percentage of eligible accounts receivable and inventory, up to a maximum of \$55 million, and includes a letter of credit facility of up to \$4 million. Interest on outstanding amounts under this credit facility is payable monthly and accrues at the rate of the "prime rate" plus 0.5%. Our obligations under the GMAC CF credit facility are secured by a lien on substantially all our domestic assets, including a first priority lien on our accounts receivable and inventory. This credit facility contains customary financial covenants, including covenants that we maintain minimum levels of EBITDA and interest coverage ratios and limitations on additional indebtedness. This facility includes customary default provisions, and all outstanding obligations may become immediately due and payable in the event of a default. The facility bore interest at 8.75% per annum at December 31, 2006. As of December 31, 2006, we were in violation with the EBITDA covenant and a waiver was obtained on March 23, 2007. A total of \$19.6 million was outstanding with

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

respect to receivables factored under the GMAC CF facility at December 31, 2006.

CREDIT FACILITY FROM GUGGENHEIM CORPORATE FUNDING LLC AND WARRANTS

On June 16, 2006, we entered into a Credit Agreement with certain lenders and Guggenheim Corporate Funding LLC ("Guggenheim"), as administrative agent and collateral agent for the lenders. This credit facility provides for borrowings of up to \$65 million. This facility consists of an initial term loan of up to \$25 million, of which we borrowed \$15.5 million at the initial funding, to be used to repay certain existing indebtedness and fund general operating and working capital needs. An additional term loan of up to \$40 million will be available under this facility to finance acquisitions acceptable to Guggenheim. All amounts under the term loans become due and payable in December 2010. Interest under this facility is payable monthly, with the interest rate equal to the LIBOR rate plus an applicable margin based on our debt leverage ratio (as defined in the credit agreement). Our obligations under the Guggenheim credit facility are secured by a lien on substantially all of our assets and our domestic subsidiaries, including a pledge of the equity interests of our domestic subsidiaries and 65% of our Luxembourg subsidiary. This credit facility contains customary financial covenants, including covenants that we maintain minimum levels of EBITDA and interest coverage ratios and limitations on additional indebtedness.

In connection with Guggenheim credit facility, on June 16, 2006, we issued the lenders under this facility warrants to purchase up to an aggregate of 3,857,143 shares of our common stock. These warrants have a term of 10 years. These warrants are exercisable at a price of \$1.88 per share with respect to 20% of the shares, \$2.00 per share with respect to 20% of the shares, \$3.00 per share with respect to 20% of the shares, \$3.75 per share with respect to 20% of the shares and \$4.50 per share with respect to 20% of the shares. The exercise prices are subject to adjustment for certain dilutive issuances pursuant to the terms of the warrants. 357,143 shares of the warrants will not become exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. The warrants were evaluated under SFAS No. 133 and Emerging Issues Task Force ("EITF") No. 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock" and determined to be a derivative instrument due to certain registration rights. As such, the warrants excluding the ones not exercisable were valued at \$4.9 million using the Black-Scholes model with the following assumptions: risk-free interest rate of 5.1%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.70; and contractual term of ten years. We also paid to Guggenheim 2.25% of the committed principal amount of the loans which was \$563,000 on June 16, 2006. The \$563,000 fee paid to Guggenheim is included in the deferred financing cost, and the value of the warrants to purchase 3.5 million shares of our common stock of \$4.9 million is recorded as debt discount, both of them are amortized over the life of the loan. As of December 31, 2006, \$654,000 was amortized.

Durham Capital Corporation ("Durham") acted as our advisor in connection with the Guggenheim credit facility. As compensation for its services, we agreed to pay Durham a cash fee in an amount equal to 1% of the committed

F-24

principal amount of the loans under the Guggenheim credit facility. As a result, \$250,000 was paid on June 16, 2006. In addition, we issued Durham a warrant to purchase 77,143 shares of our common stock. This warrant has a term of 10 years and is exercisable at a price of \$1.88 per share, subject to adjustment for certain dilutive issuances. 7,143 shares of this warrant will not become

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. The warrants were evaluated under SFAS No. 133 and EITF 00-19 and determined to be a derivative instrument due to certain registration rights. As such, the warrants excluding the ones not exercisable were valued at \$105,000 using the Black-Scholes model with the following assumptions: risk-free interest rate of 5.1%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.70; and contractual term of ten years. The \$250,000 fee paid to Durham and the value of the warrants to purchase 70,000 shares of our common stock of \$105,000 is included in the deferred financing cost, and is amortized over the life of the loan. As of December 31, 2006, \$43,000 was amortized.

The Guggenheim facility bore interest at 12.36% per annum at December 31, 2006. As of December 31, 2006, we were in violation with the EBITDA covenant and a waiver was obtained on March 23, 2007. A total of \$11.2 million, net of \$4.3 million of debt discount, was outstanding under this facility at December 31, 2006.

As of June 30, 2006, the warrants were being accounted for as a liability pursuant to the provisions of SFAS No. 133 and EITF No. 00-19". This was because we granted the warrant holders certain registration rights that were outside our control. In accordance with SFAS No. 133, the warrants were being valued at each reporting period. Changes in fair value were recorded as adjustment to fair value of derivative in the statements of operations. The outstanding warrants were fair valued on June 16, 2006, the date of the transaction, at \$5.0 million and we, in accordance with SFAS No. 133, revaluated the warrants on June 30, 2006 at the closing stock price on June 30, 2006 to \$5.2 million; as a result, an expense of \$218,000 was recorded as an adjustment to fair value of derivative on our consolidated statements of operations. On August 11, 2006, the registration rights agreement relating to the warrants was amended to provide that if we were unable to file or have the registration statement declared effective by the required deadlines, we would be required to pay the warrant holders cash payments as partial liquidated damages each month until the registration statement was filed and/or declared effective. The liquidated damages payable by us to the warrant holders are limited to 20% of the purchase price of the shares underlying the warrants, which we determined to be a reasonable discount for restricted stock as compared to registered stock. As a result of amending the registration rights relating to the warrants on August 11, 2006, the warrants were reclassified from debt to equity in accordance with EITF No. 00-19 in the third quarter of 2006. The outstanding warrants were revaluated on August 11, 2006 at the closing stock price on August 11, 2006 to \$4.5 million; as a result, income of \$729,000 was recorded as an adjustment to fair value of derivative on our consolidated statements of operations. As such, a net gain of \$511,000 was recognized in our statements of operations as an adjustment to fair value of derivative in 2006.

The credit facilities with GMAC CF and Guggenheim include cross-default clauses subject to certain conditions. An event of default under the GMAC CF facility would constitute an event of default under the Guggenheim facility entitling Guggenheim to demand payment in full of all outstanding amounts under its facility. An event of default under the Guggenheim facility, under circumstances where Guggenheim has accelerated the debt or has exercised any other remedy available to Guggenheim which constitutes a Lien Enforcement Action under its Intercreditor Agreement with GMAC CF, would entitle GMAC CF to demand payment in full of all outstanding amounts under its debt facilities.

The credit facilities with GMAC CF and Guggenheim prohibit us from paying dividends or other distributions on our common stock. In addition, the credit facility with GMAC CF prohibits our subsidiaries that are borrowers under the facility from paying dividends or other distributions to us, and the credit facility with DBS prohibits our Hong Kong facilities from paying any dividends or other distributions or advances to us. We are also restricted in making

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

advances to and borrowing funds from our subsidiaries under the Guggenheim credit facility.

GUARANTEES

Guarantees had been issued since 2001 in favor of YKK, Universal Fasteners, and RVL Inc. for \$750,000, \$500,000 and unspecified amount, respectively, to cover trim purchased by Tag-It Pacific Inc. on our behalf. We had not reported a liability for these guarantees. We issued the guarantees to cover trim purchased by Tag-It in order to ensure our production in a timely manner. If Tag-It ever defaults, we would have to pay the outstanding liability due to these vendors by Tag-It for purchases made on our behalf. We had not had to perform under these guarantees

F-25

since inception. In April 2005, we terminated these guarantees with respect to Tag-It's obligations arising after the date of termination.

In June 2006, we signed a guarantee of certain liabilities of American Rag CIE to California United Bank to the aggregate amount equal at all times to the lesser of (A) 45% of the aggregate amount of the outstanding liabilities or (B) \$675,000.

10. CONVERTIBLE DEBENTURES AND WARRANTS

On December 14, 2004, we completed a \$10 million financing through the issuance of (i) 6% Secured Convertible Debentures ("Debentures") and (ii) warrants to purchase up to 1,250,000 shares of our common stock. Prior to maturity, the investors could convert the Debentures into shares of our common stock at a price of \$2.00 per share. The warrants have a term of five years and an exercise price of \$2.50 per share. The warrants were valued at \$866,000 using the Black-Scholes model with the following assumptions: risk-free interest rate of 4%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.55; and an expected life of four years. The Debentures bore interest at a rate of 6% per annum and have a term of three years. We could elect to pay interest on the Debentures in shares of our common stock if certain conditions are met, including a minimum market price and trading volume for our common stock. The Debentures contained customary events of default and permit the holder thereof to accelerate the maturity if the full principal amount together with interest and other amounts owing upon the occurrence of such events of default. The Debentures were secured by a subordinated lien on certain of our accounts receivable and related assets. The closing market price of our common stock on the closing date of the financing was \$1.96. The Debentures were thus valued at \$8,996,000, resulting in an effective conversion price of \$1.799 per share. The intrinsic value of the conversion option of \$804,000 was being amortized over the life of the loan. The value of the warrants of \$866,000 and the intrinsic value of the conversion option of \$804,000 were netted from the \$10 million presented as the convertible debentures, net on our accompanying balance sheets at December 31, 2004.

The placement agent in the financing, received compensation for its services in the amount of \$620,000 in cash and issuance of five year warrants to purchase up to 200,000 shares of our common stock at an exercise price of \$2.50 per share. The warrants to purchase 200,000 shares of our common stock were valued at \$138,000 using the Black-Scholes model with the following assumptions: risk-free interest rate of 4%; dividend yields of 0%; volatility factors of the expected market price of our common stock of 0.55; and an expected life of four years. The financing cost paid to the placement agent of \$620,000, and the value of the

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

warrants to purchase 200,000 shares of our common stock of \$138,000 were included in the deferred financing cost, net on our accompanying balance sheets and was amortized over the life of the loan.

In June 2005, holders of our Debentures converted an aggregate of \$2.3 million of Debentures into 1,133,687 shares of our common stock. In August 2005, holders of our Debentures converted an aggregate of \$820,000 of Debentures into 410,000 shares of our common stock. The Debentures were converted at the option of the holders at a price of \$2.00 per share. Debt discount of \$248,000 related to the intrinsic value of the conversion option of \$804,000 was expensed upon the conversion. Of the \$620,000 financing cost paid to the placement agent, \$191,000 was expensed upon the conversion. The intrinsic value of the conversion option, and the value of the warrant amortized in 2006 was \$237,000. Total deferred financing cost amortized in 2006 was \$95,000. Total interest paid to the holders of the Debentures in 2006 was \$198,000. On June 26, 2006, we paid off the remaining balance of the outstanding Debentures of \$6.9 million plus all accrued and unpaid interest and a prepayment penalty of \$171,000. As a result of the repayment, the Debentures were terminated effective June 26, 2006. Upon paying off the Debentures, debt discount of \$278,000 related to the intrinsic value of the conversion option of \$804,000 was expensed, and of the \$620,000 financing cost paid to the placement agent, \$214,000 was expensed. The remaining value of the warrants to holders of our Debentures of \$433,000 and warrants to the placement agent of \$69,000 was also expensed.

11. DERIVATIVES AND OTHER FINANCIAL INSTRUMENTS

We use forward currency contracts to manage risks generally associated with foreign exchange rate. During the year ended December 31, 2006, we entered into foreign currency forward contracts to hedge against the effect of exchange rate fluctuations on cash flows denominated in foreign currencies and certain inter-company financing transactions.

F-26

This transaction is undesignated and as such an ineffective hedge. At December 31, 2006, we had one open foreign exchange forward which has a maturity of less than one year. Hedge ineffectiveness resulted in an impact of \$196,000 in our consolidated statements of operations as of December 31, 2006.

12. INCOME TAXES

The provision for domestic and foreign income taxes is as follows:

	YEAR ENDED DECEMBER 31,		
	2004	2005	2006
Current:			
Federal	\$ 1,000,000	\$ --	\$ 6,968
State	8,511	2,425	6,400
Foreign	1,400,953	1,091,442	202,677
	2,409,464	1,093,867	216,045
Deferred:			
Federal	--	--	--
State	--	--	--
Foreign	(61,345)	(166,686)	237,045
	(61,345)	(166,686)	237,045

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

	-----	-----	-----
Total	\$ 2,348,119	\$ 927,181	\$ 453,090
	=====	=====	=====

The source of income (loss) before the provision for taxes and cumulative effect of accounting change is as follows:

	YEAR ENDED DECEMBER 31,		
	-----	-----	-----
	2004	2005	2006
	-----	-----	-----
Federal	\$ (14,271,441)	\$ (4,481,879)	\$ 1,436,555
Foreign	(88,057,111)	6,402,404	(23,204,213)
	-----	-----	-----
Total	\$ (102,328,552)	\$ 1,920,525	\$ (21,767,658)
	=====	=====	=====

Our effective tax rate differs from the statutory rate principally due to the following reasons: (1) a substantial valuation allowance has been provided for deferred tax assets as a result of the operating losses in the United States and Mexico, since recoverability of those assets has not been assessed as more likely than not; (2) although we have taxable losses in Mexico, it is subject to a minimum tax; and (3) the earnings of our Hong Kong subsidiary are taxed at a rate of 17.5% versus the 35% U.S. federal rate. The impairment charge in Mexico did not result in a tax benefit due to an increase in the valuation allowance against the future tax benefit. We believe it is more likely than not that the tax benefit will not be realized based on our future business plans in Mexico.

F-27

A reconciliation of the statutory federal income tax provision (benefit) to the reported tax provision on income (loss) is as follows:

	YEAR ENDED DECEMBER 31,		
	-----	-----	-----
	2004	2005	2006
	-----	-----	-----
Income tax (benefit) based on federal statutory rate	\$ (35,814,993)	\$ 672,184	\$ (7,618,680)
State income taxes, net of federal benefit ..	5,532	(246,978)	190,152
Effect of foreign income taxes	2,749,376	(1,316,085)	8,561,197
Nondeductible impairment of long-lived assets	30,463,663	--	--
Increase in tax reserve	1,000,000	--	--
Increase in valuation allowance and other	3,944,541	1,818,060	(679,579)
	-----	-----	-----
	\$ 2,348,119	\$ 927,181	\$ 453,090
	=====	=====	=====

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the deferred tax assets (liabilities) are as follows:

	DECEMBER 31,	
	2005	2006
Deferred tax assets:		
Provision for doubtful accounts and unissued credits	\$ 117,979	\$ 501,54
Provision for other reserves	2,874,377	1,808,09
Domestic and foreign loss carry forwards and foreign tax credits	11,162,380	13,867,84
Goodwill	2,138,984	4,240,27
Total deferred tax assets	16,293,720	20,417,75
Deferred tax liabilities:		
Other	(47,098)	--
	(47,098)	--
Valuation allowance for deferred tax assets	(16,293,720)	(20,294,14
Net deferred tax assets (liabilities)	\$ (47,098)	\$ 123,60

At December 31, 2006, we have \$37.3 million of federal net operating loss carry forwards that expire beginning in 2023. We also have foreign tax credits carry forwards totaling \$1.9 million that expire beginning in 2009.

In January 2004, the Internal Revenue Service ("IRS") completed its examination of our Federal income tax returns for the years ended December 31, 1996 through 2001. The IRS has proposed adjustments to increase our income tax payable for the six years under examination. In addition, in July 2004, the IRS initiated an examination of our Federal income tax return for the year ended December 31, 2002. In March 2005, the IRS proposed an adjustment to our taxable income of approximately \$9 million related to similar issues identified in their audit of the 1996 through 2001 federal income tax returns. The proposed adjustments to our 2002 federal income tax return would not result in additional tax due for that year due to the tax loss reported in the 2002 federal return. However, it could reduce the amount of net operating losses available to offset taxes due from the preceding tax years. This adjustment would also result in additional state taxes, penalties and interest. We believe that we have meritorious defenses to and intend to vigorously contest the proposed adjustments made to our federal income tax returns for the years ended 1996 through 2002. If the proposed adjustments are upheld through the administrative and legal process, they could have a material impact on our earnings and cash flow. We believe we have provided adequate reserves for any reasonably foreseeable outcome related to these matters on the consolidated balance sheets under the caption "Income Taxes". The maximum amount of loss in excess of the amount accrued in the financial statements is \$8.3

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

million. We do not believe that the adjustments, if any, arising from the IRS examination, will result in an additional income tax liability beyond what is recorded in the accompanying consolidated balance sheets.

13. COMMITMENTS AND CONTINGENCIES

We have entered into various non-cancelable operating lease agreements, principally for executive office, warehousing facilities and showrooms with unexpired terms in excess of one year. Certain of these leases provided for scheduled rent increases. We record rent expense on a straight-line basis over the term of the lease. The future minimum lease payments under these non-cancelable operating leases are as follows:

2007	\$1,805,000
2008	1,290,000
2009	1,263,000
2010	1,291,000
2011	1,044,000
Thereafter	2,467,000

Total future minimum lease payments	\$9,160,000
	=====

Included in the future minimum lease payments are, \$480,000 payable to Lynx International Limited, a Hong Kong corporation that is owned by Messrs. Guez and Kay for leasing our office space and warehouse in Hong Kong, and \$3,008,000 payable to GET a corporation which is owned by Messrs. Gerard Guez and Todd Kay for leasing the Los Angeles offices and warehouse. See Note 17 of the "Notes to Consolidated Financial Statements."

Several of the operating leases contain provisions for additional rent based upon increases in the operating costs, as defined, per the agreement. Total rent expense under the operating leases amounted to approximately \$2,128,000, \$1,295,000 and \$1,890,000 for 2004, 2005 and 2006, respectively.

We entered into a new lease agreement in June 2005 in New York for our showroom through June 2015. This is currently the location used for the private brands sales, design and technical departments, which functions we moved from our Los Angeles executive office.

We renewed the lease agreement in March 2007 in Mexico for our office and storage through March 2008.

On August 1, 2006, we entered into a lease agreement with GET for the Los Angeles offices and warehouse, which lease has a term of five years with an option to renew for an additional five year term. On February 1, 2007, we entered into a one year lease agreement with Lynx International Limited for our office space and warehouse in Hong Kong.

We had open letters of credit of \$9,987,000, \$9,519,000 and \$4,583,000 as of December 31, 2004, 2005 and 2006, respectively.

We had two employment contracts dated January 1, 1998, and subsequently amended, with two executives providing for base compensation and other incentives. On April 1, 2004, we amended each of these contracts to extend the term through March 31, 2006, and to provide one contract for base salary per annum of \$500,000 for the period from April 1, 2003 to March 31, 2006, and the other contract for base salary per annum of \$50,000 from April 1, 2003 to March 31, 2006. Additionally, we agreed to pay each of these executives an annual bonus

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

(the "Annual Bonus") for fiscal years ended December 31, 2003, 2004 and 2005 in an amount, if any, equal to ten percent (10%) of the amount by which our actual pre-tax income for such fiscal year exceeds the amount of projected pre-tax income set forth in our annual budget for the same fiscal year as approved by our Board of Directors. No bonuses were paid to these executives for the fiscal year ended December 31, 2004 and 2005. Bonus of \$150,000 was paid to one of the executives in 2006.

In the second quarter of 2003, we acquired a 45% equity interest in the owner of the trademark "American Rag CIE" and the operator of American Rag retail stores for \$1.4 million, and our subsidiary, Private Brands, Inc., acquired a license to certain exclusive rights to this trademark. We have guaranteed the payment to the licensor of minimum

F-29

royalties of \$10.4 million over the initial 10-year term of the agreement. At December 31, 2006, the total commitment on royalties remaining on the term was \$8.4 million.

On October 17, 2004, Private Brands, Inc entered into an agreement with J. S. Brand Management to design, manufacture and distribute Jessica Simpson branded jeans and casual apparel. This agreement has an initial three-year term, and provided we are in compliance with the terms of the agreement, is renewable for one additional two-year term. Minimum net sales are \$20 million in year 1, \$25 million in year 2 and \$30 million in year 3. The agreement provides for payment of a sales royalty and advertising commitment at the rate of 8% and 3%, respectively, of net sales, for a total minimum payment obligation of \$8.3 million over the initial term of the agreement. On July 19, 2005, Camuto Consulting Group replaced J.S. Brand Management as the master licensor. In December 2004, we advanced \$2.2 million as payment for the first year's minimum royalties. We applied \$1.1 million from the above advance against the royalty and marketing expenses in 2005 and \$884,000 in the first three months of 2006. In March 2006, we had written off the capitalized balance of \$192,000 and recognized a corresponding loss. The loss was classified as royalty expense on our consolidated statements of operations. In March 2006, we became involved in a dispute with the licensor of the Jessica Simpson brands over our continued rights to these brands. We are presently in litigation with the licensor. See Note 21 of the "Notes to Consolidated Financial Statements". The licensor has refused to accept payments and maintains that the agreement has been terminated. There have been no sales of new products since the licensor started refusing to approve products for manufacture and sale. If we are successful in the lawsuit against the licensor, then we expect to be able to reduce or eliminate these payment obligations as an offset to damages sustained by us. If we do not succeed in our claims, we believe we will likely not be required to make the entire guaranteed payments contemplated under the agreement. As a result, in 2006, we did not accrue for the payments of minimum royalty, sales royalty and advertising commitment of \$2.1 million pursuant to the agreement.

On January 3, 2005, Private Brands, Inc, our wholly owned subsidiary, entered into a term sheet exclusive licensing agreement with Beyond Productions, LLC and Kids Headquarters to collaborate on the design, manufacturing and distribution of women's contemporary, large sizes and junior apparel bearing the brand name "House of Dereon", Couture, Kick and Soul. This agreement was a three-year contract, and providing compliance with all terms of the license, was renewable for one additional three-year term. The agreement also provided payment of royalty at the rate of 8% on net sales and 3% on net sales for marketing fund commitments. In the first quarter of 2005, we advanced \$1.2 million as payment for the first year's minimum royalty and marketing fund commitment. We had

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

applied \$34,000 from the above advance against the royalty and marketing expenses in 2005. In March 2006, we agreed to terminate our agreement to design, market and sell House of Dereon by Tina Knowles branded apparel and we agreed to sell all remaining inventory to the licensor or its designee. As a result, we will no longer be involved in the sales of this private brand. Prior to December 31, 2005, we had written off the capitalized balance of \$1.2 million related to agreement and recognized a loss accordingly in 2005. The loss was classified as royalty expense on our consolidated statements of operations.

In July 2006, we terminated our License Agreements and the parent guaranty with Cynthia Rowley. In consideration of termination of the License Agreements, \$400,000 was paid to Cynthia Rowley in July 2006.

In August 2004, we entered into an Agreement for Purchase of Assets with affiliates of Mr. Kamel Nacif; a shareholder at the time of the transaction, with agreement was amended in October 2004. Pursuant to the agreement, as amended, on November 30, 2004, we sold to the purchasers substantially all of our assets and real property in Mexico, including the equipment and facilities we previously leased to Mr. Nacif's affiliates. Upon consummation of the sale, we entered into a purchase commitment agreement with the purchasers, pursuant to which we agreed to purchase annually over the ten-year term of the agreement, \$5 million of fabric manufactured at our former facilities acquired by the purchasers at negotiated market prices. We purchased \$6.4 million of fabric, of which \$2.4 million was paid in cash and \$4.0 million was offset against the notes receivable principal and accrued interest on the note receivable from the affiliates of Mr. Kamel Nacif in 2005. We did not purchase any fabric in 2006. See Note 17 of the "Notes to Consolidated Financial Statements."

On September 1, 2006, our subsidiary in Hong Kong, Tarrant Company Limited, entered into an agreement with Seven Licensing Company, LLC ("Seven Licensing") to be its buying agent to source and purchase apparel merchandise. Seven Licensing is beneficially owned by Gerard Guez.

We are involved from time to time in routine legal matters incidental to our business. In our opinion, resolution of such matters will not have a material effect on our financial position or results of operations.

F-30

14. STOCK-BASED COMPENSATION

Our Employee Incentive Plan, formerly the 1995 Stock Option Plan (the "1995 Plan"), authorized the grant of both incentive and non-qualified stock options to our officers, employees, directors and consultants for shares of our common stock. As of December 31, 2006, there were outstanding options to purchase a total of 1,045,000 shares of common stock granted under the 1995 Plan. No further grants may be made under the 1995 Plan. On May 25, 2006, we adopted 2006 Stock Incentive Plan (the "2006 Plan"), which authorizes the issuance of up to 5,100,000 shares of our common stock pursuant to options or awards granted under the 2006 Plan. As of December 31, 2006, there were outstanding options to purchase a total of 1,228,000 shares of common stock, and 3,872,000 shares remained available for issuance pursuant to award granted under the 2006 Plan. The exercise price of options under the plan must be equal to 100% of fair market value of common stock on the date of grant. The 2006 Plan also permits other types of awards, including stock appreciation rights, restricted stock and other performance-based benefits.

On September 23, 2005, the Board of Directors approved the acceleration of vesting of all our unvested stock options. In total, 1.7 million stock options

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

with an average exercise price of \$3.69 and an average remaining contractual life of 7.9 years were subject to this acceleration. The exercise prices and number of shares subject to the accelerated options were unchanged. The acceleration was effective as of September 23, 2005. Had the acceleration of these stock options not been undertaken, the future compensation expense we would recognize in the fiscal years of 2006, 2007, 2008 and 2009 would be \$1.4 million, \$810,000, \$10,000 and \$3,000, respectively. Our decision to accelerate the vesting of these stock options was based upon the accounting of this \$2.2 million of compensation expense from disclosure-only in 2005 to being included in our statement of operations in 2006 to 2009 based on our anticipated adoption of SFAS No. 123(R) effective in January 2006.

A summary of our stock option activity and related information for the year ended December 31, 2004, 2005 and 2006 is as follows:

EMPLOYEES		
	NUMBER OF SHARES	EXERCISE PRICE
Options outstanding at December 31, 2003	8,926,087	\$1.39-\$45.50
Granted	83,000	\$1.39-\$3.68
Exercised	--	--
Forfeited	(677,125)	\$1.39-\$18.50
Expired	--	--

Options outstanding at December 31, 2004	8,331,962	\$1.39-\$45.50
Granted	42,000	\$1.95-\$3.68
Exercised	--	--
Forfeited	(1,573,300)	\$1.95-\$25.00
Expired	(67,612)	\$4.50

Options outstanding at December 31, 2005	6,733,050	\$1.39-\$45.50
Granted	1,233,259	\$1.84-\$1.94
Exercised	--	--
Forfeited	(19,650)	\$1.94-\$33.13
Expired	(273,000)	\$6.75-\$7.38

Options outstanding at December 31, 2006	7,673,659	\$1.39-\$45.50
=====		

We had no stock option outstanding to non-employees as of December 31, 2005 and 2006.

F-31

The following table summarizes information about stock options outstanding, expected to vest and exercisable at December 31, 2005 and 2006:

	NUMBER OF SHARES	WEIGHTED AVERAGE EXERCISE PRICE	WEIGHTED AVERAGE REMAINING CONTRACTUAL LIFE (YEARS)	INTRINSIC VALUE
	-----	-----	-----	-----
As of December 31, 2005:				
Employees - Outstanding	6,733,050	\$ 6.25	6.0	\$ 12,440

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Employees - Expected to vest ...	6,733,050	\$	6.25	6.0	\$	12,440
Employees - Exercisable	6,733,050	\$	6.25	6.0	\$	12,440

As of December 31, 2006:

Employees - Outstanding	7,673,659	\$	5.52	5.9	\$	0
Employees - Expected to vest ...	7,579,083	\$	5.57	5.9	\$	0
Employees - Exercisable	6,445,400	\$	6.22	5.3	\$	0

The following table summarizes our non-vested options as of December 31, 2006 and changes during the year ended December 31, 2006.

NON-VESTED OPTIONS	NUMBER OF SHARES	WEIGHTED AVERAGE GRANT-DATE FAIR VALUE
-----	-----	-----
Non-vested at January 1, 2006	--	n/a
Granted	1,233,259	\$ 1.26
Vested	--	n/a
Forfeited	(5,000)	1.31
-----	-----	-----
Non-vested at December 31, 2006	1,228,259	\$ 1.26
=====	=====	=====

The following table shows the fair value of each option granted to employees and directors estimated on the date of grant using the Black-Scholes model with the following weighted average assumptions used for grants in 2004, 2005 and 2006.

	YEARS ENDED DECEMBER 31,		
	2004	2005	2006
-----	-----	-----	-----
Expected dividend	0.0%	0.0%	0.0%
Risk free interest rate	3% to 4%	4%	5.075%
Expected volatility	51% to 55%	55%	70%
Expected term (in years)	4	4	6.25

Stock-based compensation expense recognized during the period is based on the value of the portion of share-based payment awards that is ultimately expected to vest during the period. Stock-based compensation expense recognized in the consolidated statements of operations for the year of 2006 consisted of compensation expense for the share-based payment awards granted subsequent to January 1, 2006 based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123(R). For stock-based payment awards issued to employees and directors, stock-based compensation is attributed to expense using the straight-line single option method, which is consistent with how the prior-period pro-formas were provided. As stock-based compensation expense recognized in the consolidated statements of operations for the year of 2006 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures which we estimate to be 7.7%. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. In our pro-forma information for the periods prior to fiscal 2006, we accounted for forfeitures as they occurred.

Our determination of fair value of share-based payment awards to employees and directors on the date of grant using the Black-Scholes model, which is affected by our stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to our expected stock price volatility

over the term of the awards. When valuing awards, we estimate its expected terms using the "safe harbor" provisions provided in SAB No. 107 and its volatility using historical data. We granted options to purchase 1,233,259 shares of common stock during 2006. The options granted were fair valued in the aggregate at \$1.6 million or the weighted-average exercise price of \$1.86 during 2006. The stock-based compensation expense related to employees or director stock options recognized during 2006 was \$187,000.

The total intrinsic value of options exercised during 2005 and 2006 was \$0. Cash received from stock options exercised during 2005 and 2006 was \$0. The total fair value of shares vested during the years ended December 31, 2004, 2005 and 2006, were approximately \$4.3 million, \$5.7 million, and \$0, respectively.

As of December 31, 2006, there was \$1.3 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the plans. That cost is expected to be recognized over the weighted-average period of 3.5 years.

When options are exercised, our policy is to issue previously un-issued shares of common stock to satisfy share option exercises. As of December 31, 2006, we had 69.5 million shares of un-issued shares of common stock.

15. EQUITY TRANSACTIONS

In January 2004, we sold an aggregate of 1,200,000 shares of our common stock at a price of \$3.35 per share, for aggregate proceeds to us of approximately \$3.7 million after payment of placement agent fees and other offering expenses. We used the proceeds of this offering for working capital purposes. The securities sold in the offering were registered under the Securities Act of 1933, as amended, pursuant to our effective shelf registration statement. In conjunction with this public offering, we issued a warrant to purchase 30,000 shares of our common stock to the placement agent. This warrant has an exercise price of \$3.35 per share, is fully vested and exercisable and has a term of five years. The warrant was valued using the Black-Scholes model with the following assumptions: risk-free interest rate of 3%; dividend yields of 0%; volatility factors of the expected market price of warrants of 0.51; and an expected life of four years.

In March 2005, in connection with a settlement of a dispute involving a former employee named Nicolas Nunez, we agreed to compensate Mr. Nunez in the total amount of \$875,000. In April 2005, we issued 195,313 shares of our common stock (having a value of \$375,000) to Mr. Nunez pursuant to the terms of an agreement and plan of reorganization and paid Mr. Nunez \$500,000 in settlement of all remaining claims by Mr. Nunez against us. In connection with this settlement, in March 2006, we cancelled 10,000 shares of our common stock previously issued to him.

In June 2005, holders of our Debentures converted an aggregate of \$2.3 million of Debentures into 1,133,687 shares of our common stock. In August 2005, holders of our Debentures converted an aggregate of \$820,000 of Debentures into 410,000 shares of our common stock. See Note 10 of the "Notes to Consolidated Financial Statements."

On June 16, 2006, we entered into a Credit Agreement with certain lenders and Guggenheim, as administrative agent and collateral agent for the lenders. This credit facility provides for borrowings of up to \$65 million. This facility consists of an initial term loan of up to \$25 million, of which we borrowed \$15.5 million at the initial funding. An additional term loan of up to \$40

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

million will be available under this facility to finance acquisitions acceptable to Guggenheim. In connection with Guggenheim credit facility, on June 16, 2006, we issued the lenders under this facility warrants to purchase up to an aggregate of 3,857,143 shares of our common stock. 357,143 shares of the warrants will not become exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. Durham acted as our advisor in connection with the Guggenheim credit facility. As compensation for its services, we agreed to pay Durham a cash fee in an amount equal to 1% of the committed principal amount of the loans under the Guggenheim credit facility. In addition, we issued Durham a warrant to purchase 77,143 shares of our common stock. 7,143 shares of this warrant will not become exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. See Note 9 of the "Notes to Consolidated Financial Statements."

In November 2003, our board of directors adopted a shareholders rights plan. Pursuant to the plan, we issued a dividend of one right for each share of our common stock held by shareholders of record as of the close of business

F-33

on December 12, 2003. Each right initially entitled shareholders to purchase a fractional share of our Series B Preferred Stock for \$25.00. However, the rights are not immediately exercisable and will become exercisable only upon the occurrence of certain events. Generally, if a person or group acquires, or announces a tender or exchange offer that would result in the acquisition of 15% or more of our common stock while the shareholder rights plan remains in place, then, unless the rights are redeemed by us for \$0.001 per right, the rights will become exercisable, by all rights holders other than the acquiring person or group, for our shares or shares of the third party acquirer having a value of twice the right's then-current exercise price. The shareholder rights plan is designed to guard against partial tender offers and other coercive tactics to gain control of our company without offering a fair and adequate price and terms to all of our shareholders. The plan was not adopted in response to any efforts to acquire our company, and we are not aware of any such efforts.

Our credit agreement prohibits the payment of dividends during the term of the agreement.

16. SUPPLEMENTAL SCHEDULE OF CASH FLOW INFORMATION

	YEAR ENDED DECEMBER 31,		
	2004	2005	2006
Cash paid for interest	\$1,796,000	\$3,335,000	\$4,246,000
	=====	=====	=====
Cash paid for income taxes	\$1,196,000	\$ 875,000	\$1,153,000
	=====	=====	=====

In 2004, as consideration for the sale of our assets and real property in Mexico, we received \$45.4 million of notes receivable. See Note 5 of "Notes to Consolidated Financial Statements."

On December 14, 2004, we completed a \$10 million financing through the issuance of 6% Secured Convertible Debentures ("Debentures"), we issued warrants to purchase up to 1,250,000 shares of our common stock. The warrants were valued at \$866,000 using the Black-Scholes model. The placement agent in the financing,

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

for its services were paid \$620,000 in cash and issued five year warrants to purchase up to 200,000 shares of our common stock at an exercise price of \$2.50 per share. The 200,000 warrants were valued at \$138,000 using the Black-Scholes model.

In March 2005, in connection with a settlement of a dispute involving a former employee named Nicolas Nunez, we agreed to compensate Mr. Nunez in the total amount of \$875,000. In April 2005, we issued 195,313 shares of our common stock (having a value of \$375,000) to Mr. Nunez pursuant to the terms of an agreement and plan of reorganization and paid Mr. Nunez \$500,000 in settlement of all remaining claims by Mr. Nunez against us. In connection with this settlement, in March 2006, we cancelled 10,000 shares of our common stock previously issued to him.

In June 2005, holders of our Debentures converted an aggregate of \$2.3 million of Debentures into 1,133,687 shares of our common stock. In August 2005, holders of our Debentures converted an aggregate of \$820,000 of Debentures into 410,000 shares of our common stock. On June 26, 2006, we paid off the remaining balance of the outstanding Debentures of \$6.9 million plus all accrued and unpaid interest and a prepayment penalty of \$171,000. As a result of the repayment, the Debentures were terminated effective June 26, 2006. Upon paying off the Debentures, debt discount of \$278,000 related to the intrinsic value of the conversion option of \$804,000 was expensed, and of the \$620,000 financing cost paid to the placement agent, \$214,000 was expensed. The remaining value of the warrants to holders of our Debentures of \$433,000 and warrants to the placement agent of \$69,000 was also expensed. See Note 10 of the "Notes to Consolidated Financial Statements."

In 2005, we purchased \$6.4 million of fabric from Acabados y Terminados, of which \$2.4 million was paid in cash and \$4.0 million was offset against the notes receivable principal and accrued interest on the note receivable from the affiliates of Mr. Kamel Nacif.

In 2006, we purchased \$1.1 million of fabric from Azteca Production International, Inc. ("Azteca"), a corporation owned by the brothers of Gerard Guez, our Chairman and Interim Chief Executive Officer, of which \$0.5 million was paid in cash and \$0.6 million was offset against amount due from Azteca.

On June 16, 2006, we entered into a Credit Agreement with certain lenders and Guggenheim, as administrative agent and collateral agent for the lenders. This credit facility provides for borrowings of up to \$65 million. This

F-34

facility consists of an initial term loan of up to \$25 million, of which we borrowed \$15.5 million at the initial funding. An additional term loan of up to \$40 million will be available under this facility to finance acquisitions acceptable to Guggenheim. In connection with Guggenheim credit facility, on June 16, 2006, we issued the lenders under this facility warrants to purchase up to an aggregate of 3,857,143 shares of our common stock. 357,143 shares of the warrants will not become exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. Durham acted as our advisor in connection with the Guggenheim credit facility. As compensation for its services, we agreed to pay Durham a cash fee in an amount equal to 1% of the committed principal amount of the loans under the Guggenheim credit facility. In addition, we issued Durham a warrant to purchase 77,143 shares of our common stock. 7,143 shares of this warrant will not become exercisable unless and until a specified portion of the initial term loan is actually funded by the lenders. See Note 9 of the "Notes to Consolidated Financial Statements."

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

17. RELATED-PARTY TRANSACTIONS

Related-party transactions, consisting primarily of purchases and sales of finished goods and raw materials, are as follows:

	YEAR ENDED DECEMBER 31,		
	2004	2005	2006
Sales to related parties	\$ 3,598,000	\$ 88,000	\$ 4,417,000
Purchases from related parties	\$17,875,000	\$ 6,987,000	\$ 1,305,000

As of December 31, 2005 and 2006, related party affiliates were indebted to us in the amounts of \$8.4 million and \$10.0 million, respectively. These include amounts due from Gerard Guez, our Chairman and Interim Chief Executive Officer, of \$2.3 million and \$2.2 million at December 31, 2005 and 2006, respectively, which have been shown as reductions to shareholders' equity in the accompanying financial statements.

From time to time in the past, we had advanced funds to Mr. Guez. These were net advances to Mr. Guez or payments paid on his behalf before the enactment of the Sarbanes-Oxley Act in 2002. The promissory note documenting these advances contains a provision that the entire amount together with accrued interest is immediately due and payable upon our written demand. The greatest outstanding balance of such advances to Mr. Guez during 2006 was approximately \$2,279,000. At December 31, 2006, the entire balance due from Mr. Guez totaling \$2.2 million was reflected as a reduction of shareholders' equity. All amounts due from Mr. Guez bore interest at the rate of 7.75% during the period. Total interest paid by Mr. Guez was \$370,000, \$209,000 and \$171,000 for the years ended December 31, 2004, 2005 and 2006, respectively. Mr. Guez paid expenses on our behalf of approximately \$400,000, \$397,000 and \$299,000 for the years ended December 31, 2004, 2005 and 2006, respectively, which amounts were applied to reduce accrued interest and principal on Mr. Guez's loan. These amounts included fuel and related expenses incurred by 477 Aviation, LLC, a company owned by Mr. Guez, when our executives used this company's aircraft for business purposes. Since the enactment of the Sarbanes-Oxley Act in 2002, no further personal loans (or amendments to existing loans) have been or will be made to officers or directors of Tarrant.

On July 1, 2001, we formed an entity to jointly market, share certain risks and achieve economics of scale with Azteca, , called United Apparel Ventures, LLC ("UAV"). This entity was created to coordinate the production of apparel for a single customer of our branded business. UAV made purchases from two related parties in Mexico, an affiliate of Azteca and Tag-It Pacific, Inc. UAV is owned 50.1% by Tag Mex, Inc., our wholly owned subsidiary, and 49.9% by Azteca. Results of the operation of UAV have been consolidated into our results since July 2001 with the minority partner's share of gain and losses eliminated through the minority interest line in our financial statements until 2004. Due to the restructuring of our Mexico operations, we discontinued manufacturing for UAV customers in the second quarter of 2004. We have been consolidating 100% of the results of the operation of UAV into our results since 2005.

F-35

Since June 2003, United Apparel Venture, LLC had been selling to Seven Licensing Company, LLC ("Seven Licensing"), jeans wear bearing the brand "Seven7", which

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

is ultimately purchased by Express. Seven Licensing is beneficially owned by Gerard Guez. In the third quarter of 2004, in order to strengthen our own private brand business, we decided to discontinue sourcing for Seven7. Total sales to Seven Licensing during the year ended December 31, 2004 were \$2.6 million. On September 1, 2006, our subsidiary in Hong Kong, Tarrant Company Limited, entered into an agreement with Seven Licensing to be its buying agent to source and purchase apparel merchandise. Total sales to Seven Licensing during the year ended December 31, 2006 were \$4.4 million. At December 31, 2006, Messrs. Guez and Kay beneficially owned 488,400 and 1,003,500 shares, respectively, of common stock of Tag-It Pacific, Inc. ("Tag-It"), collectively representing approximately 8.1% of Tag-It's common stock. Tag-It is a provider of brand identity programs to manufacturers and retailers of apparel and accessories. Starting from 1998, Tag-It assumed the responsibility for managing and sourcing all trim and packaging used in connection with products manufactured by or on behalf of us in Mexico. Due to the restructuring of our Mexico operations, Tag-It no longer manages our trim and packaging requirements. We purchased \$1.0 million, \$450,000 and \$205,000 of trim inventory from Tag-It for the years ended December 31, 2004, 2005 and 2006, respectively. Our sales of garment accessories to Tag-It were \$39,000 for the year ended December 31, 2006. We purchased \$11.5 million, \$135,000 and \$1.1 million of finished goods, fabric and service from Azteca and its affiliates for the years ended December 31, 2004, 2005 and 2006, respectively. Our total sales of fabric and service to Azteca in 2004, 2005 and 2006 were \$1.0 million, \$88,000 and \$9,000, respectively. Two and one half percent of gross sales as management fees were paid in 2004 to each of the members of UAV, per the operating agreement. The amount paid to Azteca, the minority member of UAV, totaled \$179,000 in 2004. Net amounts due from these related parties as of December 31, 2005 and 2006 were \$5.5 million and \$7.5 million, respectively.

On October 16, 2003, we entered into a lease with affiliates of Mr. Kamel Nacif, a substantial portion of our manufacturing facilities and operations in Mexico including real estate and equipment. The lease was effective as of September 1, 2003. We leased our twill mill in Tlaxcala, Mexico, and our sewing plant in Ajalpan, Mexico, for a period of 6 years and for an annual rental fee of \$11 million. Mr. Nacif was a shareholder at the time of the transaction. In connection with this transaction, we also entered into a management services agreement pursuant to which Mr. Nacif's affiliates managed the operation of our remaining facilities in Mexico. The term of the management services agreement was also for a period of 6 years. In 2004, \$5.5 million of lease income was recorded in other income. Additionally, we entered into a purchase commitment agreement with Mr. Nacif's affiliates to purchase annually, six million yards of fabric manufactured at the facilities leased and/or operated by Mr. Nacif's affiliates at market prices to be negotiated. We purchased \$5.3 million of fabric from Acabados y Terminados under this agreement in 2004.

In August 2004, we entered into an Agreement for Purchase of Assets with affiliates of Mr. Kamel Nacif, a shareholder at the time of the transaction, which agreement was amended in October 2004. Pursuant to the agreement, as amended, on November 30, 2004, we sold to the purchasers substantially all of our assets and real property in Mexico, including the equipment and facilities we previously leased to Mr. Nacif's affiliates in October 2003, for an aggregate purchase price consisting of: a) \$105,400 in cash and \$3,910,000 by delivery of unsecured promissory notes bearing interest at 5.5% per annum; and b) \$40,204,000, by delivery of secured promissory notes bearing interest at 4.5% per annum, with payments due on December 31, 2005 and every year thereafter until December 31, 2014. The secured promissory notes are payable in partial or total amounts anytime prior to the maturity of each note. As of September 30, 2006, the outstanding balance of the notes and interest receivables were \$41.1 million prior to the reserve. Historically, we have placed orders for purchases of fabric from the purchasers pursuant to the purchase commitment agreement we entered into at the time of the sale of the Mexico assets, and we have satisfied our payment obligations for the fabric by offsetting the amounts payable against

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

the amounts due to us under the notes. However, during 2006, the purchasers ceased providing fabric and are not currently making payments under the notes. We further evaluated the recoverability of the notes receivable and recorded a loss on the notes receivable in the third quarter of 2006 in an amount equal to the outstanding balance less the value of the underlying assets securing the notes. The loss was estimated to be approximately \$27.1 million, resulting in a notes receivable balance at September 30, 2006 of approximately \$14 million. We believe there was no significant change subsequently on the value of the underlying assets securing the notes; therefore, we did not have additional reserve in the fourth quarter of 2006. We will continue to pursue payments under the notes receivable and believe the remaining \$14 million balance at December 31, 2006 is realizable.

F-36

Upon consummation of the sale of our Mexico assets, we entered into a purchase commitment agreement with the purchasers, pursuant to which we agreed to purchase annually over the ten-year term of the agreement, \$5 million of fabric manufactured at our former facilities acquired by the purchasers at negotiated market prices. This agreement replaced a previously existing purchase commitment agreement with Mr. Nacif's affiliates. We purchased \$6.4 million of fabric, of which \$2.4 million was paid in cash and \$4.0 million was offset against the notes receivable principal and accrued interest on the note receivable from the affiliates of Mr. Kamel Nacif in 2005. We did not purchase any fabric in 2006. Net amount due from these related parties as of December 31, 2005 and 2006 was \$236,000 and \$116,000, respectively.

We lease our executive offices and warehouse in Los Angeles, California from GET, a corporation which is owned by Gerard Guez, our Chairman and Interim Chief Executive Officer, and Todd Kay, our Vice Chairman. Additionally, we lease our office space and warehouse in Hong Kong from Lynx International Limited, a Hong Kong corporation that is owned by Messrs. Guez and Kay. We paid \$1,330,000, \$1,019,000 and \$1,076,000, respectively, in rent annually in 2004, 2005 and 2006 for office and warehouse facilities. During the first seven months of 2006, our Los Angeles offices and warehouse were leased on a month to month basis. On August 1, 2006, we entered into a lease agreement with GET for the Los Angeles offices and warehouse, which lease has a term of five years with an option to renew for an additional five year term. On February 1, 2007, we entered into a one year lease agreement with Lynx International Limited for our office space in Hong Kong. On May 1, 2006, we sublet a portion of our executive office in Los Angeles, California and our sales office in New York to Seven Licensing for a monthly payment of \$25,000 on a month to month basis. Seven Licensing is beneficially owned by Gerard Guez. We received \$200,000 in rental income from this sublease in the year ended December 31, 2006.

At December 31, 2005 and 2006, we had various employees receivable totaling \$370,000 and \$250,000, respectively, included in due from related parties.

We believe the each of the transactions described above has been entered into on terms no less favorable to us than could have been obtained from unaffiliated third parties.

F-37

18. OPERATIONS BY GEOGRAPHIC AREAS

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

Our predominant business is the design, distribution and importation of private label and private brand casual apparel. Substantially all of our revenues are from the sales of apparel. We are organized into four geographic regions: the United States, Asia, Mexico and Luxembourg. We evaluate performance of each region based on profit or loss from operations before income taxes not including the cumulative effect of change in accounting principles. Information about our operations in the United States, Asia, Mexico and Luxembourg is presented below. Inter-company revenues and assets have been eliminated to arrive at the consolidated amounts.

	UNITED STATES	ASIA	MEXICO	LUXEMBOURG	ADJUSTM AND ELIMINAT
	-----	-----	-----	-----	-----
2004					
Sales	\$ 149,568,000	\$ 1,838,000	\$ 4,047,000	\$ --	\$
Inter-company sales	--	80,420,000	7,453,000	--	(87,873)
	-----	-----	-----	-----	-----
Total revenue	\$ 149,568,000	\$ 82,258,000	\$ 11,500,000	\$ --	\$ (87,873)
	=====	=====	=====	=====	=====

19. EMPLOYEE BENEFIT PLANS

Tarrant Hong Kong has adopted a defined contribution retirement benefits scheme -- the National Mutual Central Provident Fund Scheme (the "Provident Fund scheme") which has been approved under Section 87A of the Inland Revenue Ordinance of Hong Kong since 1992. This scheme has been registered as a Mandatory Provident Fund exempted Occupational Retirement Schemes Ordinance scheme under the Mandatory Provident Fund Schemes Ordinance. From August 1992, an employee, upon completion of one full year's service with Tarrant Hong Kong, is entitled to enroll in the Provident Fund scheme on voluntary basis. Since December 1, 2000, no new members have been allowed to enroll in this scheme. Monthly contributions are made based on 5% of the employees' basic salary. The employees having completed more than 3 years of service with Tarrant Hong Kong are entitled to the vested benefits according the vesting scale of the Provident Fund scheme.

Tarrant Hong Kong has adopted a Mandatory Provident Fund Scheme - AIA-JF Premium MPF Scheme under the Mandatory Provident Fund Schemes Ordinance, in which the employees who have joined Tarrant Hong Kong since December 1, 2000 are eligible to enroll. Monthly contributions are made based on 5% of the employees' relevant income. Costs of the plan charged to operations for 2004, 2005 and 2006 amounted to approximately \$131,000, \$160,000 and \$178,000, respectively.

On July 1, 1994, we established a defined contribution retirement plan covering all of our U.S. employees whose period of service exceeds 12 months. Plan assets are monitored by a third-party investment manager and are segregated from those of ours. Participants may contribute from 1% to 15% of their pre-tax compensation up to effective limitations specified by the Internal Revenue Service. Our contributions to the plan are based on a 50% (100% effective July

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

1, 1995) matching of participants' contributions, not to exceed 6% (5% effective July 1, 1995) of the participants' annual compensation. In addition, we may also make a discretionary annual contribution to the plan. Costs of the plan charged to operations for 2004, 2005 and 2006 amounted to approximately \$226,000, \$199,000 and \$251,000, respectively.

20. OTHER INCOME AND EXPENSE

Other income and expense consists of the following:

	YEAR ENDED DECEMBER 31,		
	2004	2005	2006

Realized loss on foreign currency	511,000	--	--
Loss on sale of fixed assets	--	--	36,000
Termination of license agreement	--	--	400,000
Other items	18,000	1,000	--
Total other expense	\$ 529,000	\$ 1,000	\$ 436,000

21. LEGAL PROCEEDINGS

1. JESSICA SIMPSON & CAMUTO CONSULTING GROUP

On or about April 6, 2006, we commenced an action against the licensor of the Jessica Simpson brands (captioned Tarrant Apparel Group v. Camuto Consulting Group, Inc., VCJS LLC, With You, Inc. and Jessica Simpson) in the Supreme Court of the State of New York, County of New York. The suit named Camuto Consulting Group, Inc.,

F-39

VCJS LLC, With You, Inc. and Jessica Simpson as defendants, and asserts that the defendants failed to provide promised support in connection with our sublicense agreement for the Jessica Simpson brands. Our complaint includes eight causes of action, including two seeking a declaration that the sublicense agreement is exclusive and remains in full force and effect, as well as claims for breach of contract by Camuto Consulting, breach of the duty of good faith and fair dealing and fraudulent inducement against Camuto Consulting, and a claim against With You, Inc. and Ms. Simpson that we are an intended third party beneficiary of the licenses between those defendants and Camuto Consulting. On or about April 26, 2006, Camuto Consulting served its answer to our complaint and included a counterclaim against us for breach of the sublicense agreement and alleging damages of no less than \$100 million. With You, Inc. has also filed counterclaims against us, alleging trademark infringement, unfair competition and business practices, violation of the right of privacy and other claims, and seeking injunctive relief and damages in an amount to be determined but no less

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

than \$100 million plus treble and punitive damages. Discovery in the matter has been underway since May 2006. Oral argument on the appeal of the trial court's ruling with respect to one motion was held on March 21, 2007, and the parties await a decision. We intend to continue to vigorously pursue this action and defend the counterclaims.

2. BAZAK INTERNATIONAL CORPORATION

Shortly before May 2004, Bazak International Corp. commenced an action against us in the New York County Supreme Court claiming that we breached an oral contract to sell a quantity of close-out goods, as a consequence of which Bazak was damaged to the extent of \$1.3 million. Bazak International Corp. claimed that our liability exists under a theory of breach of contract or unjust enrichment. A non-jury trial was held in the United States District Court for the Southern District of New York beginning on November 27, 2006 and ending on February 1, 2007. The Court's decision currently is pending. We will continue to vigorously defend against the breach of contract and unjust enrichment claim.

From time to time, we are involved in various routine legal proceedings incidental to the conduct of our business. Our management does not believe that any of these legal proceedings will have a material adverse impact on our business, financial condition or results of operations, either due to the nature of the claims, or because our management believes that such claims should not exceed the limits of the our insurance coverage.

23. SUBSEQUENT EVENTS

LETTER AGREEMENT WITH TAVEX ALGODONERA

On March 21, 2007, our wholly-owned subsidiary, Tarrant Luxembourg S.a.r.l., entered into a letter agreement with Solticio, S.A. de C.V. ("Solticio"), Inmobiliaria Cuadros, S.A. de C.V. ("Inmobiliaria"), and Acabados y Cortes Textiles, S.A. de C.V. ("Acotex" and together with Solticio and Inmobiliaria, the "Sellers"), and Tavex Algodonera, S.A. ("Tavex").

Solticio and Acotex are indebted to Tarrant Luxembourg in the amount of approximately \$41 million (the "Seller Indebtedness"), which Seller Indebtedness was incurred by the Sellers upon their purchase from certain of our affiliates of our manufacturing facilities and equipment in Mexico in November 2004. The Seller Indebtedness is evidenced by a series of promissory notes (the "Seller Notes") and is secured by a lien on the real property and equipment sold to the Sellers (the "Collateral"). During the third quarter of 2006, we evaluated the recoverability of the Seller Notes and recorded a reserve against the notes in an amount equal to the outstanding balance less the value of the Collateral securing the notes. The reserve was estimated to be approximately \$27.1 million, resulting in a net notes receivable balance at December 31, 2006 of approximately \$14 million.

Pursuant to the agreement, Tavex has the right and option (but not the obligation), for a period of 120 days following the date of the agreement, to pay to Tarrant Luxembourg an aggregate of U.S. \$20 million in cash and promissory notes, whereupon, among other things:

(a) Tarrant Luxembourg will terminate the Seller Notes and release the Sellers from any further obligations thereunder, and terminate and release all liens on the Collateral;

(b) Tarrant Luxembourg and the Sellers will terminate all other executory obligations among the parties, including any obligation of ours to purchase fabric from the Sellers; and

(c) Tarrant Luxembourg would agree to purchase from Tavex at least U.S. \$2.5 million of fabric during each of the first and second years following Tavex's exercise of the option.

The U.S. \$20 million payment by Tavex upon exercise of the option would be comprised of the following:

(a) U.S. \$2.5 million in cash, payable concurrently upon exercise of the option;

(b) U.S. \$8.5 million of unsecured promissory notes delivered concurrently upon exercise of the option, of which \$2.5 million would be payable six months following closing, \$3 million would be payable twelve months following closing, and \$3 million would be payable eighteen months following closing; and

(c) U.S. \$9.0 million of promissory notes delivered concurrently upon exercise of the option and guaranteed by a financial

Edgar Filing: TARRANT APPAREL GROUP - Form 10-K

institution acceptable to us, of which \$4.5 million would be payable twenty-four months following closing and \$4.5 million would be payable thirty months following closing.

Tavex is not obligated to exercise the option and the terms and conditions of the letter could change prior to the 120-day expiration period. During the 120-day option period, we agreed that we would not seek to enforce the Seller Notes, including by taking action with respect to the Collateral, nor would we enter into any agreement with a third party that would adversely affect Tavex's rights under the agreement.

The Sellers also agreed during the 120-day option period, to work exclusively with Tavex in respect of the payment of the Seller Indebtedness and the other transactions contemplated by the Agreement, and not to enter into any agreement with any person other than Tavex with respect to the payment and/or assignment of the Seller Indebtedness and the transactions contemplated by the agreement.
