

SHARPS COMPLIANCE CORP
Form 10-Q
February 11, 2010
UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended December 31, 2009

TRANSITION REPORT UNDER SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____.

Commission File Number: 001-34269

SHARPS COMPLIANCE CORP.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

74-2657168
(I.R.S. Employer Identification No.)

9220 Kirby Drive, Suite 500, Houston, Texas
(Address of principal executive offices)

77054
(Zip Code)

(713) 432-0300
(Issuer's telephone number)

Indicate by check mark if the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Securities Exchange Act of 1934.

Large Accelerated Filer <input type="checkbox"/>	Accelerated Filer <input type="checkbox"/>	Non-accelerated Filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input checked="" type="checkbox"/>
---	---	--	--

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12(b)-2 of the Exchange Act). Yes No

As of February 08, 2010, there were 14,571,442 outstanding shares of the Registrant's common stock, par value \$0.01 per share.

SHARPS COMPLIANCE CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 - ORGANIZATION AND BACKGROUND

The accompanying unaudited condensed consolidated financial statements include the financial transactions and accounts of Sharps Compliance Corp. and its wholly owned subsidiaries, Sharps Compliance, Inc. of Texas (dba Sharps Compliance, Inc.), Sharps e-Tools.com, Inc. (“Sharps e-Tools”), Sharps Manufacturing, Inc., Sharps Environmental Services, Inc. (dba Sharps Environmental Services of Texas, Inc.) and Sharps Safety, Inc. (collectively, “Sharps” or the “Company”). All significant intercompany accounts and transactions have been eliminated upon consolidation.

NOTE 2 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) for interim financial information and with instructions to Form 10-Q and, accordingly, do not include all information and footnotes required under accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, these interim condensed consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the consolidated financial position of the Company as of December 31, 2009 and the results of its operations and cash flows for the three and six months ended December 31, 2009 and 2008. The results of operations for the three and six months ended December 31, 2009 are not necessarily indicative of the results to be expected for the entire fiscal year ending June 30, 2010. These unaudited condensed consolidated financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2009.

NOTE 3 – SUBSEQUENT EVENTS

The Company evaluates events and transactions after the balance sheet date and before the issuance of its financial statements. The Company evaluated subsequent events through February 11, 2010, when the consolidated financial statements were electronically filed with the SEC.

NOTE 4 - SIGNIFICANT ACCOUNTING POLICIES

REVENUE RECOGNITION

The Company complies with the SEC’s Staff Accounting Bulletin (“SAB”) No. 104, “Revenue Recognition”, which provides guidance related to revenue recognition based on interpretations and practices followed by the SEC. Under SAB No. 104, certain products offered by the Company have revenue producing components that are recognized over multiple delivery points (Sharps Disposal by Mail Systems®, referred to as “Mailbacks” and Sharps Pump Return Boxes, referred to as “Pump Returns”) and can consist of up to three separate elements as follows: (1) the sale of the container system, (2) the transportation of the container system and (3) the treatment and disposal of the container system. The individual fair value of the transportation and treatment services are determined by the sales price of the service offered by third parties, with the fair value of the container being the residual value. Revenue for the sale of the container is recognized upon delivery to the customer, at which time the customer takes title and assumes risk of ownership. Transportation revenue on Mailbacks is recognized when the customer returns the mailback container system and the container has been received at the Company’s treatment facility. The Mailback container system is mailed to the treatment facility using the United States Postal Service “USPS” and United Parcel Service “UPS”. Treatment revenue is recognized upon the destruction and certification of destruction having been prepared on

the container. Since the transportation element and the treatment elements are undelivered services at the point of initial sale of the container, the Mailback and treatment revenue is deferred until the services are performed. The current and long-term portions of deferred revenues are determined through regression analysis and historical trends. Furthermore, through regression analysis of historical data, the Company has determined that a certain percentage of all container systems sold may not be returned. Accordingly, a portion of the transportation and treatment elements are recognized at the point of sale.

NOTE 5 – RECENTLY ISSUED ACCOUNTING STANDARDS

On September 30, 2009, the Company adopted changes issued by the FASB to the authoritative hierarchy of GAAP. These changes establish the FASB Accounting Standards Codification™ “Codification” as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The FASB will no longer issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts. Instead, the FASB will

issue Accounting Standards Updates. Accounting Standards Updates will not be authoritative in their own right as they will only serve to update the Codification. These changes and the Codification itself do not change GAAP. Other than the manner in which new accounting guidance is referenced, the adoption of these changes had no impact on the Financial Statements.

In October 2009, the FASB Emerging Issue Task Force issued new accounting guidance related to multiple-deliverable revenue arrangements, which addresses the accounting for multiple-deliverable arrangements to enable vendors to account for products or services "deliverables" separately rather than as a combined unit. The amendment affects accounting and reporting for all vendors that enter into multiple-deliverable arrangements. The standard provides amendments to the criteria for separating consideration in multiple-deliverable arrangements and will eliminate the residual method of allocation and require that arrangement consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method. The amendments in this standard will require that a vendor determine its best estimate of selling price in a manner that is consistent with that used to determine the price to sell the deliverable on a standalone basis. As a result of those amendments, multiple-deliverable arrangements will be separated in more circumstances than under existing GAAP. The amendments in this standard significantly expand the disclosures related to multiple-deliverable revenue arrangements. The amendments in this standard will be effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The Company will be required to adopt this standard in the first quarter of fiscal year 2011. Management is currently evaluating the requirements of the standard and whether it will have a material impact on its financial position and results of operations.

NOTE 6 - INCOME TAXES

The Company's effective tax rate for the six months ended December 31, 2009 was 34.4%. During the quarter ended December 31, 2008, the Company evaluated the valuation allowance on the deferred tax asset balances and reduced it to zero resulting in a credit of \$1.8 million. In addition to the above, the Company recorded a current income tax provision relating to AMT and state income taxes of \$6 thousand for the quarter ended December 31, 2008.

Prepays at December 31, 2009 include a current income tax prepaid (federal) of \$1.6 million. Accrued liabilities at December 31, 2009 include current income taxes payable (state) of \$145 thousand which is expected to be paid in the third quarter of fiscal 2010.

NOTE 7 - NOTES PAYABLE AND LONG-TERM DEBT

On March 16, 2009, the Company entered into an Amended Credit Agreement with JPMorgan Chase Bank, N.A. ("Credit Agreement") which provides for a \$2.5 million line of credit facility (the "Facility"), the proceeds of which may be utilized for, (i) working capital, (ii) letters of credit (up to \$200,000), (iii) acquisitions (up to \$500,000) and (iv) general corporate purposes. Indebtedness under the Credit Agreement is secured by substantially all of the Company's assets. Borrowings bear interest at a fluctuating rate per annum equal to either, (i) the prime rate (interest per annum announced from time to time by JP Morgan Chase Bank, N.A.) or (ii) LIBOR plus a margin of 2.75%. Any outstanding revolving loans, and accrued and unpaid interest, will be due and payable on March 31, 2010, the maturity date of the Facility. The aggregate principal amount of advances outstanding at any time under the Facility shall not exceed the Borrowing Base which is equal to, (i) 80% of Eligible Accounts Receivable (as defined in the Credit Agreement) plus (ii) 50% of Eligible Inventory (as defined in the Credit Agreement). The Credit Agreement contains affirmative and negative covenants that, among other things, require the Company to maintain a specified tangible net worth and capital expenditure limits. The Credit Agreement also contains customary events of default. Upon the occurrence of an event of default that remains uncured after any applicable cure period, the lenders' commitment to make further loans may terminate and the Borrower may be required to make immediate repayment of all indebtedness to the lenders. The lender would also be entitled to pursue other remedies against the Company and the collateral. As of December 31, 2009, the borrowing base has been reduced by approximately \$97 thousand in letters of

credit outstanding drawn against the line of credit. As of December 31, 2009 and June 30, 2009, no amounts related to the Credit Agreement were outstanding. Under the Credit Agreement, and based upon the Company's December 31, 2009 level of accounts receivable and inventory, the amount available to borrow at December 31, 2009 was \$2.1 million.

NOTE 8 – STOCK-BASED COMPENSATION

Share-based compensation cost is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity grant). Share-based compensation expense, included in selling, general and administrative and operating expenses in the Company's consolidated statements of income for the three months ended December 31, 2009 and 2008, was \$295 thousand and \$37 thousand, respectively. The expense for the six months ended December 31, 2009 and 2008, was \$501 thousand and \$126 thousand, respectively. Reductions in taxes payable resulting from tax deductions that exceed the recognized tax benefit associated with compensation expense (excess tax benefits) are classified as financing cash flows. The Company included excess tax benefits in its cash flows from financing activities for the three months and six months ended December 31, 2009 of \$433 thousand and \$736 thousand, respectively. The excess tax benefits in the Company's cash flows from financing activities for the three and six months ended December 31, 2008 was \$8 thousand and \$13 thousand, respectively.

NOTE 9 - EARNINGS PER SHARE

Earnings per share are measured at two levels: basic per share and diluted per share. Basic per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted per share is computed by dividing net income by the weighted average number of common shares after considering the additional dilution related to common stock options and restricted stock. In computing diluted earnings per share, the outstanding common stock options are considered dilutive using the Treasury Stock Method. Vested restricted shares are included in basic common shares outstanding, and unvested restricted shares are included in the diluted common shares outstanding if the effect is dilutive. The following information is necessary to calculate earnings per share for the periods presented (in thousands, except per-share data):

	Three Months Ended		Six Months Ended	
	December 31, 2009 (Unaudited)	2008	December 31, 2009 (Unaudited)	2008
Net income, as reported	\$5,617	\$1,585	\$11,435	\$2,190
Weighted average common shares outstanding	14,015	12,841	13,722	12,752
Effect of dilutive stock options	868	999	999	1,020
Weighted average diluted common shares outstanding	14,883	13,840	14,721	13,772
Net income per common share				
Basic	\$0.40	\$0.12	\$0.83	\$0.17
Diluted	\$0.38	\$0.11	\$0.78	\$0.16
Employee stock options excluded from computation of diluted income per share amounts because their effect would be anti-dilutive	38	335	38	335

NOTE 10 - EQUITY TRANSACTIONS

In the second quarter of fiscal 2010, the Company completed a public offering of 577,146 shares, of which 77,146 were sold to cover the over-allotment option, at a price of \$9.165 per share (net of underwriting commission). The net proceeds of \$4.8 million from the shares sold by the Company (net of offering expenses) is expected to be used for general corporate purposes, including expansion of our product offerings, facilities and infrastructure to meet the continued expected growth of the Company.

During the three months ended December 31, 2009, stock options to purchase 523,441 of common shares were exercised. Total proceeds to the Company were approximately \$620 thousand (average price of \$1.18 per share). During the three months ended December 31, 2008 stock options to purchase 50,000 common shares were exercised. Total proceeds to the Company were approximately \$55 thousand (average price of \$1.10 per share).

During the six months ended December 31, 2009, stock options to purchase 694,541 of common shares were exercised. Total proceeds to the Company were approximately \$828 thousand (average price of \$1.19 per share). During the six months ended December 31, 2008 stock options to purchase 244,600 common shares were exercised. Total proceeds to the Company were approximately \$216 thousand (average price of \$0.88 per share).

As of December 31, 2009 there was \$1.2 million of compensation expense related to non-vested awards which is expected to be recognized over a weighted average period of 1.0 years.

NOTE 11 – INVENTORIES

The components of inventories are as follows (in thousands):

	December 31, 2009 (Unaudited)	June 30, 2009
Finished goods	\$ 1,046	\$1,212
Raw materials	603	1,071
Total	\$ 1,649	\$2,283

9

NOTE 12 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts reported in the condensed consolidated balance sheet for cash and cash equivalents, accounts receivable, accounts payables, and accrued liabilities approximate fair value due to the short term nature of these instruments.

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains certain forward-looking statements and information relating to the Company and its subsidiaries that are based on the beliefs of the Company's management as well as assumptions made by and information currently available to the Company's management. When used in this report, the words "anticipate", "believe", "expect", "estimate", "project" and "intend" and words or phrases of similar import, as they relate to the Company, its subsidiaries or Company management, are intended to identify forward-looking statements. Such statements reflect the current risks, uncertainties and assumptions related to certain factors, including without limitations, competitive factors, general economic conditions, customer relations, relationships with vendors, governmental regulation and supervision, seasonality, distribution networks, product introductions and acceptance, technological change, changes in industry practices, onetime events and other factors described herein. Based upon changing conditions, should any one or more of these risks or uncertainties materialize, or should any underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, expected, estimated or intended. The Company does not intend to update these forward-looking statements.

GENERAL

Sharps is a leading comprehensive provider of cost-effective disposal solutions for medical waste and unused dispensed medication generated outside the hospital and large healthcare facility setting. These solutions include Sharps Disposal by Mail System®, RxTakeAway™, Sharps®MWMS™, RxTakeAway Recovery System, Pitch-It™ IV Poles, Trip LesSystem®, Sharps Pump Return Box, Sharps Enteral Pump Return Box, Sharps Secure®, Sharps SureTemp Tote®, IsoWash® Linen Recovery System, Biohazard Spill Clean-Up Kit and Disposal System, Sharps e-Tools, Sharps Environmental Services and Sharps Consulting. Some products and services facilitate compliance with state and federal regulations by tracking, treating and documenting the disposal of medical waste and unused dispensed medication. Additionally, some products and services facilitate compliance with educational and training requirements that meet federal, state, and local regulatory and compliance requirements.

RESULTS OF OPERATIONS

The following analyzes changes in the consolidated operating results and financial condition of the Company during the three and six months ended December 31, 2009 and 2008.

The following table sets forth, for the periods indicated, certain items from the Company's Condensed Consolidated Statements of Income, expressed as a percentage of revenue (unaudited):

Three Months Ended		Six Months Ended	
December 31,		December 31,	
2009	2008	2009	2008

Edgar Filing: SHARPS COMPLIANCE CORP - Form 10-Q

	(Unaudited)				(Unaudited)			
Net revenues	100	%	100	%	100	%	100	%

Net income	35	%	47	%	37	%	29	%

10

THREE MONTHS ENDED DECEMBER 31, 2009 AS COMPARED TO THREE MONTHS ENDED DECEMBER 31, 2008

Total revenues for the three months ended December 31, 2009 of \$16 million increased by \$12.6 million, or 374%, over the total revenues for the three months ended December 31, 2008 of \$3.4 million. Customer billings by market are as follows (in thousands):

	(unaudited)		
	Three-Months Ended December 31,		
	2009	2008	Variance
BILLINGS BY MARKET:			
Government	\$11,700	\$66	\$11,634
Health Care	1,606	1,709	(103)
Retail	1,420	455	965
Professional	375	313	62
Hospitality	240	222	18
Other	175	130	45
Commercial	99	110	(11)
Agriculture	85	93	(8)
Pharmaceutical	29	144	(115)
Subtotal	15,729	3,242	12,487
GAAP Adjustment *	256	128	128
Revenue Reported	\$15,985	\$3,370	\$12,615

*Represents the net impact of the revenue recognition adjustment required to arrive at reported GAAP revenue. Customer billings include all invoiced amounts associated with products shipped during the period reported. GAAP revenue includes customer billings as well as numerous adjustments necessary to reflect, (i) the deferral of a portion of current period sales and (ii) recognition of certain revenue associated with products returned for treatment and destruction. The difference between customer billings and GAAP revenue is reflected in the Company's balance sheet as deferred revenue. See Note 4 "Revenue Recognition" in "Notes to Consolidated Financial Statements".

This Quarterly Report on Form 10-Q contains certain financial information not derived in accordance with GAAP, including customer billings information. The Company believes this information is useful to investors and other interested parties as customer billings represents all invoiced amounts associated with products shipped during the period reported. Such information should not be considered as a substitute for any measures derived in accordance with GAAP, and may not be comparable to other similarly titled measures of other companies. Reconciliation of this information to the most comparable GAAP measures is included above.

The increase in revenues is primarily attributable to increased billings in the Government (\$11.6 million), Retail (\$1.0 million), Professional (\$62 thousand), and Hospitality (\$18 thousand) markets. The increases were partially offset by decreased billings in the Pharmaceutical (\$115 thousand), and Healthcare (\$103 thousand) markets. The increase in the Government market is a result of \$11.5 million in billings related to the sale of the Company's Sharps@MWMS™ to an agency of the United States Government under the contract announced in February 2009. The customer billings in the Government market also included \$142 thousand related to the support of the City of Chicago immunization program and \$77 thousand related to the sales of the RxTakeAway as part of the State of Iowa funded program. The increase in the billings in the Retail market is a result of, (i) increased market and customer penetration and (ii) a strong 2009 flu shot season (i.e., purchases of the Sharps Disposal By Mail Systems® by retail clinics and pharmacies who use the products to collect, store and properly dispose of syringes used to administer flu-related shots including

H1N1). The increase in the Professional market billings was driven by higher demand for the Company's products as professional offices (doctors, dentists, and veterinary) are made aware of the Company's Sharps Disposal By Mail System® products as cost-effective and convenient alternatives to the traditional medical waste pick up service. The decrease in Pharmaceutical market billings is due to the variability in timing associated with the Patient Support Programs the Company provides to the drug manufacturers. The decrease in the Health Care market billings is related to the ordering patterns of the larger home healthcare customers as well as additional distributor incentives designed to drive future growth in this market.

Cost of revenues for the three months ended December 31, 2009 of \$5.3 million was 33% of revenues. Cost of revenues for the three months ended December 31, 2008 of \$2.1 million was 62% of revenue. The higher gross margin for the quarter ended December 31, 2009 of 66.7% (versus 38.2% for the quarter ended December 31, 2008) was a result of (i) the higher revenue (i.e. higher coverage of fixed cost components in cost of goods sold) and (ii) the mix of products and services sold in the quarter ended December 31, 2009 versus the quarter ended December 31, 2008. Prior year gross margins were also adversely impacted by an increase in operations infrastructure costs as the Company prepared for higher sales volumes including those billings related to the sale of the Company's Sharps®MWMS™ to an agency of the United States Government under the contract announced in February 2009.

Selling, general and administrative (“S, G & A”) expenses for the three months ended December 31, 2009 of \$2.1 million, increased by \$667 thousand, from S, G & A expenses for the three months ended December 31, 2008. The increase in S, G & A is primarily due to higher (i) compensation and benefit expense including payroll tax of \$288 thousand, (ii) non-cash, stock based compensation expense of \$188 thousand, (iii) costs related to increased sales and marketing-related activities of \$95 thousand, (iv) computer and systems-related expenses of \$57 thousand, (v) professional fees (including sales-related) of \$47 thousand and (vi) general office expense of \$24 thousand. The increase in compensation expense is due primarily to an increased number of employees to support the growth experienced by the Company and increased sales and marketing-related activities. The increase in non-cash stock-based award expense was primarily due to the accrued quarterly expense associated with the award of 51,500 restricted stock of Company common stock to non-employee directors as the equity portion of the fiscal year 2010 Board of Director compensation (vesting over fiscal year 2010) and the award of 210,000 additional stock options, in July 2009, to employees, including officers. The increase in professional fees was a result of expenses associated with, (i) consulting fees for several ongoing sales and marketing projects and (ii) legal fees associated with the Ronald Pierce (former employment-related) arbitration. Costs incurred during the three months ended December 31, 2008 but not correspondingly incurred in the quarter ended December 31, 2009 included recruiting fees of \$23 thousand and housing-related costs for the former Company’s President and COO of \$18 thousand.

The Company generated operating income of \$8.4 million for the three months ended December 31, 2009 compared to an operating loss of \$0.2 million for the three months ended December 31, 2008. The operating margin was 52.8% for the three months ended December 31, 2009 compared to (6.9%) for the three months ended December 31, 2008. The increase in operating income and operating margin is a result of the above mentioned increase in revenue and operating leverage inherent in the Company’s business model.

The Company generated income before tax of \$8.4 million for the three months ended December 31, 2009 versus a pre-tax loss of \$215 thousand for the three months ended December 31, 2008. The increase in income before tax is a result of higher operating income (discussed above).

The Company generated net income of \$5.6 million for the three months ended December 31, 2009 compared to net income of \$1.6 million for the three months ended December 31, 2008. The increase in net income is a result of higher operating income (discussed above). The three months ended December 31, 2008 were positively impacted by the reduction in the deferred tax valuation allowance of \$1.8 million and corresponding credit to tax expense (see Note 6 of the Notes to the Condensed Consolidated Financial Statements).

The Company reported diluted earnings per share of \$0.38 for the three months ended December 31, 2009 versus diluted earnings per share of \$0.11 for the three months ended December 31, 2008. The increase in diluted earnings per share is a result of a higher net income (discussed above). The earnings per share for the quarter ended December 31, 2009 were adversely impacted by the increase in number of shares used in the computation of 1,043,379 which was a result of (i) the pro-rated impact of the 577,146 shares of Company common stock issued in conjunction with the public offering (see Note 10), (ii) the pro-rated impact of stock options to purchase 885,041 of common shares (January 1, 2009 through December 31, 2009) and (iii) impact on diluted shares of the higher stock price.

SIX MONTHS ENDED DECEMBER 31, 2009 AS COMPARED TO SIX MONTHS ENDED DECEMBER 31, 2008

Total revenues for the six months ended December 31, 2009 of \$31.4 million increased by \$23.7 million, or 311%, over the total revenues for the six months ended December 31, 2008 of \$7.6 million. Customer billings by market are as follows (in thousands):

	Six Months Ended December 31,		
	2009 (Unaudited)	2008 (Unaudited)	Variance (Unaudited)
BILLINGS BY MARKET:			
Government	\$22,718	\$ 121	\$ 22,597
Health Care	3,265	3,616	(351)
Retail	2,967	1,296	1,671
Professional	796	561	235
Hospitality	502	431	71
Other	429	298	131
Pharmaceutical	310	1,019	(709)
Commercial	163	295	(132)
Agriculture	171	267	(96)
Subtotal	31,321	7,904	23,417
GAAP Adjustment *	43	(265)	308
Revenue Reported	\$31,364	\$ 7,639	\$ 23,725

*Represents the net impact of the revenue recognition adjustment required to arrive at reported GAAP revenue. Customer billings include all invoiced amounts associated with products shipped during the period reported. GAAP revenue includes customer billings as well as numerous adjustments necessary to reflect, (i) the deferral of a portion of current period sales and (ii) recognition of certain revenue associated with products returned for treatment and destruction. The difference between customer billings and GAAP revenue is reflected in the Company's balance sheet as deferred revenue. See Note 4 "Revenue Recognition" in "Notes to Consolidated Financial Statements".

This Year-to-Date Report on Form 10-Q contains certain financial information not derived in accordance with GAAP, including customer billings information. The Company believes this information is useful to investors and other interested parties as customer billings represents all invoiced amounts associated with products shipped during the period reported. Such information should not be considered as a substitute for any measures derived in accordance with GAAP, and may not be comparable to other similarly titled measures of other companies. Reconciliation of this information to the most comparable GAAP measures is included above.

The increase in revenues is primarily attributable to increased billings in the Government (\$22.6 million), Retail (\$1.7 million), Professional (\$235 thousand), Other (\$131 thousand) and Hospitality (\$71 thousand) markets. The increases were partially offset by decreased billings in the Pharmaceutical (\$709 thousand), and Healthcare (\$351 thousand) markets. The increase in the Government market is a result of \$22.4 million in billings related to the sale of the Company's Sharps@MWMS™ to an agency of the United States Government under the contract announced in February 2009. The customer billings in the Government market also included \$142 thousand related to the support of the City of Chicago immunization program and \$77 thousand related to the sales of the RxTakeAway as part of the State of Iowa funded program. The increase in the billings in the Retail market is a result of, (i) increased market and customer penetration, (ii) a strong 2009 flu shot season (i.e., purchases of the Sharps Disposal By Mail Systems® by retail clinics and pharmacies who use the products to collect, store and properly dispose of syringes used to administer flu-related shots including H1N1) and (iii) increased purchases of the Sharps Disposal By Mail Systems® used to support community programs. The increase in the Professional market billings was driven by higher demand for the Company's products as professional offices (doctors, dentists, and veterinary) are made aware of the Company's Sharps Disposal By Mail System® products as cost-effective and convenient alternatives to the traditional medical waste pick up service. The decrease in Pharmaceutical market billings is due to the variability in timing associated with the Patient Support Programs the Company provides to the drug manufacturers. The decrease in the Health Care market billings is related to the ordering patterns of the larger home healthcare customers as well as additional distributor incentives designed to drive future growth in this market.

Cost of revenues for the six months ended December 31, 2009 of \$9.8 million was 31% of revenues. Cost of revenues for the six months ended December 31, 2008 of \$4.5 million was 59% of revenue. The higher gross margin for the six months ended December 31, 2009 of 68.7% (versus 41.7% for the six months ended December 31, 2008) was a result of (i) the higher revenue (i.e. higher coverage of fixed cost components in cost of goods sold) and (ii) the mix of products and services sold in the six months ended December 31, 2009 versus the six months ended December 31, 2008. Prior year gross margins were also adversely impacted by an increase in operations infrastructure costs as the Company prepared for higher sales volumes including those billings related to the sale of the Company's Sharps®MWMS™ to an agency of the United States Government under the contract announced in February 2009.

Selling, general and administrative ("S, G & A") expenses for the six months ended December 31, 2009 of \$3.9 million, increased by \$1.3 million, from S, G & A expenses for the six months ended December 31, 2008. The increase in S, G & A is primarily due to higher (i) compensation and benefit expense including payroll tax of \$477 thousand, (ii) non-cash, stock based compensation expense of \$350 thousand, (iii) costs related to increased sales and marketing-related activities of \$197 thousand, (iv) professional fees of \$152 thousand, (v) computer and systems-related expenses of \$98 thousand, (vi) general

office expense of \$43 thousand, and (vii) investor relation expenses of \$19 thousand. The increase in compensation expense is due primarily to an increased number of employees (increase in year-over-year headcount of eight of which six are focused on sales and marketing-related activities). The increase in non-cash stock-based award expense was primarily due to the accrued quarterly expense associated with the award of 51,500 restricted stock of Company common stock to non-employee directors as the equity portion of the fiscal year 2010 Board of Director compensation (vesting over fiscal year 2010) and the award of 410,000 additional stock options, in November 2008 and July 2009, to employees, including officers. The increase in professional fees was a result of expenses associated with, (i) the Ronald Pierce (former employment-related) arbitration (ii) consulting fees for several ongoing sales and marketing projects and (iii) general corporate matters. Costs incurred during the six months ended December 31, 2008 but not correspondingly incurred in the six months ended December 31, 2009 included recruiting fees of \$23 thousand and housing-related costs for the former Company's President and COO of \$18 thousand.

The Company generated operating income of \$17.4 million for the six months ended December 31, 2009 compared to operating income of \$0.4 million for the six months ended December 31, 2008. The operating margin was 55.5% for the six months ended December 31, 2009 compared to 4.9% for the six months ended December 31, 2008. The increase in operating income and operating margin is a result of the above mentioned increase in revenue and operating leverage inherent in the Company's business model.

The Company generated income before tax of \$17.4 million for the six months ended December 31, 2009 versus a pre-tax income of \$0.4 million for the six months ended December 31, 2008. The increase in income before tax is a result of higher operating income (discussed above).

The Company generated net income of \$11.4 million for the six months ended December 31, 2009 compared to net income of \$2.2 million for the six months ended December 31, 2008. The increase in net income is a result of higher operating income (discussed above). The six months ended December 31, 2008 were positively impacted by the reduction in the deferred tax valuation allowance of \$1.8 million and corresponding credit to tax expense booked in December 2008 (see Note 6 of the Notes to the Condensed Consolidated Financial Statements).

The Company reported diluted earnings per share of \$0.78 for the six months ended December 31, 2009 versus diluted earnings per share of \$0.16 for the six months ended December 31, 2008. The increase in diluted earnings per share is a result of a higher net income (discussed above). The earnings per share for the six months ended December 31, 2009 were adversely impacted by the increase in number of shares used in the computation of 949,190 which was a result of (i) the pro-rated impact of the 577,146 shares of Company common stock issued in conjunction with the public offering (see Note 10), (ii) the pro-rated impact of stock options to purchase 885,041 of common shares (January 1, 2009 through December 31, 2009) and (iii) impact on diluted shares of the higher stock price.

PROSPECTS FOR THE FUTURE

The Company continues to take advantage of the many opportunities in the markets served as communities, consumers, government and healthcare and commercial organizations become more aware of the need for the proper disposal of medical sharps waste and unused dispensed medications. This education process was enhanced in December 2004 when the U. S. Environmental Protection Agency ("EPA") issued its new guidelines for the proper disposal of medical sharps, revising the previous guidance that advised patients to dispose of used syringes in the trash (see www.epa.gov/epaoswer/other/medical/sharps.htm). Additionally, in July 2006 the states of California and Massachusetts passed legislation designed to mandate appropriate disposal of sharps waste necessary to protect the general public and workers from potential exposure to contagious diseases and health and safety risks. Currently, seven states ban the disposal of used syringes in the trash and five states are considering or have introduced similar legislation, while the remaining states operate under the EPA guidance noted above. In August 2008, the U.S. House of Representatives and U.S. Senate introduced bills 3251 and 1909, respectively, which, if enacted, would provide for Medicare reimbursement, under part D, for the safe and effective disposal of used needles and syringes. In October

2009, California passed Senate Bill 486 requiring drug companies that market and sell prescribed medications that are routinely injected at home to submit plans to the California Integrated Waste Management Board on or before July 1, 2010 (and annually thereafter) describing how they support safe needle collection and disposal programs for patients using their drugs. Among the methods of disposal recommended as part of the above noted regulatory actions are mail-back programs such as those marketed by the Company. The CDC and the EPA estimate that there are over three billion used syringes disposed of annually outside of the hospital setting in the United States. Additionally, the Company estimates that it would require 30 to 50 million Sharps Disposal by Mail System® products to properly dispose of all such syringes, which would equate to a market opportunity of over \$1 billion. Based upon the current level of sales, the Company estimates that it has penetrated approximately 1% of this market.

The Company continues to develop new products and services including the Sharps® MWMS™, the RxTakeAway™ line of products (including the RxTakeAway Recovery System) and the 18 gallon Medical Professional Sharps Disposal by Mail System®. The Company continues to develop products and services designed to facilitate the proper and cost effective disposal of medical waste and unused dispensed medication generated outside the hospital and large healthcare facility

setting. The Company believes its future growth will be driven by, among other items, (i) the positive impact and awareness created by the existing and above noted regulatory actions as well as additional potential future legislation, (ii) the effects of the Company's extensive direct marketing efforts and (iii) the Company's leadership position in the development and sales of products and services designed for the proper and cost-effective disposal of medical waste and unused dispensed medications generated outside the hospital and large healthcare facility setting.

Demand for the Company's primary product, the Sharps Disposal by Mail System®, which facilitates the proper and cost-effective disposal of medical waste including hypodermic needles, lancets and other devices or objects used to puncture or lacerate the skin (referred to as "sharps"), has been growing rapidly because of its cost-effective and convenient mail-back component and unique data tracking feature. In addition, targeted opportunities continue to expand as a result of, (i) legislation mandating the proper disposal of sharps, (ii) the growing awareness of the need to properly handle sharps medical waste for safety and environmental concerns, (iii) the significant increase in self-injectable medications and (iv) the changing paradigm in the healthcare industry.

The Company is experiencing a strong flu shot business (included in the Retail market billings) in light of the global concern over the H1N1 flu virus. While the flu shot business traditionally positively impacts the quarter ended September 30, the December 31, 2009 quarter was positively impacted by the flu shot season as well. The quarter ended March 31, 2010 could possibly also be positively impacted by the longer H1N1 flu season.

The Company is actively marketing its Sharps®MWMS™ to federal, state and local agencies as well as to large corporations. On February 2, 2009, the Company announced a \$40 million contract award (the "U.S. Government Contract") to provide its Sharps®MWMS™ to an agency of the United States Government. The total contract is expected to be executed over a five year period (one year plus four option years). On February 1, 2009, The Company received a purchase order for \$28.5 million which represents products and services to be provided during the first contract year of which \$6.0 million was billed, in aggregate, in the quarters ended March 31, and June 30, 2009, \$11.0 million in the quarter ended September 30, 2009 and \$11.5 million related to the U.S. Government Contract in the quarter ending December 31, 2009. In January 2010, Sharps was awarded the first option year (ending January 31, 2011) valued at \$1.6 million and will be realized from February 1, 2010 through January 31, 2011. The remaining three option years are expected to be approximately \$3 million per year as the program moves from the production phase to the maintenance phase. The above amounts are estimates only and are subject to change. Although the Company believes the amounts above to be reasonable based upon its current project plan, it makes no assurances regarding the actual recognition of revenue by fiscal year, which could vary significantly from that noted above.

In December 2009, Sharps Compliance was awarded a five-year Federal Supply schedule contract by the General Services Administration of the U.S. Government (GSA). The GSA Schedule provides a streamlined vehicle for federal government agencies to purchase the Company's products and services. Sharps was also awarded a Distribution and Pricing Agreement (DAPA) with the Defense Supply Center of Philadelphia's Directorate of Medical Material which provides the automated tools to promote efficient procurement of medical-related products for the Department of Defense. The Company believes these two contracts should facilitate the sale of virtually all of the Company's products and solutions (in addition to the Sharps®MWMS™) to the many U.S. Government agencies whom, to-date, have not purchased significant quantities of products or solutions designed to address the proper disposal of used syringes and other sharps as well as unused medications generated outside of the hospital setting utilizing the USPS or UPS.

In January 2010 the Company announced a pilot program with the United States Department of Veterans Affairs ("VA"). The program will take place within the VA Capitol Health Care Network ("Veterans Integrated Service Network 5" or "VISN 5"), which currently provides quality health care for eligible veterans in Maryland and portions of Virginia, West Virginia, and Pennsylvania, as well as the District of Columbia. The pilot allows each of the medical centers within the VISN 5 region, both inpatient and outpatient, to provide the Sharps Disposal By Mail System® and the RxTakeAway™ solutions to their patients. The VISN 5 is part of the Veterans Health Administration which

encompasses the largest integrated health care system in the United States, consisting of 153 medical centers, in addition to numerous community based outpatient clinics, community living centers and Vet Centers. Together these health care facilities provide comprehensive care to over 5.5 million Veterans each year.

In conjunction with the pilot program, each participating veteran will receive a survey so VISN 5 administrators can gauge their perception of the program and ease of use. The Company began shipment of its Sharps Disposal By Mail System® and its RxTakeAway™ solutions to three facilities in January 2010. The Company believes the VA's assessment period of the pilot will last approximately three to six months.

The Sharps®MWMS™, a Medical Waste Management System, is a comprehensive medical waste and unused dispensed medication solution which includes an array of products and services necessary to effectively collect, store and dispose of medical waste and unused dispensed medication outside of the hospital or large healthcare facility setting. Sharps®MWMS™, which is designed for rapid deployment, features the Sharps Disposal By Mail System® and RxTakeAway™ products (the "Products") combined with warehousing, inventory management, training, data and other services (the "Services") necessary to provide a comprehensive solution. The Sharps®MWMS™ is designed to be an integral part of governmental and commercial emergency preparedness programs.

The Company recognizes revenue for the Product portion of the contract in accordance with the revenue recognition policy for the Sharps Disposal By Mail System® products. The Services portion of the contract, described above, is recognized as services are performed.

The Company serves customers in multiple markets including, but not limited to, Healthcare, Government, Professional, Pharmaceutical, Industrial, Agriculture and Hospitality. As shown in the results for the fiscal year ended June 30, 2009 and the six months ended December 31, 2009, the Company has not experienced a downturn in its overall business, rather an increase in the majority of markets in which it serves. Order activity and purchase trends remain positive in most markets served. The Company currently has a significant cash balance, no debt, and an undrawn \$2.5 million line of credit.

California Senate Bill 486, which was signed into law on October 12, 2009, requires pharmaceutical manufacturers who sell or distribute medications that are routinely injected at home to submit plans to the California Integrated Waste Management Board (the "Board") on or before July 1, 2010 describing how they support and provide safe syringe and needle collection and disposal programs for their patients. The manufacturers are also required to post those plans on their website and the Board will post the information on its website as well in order to help educate consumers regarding safe and effective means to dispose of their used needles and syringes or injection devices.

Sharps believes its proven Patient Support Program (in place with pharmaceutical manufacturers since 2006) is an excellent solution for the patients of pharmaceutical manufacturers as it facilitates the proper, convenient and cost-effective storage, collection and disposal of used syringes.

Sharps' Patient Support Program includes the direct fulfillment of the Sharps Disposal By Mail System® to the pharmaceutical manufacturers' self-injecting patient support program participants, who use the product as a convenient means of disposing of used syringes, educational information on the disposal process and distinctive branding for the manufacturer's product. The Company's SharpsTracer™ system tracks the return of the Sharps Disposal By Mail System® by the patient to the treatment facility, where the package is processed prior to destruction utilizing the Company's proprietary and customizable system. This data is electronically transmitted and available to the pharmaceutical manufacturer via the Company's proprietary data warehouse which aids in monitoring drug usage and establishes a touch point for individual patient follow-up.

LIQUIDITY AND CAPITAL RESOURCES

In the second quarter of fiscal 2010, the Company completed a public offering of 577,146 shares, of which 77,146 were sold to cover the over-allotment option, at a price of \$9.165 per share (net of underwriting commission). The net proceeds of \$4.8 million from the shares sold by the Company (net of offering expenses) is expected to be used for general corporate purposes, including expansion of our product offerings, facilities and infrastructure to meet the continued expected growth of the Company.

Cash and cash equivalents increased by \$16.7 million to \$21.5 million at December 31, 2009 from \$4.8 million at June 30, 2009. The increase in cash and cash equivalents is primarily a result of cash generated from operations of \$11.1 million plus the net proceeds from the public offering of \$4.8 million (discussed above) and exercise of stock options of \$828 thousand, partially offset by capital expenditures of \$738 thousand.

Accounts receivable increased by \$0.4 million to \$2.0 million at December 31, 2009 from \$1.6 million at June 30, 2009. The increase is related to the November 2009 billing of the on-line training portion of the U.S. Government contract that was collected in January 2010.

Inventory decreased by \$634 thousand to \$1.6 million at December 31, 2009 from \$2.3 million at June 30, 2009. The decrease in inventory is primarily attributable to the completion of the initial product phase of the U.S. Government

Contract.

Prepaid and other current assets increased by \$1.2 million to \$1.9 million at December 31, 2009 from \$776 thousand at June 30, 2009. The increase is primarily due to the prepaid income taxes of \$1.6 million which represents the payment, in December 2009, of federal and state income taxes applicable to the third and fourth quarters of fiscal year 2010.

Property and equipment increased by \$398 thousand to \$3.8 million at December 31, 2009 from \$3.4 million at June 30, 2009. The increase in property and equipment is due to capital expenditures of \$738 thousand which was partially offset by depreciation expense of \$340 thousand. The capital expenditures are attributable primarily to the purchase of, (i) warehouse/operations-related equipment of \$186 thousand, (ii) leasehold improvements of \$114 thousand, (iii) treatment facility improvements and related operations equipment of \$207 thousand, (iv) molds, dies and printing plates of \$145 thousand, (v) computer equipment and custom software programming totaling \$62 thousand, (vi) phone system expansion of \$17 thousand and (vii) furniture for expanded office space of \$7 thousand. The warehouse/operations equipment included equipment necessary to accommodate the automation and continued expansion of in-house assembly and production of the Company's products (both Texas and Georgia facilities). The leasehold expenditures were incurred to support the Company's

16

expansion in both its Texas and Georgia facilities. The molds, dies and printing plates were procured for development of new products and duplicate molds needed to facilitate additional production capacity in light of the Company's growth.

Accounts payable decreased by \$1.6 million to \$0.9 million at December 31, 2009 from \$2.5 million at June 30, 2009. The decrease is a result of the timing of payments for raw materials purchased (reflecting the completion of the product portion of the U.S. Government contract) and capital expenditures.

Stockholder's equity increased by \$18.3 million from \$9.6 million to \$27.9 million. This increase is attributable to, (i) net income for the six months ended December 31, 2009 of \$11.4 million, (ii) the \$4.8 million effect of the 577,146 shares sold in the December 2009 public offering at a price of \$9.165 per share (net of underwriting commission), (iii) the effect of stock options to purchase 694,541 common stock exercised with proceeds of \$828 thousand (average exercise price of \$1.19), (iv) the effect on equity (credit) of non-cash stock based award expense of \$501 thousand and (v) the excess tax benefits from stock-based award activity of \$736 thousand.

Management believes that the Company's current cash resources (cash on hand and cash generated from operations) along with its \$2.5 million line of credit with JPMorgan Chase Bank, N.A. will be sufficient to fund operations for the twelve months ending December 31, 2010. Terms of the line of credit are expected to be renewed in March 2010 under similar or more favorable (increased line) terms currently in place.

CRITICAL ACCOUNTING ESTIMATES

Certain products offered by the Company have revenue producing components that are recognized over multiple delivery points and can consist of up to three separate elements as follows: (1) the sale of the container system, (2) the transportation of the container system and (3) the treatment and disposal of the container system. Since the transportation element and the treatment element are undelivered services at the point of initial sale of the container, the revenue is deferred until the services are performed. The current and long-term portions of deferred revenues are determined through regression analysis and historical trends. Furthermore, through regression analysis of historical data, the Company has determined that a certain percentage of all container systems sold may not be returned. Accordingly, a portion of the transportation and treatment elements is recognized at the point of sale.

RECENTLY ISSUED ACCOUNTING STANDARDS

On September 30, 2009, the Company adopted changes issued by the FASB to the authoritative hierarchy of GAAP. These changes establish the FASB Accounting Standards Codification™ "Codification" as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The FASB will no longer issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts. Instead, the FASB will issue Accounting Standards Updates. Accounting Standards Updates will not be authoritative in their own right as they will only serve to update the Codification. These changes and the Codification itself do not change GAAP. Other than the manner in which new accounting guidance is referenced, the adoption of these changes had no impact on the Financial Statements.

In October 2009, the FASB Emerging Issue Task Force issued new accounting guidance related to multiple-deliverable revenue arrangements, which addresses the accounting for multiple-deliverable arrangements to enable vendors to account for products or services "deliverables" separately rather than as a combined unit. The amendment affects accounting and reporting for all vendors that enter into multiple-deliverable arrangements. The standard provides amendments to the criteria for separating consideration in multiple-deliverable arrangements and will eliminate the residual method of allocation and require that arrangement consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method. The amendments in this

standard will require that a vendor determine its best estimate of selling price in a manner that is consistent with that used to determine the price to sell the deliverable on a standalone basis. As a result of those amendments, multiple-deliverable arrangements will be separated in more circumstances than under existing GAAP. The amendments in this standard significantly expand the disclosures related to multiple-deliverable revenue arrangements. The amendments in this standard will be effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The Company will be required to adopt this standard in the first quarter of fiscal year 2011. Management is currently evaluating the requirements of the standard and whether it will have a material impact on its financial position and results of operations.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), the Company is not required to provide the information required by the item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that material information required to be disclosed in the Company's periodic reports filed or submitted under Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The Company's disclosure controls and procedures are also designed to ensure that information required to be disclosed in the reports the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including, its principal executive officer and principal financial officer as appropriate, to allow timely decisions regarding required disclosure.

As of December 31, 2009, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the chief executive officer and the chief financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, the Company's chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures were effective, as of the end of the period covered by this report (December 31, 2009).

Changes in Internal Control over Financial Reporting

During the second quarter of the fiscal year 2010, there were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that materially affected or are reasonably likely to materially affect internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002, as amended, are filed as exhibits 31.1 and 31.2, respectively, to this Quarterly Report on Form 10-Q.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Ronald E. Pierce Matter

On June 14, 2004, the Company provided Mr. Ronald E. Pierce ("Mr. Pierce"), its then Chief Operating Officer, with notice of non-renewal of his employment agreement. As such, July 14, 2004 was Mr. Pierce's last day of employment. The Company advised Mr. Pierce that under the terms of the employment contract no further compensation (including services) was due. On July 15, 2008, the Company received a demand for arbitration from Mr. Pierce. The claim amount under the demand for arbitration is \$300,001. The Company has also received various letters from Mr. Pierce's attorney advising that Mr. Pierce is taking the position that the non-renewal of his employment agreement was not timely and, therefore, Mr. Pierce was terminated without cause. Additionally, Mr. Pierce claims that the Company had no right to terminate him on the anniversary date of his agreement without the obligation of paying Mr. Pierce as if he were terminated without cause. The Company believes that notice of such non-renewal was timely, and that in accordance with Mr. Pierce's employment agreement, the Company was entitled to provide notice thirty days prior to the anniversary of its intent to terminate the agreement, and no severance would therefore be due to Mr. Pierce.

The claim is currently in arbitration with a decision expected in the quarter ending June 30, 2010.

The Company believes it has meritorious defenses against Mr. Pierce's claims (including among others, the Company's belief that the claim to arbitrate is time barred) and believes that a material loss is remote and therefore has not recorded a liability related to this matter.

ITEM 6. EXHIBITS

(a) Exhibits:

- 31.1 Certification of Chief Executive Officer in Accordance with Section 302 of the Sarbanes-Oxley Act (filed herewith)
- 31.2 Certification of Chief Financial Officer in Accordance with Section 302 of the Sarbanes-Oxley Act (filed herewith)
- 32.1 Certification of Chief Executive Officer in Accordance with Section 906 of the Sarbanes-Oxley Act (filed herewith)
