Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended March 31, 2014

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

Commission File Number 0-16106

Clearfield, Inc.

(Exact name of Registrant as specified in its charter)

Minnesota 41-1347235
(State or other jurisdiction of incorporation or (I.R.S. Employer Identification No.)
organization)

5480 Nathan Lane North, Suite 120, Plymouth, Minnesota 55442
(Address of principal executive offices and zip code)

(763) 476-6866
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES NO

Indicate by check mark whether the registrant is a "large accelerated filer," an "accelerated filer," a "non-accelerated filer" or a "smaller reporting company" (as defined in Rule 12b-2 of the Exchange Act).

Large accelerated filer Accelerated filer Non-accelerated filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Edgar Filing: Clearfield, Inc. - Form 10-Q

YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class:	Outstanding at April 28, 2014

SEE ACCOMPANYING NOTES TO CONDENSED FINANCIAL STATEMENTS

NOTES TO CONDENSED FINANCIAL STATEMENTS

Note 1. Basis of Presentation

The accompanying (a) condensed balance sheet as of September 30, 2013, which has been derived from audited financial statements, and (b) the unaudited interim condensed financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial information, pursuant to the rules and regulations of the Securities and Exchange Commission. Pursuant to these rules and regulations, certain financial information and footnote disclosures normally included in the financial statements have been condensed or omitted. However, in the opinion of management, the financial statements include all adjustments, consisting of normal recurring accruals, necessary for a fair presentation of the financial position and results of operations and cash flows of the interim periods presented. Operating results for the interim periods presented are not necessarily indicative of results to be expected for the full year or for any other interim period, due to variability in customer purchasing patterns and seasonal, operating and other factors. These condensed financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended September 30, 2013.

In preparation of the Company's financial statements, management is required to make estimates and assumptions that affect reported amounts of assets and liabilities and related revenues and expenses during the reporting periods. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates.

Note 2. Net Income Per Share

Basic net income per common share ("EPS") is computed by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted EPS equals net income divided by the sum of the weighted average number of shares of common stock outstanding plus all additional common stock equivalents, such as stock options and restricted stock awards, when dilutive.

	Three Months Ended March 31,		Six Months Ended March 31,	
	2014	2013	2014	2013
Net income	\$ 1,226,305	\$ 545,278	\$ 3,208,631	\$ 1,090,489
Weighted average common shares	12,746,904	12,503,434	12,717,842	12,489,651
Dilutive potential common shares	866,383	423,126	862,275	372,633
Weighted average dilutive common shares outstanding	13,613,287	12,926,560	13,580,117	12,862,284
Net income per common share:				
Basic	\$0.09	\$0.05	\$0.25	\$0.09
Diluted	\$0.09	\$0.04	\$0.24	\$0.08

The calculation of diluted net income per common share excludes 294,500 potentially dilutive shares for the three months ended March 31, 2013 because their effect would be anti-dilutive. There were no shares excluded for the three months ended March 31, 2014 as all shares were dilutive.

Note 3. Cash, Cash Equivalents and Investments

The Company currently invests its excess cash in money market accounts and bank certificates of deposit (CDs) with a term of not more than three years. CDs with original maturities of more than three months are reported as held-to-maturity investments and are carried at amortized cost. The maturity dates of the Company's CDs as of March

Edgar Filing: Clearfield, Inc. - Form 10-Q

31, 2014 and September 30, 2013 are as follows:

	March 31, 2014	September 30, 2013
Less than one year	\$5,981,000	\$5,992,000
1-3 years	9,525,000	6,770,000
Total	\$15,506,000	\$12,762,000

Note 4. Stock-Based Compensation

The Company recorded \$186,209 and \$374,369 of compensation expense related to current and past option grants, restricted stock grants and the Company's Employee Stock Purchase Plan for the three and six months ended March 31, 2014, respectively. The Company recorded \$197,683 and \$383,732 of compensation expense related to current and past equity awards for the three and six months ended March 31, 2013, respectively. This expense is included in selling, general and administrative expense. As of March 31, 2014, \$1,615,286 of total unrecognized compensation expense related to non-vested equity awards is expected to be recognized over a weighted average period of approximately 3.4 years.

There were no stock options granted during the six-month periods ended March 31, 2014 and March 31, 2013. The following is a summary of stock option activity during the six months ended March 31, 2014:

	Number of options	Weighted average exercise price
Outstanding at September 30, 2013	863,519	\$ 3.24
Granted	-	-
Exercised	(91,300)	3.07
Cancelled or Forfeited	(2,250)	4.26
Outstanding at March 31, 2014	769,969	\$ 3.25

The intrinsic value of an option is the amount by which the fair value of the underlying stock exceeds its exercise price. As of March 31, 2014, the weighted average remaining contractual term for all outstanding stock options was 3.6 years and their aggregate intrinsic value was \$15,273,527. As of March 31, 2014, there were 622,169 options exercisable with a weighted average remaining contractual term of 3.8 years, and their aggregate intrinsic value was \$12,685,109. During the six months ended March 31, 2014 and March 31, 2013, the Company received proceeds of \$101,034 and \$11,971, respectively, from the exercise of stock options.

Restricted Stock

The Company's 2007 Stock Compensation Plan permits its Compensation Committee to grant other stock-based awards. The Company makes restricted stock grants to key employees and non-employee directors that vest over one to five years.

During the six month period ended March 31, 2014, the Company granted non-employee directors restricted stock awards totaling 1,915 shares of common stock, with a vesting term of approximately one year and a fair value of \$26.09 per share. During the six month period ended March 31, 2013, the Company granted non-employee directors restricted stock awards totaling 9,090 shares of common stock, with a vesting term of approximately one year and a fair value of \$5.50 per share. Restricted stock transactions during the six-month period ended March 31, 2014 is summarized as follows:

	Number of shares	Weighted average grant date fair value
Unvested shares at September 30, 2013	292,290	\$5.11
Granted	1,915	26.09
Vested	(9,090)	5.50

Forfeited	(1,200)	5.10
Unvested at March 31, 2014	283,915	\$5.24

Employee Stock Purchase Plan

Clearfield, Inc.'s Employee Stock Purchase Plan ("ESPP") allows participating employees to purchase shares of the Company's common stock at a discount through payroll deductions. The ESPP is available to all employees subject to certain eligibility requirements. Terms of the ESPP provide that participating employees may purchase the Company's common stock on a voluntary after-tax basis. Employees may purchase the Company's common stock at a price that is no less than the lower of 85% of the fair market value of one share of common stock at the beginning or end of each stock purchase period or phase. The ESPP is carried out in six month phases, with phases beginning on January 1 and July 1 of each calendar year. For the phases that ended on December 31, 2013 and December 31, 2012, employees purchased 10,920 and 18,000 shares at a price of \$8.28 and \$3.82 per share, respectively. After the employee purchase on December 31, 2013, 192,325 shares of common stock were available for future purchase under the ESPP.

Note 5. Accounts Receivable and Net Sales

Credit is extended based on the evaluation of a customer's financial condition and collateral is generally not required. Accounts that are outstanding longer than the contractual payment terms are considered past due. The Company writes off accounts receivable when they become uncollectible; payments subsequently received on such receivables are credited to the allowance for doubtful accounts. As of both March 31, 2014 and September 30, 2013, the balance in the allowance for doubtful accounts was \$97,950.

The Company has rebate agreements with customers that expire at various times and as of March 31, 2014 has accrued rebates of \$2,776,689 related to these agreements. These agreements have a right of offset against accounts receivable balances for these customers, and after offsetting, the Company has recorded an accrued rebate liability of \$2,659,764 as of March 31, 2014. All amounts related to these rebate agreements are recorded as a reduction of sales and were \$11,345 and \$1,385,329 for the three and six months ended March 31, 2014, respectively, and \$378,842 and \$429,652 for the three and six months ended March 31, 2013, respectively.

See Note 7, "Major Customer Concentration" for further information regarding accounts receivable and net sales.

Note 6. Inventories

Inventories consist of the following as of:

	March 31, 2014	September 30, 2013
Raw materials	\$3,047,476	\$4,110,224
Work-in-progress	486,754	494,980
Finished goods	1,321,669	1,021,560
	\$4,855,899	\$5,626,764

Note 7. Major Customer Concentration

Customers A, B and C comprised approximately 22%, 18% and 11% of net sales, respectively, for the three months ended March 31, 2014. Customers A and B comprised approximately 36% and 14% of net sales, respectively, for the six months ended March 31, 2014. Customers A and B comprised approximately 20% and 27% of net sales, respectively, for the three months ended March 31, 2013. Customers A and B comprised approximately 14% and 25% of net sales, respectively, for the six months ended March 31, 2013.

As of March 31, 2014, Customer C accounted for 14% of accounts receivable. As of September 30, 2013, Customer A accounted for 57% of accounts receivable.

Note 8. Goodwill and Patents

The Company analyzes its goodwill for impairment annually or at an interim period when events occur or changes in circumstances indicate potential impairment. The result of the analysis performed in the fourth quarter ended September 30, 2013 did not indicate an impairment of goodwill. During the six months ended March 31, 2014, there were no triggering events that indicate potential impairment exists.

The Company capitalizes legal costs incurred to obtain patents. Once accepted by either the U.S. Patent Office or the equivalent office of a foreign country, these legal costs are amortized using the straight-line method over the

remaining estimated lives, not exceeding 17 years. As of March 31, 2014, the Company has four patents granted in the United States and four pending applications pending inside and outside the United States.

Note 9. Income Taxes

For the three and six months ended March 31, 2014, the Company recorded a provision for income taxes of \$714,000 and \$1,824,000, respectively, reflecting an effective tax rate of 36.8% and 36.2%, respectively. The primary difference between the effective tax rate and the statutory tax rate is related to nondeductible meals and entertainment expenses and expenses related to equity award compensation.

As of both March 31, 2014 and September 30, 2013, the Company had a remaining valuation allowance of approximately \$975,000 related to state net operating loss carry-forwards the Company does not expect to utilize. Based on the Company's analysis and review of long-term forecasts and all available evidence, the Company has determined that there should be no change in this existing valuation allowance in the current quarter.

For the three and six months ended March 31, 2013, the Company recorded a provision for income taxes of \$427,000 and \$793,000, respectively, reflecting an effective tax rate of 43.9% and 42.1%, respectively. The primary difference between the effective tax rate and the statutory tax rate is related to nondeductible meals and entertainment expenses and expenses related to equity award compensation.

Deferred taxes recognize the impact of temporary differences between the amounts of the assets and liabilities recorded for financial statement purposes and these amounts measured in accordance with tax laws. The Company's realization of net operating loss carry-forwards and other deferred tax temporary differences is contingent upon future taxable earnings. The Company reviewed its deferred tax asset for expected utilization using a "more likely than not" criteria by assessing the available positive and negative factors surrounding its recoverability.

As of March 31, 2014, we do not have any unrecognized tax benefits. It is the Company's practice to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. The Company does not expect any material changes in its unrecognized tax positions over the next 12 months.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to future events and typically address the Company's expected future business and financial performance. Words such as "plan," "expect," "aim," "believe," "project," "target," "anticipate," "intend," "estimate," "will," "should," "could" and terms of similar meaning, typically identify these forward-looking statements. Forward-looking statements are based on certain assumptions and expectations of future events and trends that are subject to risks and uncertainties. Actual results could differ from those projected in any forward-looking statements because of the factors identified in and incorporated by reference from Part I, Item 1A, "Risk Factors," of our Annual Report on Form 10-K for the year ended September 30, 2013, as well as in other filings we make with the Securities and Exchange Commission, which should be considered an integral part of Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations." All forward-looking statements included herein are made as the date of this Quarterly Report on Form 10-Q and we assume no obligation to update the forward-looking statements or to update the reasons why actual results could differ from those projected in the forward-looking statements.

The following discussion and analysis of our financial condition and results of operations as of and for the three and six months ended March 31, 2014 and 2013 should be read in conjunction with the financial statements and related notes in Item 1 of this report and our Annual Report on Form 10-K for the year ended September 30, 2013.

OVERVIEW

General

Clearfield, Inc. manufactures, markets, and sells an end-to-end fiber management and enclosure platform that consolidates, distributes and protects fiber as it moves from the inside plant to the outside plant and all the way to the home, business and cell site. While continuing to penetrate the wireline requirements for FTTH builds, Clearfield is actively engaged in the expansion of wireless services through the deployments of its technologies for cell backhaul and distributed antennas wireless services.

7

The Company has successfully established itself as a value-added supplier to its target market of broadband service providers, including independent local exchange carriers (telephone, or “telcos”), multiple service operators (cable), wireless service providers, municipal-owned utilities, as well as commercial and industrial original equipment manufacturers (“OEMs”). Clearfield has continually expanded its product offerings and broadened its customer base during the last five years.

The Company has historically focused on the un-served or under-served rural communities who receive their voice, video and data services from independent telephone companies. By aligning its in-house engineering and technical knowledge alongside its customers, the Company has been able to develop, customize and enhance products from design through production. Final build and assembly of the Company’s products is completed at Clearfield’s plant in Plymouth, Minnesota with manufacturing support from a network of domestic and global manufacturing partners. Clearfield specializes in producing these products on both a quick-turn and scheduled delivery basis. The Company deploys a hybrid sales model with some sales made directly to the customer, some made through two-tier distribution (channel) partners, and some sales through original equipment suppliers who private label their products.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2014 VS. THREE MONTHS ENDED MARCH 31, 2013

Net sales for the second quarter of fiscal 2014 ended March 31, 2014 were \$13,214,000, an increase of approximately 26% or \$2,700,000 from net sales of \$10,514,000 for the second quarter of fiscal 2013. Net sales to broadband service providers and commercial data networks customers were \$12,170,000 in the second quarter of fiscal 2014, versus \$9,563,000 in the same period of fiscal 2013. Among this group, the Company recorded \$2,197,000 in international sales, versus \$623,000 in the same period of fiscal 2013. Net sales to build-to-print and OEM customers were \$1,044,000 in the second quarter of fiscal 2014 versus \$951,000 in the same period of fiscal 2013. The Company allocates sales from external customers to geographic areas based on the location to which the product is transported. Accordingly, international sales represented 17% and 6% of total net sales for the second quarters of fiscal 2014 and 2013, respectively.

The increase in net sales for the second quarter of fiscal 2014 of \$2,700,000 compared to the same quarter of fiscal 2013 is primarily attributable to increases in international sales of \$1,574,000. The increase in net sales was also positively affected by an increase of \$716,000 related to the expansion of an ongoing build of a U.S.-based broadband service provider when compared to the same quarter of fiscal 2013. Additionally, net sales to our customer base of commercial data network providers, build-to-print and OEM manufacturers, and broadband service providers, outside of our largest customer and internationally noted above, increased \$410,000 when compared to the same quarter of 2013. The Company does not have the ability to forecast future sales as revenue from all customers is obtained from purchase orders submitted from time to time. Accordingly, the Company’s ability to predict orders in future periods or trends affecting orders in future periods is limited.

Cost of sales for the second quarter of fiscal 2014 was \$7,493,000, an increase of \$1,194,000, or 19%, from \$6,299,000 in the comparable period of fiscal 2013. Gross margin was 43.3% in the fiscal 2014 second quarter, up from 40.1% for the fiscal 2013 second quarter. Gross profit increased \$1,506,000, or 36%, to \$5,721,000 for the three months ended March 31, 2014 from \$4,215,000 in the comparable period in fiscal 2013. The increase in cost of sales in the second quarter of fiscal 2014 is primarily a result of increased sales volume. Gross profit increased primarily as a result of a higher percentage of sales associated with optical component technologies and newer, high margin products.

Selling, general and administrative expenses increased \$539,000, or 17%, to \$3,805,000 in the fiscal 2014 second quarter from \$3,266,000 for the fiscal 2013 second quarter. The increase in the second quarter of fiscal 2014 consists primarily of higher compensation expenses in the amount of \$488,000 due to additional personnel as well as higher

performance compensation accruals associated with higher net sales and operating income in the three months ended March 31, 2014 as compared to March 31, 2013.

Income from operations for the quarter ended March 31, 2014 was \$1,916,000 compared to income from operations of \$949,000 for the comparable quarter of fiscal 2013, an increase of approximately 102%. This increase is attributable to increased net sales and higher gross margin.

Interest income for the quarter ended March 31, 2014 was \$25,000 compared to \$23,000 for the comparable quarter for fiscal 2013. The Company invests its excess cash primarily in FDIC-backed bank certificates of deposit and money market accounts.

We recorded a provision for income taxes of \$714,000 and \$427,000 for the three months ended March 31, 2014 and 2013, respectively. Due to net operating loss utilization, income tax expense primarily included a non-cash effect on the operating cash flow in the second quarters of both fiscal 2014 and 2013. We record our quarterly provision for income taxes based on our estimated annual effective tax rate for the year. The increase in tax expense of \$287,000 from the second quarter for fiscal 2013 is primarily due to deferred tax expense resulting from higher profitability. Our provisions for income taxes include current federal alternative minimum tax expense, state income tax expense and deferred tax expense.

The Company's net income for the three months ended March 31, 2014 was \$1,226,000, or \$0.09 per basic and diluted share. The Company's net income for the three months ended March 31, 2013 was \$545,000, or \$0.05 per basic and \$0.04 per diluted share.

SIX MONTHS ENDED MARCH 31, 2014 VS. SIX MONTHS ENDED MARCH 31, 2013

Net sales for the six months ended March 31, 2014 were \$29,361,000, an increase of 41% or approximately \$8,581,000 from net sales of \$20,780,000 for the first six months of fiscal 2013. Net sales to broadband service providers and commercial data networks customers were \$27,248,000 for the first six months of fiscal 2014, versus \$18,480,000 in the same period of fiscal 2013. Among this group, the Company recorded \$3,212,000 in international sales versus \$1,014,000 in the same period of fiscal 2013. Net sales to build-to-print and OEM customers were \$2,113,000 in the first six months of fiscal 2014 versus \$2,300,000 in the same period of fiscal 2013. The Company allocates sales from external customers to geographic areas based on the location to which the product is transported. Accordingly, international sales represented 11% and 5% of total net sales for the first six months of fiscal 2014 and 2013, respectively.

The increase in net sales for the first six months of fiscal 2014 of \$8,581,000 compared to the same period of fiscal 2013 is primarily attributable to an increase of \$7,688,000 related to the ramp up of an ongoing build of a U.S.-based broadband service provider. The increase in net sales was also positively affected by an increase of \$2,198,000 in international sales. These increases were offset by a decrease of \$1,305,000 in the Company's net sales to our customer base of commercial data network providers, build-to-print and OEM manufacturers, and broadband service providers, outside of our largest customer and internationally noted above, mainly due to lower demand in the first three months of the fiscal 2014 period when compared to the same period of fiscal 2013. The Company does not have the ability to forecast future sales as revenue from all customers is obtained from purchase orders submitted from time to time. Accordingly, the Company's ability to predict orders in future periods or trends affecting orders in future periods is limited.

Cost of sales for the six months ended March 31, 2014 was \$16,703,000, an increase of \$4,063,000, or 32%, from \$12,640,000 in the comparable period. Gross margin was 43.1% in the fiscal 2014 first six months, up from 39.2% for the comparable six months in fiscal 2013. Gross profit increased \$4,518,000, or 56%, to \$12,658,000 for the six months ended March 31, 2014 from \$8,140,000 in the comparable period in fiscal 2013. The increase in cost of sales in the first six months of fiscal 2014 is primarily a result of increased sales volume. Gross profit increased primarily as a result of a higher percentage of sales associated with optical component technologies and newer, high margin products.

Selling, general and administrative expenses increased 22%, or \$1,366,000, from \$6,304,000 for the first six months of fiscal 2013 to \$7,670,000 for the first six months of fiscal 2014. The increase in the first six months of fiscal 2014 includes higher compensation expenses in the amount of \$1,094,000, due to additional personnel as well as higher performance compensation accruals associated with higher net sales and operating income in the six months ended March 31, 2014 vs. March 31, 2013 and \$53,000 in higher product development costs.

Income from operations for the six months ended March 31, 2014 was \$4,988,000 compared to income of \$1,835,000 for the first six months of fiscal 2013, an increase of \$3,153,000, or 172%. This increase is attributable to increased net sales and higher gross margin.

Interest income for the six months ended March 31, 2014 was \$44,000 compared to \$48,000 for the comparable period for fiscal 2013. The Company invests its excess cash primarily in FDIC-backed bank certificates of deposit and money market accounts.

We recorded a provision for income taxes of \$1,824,000 and \$793,000 for the six months ended March 31, 2014 and 2013, respectively. Due to net operating loss utilization, income tax expense primarily included a non-cash effect on the operating cash flow for the first six months of both fiscal 2014 and 2013. We record our quarterly provision for income taxes based on our estimated annual effective tax rate for the year. The increase in tax expense of \$1,031,000 from the six months ended March 31, 2013 is primarily due to deferred tax expense resulting from higher profitability. Our provisions for income taxes include current federal alternative minimum tax expense, state income tax expense and deferred tax expense.

The Company's net income for the first six months of fiscal 2014 ended March 31, 2014 was \$3,209,000, or \$0.25 per basic and \$0.24 per diluted share. The Company's net income for the first six months of fiscal 2013 ended March 31, 2013 was \$1,090,000, or \$0.09 per basic and \$0.08 per diluted share.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2014, our principal source of liquidity was our cash, cash equivalents and short-term investments. Those sources total \$23,108,000 at March 31, 2014 compared to \$15,800,000 at September 30, 2013. Our excess cash is invested mainly in certificates of deposit backed by the FDIC and money market accounts. The majority of our funds are insured by the FDIC. Investments considered long-term were \$9,525,000 at March 31, 2014, compared to \$6,770,000 at September 30, 2013. We believe the combined balances of short-term cash and investments along with long-term investments provide a more accurate indication of our available liquidity. At March 31, 2014, Clearfield had no debt and \$32,633,000 in cash, cash equivalents and investments, compared to \$22,570,000 at September 30, 2013.

The Company expects to fund operations with its working capital, which is the combination of existing cash and cash equivalents and cash flow from operations, accounts receivable and inventory. The Company intends to use its cash assets primarily for its continued organic growth. Additionally, the Company may use some available cash for potential future strategic initiatives or alliances. We believe our cash and cash equivalents at March 31, 2014, along with cash flow from future operations, will be sufficient to fund our working capital and capital resources needs for at least the next 12 months.

Operating Activities

Net cash provided by operating activities totaled \$10,333,000 for the six months ended March 31, 2014. This was primarily due to net income of \$3,209,000, non-cash expenses for depreciation and amortization of \$310,000, deferred taxes of \$1,692,000, and stock-based compensation of \$374,000, in addition to changes in operating assets and liabilities providing cash. Changes in operating assets and liabilities providing cash include decreases in accounts receivable and inventory of \$4,408,000 and \$771,000, respectively, and an increase in accounts payable and accrued expenses of \$223,000. Accounts receivable balances can be influenced by the timing of shipments for customer projects and payment terms. The decrease in accounts receivable was primarily a result of significant payments received in the first quarter from one customer with a large balance at September 30, 2013, resulting in a substantially lower receivable balance at March 31, 2014. The decrease in inventory reflects the fulfillment of orders that were in the Company's backlog as of September 30, 2013 and also represents an adjustment for seasonal demand along with

changes in stocking levels for product development life cycles. The increase in accounts payable and accrued expenses primarily reflects a reclassification from accounts receivable of \$2,660,000 to accrued rebates for customers with rebate terms as rebates owed exceeded the related accounts receivable balances as of March 31, 2014. The change in accounts payable and accrued expenses also reflects a decrease related to the fiscal 2013 accrued bonus compensation accruals of approximately \$2,691,000 which were paid during the first quarter of fiscal 2014. Changes in working capital items using cash include an increase in prepaid expenses and other of \$661,000, primarily related to deposits on inventory and capital equipment expected to be put into production during fiscal 2014.

Net cash provided by operating activities totaled \$655,000 for the six months ended March 31, 2013. This was primarily due to net income of \$1,090,000, non-cash expenses for depreciation and amortization of \$239,000, deferred taxes of \$730,000, loss on asset disposals of \$7,000, and stock-based compensation of \$384,000, offset by changes in operating assets and liabilities using cash. Changes in operating assets and liabilities using cash include increases in inventory of \$771,000, other current assets of \$109,000, and accounts receivable of \$1,224,000. The increase in inventory reflects higher stocking levels for existing and for new product offerings including Clearview Blue and FieldShield. Changes using cash also include an increase in accounts payable and accrued expenses in the amount of \$309,000, primarily related to increased inventory purchases.

Investing Activities

We invest our excess cash in money market accounts and bank CDs in denominations across numerous banks. We believe we obtain a competitive rate of return given the economic climate along with the security provided by the FDIC on these investments. During the six months ended March 31, 2014, we used cash to purchase \$7,411,000 of FDIC-backed securities and received \$4,667,000 on CDs that matured. Purchases of patent fees and capital equipment, mainly information technology and manufacturing equipment, consumed \$332,000 of cash.

During the six months ended March 31, 2013, we used cash to purchase \$3,860,000 of FDIC-backed securities and received \$4,835,000 on CDs that matured. Purchases of patent fees and capital equipment, mainly information technology and manufacturing equipment, consumed \$550,000 of cash.

Financing Activities

For the six months ended March 31, 2014, we received \$90,000 from employees' participation and purchase of stock through our ESPP. We received \$101,000 from the issuance of stock as a result of employees exercising options, and used \$129,000 to pay for taxes for employees who elected to tender shares to satisfy tax withholding obligations upon exercise of stock options.

For the six months ended March 31, 2013, we received \$69,000 from employees' participation and purchase of stock through our ESPP. We received \$12,000 from the issuance of stock as a result of employees exercising options, and used \$25,000 to pay for taxes for employees who elected to tender shares to satisfy tax withholding obligations upon exercise of stock options.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management utilizes its technical knowledge, cumulative business experience, judgment and other factors in the selection and application of the Company's accounting policies. The accounting policies considered by management to be the most critical to the presentation of the financial statements because they require the most difficult, subjective and complex judgments include revenue recognition, stock-based compensation, deferred tax asset valuation allowances, accruals for uncertain tax positions, and impairment of goodwill and long-lived assets.

These accounting policies are described in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Company's Annual Report on Form 10-K for the year ended September 30, 2013. Management made no changes to the Company's critical accounting policies during the quarter ended March 31, 2014.

In applying its critical accounting policies, management reassesses its estimates each reporting period based on available information.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and the Company's Chief Financial Officer of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of March 31, 2014. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes to the Company's internal control over financial reporting, as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934, that occurred during the quarter ended March 31, 2014 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is exposed to a number of asserted and unasserted legal claims encountered in the ordinary course of business. Although the outcome of any such legal action cannot be predicted, management believes that there are no pending legal proceedings against or involving the Company for which the outcome is likely to have a material adverse effect upon its financial position or results of operations.

ITEM 1A. RISK FACTORS

The most significant risk factors applicable to the Company are described in Part I, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended September 30, 2013. There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In the three months ending March 31, 2014, the Company repurchased a total of 1,152 of shares that were owned by employees and delivered to the Company to pay for the exercise price of employee stock options.

The following table presents the total number of shares repurchased during the second quarter of fiscal 2014 by month and the average price paid per share:

Period	Total Number of Shares Repurchased	Average Price Paid Per Share
January 1-31, 2014	-	\$-
February 1-28, 2014	1,152	24.84
March 1-31, 2014	-	-
	1,152	\$24.84

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

12

ITEM 6. EXHIBITS

Exhibit 31.1 – Certification of Chief Executive Officer pursuant to Rules 13a-14(a) and 15d-14(a) of the Exchange Act

Exhibit 31.2 – Certification of Chief Financial Officer pursuant to Rules 13a-14(a) and 15d-14(a) of the Exchange Act

Exhibit 32.1 – Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. §1350

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
