Tower Semiconductor Announces the Nomination of
Dov Moran as its new Chairman of the Board

Edgar Filing: TOWER SEMICONDUCTOR LTD - Form 6-K

MORAN BRINGS EXTENSIVE EXECUTIVE BACKGROUND FROM THE RECENTLY ACQUIRED MSYSTEMS LTD.

MIGDAL HAEMEK, Israel - December 21, 2006 - Tower Semiconductor Ltd. (NASDAQ: TSEM; TASE: TSEM), a pure-play independent specialty foundry, today announced that its board of directors has nominated Dov Moran to serve as the company's new chairman of the board.

Moran is co-founder of msystems Ltd., a leader in flash memory development, which was recently acquired by SanDisk Corporation. Moran was president, CEO and chairman of the board of directors of msystems from 1989 until September 2006. Under Moran's leadership, msystems grew from a company with approximate annual revenues of \$16 million in 1998 to \$615 million in 2005, and was recently acquired by SanDisk for approximately \$1.5 billion.

Udi Hillman, Tower's current chairman, will continue to serve as a member of the board of directors. "I am pleased to welcome Dov as the new chairman of Tower," Hillman said. "Dov is recognized internationally as an innovator and entrepreneur within the technology domain and his vast experience and knowledge in the semiconductor and consumer industries will strengthen our board, as Tower continues to maintain its growth."

"I am very proud and very excited to join Tower's Board," said Moran. "Tower has unique qualities, an amazingly dedicated staff and the potential for a great future. We expect challenges but are ready to face them and I am delighted to be part of a team that will create an outstanding success."

Moran's appointment to serve as chairman of the board of directors and the terms of his agreement with Tower have been approved by Tower's audit committee and the board of directors and are further subject to the approval of the company's shareholders. Under the terms of the agreement entered into with Moran, he will be granted options to purchase shares representing one percent of the company's shares on a fully diluted basis, vesting over a four-year period, and will not be entitled to any cash compensation other than a symbolic amount of \$1.00 per year.

ABOUT TOWER SEMICONDUCTOR LTD.

Tower Semiconductor Ltd. is a pure-play independent specialty wafer foundry established in 1993. The company manufactures integrated circuits with geometries ranging from 1.0 to 0.13-micron; it also provides complementary technical services and design support. In addition to digital CMOS process technology, Tower offers advanced non-volatile memory solutions, mixed-signal & RF-CMOS, and CMOS image-sensor technologies. To provide world-class customer service, the company maintains two manufacturing facilities: Fab 1 has process standard and specialized technologies from 1.0 to 0.35 micron and Fab 2 features standard and specialized technologies of 0.18, 0.16 and 0.13-micron. Tower's Web site is located at <http://www.towersemi.com>.
