Zehava Simon Elected to Nova's Board of Directors

REHOVOT, Israel, July 16, 2014 - Nova Measuring Instruments (Nasdaq: NVMI), a leading innovator and a key provider of optical metrology solutions for advanced process control used in semiconductor manufacturing, announced today that Zehava Simon was elected as the Company's external Director at the recent annual general meeting of shareholders.

Ms. Simon served as a Vice President of BMC Software Inc. from 2000 until 2013, and most recently there, she was Vice President of Corporate Development. From 2002 to 2011, Ms. Simon served as Vice President and General Manager of BMC Software in Israel. Prior to that, Ms. Simon held various positions at Intel Israel, which she joined in 1982, including leading of Finance & Operations and Business Development for Intel in Israel.

Ms. Simon is currently a board member of AudioCodes Ltd., a publicly-listed company traded on NASDAQ and TASE, and of Amiad Filtration Systems, a public company traded on the London Stock Exchange. Ms. Simon is a former member of the board of directors of Insightec Ltd., M-Systems Ltd., and Tower Semiconductor Ltd. Ms. Simon holds a B.A. in Social Sciences from the Hebrew University, Jerusalem, a law degree (LL.B.) from the Interdisciplinary Center in Herzlia and an M.A. in Business and Management from Boston University.

"Zehava brings a wealth of experience to Nova's Board of Directors," stated Dr. Micha Brunstein, Chairman of the Board. "Her broad experience across the technology sector and substantial M&A experience are key valuable assets as we look for opportunities to accelerate our growth during this substantial expansion phase of capital investments in the semiconductor industry."

"We are looking forward to Zehava's addition to the Board of Directors and to leveraging her broad experience in corporate development and M&A activities in multi-disciplinary companies," commented Eitan Oppenheim, President and CEO of Nova. "Our continuous innovation along with our advanced product offering enable us to leverage our position and search for new opportunities beyond our current portfolio. Zehava brings the right experience to assist the company at this path."

About Nova: Nova Measuring Instrument Ltd. delivers continuous innovation by providing advanced optical metrology solutions for the semiconductor manufacturing industry. Deployed with the world's largest integrated-circuit manufacturers, Nova's products deliver state-of-the-art, high-performance metrology solutions for effective process control throughout the semiconductor fabrication lifecycle. Nova's product portfolio, which combines high-precision hardware and cutting-edge software, supports the development and production of the most advanced devices in today's high-end semiconductor market. Nova's technical innovation and market leadership enable customers to improve process performance, enhance products' yields and accelerate time to market. Nova acts as a partner to semiconductor manufacturers from its offices around the world. Additional information may be found at www.novameasuring.com.

Nova is traded on the NASDAQ & TASE under the symbol NVMI.

This press release contains forward-looking statements within the meaning of safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to future events or our future performance, such as statements regarding trends, demand for our products, expected deliveries, transaction, expected revenues, operating results, earnings and profitability. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied in those forward looking statements. These risks and other factors include but are not limited to: our dependency on two product lines; our dependency on a small number of large customers and small number of suppliers; the highly cyclical nature of the markets we target; our inability to reduce spending during a slowdown in the semiconductor industry; our ability to respond effectively on a timely basis to rapid technological changes; our dependency on PEM; risks related to exclusivity obligations and non-limited liability that may be included in our commercial agreements and arrangements; our ability to retain our competitive position despite the ongoing consolidation in our industry; risks related to our dependence on a single manufacturing facility; risks related to the extremely competitive market we are operation in; risks related to changes in our order backlog; risks related to the financial, political and environmental instabilities in Asia; risks related to our intellectual property; new product offerings from our competitors; unanticipated manufacturing or supply problems; changes in tax requirements; changes in customer demand for our products; risks related to currency fluctuations and risks related to our operations in Israel. We cannot guarantee future results, levels of activity, performance or achievements. The matters discussed in this press release also involve risks and uncertainties summarized under the heading "Risk Factors" in Nova's Annual Report on Form 20-F for the year ended December 31, 2013 filed with the Securities and Exchange Commission on February 28, 2014. These factors are updated from time to time through the filing of reports and registration statements with the Securities and Exchange Commission. Nova Measuring Instruments Ltd. does not assume any obligation to update the forward-looking information contained in this press release.
