Table of Contents

Approximate Date of Commencement of Proposed Sale to the Public: From time to time after this Registration Statement becomes effective.

If the only securities being registered on this form are being offered pursuant to dividend or interest reinvestment plans, please check the following box.

If any of the securities being registered on this form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, other than securities offered only in connection with dividend or interest reinvestment plans, check the following box.

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a registration statement pursuant to General Instruction I.D. or a post-effective amendment thereto that shall become effective upon filing with the Commission pursuant to Rule 462(e) under the Securities Act, check the following box.

If this form is a post-effective amendment to a registration statement filed pursuant to General Instruction I.D. filed to register additional securities or additional classes of securities pursuant to Rule 413(b) under the Securities Act, check the following box.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Proposed Maximum Aggregate Offering Price (1)(2)	Amount of Registration Fee
Preferred Stock (3)		
Common Stock, par value \$0.0001 per share (3)		
Warrants		
Units		
Total	\$ 6,000,000(3)	\$ 334.80(4)

- (1) Not applicable pursuant to Form S-3 General Instruction II.D. An indeterminate aggregate initial offering price or number of the securities of each identified class is being registered as may from time to time be issued at indeterminate prices, with an aggregate initial offering price not to exceed \$6,000,000. Separate consideration may or may not be received for securities that are issuable on exercise, conversion or exchange of other securities or that are issued in units or represented by depositary shares.
- (2) There are being registered hereunder such indeterminate number of shares of common stock and preferred stock, such indeterminate principal amount of such indeterminate number of warrants to purchase common stock and/or preferred stock, and such indeterminate number of units as may be sold by the registrant from time to time, which together shall have an aggregate initial offering price not to exceed \$6,000,000. Any securities registered hereunder may be sold separately or as units with the other securities registered hereunder. The proposed maximum offering price per unit will be determined, from time to time, by the registrant in connection with the issuance by the registrant of the securities registered hereunder.
- (3) Subject to footnote (2), there are also being registered hereunder an indeterminate number of shares of preferred stock or common stock that may be issued upon conversion of, or in exchange for, preferred stock registered hereunder or upon exercise of warrants registered hereunder, as the case may be.
- (4) Estimated solely for the purpose of calculating the registration fee for a primary offering pursuant to Rule 457(o) under the Securities Act of 1933. Pursuant to Rule 457(o) under the Securities Act of 1933 and General Instruction II.D. of Form S-3, which permits the registration fee to be calculated on the basis of the maximum offering price of all the securities listed for the primary offering, the table does not specify by each class information as to the amount to be registered or proposed maximum offering price per unit. \$159.03 of the registration fee was paid concurrently with the filing of the initial Registration Statement on Form S-3 on August 3, 2009. The balance of the registration fee was paid concurrently with the filing of Pre-Effective Amendment No. 1 to this Registration Statement on August 5, 2009.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities, and it is not soliciting an offer to buy these securities, in any state where the offer or sale is not permitted.

PRELIMINARY PROSPECTUS — SUBJECT TO COMPLETION, DATED August 21, 2009

\$6,000,000

India Globalization Capital, Inc.

Common Stock

Preferred Stock

Warrants

Units

From time to time, we may offer up to \$6,000,000 of any combination of the securities described in this prospectus, either individually or in units. We may also offer common stock upon conversion of preferred stock, or common stock or preferred stock upon the exercise of warrants. Such securities may be offered and sold by us in one or more offerings with a total aggregate principal amount or initial purchase price not to exceed \$6,000,000.

This prospectus provides a general description of these securities. We will provide specific information and the terms of the securities being offered in supplements to this prospectus. The supplements may also add, update or change information in this prospectus. Please read this prospectus and any prospectus supplements together with any documents incorporated by reference carefully before investing. This prospectus may not be used to sell securities unless accompanied by a prospectus supplement.

Our common stock is traded on the NYSE Amex under the symbol "IGC." On August 20, 2009, the last reported sale price for our common stock on the NYSE Amex was \$1.26 per share.

Our principal executive offices are located at 4336 Montgomery Ave, Bethesda, Maryland 20814, and our telephone number is (301) 983-0998.

We may offer these securities directly to investors, through underwriters, dealers or agents, on a continuous or delayed basis. See "Plan of Distribution." Each prospectus supplement will provide the terms of the plan of distribution relating to each series of securities.

Investing in our securities involves risks that you should consider and that are described in our most recent Annual Report on Form 10-K, and any subsequent Quarterly Report on Form 10-Q, which are incorporated by reference into this prospectus or any applicable prospectus supplement.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2009.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the “SEC”) using a “shelf” registration, or continuous offering, process. Under this shelf registration process, we may, from time to time, offer shares of our common stock, preferred stock, either separately or represented by depositary shares, or warrants to purchase any of such securities, either individually or in units, in one or more offerings, up to a total initial issuance amount of \$6,000,000.

This prospectus provides you with a general description of the securities we may offer. The specific terms of any securities to be offered will be described in a prospectus supplement. Any prospectus supplement and any related free writing prospectus that we may authorize to be provided to you may also add, update or change information contained in this prospectus. Any statement that we make in this prospectus will be modified or superseded by any inconsistent statement made by us in a prospectus supplement. The registration statement we filed with the SEC includes exhibits that provide more detail on descriptions of the matters discussed in this prospectus. You should read this prospectus and the related exhibits filed with the SEC and any prospectus supplement, together with additional information described under the heading “Where You Can Find More Information.”

Unless the context otherwise requires, references in this prospectus and the accompanying prospectus supplement to “we,” “us” and “our” refer to India Globalization Capital, Inc. and its subsidiaries.

EX-23.2: CONSENT OF YOGANANDH & RAM

You should rely only on the information incorporated by reference or provided in this prospectus, any prospectus supplement, the registration statement and any other free writing prospectus authorized by us to be provided to you. We have not authorized anyone else to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell these securities in any state where the offer or sale is not permitted. You should assume that the information in this prospectus and any prospectus supplement, or incorporated by reference, is accurate only as of the dates of those documents. Our business, financial condition, results of operations and prospects may have changed since those dates.

Table of Contents

INDIA GLOBALIZATION CAPITAL, INC.

Background of India Globalization Capital, Inc.
(IGC)

IGC, a Maryland corporation, was organized on April 29, 2005 as a blank check company formed for the purpose of acquiring one or more businesses with operations primarily in India through a merger, capital stock exchange, asset acquisition or other similar business combination or acquisition. On March 8, 2006, we completed an initial public offering. On February 19, 2007, we incorporated India Globalization Capital, Mauritius, Limited (IGC-M), a wholly owned subsidiary, under the laws of Mauritius. On March 7, 2008, we consummated the acquisition of 63% of the equity of Sricon Infrastructure Private Limited (Sricon) and 77% of the equity of Techni Bharathi Limited (TBL). The shares of the two Indian companies, Sricon and TBL, are held by IGC-M. On February 19, 2009 IGC-M beneficially purchased 100% of IGC Mining and Trading, Limited (IGC-IMT based in Chennai, India). IGC-IMT was formed on December 16, 2008 as a privately held start-up company engaged in the business of mining and trading. Its current activity is to operate a shipping hub and export iron ore to China. On July 4, 2009, IGC-M beneficially purchased 100% of IGC Materials, Private Limited (IGC-MPL based in Nagpur, India), which will conduct IGC's quarrying business, and 100% of IGC Logistics, Private Limited (IGC-LPL based in Nagpur, India), which will be involved in the transport and delivery of ore, cement, aggregate and other material. Each of IGC-IMT, IGC-MPL and IGC-LPL were formed by third parties at the behest of IGC-M to facilitate the creation of the subsidiaries, and the purchase price paid for each of IGC-IMT, IGC-MPL and IGC-LPL was equal to the expenses incurred in incorporating the respective entities with no premium paid. No officer or director of IGC had a financial interest in the subsidiaries at the time of their acquisition by IGC-M. India Globalization Capital, Inc. (the Registrant, the Company, or we) and its subsidiaries are significantly engaged in one segment, infrastructure construction.

IGC's organizational structure is as follows:

Most of the shares of Sricon and TBL acquired by IGC were purchased directly from the companies. IGC purchased a portion of the shares from the existing owners of the companies. The founders and management of Sricon own 37% of Sricon and the founders and management of TBL own 23% of TBL.

The acquisitions were accounted for under the purchase method of accounting. Under this method of accounting, for accounting and financial purposes, IGC-M, Limited was treated as the acquiring entity and Sricon and TBL as the acquired entities. The financial statements provided here and going forward are the consolidated statements of IGC, which include IGC-M, Sricon, TBL and their subsidiaries. However, historical description of our business for periods and dates prior to March 7, 2008 include information on Sricon and TBL.

Unless the context requires otherwise, all references in this report to the "Company", "IGC", "we", "our", and "us" refer to India Globalization Capital, Inc, together with its wholly owned subsidiary IGC-M, and its direct and indirect subsidiaries (Sricon, TBL, IGC-IMT, IGC-MPL and IGC-LPL).

Table of Contents

Overview

Sricon Infrastructure Private Limited (“Sricon”) was incorporated as a private limited company on March 3, 1997 in Nagpur, India. Sricon is an engineering and construction company that is engaged in three business areas: 1) civil construction of highways and other heavy construction, 2) mining and quarrying and 3) the construction and maintenance of high temperature cement and steel plants. Sricon’s present and past clients include various Indian government organizations. It has the prior experience to bid on contracts that are priced at a maximum of about \$116 million. As indicated in previous press releases and quarterly reports, in October 2008 lack of available credit drove Sricon to curtail much of its construction activity, as it was unable to provide Bank Guarantees for construction contracts, and to focus on long term recurring contracts such as maintenance of high temperature cement factories. This led to a sharp decline in overall revenue. Sricon took several steps to curtail its expenses including lay offs. Sricon also turned its attention to pursuing claims against the contracting agencies for delays it had suffered on some of its contracts. Due to arbitration requirements in our contract agreements, we expect our claims to be resolved in arbitration. Sricon claims losses from having to maintain equipment and personnel during the delay period, as well as opportunity costs. There can be no assurance that Sricon will be successful in its claims. While the cost associated with delays is accounted in the relevant period, any revenue from claims is not accounted until and unless they are paid.

Techni Bharathi Limited (“TBL”) was incorporated as a public (but not listed on the stock market) limited company on June 19, 1982 in Cochin, India. TBL is an engineering and construction company engaged in the execution of civil construction and structural engineering projects. TBL has a focus in the Indian states of Andhra Pradesh, Karnataka, Assam and Tamil Nadu. Its present and past clients include various Indian government organizations. The overall lack of liquidity led TBL to curtail its construction contracts and cut its costs through layoffs. TBL is re-focused on smaller construction contracts and the settlement of claims.

IGC-Mauritius (IGC-M), through its wholly owned subsidiaries (IGC India Mining and Trading (IGC-IMT), IGC Materials, Private Limited (IGC-MPL) and IGC Logistics, Private Limited (IGC-LPL) in India, is also involved in the building of rock quarries, the export of iron ore and the transport of materials. IGC-M operates a shipping hub in the Krishnapatnam port on the west coast of India. We aggregate ore from smaller mines before shipping to China. We are also engaged in the production of rock aggregate and the development of rock quarries. Rock aggregate is used in the construction of roads, railways, dams, and other infrastructure development. We are in the process of developing several quarries through partnerships with landowners. Iron ore is rock and minerals from which metallic iron can be extracted. The primary form used in industry today is hematite and is often the principle raw material used to make “pig iron” , a material critical to the production of industrial steel.

Core Business Areas

Our core business areas include the following:

Highway and heavy construction:

The Indian government has articulated a plan to build and modernize Indian infrastructure. The government’s plan, calls for spending over \$475 billion over the next five years for the expansion and construction of rural roads, major highways, airports, seaports, freight corridors, railroads and townships. We build roads, highways, bridges and other heavy construction build outs.

Mining and Quarrying

As Indian infrastructure modernizes, the demand for raw materials like stone aggregate, coal, ore and similar resources is projected to increase. In 2006, according to the Freedonia Group, India was the fourth largest stone aggregate market in the world with demand of up to 1.1 billion metric tons. Our primary goal is to build as many as ten rock quarries, operate them and sell rock aggregate to the infrastructure industry. We are teaming with landowners to build and operate rock quarries. In addition we have licenses for the operation of rock aggregate quarries. Our mining and trading activity centers on the export of Iron ore to China. India is the fourth largest producer of ore, exporting about 100 million tons of iron ore annually to Chinese interests around the world.

Construction and maintenance of high temperature plants

We have an expertise in the civil engineering, construction and maintenance of high temperature plants. This requires specialized skills to build and maintain high temperature chimneys and kilns.

Customers

We are qualified in all states in India and we have worked in several, including Maharashtra, Gujarat, Orissa and Madhya Pradesh. The National Highway Authority of India (NHAI) awards interstate highway contracts on a national level, while intra-state contracts are awarded by state agencies. The National Thermal Power Corporation (NTPC) awards contracts for civil work associated with power plants. The National Coal Limited (NCL) awards large mining contracts. Our customers include, or have included, NHAI, NTPC, and various state public works departments. Sricon is registered across India and is qualified to bid on contracts anywhere in India. For the export of iron ore from India, we are developing steel factories in China as customers.

Table of Contents

Contract bidding process

In order to create transparency, the Indian government has centralized the contract awarding process for building inter-state roads. The new process is as follows: At the “federal” level, as an example, NHAI publishes a Statement of Work for an interstate highway construction project. The Statement of Work has a detailed description of the work to be performed as well as the completion time frame. The bidder prepares two proposals in response to the Statement of Work. The first proposal demonstrates technical capabilities, prior work experience, specialized machinery, and manpower required, and other criteria required to complete the project. The second proposal includes a financial bid. NHAI evaluates the technical bids and short lists technically qualified companies. Next, the short list of technically qualified companies are invited to place a detailed financial bid and show adequate financial strength in terms of revenue, net worth, credit lines, and balance sheets. Typically, the lowest bid wins the contract. Also, contract bidders must demonstrate an adequate level of capital reserves such as the following: 1) An earnest money deposit between 2% to 10% of project costs, 2) performance guarantee of between 5% and 10%, 3) adequate working capital and 4) additional capital for plant and machinery. Bidding qualifications for larger NHAI projects are set by NHAI which are imposed on each contractor. As the contractor executes larger highway projects, the ceiling is increased by NHAI.

Our Growth Strategy and Business Model

Our business model for the construction business is simple. We bid on construction, over burden removal at mining sites and or maintenance contracts. Successful bids increase our backlog of orders, which favorably impacts our revenues and margins. The contracting process typically takes approximately four months. Over the years, we have been successful in winning one out of every seven bids on average. We currently have one bid team. In the next year we will focus on the following: 1) build out between two and five rock quarries, begin production and obtain long term contracts for the sale of rock aggregate, 2) leverage our shipping hub, develop a second shipping hub, develop customers for the delivery and sale of iron ore, 3) execute and expand recurring contracts for infrastructure build out, 4) aggressively pursue the collection of accounts receivables and delay claims.

Competition

We operate in an industry that is fairly competitive. However, there is a large gap in the supply of well qualified and financed contractors and the demand for contractors. Large domestic and international firms compete for jumbo contracts over \$250 million in size, while locally based contractors vie for contracts less than \$5 million. The recent capital markets crisis has made it more difficult for smaller companies to mature into mid-sized companies, as their access to capital has been restrained. Therefore, we would like to be positioned in the \$5 million to \$50 million contract range, above locally based contractors and below the large firms, creating a distinct technical and financial advantage in this market niche. Rock aggregate is supplied to the industry through small crushing units, which supply low quality material. Frequently, high quality rock aggregate is unavailable, or is transported over large distances. We fill this gap by providing high quality material in large quantities. We compete on price, quantity and quality. Iron ore is produced in India and exported to China. While this is a fairly established industry, we compete by aggregating ore from smaller suppliers who do not have access to customers in China. Further, at our second shipping hub we expect to install a crusher that can grind ore pebbles into dust, again providing a value added service to the smaller mine owners.

Market Size

The Indian government estimates that it will require \$475 billion over the next four to five years to address India’s infrastructure needs. According to Freedonia Group, in 2006, India was the fourth largest stone aggregate market in the world with demand of up to 1.1 billion metric tons. With the infrastructure industry expected to grow rapidly, the

demand for aggregate is expected to increase over the next five years. According to the New York Times iron ore ranks among the most important commodities in the world, the main ingredient in steel that goes into construction, bridges and ships. China imports about half the world's supply of ore. In 2008 the market totaled between \$75 billion and \$80 billion.

Seasonality

The construction industry (road building) typically experiences recurring and natural seasonal patterns throughout India. The North East Monsoons, historically, arrive on June 1, followed by the South West Monsoons, which usually lasts intermittently until September. Historically, the monsoon months are slower than the other months because of the rains. Activity such as engineering, maintenance of high temperature plants, and export of iron ore are less susceptible to the rains. The reduced paced in construction activity has historically been used to bid and win contracts. The contract bidding activity is typically very high during the monsoon season in preparation for work activity when the rains abate. During the monsoon season the rock quarries operate to build up and distribute reserves to the various construction sites.

Table of Contents

Employees and Consultants

As of March 31, 2009, we employed a work force of approximately 400 employees and contract workers worldwide. Employees are typically skilled workers including executives, welders, drivers, and other specialized experts. Contract workers require less specialized skills. We make diligent efforts to comply with all employment and labor regulations, including immigration laws in the many jurisdictions in which we operate. In order to attract and retain skilled employees, we have implemented a performance based incentive program, offered career development programs, improved working conditions, and provided United States work assignments, technology training, and other fringe benefits. We are hoping that our efforts will make our companies more attractive. While we have not done so yet, we are exploring adopting best practices for creating and providing vastly improved labor camps for our labor force. We are hoping that our efforts will make our companies “employers of choice” and best of breed. As of March 31, 2009 our Executive Chairman and Chief Executive Officer is Ram Mukunda and our Chairman is Ranga Krishna. Our Managing Director for Construction is Ravindra Lal Srivastava, our Managing Director for Materials, Mining and Trading is P. M. Shivaraman. Our Treasurer and Principal Accounting officer is John Selvaraj. Our General Manager of Accounting based in India is Santhosh Kumar. We also utilize the services of several consultants who provide USGAAP systems expertise and SOX expertise, among others.

Environmental Regulations

India has very strict environmental, occupational, health and safety regulations. In most instances, the contracting agency regulates and enforces all regulatory requirements. We internally monitor and manage regulatory issues on a continuous basis, and we believe that we are in compliance in all material respects with the regulatory requirements of the jurisdictions in which we operate. Furthermore, we do not believe that compliance will have a material adverse effect on our business activities.

Information and timely reporting

Our operations are located in India where the accepted accounting standards is Indian GAAP, which in many cases, is not congruent to USGAAP. Indian accounting standards are evolving towards adopting IFRS (International Financial Reporting Standards). We annually conduct PCAOB (USGAAP) audits for the company. We acknowledge that the process of quarterly reporting and annual audits are at times cumbersome and places significant constraints on our existing staff. We believe we are still 12 to 18 months away from having processes in place to meet the reporting timetables set out by the U.S. reporting requirements. Until then we expect to file, from time to time, automatic extensions to meet the reporting timetables. We will make available on our website, www.indiaglobalcap.com, our annual reports, quarterly reports, proxy statements as well as up to- date investor presentations. Our SEC filings are also available at www.sec.gov.

THE SECURITIES WE MAY OFFER

We may offer shares of our common stock, preferred stock, or warrants to purchase any of such securities, either individually or in units, with a total value of up to \$6,000,000 from time to time under this prospectus at prices and on terms to be determined by market conditions at the time of any offering. This prospectus provides you with a general description of the securities we may offer. Each time we offer a type or series of securities under this prospectus, we will provide a prospectus supplement that will describe the specific amounts, prices and other important terms of the securities, including, to the extent applicable:

- Designation or classification;
- Aggregate principal amount or aggregate offering price;

- Maturity, if applicable;
- Original issue discount, if any;
- Rates and times of payment of interest or dividends, if any;
- Redemption, conversion, exercise, exchange or sinking fund terms, if any;
- Ranking;
- Restrictive covenants, if any;
- Voting or other rights, if any;
- Conversion prices, if any; and
- Material U.S. federal income tax considerations.

Table of Contents

The prospectus supplement and any related free writing prospectus that we may authorize to be provided to you may also add, update or change information contained in this prospectus or in documents we have incorporated by reference. However, no prospectus supplement or free writing prospectus will offer a security that is not registered and described in this prospectus at the time of the effectiveness of the registration statement of which this prospectus is a part.

RISK FACTORS

An investment in our securities involves a high degree of risk. Prior to making a decision about investing in our securities, you should carefully consider the specific risk factors discussed in the sections entitled “Risk Factors” contained in any applicable prospectus supplement and our filings with the SEC and incorporated by reference in this prospectus, together with all of the other information contained in this prospectus, or any applicable prospectus supplement. If any of the risks or uncertainties described in our SEC filings or any prospectus supplement or any additional risks and uncertainties actually occur, our business, financial condition and results of operations could be materially and adversely affected. In that case, the trading price of our securities could decline and you might lose all or part of the value of your investment.

INCORPORATION BY REFERENCE

The following documents filed with the SEC by India Globalization Capital, Inc. (the “Company”) pursuant to the Securities Act of 1933, as amended (the “Securities Act:”) and the Securities Exchange Act of 1934, as amended (the “Exchange Act”), are hereby incorporated by reference in this registration statement:

Our Annual Report on Form 10-K for the fiscal year ended March 31, 2009

Our Quarterly Report on Form 10-Q for the quarter ended June 30, 2009

The description of our common stock contained in our Registration Statement on Form 8-A filed pursuant to Section 12 of the Exchange Act on March 7, 2006.

All documents filed by the Company pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this registration statement and prior to the filing of a post-effective amendment to the registration statement of which this prospectus forms a part indicating that all securities offered have been sold or which deregisters all securities then remaining unsold, shall be deemed to be incorporated by reference into this prospectus and to be a part hereof from the date of filing of such documents.

Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus.

Copies of the above documents (other than exhibits to such documents) may be obtained upon request without charge upon writing to India Globalization Capital, Inc., Attn: Corporate Secretary, 4336 Montgomery Ave, Bethesda, Maryland 20814.

WHERE YOU CAN FIND MORE INFORMATION

Edgar Filing: India Globalization Capital, Inc. - Form S-3/A

We are a reporting company and file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission, or SEC. In addition, we have filed with the SEC a Registration Statement on Form S-3, of which this prospectus is a part, under the Securities Act with respect to the securities offered hereby. This prospectus does not contain all of the information set forth in the registration statement or the exhibits which are a part of the registration statement. You may read and copy the registration statement and any document we file with the SEC at the public reference room maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330. Our filings with the SEC are also available to the public through the SEC's Internet site at <http://www.sec.gov>.

Table of Contents

SPECIAL NOTE ABOUT FORWARD-LOOKING STATEMENTS

Some of the statements in this prospectus, the documents incorporated by reference into this prospectus and in any prospectus supplement may be deemed “forward-looking statements” within the meaning of Section 21E of the Exchange Act, and Section 27A of the Securities Act. All statements, other than statements of historical fact, that address activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future are forward-looking statements. Such statements are based upon certain assumptions and assessments made by us in light of our experience and our perception of historical trends, current conditions and expected future developments. Actual results and the timing of events may differ significantly from those projected in such forward-looking statements due to a number of factors, including those set forth in the sections entitled “Risk Factors” in our most recent Annual Report on Form 10-K and any subsequent Quarterly Report on Form 10-Q, which are incorporated by reference into this prospectus.

USE OF PROCEEDS

Unless otherwise specified in the applicable prospectus supplement, we intend to use the net proceeds from the sale of the securities in the prospectus and any prospectus supplement for general corporate purposes, which could include:

- Repayment of indebtedness;
