Applied DNA Sciences, Inc.
(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	59-2262718 (I.R.S. Employer Identification No.)
25 Health Sciences Drive, Suite 215 Stony Brook, New York (Address of principal executive offices)	11790 (Zip Code)

631-444-8090
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

x Yes o No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

o Yes o No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of “large accelerated filer”, “accelerated filer”, and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer o	Accelerated filer o
Non-accelerated filer o (Do not check if a smaller reporting company)	Smaller reporting company x

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
o Yes x No

As of August 10, 2011, the registrant had 472,786,160 shares of common stock outstanding.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(unaudited)

NOTE A — SUMMARY OF ACCOUNTING POLICIES

General

The accompanying unaudited condensed consolidated financial statements as of June 30, 2011 and for the three and nine months ended June 30, 2011 and 2010 are unaudited. These financial statements have been prepared in accordance with Rule S-X of the Securities and Exchange Commission (the "SEC") and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine month period ended June 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2011. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated September 30, 2010 financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K, as amended, filed with the Securities and Exchange Commission (the "SEC").

Business and Basis of Presentation

On September 16, 2002, Applied DNA Sciences, Inc. (the "Company") was incorporated under the laws of the State of Nevada. Effective December 17, 2008, the Company reincorporated from the State of Nevada to the State of Delaware. The Company is principally devoted to developing DNA embedded biotechnology security solutions in the United States and Europe.

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Applied DNA Operations Management, Inc., APDN (B.V.I.) Inc. and Applied DNA Sciences Europe Limited. Significant inter-company transactions have been eliminated in consolidation.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Revenue Recognition

Revenues are derived from research, development, qualification and production testing for certain commercial products. Revenue from fixed price testing contracts is generally recorded upon completion of the contracts, which are generally short-term, or upon completion of identifiable contractual tasks. At the time the Company enters into a contract that includes multiple tasks, the Company estimates the amount of actual labor and other costs that will be required to complete each task based on historical experience. Revenues are recognized which provide for a profit margin relative to the testing performed. Revenue relative to each task and from contracts which are time and materials based is recorded as effort is expended. Billings in excess of amounts earned are deferred. Any anticipated losses on contracts are charged to income when identified. To the extent management does not accurately forecast the level of effort required to complete a contract, or individual tasks within a contract, and the Company is unable to negotiate additional billings with a customer for cost over-runs, the Company may incur losses on individual contracts. All selling, general and administrative costs are treated as period costs and expensed as incurred.

APPLIED DNA SCIENCES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(unaudited)

NOTE A — SUMMARY OF ACCOUNTING POLICIES (continued)

For revenue from product sales, the Company recognizes revenue in accordance with Accounting Standards Codification subtopic 605-10, Revenue Recognition ("ASC 605-10"). ASC 605-10 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for allowances and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required. At June 30, 2011 and September 30, 2010, the Company did not record any deferred revenue for the respective periods.

Cash Equivalents

For the purpose of the accompanying unaudited condensed consolidated financial statements, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents.

Accounts Receivable

The Company provides an allowance for doubtful accounts equal to the estimated uncollectible amounts. The Company's estimate is based on historical collection experience and a review of the current status of trade accounts receivable. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change. At June 30, 2011 and September 30, 2010, the Company has deemed that no allowance for doubtful accounts was necessary.

Income Taxes

The Company has adopted Accounting Standards Codification subtopic 740-10, Income Taxes ("ASC 740-10") which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

Property and Equipment

Property and equipment are stated at cost and depreciated over their estimated useful lives of 3 to 5 years using the straight line method. At June 30, 2011 and September 30, 2010, property and equipment consist of:

	(Unaudited) June 30, 2011	September 30, 2010
Computer equipment	$ 27,404	$ 27,404

Lab equipment	77,473	77,473
Furniture	105,985	105,985
	210,862	210,862
Accumulated depreciation	210,862	207,097
Net	$ -	$ 3,765

(unaudited)

NOTE A — SUMMARY OF ACCOUNTING POLICIES (continued)

Impairment of Long-Lived Assets

The Company has adopted Accounting Standards Codification subtopic 360-10, Property, Plant and Equipment (“ASC 360-10”). ASC 360-10 requires that long-lived assets and certain identifiable intangibles held and used by the Company be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates its long lived assets for impairment annually or more often if events and circumstances warrant. Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses, or a forecasted inability to achieve break-even operating results over an extended period. The Company evaluates the recoverability of long-lived assets based upon forecasted undiscounted cash flows. Should impairment in value be indicated, the carrying value of intangible assets will be adjusted, based on estimates of future discounted cash flows resulting from the use and ultimate disposition of the asset. ASC 360-10 also requires assets to be disposed of be reported at the lower of the carrying amount or the fair value less costs to sell.

Net Loss Per Share

The Company has adopted Accounting Standards Codification subtopic 260-10, Earnings Per Share (“ASC 260-10”) which specifies the computation, presentation and disclosure requirements of earnings per share information. Basic earnings per share have been calculated based upon the weighted average number of common shares outstanding. Dilutive common stock equivalents consist of shares issuable upon conversion of convertible notes and the exercise of the Company’s stock options and warrants. For the three and nine months ended June 30, 2011 and 2010, common stock equivalent shares are excluded from the computation of the diluted loss per share as their effect would be anti-dilutive.

Fully diluted shares outstanding were 496,504,218 and 495,370,910 for the three month and nine months ended June 30, 2011, respectively. Fully diluted shares outstanding were 371,785,665 and 362,372,128 for the three and nine months ended June 30, 2010, respectively.

Stock Based Compensation

The Company follows Accounting Standards Codification subtopic 718-10, Compensation (“ASC 718-10”) which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Stock-based compensation expense recognized under ASC 718-10 for the nine months ended June 30, 2011 and 2010 was $459,967 and $587,235, respectively.

As of June 30, 2011, 70,400,000 employee stock options were outstanding with 42,550,000 shares vested and exercisable.

Concentrations

Financial instruments and related items, which potentially subject the Company to concentrations of credit risk, consist primarily of cash, cash equivalents and trade receivables. The Company places its cash and temporary cash investments with high credit quality institutions. At times, such investments may be in excess of the FDIC insurance limit.

The Company’s revenues earned from sale of products and services for the three and nine months ended June 30, 2011 included an aggregate of 65% and 56% from four and three customers of the Company’s total revenues, respectively. Five and three customers accounted for 90% and 65% of the Company’s revenues earned from sale of products and services for the three and nine months ended June 30, 2010, respectively.

Four customers accounted for 69% and 90% of the Company’s total accounts receivable at June 30, 2011 and September 30, 2010, respectively.

APPLIED DNA SCIENCES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(unaudited)

NOTE A — SUMMARY OF ACCOUNTING POLICIES (continued)

Research and Development

The Company accounts for research and development costs in accordance with the Accounting Standards Codification subtopic 730-10, Research and Development (“ASC 730-10”). Under ASC 730-10, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and development costs are expensed when the contracted work has been performed or as milestone results have been achieved. Company-sponsored research and development costs related to both present and future products are expensed in the period incurred. The Company incurred research and development expenses of $47,988 and $18,142 for the three month periods ended June 30, 2011 and 2010, respectively, and $161,645 and $44,944 for the nine month periods ended June 30, 2011 and 2010, respectively.

Advertising

The Company follows the policy of charging the costs of advertising to expense as incurred. The Company charged to operations $45,346 and $95,828 for the three and nine month periods ended June 30, 2011, respectively, and $12,225 and $37,680 as advertising costs for the three and nine month periods ended June 30, 2010, respectively.

Intangible Assets

The Company amortizes its intangible assets using the straight-line method over their estimated period of benefit. The estimated useful life for patents is five years while other intellectual property uses a seven year useful life. We periodically evaluate the recoverability of intangible assets and take into account events or circumstances that warrant revised estimates of useful lives or that indicate that impairment exists. All of our intangible assets are subject to amortization.

Fair Value of Financial Instruments

In the first quarter of fiscal year 2008, the Company adopted Accounting Standards Codification subtopic 820-10, Fair Value Measurements and Disclosures (“ASC 820-10”). ASC 820-10 defines fair value, establishes a framework for measuring fair value, and enhances fair value measurement disclosure. ASC 820-10 delayed, until the first quarter of fiscal year 2009, the effective date for ASC 820-10 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The adoption of ASC 820-10 did not have a material impact on the Company’s financial position or operations. Refer to Note I for further discussion regarding fair valuation.

Effective October 1, 2008, the Company adopted Accounting Standards Codification subtopic 820-10, Fair Value Measurements and Disclosures (“ASC 820-10”) and Accounting Standards Codification subtopic 825-10, Financial Instruments (“ASC 825-10”), which permits entities to choose to measure many financial instruments and certain other items at fair value. Neither of these statements had an impact on the Company’s consolidated financial position, results of operations or cash flows. The carrying value of cash and cash equivalents, accounts payable and short-term borrowings, as reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments.

Recent Accounting Pronouncements

There were various updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

APPLIED DNA SCIENCES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(unaudited)

NOTE B - INTANGIBLE ASSETS

Intangible assets acquired and their carrying values at June 30, 2011 and September 30, 2010 are as follows:

	(Unaudited) June 30, 2011	September 30, 2010
Trade secrets and developed technologies (Weighted average life of 7 years)	$ 9,430,900	$ 9,430,900
Patents (Weighted average life of 5 years)	34,257	34,257
Total Amortized identifiable intangible assets-Gross carrying value:	9,465,157	9,465,157
Less:		
Accumulated amortization	(3,446,355)	(3,173,511)
Impairment (See below)	(5,655,011)	(5,655,011)
Net:	$ 363,791	$ 636,635
Residual value:	$ 0	$ 0

During the year ended September 30, 2006, the Company's management performed an evaluation of its intangible assets (intellectual property) for purposes of determining the implied fair value of the assets at September 30, 2006. The test indicated that the recorded remaining book value of its intellectual property exceeded its fair value for the year ended September 30, 2006, as determined by discounted future cash flows. As a result, upon completion of the assessment, management recorded a non-cash impairment charge of $5,655,011, net of tax, or $0.05 per share during the year ended September 30, 2006 to reduce the carrying value of the patents to $2,091,800. Considerable management judgment is necessary to estimate the fair value. Accordingly, actual results could vary significantly from management's estimates.

Total amortization expense charged to operations for the three and nine months ended June 30, 2011 was $90,948 and $272,844, respectively. Total amortization expense charged to operations for the three and nine months ended June 30, 2010 was $90,948 and $272,988, respectively.

NOTE C – ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities at June 30, 2011 and September 30, 2010 are as follows:

	(Unaudited) June 30, 2011	September 30, 2010
Accounts payable	$ 669,874	$ 721,340
Accrued consulting fees	102,500	102,500
Accrued interest payable	323,089	88,937

Accrued salaries payable	220,908	54,773

Long-term debt- net	$ -	$ 219,714

10% Secured Convertible Promissory Notes dated October 14, 2009

On October 14, 2009, the Company issued an aggregate of $270,000 convertible promissory notes due October 14, 2010 with interest at 10% per annum due upon maturity. The notes are convertible at any time prior to maturity, at the holders' option, into shares of our common stock at a price equal to the greater of (i) 50% of the average price of our common stock for the ten trading days prior to the date of the notice of conversion or (ii) at $0.092674218 per share, which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance. At maturity, the notes, including any accrued and unpaid interest, are automatically convertible at $0.092674218 per share. The Company has granted the noteholders a security interest in all the Company's assets.

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the notes. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The Company recognized and measured an aggregate of $21,343 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the notes. The debt discount attributed to the beneficial conversion feature is amortized over the notes' maturity period (one year) as interest expense.

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($21,343) to debt discount which will be amortized to interest expense over the term of the notes. The Company recorded the intrinsic value of the embedded beneficial conversion feature ($21,343) to debt discount which will be amortized to interest expense over the term of the notes. Amortization of $819 was recorded for the three and nine months ended June 30, 2011, and $5,321 and $15,145 was recorded for the three and nine month periods ended June 30, 2010, respectively.

(unaudited)

NOTE D – CONVERTIBLE NOTES (continued)

On October 14, 2010, the Company issued 3,204,776 shares of common stock in settlement of the convertible notes and related interest.

10% Secured Convertible Promissory Note dated January 7, 2010

On January 7, 2010, the Company issued a $50,000 convertible promissory note due January 7, 2011 with interest at 10% per annum due upon maturity. The note is convertible at any time prior to maturity, at the holder's option, into shares of our common stock at a price equal to the greater of (i) 50% of the average price of our common stock for the ten trading days prior to the date of the notice of conversion or (ii) at $0.052877384 per share, which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance. At maturity, the note, including any accrued and unpaid interest, is automatically convertible at $0.052877384 per share. The Company has granted the noteholder a security interest in all the Company's assets.

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the note. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital.

The Company recognized and measured an aggregate of $35,103 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the note. The debt discount attributed to the beneficial conversion feature is amortized over the note's maturity period (one year) as interest expense.

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($35,103) to debt discount which will be amortized to interest expense over the term of the note. Amortization of $-0- and $9,521 was recorded for the three and nine months ended June 30, 2011, respectively, and $8,752 and $16,734 was recorded for the three and nine month periods ended June 30, 2010, respectively.

On January 7, 2011, the Company issued 1,040,142 shares of common stock in settlement of the convertible note and related interest.

10% Secured Convertible Promissory Note dated June 4, 2010

On June 4, 2010, the Company issued a $675,000 related party convertible promissory note due January 31, 2012 with interest at 10% per annum due upon maturity. The note is convertible at any time prior to maturity, at the holder's option, into shares of our common stock at a price equal to the greater of (i) 50% of the average price of our common stock for the ten trading days prior to the date of the notice of conversion or (ii) at $0.038866151 per share, which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance. At maturity, the note, including any accrued and unpaid interest, is automatically convertible at $0.038866151 per share. The Company has granted the noteholder a security interest in all the Company's assets.

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the note. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The Company recognized and measured an aggregate of $19,692 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the note. The debt discount attributed to the beneficial conversion feature is amortized over the note’s maturity period as interest expense.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(unaudited)

NOTE D – CONVERTIBLE NOTES (continued)

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($19,692) to debt discount which will be amortized to interest expense over the term of the note. Amortization of $986 and $2,957 was recorded for the three and nine months ended June 30, 2011, respectively.

On July 15, 2010, $450,000 of the $675,000 related party convertible promissory note was converted to the same terms and conditions as described in the 10% Secured Convertible Promissory Notes dated July 15, 2010 below.

10% Senior Secured Convertible Promissory Notes dated July 15, 2010

On July 15, 2010, the Company issued an aggregate of $2,000,000 senior secured convertible promissory notes due July 15, 2011 with interest at 10% per annum due upon maturity to "accredited investors," as defined in regulations promulgated under the Securities Act of 1933, as amended ("Securities Act"). The notes are convertible at any time prior to maturity, at the holders' option, into shares of our common stock (i) prior to the occurrence of Subsequent Financing at a rate of $0.04405, or (ii) after Subsequent Financing in the event the holder elects to receive conversion shares that are not Subsequent Financing securities, at a rate of $0.04405, or as of any conversion date that occurs after the closing of a Subsequent Financing at a rate of 80% of the purchase price paid by investors in the Subsequent Financing. The notes automatically convert at the earlier occurrence of (i) maturity or (ii) Qualified Financing including any accrued and unpaid interest, at a rate as described above. The Company has granted the noteholders a security interest in all the Company's assets and the assets of APDN (B.V.I.) Inc., the Company's wholly-owned subsidiary.

Subsequent Financing is defined as the issuance and sale by the Company securities that does not qualify as Qualified Financing. Qualified Financing is defined as the issuance and sale by the Company or an affiliate thereof of equity or debt securities in a single transaction that results in gross proceeds of (before transaction fees and expenses) equal to or in excess of $10,000,000.

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the notes. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The Company recognized and measured an aggregate of $678,774 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the notes. The debt discount attributed to the beneficial conversion feature is amortized over the notes' maturity period (one year) as interest expense.

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($678,774) to debt discount which will be amortized to interest expense over the term of the notes.

On January 7, 2011, upon the completion of a Subsequent Financing, the above described conversion rate changed from $0.04405 to $0.37104 with an extended due date from July 15, 2011 to January 7, 2012 on $1,550,000 of the $2,000,000 issued senior convertible promissory notes. All other terms are remaining the same. Although the conversion rate of the remaining $450,000 senior secured convertible promissory notes remained the same, the due date was extended also to January 7, 2012. In conjunction with the conversion rate and term modifications of the $1,550,000 senior secured convertible promissory notes, the Company wrote off the remaining unamortized debt discount of $331,332 to operations. See below discussion of the restructured senior secured convertible promissory notes.

NOTE D – CONVERTIBLE NOTES (continued)

10% Senior Secured Convertible Promissory Notes dated November 19, 2010

On November 19, 2010, the Company issued an aggregate of $350,000 in principal amount of senior secured convertible notes bearing interest at a rate of 10% per annum to “accredited investors,” as defined in regulations promulgated under the Securities Act. The notes are convertible, in whole or in part, at any time, at the option of the noteholders, into either (A) such number of shares of the Company’s common stock, $0.001 par value per share, determined by dividing (i) the principal amount of each note, together with any and all accrued and unpaid interest and penalties, by (ii) a conversion price of $ 0.032825817, which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance (the “Common Conversion Price”) or (B) securities issued in any Subsequent Financing (“Subsequent Securities”) at a conversion price equal to 80% of the price per Subsequent Security paid by investors for Subsequent Securities in a Subsequent Financing (the “Subsequent Financing Price”). A “Subsequent Financing” is the sale by the Company or an affiliate thereof of securities at any time after November 19, 2010 and prior to the earlier of (i) a Qualified Financing or (ii) November 19, 2011. A noteholder may convert its notes in whole in connection with any one Subsequent Financing or in part in connection with one or more Subsequent Financings. The notes shall be automatically converted upon the earlier of (I) November 19, 2011 and (II) the completion of a Qualified Financing at the election of each noteholder into either (A) shares of common stock at the Common Conversion Price, (B) Subsequent Securities at a conversion price equal to 80% of the Subsequent Financing Price, or (C) securities issued in a Qualified Financing (the “Qualified Financing Securities”) at a conversion price equal to 80% of the price per Qualified Financing Security paid by investors for the Qualified Financing Securities in the Qualified Financing.

A “Qualified Financing” is the sale by the Company or an affiliate thereof of securities resulting in gross proceeds (before transaction fees and expenses) in a single transaction equal to or in excess of $10 million. The notes bear interest at the rate of 10% per annum and are due and payable in full on November 19, 2011.

Until the principal and accrued but unpaid interest under the notes are paid in full, or converted into Conversion Shares pursuant to their terms, the Company’s obligations under the notes will be secured by a lien on all assets of the Company and the assets of APDN (B.V.I.) Inc., the Company’s wholly-owned subsidiary.

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the notes. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The Company recognized and measured an aggregate of $76,494 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the notes. The debt discount attributed to the beneficial conversion feature is amortized over the notes’ maturity period (one year) as interest expense.

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($76,494) to debt discount which will be amortized to interest expense over the term of the notes. Amortization of $19,071 and $46,734 was recorded for the three and nine month periods ended June 30, 2011, respectively.

10% Senior Secured Convertible Promissory Note dated November 30, 2010

On November 30, 2010, the Company issued a $750,000 principal amount senior secured convertible note bearing interest at a rate of 10% per annum to an "accredited investor," as defined in regulations promulgated under the Securities Act. The note is convertible, in whole or in part, at any time, at the option of the noteholder, into either (A) such number of shares of the Company's common stock, $0.001 par value per share, determined by dividing (i) the principal amount of each note, together with any and all accrued and unpaid interest and penalties, by (ii) a conversion price of $ 0.03088, which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance (the "Common Conversion Price") or (B) securities issued in any Subsequent Financing ("Subsequent Securities") at a conversion price equal to 80% of the price per Subsequent Security paid by investors for Subsequent Securities in a Subsequent Financing (the "Subsequent Financing Price"). A "Subsequent Financing" is the sale by the Company or an affiliate thereof of securities at any time after November 30, 2010 and prior to the earlier of (i) a Qualified Financing or (ii) November 30, 2011. The noteholder may convert its note in whole in connection with any one Subsequent Financing or in part in connection with one or more Subsequent Financings. The note shall be automatically converted upon the earlier of (I) November 30, 2011 and (II) the completion of a Qualified Financing at the election of the noteholder into either (A) shares of common stock at the Common Conversion Price, (B) Subsequent Securities at a conversion price equal to 80% of the Subsequent Financing Price, or (C) securities issued in a Qualified Financing (the "Qualified Financing Securities") at a conversion price equal to 80% of the price per Qualified Financing Security paid by investors for the Qualified Financing Securities in the Qualified Financing.

NOTE D – CONVERTIBLE NOTES (continued)

A "Qualified Financing" is the sale by the Company or an affiliate thereof of securities resulting in gross proceeds (before transaction fees and expenses) in a single transaction equal to or in excess of $10 million. The note bears interest at the rate of 10% per annum and is due and payable in full on November 30, 2011.

Until the principal and accrued but unpaid interest under the note is paid in full, or converted into Conversion Shares pursuant to its terms, the Company's obligations under the note will be secured by a lien on all assets of the Company and the assets of APDN (B.V.I.) Inc., the Company's wholly-owned subsidiary.

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the note. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The Company recognized and measured an aggregate of $270,078 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the note. The debt discount attributed to the beneficial conversion feature is amortized over the note's maturity period (one year) as interest expense.

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($270,078) to debt discount which will be amortized to interest expense over the term of the note. Amortization of $67,334 and $156,867 was recorded for the three and nine month periods ended June 30, 2011, respectively.

10% Senior Secured Convertible Promissory Note dated January 7, 2011

On January 7, 2011, the Company issued a $750,000 principal amount senior secured convertible note bearing interest at a rate of 10% per annum to an "accredited investor," as defined in regulations promulgated under the Securities Act. The note is convertible, in whole or in part, at any time, at the option of the noteholder, into either (A) such number of shares of the Company's common stock, $0.001 par value per share, determined by dividing (i) the principal amount of each note, together with any and all accrued and unpaid interest and penalties, by (ii) a conversion price of $ 0.05529, which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance (the "Common Conversion Price") or (B) securities issued in any Subsequent Financing ("Subsequent Securities") at a conversion price equal to 80% of the price per Subsequent Security paid by investors for Subsequent Securities in a Subsequent Financing (the "Subsequent Financing Price"). A "Subsequent Financing" is the sale by the Company or an affiliate thereof of securities at any time after January 7, 2011 and prior to the earlier of (i) a Qualified Financing or (ii) January 7, 2012. The noteholder may convert its note in whole in connection with any one Subsequent Financing or in part in connection with one or more Subsequent Financings. The note shall be automatically converted upon the earlier of (I) January 7, 2012 and (II) the completion of a Qualified Financing at the election of the noteholder into either (A) shares of common stock at the Common Conversion Price, (B) Subsequent Securities at a conversion price equal to 80% of the Subsequent Financing Price, or (C) securities issued in a Qualified Financing (the "Qualified Financing Securities") at a conversion price equal to 80% of the price per Qualified Financing Security paid by investors for the Qualified Financing Securities in the Qualified Financing.

A "Qualified Financing" is the sale by the Company or an affiliate thereof of securities resulting in gross proceeds (before transaction fees and expenses) in a single transaction equal to or in excess of $10 million. The note bears interest at the rate of 10% per annum and is due and payable in full on January 7, 2012.

Until the principal and accrued but unpaid interest under the note is paid in full, or converted into Conversion Shares pursuant to its terms, the Company's obligations under the note will be secured by a lien on all assets of the Company and the assets of APDN (B.V.I.) Inc., the Company's wholly-owned subsidiary.

NOTE D – CONVERTIBLE NOTES (continued)

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the note. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The Company recognized and measured an aggregate of $240,233 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the note. The debt discount attributed to the beneficial conversion feature is amortized over the note's maturity period (one year) as interest expense.

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($240,233) to debt discount which will be amortized to interest expense over the term of the note. Amortization of $59,894 and $114,522 was recorded for the three and nine month periods ended June 30, 2011.

10% Senior Secured Convertible Promissory Notes issued on July 15, 2010, modified on January 7, 2011

On January 7, 2011, the Company modified previously issued senior secured promissory notes initially dated July 15, 2010 totaling $1,550,000 in principal amount bearing interest at a rate of 10% per annum to "accredited investors," as defined in regulations promulgated under the Securities Act. The notes are convertible, in whole or in part, at any time, at the option of the noteholders, into either (A) such number of shares of the Company's common stock, $0.001 par value per share, determined by dividing (i) the principal amount of each note, together with any and all accrued and unpaid interest and penalties, by (ii) a conversion price of $ 0.037104 or (B) securities issued in any Subsequent Financing ("Subsequent Securities") at a conversion price equal to 80% of the price per Subsequent Security paid by investors for Subsequent Securities in a Subsequent Financing (the "Subsequent Financing Price"). A "Subsequent Financing" is the sale by the Company or an affiliate thereof of securities at any time after January 7, 2011 and prior to the earlier of (i) a Qualified Financing or (ii) January 7, 2012. A noteholder may convert its note in whole in connection with any one Subsequent Financing or in part in connection with one or more Subsequent Financings. The notes shall be automatically converted upon the earlier of (I) January 7, 2012 and (II) the completion of a Qualified Financing at the election of the noteholder into either (A) shares of common stock at the Common Conversion Price, (B) Subsequent Securities at a conversion price equal to 80% of the Subsequent Financing Price, or (C) securities issued in a Qualified Financing (the "Qualified Financing Securities") at a conversion price equal to 80% of the price per Qualified Financing Security paid by investors for the Qualified Financing Securities in the Qualified Financing. The effect of this refinancing was recognized as "debt modification" in the financial statements.

A "Qualified Financing" is the sale by the Company or an affiliate thereof of securities resulting in gross proceeds (before transaction fees and expenses) in a single transaction equal to or in excess of $10 million. The notes bear interest at the rate of 10% per annum and is due and payable in full on January 7, 2012.

Until the principal and accrued but unpaid interest under the notes are paid in full, or converted into Conversion Shares pursuant to their terms, the Company's obligations under the notes will be secured by a lien on all assets of the Company and the assets of APDN (B.V.I.) Inc., the Company's wholly-owned subsidiary.

In accordance with ASC 470-20, the Company recognized an embedded beneficial conversion feature present in the notes. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The Company recognized and measured an aggregate of $1,499,536 of the proceeds, which is equal to the intrinsic value of the embedded beneficial conversion feature, to additional paid-in capital and a discount against the notes. The debt discount attributed to the beneficial conversion feature is amortized over the notes' maturity period (one year) as interest expense.

The Company recorded the intrinsic value of the embedded beneficial conversion feature ($1,499,536) to debt discount which will be amortized to interest expense over the term of the note. Amortization of $391,576 and $732,566 was recorded for the three and nine month periods ended June 30, 2011, respectively.

JUNE 30, 2011
(unaudited)

NOTE D – CONVERTIBLE NOTES (continued)

During the quarter ended June 30, 2011, the Company issued an aggregate of 1,023,026 shares of common stock in settlement of the $35,000 of convertible notes and related interest.

NOTE E - RELATED PARTY TRANSACTIONS

The Company's current and former officers and stockholders have advanced funds on a non-interest bearing basis to the Company for travel related and working capital purposes. The Company has not entered into any agreement on the repayment terms for these advances. As of June 30, 2011 and September 30, 2010, there were $600,000 and $50,000 advances outstanding, respectively.

The Company has consulting agreements with outside contractors, certain of whom are also company stockholders. The agreements are generally month to month.

NOTE F - CAPITAL STOCK

The Company is authorized to issue 800,000,000 shares of common stock, with a $0.001 par value per share, as the result of a vote of stockholders conducted on June 29, 2010 which effected an increase in the authorized shares of common stock from 410,000,000 to 800,000,000. In addition, the Company is authorized to issue 10,000,000 shares of preferred stock with a $0.001 par value per share. As of June 30, 2011 and September 30, 2010, there were 352,523,001 and 346,366,244 shares of common stock issued and outstanding, respectively.

During the nine months ended June 30, 2011, the Company issued an aggregate of 888,813 shares valued at $65,000 for future consulting services.

During the nine month periods ended June 30, 2011 and 2010, the Company has expensed $502,083 and $956,438 related to stock based compensation, respectively.

NOTE G - STOCK OPTIONS AND WARRANTS

Warrants

The following table summarizes the changes in warrants outstanding and the related prices for the shares of the Company's common stock issued to non-employees of the Company. These warrants were granted in lieu of cash compensation for services performed or financing expenses in connection with the sale of the Company's common stock.

Exercise Prices	Number Outstanding	Warrants Outstanding Remaining Contractual Life (Years)	Weighted Average Exercise Price	Weighted Average Exercisable	Exercisable Weighted Average Exercise Price

NOTE G - STOCK OPTIONS AND WARRANTS (continued)

Transactions involving warrants are summarized as follows:

	Number of Shares	Weighted Average Price Per Share
Balance, September 30, 2009	64,820,500	$ 0.43
Granted	22,007,946	0.05
Exercised	—	
Canceled or expired	(17,620,500)	(0.73)
Balance at September 30, 2010	69,207,946	$ 0.24
Granted	4,318,356	0.04
Exercised	—	—
Canceled or expired	(16,400,000)	(0.50)
Balance, June 30, 2011	57,126,302	$ 0.15

On April 29, 2010, warrants totaling 10,000,000 were issued in connection with services. The warrants are exercisable for five years from the date of issuance at an exercise price of $0.06 per share with 25% vesting immediately, 25% on October 29, 2010, 25% on April 29, 2011 and 25% on October 29, 2011. The fair value of the warrants vesting during the nine month period ended June 30, 2011 was determined using the Black-Scholes Option Pricing Model with the following assumptions: dividend yield $-0-, volatility of 170.72% and risk free rate from 1.17%.

The determined fair value of $93,580 is charged ratably to current period operations. During the three and nine month periods ended June 30, 2011, $14,911 and $93,580 was charged to operations, respectively.

On July 15, 2010, warrants totaling 3,007,946 were issued in connection with services provided in connection with the issuance of convertible notes. The warrants are exercisable for seven years from the date of issuance at an exercise price of $0.04405 per share. The fair values of the warrants were determined using the Black-Scholes Option Pricing Model with the following assumptions: dividend yield $-0-, volatility of 173.55% and risk free rate from 2.43%.

The determined fair value of $174,429 is charged ratably to current period operations over one year. During the three and nine month periods ended June 30, 2011, $43,607 and $130,821 was charged to operations, respectively.

On August 30, 2010, warrants totaling 10,000,000 were issued in connection with services. The warrants are exercisable for five years from the date of issuance at an exercise price of $0.04 per share with 33% vesting immediately and 67% upon achieving defined milestones. The fair value of the vested warrants was determined using the Black-Scholes Option Pricing Model with the following assumptions: dividend yield $-0-, volatility of 173.24% and risk free rate from 1.39%.

The determined fair value of $113,885 is charged ratably to current period operations. During the three and nine month periods ended June 30, 2011, $28,393 and $84,867 was charged to operations, respectively.

In the month of November 2010, warrants totaling 2,961,872 were issued in connection with services provided in connection with the issuance of convertible notes. The warrants are exercisable for seven years from the date of issuance at exercise prices from $0.03088 to $0.03283 per share. The fair value of the warrants were determined using the Black-Scholes Option Pricing Model with the following assumptions: dividend yield $-0-, volatility of 169.06% to 169.21% and risk free rate from 2.16 to 2.20%.

(unaudited)

NOTE G - STOCK OPTIONS AND WARRANTS (continued)

The determined fair value of $120,840 is charged ratably to current period operations over one year. During the three and nine month periods ended June 30, 2011, $30,210 and $71,779 was charged to operations, respectively.

In the month of January 2011, warrants totaling 1,356,484 were issued in connection with services provided in connection with the issuance of convertible notes. The warrants are exercisable for seven years from the date of issuance at exercise price of $0.05529 per share. The fair values of the warrants were determined using the Black-Scholes Option Pricing Model with the following assumptions: dividend yield $-0-, volatility of 170.33% and risk free rate of 2.69%.

The determined fair value of $97,131 is charged ratably to current period operations over one year. During the three and nine month periods ended June 30, 2011, $24,283 and $46,370 was charged to operations, respectively.

Employee Stock Options

On January 26, 2005, the Board of Directors, and on February 15, 2005, the holders of a majority of the outstanding shares of common stock of the Company approved the 2005 Incentive Stock Plan and authorized the issuance of 16,000,000 shares of common stock as stock awards and stock options thereunder. On May 16, 2007, at the annual meeting of stockholders, the holders of a majority of the outstanding shares of common stock of the Company approved an increase in the number of shares subject to the 2005 Incentive Stock Plan to 20,000,000 shares of common stock. On June 17, 2008, the Board of Directors unanimously adopted an amendment to the 2005 Incentive Stock Plan that increased the total number of shares of common stock issuable pursuant to the 2005 Incentive Stock Plan from a total of 20,000,000 shares to a total of 100,000,000 shares, which was approved by our stockholders at the 2008 annual meeting of stockholders held on December 16, 2008. In connection with the share increase amendment, the Board of Directors granted and we issued options to purchase a total of 37,670,000 shares at an exercise price of $0.11 to certain key employees and non-employee directors under the 2005 Incentive Stock Plan, including 17,000,000, 5,000,000 and 7,000,000 to James A. Hayward, Kurt H. Jensen and Ming-Hwa Liang, respectively. The options granted to our key employees and non-employee directors vested with respect to 25% of the underlying shares on the date of grant and the remaining vest ratably each anniversary thereafter until fully vested on the third anniversary of the date of grant.

On May 27, 2010, the our named executive officers elected to forfeit certain stock options to purchase up to 29 million shares of our Common Stock at an exercise price of $0.11 that were previously granted to them under the 2005 Incentive Stock Plan. In lieu of the forfeited options, our Board of Directors granted new stock options to such named executive officers to purchase up to 29 million shares of our common stock at an exercise price of $0.05 under the 2005 Stock Incentive Plan which are fully vested and became exercisable on June 29, 2010 following approval by our stockholders to amend our certificate of incorporation to increase our authorized shares of common stock.

On July 1, 2010, our Board of Directors granted nonstatutory stock options under the 2005 Incentive Stock Plan to our named executive officers. The options granted to the named executive officers vested with respect to 25% of the underlying shares on the date of grant, and the remaining will vest ratably each anniversary thereafter until fully vested on the third anniversary of the date of grant.

The 2005 Incentive Stock Plan is designed to retain directors, executives, and selected employees and consultants by rewarding them for making contributions to our success with an award of options to purchase shares of our common stock. As of June 30, 2011, a total of 9,675,000 shares have been issued and options to purchase 70,400,000 shares have been granted under the 2005 Incentive Stock Plan.

The following table summarizes the changes in options outstanding and the related prices for the shares of the Company's common stock issued to employees of the Company under the 2005 Incentive Stock Plan:

NOTE G - STOCK OPTIONS AND WARRANTS (continued)

Options Outstanding				Options Exercisable	
Exercise Prices	Number Outstanding	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
$ 0.05	29,000,000	1.97	$ 0.05	29,000,000	$ 0.05
$ 0.06	30,000,000	4.01	$ 0.06	7,500,000	$ 0.06
$ 0.07	2,500,000	4.46	$ 0.07	500,000	$ 0.07
$ 0.08	2,000,000	4.52	$	-	$ -
$ 0.09	1,500,000	0.17	$ 0.09	1,500,000	$ 0.09
$ 0.11	5,400,000	1.97	$ 0.11	4,050,000	$ 0.11
	70,400,000		$ 0.06	42,550,000	$ 0.06

Transactions involving stock options issued to employees are summarized as follows:

	Number of Shares	Weighted Average Exercise Price Per Share
Outstanding at October 1, 2009	38,920,000	$ 0.11
Granted	59,000,000	0.06
Exercised	-	
Cancelled or expired	(31,020,000)	(0.11)
Outstanding at September 30, 2010	66,900,000	$ 0.06
Granted	3,500,000	0.08
Exercised	-	
Canceled or expired	-	
Outstanding at June 30, 2011	70,400,000	$ 0.06

On January 4, 2011, the Company granted 2,000,000 options to purchase the Company’s common stock at an exercise price of $0.08 per share for five years to an employee with vesting at 25% each anniversary for the next four years. The fair value of options was determined using the Black-Scholes Option Pricing Model with the following assumptions: dividend yield $-0-, volatility of 170.62% and risk free rate from 2.01%.

The Company recorded $154,499 and $459,968 as stock compensation expense for the three and nine month periods ended June 30, 2011, respectively, and $1,382,248 and $1,969,483 for the three and nine month periods ended June 30, 2010, respectively, for the vesting portion of all employee options outstanding.

NOTE H - COMMITMENTS AND CONTINGENCIES

The Company leases office space under an operating lease in Stony Brook, New York for its corporate use from an entity controlled by a significant former shareholder. Total lease rental expenses for the three and nine month periods ended June 30, 2011 were $36,056 and $108,054, respectively. Total lease rental expenses for the three and nine month periods ended on June 30, 2010 were $21,858 and $62,408, respectively.

NOTE H - COMMITMENTS AND CONTINGENCIES (continued)

Litigation

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. Except as described below, we are currently not aware of any such legal proceedings that we believe will have, individually or in the aggregate, a material adverse affect on our business, financial condition or operating results.

Demodulation, Inc. v. Applied DNA Sciences, Inc., et al. (Civil Action No. - 2:11-cv-00296-WJM-MF):

On May 18, 2011, the Company was served with a complaint in a lawsuit brought by Demodulation, Inc. against the Company, Corning Incorporated, Alfred University, and Alfred Technology Resources, Inc. On July 8, 2011, the Company filed a motion to dismiss the complaint. In response, on August 3, 2011, Demodulation, Inc. filed an amended complaint. Demodulation, Inc. alleges that it was unable to bring its microwire technology to market due to the wrongful acts of defendants, who allegedly conspired to steal Demodulation, Inc.'s trade secrets and other intellectual property and to interfere in its business opportunities. Of the 17 claims alleged in the amended complaint, five are asserted against the Company, including alleged misappropriation of trade secrets, antitrust violations, civil RICO, and patent infringement. The Company believes these claims are without merit. The Company intends to file a motion to dismiss the amended complaint for failure to state a claim and on other grounds. The Company intends to vigorously defend the action.

NOTE I - FAIR VALUE MEASUREMENT

The Company adopted the provisions of ASC 825-10 on October 1, 2008. ASC 825-10 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance. ASC 825-10 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 825-10 establishes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed and is determined based on the lowest level input that is significant to the fair value measurement.

Upon adoption of ASC 825-10, there was no cumulative effect adjustment to the beginning retained earnings and no impact on the unaudited condensed consolidated financial statements.

APPLIED DNA SCIENCES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(unaudited)

NOTE I - FAIR VALUE MEASUREMENT (continued)

The carrying value of the Company’s cash and cash equivalents, accounts receivable, accounts payable, short-term borrowings (including convertible notes payable), and other current assets and liabilities approximate fair value because of their short-term maturity. All other significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the consolidated financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Where practicable, the fair values of financial assets and financial liabilities have been determined and disclosed; otherwise, only available information pertinent to fair value has been disclosed.

At June 30, 2011, there were no identified assets or liabilities measured at fair value on a recurring basis.

NOTE J - GOING CONCERN

The accompanying unaudited condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying unaudited condensed consolidated financial statements, at June 30, 2011, the Company has a negative working capital of $4.6 million, incurred a net loss for the nine month period ended June 30, 2011 of $6.1 million and has an accumulated deficit of $157.4 million. These factors, among others, may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company’s existence is dependent upon management’s ability to develop profitable operations. Management is devoting substantially all of its efforts to developing DNA embedded biotechnology security solutions in the United States and Europe and there can be no assurance that the Company’s efforts will be successful and no assurance can be given that management’s actions will result in profitable operations or the resolution of its liquidity problems. The accompanying unaudited condensed consolidated financial statements do not include any adjustments that might result should the Company be unable to continue as a going concern.

NOTE K – SUBSEQUENT EVENTS

Sale of common stock

On July 15, 2011, the Company closed a private placement of its common stock. The Company issued and sold 105,263,158 shares of Common Stock at a purchase price of $0.0475 per share to accredited investors for gross proceeds of $5,000,000.

A registered broker dealer firm acted as our placement agent with respect to the private placement. In connection with the private placement, the Company paid placement agent commissions and discounts aggregating $265,000. In addition, the placement agent or its designees were issued warrants with a seven-year term to purchase an aggregate of 7,578,948 shares of Common Stock with an exercise price of $0.0475 per share.

Employment agreements

On July 11, 2011, the Company's Board of Directors approved the terms of employment for each of James A. Hayward, the Company's Chief Executive Officer, and Kurt H. Jensen, the Company's Chief Financial Officer. It is anticipated that new employment agreements will be entered into as soon as practicable reflecting these terms.

In connection with his employment agreement, Dr. Hayward was granted options to purchase 40 million shares of the Company's Common Stock at an exercise price per share equal to the average of the bid and asked prices of the Company's Common Stock on the Over The Counter (OTC) Bulletin Board on the date of grant.. The option will vest as follows: 25% on the grant date, and 37.5% on each of the next two anniversaries of the grant date, subject to Dr. Hayward's continuous employment. If Company revenues for any fiscal quarter increase by more than $1 million over the prior fiscal quarter, then the vesting date for the next 37.5% tranche will be accelerated. Exercisability of options for the 40 million shares will be conditioned upon stockholder approval of an amendment of the Company's 2005 Incentive Stock Plan made by the Board of Directors increasing the aggregate and individual limits on the shares of Company Common Stock issuable under the Plan. The Company also granted 15 million shares of the Company's Common Stock to Dr. Hayward.

APPLIED DNA SCIENCES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(unaudited)

NOTE K – SUBSEQUENT EVENTS (continued)

In addition, Dr. Hayward agreed to participate in the private placement described above and purchased 10,526,316 shares of the Company's Common Stock using $500,000 recently advanced to the Company. The Company has also agreed to issue a one-year senior secured convertible note bearing interest at a rate of 4% per annum in the principal amount of $250,000.

In connection with his employment agreement, Mr. Jensen was granted options to purchase 10 million shares of the Company's Common Stock at an exercise price per share equal to the average of the bid and asked prices of the Company's Common Stock on the Over The Counter (OTC) Bulletin Board on the date of grant. The option will vest as follows: 25% on the grant date, and 37.5% on each of the next two anniversaries of the grant date, subject to Mr. Jensen's continuous employment. If Company revenues for any fiscal quarter increase by more than $1 million over the prior fiscal quarter, then the vesting date for the next 37.5% tranche will be accelerated.

C.F. Martin & Co. Agreement

On July 18, 2011, the Company entered into a Joint Development Agreement, dated as of June 30, 2011 with C.F. Martin & Co., Inc., a designer and manufacturer of acoustic guitars, strings for acoustic guitars, and related guitar components and accessories ("Martin"). Under the terms of the agreement, Martin and the Company will jointly develop, create and apply new techniques and know-how for labeling and authenticating guitars, guitar strings and related guitar components and accessories using DNA security markers created by the Company. Under the agreement, each party shall bear and be responsible for its own expenses and costs of the development and creation of the techniques and know-how.

Subject to certain exceptions for the Company, the agreement provides for a period of exclusivity ("Period of Exclusivity") of six (6) months beginning on June 30, 2011 whereby Martin and the Company agree not to sell, offer for sale, enter into any agreement with any third party for the future sale of, advertise, or market, anywhere in the world, any jointly developed technique for labeling guitars, guitar strings, and related guitar components and accessories with DNA security markers. The agreement also provides that Martin shall purchase DNA security markers exclusively from the Company during the longer of the term of the Agreement or the Period of Exclusivity.

The term of the agreement will continue until the parties agree that the development and creation of techniques or know-how for labeling guitars or guitar strings with DNA security markers is complete, unless either party terminates the agreement by giving at least sixty (60) days written notice to the other party.

NOTE K – SUBSEQUENT EVENTS (continued)

Disc Graphics Agreement

On July 8, 2011, the Company entered into an agreement, dated as of July 7, 2011 with Disc Graphics Inc., a provider of specialty packaging ("DG").

Under the terms of the agreement, DG will purchase DNA security markers from the Company to be incorporated into coatings for DG's products. Additionally, DG will be the Company's exclusive distributor in North America of Markers for the folding carton offset print sector and non-exclusive distributor of DNA security markers for pressure sensitive labels. Under the Agreement, the Company is obligated to provide DNA security markers for up to a fixed amount of coatings. The Company received an initial fee upon entering the agreement, and is entitled to an annual fee for the DNA security markers, as well as fees for any authentication services provided by the Company. The initial term of the agreement is three years and will automatically renew for successive one year periods, unless either party terminates the agreement by giving written notice to the other party at least ninety (90) days prior to the end of the third year. After the initial term, the Company has the right to terminate if DG does not pay the annual fee.

3SI Agreement

On August 9, 2011, the Company entered into a Supplier Agreement, dated as of August 3, 2011 (the "Supplier Agreement"), with 3SI Security Systems, Inc., a manufacturer and seller of asset protection security systems based on ink and smoke staining as well as GPS technology ("3SI"). On the same date, the parties also entered into a License Agreement, dated as of August 3, 2011 (the "License Agreement").

Under the terms of the Supplier Agreement, 3SI will purchase DNA markers and related products ("Markers") from the Company to be incorporated into products subject to certain patents ("Licensed Patents") owned by 3SI (the "Products"). Pursuant to the License Agreement, 3SI granted a nonexclusive irrevocable license to the Company to make, have made, use, import, offer to sell and sell the Products. Under the terms of the Supplier Agreement, 3SI is permitted to purchase the Products from the Company from time to time pursuant to purchase orders. The purchase price for the Products will be as set forth in an applicable product schedule for the purchase orders and may be adjusted from time to time pursuant to the terms of the Supplier Agreement. Under the terms of the License Agreement, the Company agreed to pay an initial payment and royalties to 3SI based on the number of Products sold, with such royalties being subject to adjustment pursuant to the terms of the License Agreement.

The terms of the Supplier Agreement and the License Agreement will continue until the expiration of the Licensed Patents, unless earlier terminated under the terms of the respective agreements. Under the terms of the Supplier Agreement, 3SI has the right to immediately terminate upon written notice to the Company in the event that the Company fails to continuously maintain a minimum number of Markers to be incorporated into the Products, or upon 30 days written notice to the Company. Under the terms of the License Agreement, 3SI has the right to immediately terminate upon written notice to the Company in the event that the Company fails to continuously maintain a minimum number of Markers, or fails to sell Markers to 3SI for incorporation into the Products for a certain time after being ordered.

Item 2. - Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our Unaudited Condensed Consolidated Financial Statements and Notes thereto, included elsewhere within this report. The Quarterly Report contains forward-looking statements including statements using terminology such as "can", "may", "believe", "designated to", "will", "expect", " "anticipate", "estimate", "potential" or "continue", or the negative thereof or other comparable terminology regarding beliefs plans, expectations or intentions regarding the future. You should read statements that contain these words carefully because they:

- discuss our future expectations;
- contain projections of our future results of operations or of our financial condition; and
- state other "forward-looking" information.

We believe it is important to communicate our expectations. However, forward-looking statements involve risks and uncertainties and our actual results and the timing of certain events could differ materially from those discussed in forward-looking statements as a result of certain factors, including those set forth under "Risk Factors," "Business" and elsewhere in our Annual Report on Form 10-K for the year-ended September 30, 2010, as amended. All forward-looking statements and risk factors included in this document are made as of the date hereof, based on information available to us as of the date thereof, and we assume no obligations to update any forward-looking statement or risk factor, unless we are required to do so by law.

Introduction

We are a provider of botanical-DNA based security and authentication solutions that can help protect products, brands and intellectual property of companies, governments and consumers from theft, counterfeiting, fraud and diversion. SigNature® DNA, Cashield, DNANet and BioMaterial™ Genotyping, our principal anti-counterfeiting and product authentication solutions, can be used in numerous industries, including cash-in-transit (transport and storage of banknotes), textiles and apparel, identity cards and other secure documents, pharmaceuticals, wine, and luxury consumer goods.

We are currently selling our SigNature DNA, DNANet and BioMaterial GenoTyping products and services and intend to sell our Cashield product in the future.

SigNature DNA. We use the DNA of plants to manufacture highly customized and encrypted botanical DNA markers, or SigNature DNA Markers, which we believe are virtually impossible to replicate. We have embedded SigNature DNA Markers into a range of our customers' products, including various inks, dyes, textile treatments, thermal ribbon, thread, varnishes and adhesives. These items can then be tested for the presence of SigNature DNA Markers through an instant field detection or a forensic level authentication. Our SigNature DNA solution provides a secure, accurate and cost-effective means for users to incorporate our SigNature DNA Markers in, and then quickly and reliably authenticate and identify, a broad range of items, such as recovered banknotes, branded textiles and apparel products, pharmaceuticals and cosmetic products, identity cards and other secure documents, digital media, artwork and collectibles and fine wine. Having the ability to reliably authenticate and identify counterfeit versions of such items enables companies and governments to detect, deter, interdict and prosecute counterfeiting enterprises and individuals.

Cashield. Cashield is a family of cash degradation inks that permanently stain banknotes stolen from cash-handling or ATM systems. Cashield extends our offering beyond our prior singular product, AzSure®, to a family of security inks that include Red, Violet, Green, Teal, Indigo, and the original AzSure® Blue. Current degradation dyes suffer from a critical technical weakness, as the dyes may be removed by the use of solvents. We initiated the development of Cashield in response to demand for a more effective carrier for our SigNature DNA markers. Cashield has been certified for use in the EU by the Laboratoire National de Métrologie et d'Essais (LNE) and passed all 47 individual dye penetration and wash-out-resistance tests. Additionally, a CViT study presented by the University of Leeds cited Cashield AzSure Blue ink as having improved performance versus staining inks from other suppliers. In this study, the AzSure blue ink was tested across a range of currencies, including British pounds, Euros, and U.S. dollars. The evaluation involved exposure to numerous industrial solvents. Final analysis of the results concluded that the AzSure blue ink was bound strongly in five seconds or less to a variety of banknotes, and could not be removed with any solvent.

DNANet. In 2010, we developed DNANet tactical DNA products for law enforcement, in the form of DNA-marked fixative sprays and liquids as well as transferable grease. These products, being marketed to global police forces, were created to help link criminals to crimes. DNANet is a tactical forensic system providing unique DNA codes for covert operations that require absolute proof of authentication.

BioMaterial GenoTyping. Our BioMaterial GenoTyping solution refers to the development of genetic assays to distinguish between varieties or strains of biomaterials, such as cotton, wool, tobacco, fermented beverages, natural drugs and foods, that contain their own source DNA. We have developed two proprietary genetic tests (FiberTyping™ and PimaTyping™) to track American Pima cotton from the field to finished garments. These genetic assays provide the cotton industry with what we believe to be the first authentication tools that can be applied throughout the U.S. and worldwide cotton industry from cotton growers, mills, wholesalers, distributors, manufacturers and retailers through trade groups and government agencies.

In 2009 we discontinued our BioActive Ingredients program, which we began in 2007. We developed BioActive Ingredients for personal care products, such as skin care products, based on the biofermentation expertise developed during the manufacturing of DNA for our SigNature DNA and BioMaterial Genotyping solutions, and we have decided to focus our business on these security and authentication solutions.

Recent Developments

On July 15, 2011, the Company closed a private placement of its common stock. The Company issued and sold 105,263,158 shares of Common Stock at a purchase price of $0.0475 per share to accredited investors for gross proceeds of $5,000,000. The company intends to use the proceeds to try to take advantage of available market opportunities to grow the company. In connection with the private placement and within 30 days of the closing thereof, the Company agreed to use its best efforts to expand the size of the Company's board of directors and to elect Gerald Catenacci of Neustrada Capital and John Bitzer III of Abarta, Inc., both of which were investors in the private placement, as directors to serve on the board.

In addition, the Company entered into a Joint Development Agreement, dated as of June 30, 2011 with C.F. Martin & Co., Inc., a designer and manufacturer of acoustic guitars, strings for acoustic guitars, and related guitar components and accessories; on July 8, 2011, the Company entered into an agreement, dated as of July 7, 2011 with Disc Graphics Inc., a provider of specialty packaging; and on August 9, 2011, the Company entered into a long-term supply agreement, dated as of August 3, 2011, with 3SI Security Systems, Inc., a manufacturer and seller of asset protection security systems.

Plan of Operations

General

To date, our operations have produced revenues from SigNature® DNA and BioMaterial™ Genotyping, our principal anti-counterfeiting and product authentication solutions ("authentication services"). We have continued to incur expenses and have limited sources of liquidity. We expect to generate revenues principally from sales of our SigNature Program, Cashield™, DNANet™ and BioMaterial Genotyping. We have developed or are currently attempting to develop business in the following target markets: cash-in-transit, textile and apparel authentication, secure documents, pharmaceuticals, consumer products, fine wine, art and collectibles, and digital and recording media ("target markets"). Our developments in the cash-in-transit and textile and apparel authentication markets have contributed to the increase in our revenues. We intend to pursue both domestic and international sales opportunities in each of these vertical markets.

Critical Accounting Policies

Financial Reporting Release No. 60, published by the SEC, recommends that all companies include a discussion of critical accounting policies used in the preparation of their financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our consolidated financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates.

We believe that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause a material effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

The accounting policies identified as critical are as follows:

Revenue recognition;
Allowance for uncollectible receivables;
Fair value of intangible assets.
Use of estimates

Revenue Recognition

Revenues are derived from research, development, qualification and production testing for certain commercial products. Revenue from fixed price testing contracts is generally recorded upon completion of the contracts, which are generally short-term, or upon completion of identifiable contractual tasks. At the time we enter into a contract that includes multiple tasks, we estimate the amount of actual labor and other costs that will be required to complete each task based on historical experience. Revenues are recognized which provide for a profit margin relative to the testing performed. Revenue relative to each task and from contracts which are time and materials based is recorded as effort is expended. Billings in excess of amounts earned are deferred. Any anticipated losses on contracts are charged to income when identified. To the extent management does not accurately forecast the level of effort required to complete a contract, or individual tasks within a contract, and we are unable to negotiate additional billings with a customer for cost over-runs, we may incur losses on individual contracts. All selling, general and administrative costs are treated as period costs and expensed as incurred.

For revenue from product sales, we recognize revenue in accordance with Accounting Standards Codification subtopic 605-10, Revenue Recognition ("ASC 605-10"). ASC 605-10 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. We defer any revenue for which the product has not been delivered or is subject to refund until such time that we and the customer jointly determine that the product has been delivered or no refund will be required.

Allowance for Uncollectible Receivables

We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of customers to make required payments. We use a combination of write-off history, aging analysis and any specific known troubled accounts in determining the allowance. If the financial condition of customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances could be required.

Fair Value of Intangible Assets

We have adopted Accounting Standards Codification subtopic 360-10, Property, Plant and Equipment ("ASC 360-10"). The Statement requires that long-lived assets and certain identifiable intangibles held and used by us be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses, or a forecasted inability to achieve break-even operating results over an extended period.

We evaluate the recoverability of long-lived assets based upon forecasted undiscounted cash flows. Should impairment in value be indicated, the carrying value of intangible assets will be adjusted, based on estimates of future discounted cash flows resulting from the use and ultimate disposition of the asset. ASC 360-10 also requires assets to be disposed of be reported at the lower of the carrying amount or the fair value less costs to sell.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenue and expenses during the reporting period. Actual results could differ from those estimates.

Comparison of Results of Operations for the Three Months Ended June 30, 2011 and 2010

Revenues

For the three months ended June 30, 2011 and 2010, we generated $229,710 and $170,195, respectively, in revenues from operations, principally from the sales of our authentication services and sales of our Signature DNA, respectively. The increase in revenues of $59,515 or 35% for the three months ended June 30, 2011 as compared to the same period last year was primarily caused by higher volume activity for 2011.

Costs and Expenses

Selling, General and Administrative

Selling, general and administrative expenses decreased from $2,529,777 for the three months ended June 30, 2010 to $1,580,788 for the three months ended June 30, 2011. The decrease of $948,989, or 38%, is primarily attributable to reduced amortization of costs associated with financing.

Research and Development

Research and development expenses increased from $18,142 for the three months ended June 30, 2010 to $47,988 for the three months ended June 30, 2011. The increase of $29,846 is attributed to additional research and development activity needed with current operations.

Depreciation and Amortization

In the three months ended June 30, 2011, depreciation and amortization decreased by $931 from $92,823 for the three months ended June 30, 2010 to $91,892 for the three months ended June 30, 2011. The decrease is attributable to the aging of our property and equipment.

Total Operating Expenses

Total operating expenses decreased to $1,720,668 for the three months ended June 30, 2011 from $2,640,742 for the three months ended June 30, 2010, or a decrease of $920,074, primarily attributable to reduced amortization of costs associated with financing .

Interest Expenses

Interest expense for the three months ended June 30, 2011 increased by $537,649 to $664,037 from $126,388 for the three months ended June 30, 2010. The increase in interest expense was due to larger amortization of debt discounts associated with recently issued or modified convertible promissory notes.

Net (Loss)

Net loss for the three months ended June 30, 2011 was $2,154,995 as compared to net loss of $2,596,935 for the three months ended June 30, 2010, primarily attributable to our increase in our debt discount amortization reflected in our interest expense line and offset by a decrease in our selling, general and administrative costs.

Comparison of Results of Operations for the Nine Months Ended June 30, 2011 and 2010

Revenues

For the nine months ended June 30, 2011 and 2010, we generated $687,970 and $430,185, respectively, in revenues from operations, principally from the sales of our authentication services and sales of our Signature DNA, respectively. The increase in revenues of $257,785 or 60% for the nine months ended June 30, 2011 as compared to the same period last year was primarily caused by higher volume activity for 2011.

Costs and Expenses

Selling, General and Administrative

Selling, general and administrative expenses decreased from $5,363,215 for the nine months ended June 30, 2010 to $4,529,352 for the nine months ended June 30, 2011. The decrease of $833,863, or 16%, is primarily attributable to reduced amortization of costs associated with financing.

Research and Development

Research and development expenses increased from $44,944 for the nine months ended June 30, 2010 to $161,645 for the nine months ended June 30, 2011. The increase of $116,701 is attributed to additional research and development activity related to the recent development and feasibility study agreements.

Depreciation and Amortization

In the nine months ended June 30, 2011, depreciation and amortization decreased by $2,011 from $278,619 for the nine months ended June 30, 2010 to $276,608 for the nine months ended June 30, 2011. The decrease is attributable to the reduced depreciation/additions to our property and equipment.

Total Operating Expenses

Total operating expenses decreased to $4,967,605 for the nine months ended June 30, 2011 from $5,686,778 for the nine months ended June 30, 2010, or a decrease of $719,173, primarily attributable to the reduction in amortization of capitalized financing costs in 2011.

Interest Expenses

Interest expense for the nine months ended June 30, 2011 increased by $1,280,873 to $1,818,125 from $537,252 for the nine months ended June 30, 2010. The increase in interest expense was due to larger amortization of debt discounts associated with recently issued or modified convertible promissory notes.

Net (Loss)

Net loss for the nine months ended June 30, 2011 was $6,097,760 as compared to net loss of $5,793,845 in the prior period primarily attributable to increase in interest expense and a decrease in our selling, general and administrative costs as described above.

Liquidity and Capital Resources

Our liquidity needs consist of our working capital requirements, indebtedness payments and research and development expenditure funding. Historically, we have financed our operations through the sale of equity and convertible debt as well as borrowings from various credit sources. In fiscal 2011, and in prior fiscal years, we have been relying in part on cash infusions from our President, Chairman and Chief Executive Officer, James A. Hayward, in order to fund our operations. During fiscal 2011 and 2010, Dr. Hayward provided $600,000 and $725,000 in new loans, respectively.

As of June 30, 2011, we had a working capital deficit of $4,575,082. For the nine months ended June 30, 2011, we generated a net cash flow deficit from operating activities of $2,200,654 consisting primarily of year to date loss of $6,097,760. Non cash adjustments included $2,557,433 in depreciation and amortization charges and, $1,027,050 for equity based compensation and $34,960 for settlement of accrued interest. Additionally, we had a net increase in assets of $71,159 and a net increase in current liabilities of $348,822. Cash provided by financing activities for the nine months ended June 30, 2011 totaled $2,195,500 consisting of proceeds from the issuance of convertible debt, net of the capitalized financing costs and related party advance repayments of $1,645,500 and $600,000 advances for officers.

We expect capital expenditures to be less than $200,000 in fiscal 2011. Our primary investments will be in laboratory equipment to support prototyping and our authentication services.

Exploitation of potential revenue sources is expected to be financed primarily through the sale of equity securities and convertible debt, exercise of outstanding warrants, issuance of notes payable and other debt or a combination thereof, depending upon the transaction size, market conditions and other factors. Any issuances of preferred stock will be on such terms and conditions as are approved by our board of directors, may have rights, preferences and privileges senior to those of common stock, and may dilute the rights of holders of our common stock.

To the extent our revenues continue to increase over comparable year periods, our liquidity will be enhanced. However, we expect to require additional financing to sustain our growth and operations, including an increase in the number of employees.

By adjusting our operations and development to the level of capitalization, we believe we have sufficient capital resources to meet projected cash flow deficits. However, if during any period we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources, on terms acceptable to us, this could have a material adverse effect on our business, results of operations, liquidity and financial condition.

Our registered independent certified public accountants have stated in their report dated December 15, 2010, that we have incurred operating losses in the last two years, and that we are dependent upon management’s ability to develop profitable operations and raise additional capital. These factors among others may raise substantial doubt about our ability to continue as a going concern.

Recent Debt and Equity Financing Transactions

Fiscal 2010

During the year ended September 30, 2010, we issued and sold an aggregate principal amount of $270,000 in secured convertible promissory notes bearing interest at 10% per annum to “accredited investors,” as defined in regulations promulgated under the Securities Act. The promissory notes and accrued but unpaid interest thereon automatically convert one year after issuance at a conversion price equal to a discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance, and are convertible into shares of our common stock at the option of the holder at any time prior to such automatic conversion at a price equal to the greater of (i) 50% of the average price of our common stock for the ten trading days prior to the date of the notice of conversion and (ii) the automatic conversion price. In addition, any time prior to conversion, we have the irrevocable right to repay the unpaid principal and accrued but unpaid interest under the notes on three days notice. The promissory notes bear interest at the rate of 10% per annum and are due and payable in full on the one year anniversary of their issuance. The warrants are exercisable for cash or on a cashless basis for a period of four years commencing one year after issuance at a price of $0.50 per share. Each warrant may be redeemed at our option at a redemption price of $0.01 upon the earlier of (i) three years after the issuance, and (ii) the date our common stock has traded on The Over the Counter Bulletin Board at or above $1.00 per share for 20 consecutive trading days.

In addition, on July 15, 2010, we issued and sold an aggregate of $1,100,000 in principal amount of senior secured convertible notes (the "July 15 Notes") bearing interest at a rate of 10% per annum to "accredited investors," as defined in regulations promulgated under the Securities Act (the "Private Placement"). The July 15 Notes are convertible, in whole or in part, at any time, at the option of the holders, into either (A) such number of shares of the Company's common stock, $0.001 par value per share, determined by dividing (i) the principal amount of each July 15 Note, together with any and all accrued and unpaid interest and penalties, by (ii) a conversion price of $0.04405, which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance (the "Common Conversion Price") or (B) securities issued in any Subsequent Financing ("Subsequent Financing Securities") at a conversion price equal to 80% of the price per Subsequent Security paid by investors for Subsequent Securities in a Subsequent Financing (the "Subsequent Financing Price"). A "Subsequent Financing" is the sale by the Company or an affiliate thereof of securities at any time after July 15, 2010 and prior to the earlier of (i) a Qualified Financing or (ii) July 15, 2011. A holder may convert its July 15 Notes in whole in connection with any one Subsequent Financing or in part in connection with one or more Subsequent Financings. The July 15 Notes shall be automatically converted upon the earlier of (I) July 15, 2011 and (II) the completion of a Qualified Financing at the election of each holder into either (A) shares of common stock at the Common Conversion Price, (B) Subsequent Securities at a conversion price equal to 80% of the Subsequent Financing Price, or (C) securities issued in a Qualified Financing (the "Qualified Financing Securities") at a conversion price equal to 80% of the price per Qualified Security paid by investors for the Qualified Securities in the Qualified Financing. A "Qualified Financing" is the sale by the Company or an affiliate thereof of securities resulting in gross proceeds (before transaction fees and expenses) in a single transaction equal to or in excess of $10 million. The July 15 Notes bear interest at the rate of 10% per annum and are due and payable in full on July 15, 2011. Until the principal and accrued but unpaid interest under the July 15 Notes are paid in full, or converted into shares of Common Stock, Subsequent Financing Securities or Qualified Financing Securities, as the case may be (the "Conversion Shares") pursuant to their terms, the Company's obligations under the July 15 Notes will be secured by a lien on all assets of the Company and the assets of APDN (B.V.I.) Inc., the Company's wholly-owned subsidiary.

The July 15 Notes were issued pursuant to a Securities Purchase Agreement (the "Purchase Agreement"), dated as of July 15, 2010, by and among the Company and the purchasers named therein (the "Purchasers"). We have made customary representations and warranties and certain covenants in the Purchase Agreement and the July 15 Notes including, among others, covenants (i) not to offer, sell, grant any option or otherwise dispose of, with certain exceptions, any of our, or our subsidiaries', equity or equity equivalent securities (a "Subsequent Placement"), unless we offer the Purchasers the option to participate pro rata in any proposed or intended issuance, sale or exchange of securities being offered in a Subsequent Placement, (ii) to use commercially reasonable efforts to adopt and comply with Nasdaq or New York Stock Exchange corporate governance standards, (iii) to hire additional senior officers and adopt compensation plans and arrangements that are competitive with comparably situated companies and (iv) not to incur or guarantee any indebtedness, with certain exceptions.

Additionally, the July 15 Notes contain certain events of default that are customarily included in financings of this nature. If an event of default occurs, the Purchasers may require the Company to redeem the July 15 Notes, in whole or in part, at a redemption price equal to the Event of Default Redemption Price (as defined in the July 15 Notes).

We also entered into a registration rights agreement, dated as of the date of the Purchase Agreement (the "Registration Rights Agreement"), with the Purchasers, pursuant to which we have agreed to prepare and file a registration statement with the SEC to register under the Securities Act of 1933 resales from time to time of the Conversion Shares issued or issuable upon conversion or redemption of the July 15 Notes. Pursuant to the Registration Rights Agreement, we are required to file a registration statement within 45 days of receiving a Demand Registration Request (as defined in the Registration Rights Agreement), and to cause the registration statement to be declared effective within 45 days (or 90 days if the registration statement is reviewed by the SEC). We will be required to pay penalties to Purchasers in the event that these deadlines are not met.

On July 15, 2010, we cancelled a $450,000 principal amount promissory note previously issued to an accredited investor (“Prior Investor”) on June 4, 2010 and, in lieu thereof, issued to the Prior Investor a $450,000 principal amount senior secured convertible note containing the same terms as the form of note issued to the holders in the Private Placement.

On July 15, 2010, we cancelled a $675,000 principal amount promissory note ("Prior Hayward Note") previously issued to James A. Hayward, the Company's Chairman, President and Chief Executive Officer on June 4, 2010, and, in lieu thereof, issued to Dr. Hayward a $450,000 principal amount senior secured convertible note containing the same terms as the form of Note issued to the holders in the Private Placement and a $225,000 principal amount promissory note containing the same terms as the Prior Hayward Note.

In February 2011, the Company adjusted the conversion price of $1,550,000 of the $2,000,000 in principal amount of senior secured convertible promissory notes issued on July 15, 2010 (the "July 15 Notes"), from $0.04405 to $0.037104. The remaining $450,000 aggregate principal amount of the July 15 Notes, held by James A. Hayward, the Company's Chairman, President and Chief Executive Officer, will continue to have a conversion price of $0.04405.

Fiscal 2011 (through July 31, 2011)

Since October 1, 2010, we issued and sold an aggregate of $1,850,000 in principal amount of senior secured convertible notes bearing interest at a rate of 10% per annum to "accredited investors," as defined in regulations promulgated under the Securities Act. The notes are convertible, in whole or in part, at any time, at the option of the noteholders, into either (A) such number of shares of the Company's common stock, $0.001 par value per share, determined by dividing (i) the principal amount of each note, together with any and all accrued and unpaid interest and penalties, by (ii) a conversion price which is equal to a 20% discount to the average volume, weighted average price of our common stock for the ten trading days prior to issuance (the "Common Conversion Price") or (B) securities issued in any Subsequent Financing ("Subsequent Securities") at a conversion price equal to 80% of the price per Subsequent Security paid by investors for Subsequent Securities in a Subsequent Financing (the "Subsequent Financing Price"). The conversion prices of the notes range between $0.03088 and $0.05529. A "Subsequent Financing" is the sale by the Company or an affiliate thereof of securities at any time after the date of issuance of the notes and prior to the earlier of (i) a Qualified Financing or (ii) the one year anniversary of the issuance of the notes. A noteholder may convert its notes in whole in connection with any one Subsequent Financing or in part in connection with one or more Subsequent Financings. The notes shall be automatically converted upon the earlier of (I) the one year anniversary of their issuance and (II) the completion of a Qualified Financing at the election of each noteholder into either (A) shares of common stock at the Common Conversion Price, (B) Subsequent Securities at a conversion price equal to 80% of the Subsequent Financing Price, or (C) securities issued in a Qualified Financing (the "Qualified Financing Securities") at a conversion price equal to 80% of the price per Qualified Financing Security paid by investors for the Qualified Financing Securities in the Qualified Financing. A "Qualified Financing" is the sale by the Company or an affiliate thereof of securities resulting in gross proceeds (before transaction fees and expenses) in a single transaction equal to or in excess of $10 million. The notes bear interest at the rate of 10% per annum and are due and payable in full on the one year anniversary of issuance of the notes. Until the principal and accrued but unpaid interest under the notes are paid in full, or converted into Conversion Shares pursuant to their terms, the Company's obligations under the notes will be secured by a lien on all assets of the Company and the assets of APDN (B.V.I.) Inc., the Company's wholly-owned subsidiary.

We presently do not have any available credit, bank financing or other external sources of liquidity. Due to our brief history and historical operating losses, our operations have not been a material source of liquidity. We will need to obtain additional capital in order to expand operations and become profitable. We intend to pursue the building of a re-seller network outside the United States, and if successful, the re-seller agreements would constitute a source of liquidity and capital over time. In order to obtain capital, we may need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding and execution of re-seller agreements outside the Unites States.

On July 15, 2011, the Company closed a private placement of its common stock. The Company issued and sold 105,263,158 shares of Common Stock at a purchase price of $0.0475 per share to accredited investors for gross proceeds of $5,000,000.

A registered broker dealer firm acted as our placement agent with respect to the private placement. In connection with the private placement, the Company paid placement agent commissions and discounts aggregating $265,000. In addition, the placement agent or its designees were issued warrants with a seven-year term to purchase an aggregate of 7,578,948 shares of Common Stock with an exercise price of $0.0475 per share.

Additional investments are being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Further, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock.

Substantially all of the real property used in our business is leased under operating lease agreements.

Product Research and Development

We anticipate spending approximately $50,000 for product research and development activities during the next twelve months.

Acquisition of Plant and Equipment and Other Assets

We do not anticipate the sale of any material property, plant or equipment during the next 12 months. We do anticipate spending approximately $20,000 on the acquisition of leasehold improvements during the next 12 months. We believe our current leased space as well as the facility from which we lease space has adequate capacity to manage our growth, if any, over the next 2 to 3 years.

Substantially all of the real property used in our business is leased under operating lease agreements.

Number of Employees

We currently have 16 full-time employees and three part-time employees, including two in management, nine in operations, seven in sales and marketing and one in investor relations. We expect to increase our staffing dedicated to sales, product prototyping, manufacturing of DNA markers and forensic authentication services. Expenses related to travel, marketing, salaries, and general overhead will be increased as necessary to support our growth in revenue. In order for us to attract and retain quality personnel, we anticipate we will have to offer competitive salaries to future employees. We anticipate that it may become desirable to add additional full and or part time employees to discharge certain critical functions during the next 12 months. This projected increase in personnel is dependent upon our ability to generate revenues and obtain sources of financing. There is no guarantee that we will be successful in raising the funds required or generating revenues sufficient to fund the projected increase in the number of employees. As we continue to expand, we will incur additional costs for personnel.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Inflation

The effect of inflation on our revenue and operating results was not significant.

33

Going Concern

The accompanying unaudited condensed consolidated financial statements included in this filing have been prepared in conformity with generally accepted accounting principles that contemplate our continuance as a going concern. Our auditors, in their report dated December 15, 2010, have expressed substantial doubt about our ability to continue as a going concern. Our cash position may be inadequate to pay all of the costs associated with the testing, production and marketing of our products. Management intends to use borrowings and the sale of equity or convertible debt to mitigate the effects of its cash position, however no assurance can be given that debt or equity financing, if and when required will be available. The accompanying unaudited condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should we be unable to continue existence.

Item 3. - Quantitative and Qualitative Disclosures About Market Risk.

The Company is a smaller reporting company as defined by Rule 12b-2 under the Exchange Act and is not required to provide the information required under this item.

Item 4T. - Controls and Procedures.

Material Weakness Previously Disclosed

As discussed in our Annual Report on Form 10-K for the year ended September 30, 2010, as amended, we concluded that there were matters that constituted a material weakness in our internal control over financial reporting. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Based on our assessment of the effectiveness of internal control over financial reporting as of June 30, 2011, we determined that control deficiencies existed that constituted material weaknesses, as described below:

- lack of documented policies and procedures;
- we have no audit committee;
- there is a risk of management override given that our officers have a high degree of involvement in our day to day operations.
- there is no policy on fraud, though we plan to implement such policies in fiscal 2011; and
- there is no effective separation of duties, which includes monitoring controls, between the members of management.

Management is currently evaluating what steps can be taken in order to address these material weaknesses. We have undertaken the following steps to partially address the deficiencies stated above:

- On July 11, 2011, our Board of Directors adopted a Code of Ethics and Business Conduct for the Company.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, we conducted an evaluation, under the supervision and with the participation of our management, including our principal executive and principal financial officers, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange

Act). Based on the evaluation of these disclosure controls and procedures, and in light of the material weaknesses previously found in our internal controls, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective.

Changes in Internal Control over Financial Reporting

During the fiscal quarter ended June 30, 2011, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

Item 1. – Legal Proceedings

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. Litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. Except as described below, we are currently not aware of any such legal proceedings that we believe will have, individually or in the aggregate, a material adverse affect on our business, financial condition or operating results.

Demodulation, Inc. v. Applied DNA Sciences, Inc., et al. (Civil Action No. - 2:11-cv-00296-WJM-MF):

On May 18, 2011, the Company was served with a complaint in a lawsuit brought by Demodulation, Inc. against the Company, Corning Incorporated, Alfred University, and Alfred Technology Resources, Inc. On July 8, 2011, the Company filed a motion to dismiss the complaint. In response, on August 3, 2011, Demodulation, Inc. filed an amended complaint. Demodulation, Inc. alleges that it was unable to bring its microwire technology to market due to the wrongful acts of defendants, who allegedly conspired to steal Demodulation, Inc.'s trade secrets and other intellectual property and to interfere in its business opportunities. Of the 17 claims alleged in the amended complaint, five are asserted against the Company, including alleged misappropriation of trade secrets, antitrust violations, civil RICO, and patent infringement. The Company believes these claims are without merit. The Company intends to file a motion to dismiss the amended complaint for failure to state a claim and on other grounds. The Company intends to vigorously defend the action.

Item 5. – Other Information

3SI Agreement

On August 9, 2011, the Company entered into a Supplier Agreement, dated as of August 3, 2011 (the "Supplier Agreement"), with 3SI Security Systems, Inc., a manufacturer and seller of asset protection security systems based on ink and smoke staining as well as GPS technology ("3SI"). On the same date, the parties also entered into a License Agreement, dated as of August 3, 2011 (the "License Agreement").

Under the terms of the Supplier Agreement, 3SI will purchase DNA markers and related products ("Markers") from the Company to be incorporated into products subject to certain patents ("Licensed Patents") owned by 3SI (the "Products"). Pursuant to the License Agreement, 3SI granted a nonexclusive irrevocable license to the Company to make, have made, use, import, offer to sell and sell the Products. Under the terms of the Supplier Agreement, 3SI is permitted to purchase the Products from the Company from time to time pursuant to purchase orders. The purchase price for the Products will be as set forth in an applicable product schedule for the purchase orders and may be adjusted from time to time pursuant to the terms of the Supplier Agreement. Under the terms of the License Agreement, the Company agreed to pay an initial payment and royalties to 3SI based on the number of Products sold, with such royalties being subject to adjustment pursuant to the terms of the License Agreement.

The terms of the Supplier Agreement and the License Agreement will continue until the expiration of the Licensed Patents, unless earlier terminated under the terms of the respective agreements. Under the terms of the Supplier Agreement, 3SI has the right to immediately terminate upon written notice to the Company in the event that the Company fails to continuously maintain a minimum number of Markers to be incorporated into the Products, or upon 30 days written notice to the Company. Under the terms of the License Agreement, 3SI has the right to immediately terminate upon written notice to the Company in the event that the Company fails to continuously maintain a minimum number of Markers, or fails to sell Markers to 3SI for incorporation into the Products for a certain time after being ordered.

Item 6. – Exhibits

10.1# Subcontract, dated June 2, 2011, between Logistics Management Institute and Applied DNA Sciences, Inc.

31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14 and Rule 15d-14(a), promulgated under the Securities and Exchange Act of 1934, as amended

31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14 and Rule 15d 14(a), promulgated under the Securities and Exchange Act of 1934, as amended

32.1 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (Chief Executive Officer)

32.2 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (Chief Financial Officer)
