SPIRENT PLC

CHAIRMAN'S 2004 AGM STATEMENT

At the Annual General Meeting of Spirent plc (LSE: SPT; NYSE: SPM), a leading communications technology company, held today John Weston, Chairman, made the following statement:

"Spirent's overall trading performance in the first quarter of 2004 was in line

with expectations after allowing for the impact of the continuing weakness of the US dollar to sterling exchange rate. On an organic, constant currency basis group turnover was up 9 per cent compared with the first quarter of last year.

"In the Communications group we have started to see some more encouraging trends in spending by our customers. The Performance Analysis division has benefited from our broad portfolio of products, particularly in next-generation broadband and wireless technologies, with quarterly order intake up appreciably over the same period last year. We have also seen some signs of a return of confidence among network service providers but as previously stated we expect the Service Assurance division's performance to lag a recovery. We continue to extend our existing capabilities in IP services and expand our product offering internationally.

"Our Network Products group delivered a good performance in the first quarter benefiting from the introduction of new products and applications in its principal markets. As anticipated our Systems group's exports in the first quarter of 2004 have been impacted by the weakness of the US dollar.

"The satisfactory start to 2004 we reported in our 2003 preliminary results announcement in February has continued into April. While we have seen indications of a pick up in spending by our customers, we continue to be cautious as to the extent of this recovery."
