Total sales were down 0.7% on a reported basis to \$1,591.1 million (26 weeks to 4 August 2007: \$1,601.8 million) reflecting an underlying decrease of 0.5% at constant exchange rates (see Note 1). (b) Like for like sales: H.Samuel 2.4% and Ernest Jones 2.2%.

Terry Burman, Group Chief Executive, commented, "In the first half, Group like for like sales were down 3.4% reflecting the continuing difficult trading environment in both the US and UK.

In the second quarter, the underlying like for like sales in the US remained at a similar level to that seen since the start of the year. The results of the price increases continue to be encouraging and we remain on target to at least maintain at last year's level our full year gross merchandising margin rate. In the UK, as expected, the like for like sales growth of the first quarter was not maintained. However, the second quarter was still encouraging given the demanding comparatives, and the division's continued out-performance of the non-food retail category."

Note 1 - Impact of constant exchange rates

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as 'at constant exchange rates' throughout this release. The Group considers this to be a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales at constant exchange rates, including a reconciliation to the Group's GAAP sales, is shown below.
