COMMENT

Terry Burman, Group Chief Executive, commented In the US like for like sales increased by 4.5% in the third quarter in a mixed economic environment.

In the UK the 5.0% increase in like for like sales again outperformed the UK retail market.

Our businesses have performed well in the first nine months of the year. Supported by a number of new and continuing initiatives, such as increased advertising, we are well positioned to compete during the important fourth quarter.

Note 1 Impact of constant exchange rates

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as constant exchange rates throughout this release. The Group considers this to be a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales at constant exchange rates, including a reconciliation to the Group's GAAP sales, is shown below.
