**Item 5. Other Events and Regulation FD Disclosure.**

Intellisync Corporation (the Company) updates its risk factors as attached in Exhibit 99.1, which are incorporated by reference herein.

Based on preliminary information available, the Company had previously reported in Form 8-K filed with the Securities & Exchange Commission on December 31, 2003, a purchase price of \$69,617,000 to acquire all of the issued and outstanding stock of Synchrologic, Inc. On December 29, 2003, the Company completed the merger with Synchrologic. As a result of further information now available, the Company has determined that its preliminary purchase price estimate should have been \$67,220,000. The effect of the \$2,397,000 adjustment to the preliminary purchase price would be to reduce the pro forma combined goodwill from \$58,003,000 to \$55,606,000, thereby reducing pro forma combined total assets from \$117,729,000 to \$115,332,000, and pro forma combined total stockholders' equity from \$101,813,000 to \$99,416,000 in the unaudited pro forma combined consolidated condensed financial statements in the aforementioned Form 8-K.

The above preliminary purchase price for Synchrologic is subject to further revision as more detailed analysis is completed and additional information on the fair values of Synchrologic's assets and liabilities becomes available. Any change in the fair value of the net assets of Synchrologic will further change the amount of the purchase price allocable to goodwill. Final purchase accounting adjustments may differ materially from the preliminary pro forma adjustments.
