Item 12. Results of Operations and Financial Condition

In accordance with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, the Company notes that certain statements set forth in this Current Report on Form 8-K provide other than historical information and are forward looking. The actual achievement of any forecasted results, or the unfolding of future economic or business developments in a way anticipated or projected by the Company, involve numerous risks and uncertainties. Among those risks and uncertainties, many of which are beyond the control of the Company, include, without limitation, fluctuations in oil and gas prices; level of fleet additions by competitors and industry overcapacity; changes in capital spending by customers in the energy industry for exploration, development and production; changing customer demands for different vessel specifications; acts of terrorism; unsettled political conditions, war, civil unrest and governmental actions, especially in higher risk countries of operations; foreign currency fluctuations; and environmental and labor laws. Readers should consider all of these risk factors as well as other information contained in this report.

On April 21, 2004, the Company issued the following press release:

Tidewater Reports Fourth Quarter Results and Year End Earnings For Fiscal 2004

NEW ORLEANS, April 21, 2004 Tidewater Inc. (NYSE:TDW) announced today a fourth quarter net loss for the period ended March 31, 2004, of \$7.0 million, or \$.12 per share, on revenues of \$154.2 million. For the same quarter last year, net earnings were \$18.6 million, or \$.33 per share, on revenues of \$153.9 million. For the fiscal year ended March 31, 2004, net earnings were \$41.7 million, or \$.73 per share, on revenues of \$652.6 million. For fiscal year ended March 31, 2003, net earnings were \$88.6 million, or \$1.57 per share, on revenues of \$635.8 million.

Included in both the fourth quarter and year ended March 31, 2004 results is a non-cash impairment charge of \$26.5 million (\$17.2 million after tax, or \$.30 per share). The impairment charge results from the Company's late March 2004 review of the Gulf of Mexico market for its vessels, and its conclusion that given the expectation of continuing low levels of drilling and exploration activity in the Gulf of Mexico for the foreseeable future, it was unlikely that 83 of its older, lower horsepower, lower cargo capacity supply vessels that are currently cold-stacked would return to active service.

As previously announced, Tidewater will hold a conference call to discuss March quarterly earnings on Wednesday, April 21, at 10:00 a.m. CDST promptly following the Company's release of quarterly earnings. A replay of the conference call will be available beginning at 1:00 p.m. CDST on April 21, 2004, and will continue until 11:59 p.m. CDST on April 22, 2004.
