PROSPECTUS SUPPLEMENT TO PROSPECTUS DATED MARCH 8, 2004

Filed Pursuant to Rule 424(b)(3)

Under the Securities Act of 1933

Registration No. 333-111816

2,500,000 Shares

Aviall, Inc.

Common Stock

The shares of common stock are being sold by the selling stockholder. We will not receive any of the net proceeds from this offering.

Our common stock is listed on The New York Stock Exchange under the symbol AVL. The closing price on the New York Stock Exchange Composite Tape on April 27, 2004, was \$17.50 per share.

The underwriter has an option to purchase a maximum of 375,000 additional shares to cover over-allotments of shares.

Investing in our common stock involves risks. See **Risk Factors** on page S-4.

ABOUT THIS PROSPECTUS SUPPLEMENT

Edgar Filing: AVIALL INC - Form 424B3

We are providing information to you about this offering of shares of our common stock by the selling stockholder in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering and certain other matters relating to us and our financial condition. The second part is the accompanying prospectus, which provides more general information about securities that we may offer from time to time, some of which may not apply to this offering. You should read this prospectus supplement along with the accompanying prospectus and the information incorporated by reference herein. If the description of the offering varies between this prospectus supplement and the accompanying prospectus, you should rely on the information contained in this prospectus supplement.

In this prospectus supplement and the accompanying prospectus, the words Aviall, Company, we, our, ours and us refer to Aviall, Inc. and its subsidiaries and the term selling stockholder refers to The Carlyle Group, acting through one or more of its affiliates, unless otherwise stated or the context requires.

Except as otherwise indicated in this prospectus supplement, we have presented the information in this prospectus supplement without giving effect to the exercise of the option by the underwriter to purchase up to 375,000 additional shares of common stock from the selling stockholder to cover over-allotments.

CAUTIONARY LANGUAGE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus contain forward-looking statements concerning our business, operations and financial performance and condition. When we use the words estimates, expects, forecasts, anticipates, projects, plans, intends, believe, variations of such words or similar expressions in this prospectus supplement and the accompanying prospectus, we intend to identify forward-looking statements.

We have based our forward-looking statements on our current assumptions, expectations and projections about future events. We have expressed our assumptions, expectations and projections in good faith, and we believe there is a reasonable basis for them. However, we cannot assure you that our assumptions, expectations or projections will prove to be accurate.

A number of risks and uncertainties could cause our actual results to differ materially from the forward-looking statements contained in this prospectus supplement and the accompanying prospectus. Important factors that could cause our actual results to differ materially from the forward-looking statements are set forth in this prospectus supplement and the accompanying prospectus, including the factors described under the section entitled Risk Factors. These risks, uncertainties and other important factors include, among others:

loss of key suppliers or significant customers;

termination or curtailment of material contracts;

changes in demand for, or prevailing market prices of, our products and services;

inaccurate forecasts of our inventory requirements;

changes in economic conditions;

increased competition;

failure to realize anticipated benefits from our agreements;

changes in our business strategy;

changes in government regulations and policies;

limited operational flexibility due to our significant indebtedness and other contractual restrictions;

loss of access to, or use of, our corporate headquarters building;

Edgar Filing: AVIALL INC - Form 424B3

limitations on our ability to use our net operating loss carryforward;

problems with the technology we use in connection with our operations;

foreign currency fluctuations and devaluations in our foreign markets; and

foreign political instability and acts of war or terrorism.

Other factors may cause our actual results to differ materially from the forward-looking statements. These forward-looking statements speak only as of the date of this prospectus supplement and, except as required by law, we do not undertake any obligation to publicly update or revise our forward-looking statements. We caution you not to place undue reliance on these forward-looking statements.

Table of Contents

AVIALL, INC.

We are the largest independent global provider of new parts, supply-chain management and other related value-added services to the aerospace aftermarket. The aerospace aftermarket consists of parts needed for the scheduled and unscheduled maintenance, repair and modification of aircraft already in use but does not include parts used in the construction of new aircraft or engines. We serve this market through our two wholly-owned subsidiaries, Aviall Services, Inc., or Aviall Services, and Inventory Locator Service, LLC, or ILS. Aviall Services provides new parts and related supply-chain management services to the aerospace industry, and ILS operates electronic marketplaces for buying and selling parts, equipment and services for the aerospace, defense and marine industries.

Aviall Services purchases a broad range of new parts, components and supplies from over 200 original equipment manufacturers, or OEMs, and resells them to over 17,500 government/military, general aviation/corporate and commercial airline customers, including over 290 airlines. Aviall Services also provides value-added services to our customers and suppliers, such as repair and assembly services, supply-chain management services and information-gathering and delivery services.

ILS operates electronic marketplaces for buying and selling parts, equipment and services for the global aerospace, defense and marine industries. With more than 13,000 users in more than 82 countries, ILS's electronic marketplaces contain more than 53 million line items representing over five billion parts for sale. ILS also maintains databases of over 112 million cross-referenced United States, or U.S., government records, allowing users to research manufacturers and prices for specific parts, locate alternate parts, find additional uses and markets for parts and review U.S. government procurement histories. ILS has been the leader in aerospace electronic marketplaces for more than two decades.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the following risks in addition to the other information contained in, and incorporated by reference into, this prospectus supplement and the accompanying prospectus before you decide whether to invest in our common stock. If any of the following risks actually occur, the trading price of our common stock could decline and you may lose all or part of your investment.

Risks Related to Us

Our dependence on the aerospace industry makes us susceptible to negative trends and adverse economic conditions in the aerospace industry.

Virtually all of Aviall Services' net sales and operating income are derived from the sale of parts, components, supplies and services to customers in the global aerospace and defense industry. As a result, Aviall Services' business is directly affected by trends and economic factors that affect flight activity in the aerospace industry, including fuel prices, economic cycles, inflation, labor instability and regulatory oversight, as well as factors that affect flying activity by the U.S. military and its allies.

Reduced flight activity generally results in reduced demand for parts, components, supplies and services by customers in the aerospace industry. Because a high proportion of Aviall Services' operating costs are relatively fixed, reduced sales may have a negative impact on its margins and earnings, as lower gross profits cannot be completely offset by lower expenses. Further, because we purchase parts, components and supplies from our suppliers in advance of orders from our customers based upon our estimates of future demand, reduced demand may have a materially detrimental impact on our cash flow and earnings. If expected sales do not materialize, our inventory levels could increase, resulting in increased financing requirements and interest expense and reducing the amount available under our \$200.0 million senior credit facility, or the Credit Facility.

Over the past three years, the demand for commercial air transport has been reduced by the prevailing global economic slowdown, terrorist attacks and their aftermath, and military activity in Iraq and Afghanistan, which has accelerated retirement of older aircraft and caused the deferral of nonessential aircraft maintenance and overhaul services. This has reduced the demand for our parts, components and supplies used on commercial aircraft. In addition, some commercial aviation operations have been reduced because commercial airlines, air freight carriers and other commercial airline-related firms around the world are experiencing large financial losses, which in some cases have resulted in bankruptcies. Although passenger traffic increased in the second half of 2003 and first quarter of 2004, we cannot predict the length of time required for a full recovery of the global commercial aviation sector, and any recovery could be hindered by a number of factors, including slower economic growth, foreign political instability or acts of war or terrorism.

In recent periods, we have relied heavily on increased flight activity by the U.S. military and foreign militaries, particularly with respect to aircraft utilizing the Rolls-Royce T56 series engine, or the RR T56, to offset the decrease in commercial aviation activity. The U.S. military and certain foreign militaries may not sustain their current levels of flight activity and demand for parts and components for military aircraft utilizing the RR T56 engine in particular may not continue to increase. As a result, we may be unable to realize fully all of the benefits that we hope to receive from our RR T56 engine parts agreement with Rolls-Royce. Moreover, if some or all of these militaries were to effect an extensive, protracted grounding of their fleets of C-130 Hercules transport aircraft, the primary aircraft on which RR T56 engines are utilized, our business would be severely impacted. Under the terms of our agreement with Rolls-Royce, we are required to purchase \$403.0 million of RR T56 engine parts from Rolls-Royce in 2004. As of March 31, 2004, we had purchased \$98.5 million of RR T56 parts. If demand for RR T56 engine parts

Edgar Filing: AVIALL INC - Form 424B3

decreases substantially, our inventory levels of RR T56 engine parts could grow to be larger than required to support our sales, increasing our financing requirements and interest expense and reducing the credit available under the Credit Facility.

S-4

Table of Contents

In addition, the demand for our parts, components and supplies could decrease if one or more of our customers were to eliminate or retire one or more of their aircraft fleet types. Further, the demand for our parts, components and supplies could decrease if intense competition in the aerospace industry or other factors cause one or more of our customers to go out of business. Any decreases in demand for our parts, components and supplies could have a material adverse effect on our business, financial condition or results of operations.

If our principal suppliers terminate or limit their relationships with us, our net sales could decline substantially and our business could otherwise be adversely affected.

We have several significant, long-term agreements with Rolls-Royce to sell its parts. In addition, we have several long-term agreements with Honeywell to sell its parts, which are significant in the aggregate. During 2003, 60% and 6% of Aviall Services' net sales were derived from sales of parts supplied by Rolls-Royce and Honeywell, respectively. We expect that these agreements will continue to represent a substantial percentage of our future net sales.

While our agreements with Honeywell and Rolls-Royce are ten-year agreements, each of these agreements contains a termination for convenience provision that allows the OEM supplier to terminate the agreement upon written notice on the dates and subject to the advance notice provisions set forth below:

Supplier	Parts	Earliest Date for Notice of Termination for Convenience	Notice Requirement
Rolls-Royce	RR T56 engine parts	January 1, 2007	120 days
Rolls-Royce	RR 250 engine parts	January 1, 2003	120 days
Honeywell	Hydromechanical controls for RR 250 and Honeywell LT101 series engines	January 1, 2002	60 days
Honeywell	Honeywell Engine Systems Accessories and Environmental Control Systems	April 1, 2006	60 days
Honeywell	Honeywell Engine Systems Accessories and Environmental Control Systems	June 27, 2002	30 days
Honeywell	Hydromechanical controls for RR T56 engines	June 30, 2004	60 days
Honeywell	Airline and general aviation lighting products	October 1, 2007	60 days

Honeywell and Rolls-Royce may also terminate these agreements if we materially breach or fail to make payments under these agreements, or if we become bankrupt or insolvent or commence bankruptcy proceedings. Furthermore, Rolls-Royce may terminate our agreements to provide RR T56 engine parts and Rolls-Royce 250 engine, or RR 250, parts upon 120-days prior written notice upon a change of control of Rolls-Royce, if we are acquired by a competitor of Rolls-Royce, or if we are acquired by a person that is not a competitor of Rolls-Royce and the acquisition causes our credit rating to fall one notch below our credit rating prior to the acquisition.

In the event that Rolls-Royce or Honeywell discontinues production of the products we sell or terminates or fails to perform under our agreements with them, and we are otherwise unable to obtain the parts we need to fulfill our customers' orders, our results of operations would likely be materially adversely affected.

Our largest customers represent a large percentage of our total business and loss of all or some of these customers could have a material adverse effect on our results of operations.

In 2003, Aviall Services' ten largest customers represented, in the aggregate, approximately 50% of its net sales, and Rolls-Royce, its single largest customer, accounted for approximately 41% of its net sales. Our sales to Rolls-Royce relate primarily to its role as prime contractor for RR T56 parts to the U.S. military. Pursuant to our parts agreement with Rolls-Royce, we ship U.S. military orders directly to U.S. military agencies on behalf of

S-5

Table of Contents

Rolls-Royce and then invoice Rolls-Royce for the parts shipped. As a result, because we purchase all RR T56 parts from Rolls-Royce and the majority of RR T56 parts we sell are to the U.S. military on behalf of Rolls-Royce, Rolls-Royce is both our largest customer and our largest supplier. The loss of Rolls-Royce as a supplier or the loss of the business that we conduct through Rolls-Royce with the U.S. military would, and the loss of all or some of our other large customers could, have a material adverse effect on our business, financial condition or results of operations.

Competition in our industry is intense, and if we do not compete effectively, we could lose market share and our business could otherwise be negatively affected.

With respect to Aviall Services, the market for aerospace parts, components and supplies is extremely competitive, and we face competition from a number of sources. Aviall Services competes with independent distributors, redistribution suppliers and aerospace OEMs who, in the aggregate, offer most of the same product lines to the same customers. Many of our existing and potential competitors have greater resources than us. Also, many of our agreements with our suppliers, including some, like those with Honeywell, which in the aggregate are significant to our business, are non-exclusive, and others, like those with Rolls-Royce, permit the supplier to sell its products directly to our customers. Additionally, from time to time, we face competition from individual airlines liquidating or reducing their inventories and, in the future, we may face pricing pressures from airline consortiums pooling their resources to purchase parts, components and supplies at discounted prices.

Numerous companies compete with ILS in the operation of global aerospace and marine-related electronic marketplaces. Our competitors in this area include airlines, manufacturers, distributors, independent companies, and their alliances, and we expect the competition in this area to increase in the future.

The failure of Aviall Services or ILS to compete in their respective markets could have a material adverse effect on our business, financial condition or results of operations.

If we fail to accurately forecast our inventory requirements, we may incur significant costs or lose customers and our business could otherwise be adversely affected.

We use complex rolling inventory forecasts based upon anticipated customer orders to determine what we purchase from our suppliers. Lead times for purchases from our suppliers vary significantly and depend on factors such as specific supplier requirements, contract terms and the then-current market demand for particular products. If we underestimate our product requirements, we may have insufficient inventory to meet demand, which could result in shipping delays, lost sales and dissatisfied customers. Alternatively, if we overestimate our product requirements, we may accumulate excess inventory, which could result in increased carrying costs and write-offs of inventory and related unamortized distribution rights.

In December 2001, we wrote off \$4.9 million of parts used on older commercial aircraft. Because many of these aircraft were temporarily grounded or permanently retired in the aftermath of the September 11, 2001 terrorist attacks, we experienced reduced demand for replacement parts and components used on these aircraft. We wrote off this excess inventory because of the likelihood that we would not be able to sell it in the future. In addition, we may be required to write-off inventory and related unamortized distribution rights when we stop selling a supplier's parts or components or when a supplier chooses to compete against us. Any future write-offs could have a material adverse effect on our business, financial condition or results of operations.

If our inventory does not meet specifications established by certain governmental agencies, we could incur significant costs and our operating performance could otherwise be negatively affected.

Our inventory consists primarily of new aerospace parts, components and supplies that we purchase from our suppliers. Before any part, component or supply item may be used on an aircraft, it must meet standards of condition established by the Federal Aviation Administration, or the FAA, the U.S. Department of Defense or the

Table of Contents

equivalent regulatory agencies in other countries, such as the Canadian Transport Authority in Canada, the Joint Aviation Authority in the European Union and the Civil Aviation Authority in Australia, New Zealand, Singapore and the United Kingdom. Although regulatory requirements in other countries generally coincide with applicable U.S. requirements, specific regulations may vary from country to country. In some instances, components, parts and supplies that we purchase must also be traceable to sources deemed acceptable by the appropriate regulatory agency.

Parts and components that we own or acquire may not meet applicable standards and are subject to changing standards, which could require us to modify or eliminate parts and components contained in our inventory. Aerospace parts manufacturers may also develop new parts and components to be used in lieu of parts and components already contained in our inventory. In all such cases, to the extent that we have such parts and components in our inventory, their value may be reduced.

Our significant indebtedness and other contractual obligations could adversely affect our financial health.

As of March 31, 2004, we had \$207.7 million of debt outstanding, including capital lease obligations. We also had significant commitments under our parts contracts with Rolls-Royce. In 2004, we have committed to purchase \$403.0 million of RR T56 parts and \$103.0 million of RR 250 parts from Rolls-Royce. As of March 31, 2004, we had purchased \$98.5 million of RR T56 parts and \$20.4 million of RR 250 parts. We also have significant obligations under operating leases.

As of March 31, 2004, we had approximately \$50.5 million of floating rate borrowings outstanding, primarily for fixed rate borrowings that have been effectively converted to floating rate borrowings through an interest rate swap agreement. In addition, the Credit Facility allowed for up to \$199.0 million of additional floating rate borrowings as of March 31, 2004. As a result, our floating rate borrowings could increase dramatically in the future. Future interest rate increases will increase the interest expense on our floating rate borrowings, which could be significant.

Our leverage could have important consequences. For example, it could:

make it difficult for us to satisfy our financial obligations, including making scheduled principal and interest payments on our 7.625% senior notes due 2011, or the Senior Notes, and our other indebtedness;

place us at a disadvantage relative to our competitors;

require us to dedicate a substantial portion of our cash flow from operations to fulfill contractual obligations and service payments on our indebtedness, thereby reducing funds available for other purposes;

increase our vulnerability to a downturn in general economic conditions or the industry in which we compete;

limit our ability to obtain additional financing for working capital, capital expenditures, acquisitions and general corporate and other purposes; and

Edgar Filing: AVIALL INC - Form 424B3

limit our ability to plan for and react to changes in our business and the industry in which we compete.

We and our subsidiaries will be able to incur substantial additional indebtedness in the future under our Credit Facility, any debt securities issued under our shelf registration statement and any other debt securities we issue to the extent permitted by the Credit Facility and the indenture governing the Senior Notes. Although the Credit Facility and the indenture governing the Senior Notes restrict us and our restricted subsidiaries from incurring additional debt, these restrictions are subject to important exceptions and qualifications. If we or our subsidiaries incur additional debt, the risks that we and they now face as a result of our leverage could increase.

S-7

Table of Contents

Our corporate headquarters, distribution network hub and over 90% of the value of our inventory reside in the same building. If we lose access to, or use of, this building, our business would be interrupted, which could adversely affect our business and results of operations.

Our corporate headquarters building near Dallas/Fort Worth International Airport is the hub for our distribution network. Over 90% of the value of our inventory resides in this building, and we receive and ship the majority of our inventory from this location. If we are unable to access this building because of security concerns, a natural disaster, a condemnation or otherwise or if this building is destroyed or materially damaged, our business would be materially adversely affected.

Furthermore, any damage to the building could damage some or all of the inventory stored in the building. If inventory is damaged, the FAA could require us to inspect each item before sale, which could take a significant amount of time and cause us to lose sales and customers. Any material loss of sales or customers would have a material adverse effect on our business and results of operations.

We have a disaster recovery plan to manage the use of our information technology and deal with telecommunications interruptions and other disasters, but this plan has not been tested in an actual disaster environment. In addition, we have business interruption insurance to both offset the cost of, and compensate us for, any event which interrupts our operations. However, the coverage may not be sufficient to compensate us for all potential losses and the conditions to the coverage may preclude us from obtaining reimbursement for some potential losses. While we have attempted to match our coverage to the most likely potential disasters and events that could interrupt our business, we may not have been able to foresee all the costs and implications of a disaster or other event and, therefore, the coverage may not be sufficient to reimburse us for our losses. Any material losses for which we are unable to obtain reimbursement may have a material adverse effect on our results of operations.

If our FAA repair authority is revoked or limited, we could incur significant costs and our growth could be hindered.

In 2003, Aviall Services' product overhaul, repair and final assembly activities, which are regulated by the FAA, represented approximately 5% of Aviall Services' net sales, including the parts used in these activities. The FAA prescribes standards and licensing requirements for aerospace components and effectively regulates component repair stations worldwide. Comparable agencies also regulate these matters in each of the foreign countries in which Aviall Services conducts operations. If Aviall Services loses the required FAA authority for its overhaul, repair and final assembly facilities, or loses the authority once it has been granted, the operation of that facility may be prohibited until it is able to obtain FAA authority.

While we believe that Aviall Services possesses all required domestic and foreign governmental certifications, the revocation or limitation of its FAA repair authority would have a material adverse effect on its overhaul, repair and final assembly operations. In addition, we may be forced to incur unanticipated costs to adapt Aviall Services' overhaul, repair and final assembly operations to any changes in FAA regulations. Moreover, for purposes of their own compliance with FAA requirements, some of our customers may require us to certify that our facilities, products and services meet certain standards and specifications. If we fail to meet these certification requirements or fail to maintain our certified status with one or more of our customers, our reputation could be harmed, which could have a material adverse effect on our business, financial condition or results of operations.

We are subject to risks associated with our international operations, and we may fail to implement strategies that adequately protect us against these risks.

Edgar Filing: AVIALL INC - Form 424B3

We sell our products to customers located in many countries around the world. Because we sell our products and services outside of the U.S., we are exposed to risks associated with selling and operating in foreign countries. These risks include:

fluctuations in currency exchange rates;

S-8

Table of Contents

political instability;

limitations on the conversion of foreign currencies into U.S. dollars; and

economic volatility.

During 2003, we derived approximately 21% of our total sales from selling our products and services to customers located outside of the U.S. and 4% of our aggregate sales were denominated in foreign currencies. The percentage of our net sales derived from selling our products and services outside of the U.S. could increase in the future.

Although we may enter into certain transactions to hedge the risk of foreign currency exchange rate fluctuations or take other steps to protect against these risks, we may be unable to fully protect ourselves against these risks. Any of these risks could have a material adverse effect on our business, financial condition or results of operations.

The interests of the selling stockholder may be inconsistent with the interests of our other equity holders.

After the consummation of the sale of common stock by the selling stockholder described in this prospectus supplement, the selling stockholder will beneficially own approximately 27.3% of our common stock (based upon the number of shares of our common stock outstanding on April 26, 2004). In addition, two managing directors of the selling stockholder are members of our board of directors. Furthermore, pursuant to an investor rights agreement between the selling stockholder and us, or the Investor Rights Agreement, we may not take certain actions without the selling stockholder's consent, including incurring certain types of additional debt, making specified payments and capital expenditures or issuing any class of capital stock that ranks senior to our common stock. As such, the selling stockholder asserts considerable influence over our operations. The interests of the selling stockholder may not be consistent with the interests of our other equity holders. Portions of the Investor Rights Agreement will continue in effect for so long as the selling stockholder continues to beneficially own at least 3.5% of our common stock.

The terms of our indebtedness and the Investor Rights Agreement could restrict our operations.

The terms of our indebtedness, including the Credit Facility and the indenture governing the Senior Notes, and the Investor Rights Agreement, contain covenants restricting our ability to, among other things, modify our corporate governance documents, incur certain additional debt, make specified payments and capital expenditures, authorize or issue capital stock, enter into transactions with our affiliates, consolidate, merge with or acquire another business, sell certain of our assets or liquidate, dissolve or wind-up our company. In addition, the terms of the Credit Facility require us to achieve and maintain certain specified financial ratios. These restrictions may limit our ability to engage in activities which could expand our business, including obtaining future financing, making needed capital expenditures, or taking advantage of business opportunities such as strategic acquisitions and dispositions, all of which could have an adverse effect on our business and results of operations.

Our failure to comply with the covenants contained in the Credit Facility or the indenture governing the Senior Notes could result in an event of default that could cause acceleration of our indebtedness.

Edgar Filing: AVIALL INC - Form 424B3

Our failure to comply with the covenants and other requirements contained in the indenture governing the Senior Notes, the Credit Facility or our other debt instruments could cause an event of default under the relevant debt instrument. The occurrence of an event of default could trigger a default under our other debt instruments, prohibit us from accessing additional borrowings, and permit the holders of the defaulted debt to declare amounts outstanding with respect to that debt to be immediately due and payable. Our assets or cash flow may not be sufficient to repay fully borrowings under our outstanding debt instruments, and we may be unable to refinance or restructure the payments on indebtedness on favorable terms or at all. An event of default under our Credit Facility or the Senior Notes, particularly if followed by an acceleration of any outstanding amounts, could have a material adverse effect on our business.

S-9

Table of Contents

We could incur significant costs and expenses related to environmental problems.

Various federal, state, local and foreign laws and regulations require property owners or operators to pay for the costs of removal or remediation of hazardous or toxic substances located on or emanating from their property. Some of our current operations, such as our battery repair and brake service centers, use small quantities of hazardous or toxic substances in their operations. Some of our previously owned businesses used certain chemicals classified by various federal, state, local and foreign agencies as hazardous substances. We have retained certain environmental liabilities related to these formerly owned businesses and/or properties and are involved in various stages of investigation and cleanup to comply with federal, state, local and foreign regulations related to these formerly-owned businesses and/or properties.

These same laws and regulations also impose liability for contaminations on persons who sent wastes to, or arranged for the disposal or treatment of hazardous or toxic substances at, the disposal or treatment facility. These laws and regulations generally impose liability regardless of whether the entity arranging for disposal ever owned or operated the disposal facility. In the United States, liability can be imposed retroactively and on a joint and several basis.

We have been named a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act and the Superfund Amendments and Reauthorization Act at five third-party disposal sites to which wastes were allegedly sent by the previous owner of assets used in our discontinued engine services operations. We did not use these identified disposal sites. Accordingly, the previous owner has retained, and has been discharging, all liability associated with the cleanup of these sites pursuant to the sales agreement. Although we could be potentially liable in the event of nonperformance by the previous owner, we do not anticipate that we will incur any significant costs in connection with these matters. In addition, we have two pending lawsuits related to previously owned businesses, which we believe to be immaterial.

As a past operator of businesses that used hazardous or toxic substances, we may be liable for additional removal or remediation costs, governmental penalties, property damage and related expenses. These costs and expenses could be significant and have a material adverse effect on our business, financial condition or results of operations.

If we improperly ship hazardous materials, we could incur substantial fines or damages.

The FAA exercises regulatory jurisdiction over and actively monitors the shipment of hazardous materials by air. Some of the products that we sell contain hazardous materials that are subject to these regulations, such as chemicals, oxygen generators, oxygen bottles and life rafts. We share responsibility with the air carrier for compliance with FAA regulations in shipping hazardous materials by air, and we are primarily responsible for the proper packaging and labeling of these items. If we mislabel or otherwise improperly ship hazardous materials, we may be liable for damage to the aircraft and other property as well as substantial monetary penalties. Such liability or monetary penalties, if imposed on us, could have a material adverse effect on our business, financial condition or results of operations.

Our failure to comply with the numerous laws and government regulations that govern our business could result in us being liable for material fines, penalties or damages or could restrict our operations.

In addition to regulation by the FAA, foreign civil aviation authorities and the U.S. Environmental Protection Agency, our operations are subject to numerous federal, state, local and foreign laws and government regulations. While we endeavor to comply with all applicable laws and

Edgar Filing: AVIALL INC - Form 424B3

government regulations, our operations may from time to time fail to fully comply with some of these laws and government regulations. Any violation of these laws or government regulations could result in material fines, penalties or damages being imposed on us or could result in restrictions or limitations on how we conduct our operations. Any such fines, penalties or damages or limitations on our operations could have a material adverse effect on our business and results of operations.

A significant failure of our computer systems or networks could increase our operating costs significantly, cause us to lose customers and otherwise adversely affect our business.

We depend upon our computer systems and networks to deliver our products and services, respond to the needs of our customers, sell and manage our inventory, perform accounting and administrative functions, provide product and other informational services and create ILS electronic marketplaces. The success of our businesses depends in part on our ability to provide superior reliability, capacity and security for both our Internet-based and dial-up systems. We are continually upgrading our computer networks and software. Our computer systems and networks, and the networks upon which we depend, are subject to factors that may cause interruptions in service or reduce capacity for our customers, including, but not limited to, physical damage, problems upgrading or integrating new hardware or software, power loss, capacity limitations, software defects and breaches of security due to computer viruses, break-ins or otherwise. Significant interruptions in service, capacity limitations or security breaches could disrupt our relationships with our suppliers and customers, which could have a material adverse effect on our business, financial condition or results of operations.

We plan to upgrade our Enterprise Resources Planning software during 2004 to our current supplier's latest version. We plan to use internal resources, as well as the supplier and other outside software consultants, to implement the upgrade by the end of the third quarter of 2004. To mitigate the risks associated with the implementation, we have installed a full hardware and software test environment, separate from our operating environment, to thoroughly test and validate the upgrade. While we have experience with the software and a detailed implementation plan, all software implementations of this complexity have inherent risks. We believe our plan mitigates any potential major disruption to our business from implementing the upgrade.

Advances in technology and evolving industry standards could increase our costs or cause us to lose customers.

The electronic marketplace business in which ILS operates is characterized by evolving industry standards and changing customer requirements. The introduction of new hardware or software or the emergence of new industry trends or standards could render our existing hardware, software or services obsolete, cause us to incur significant hardware, software, development or labor costs or cause us to write-off prior investments in hardware or software. For example, in the second quarter of 2003, we incurred a \$1.7 million impairment loss resulting from the write-off of a vendor software license purchased in 2001. We incurred this loss because we decided to pursue other cost-effective alternatives after the vendor changed its strategic focus. In addition, our failure to introduce new services and enhancements to our existing services in response to changing market conditions or customer or technology requirements could cause us to lose business to our competitors. Any of these risks, if realized, could have a material adverse effect on our business, financial condition or results of operations.

Our ability to use our net operating loss carryforwards and other deferred tax assets in the future could be limited, negatively affecting our results of operations and cash flows.

As of March 31, 2004, we had a \$50.5 million net deferred tax asset of which \$31.3 million relates to our U.S. federal net operating loss, or NOL, carryforwards. This equates to a gross U.S. federal NOL of approximately \$89.5 million, substantially all of which expires in 2011. While we believe we will generate sufficient future U.S. federal taxable income to utilize our U.S. federal NOL carryforwards before expiration, we also believe that we may not generate sufficient future taxable income in primarily state and foreign tax jurisdictions to utilize all of our state and foreign NOL carryforwards before their expiration.

Section 382 of the Internal Revenue Code, or Section 382, imposes limitations on a corporation's ability to utilize U.S. federal NOLs if it experiences an ownership change as defined in Section 382, or an Ownership Change. The amount of the annual limitation can vary significantly

Edgar Filing: AVIALL INC - Form 424B3

based on factors existing at the date of the Ownership Change. The value of the corporation's stock immediately before an Ownership Change is one of the most influential factors affecting the annual limitation calculation. If we had experienced an Ownership Change

S-11

Table of Contents

as of March 31, 2004, based on the closing price of our common stock on that date of \$15.20 per share, we believe the annual limitation imposed would not have impacted our ability to fully utilize our U.S. federal NOL. An Ownership Change under Section 382 may occur under circumstances which would not be considered as a change of control in other circumstances.

A substantial decrease in stock price combined with an Ownership Change could affect our ability to fully utilize our U.S. federal NOL carryforward and may have a material adverse effect on our results of operations and cash flows. We cannot determine the stock price or amount of Ownership Change which would result in a limitation of our U.S. federal NOL carryforward due to various factors including the timing of a future Ownership Change and the amount of U.S. taxable earnings earned prior to the Ownership Change.

Risks Related to Our Common Stock

Future sales or issuances of our common stock could depress the market price of our common stock.

After giving effect to this offering, the selling stockholder will beneficially own approximately 8,863,378 shares, or 27.3%, of our outstanding common stock (both as calculated under the rules and regulations promulgated by the Securities and Exchange Commission, or the SEC). Under a registration rights agreement between us and the selling stockholder, the selling stockholder may require us to register the offer and sale from time to time of the remaining shares of our common stock beneficially owned by it after this offering. In addition, we may sell shares of our common stock in the future or issue shares of our common stock to finance any future acquisitions that we may pursue. Furthermore, a substantial number of shares of our common stock is available for issuance in the future upon exercise of stock options that we have granted to our employees. We cannot predict the size of any future sales or issuances of shares of our common stock or the effect, if any, that future sales and issuances of shares of our common stock may have on the market price of our common stock. Any future sales or issuances of shares of our common stock, or the perception that such sales or issuances could occur, may adversely affect the market price of our common stock.

Other companies may have difficulty acquiring us, even if doing so would benefit our stockholders.

Provisions in our restated certificate of incorporation, amended and restated by-laws, the Delaware general corporation law, our agreements with Rolls-Royce and the terms of our indebtedness could make it more difficult for other companies to acquire us, even if doing so would benefit our stockholders. Our restated certificate of incorporation and amended and restated by-laws contain the following provisions, among others, which may discourage or prevent another company from acquiring us:

a staggered board of directors, where our stockholders each year elect approximately one-third of the directors who serve on our board of directors;

a limitation on who may call stockholder meetings;

a prohibition on stockholder action by written consent; and

advance notification procedures for matters to be brought before stockholder meetings.

Edgar Filing: AVIALL INC - Form 424B3

We are subject to provisions of the Delaware general corporation law that prohibit us from engaging in a business combination with any interested stockholder. These provisions generally mean that a stockholder who owns more than 15% of our voting stock cannot acquire us for a period of three years from the date that the stockholder became an interested stockholder, unless various conditions are met, such as approval of the transaction by our board of directors. In addition, our agreements with Rolls-Royce contain provisions allowing Rolls-Royce to terminate the agreements in certain cases if we are acquired. Furthermore, the terms of our Credit Facility and the Senior Notes contain provisions that restrict our ability to merge or consolidate with a potential acquiror. Any of the foregoing could impede a merger, takeover or other business combination involving us or discourage a potential acquiror from making a tender offer to acquire our common stock, which, under certain circumstances, could adversely affect the market price of our common stock.

S-12

Table of Contents

The market price for our common stock may be volatile.

The market price of our common stock could fluctuate substantially in the future in response to a number of factors, including, among others:

our performance and prospects;

the performance and prospects of our major customers or suppliers;

the depth and liquidity of the market for our common stock;

investor perception of us and the industry in which we operate;

general financial and other market conditions; and

domestic and international economic conditions.

In recent years, the public stock markets have experienced extreme price and trading volume volatility. This volatility has had a significant effect on the market prices of securities issued by many companies for reasons that may or may not be related to their operating performance. If the public stock markets continue to experience price and trading volume volatility in the future, the market price of our common stock could be adversely affected.

We do not anticipate paying cash dividends to our stockholders in the foreseeable future.

We intend to retain all of our earnings for use in our business and do not anticipate paying cash dividends to our stockholders in the foreseeable future. Further, covenants contained in our Credit Facility and Senior Notes restrict our ability to pay cash dividends under certain circumstances.

DIVIDEND POLICY

Our policy has been to reinvest earnings to fund future growth. Accordingly, we have not paid cash dividends on our common stock during the last five years. Except in limited circumstances, under the terms of the Credit Facility and the indenture governing the Senior Notes, we may not declare, pay or set aside cash dividends without the consent of the various parties thereto. Accordingly, we do not anticipate paying cash dividends on our common stock in the foreseeable future.

Table of Contents**SELLING STOCKHOLDER**

The table below sets forth with respect to the selling stockholder, based upon information available to us as of April 26, 2004, the number and percentage of outstanding shares of common stock beneficially owned, the number of shares of our common stock which may be offered by this prospectus supplement and the number and percentage of outstanding shares of common stock that will be owned assuming the sale of all of the registered shares of our common stock under this prospectus supplement.

The number and percentage of shares of common stock beneficially owned is determined under the rules of the SEC and is not necessarily indicative of beneficial ownership for any other purpose. Under these rules, any shares of common stock for which the selling stockholder has sole or shared voting power or investment power, and any shares of common stock underlying warrants that are exercisable by the selling stockholder within 60 days of April 26, 2004, are deemed to be outstanding and to be beneficially owned by the selling stockholder for purposes of computing the selling stockholder's percentage ownership. The percentage of common stock beneficially owned is based on 32,204,257 shares of our common stock outstanding as of April 26, 2004.

The selling stockholder is an affiliate of The Carlyle Group, a private equity firm. Two managing directors of The Carlyle Group currently sit on our board of directors.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement dated April 28, 2004, the selling stockholder has agreed to sell to Wachovia Capital Markets, LLC, or Wachovia, all of the shares being offered hereby.

The underwriting agreement provides that the underwriter is obligated to purchase all the shares of common stock in the offering if it purchases any of the shares, other than those shares covered by the over-allotment option described below.

The selling stockholder has granted to the underwriter a 30-day option to purchase up to 375,000 additional shares of common stock at the initial public offering price less the underwriting discounts and commissions. The option may be exercised only to cover any over-allotments of common stock.

The underwriter proposes to offer the shares of common stock to the public initially at the public offering price on the cover page of this prospectus supplement. After the initial public offering, the underwriter may change the public offering price.

The following table summarizes the compensation the selling stockholder will pay:

		Total	
	Per Share	Without Over-Allotment	With Over-Allotment
Underwriting discounts and commissions paid by the selling stockholder	\$ 0.175	\$ 437,500	\$ 503,125

The selling stockholder estimates that the total expenses of this offering will be \$127,000, all of which will be paid by us.

We, the selling stockholder and our directors who are affiliated with the selling stockholder have agreed not to offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock, whether any of these transactions are to be settled by delivery of our common stock or other securities, in cash or otherwise, without, in each case, the prior written consent of Wachovia for a period of 45 days after the date of this prospectus supplement. In addition, we, the selling stockholder and our directors who are affiliated with the selling stockholder have agreed not to make any demand for or exercise any right with respect to, the registration of any of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, without the prior written consent of Wachovia, for a period of 45 days after the date of this prospectus supplement. Notwithstanding the foregoing, we may without the prior written consent of Wachovia:

Edgar Filing: AVIALL INC - Form 424B3

grant stock options or restricted shares pursuant to our existing benefit plans, and issue shares of our common stock pursuant to the exercise of such options or lapsing of any vesting restrictions;

file registration statements on Form S-8 and amendments thereto in connection with our stock option, restricted stock or other employee stock purchase or benefit plans; and

issue shares of our common stock upon the exercise of any option or the lapsing of any vesting restrictions or the conversion or exchange of a security issued by us and outstanding on the date hereof.

We and the selling stockholder have agreed to indemnify the underwriter against liabilities under the Securities Act, or contribute to payments that the underwriter may be required to make in that respect.

S-16

Table of Contents

The shares of common stock to be sold in this offering have been listed on the NYSE.

In connection with the offering, the underwriter may engage in stabilizing transactions, over-allotment transactions and covering transactions in accordance with Regulation M under the Securities Exchange Act of 1934, as amended.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriter of shares in excess of the number of shares the underwriter is obligated to purchase, which creates a short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriter is not greater than the number of shares that it may purchase in the over-allotment option. In a naked short position, the number of shares involved is greater than the number of shares in the over-allotment option. The underwriter may close out any covered short position by either exercising its over-allotment option and/or purchasing shares in the open market.

Covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover short positions. In determining the source of shares to close out the short position, the underwriter will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which it may purchase shares through the over-allotment option. If the underwriter sells more shares than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

These stabilizing transactions and covering transactions may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the Securities and Exchange Commission, or the SEC, using a shelf registration process. Under this shelf registration process, we may sell from time to time any combination of the securities described in this prospectus in one or more offerings up to a total dollar amount of \$200,000,000. In addition, the selling stockholder referred to in this prospectus may offer and sell up to 7,000,000 shares of our common stock under this prospectus and any prospectus supplement. We will not receive any of the proceeds from any sale of shares by the selling stockholder.

This prospectus provides you with a general description of the securities we and the selling stockholder may offer and certain guarantees that may be provided by our subsidiaries. Each time we or the selling stockholder sell securities, we will provide a prospectus supplement containing specific information about the terms of those securities and any related subsidiary guarantees. The prospectus supplement may also add, update or change the information in this prospectus. If there is any inconsistency between the information in this prospectus and a prospectus supplement, you should rely on the information in the prospectus supplement. You should read this prospectus, the relevant prospectus supplement and the information described under the heading **Where You Can Find Additional Information**.

In this prospectus, the words **Aviall**, **Company**, **we**, **our**, **ours** and **us** refer to Aviall, Inc., and its subsidiaries, unless otherwise stated or the context requires.

CAUTIONARY LANGUAGE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements concerning our business, operations and financial performance and condition. When we use the words estimates, expects, forecasts, anticipates, projects, plans, intends, believes and variations of such words or similar expressions in this prospectus, we intend to identify forward-looking statements.

We have based our forward-looking statements on our current assumptions, expectations and projections about future events. We have expressed our assumptions, expectations and projections in good faith, and we believe there is a reasonable basis for them. However, we cannot assure you that our assumptions, expectations or projections will prove to be accurate.

A number of risks and uncertainties could cause our actual results to differ materially from the forward-looking statements contained in this prospectus. Important factors that could cause our actual results to differ

Table of Contents

materially from the forward-looking statements are set forth in this prospectus, including the factors described under the heading Risk Factors. These risks, uncertainties and other important factors include, among others:

- loss of key suppliers or significant customers;
- termination or curtailment of material contracts;
- changes in demand or prevailing market prices for the products and services we sell;
- changes in economic conditions;
- increased competition;
- failure to realize anticipated benefits from our agreements;
- changes in our business strategy;
- changes in government regulations and policies;
- limited operational flexibility due to our substantial leverage;
- foreign currency fluctuations and devaluations in our foreign markets; and
- foreign political instability and acts of war or terrorism.

Other factors may cause our actual results to differ materially from the forward-looking statements. These forward-looking statements speak only as of the date of this prospectus and, except as required by law, we do not undertake any obligation to publicly update or revise our forward-looking statements. We caution you not to place undue reliance on these forward-looking statements.

AVIALL, INC.

We are the largest independent global provider to the aerospace aftermarket of new aviation parts, supply-chain management and other related value-added services. We serve this market through our two wholly owned subsidiaries, Aviall Services, Inc., or Aviall Services, and Inventory Locator Service, LLC, or ILS. Through Aviall Services, we purchase new aviation parts, components and supplies from approximately 215 original equipment manufacturers, or OEMs, and resell them through our network of 41 customer service centers located in North America, Europe, Asia, Australia and New Zealand. In addition, through Inventory Locator Service, we operate an electronic marketplace for buying of and selling parts, equipment and services for the aviation, defense and marine industries.

Edgar Filing: AVIALL INC - Form 424B3

The global market for aerospace parts, components and supplies generally consists of two related segments: the new aircraft parts segment and the aftermarket parts segment. The new aircraft parts segment is comprised of parts, installed during the construction of new aircraft or engines. The aftermarket parts segment is comprised of parts needed for the scheduled and unscheduled maintenance, repair and modification of aircraft and engines already in use. Aviall Services primarily operates in the aftermarket segment's new parts group, providing new aerospace parts, components and supplies on behalf of OEMs to a diverse customer base. ILS principally operates in the aftermarket segment's redistribution group providing information and functionality for its subscribers and manages e-commerce technology for buyers and sellers of new and used, surplus and repaired aviation and aerospace parts and components, as well as repair services.

Aviall, Inc. is a Delaware corporation.

USE OF PROCEEDS

Unless otherwise set forth in the applicable prospectus supplement, net proceeds from the sale of the securities sold by us will be used for general corporate purposes. These purposes may include acquisitions,

Table of Contents

working capital, capital expenditures, the repurchase of outstanding securities and the repayment of indebtedness. Pending these applications, net proceeds from the sale of securities may be temporarily invested in short-term interest-bearing securities or other investment-grade securities. We will not receive any proceeds from sales of shares of our common stock by the selling stockholder.

RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to combined fixed charges and preferred stock dividends for the periods indicated below as calculated under SEC rules is as follows:

	Nine Months	Year Ended December 31,				
	Ended					
	September 30,	2002	2001	2000	1999	1998
	2003					
Ratio of earnings to fixed charges	1.7x	2.2x	1.3x	2.6x	2.9x	6.8x

For the purposes of calculating the ratio of earnings to fixed charges, earnings represents earnings from continuing operations before taxes plus fixed charges. Fixed charges include interest expense, amortization of deferred debt issuance cost, the portion of operating rental expense that management believes is representative of the appropriate interest component of rent expense, currently deemed to be one third, and the amount of pre-tax earnings required to pay preferred stock dividends.

RISK FACTORS

The prospectus supplement applicable to each type or series of securities we or the selling stockholder offer will contain a discussion of risks applicable to an investment in our company and industry and to the particular types of securities that we or the selling stockholder are offering under that supplement. Prior to making a decision about investing in our securities, you should carefully consider the specific factors discussed under the caption **Risk Factors** in the applicable prospectus supplement, together with all of the other information contained in the prospectus supplement or appearing or incorporated by reference in the registration statement of which this prospectus is a part.

DESCRIPTION OF DEBT SECURITIES

The following description sets forth some general terms and provisions of the debt securities to which any prospectus supplement may relate. The particular terms of the debt securities offered by any prospectus supplement and the extent, if any, to which such general provisions may not apply to the debt securities so offered will be described in the prospectus supplement relating to such debt securities. For more information please refer to the applicable indenture. Capitalized terms used in this prospectus that are not defined will have the meanings given to them in these documents.

Any senior debt securities will be issued under a senior indenture to be entered into among us, any of our subsidiaries guaranteeing such senior debt securities and the trustee named in the senior indenture, also referred to as the **senior trustee**. Any subordinated debt securities will be issued under a subordinated indenture to be entered into among us, any of our subsidiaries guaranteeing such subordinated debt securities and the trustee named in the subordinated indenture, also referred to as the **subordinated trustee**. As used in this registration statement, the term **indentures** refers to both the senior indenture and the subordinated indenture, as applicable. Both indentures will be qualified under the Trust Indenture Act. As used in this registration statement, the term **trustee** refers to either the senior trustee or the subordinated trustee, as applicable.

We currently conduct substantially all of our operations through our subsidiaries, and the holders of debt securities (whether senior debt securities or subordinated debt securities) will be effectively subordinated to the creditors of our subsidiaries except to the extent of any guarantee issued by our subsidiaries with respect to such debt securities as described in the applicable prospectus supplement.

If specified in the prospectus supplement, certain of our subsidiaries (each a **Subsidiary Guarantor**) will unconditionally guarantee (each such guarantee, a **Subsidiary Guarantee**) the debt securities as described under **Guarantees** and in the applicable prospectus supplement. The **Subsidiary Guarantee** will be an unsecured obligation of the **Subsidiary Guarantor**. **Subsidiary Guarantees** of subordinated debt securities will be subordinated to the senior debt of the subsidiary guarantor on the same basis as our subordinated debt securities are subordinated to our senior debt.

The following summaries of some material provisions of the senior debt securities, the subordinated debt securities, any related subsidiary guarantees and the indentures are subject to, and qualified in their entirety by reference to, all the provisions of the indenture and any supplemental indenture applicable to a particular series of debt securities, including the definitions in this registration statement of some terms. Except as otherwise indicated, the terms of any senior indenture and subordinated indenture, as applicable, will be identical.

General

Edgar Filing: AVIALL INC - Form 424B3

The terms of each series of debt securities will be established by or pursuant to a resolution of our board of directors and by a supplemental indenture. We will describe the particular terms of each series of debt securities in a prospectus supplement relating to that series.

Table of Contents

In particular, each prospectus supplement will describe the following terms relating to a series of debt securities as specified in a supplemental indenture:

the title and aggregate principal amount of the debt securities;

whether the debt securities are senior debt securities or subordinated debt securities and the terms of subordination;

whether the debt securities will be guaranteed and the terms of any such guarantees;

any provisions granting special rights to you when a specified event occurs;

any limit on the amount of debt securities that may be issued;

whether any of the debt securities will be issuable in whole or in part in temporary or permanent global form or in the form of book entry securities and, in such case, the identity for the depository for such series and if in global form whether beneficial owners of interests in any such global security may exchange such interests for securities of such series, and the form of legend or legends that shall be borne by any such global security;

the person to whom any interest payable on a debt security shall be payable, if other than the person in whose name that debt security is registered at the close of business on the regular record date for such payment;

the manner in which any interest payable on a temporary global security on any interest payment date will be paid, if other than in the manner provided in the indenture;

the maturity date(s) of the debt securities;

the annual interest rate(s) (which may be fixed or variable) or the method for determining the rate(s) and the date(s) interest will begin to accrue on the debt securities, the date(s) interest will be payable, and the regular record date(s) for interest payment date(s) or the method for determining the record date(s);

the place(s) where payments with respect to the debt securities shall be payable;

our right, if any, to defer payment of interest on the debt securities and the maximum length of any deferral period;

the date, if any, after which, and the price(s) at which, the series of debt securities may, pursuant to any optional redemption provisions, be redeemed at our option, and other related terms and provisions;

the date(s), if any, on which, and the price(s) at which, if applicable, we are obligated, pursuant to any mandatory sinking fund provisions or otherwise, to redeem, or at your option to purchase in whole or in part, the series of debt securities and other related terms and provisions;

Edgar Filing: AVIALL INC - Form 424B3

the denominations and currency in which the series of debt securities will be issued, if other than denominations of \$1,000 (or the equivalent amount in foreign currency) and any integral multiple thereof;

any mandatory or optional sinking fund or similar provisions respecting the debt securities;

the currency or currency units in which payment of the principal of, premium, if any, and interest on the debt securities shall be payable;

if the amount of payments of principal of (and premium, if any), and any interest on, the debt securities of the series may be determined with reference to any commodities, currencies or indices, values, rates or prices or any other index or formula, the manner in which such amounts shall be determined;

if other than the entire principal amount, the portion of the principal amount of debt securities of the series which shall be payable upon declaration of acceleration of the maturity of a series of debt securities in case of an event of default under the indenture;

any additional means of satisfaction and discharge, and any additional conditions to discharge, of the indenture;

Table of Contents

if the debt securities of the series are to be convertible into or exchangeable for our common stock (or cash in lieu thereof), equity securities, other debt securities (including other debt securities issued under the indenture), warrants or any other of our securities or property or any other entity, at our, or the holder of debt securities option or upon the occurrence of any condition or event, the terms and conditions for such conversion or exchange;

whether and under what circumstances we will pay additional amounts on any debt securities held by a person who is not a United States person for tax or other regulatory purposes and whether we can redeem the debt securities rather than pay these additional amounts;

any addition to, or modification or deletion of, any definition, any event of default or any covenant specified in the applicable indenture and supplement with respect to the debt securities;

the terms and conditions, if any, pursuant to which the debt securities are secured; and

any other terms of the debt securities.

Further, each prospectus supplement will describe the supplemental indenture provisions that amend the indenture without the consent of the holders of debt securities where such amendment is not specifically permitted under the indenture without such consent; provided, however, that any such amendment shall become effective only when there is no debt security of any series which (i) is outstanding, (ii) was created prior to the execution of the supplemental indenture providing for such change and (iii) is adversely affected by such amendment.

The debt securities may be issued as original issue discount securities as described in a prospectus supplement. An original issue discount security is a debt security, including any zero coupon debt security, which:

is issued at a price lower than the amount payable upon its stated maturity; and

provides that upon redemption or acceleration of the maturity, an amount less than the amount payable upon the stated maturity, shall become due and payable.

United States federal income tax considerations applicable to debt securities sold at an original issue discount security will be described in the applicable prospectus supplement. In addition, United States federal income tax or other considerations applicable to any debt securities which are denominated in a currency or currency unit other than United States dollars may be described in the applicable prospectus supplement.

Unless otherwise specified in a supplemental indenture, under the indentures, we will have the ability, in addition to the ability to issue debt securities with terms different from those of debt securities previously issued, without your consent, to reopen a previous issue of a series of debt securities and issue additional debt securities of that series, unless such reopening was restricted when the series was created, in an aggregate principal amount determined by us.

Conversion or Exchange of Rights

Edgar Filing: AVIALL INC - Form 424B3

The terms, if any, on which a series of debt securities may be convertible into or exchangeable for our common stock or other of our securities will be detailed in the prospectus supplement relating thereto. Such terms will include provisions as to whether conversion or exchange is mandatory, at your option, or at our option, and may include provisions pursuant to which the number of shares of our common stock or of our other securities to be received by you and other holders of such series of debt securities would be subject to adjustment.

Guarantees

Any senior or subordinated debt securities may be guaranteed by one or more of our direct and indirect subsidiaries. While each prospectus supplement will more fully describe any guarantees for the benefit of the series of debt securities to which it relates, unless otherwise indicated in the prospectus supplement, the following provisions will apply to the guarantees of the debt securities given by our subsidiaries.

Table of Contents

Subject to the limitations described below and in the prospectus supplement, our Subsidiary Guarantors will unconditionally guarantee the punctual payment when due, whether at the maturity date of the debt securities, by acceleration or otherwise, of all of our obligations under the indentures and the debt securities of a series, whether for principal of, premium, if any, or interest on the debt securities or otherwise (all such obligations guaranteed by our Subsidiary Guarantors, the Guaranteed Obligations).

In the case of subordinated debt securities, a Subsidiary Guarantee will be subordinated in right of payment to the senior debt of the Subsidiary Guarantor on the same basis as the subordinated debt securities are subordinated to our senior debt. No payment will be made by the Subsidiary Guarantor under its Subsidiary Guarantee during any period in which payments by us on the subordinated debt securities are suspended by the subordination provisions of the subordinated indenture.

Each Subsidiary Guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by such Subsidiary Guarantor without rendering such Subsidiary Guarantee voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

Each Subsidiary Guarantee will be a continuing guarantee and will:

remain in full force and effect until either (a) payment in full of all the Guaranteed Obligations (or the applicable debt securities are defeased and discharged in accordance with the defeasance provisions of the indentures) or (b) released as described in the following paragraph;

be binding upon the applicable Subsidiary Guarantor; and

inure to the benefit of, and be enforceable by, the applicable trustee, the holders of the debt securities and their successors and permitted transferees and assigns.

If a Subsidiary Guarantor ceases to be our subsidiary, whether as a result of a disposition of all or substantially all of the assets or all of the capital stock of the Subsidiary Guarantor, by way of sale, merger, consolidation or otherwise, the Subsidiary Guarantor will be deemed released and relieved of its obligations under its Subsidiary Guarantee without any further action required on the part of the trustee or any holder of debt securities, and no other person acquiring or owning the assets or capital stock of the Subsidiary Guarantor will be required to enter into a Subsidiary Guarantee; *provided*, in each case, that the transaction or transactions resulting in the Subsidiary Guarantor's ceasing to be subsidiary are carried out pursuant to, and in compliance with, all of the applicable covenants in the applicable indentures. Further, if we elect either defeasance and discharge or covenant defeasance under the terms of the indentures, then such Subsidiary Guarantor will also be deemed released and relieved of its obligations under its Subsidiary Guarantee without any further action required on the part of the trustee or any holder of debt securities. In addition, an applicable prospectus supplement may specify additional circumstances under which a Subsidiary Guarantor can be released from its Subsidiary Guarantee.

Consolidation, Merger or Sale

Unless noted otherwise in a prospectus supplement, the indentures and the supplemental indentures will not contain any covenant which restricts our ability to merge or consolidate, or sell, convey, transfer, or otherwise dispose of all or substantially all of our assets. However, any successor or acquirer of all or substantially all of our assets must assume all of our obligations under the indentures and any supplemental indentures or the

debt securities, as appropriate.

Events of Default under the Indentures

Unless otherwise specified in a supplemental indenture, an event of default typically will occur under the indentures with respect to any series of debt securities issued upon:

failure to pay interest on the debt securities when due if such failure continues for 30 days and the time for payment has not been extended or deferred;

Table of Contents

failure to pay the principal or premium of the debt securities, if any, when due;

in the case of debt securities guaranteed by one or more of our subsidiaries, the Subsidiary Guarantees being held by a final non-appealable order or judgment of a court of competent jurisdiction to be unenforceable or invalid or ceasing for any reason to be in full force and effect (other than in accordance with the terms of the applicable indenture) or such Subsidiary Guarantor or any person or entity acting on behalf of such Subsidiary Guarantor denying or disaffirming such Subsidiary Guarantor's obligations under its Subsidiary Guarantee (other than by reason of a release of such Subsidiary Guarantor from its Subsidiary Guarantee in accordance with the terms of the applicable Indenture).

failure to deposit any sinking fund payment, when due, for any debt security and in the case of the subordinated indenture, whether or not the deposit is prohibited by the subordination provisions;

failure to observe or perform any other covenant contained in the debt securities or the indentures other than a covenant specifically relating to another series of debt securities, if such failure continues for 90 days after we receive notice from a trustee or holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series;

if the debt securities are convertible into shares of our common stock or other of our securities, failure by us to deliver common stock or the other securities when you and other holders of the debt securities elect to convert the debt securities into shares of our common stock or other of our securities; and

particular events of bankruptcy, insolvency, or reorganization.

The supplemental indentures or the form of security for a particular series of debt securities may include additional events of default or changes to the events of default described above. For any additional or different events of default applicable to a particular series of debt securities, see the prospectus supplement relating to such series.

Subject to the provisions of the supplemental indentures, an event of default for a particular series of debt securities may, but does not necessarily, constitute an event of default for any other series of debt securities.

Unless otherwise specified in a supplemental indenture, if an event of default with respect to debt securities of any series occurs and is continuing, the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series, by notice in writing to us and to the trustee if notice is given by such holders, may declare the unpaid principal, premium, if any, and accrued interest, if any, due and payable immediately.

Subject to the provisions of the supplemental indentures, the holders of a majority in principal amount of the outstanding debt securities of an affected series may waive any default or event of default with respect to such series and its consequences, except defaults or events of default regarding payment of principal, premium, if any, or interest on the debt securities. Any such waiver shall cure such default or event of default.

Subject to the provisions of the supplemental indentures, in the case of any series of subordinated debt securities, the amounts collected by a trustee from us as a result of an event of default must first be applied towards any amounts due to the trustee and then to the payment of any senior series of debt securities before being paid to holders of such series of subordinated debt securities.

Edgar Filing: AVIALL INC - Form 424B3

Subject to the terms of the supplemental indentures, if an event of default under an indenture shall occur and be continuing, the trustee named in such indenture will be under no obligation to exercise any of its rights or powers under such indenture at your request or direction or that of any other holders of the applicable series of debt securities, unless you or such holders have offered the trustee reasonable indemnity. The holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time,

Table of Contents

method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of that series, provided that:

it is not in conflict with any law or the applicable indenture;

the trustee may take any other action deemed proper by it which is not inconsistent with such direction; and

subject to its duties under the Trust Indenture Act, the trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders not involved in the proceeding.

Subject to the terms of the supplemental indentures, as a holder of the debt securities of any series, you will only have the right to institute a proceeding or to appoint a receiver or trustee, or to seek other remedies if:

you have given written notice to the trustee of a continuing event of default with respect to that series;

the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made written request, and have offered reasonable indemnity to the trustee to institute such proceedings as trustee; and

the trustee does not institute such proceeding, and does not receive from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series other conflicting directions within 60 days after such notice, request, and offer. These limitations do not apply to a suit instituted by you if we default in the payment of the principal, premium, if any, or interest on, your debt securities.

Subject to the terms of the supplemental indentures, we will periodically file statements with the trustee regarding our compliance with all of the conditions and covenants in the indentures.

Modification of Indentures

We and a trustee may change an indenture without your consent with respect to specific matters, including:

to cure any ambiguity, omission, defect, or inconsistency in such indenture;

to provide for the assumption by a successor person of our obligations under such indenture;

to add guarantees, including subsidiary guarantees, with respect to debt securities or to release subsidiary guarantors from subsidiary guarantees as provided by the terms of the indenture or to secure debt securities;

Edgar Filing: AVIALL INC - Form 424B3

to add to the covenants for your benefit or to surrender any right or power conferred upon us;

to add additional events of default with respect to all, or a specific series, of the debt securities;

to supplement any of the provisions of the indenture to such extent as shall be necessary to permit or facilitate the defeasance and discharge of any series of securities in accordance with the terms of the indenture; provided, however, that any such action shall not adversely affect the interest of the holders of debt securities of such series or any other series of debt securities in any material respect;

to secure the securities or any subsidiary guarantee pursuant to the terms of such subsidiary guarantee;

to surrender any right conferred to us under the indenture;

to change or eliminate any provision of the indenture that does not materially adversely affect your interests as a holder of debt securities of any series; or

to comply with any requirement of the SEC in connection with the qualification of an indenture under the Trust Indenture Act.

Table of Contents

In addition, under the indentures, but subject to the terms of the supplemental indenture, your rights as a holder of a series of debt securities may be changed by us, any Subsidiary Guarantor and a trustee with the written consent of the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series that is affected. However, the following changes may only be made with the consent of each holder of any outstanding debt securities affected:

change the fixed maturity of such series of debt securities;

reduce the principal amount, reduce the rate of, or extend the time of payment of interest, or any premium payable upon the redemption of any such debt securities;

reduce the amount of principal of an original issue discount security or any other debt security payable upon acceleration of the maturity thereof;

change the place where principal or interest under the debt securities is payable;

a change in the currency in which any debt security or any premium or interest is payable;

impair the right to enforce any payment on or with respect to any debt security;

reduce the percentage in principal amount of outstanding debt securities of any series, the consent of whose holders is required for modification or amendment of the applicable indenture or for waiver of compliance with certain provisions of the applicable indenture or for waiver of certain defaults;

reduce the requirements contained in the applicable indenture for quorum or voting; or

modify any of the above provisions.

Form, Exchange and Transfer

The debt securities of each series will be issuable only in fully registered form without coupons and, unless otherwise specified in the applicable prospectus supplement, in denominations of \$1,000 (or the equivalent amount in foreign currency) and any integral multiple thereof. Subject to the terms of the supplemental indentures, the indentures will provide that debt securities of a series may be issuable in temporary or permanent global form and may be issued as book entry securities that will be deposited with, or on behalf of, The Depository Trust Company or another depository we name and identify in a prospectus supplement with respect to such series.

At your option, subject to the terms of the supplemental indentures and the limitations applicable to global securities described in the applicable prospectus supplement, debt securities of any series will be exchangeable for other debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Edgar Filing: AVIALL INC - Form 424B3

Subject to the terms of the supplemental indentures and the limitations applicable to global securities detailed in the applicable prospectus supplement, debt securities may be presented for exchange or for registration of transfer (duly endorsed or with the form of transfer endorsed thereon duly executed if so required by us or the security registrar) at the office of the security registrar or at the office of any transfer agent designated by us for such purpose. Unless otherwise provided in the debt securities to be transferred or exchanged, no service charge will be made for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges. The security registrar and any transfer agent (in addition to the security registrar) initially designated by us for any debt securities will be named in the applicable prospectus supplement. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the debt securities of each series.

Table of Contents

Subject to the terms of the supplemental indentures, if the debt securities of any series are to be redeemed, we will not be required to:

issue, register the transfer of, or exchange any debt securities of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any such debt securities that may be selected for redemption and ending at the close of business on the day of such mailing; or

register the transfer of or exchange any debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any such debt securities being redeemed in part.

Information Concerning Trustees

A trustee, other than during the occurrence and continuance of an event of default under an indenture, undertakes to perform only such duties as are specifically detailed in the indentures and, upon an event of default under an indenture, must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, a trustee is under no obligation to exercise any of the powers given it by the indentures at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses, and liabilities that it might incur. A trustee is not required to spend or risk its own money or otherwise become financially liable while performing its duties unless it reasonably believes that it will be repaid or receive adequate indemnity.

Payment and Paying Agents

Unless otherwise indicated in the applicable prospectus supplement, payment of the interest on any debt securities on any interest payment date will be made to the person in whose name such debt securities (or one or more predecessor securities) are registered at the close of business on the regular record date for such interest.

Principal of and any premium and interest on the debt securities of a particular series will be payable at the office of the paying agents designated by us, except that unless otherwise indicated in the applicable prospectus supplement, interest payments may be made by check mailed to the holder. Unless otherwise indicated in such prospectus supplement, the corporate trust office of a trustee in The City of New York will be designated as our sole paying agent for payments with respect to debt securities of each series. Any other paying agents initially designated by us for the debt securities of a particular series will be named in the applicable prospectus supplement. We will be required to maintain a paying agent in each place of payment for the debt securities of a particular series.

All moneys paid by us to a paying agent or a trustee for the payment of the principal of or any premium or interest on any debt securities which remains unclaimed at the end of two years after such principal, premium, or interest has become due and payable will be repaid to us, and the holder of the security thereafter may look only to us for payment thereof.

Legal Defeasance and Covenant Defeasance

Edgar Filing: AVIALL INC - Form 424B3

We at any time may terminate all of our obligations under the indenture and any applicable supplemental indenture (legal defeasance), except for certain obligations, including those respecting the defeasance trust and obligations to replace mutilated, destroyed, lost or stolen certificates representing the debt securities and to maintain a registrar and paying agent in respect of the debt securities. Additionally, we at any time may terminate certain covenants under the indenture or any supplemental indenture (covenant defeasance).

We may exercise our legal defeasance option notwithstanding our prior exercise of our covenant defeasance option.

Table of Contents

If we exercise our legal defeasance option, payment of the debt securities may not be accelerated because of an event of default with respect to the indenture or a supplemental indenture. If we exercise our covenant defeasance option, payment of the debt securities may not be accelerated because of an event of default relating to the terminated covenants.

The legal defeasance option or the covenant defeasance option may be exercised only if:

we irrevocably deposit in trust with the Trustee money or United States government obligations for the payment of principal of, premium, if any, and interest on the new notes to maturity or redemption, as the case may be;

we deliver to the Trustee a certificate from a nationally recognized firm of independent certified public accountants expressing their opinion that the payments of principal, premium, if any and interest when due and without reinvestment on the deposited United States government obligations plus any deposited money without investment will provide cash at such times and in such amounts as will be sufficient to pay principal, premium, if any, and interest when due on all debt securities to maturity or redemption, as the case may be;

91 days pass after the deposit is made and during the 91-day period we are not in default under the indenture as a result of the initiation of a bankruptcy or similar proceeding with respect to us or any other person or entity making such deposit which is continuing at the end of the period;

no event of default has occurred and is continuing on the date of such deposit and after giving effect to such deposit;

such deposit does not constitute a default under any other agreement or instrument binding on us;

we deliver to the Trustee an opinion of our legal counsel to the effect that the trust resulting from the deposit does not constitute, or is qualified as, a regulated investment company under the Investment Company Act of 1940;

in the case of the legal defeasance option, we deliver to the Trustee an opinion of our legal counsel stating that:

we have received from the Internal Revenue Service a ruling, or

since the date of the indenture there has been a change in the applicable federal income tax law, to the effect,

in either case, that, and based thereon such opinion of our legal counsel shall confirm that, the holders of the debt securities will not recognize income, gain or loss for federal income tax purposes as a result of such defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same time as would have been the case if such defeasance has not occurred;

in the case of the covenant defeasance option, we deliver to the Trustee an opinion of our legal counsel to the effect that the holders of the debt securities will not recognize income, gain or loss for federal income tax purposes as a result of such covenant defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred; and

Edgar Filing: AVIALL INC - Form 424B3

we deliver to the Trustee an officers certificate and an opinion of our legal counsel, each stating that all conditions precedent to the defeasance and discharge of the debt securities have been complied with as required by the indenture.

Governing Law

The indentures and the debt securities will be governed by and construed in accordance with the laws of the State of New York except for conflicts of laws provisions and to the extent that the Trust Indenture Act shall be applicable.

Table of Contents

Subordination of Subordinated Debt Securities

The indebtedness evidenced by the subordinated debt securities will, to the extent set forth in the subordinated indenture with respect to each series of subordinated debt securities, be subordinate in right of payment to the prior payment in full of all of our senior indebtedness, including the senior debt securities, and it may also be senior in right of payment to all of our other subordinated debt. The indenture supplement relating to any series of subordinated debt securities will include the subordination provisions of such series including:

the applicability and effect of such provisions upon any payment or distribution of our assets to creditors upon any liquidation, dissolution, winding-up, reorganization, assignment for the benefit of creditors or marshaling of assets or any bankruptcy, insolvency or similar proceedings;

the applicability and effect of such provisions in the event of specified defaults with respect to any senior indebtedness, including the circumstances under which and the periods in which we will be prohibited from making payments on the subordinated debt securities;

the definition of senior indebtedness applicable to the subordinated debt securities of that series and, if the series is issued on a senior subordinated basis, the definition of subordinated debt applicable to that series;

any changes to the subordination provisions of the indenture that we make without the consent of the holders of debt securities and which changes are not specifically permitted under the indenture without such consent; provided that such changes shall become effective only when there is no debt security of any series which (i) is outstanding, (ii) was created prior to the execution of the supplemental indenture providing for such change and (iii) is adversely affected by such change.

The indenture supplement will also describe as of a recent date the approximate amount of senior indebtedness to which the subordinated debt securities of such series will be subordinated.

The failure to make any payment on any of the subordinated debt securities by reason of the subordination provisions of the subordinated indenture described in the applicable supplemental indenture will not be construed as preventing the occurrence of an event of default with respect to the subordinated debt securities arising from any such failure to make payment.

The subordination provisions described above will not be applicable to payments in respect of the subordinated debt securities from a defeasance trust established in connection with any defeasance or covenant defeasance of the subordinated debt securities as described under - Legal Defeasance and Covenant Defeasance.

The foregoing description of debt securities and the indenture is a summary and is qualified in its entirety by the applicable indenture. Further, we may amend the applicable indenture without the consent of the holders of debt securities, even if such amendment is not specifically permitted without such consent; provided that such amendment shall become effective only when there is no debt security of any series which (i) is outstanding, (ii) was created prior to the execution of the supplemental indenture providing for such change and (iii) is adversely affected by such change.

We are authorized to issue 80,000,000 shares of common stock, par value \$0.01 per share. As of December 31, 2003, a total of 31,937,364 shares of our common stock were issued and outstanding. As of December 31, 2003, a total of 4,666,558 shares of common stock were reserved for issuance under our stock incentive plans. We are also authorized to issue 10,000,000 shares of preferred stock, par value \$0.01 per share. As of December 31, 2003, no shares of Preferred Stock were outstanding.

The following summary of our common stock and preferred stock is qualified in its entirety by reference to our Restated Certificate of Incorporation, our Amended and Restated By-laws, and the Delaware General Corporation Law, as amended.

Common Stock

Listing

Our common stock is listed on the New York Stock Exchange, under the symbol AVL. Any additional common stock that we issue will also be listed on the New York Stock Exchange, unless otherwise indicated in a prospectus supplement.

Dividends

Stockholders may receive dividends declared by our board of directors if, as and when our board of directors declares any such dividends. Our loan agreement contains restrictions on our ability to pay dividends.

Voting Rights

Each share of common stock is entitled to one vote in the election of directors and other matters submitted to our stockholders. Holders of our common stock do not have cumulative or preemptive rights. As a result, the holders of a majority of the outstanding shares of common stock voting for the election of directors can elect all the directors, and, in such event, the holders of the remaining shares of common stock will not be able to elect any persons to our board of directors.

Other Provisions

We will notify holders of common stock of any stockholders' meetings in accordance with applicable law. If we liquidate, dissolve or wind-up, whether voluntarily or not, our common stockholders will share equally in the assets remaining after we pay our creditors and holders of any preferred stock we have outstanding at the time of liquidation.

Transfer Agent and Registrar

EquiServe is the transfer agent and registrar for our common stock.

Preferred Stock

The following description of the terms of the preferred stock sets forth general terms and provisions of the preferred stock to which a prospectus supplement may relate. Specific terms of any series of preferred stock

Table of Contents

offered by a prospectus supplement will be described in the prospectus supplement relating to such series. You should read the certificate of designations establishing a particular series of preferred stock, which we will file with the SEC in connection with the offering of such series, for other provisions that may be important to you.

General

Our board of directors can, without approval of our stockholders, establish series of preferred stock. The board can also determine the number of shares of each series and the rights, preferences, privileges and restrictions including the dividend rights, voting rights, conversion rights, redemption rights and any liquidation preferences of any series of preferred stock and the terms and conditions of issue. In some cases, the issuance of preferred stock could delay a change in the persons and entities controlling us and make it harder to remove present management. Under certain circumstances, the terms of any preferred stock, which is subsequently issued, could also restrict dividend payments to holders of our common stock or restrict our ability to repurchase or redeem shares.

Other Provisions

The transfer agent, registrar and dividend disbursement agent for a series of preferred stock will be named in the applicable prospectus supplement. The registrar for preferred stock will send notices to stockholders of any meetings at which holders of the preferred stock have the right to elect directors or to vote on any other matter.

If we offer preferred stock, the specific terms of a particular series will be described in the prospectus supplement, and will include the following:

the price or prices at which the preferred stock will be issued;

the maximum number of shares to constitute the series and the distinctive designations of such series;

the dividend rate, or method of calculation, the dates on which dividends will be payable, whether dividends will be paid in preference to dividends on common stock, and whether dividends will be cumulative;

whether and the manner in which the preferred stock will be redeemable at our option or otherwise;

any liquidation preference applicable to the preferred stock;

whether and the manner in which the preferred stock will be subject to a retirement or sinking fund that requires us to repurchase the shares;

any conversion or exchange rights applicable to the preferred stock;

Edgar Filing: AVIALL INC - Form 424B3

any restrictions on the ability to sell or transfer the preferred stock;

any voting rights; and

any other restrictions, preferences, privileges, rights or limitations.

Delaware Anti-Takeover Statute

We are a Delaware corporation and are subject to Section 203 of the Delaware General Corporation Law. In general, Section 203 prevents us from engaging in a business combination with an interested stockholder (generally, a person owning 15% or more of our outstanding voting stock) for three years following the time that person becomes a 15% stockholder unless either:

before that person became a 15% stockholder, our board of directors approved the transaction in which the stockholder became a 15% stockholder or approved the business combination;

upon completion of the transaction that resulted in the stockholder s becoming a 15% stockholder, the stockholder owns at least 85% of our voting stock outstanding at the time the transaction began

Table of Contents

(excluding stock held by directors who are also officers and by employee stock plans that do not provide employees with the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer); or

after the transaction in which that person became a 15% stockholder, the business combination is approved by our board of directors and authorized at a stockholder meeting by at least two-thirds of the outstanding voting stock not owned by the 15% stockholder.

Under Section 203, these restrictions also do not apply to business combinations proposed by a 15% stockholder following the disclosure of an extraordinary transaction with a person who was not a 15% stockholder during the previous three years or who became a 15% stockholder with the approval of a majority of our directors. This exception applies only if the extraordinary transaction is approved or not opposed by a majority of our directors who were directors before any person became a 15% stockholder in the previous three years, or the successors of these directors.

Although the selling stockholder and its affiliates currently own over 15% percent of our common stock and acquired such stock pursuant to a transaction within the last three years, a majority of our directors approved the transaction. Consequently, Section 203 will not prevent us from engaging in a business combination with the selling stockholder or its affiliates.

Limitation on Directors Liability

Delaware has adopted a law that allows corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breach of directors' fiduciary duty of care. The duty of care requires that, when acting on behalf of the corporation, directors must exercise an informed business judgment based on all material information reasonably available to them. Absent the limitations allowed by the law, directors are accountable to corporations and their stockholders for monetary damages for acts of gross negligence. Although the Delaware law does not change directors' duty of care, it allows corporations to limit available relief to equitable remedies such as an injunction or rescission. Our Restated Certificate of Incorporation limits the liability of our directors to the fullest extent permitted by this law. Specifically, our directors will not be personally liable for monetary damages for any breach of their fiduciary duty as a director, except for liability

for any breach of their duty of loyalty to us or our stockholders;

for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

under provisions relating to unlawful payments of dividends or unlawful stock repurchases or redemptions; or

for any transaction from which the director derived an improper personal benefit.

This limitation may have the effect of reducing the likelihood of derivative litigation against directors, and may discourage or deter stockholders or management from bringing a lawsuit against directors for breach of their duty of care, even though such an action, if successful, might otherwise have benefited our stockholders.

DESCRIPTION OF WARRANTS

We may issue warrants to purchase debt securities, or debt warrants, as well as warrants to purchase preferred stock or common stock, or equity warrants. We refer to debt warrants and equity warrants collectively as warrants. Warrants may be issued independently or together with any securities and may be

Table of Contents

attached to or separate from those securities. We will issue warrants under warrant agreements to be entered into between us and a bank or trust company, as warrant agent. When we issue warrants, we will describe the specific terms of the warrants in a prospectus supplement.

Debt Warrants

The applicable prospectus supplement will describe the terms of debt warrants offered thereby, the warrant agreement relating to the debt warrants and the debt warrant certificates representing the debt warrants, including:

the title of the debt warrants;

the aggregate number of debt warrants;

the price or prices at which the debt warrants will be issued;

the designation, aggregate principal amount and terms of the debt securities purchasable upon exercise of the debt warrants, and the procedures and conditions relating to the exercise of the debt warrants;

the designation and terms of any related debt securities with which the debt warrants are issued, and the number of the debt warrants issued with each debt security;

the date, if any, on and after which the debt warrants and the related debt securities will be separately transferable;

the principal amount of debt securities purchasable upon exercise of each debt warrant;

the date on which the right to exercise the debt warrants will commence, and the date on which those rights will expire;

the maximum or minimum number of debt warrants which may be exercised at any time;

information with respect to book-entry procedures, if any;

a discussion of any material federal income tax considerations; and

any other terms of the debt warrants and terms, procedures and limitations relating to the exercise of the debt warrants.

Subject to the terms of the applicable prospectus supplement, debt warrant certificates will be exchangeable for new debt warrant certificates of different denominations. Debt warrants may be exercised at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement. Prior to the exercise of their debt warrants, holders of debt warrants will not have any of the rights of holders of the debt securities purchasable upon the exercise and will not be entitled to payment of principal of or premium, if any, or interest, if any, on the debt

securities purchasable upon the exercise.

Equity Warrants

The applicable prospectus supplement will describe the terms of equity warrants offered thereby, the warrant agreement relating to the equity warrants and the equity warrant certificates representing the equity warrants, including:

the title of the equity warrants;

the securities (i.e., preferred stock or common stock) for which the equity warrants are exercisable;

the price or prices at which the equity warrants will be issued;

if applicable, the designation and terms of the preferred stock or common stock with which the equity warrants are issued, and the number of equity warrants issued with each share of preferred stock or common stock;

Table of Contents

if applicable, the date on and after which the equity warrants and the related preferred stock or common stock will be separately transferable;

the date on which the right to exercise the equity warrants will commence, and the date on which those rights will expire;

the maximum or minimum number of equity warrants which may be exercised at any time;

information with respect to book-entry procedures, if any;

if applicable, a discussion of any material federal income tax considerations; and

any other terms of the equity warrants, including terms, procedures and limitations relating to the exchange and exercise of the equity warrants.

Unless otherwise provided in the applicable prospectus supplement, holders of equity warrants will not be entitled, by virtue of being such holders, to vote, consent, receive dividends, receive notice as stockholders with respect to any meeting of stockholders for the election of our directors or any other matter, or to exercise any rights whatsoever as stockholders.

Except as set forth in the applicable prospectus supplement, the exercise price payable and the number of shares of common stock or preferred stock purchasable upon the exercise of each equity warrant will be subject to adjustment in certain events, including the issuance of a stock dividend to holders of common stock or preferred stock or a stock split, reverse stock split, combination, subdivision or reclassification of common stock or preferred stock. In lieu of adjusting the number of shares of common stock or preferred stock purchasable upon exercise of each equity warrant, we may elect to adjust the number of equity warrants. Unless otherwise provided in the applicable prospectus supplement, no adjustments in the number of shares purchasable upon exercise of the equity warrants will be required until cumulative adjustments require an adjustment of at least 1% thereof. We may, at our option, reduce the exercise price at any time. No fractional shares will be issued upon exercise of equity warrants, but we will pay the cash value of any fractional shares otherwise issuable. Notwithstanding the foregoing, except as otherwise provided in the applicable prospectus supplement, in case of any consolidation, merger, or sale or conveyance of our property as an entirety or substantially as an entirety, the holder of each outstanding equity warrant shall have the right to the kind and amount of shares of stock and other securities and property (including cash) receivable by a holder of the number of shares of common stock or preferred stock into which the equity warrant was exercisable immediately prior to the particular triggering event.

Exercise of Warrants

Subject to the terms of the applicable prospectus supplement, each warrant will entitle the holder to purchase the principal amount, or number of, securities at the exercise price as shall in each case be set forth in, or be determinable as set forth in, the applicable prospectus supplement. Warrants may be exercised at any time up to the close of business on the expiration date set forth in the prospectus supplement relating to the warrants offered thereby. After the close of business on the expiration date, unexercised warrants will become void.

Subject to the terms of the applicable prospectus supplement, warrants may be exercised as set forth in the applicable prospectus supplement. Upon receipt of payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will, as soon as practicable, forward the securities purchasable upon that exercise. If less than all of the warrants represented by a particular warrant certificate are exercised, a new warrant certificate will be issued for

the remaining warrants.

DESCRIPTION OF UNITS

We may issue units consisting of two or more other constituent securities. These units may be issuable as, and for a specified period of time may be transferable as, a single security only, as distinguished from the separate constituent securities comprising such units. When we issue units, we will describe the specific terms of the units in a prospectus supplement including the following:

the title of any series of units;

identification and description of the separate constituent securities comprising the units;

the price or prices at which the units will be issued;

if applicable, the date on and after which the constituent securities comprising the units will become separately transferable;

information with respect to book-entry procedures, if any;

a discussion of any material federal income tax considerations; and

any other terms of the units and their constituent securities.

SELLING STOCKHOLDER

Pursuant to a registration rights agreement, dated as of December 21, 2001, as amended, we agreed to register certain securities owned by the selling stockholder and to indemnify the selling stockholder against certain liabilities related to the selling of the common stock, including liabilities arising under the Securities Act of 1933, as amended, or the Securities Act. Under the registration rights agreement, we also agreed to pay the costs and fees of registering the shares of common stock (including the reimbursement of fees paid by the selling stockholder to counsel); however, the selling stockholder will pay any brokerage commissions, discounts or other expenses relating to the sale of the shares of common stock.

The table below sets forth information about the selling stockholder's beneficial ownership of our common stock as of December 31, 2003 (such information has been provided by the selling stockholder). The selling stockholder may offer all, some or none of the shares of our common stock beneficially owned by it. The shares offered by this prospectus may be offered from time to time by the selling stockholder. As used in this prospectus, selling stockholder includes the successors-in-interest, donees, transferees or others who may later hold the selling stockholder's interests and who will be named in a supplement to this prospectus.

As of December 31, 2003, the selling stockholder beneficially owned 11,363,378 shares of our common stock by virtue of its beneficial ownership of 11,100,878 shares of our common stock and a warrant exercisable for 262,500 shares of our common stock. The selling stockholder is an affiliate of The Carlyle Group, a private equity firm. Two managing directors of The Carlyle Group currently sit on our board of directors.

PLAN OF DISTRIBUTION

Distribution by the Company or the Selling Stockholder

As used in this prospectus, **selling stockholder** includes the successors-in-interest, donees, transferees or others who may later hold the selling stockholder's interests and who will be named in a supplement to this prospectus. In all cases, the selling stockholder will act independently of us in making decisions with respect to the timing, manner and size of each sale. We or the selling stockholder may sell any of the securities being offered under this prospectus in any one or more of the following ways from time to time:

through underwriters or dealers;

through agents;

through a block trade in which the broker or dealer engaged to handle the block trade will attempt to sell the securities as agent, but may position and resell a portion of the block as principal to facilitate the transaction;

as exchange distributions in accordance with the rules of the applicable exchange;

directly to purchasers, including institutional investors;

to a broker-dealer, as principal, for resale by the broker-dealer for its account;

through privately negotiated transactions;

through remarketing firms;

short sales;

through a combination of any of these methods of sale; or

any other method permitted pursuant to applicable law.

Table of Contents

In addition, the selling stockholder may sell its common stock under Rule 144 of the Securities Act rather than under this prospectus, if the transaction meets the requirements of Rule 144, or by any other legally available means. The distribution of the securities described in this prospectus may be effected from time to time in one or more transactions either:

at a fixed price or prices, which may be changed;

at market prices prevailing at the time of the sale;

at prices relating to the prevailing market prices; or

at negotiated prices.

Underwriters or Dealers

Unless otherwise indicated in the applicable prospectus supplement, if underwriters or dealers are utilized in the sale, the securities will be acquired by the underwriters or dealers for their own account. The underwriters or dealers may sell the securities in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to several conditions set forth in an agreement between us and the underwriters. Unless otherwise indicated in the applicable prospectus supplement, the underwriters will be obligated to purchase all of the securities offered if any of the securities are purchased. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time. We or the selling stockholder may grant underwriters who participate in the distribution of securities an option to purchase additional securities if they sell more securities than they purchased.

During and after an offering through underwriters, the underwriters may purchase and sell the securities in the open market. These transactions may include over-allotment and stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering. The underwriters may also impose a penalty bid, in which selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the syndicate if such offered securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, these activities may be discontinued.

If we or the selling stockholder use dealers in the sale of securities, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. We will include in the prospectus supplement the names of the dealers and the terms of the transaction.

Agents

We or the selling stockholder may designate agents who agree to use their reasonable efforts to solicit purchasers for the period of their appointment or to sell securities on a continuing basis.

Direct Sales

We or the selling stockholder may also sell securities directly to one or more purchasers without using underwriters or agents.

Remarketing Firms

The securities may be re-sold to the public following their redemption or repayment by one or more remarketing firms. Remarketing firms may act as principals for their own accounts or as agents for us.

Table of Contents

Rights Offerings; Conversions

If we were to issue rights on a pro rata basis to our stockholders, we may be able to use this prospectus to offer and sell the securities underlying the rights. We may also be able to use the prospectus to offer and sell securities to be received upon conversion of any convertible securities we may issue or upon exercise of transferable warrants that may be issued by us or an affiliate.

General Information

Underwriters, dealers, agents and remarketing firms that participate in the distribution of the securities may be underwriters as defined in the Securities Act, and any discounts or commissions received by them from us and any profit on the resale of the securities by them may be treated as underwriting discounts and commissions under the Securities Act. Any underwriter, dealer, agent or remarketing firm will be identified and the terms of the transaction, including their compensation, will be described in a prospectus supplement or in a post-effective amendment to the registration statement of which this prospectus is a part. We or the selling stockholder may have agreements with underwriters, dealers, agents or remarketing firms to indemnify them against certain liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make. Underwriters, dealers, agents or remarketing firms, or their affiliates may be customers of, engage in transactions with or perform services for, us or our subsidiaries in the ordinary course of their business.

All securities, other than shares of common stock, will be new issues of securities with no established trading market. Any underwriters to whom securities are sold by us for public offering and sale may make a market in such securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of the trading market for any securities.

We or the selling stockholder may use agents and underwriters to solicit offers by certain institutions to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on the date stated in the prospectus supplement. Delayed delivery contracts will be subject to only those conditions set forth in the prospectus supplement. A commission indicated in the prospectus supplement will be paid to underwriters and agents soliciting purchases of securities pursuant to delayed delivery contracts accepted by us.

Hedging and Other Transactions

In addition to the manners of distribution described above, the selling stockholder may enter into hedging transactions. For example, the selling stockholder may:

enter into transactions with a broker-dealer or affiliate thereof in connection with which such broker-dealer or affiliate will engage in short sales of the common stock pursuant to this prospectus, in which case such broker-dealer or affiliate may use shares of common stock received from the selling stockholder to close out its short positions;

sell common stock short itself and redeliver such shares to close out its short positions;

Edgar Filing: AVIALL INC - Form 424B3

enter into option or other types of transactions that require the selling stockholder to deliver common stock to a broker-dealer or an affiliate thereof, who will then resell or transfer the common stock under this prospectus; or

loan or pledge the common stock to a broker-dealer or an affiliate thereof, who may sell the loaned shares or, in an event of default in the case of a pledge, sell the pledged shares pursuant to this prospectus.

Table of Contents

A distribution of the common stock by the selling stockholder may also be effected through the issuance by the selling stockholder or others of derivative securities, including without limitation, warrants, exchangeable securities, forward delivery contracts and the writing of options.

Pledges; Certain Transfers and Donations

From time to time, the selling stockholder may pledge or grant a security interest in some or all of our common stock owned by it. If the selling stockholder defaults in the performance of its secured obligations, the pledgees or secured parties may offer and sell such common stock from time to time by this prospectus. The selling stockholder also may transfer and donate our common stock owned by it in other circumstances. The number of shares of our common stock beneficially owned by the selling stockholder will decrease as and when the selling stockholder transfers or donates its shares of our common stock or defaults in performing obligations secured by its shares of our common stock. The plan of distribution for the securities offered and sold under this prospectus will otherwise remain unchanged, except that each of the transferees, donees, pledgees, other secured parties or other successors in interest will be a selling stockholder for purposes of this prospectus. The names of any transferees, donees, pledgees, or other secured parties or other successors in interest selling common stock under this prospectus will be included in the applicable prospectus supplement.

EXPERTS

The consolidated financial statements incorporated in the registration statement of which this prospectus is a part by reference to the Annual Report on Form 10-K for the years ended December 31, 2002 and 2001, have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, independent auditors, given on the authority of said firm as experts in auditing and accounting.

LEGAL MATTERS

The validity of the issuance of any securities offered under this prospectus will be passed upon for us by our lawyers, Haynes and Boone, LLP. Counsel named in the prospectus supplement will issue opinions about the validity of the securities for any agents, dealers or underwriters.
