TELECOM ARGENTINA S.A. ANNOUNCES

CONSOLIDATED NINE-MONTH PERIOD (9M04)

AND THIRD QUARTER (3Q04) RESULTS

FOR FISCAL YEAR 2004 *

MAJOR EVENTS AND DEVELOPMENTS

During 9M04 the following results were recorded:

- Ø Net Revenues amounted to P\$3,211MM (+ P\$500 MM or +18% vs. 9M03) mainly due to the expansion of the mobile business.
- Ø Operating Profit amounted to P\$208 MM (+P\$184 MM vs. 9M03).
- Ø Net loss of P\$491 MM (P\$ -1,270 MM vs 9M03) as a consequence of negative financial and holding results mainly due to higher interest and currency exchange losses.

Shareholders Equity amounted to P\$677 MM (-P\$919 MM or -58% vs. 9M03).

Net Financial Debt as of September 30, 2004 reached P\$7,127 MM (-P\$427 MM or -6%vs. 9M03).

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Ø The Ratio Net Financial Debt / Operating Profit before Depreciation and Amortization decreased to 4.8x (from 5.2x as of September 30, 2003).

The operations of the Company are still being influenced by the pesification and freeze of regulated tariffs. Additionally, the results of the Company continue to be highly impacted by the fluctuation of the exchange rate of the Peso vs the Dollar and the Euro.

Operating profit before depreciation and amortization, operating profit/(loss) and net income/(loss) for 3Q04 represented, 44%, 7% and (23%) of net sales, respectively; compared with 52%, 3% and (53%), respectively, for 3Q03.

Company Activities

Evolution of Consolidated Net Revenues

(9M04 vs. 9M03 comparison)

Consolidated net revenues for 9M04 totaled P\$3,211 million, an increase of P\$500 million, or 18%, compared with P\$2,711 million for 9M03. The increase can be largely attributed to the increase in demand, particularly in the cellular business in Argentina and in the Internet.

Fixed Telephony

In fixed telephony operations, local measured service revenues increased by P\$19 million, or 5%, to P\$377 million during 9M04. Domestic long distance revenues increased by P\$7 million, or 2%, reaching P\$322 million. Revenues from both local and domestic long distance telephony increased due to higher traffic.

Total traffic volume (Local and DLD), measured in minutes, increased by 4%.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Monthly charges increased by P\$23 million, or 5%, to P\$471 million for 9M04, mainly due to the increase in customer lines. Customer lines as of September 30, 2004 increased to approximately

Table of Contents

3,453,000, due to the recovery in demand, compared to approximately 3,328,000 as of September 30, 2003. However, the current level of lines in service is still 4% lower than before the economic crisis (December 2001). Moreover, monthly charges remained stable after the pesification and freeze enforced by the Argentine Government in January 6, 2002.

Revenues generated by interconnection services increased by P\$31 million, or 26%, to P\$150 million, mainly due to the increase of traffic transported by the fixed and cellular networks.

Regarding the international telephony activities during 9M04, revenues reached P\$158 million increasing by P\$2 million or 1%, mainly due to higher traffic.

Internet and Data Transmission

Revenues generated by the data transmission business totaled P\$251 million, representing an increase of P\$4 million, or 2%, mainly due to higher Internet traffic and to the increase in monthly fees charged to other operators of wholesale services for ADSL and dial-up connections, partially off-set by lower prices for data transmission services. As of September 30, 2004 total lines in service with ADSL connections amounted to 111,000, an increase of 49,000, or 79%, compared to approximately 62,000 as of September 30, 2003. Internet minutes represented 33% of total traffic measured in minutes transported over the fixed-line network.

Internet revenues from the Arnet unit increased by P\$13 million, or 30%, to P\$57 million, mainly due to a higher number of subscribers in ADSL high-speed accesses. As of September 30, 2004, the number of Arnet's ADSL subscribers reached approximately 70,000, while Internet dial-up customers reached approximately 156,000, increasing by 75% and 1%, respectively.

Cellular Telephony

The revenues generated by the cellular business during 9M04 increased by P\$388 million, or 47%, to P\$1,205 million.

Revenues of Telecom Personal in Argentina increased by P\$378 million, or 54%, to P\$1,084 million, mainly due to the higher number of subscribers, to the increase in outgoing and incoming traffic, and to the increase in sales of

Table of Contents

handsets as a consequence of the increase in the demand for cellular services and the development of the GSM network.

Furthermore, the average revenue per user increased by 14% (to P\$35 per customer, including revenues for TLRD or termination of calls coming from other cellular operators). Likewise, total cellular traffic increased by 42%.

Total cellular subscribers of Telecom Personal in Argentina reached approximately 3,375,000 at September 30, 2004, representing an increase of approximately 950,000 customers, or 39%.

Since the beginning of this fiscal year, the level of competition in the cellular market has increased significantly after the launch of GSM services. Accordingly, Telecom Personal continued to increase the coverage and capacity of its GSM network and has continued its marketing campaigns and promotions aimed to reposition its brand and strengthen its market leadership.

The customer base as of September 30, 2004 amounted to approximately 2,568,000 prepaid subscribers, representing 76% of the total customer base, and approximately 807,000 postpaid subscribers, representing the remaining 24%. These percentages were 82% and 18% respectively as of September 30, 2003.

Núcleo, Telecom Personal's subsidiary that provides cellular services in Paraguay, generated P\$121 million in revenues during 9M04, which are consolidated into the mobile telephony business together with the revenues of Telecom Personal. Núcleo's 9M04 revenues represented an increase of P\$10 million, or 9%.

As of September 30, 2004, Núcleo had approximately 458,000 customers, a decrease of approximately 12% due to the loss of dormant prepaid customers whose elimination from Núcleo's customer base was ordered by the Paraguayan regulatory authority.

Directories

In the telephone directories publishing business, revenues from the affiliated company Publicom increased by P\$4 million to P\$8 million during 9M04 due to higher sales of advertising space in Paginas Amarillas directories and the launch of several new special directories.

Evolution of Operating Costs

The cost of services provided, administrative expenses and selling expenses for 9M04 increased by P\$316 million, or 12%, to P\$3,003 million, mainly due to the increase in commissions for handset sales, cost of handsets, TLRD costs, in labor, materials and supplies, and advertising

Table of Contents

expenses. The evolution of costs is mainly related to the increase in sales and increasing competition in the mobile telephony business.

Salaries and social security contributions increased by P\$71 million, or 20%, to P\$434 million primarily due to the increase in headcount in Telecom Argentina as a consequence of the addition since October 1, 2003 of employees previously employed by third parties and whose costs were previously accounted for under Services Fees. Additionally, labor cost rose as a consequence of the increase in salaries granted during the second semester of last year. As of September 30, 2004, the headcount totaled 14,263, compared to 12,882 as of September 30, 2003.

The allowance for doubtful accounts decreased by P\$18 million, or 95%, to P\$1 million. This positive evolution was related to the improvement in the levels of collection and the recovery of past due accounts mainly in the fixed telephony business.

Sales commissions increased by P\$54 million, or 79%, to P\$122 million for 9M04, as a consequence of higher commissions paid for new customers and higher sales of cellular prepaid cards.

Costs related to advertising increased by P\$48 million, or 300%, to P\$64 million for 9M04. This increase was mainly due to higher media advertising expenses for the Internet and cellular businesses.

In the cellular telephony business, TLRD costs, which have been accounted since mid-2003, reached P\$90 million. Additionally, in 9M04 the cost of cellular handsets increased by P\$145 million reaching P\$150, million mainly due to the increase in handsets sales as a consequence of the cellular business growth after the launch of GSM service.

Depreciation of fixed and intangible assets decreased by P\$149 million, or 10%, to P\$1,274 million during 9M04 as a consequence of the end of the amortization period of certain assets.

Financial and Holding Results

The loss resulting from financial and holding results reached P\$622 million for 9M04 as compared to a gain of P\$529 million in 9M03. The difference can be largely attributed to a decrease of P\$935 million relating to net currency exchange differences. The gap was a consequence of the effect that the appreciation of the Argentine Peso against the Dollar and the EURO had on the financial debt of the Company during the 9M03 that was reversed in 9M04. Moreover, the depreciation of the Argentine Peso against the Dollar and the EURO during 9M04 prompted additional currency exchange losses.

Other Expenses

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Other expenses (net) decreased by P\$69 million, or 50%, to P\$69 million for the 9M04 mainly as a result of lower severance payments and lower provisions for lawsuits.

Cash flow and Net Financial Debt

Net Debt (Loans minus Cash and Banks plus Investments) decreased by P\$427 million, or 6%, to P\$7,127 million for 9M04 compared with 9M03 (P\$7,554 million), as a consequence of the cash flow generation of the company partially offset by accrued interest and exchange rate differences.

Investments

Of the total amount of P\$250 million invested during 9M04, P\$73 million, or 29%, corresponds to fixed-line telephony, data transmission and Internet, and P\$177 million or 71% to the cellular business as Telecom Personal continues with the deployment of its GSM network.

Debt Restructuring

On August 23, 2004 Telecom Argentina announced that it had achieved 94.47% participation in its *Acuerdo Preventivo Extrajudicial*, (**APE**) solicitation process launched on June 22, 2004.

The **APE** was filed with the courts in Argentina on October 21st, 2004.

Telecom Argentina cannot predict the timing of the court approval for its **APE** but expects to complete its **APE** process and issue the new notes and pay the cash consideration contemplated in the **APE** in the first half of 2005.

Additionally, Telecom Personal announced on October 6, 2004 that it had achieved 100% participation in its *Acuerdo Preventivo Extrajudicial* (**APE**) solicitation process. Given this strong participation and support from its creditor base, Telecom Personal is pursuing an out-of-court restructuring without seeking court approval of the **APE**. Telecom Personal expects to end its restructuring before the end of this fiscal year.

Telecom is the parent company of a leading telecommunications group in Argentina, where it offers directly or through its controlled subsidiaries local and long distance fixed-line telephony, cellular, PCS, data transmission, and Internet services, among other services. Additionally, through a controlled subsidiary the Telecom Group offers cellular services in Paraguay. The Company commenced operations on November 8, 1990, upon the Argentine Government's transfer of the telecommunications system in the northern region.

Nortel Inversora S.A. (**Nortel**), which acquired the majority of the Company from the Argentine government, holds 54.74% of Telecom's common stock. Nortel is a holding company where the common stock (approximately 68% of capital stock) is owned by Sofora Telecomunicaciones S.A.. Additionally, the capital stock of Nortel is comprised of preferred shares that are held by minority shareholders.

On September 30, 2004, Telecom had 984,380,978 shares outstanding.
