BANCFIRST CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands, except per share data)

(1) GENERAL

The accompanying consolidated financial statements include the accounts of BancFirst Corporation, Century Life Assurance Company, Council Oak Partners LLC, Wilcox & Jones, Inc., and BancFirst and its subsidiaries (the Company). The operating subsidiaries of BancFirst are Council Oak Investment Corporation, Citibank Insurance Agency, Inc., BancFirst Agency, Inc., Lenders Collection Corporation, and PremierSource, LLC. Three other operating subsidiaries of BancFirst, Mojave Asset Management Company, Desert Asset Management Company, and Delamar Asset Management Limited Partnership, were liquidated and dissolved in August 2004. One other operating subsidiary of BancFirst, Express Financial Corporation, was liquidated and dissolved in December 2004. All significant intercompany accounts and transactions have been eliminated. Assets held in a fiduciary or agency capacity are not assets of the Company and, accordingly, are not included in the consolidated financial statements.

The unaudited interim financial statements contained herein reflect all adjustments which are, in the opinion of management, necessary to provide a fair statement of the financial position and results of operations of the Company for the interim periods presented. All such adjustments are of a normal and recurring nature. There have been no significant changes in the accounting policies of the Company since December 31, 2003, the date of the most recent annual report. Certain amounts in the 2003 financial statements have been reclassified to conform to the 2004 presentation.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States inherently involves the use of estimates and assumptions that affect the amounts reported in the financial statements and the related disclosures. These estimates relate principally to the determination of the allowance for loan losses, income taxes and the fair values of financial instruments. Such estimates and assumptions may change over time and actual amounts realized may differ from those reported.

(2) RECENT ACCOUNTING PRONOUNCEMENTS

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51 (FIN 46) which provides guidance for determining when an entity should consolidate another entity that meets the definition of a variable interest entity. Special purpose entities and other types of entities are assessed for consolidation under this new guidance. FIN 46 requires a variable interest entity to be consolidated if the company will absorb a majority of the expected losses, will receive a majority of the expected residual returns, or both. FIN 46 was effective immediately for interests in variable interest entities acquired after January 31, 2003. It applied in the first interim period after June 15, 2003 to interests in variable interest entities acquired before February 1, 2003. As of October 9, 2003, the FASB deferred compliance with FIN 46 from July 1, 2003 to the first period ending after December 15, 2003 for variable interest entities created prior to February 1, 2003. However, the Company adopted FIN 46 on July 1, 2003, as originally issued, and de-consolidated BFC Capital Trust I. In December 2003, the FASB issued a revision of FIN 46 (Revised FIN 46) that codified the proposed modifications and other decisions

previously issued through certain FASB Staff Positions, made other revisions, and superceded the original FIN 46. The effect of this de-consolidation was to remove the \$25,000 of 9.65% Capital Securities and the related interest expense from the Company's consolidated financial statements, and instead report the \$25,000 as part of Junior Subordinated Debentures issued by BancFirst Corporation to the Trust, and the related interest expense thereon. A potential result of the de-consolidation of the Trust could be that the 9.65% Capital Securities and the 7.20% Cumulative Trust Preferred Securities described in note (3) would no longer be included in the Company's Tier 1 capital. The Federal Reserve Board has issued interim guidance that allows such securities to continue to qualify as Tier 1 capital while the issue of de-consolidation continues under review. In May 2004, the Federal Reserve Board requested public comment on a proposed rule that would retain trust preferred securities in Tier 1 capital, but with stricter limits.

In May 2003, the FASB issued FAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. This statement is effective for all new and modified financial instruments beginning with the first interim period beginning after June 15, 2003. FAS No. 150 changes the accounting for certain financial instruments that, under previous guidance, could be accounted for as equity and requires that those instruments be classified as liabilities, or assets in certain circumstances. The adoption of this new standard did not have a material effect on the Company's consolidated financial statements.

In March 2004, the FASB ratified EITF Issue No. 03-1, The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments, (EITF 03-1) which provides guidance on recognizing other-than-temporary impairments on certain investments. The Issue is effective for other-than-temporary impairment evaluations for investments accounted for under FAS No. 115, Accounting for Certain Investments in Debt and Equity Securities, as well as non-marketable equity securities accounted for under the cost method for reporting periods beginning after June 15, 2004. The adoption of this new standard did not have a material effect on the Company's consolidated financial statements.

In December 2004, the FASB issued FAS No. 123 (revised 2004), Share-Based Payment, which is a revision of FAS No. 123, Accounting for Stock-Based Compensation . FAS No. 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees , and amends FAS No. 95, Statement of Cash Flows . Generally, the approach in FAS No. 123(R) is similar to the approach described in FAS No. 123. However, FAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. FAS No. 123(R) must be adopted no later than July 1, 2005. Early adoption will be permitted in periods in which financial statements have not yet been issued. The Company expects to adopt FAS No. 123(R) on July 1, 2005.

(3) RECENT DEVELOPMENTS; MERGERS, ACQUISITIONS AND DISPOSALS

In January 2003, the Company repurchased 320,000 shares of its common stock for \$14,400. The shares were repurchased through a market-maker in the Company's stock and the repurchase was not a part of the Company's ongoing Stock Repurchase Program.

In October 2003, the Company completed the acquisition of Lincoln National Bancorporation (Lincoln) of Oklahoma City, Oklahoma for cash of \$16,949. Lincoln had consolidated total assets of approximately \$107,673. As a result of the acquisition, Lincoln was merged into the Company, and Lincoln's wholly-owned bank subsidiary, Lincoln National Bank, became a subsidiary of the Company and was merged into BancFirst in February 2004. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in the Company's consolidated financial statements from the date of the acquisition forward.

In November 2003, BancFirst completed the acquisition of the Hobart and Lone Wolf, Oklahoma branches of Gold Bank. As a result of the acquisition, BancFirst purchased approximately \$16,256 of loans and other assets, and assumed approximately \$40,465 of deposits, for a premium of approximately \$2,731. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in

the Company's consolidated financial statements from the date of the acquisition forward.

In January 2004, BancFirst Corporation established BFC Capital Trust II (BFC II), a trust formed under the Delaware Business Trust Act. BancFirst Corporation owns all of the common securities of BFC II. In February 2004, BFC II issued \$25,000 of aggregate liquidation amount of 7.20% Cumulative Trust Preferred Securities (the Trust Preferred Securities) to other investors. In March 2004, BFC II issued an additional \$1,000 in Trust Preferred Securities through the execution of an over-allotment option. The proceeds from the sale of the Trust Preferred Securities and the common securities of BFC II were invested in \$26,804 of 7.20% Junior Subordinated Debentures of BancFirst Corporation. Interest payments on the 7.20% Junior Subordinated Debentures are payable January 15, April 15, July 15 and October 15 of each year. Such interest payments may be deferred for up to twenty consecutive quarters. The stated maturity date of the 7.20% Junior Subordinated Debentures is March 31, 2034, but they are subject to mandatory

redemption pursuant to optional prepayment terms. The Trust Preferred Securities represent an undivided interest in the 7.20% Junior Subordinated Debentures, are guaranteed by BancFirst Corporation, and currently qualify as Tier 1 regulatory capital but could potentially be excluded in the future as discussed in note (2). During any deferral period or during any event of default, BancFirst Corporation may not declare or pay any dividends on any of its capital stock.

In October 2004, the Company completed the acquisition of Wilcox & Jones, Inc., an independent insurance agency headquartered in Tulsa, Oklahoma for \$4.8 million. As a result of the acquisition, Wilcox & Jones was merged into the Company and became a wholly-owned subsidiary of BancFirst Corporation. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition will be included in the Company's consolidated financial statements from the date of the acquisition forward.

In October 2004, the Company sold a minority interest it owned in a community bank and recognized a gain of approximately \$2.4 million.

The Company's loans are mostly to customers within Oklahoma and over half of the loans are secured by real estate. Credit risk on loans is managed through limits on amounts loaned to individual borrowers, underwriting standards and loan monitoring procedures. The amounts and types of collateral obtained to secure loans are based upon the Company's underwriting standards and management's credit evaluation. Collateral varies, but may include real estate, equipment, accounts receivable, inventory, livestock and

securities. The Company's interest in collateral is secured through filing mortgages and liens, and in some cases, by possession of the collateral. The amount of estimated loss due to credit risk in the Company's loan portfolio is provided for in the allowance for loan losses. The amount of the allowance required to provide for all existing losses in the loan portfolio is an estimate based upon evaluations of loans, appraisals of collateral and other estimates which are subject to rapid change due to changing economic conditions and the economic prospects of borrowers. It is reasonably possible that a material change could occur in the estimated allowance for loan losses in the near term.

Changes in the allowance for loan losses are summarized as follows:

	Three Months Ended December 31,		Year Ended December 31,

(7) CAPITAL

The Company is subject to risk-based capital guidelines issued by the Board of Governors of the Federal Reserve System. These guidelines are used to evaluate capital adequacy and involve both quantitative and qualitative evaluations of the Company's assets, liabilities, and certain off-balance-sheet items calculated under regulatory practices. Failure to meet the minimum capital requirements can initiate

certain mandatory or discretionary actions by the regulatory agencies that could have a direct material effect on the Company's financial statements. The required minimums and the Company's respective ratios are shown below.

	Minimum Required	December 31,	
		2004	2003
Tier 1 capital		\$ 293,650	\$ 240,532
Total capital		\$ 319,791	\$ 266,765
Risk-adjusted assets		\$ 2,304,018	\$ 2,136,970

Tier 1 capital ratio	4.00%	12.75%	11.26%
Total capital ratio	8.00%	13.88%	12.48%

To be well capitalized under federal bank regulatory agency definitions, a depository institution must have a Tier 1 Ratio of at least 6%, a combined Tier 1 and Tier 2 Ratio of at least 10%, and a Leverage Ratio of at least 5%. As of December 31, 2004 and 2003, the Company was considered to be well capitalized. There are no conditions or events since the most recent notification of the Company's capital category that management believes would change its category.

(8) STOCK REPURCHASE PLAN

In November 1999, the Company adopted a new Stock Repurchase Program (the SRP) authorizing management to repurchase up to 300,000 shares of the Company's common stock. The SRP was amended in May 2001 to increase the number of shares authorized to be purchased by 277,916 shares and was amended again in August 2002 to increase the number of shares authorized to be purchased by 182,265 shares. The SRP may be used as a means to increase earnings per share and return on equity, to purchase treasury stock for the exercise of stock options or for distributions under the Deferred Stock Compensation Plan, to provide liquidity for optionees to dispose of stock from exercises of their stock options, and to provide liquidity for shareholders wishing to sell their stock. The timing, price and amount of stock repurchases under the SRP may be determined by management and must be approved by the Company's Executive Committee. At December 31, 2004 there were 208,126 shares remaining that could be repurchased under the SRP. Below is a summary of the shares repurchased under the program.

	Three Months Ended		Year Ended
