Item 1.01 Entry into a Material Definitive Agreement.

See description under Item 2.03 of this Form 8-K.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

On June 28, 2005, we announced that we entered into a \$1 billion, 364-day bridge credit facility with a syndicate of 13 banks, co-managed by Citigroup Global Markets Inc. and UBS Securities LLC.

The proceeds drawn under this facility will be used to fund a portion of the short-term financing of our previously announced acquisition of the natural gas liquids businesses owned by Koch Industries, Inc. and its affiliates for approximately \$1.35 billion (the Koch Acquisition). Loans under the facility are available in a single drawing on the closing date of the Koch Acquisition.

The facility will mature on June 26, 2006, at which time all outstanding amounts will be due and payable. If we decide to sell assets or issue debt or equity in excess of certain thresholds, then certain prepayments of the facility with the net cash proceeds of such transactions would be required.

The credit facility agreement contains usual and customary covenants for transactions of this type, which are substantially similar to those contained in our other material bank debt arrangements. Those covenants include a provision that our ratio of consolidated total debt to total capital may not exceed 70.0% prior to March 31, 2006 and may not exceed 67.5% thereafter. For the purpose of calculating the ratio of consolidated total debt to total capital, our equity units are treated as 75% equity and 25% debt until the time that the common stock is issued pursuant to the terms of the equity units.

In the event of a default by us under the credit facility, CITIBANK, N.A., as agent on behalf of the lenders, may terminate the facility, declare the amounts outstanding, including interest, due and payable immediately and may exercise all other rights available under law.
