VIVO	Vivo launched a campaign in October 2005, called <i>Vivo e Você na Copa</i> (Vivo and You in the World Soccer Cup), which is focused on the current customer base (post and prepaid), aiming at increasing profitability. Such campaign will take 75 customers with companion to watch Brazil's games in the 2006 World Soccer Cup, being valid until March 31, 2006. To end the year, Vivo granted an unprecedented and quite attractive benefit, easily understood by the customers, which was intended to exploit freedom in using wireless phones with the <i>Natal Bônus Livre</i> (Free Bonus Christmas), a bonus of R\$ 40/month (during 6 months) for local calls to any direction (wireless or fixed telephone), conditioned upon monthly recharge and payment on time of postpaid bills, in addition to a data package (SMS and MMS)

Operating Highlights

Maintenance of market leadership as a result of the increase in the customer base by 8.3% in relation to 4Q04, recording 4,740 thousand customers, with 17.2% growth of postpaid customers, and net additions in this segment of 217 thousand customers in 2005, an important increase in relation to 2004.

SAC decreased by 16.6% and 4.9% in relation to 4Q04 and 3Q05, respectively, due to reduction in the total subsidy, at the same time keeping the efforts for customer retention, especially those of mid and high end.

The **blended ARPU** of R\$ 35.0 recorded 12.1% and 5.5% increases in relation to 3Q05 and 4Q04, respectively, as a result, among other factors, of the increase in the postpaid outgoing ARPU and changes in the customer mix (postpaid customer base grew 3.9% and 17.2%, representing 31.1% of the customer base in the 4Q05 and 30.6% and 28.8% in the 3Q05 and 4Q04, respectively). The 5.7% reduction in the accumulated total for the year is due, mainly, to the reduction in the inbound ARPU, due to the reduction in the fixed-mobile traffic.

Total MOU increased by 2.0% in relation to 3Q05, reflecting the increase in the postpaid MOU by 3.3%. When compared to the accumulated total for 2005 in relation to 2004, the 7.0% drop is due, mainly, to the reduction in the inbound MOU, keeping in mind that the pre-paid MOU is impacted by the reduction in the inbound fixed-to-mobile traffic.

Net Services Revenue

The net services revenue grew 18.0% and 12.4% in relation to 4Q04 and 3Q05, respectively, recording R\$ 488.7 million. Such growth is mostly caused by the increase in the customer base and greater use of data services, although partially offset by the effects of profile adequacy procedures, such as Vivo Ideal and other customer loyalty campaigns. The growth in the accumulated 2005 was 9.9%, recording R\$ 1,762.8 million.

Regarding the growth in the net services revenue it must be highlighted that subscription and usage revenue recorded 36.9% and 20.2% increases over 4Q04 and 3Q05, respectively, due to the increase in the total outgoing traffic, partially impacted by the transition from fixed-to-mobile traffic to mobile-to-mobile traffic (with consequent drop in interconnection revenue) and the partial Bill & Keep effect.

Data revenues, which are classified in other services, increased by 97.0%, in the year-to-year comparison, reaching 4.9% of the net service revenues in 4Q05 (2.9% in 4Q04). This increase has continued to occur due to a more widespread access and use of such services, in addition to the several services launched on the market and the increase in the customer base, notably in the expansion of the 1xRTT network in Rio de Janeiro. In 4Q05, the SMS accounted for 53.5% of data revenues. Average number of SMS messages sent per month in the year was some 19 million, exceeding by 58% the total recorded in 2004.

Personnel Cost

The reduction in personnel cost in 2005 in relation to 2004 is mainly due to adjustments in headcount, which is partially offset by salary increases caused by collective bargaining agreement. The positive variation between 4Q05 and 3Q05 is a result of the collective agreement signed in November and the reflexes in provisions and benefits.

Cost of Services Rendered

The 18.8% reduction in the cost of services rendered in 4Q05 over 4Q04 is due to an extraordinary effect in 4Q04, which increased the comparison basis. The 2.8% increase in the cost of services rendered in the year 2005 in relation to 2004 is a result of the increase in the Fistel Fee due to increase in the customer base, in leases/insurances and condominium fees, especially property lease, and also in third-party services, especially in connection with network maintenance and electric power, partially offset by a reduction in connection (network and transmission elements) and interconnection costs.

TELE SUDESTE CELULAR PARTICIPAÇÕES S.A.

<i>Cost of Goods Sold</i>	Cost of goods sold decreased by 36.6% in relation to 4Q04 and by 9.1% when comparing 2005 with 2004, due to the decreased number of activated handsets (gross additions decreased by 27.1% in 4Q05 over 4Q04 and by 9.9% in 2005 over 2004), as a result of market conditions.
<i>Selling Expenses</i>	<p>In 4Q05, selling expenses recorded a 32.5% increase over 4Q04 and 37.4% increase in the comparison between the year 2005 over 2004, caused by an increase in expenses with third-party services, especially publicity, commissions, and post-sale client care, related to the increase in total customer base recorded in 2005.</p> <p>The Provision for Bad Debt - PBD recorded the amount of R\$ 32.0 million in 4Q05 and R\$ 62.5 million in the year 2005.</p> <p>In addition to the effect from adjustments in the recognition of the acquisition of customers, it must be mentioned that the company provisioned revenue from receivables of calls made through the networks of other operators. Such values, according to the present regulation are obligatorily paid to the cited operators, independently of recognition of such calls from our clients. It must be said that structural measures and process actions have been adopted, including substitution of systems and certification of analog networks and TDMA of other operators to substantially reduce said expenses.</p> <p>Disregarding the above mentioned effects, we estimate that the PDD would have recorded R\$ 22.5 million for 4Q05 and R\$ 48.4 million for year 2005, in line with the business evolution.</p> <p>By the same criterion, we estimate that the EBITDA in 4Q05 would have been R\$ 147.8 million with an EBITDA Margin of 25.8%. For the year 2005 the EBITDA would have been R\$ 528.2 million with a 25.4% margin.</p>
<i>General and Administrative Expenses</i>	The general & administrative expenses recorded an increase of 192.5% in the 4Q05 compared to 4Q04 and it is due to an extraordinary effect in 4Q04, which increased the comparison basis. In the accumulated total for 2005 over 2004, it increased 32.7% due to the expenses with maintenance of systems and taxes.
<i>EBITDA</i>	<p>For 2005 the EBITDA (earnings before interests, taxes, depreciation and amortization) was R\$ 514.1 million, with 24.7% margin. The variation recorded in the EBITDA in the periods reviewed was caused, among other factors, by the drop in the revenue from sale of handsets, partially offset by the cost of goods sold, and also affected by the increase in the service selling costs (Third-party and PBD) and costs of services rendered (Fistel and other fees and contributions and third-party services).</p> <p>In 4Q05, the EBITDA recorded R\$ 138.3 million, with 24.1% margin, up 4.4 p.p. in relation to 4Q04 due, mainly, to the increase in the total net revenue and a reduction in the SAC.</p>
<i>Depreciation and Amortization</i>	In 4Q05, depreciation and amortization decreased by 3.9% over 4Q04, due to the end of the equipment depreciation period. When compared to 3Q05, the 5.3% growth is a result of the activation of assets due to the conclusion of work.

**Financial Revenues
(Expenses)**

The net financial revenues in 4Q05 increased by R\$ 1.0 million in comparison to 3Q05, especially due to the increase in the net cash position, which was partially offset by the reduction in the interest rate in the period (4.71% in 3Q05 and 4.31% in 4Q05), as well as to the PIS/Cofins expense (R\$ 2.6 million) on the allocation of the Interest on Own Capital which was paid in December 2005.

In the comparison of the accumulated total for 2005 with the same period of 2004, the net financial revenue recorded a R\$ 21.1 million increase due to an increase in the net cash position, as well as an increase in the actual interest rate in the period earned from financial investments (actual CDI of 16.17% in 2004 against 19.0% in 2005).

Net Profit

The company recorded a net profit of R\$ 33.2 million in the 4Q05 and R\$ 111.2 million in the accumulated total for 2005, 300.0% and 19.8% up in relation to 4Q04 and 2004, respectively.
