Just in case you hadn't seen the attached press release issued today by Discovery Partners International, Inc., or DPI (Nasdaq: DPII), we thought you would be interested to hear that DPI has now completed the sale of all of its drug discovery operations located in San Diego, CA.; South San Francisco, CA.; Basel, Switzerland and Heidelberg, Germany, to Galapagos NV (Euronext & LSE: GLPG).

This sale of DPI's assets to Galapagos represents a significant step toward what we expect will be the successful completion of our previously announced merger with DPI. From our perspective, the sale of all of DPI's discovery operations prior to the completion of our merger eliminates a major source of go-forward financial and operational risks for the merged company. It also ensures that, post-merger, Infinity's leadership team will be able to focus on continuing to advance our innovative product pipeline.

The successful completion of the merger will require the approval of the stockholders of each of DPI and Infinity. DPI and Infinity expect to submit the transaction to our respective stockholders for approval in the third quarter of 2006.

Please feel free to contact us if you have any questions.

Discovery Partners International Announces Completion of Sale of Drug Discovery Service Operations

SAN DIEGO, July 6 /PRNewswire Discovery Partners International, Inc., or DPI (Nasdaq: DPII), today announced the completion of the sale of all of DPI's drug discovery service operations to Galapagos NV (Euronext & LSE: GLPG) for \$5.4 million (EUR4.25 million) in cash.

The closing of this transaction has added to DPI's Net Cash balance for purposes of determining the exchange ratio to be used in DPI's previously announced merger with Infinity Pharmaceuticals, both by increasing DPI's cash position as well as by reducing the liabilities that will be deducted from its cash position in calculating the Net Cash balance under its merger agreement with Infinity.

About Discovery Partners International, Inc.

Prior to the completion of the transaction with Galapagos NV, DPI was a small molecule and natural product-based drug discovery company, offering collaborations and services complementing the internal capabilities of pharmaceutical and biopharmaceutical companies. Following the completion of this transaction, DPI no longer has any active operations. DPI is headquartered in San Diego.
