Forward-Looking Statements

When used in this quarterly report, the words believe, expect, anticipate and similar expressions, together with other discussion of future trends or results, are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are subject to certain risks and uncertainties, including known and unknown factors as included in the periodic filings by Smart & Final Inc. with the Securities and Exchange Commission and those discussed below that could cause actual results to differ materially from those projected. These forward-looking statements speak only as of the date hereof. All of these forward-looking statements are based on estimates and assumptions made by our management which, although believed to be reasonable, are inherently uncertain and difficult to predict; therefore, undue reliance should not be placed upon such statements. Actual results may differ materially and adversely from such statements due to known and unknown factors. The following important factors, among others, could cause our results of operations to be materially and adversely affected in future periods:

increased competitive pressures from other foodservice providers;

changes in our customer and vendor relationships;

deterioration in global, national or regional economic conditions;

inability to fund, execute or effectively manage our store expansion plan and related business growth;

interruption of the supply chain and/or inability to obtain adequate supplies of products;

resolution of litigation matters;

changes in state or federal legislation or regulation related to the sales and distribution of food and alcoholic beverage products that increases the costs of compliance or adverse findings by a regulator with respect to existing operations;

implementation of key information system initiatives and their effect on our operations including our system of internal control; and

events or circumstances impacting or resulting from the Merger Agreement and/or the Stock Purchase Agreement.

Many of these factors are beyond our control. Current and future operating trends and results may be impacted by other important factors.

Furthermore, there can be no assurance that we will not incur new or additional unforeseen costs or inefficiencies in connection with the ongoing conduct of our business, including costs or disruptions to our operations associated with the Merger Agreement. There can be no assurance as to the timing and consummation of the Merger Agreement and/or the Stock Purchase Agreement, or that a specific transaction will result.

Accordingly, any forward-looking statements included herein do not purport to be predictions of future events or circumstances and may not be realized. Additional information regarding these factors and other risks is included in Part I, Item 1A. Risk Factors of our 2006 Annual Report on Form 10-K, as amended. Except as specifically set forth below in Part II, Item 1A. Risk Factors and in Part II, Item 5. Other Information for material changes, if applicable, during the quarter ended March 25, 2007, we undertake no obligation to update any such forward-looking or other statement.

SMART & FINAL INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Accounting Policies

Basis of presentation

Smart & Final Inc. is a Delaware corporation and at March 25, 2007 was a 52.1 percent owned subsidiary of Casino USA, Inc. (Casino USA), a California corporation. References in this report to we, our and us are to Smart & Final Inc. and its subsidiaries, collectively.

Casino Guichard-Perrachon, S.A. (Groupe Casino), a publicly traded French joint stock limited liability company, is the principal shareholder of Casino USA. Collectively, Groupe Casino and its subsidiaries own approximately 54.9 percent of our common stock as of March 25, 2007.

The accompanying consolidated financial statements are unaudited except for the consolidated balance sheet as of December 31, 2006, which was derived from audited financial statements. These unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial statements, and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X of the Securities Act of 1933, as amended. In the opinion of management, these financial statements include all adjustments, which consisted of normal recurring items necessary for a fair presentation for such periods but should not be considered as indicative of results for a full year. Certain reclassifications have been made to prior periods to conform to current presentations. Accordingly, these unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our 2006 Annual Report on Form 10-K, as amended.

Fiscal years

Our fiscal year ends on the Sunday closest to December 31. Each fiscal year consists of twelve-week periods in the first, second and fourth quarters and a sixteen-week period in the third quarter.

Treasury stock

We record the repurchase of our common stock, as well as our common stock accepted from exercises of stock options, and stock appreciation rights (SARs) or as withdrawal penalty under the Supplemental Deferred Compensation Plan, as amended and the Directors Deferred Compensation Plan, as amended, as Treasury stock under Stockholders' equity on our consolidated balance sheets using the cost method. During the first quarter 2007, 13,112 shares were retained from an exercise of SARs at the cost of \$18.42 per share. At March 25, 2007, the balance of treasury stock was \$11.4 million, or 822,744 shares of our common stock.

Table of Contents

Share-based compensation

Effective beginning January 2, 2006, we adopted Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004) Share-Based Payment, which is a revision of SFAS No. 123, Accounting for Stock-Based Compensation. SFAS No. 123(R) requires all share-based payments to be recognized in the financial statements based on their fair values.

Upon adoption of SFAS No. 123(R), we selected the Black-Scholes multiple option-pricing model to determine the grant date fair value for each stock option and SAR grant. The Black-Scholes multiple option-pricing model requires extensive use of subjective assumptions. These assumptions include the length of time between vesting and exercising, the estimated volatility of our common stock price over the expected term and the risk-free interest rate. Application of alternative assumptions could produce significantly different estimates of the fair value of share-based compensation and consequently, the related amounts recognized in our consolidated statement of operations.

We recognize compensation cost only for those awards which the requisite service is expected to be provided by estimating its forfeiture. The cumulative compensation cost recognized reflects the impact of actual forfeiture.

We reported the share-based compensation under Operating and administrative expenses on our consolidated statements of operations and under Additional paid-in capital in the Stockholders equity section on our consolidated balance sheets. During the first quarter 2007, one restricted stock grant attained its market condition and accordingly, we recorded \$0.3 million of compensation expense related to the accelerated vesting. Total share-based compensation cost recognized was \$0.9 million for the first quarter 2007 and \$0.3 million for the first quarter 2006. The related income tax benefit recognized was \$0.4 million for the first quarter 2007 and \$0.1 million for the first quarter 2006. The remaining unrecognized compensation cost related to the nonvested awards at March 25, 2007 was \$3.7 million.

(Loss) earnings per common share

(Loss) earnings per common share is calculated based on the weighted average common shares outstanding. Earnings per common share, assuming dilution, is based on the weighted average common shares and common share equivalents outstanding. Common share equivalents relate to outstanding stock options and SARs for our common stock and unvested restricted stock. The number of shares issued upon exercise during the 12 weeks ended March 25, 2007 was 165,788. Inclusion of common share equivalents in the calculation of loss per common share, assuming dilution, would be antidilutive; and accordingly, common share equivalents are excluded from such calculation.

Table of Contents

In accordance with SFAS No. 128, Earnings Per Share, the following table reconciles share amounts utilized to calculate earnings or loss per common share and earnings or loss per common share, assuming dilution:

	Twelve Weeks Ended	
	March 25, 2007	March 26, 2006
Net (loss) income, in thousands	\$ (700)	\$ 2,512
(Loss) earnings per common share	\$ (0.02)	0.08
Effect of dilutive stock equivalents		
(Loss) earnings per common share, assuming dilution	\$ (0.02)	\$ 0.08
Weighted average common shares	31,664,731	31,111,983
Effect of dilutive stock equivalents		699,611
Weighted average common shares and common share equivalents	31,664,731	31,811,594

Outstanding stock options and SARs with exercise prices greater than the average market price of the common stock during the reporting periods and those outstanding awards that were anti-dilutive after the treasury method was applied were not included in the computation of diluted earnings per share.

2. New Accounting Pronouncements*SFAS No. 158*

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106 and 132(R). SFAS No. 158 requires an employer to a) recognize in its statement of financial position an asset for a plan s overfunded status or a liability for a plan s underfunded status; b) measure a plan s assets and its obligations that determine its funded status as of the end of the employer s fiscal year; and c) recognize changes in the funded status of a defined benefit postretirement plan in the year in which the changes occur and report these changes in comprehensive income. We adopted SFAS No. 158 regarding the recognition element as of December 31, 2006. The requirement to measure plan assets and benefit obligations as of the end of the employer s fiscal year is effective for fiscal years ending after December 15, 2008. We do not expect the adoption of the remaining elements of SFAS No. 158 will have any material impact on our results of operations or financial position.

SFAS No. 157

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, which provides guidance for using fair value to measure assets and liabilities whenever other standards require or permit and expands disclosure associated with fair value measurements. SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used by

Table of Contents

market participants when pricing the asset or liability. Under SFAS 157, fair value measurements would be separately disclosed by level within the fair value hierarchy. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We do not believe the adoption of SFAS No. 157 will have a material impact on our results of operations or financial position.

FIN No. 48

In July 2006, the FASB issued Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109. FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN No. 48 requires the enterprise to determine whether it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit can be recognized. Additionally, FIN No. 48 provides guidance on recognition measurement, derecognition, classification, related interest and penalties, accounting in interim periods, disclosure and transition. We adopted FIN No. 48 as of January 1, 2007 (see Note 7. Income Taxes).

3. Strategic Alternatives Review and Recent Developments

On April 2, 2006, we announced that our Board of Directors had initiated a review of our strategic alternatives in view of the announcement by Groupe Casino of its intention to sell a significant portion of its non-core assets by end of 2007. We engaged financial and legal advisors to assist in the review of our strategic alternatives. Costs associated with the assessment of strategic alternatives included in net loss for first quarter 2007 were \$1.1 million net of tax, or \$0.04 per diluted share.

On February 20, 2007, we entered into a definitive merger agreement (Merger Agreement) to be acquired by affiliates of Apollo Management, L.P. (Apollo). Pursuant to the Merger Agreement, each issued and outstanding share of our common stock will be converted into the right to receive \$22.00 per share in cash, other than (i) shares held by Casino USA, and (ii) shares owned by any stockholders who are entitled to and who properly exercise appraisal rights under Delaware law. An Apollo affiliate has also entered into a stock purchase agreement with Groupe Casino and Casino USA to purchase Casino USA for a purchase price based on the number of our shares held by Casino USA at the same \$22.00 per share priced to be paid in the Merger, subject to certain adjustments (this transaction is conditioned on the concurrent closing of the Merger Agreement).

The Merger Agreement is subject to approval by our stockholders, as well as other customary closing conditions, including the expiration or termination of the waiting period pursuant to the Hart-Scott-Rodino Antitrust Improvements Act of 1976. On March 28, 2007, Groupe Casino and Apollo were notified that they had received early termination of the waiting period.

On April 27, 2007 the Merger Agreement was amended to modify certain terms relating to our Board s ability to consider competing proposals to the Merger Agreement and relating to conditions under which Apollo must consummate the Merger Agreement. Also on April 27, 2007 we filed a definitive proxy statement and set May 29, 2007 as the date of the special meeting of stockholders of Smart & Final Inc. to consider and vote on the approval and adoption of the Merger Agreement, as amended.

Table of Contents

The Merger Agreement provides that, upon termination under specified circumstances, we would be obligated to pay Apollo a termination fee of \$25.0 million. These circumstances are more fully described in the definitive proxy statement filed with the Securities and Exchange Commission on April 27, 2007.

4. Debt

Amended Credit Facility

In November 2004, we entered into a \$150.0 million Amended and Restated Credit Agreement (Amended Credit Facility) with a syndicate of banks. The Amended Credit Facility is a secured revolving credit facility with a five-year term expiring on November 18, 2009. Interest for the Amended Credit Facility is at the base rate or at the reserve adjusted Eurodollar rate plus, in each case, an applicable margin. Commitment fees are charged on the undrawn amount at rates ranging from 0.15 percent to 0.50 percent. At March 23, 2007, the six-month Eurodollar LIBOR rate offered for borrowings in U.S. dollars was 5.32 percent.

At our option, the Amended Credit Facility can be used to support up to \$15.0 million of commercial letters of credit. Principal repayments may be required prior to the final maturity. Additionally, under certain conditions, pay-downs toward the facility are treated as permanent reductions to the amount committed. At March 25, 2007, \$25.0 million of revolving loans and \$5.6 million of letters of credit were outstanding. At March 25, 2007, we had \$119.4 million available under our Amended Credit Facility.

Lease Agreement

In November 2001, we entered into a five-year operating lease agreement (Lease Agreement) with a national banking association. Participants in the Lease Agreement structure include banks and financing institutions as well as Casino USA. At the end of the term, the Lease Agreement requires us to elect to purchase all the properties by a final payment of \$86.4 million or sell all the properties to a third party. If the properties are sold to a third party and the aggregate sales price is less than \$69.2 million, we are obligated to pay the difference of the aggregate sales price and \$69.2 million. The Lease Agreement expired on November 29, 2006.

Effective November 29, 2006, we entered into an agreement with the Lease Agreement parties to extend the maturity of the facility to May 29, 2007. The fixed rate pricing of the Lease Agreement tranches prior to scheduled maturity ranged from 8.72% to 11.22%. For the period of extension, the variable rate pricing of the Lease Agreement tranches will be at LIBOR plus a margin ranging from 0.725% to 0.95%. During the period of extended maturity, we may repay the Lease Agreement at any time without a prepayment penalty and we may also sell, without penalty, up to three properties in the Lease Agreement for a combined aggregate value not to exceed \$15.0 million without penalty.

During first quarter 2007, we sold one closed store location under the Lease Agreement. The \$2.6 million proceeds generated from the sale was used to reduce the value of the Lease Agreement, including \$0.6 million paid toward the interest held by Casino USA. At March 25, 2007, the Lease Agreement as amended, with a value of \$83.8 million, provided the financing for two distribution facilities and 19 store locations. At March 25, 2007, Casino USA held a \$19.5 million interest in the Lease Agreement.

Table of Contents

The current maturity date of the Lease Agreement coincides with the special meeting of stockholders to be held on May 29, 2007. Although the Merger Agreement provides for the extinguishment of the Amended Credit Facility and the Lease Agreement at time of closing, the closing of the Merger Agreement is not expected to be consummated as of May 29, 2007. Accordingly, we are assessing our options with respect to the maturity of the Lease Agreement. At this point in time we are unable to identify what specific course of action we will pursue.

The Lease Agreement is considered a variable interest entity and subject to consolidation under FIN No. 46, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51, as amended. Therefore, the related properties and notes payable are included in our consolidated balance sheets under Property, plant and equipment and under current liabilities as Current maturities of long-term debt and capital leases and, for the Casino USA participation, Notes payable to affiliate.

As of March 25, 2007, there was \$0.1 million cash funds in the real estate trust that are restricted as to their use which were reflected on our consolidated balance sheets as Cash held in real estate trust. These cash funds are the remainder of proceeds generated in 2003 from the sale of a Florida distribution facility and a Florida store property originally owned by the real estate trust that were subsequently used in 2004 to purchase six of our owned store properties by the real estate trust.

Collateral

Borrowings under both the Amended Credit Facility and the Lease Agreement are collateralized by security interests in our receivables, inventory and owned properties. Principal collateral for our obligations under the Lease Agreement includes specific properties and their fixtures and equipment, and additionally a collateral position, subordinate to the Amended Credit Facility, on receivables, inventory and owned properties not serving as principal collateral under the Lease Agreement. The Amended Credit Facility has as principal collateral, our cash and cash equivalents, receivables, inventory and owned properties that are not part of the principal collateral of the Lease Agreement, and has as a subordinate collateral position the properties and related assets that are the principal collateral of the Lease Agreement.

Covenants

The Amended Credit Facility and the Lease Agreement contain various customary and restrictive covenants, including restrictions on cash dividends declared or paid and additional debt and capital expenditures, and require us to maintain certain fixed charge coverage ratios and other financial ratios under each agreement. The covenants do not require us to maintain a public debt rating or a certain liquidity level.

As of March 25, 2007 we were in compliance with all covenants, as amended with the exception of one covenant contained in both the Amended Credit Facility and the Lease Agreement. Included in the calculation of the covenant for which we were not in compliance was approximately \$4.8 million of costs associated with our review of strategic alternatives. Without these costs we would have been in compliance. On April 23, 2007 we secured waivers of the event of default for the first quarter 2007 and the second quarter 2007 for both the Amended Credit Facility and the Lease Agreement. Our obligation of \$25.0 million under the Amended Credit Facility was classified as current maturities of long-term debt on our consolidated balance sheet at March 25, 2007 as the waiver does not cover a full one year period. The Amended Credit Facility expires on November 18, 2009 and accordingly, the obligation under this agreement was classified as long-term debt at December 31, 2006. The Lease Agreement has been classified as current maturities of long-term debt and notes payable to affiliate on our consolidated balance sheets at March 25, 2007 and December 31, 2006 due to its extended expiration in May 2007.

Table of Contents*Interest*

Interest paid on our debt aggregated \$2.0 million for the 12 weeks ended March 25, 2007 and \$2.3 million for the 12 weeks ended March 26, 2006.

The fair value of our debt, estimated based upon current interest rates offered for debt instruments of the same remaining maturity, approximates the carrying amount.

5. Retirement Benefit Plans and Postretirement and Postemployment Benefit Obligations*Defined benefit plan*

We have a funded noncontributory defined benefit retirement plan covering substantially all of our full time employees following a vesting period of five years of service. We fund this plan with contributions as required by the Employee Retirement Income Security Act of 1974 (ERISA).

The components included in the net periodic benefit cost for the periods indicated are as follows, in thousands:

	Twelve Weeks Ended	
	March 25, 2007	March 26, 2006
Service cost	\$ 880	\$ 916
Interest cost	1,406	1,325
Expected return on plan assets	(1,559)	(1,351)
Amortization of prior service cost	33	49
Amortization of net actuarial loss	500	733
Net periodic benefit cost	\$ 1,260	\$ 1,672

As we previously disclosed in our 2006 Annual Report on Form 10-K, as amended, we are not required to make any contributions for the 2007 plan year pursuant to the minimum funding requirement of ERISA; however, we may elect to contribute an amount ranging from \$4.0 million to \$6.0 million to this plan in 2007. During first quarter 2007, we made a \$4.0 million contribution to this plan.

Supplemental Executive Retirement Plan

We have in place a noncontributory supplemental executive retirement plan (SERP), which provides supplemental income payments for certain officers in retirement. We have invested in corporate-owned life insurance policies, which provide partial funding for the SERP.

Table of Contents

The components included in the net periodic benefit cost for the periods indicated are as follows, in thousands:

	Twelve Weeks Ended	
	March 25, 2007	March 26, 2006
Service cost	\$ 147	\$ 128
Interest cost	220	184
Amortization of prior service cost	30	30
Amortization of actuarial loss	82	58
Net periodic benefit cost	\$ 479	\$ 400

Postretirement and postemployment benefit obligations

We provide certain health care benefits for retired employees. Substantially all of our full time employees may become eligible for those benefits if they reach retirement age while still working for us. This postretirement health care plan is contributory with participants' contributions adjusted annually. The plan limits benefits to the lesser of actual cost for the medical coverage selected or a defined dollar benefit based on years of service. In addition, on a postemployment basis, we provide certain disability-related benefits to our employees.

The components included in the postretirement benefit cost for the periods indicated are as follows, in thousands:

	Twelve Weeks Ended	
	March 25, 2007	March 26, 2006
Service cost	\$ 183	\$ 182
Interest cost	270	276
Amortization of prior service cost	26	4
Net periodic benefit cost	\$ 479	\$ 462

6. Comprehensive (Loss) Income

Comprehensive (loss) income was computed as follows, in thousands:

	Twelve Weeks Ended	
	March 25, 2007	March 26, 2006
Net (loss) income	\$ (700)	\$ 2,512
Other comprehensive income:		
Foreign currency translation adjustments	83	17
Total other comprehensive income	83	17
Total comprehensive (loss) income	\$ (617)	\$ 2,529

Table of Contents

In accordance with accounting principles generally accepted in the United States, the functional currency for our Mexico operations has been the Mexican Peso. As such, foreign currency translation gains and losses are included in other comprehensive income.

7. Income Taxes

We adopted FIN No. 48 as of January 1, 2007 (See Note 2 New Accounting Pronouncements). As a result of the implementation of FIN No. 48, we recognized an increase of \$3.3 million in liabilities for uncertain tax positions, a charge of \$0.1 million to retained earnings and an increase of \$3.2 million in deferred tax assets. At the adoption date of January 1, 2007 and at March 25, 2007, we had \$5.7 million of unrecognized tax benefits, \$2.4 million of which would affect our effective tax rate if recognized.

We report interest and penalties related to uncertain tax positions under Income tax benefit (provision) on our consolidated statement of operations. During the first quarter 2007, we recognized an immaterial amount of interest expense and had approximately \$0.3 million of interest accrued as of March 25, 2007.

The tax years from 2002 to 2006 remain open to examination by the major tax jurisdictions to which we are subject.

Smart & Final Inc. and Casino USA are parties to a tax sharing arrangement covering income tax obligations in the state of California. Under this arrangement, we make tax sharing payments to, or receive benefits from, Casino USA based upon pre-tax income or loss for financial reporting purposes adjusted for certain agreed upon items.

Tax payments made to governments and Casino USA for the periods indicated are as follows, in thousands:

	Twelve Weeks Ended	
	March 25, 2007	March 26, 2006
Tax sharing (benefits received from) payments made to Casino USA	\$ 1,058	\$ 443
Taxes paid to federal government		
Taxes paid to states other than California		
Total taxes (benefits received) paid	\$ 1,058	\$ 443

8. Legal Actions

On February 21, 2007 and February 26, 2007, putative class actions entitled *City of Ann Arbor Employees Retirement System vs. Smart & Final Inc., et al.* and *Call 4U, LTD. vs. Smart & Final Inc., et al.* were filed against us and members of our board of directors in the Supreme Court of the State of California, County of Los Angeles. In each complaint, the named plaintiffs propose to represent a class of our stockholders and claim that, among other things, the proposed merger is the product of alleged breaches of duty and self-dealing by our board of directors. Along with

Table of Contents

other relief, the complaints seek an injunction against the closing of the proposed merger. We believe that the actions are without merit and that we have substantial defenses to the claims.

On April 27, 2007 we and members of our board of directors through counsel entered into a memorandum of understanding with counsel for the plaintiffs in the *City of Ann Arbor* and *Call 4U, LTD.* actions under which, subject to court approval, the two actions would be dismissed with prejudice. We have recorded a pre tax charge in the first quarter 2007 in the amount of \$0.9 million related to our legal defense fees and settlement costs associated with these actions.

We are named as a defendant in a number of other lawsuits or are otherwise a party to certain litigation arising in the ordinary course of our operations. We do not believe that the ultimate determination of these other cases will either individually or in the aggregate have a material adverse effect on our results of operations or financial position.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the accompanying unaudited consolidated financial statements and notes thereto and our 2006 Annual Report on Form 10-K, as amended. Our MD&A provides an overview of our results of operations for the 12 weeks ended March 25, 2007 as compared to the equivalent period of 2006. This is followed by a discussion and analysis of our cash flows, capital requirements and financing activities. Lastly, we discuss new accounting pronouncements and critical accounting policies incorporated in our reported financial statements.

Each of our fiscal years consists of twelve-week periods in the first, second and fourth quarters of the fiscal year and a sixteen-week period in the third quarter.

Summary

The major factors that impacted our results of operations and financial position for the 12-week quarters ended March 25, 2007 and March 26, 2006 are as follows:

Our first quarter 2007 sales increased 4.9 percent over the first quarter 2006, attributable to the comparable store sales growth of 3.8 percent as well as growth from the opening of new stores and relocated stores since the end of the first quarter 2006.

Gross margin rate decreased over the prior year quarter as a result of lower profit rate from product sales and higher store occupancy costs which were partially offset by decreased distribution costs.

Operating and administrative expense for the first quarter 2007 increased in dollars and as a percentage of sales as compared to the first quarter 2006 largely attributable to costs associated with our assessment of strategic alternatives and increased costs in information systems, store operations, litigation and share-based compensation, partially offset by increased gain from property sales.

We reported a net loss of \$0.7 million, or \$(0.02) per diluted share, for the 12 weeks ended March 25, 2007, compared to net income of \$2.5 million, or \$0.08 per diluted share, for the 12 weeks ended March 26, 2006.

We believe that our future growth depends on our ability to expand by opening new and relocated stores, undergoing remodels in the current stores to better serve our customers, and increasing our market presence by expanding our store formats. With the increasing competition within the retail grocery market, there is no assurance that our sales growth will maintain at the current level, and our profitability is dependent upon our leveraging sales growth while implementing effective cost controls.

Table of Contents**Recent Developments**

On February 20, 2007, we entered into an Agreement and Plan of Merger (the **Merger Agreement**) by and among Sharp Holdings Corp., a Delaware corporation (**Buyer**), Sharp Acquisition Corp., a Delaware corporation and wholly owned subsidiary of Buyer (**Acquisition Sub**), and us, pursuant to which Acquisition Sub will merge with and into Smart & Final Inc., with Smart & Final Inc. as the surviving corporation (the **Merger**). Buyer and Acquisition Sub are affiliates of Apollo Management, L.P., a Delaware limited partnership (**Apollo**).

Pursuant to the Merger Agreement, at the effective time of the Merger, each issued and outstanding share of our common stock, \$0.01 par value per share, will be converted into the right to receive \$22.00 per share in cash, other than (i) shares held by Casino USA, Inc. (**Casino USA**), our majority stockholder, and (ii) shares owned by any stockholders who are entitled to and who properly exercise appraisal rights under Delaware law. Concurrently with our entry into the Merger Agreement, Casino USA and Casino Guichard-Perrachon, S.A. (**Groupe Casino**), Casino USA's parent company, entered into a stock purchase agreement with Buyer pursuant to which Groupe Casino will sell all of the issued and outstanding shares of Casino USA to Buyer (the **Stock Purchase Agreement**). The price paid for Casino USA under the terms of the Stock Purchase Agreement will be based on the number of our shares held by Casino USA at the same \$22.00 per share price to be paid in the Merger, subject to certain adjustments.

Completion of the Merger is subject to customary closing conditions, including, among others, approval by our stockholders and expiration or termination of all waiting periods required under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the **HSR Act**). On March 28, 2007, Groupe Casino and Apollo were notified that they had received early termination of the waiting period under the HSR Act.

On April 27, 2007 the Merger Agreement was amended to modify certain terms relating to our Board's ability to consider competing proposals to the Merger Agreement and relating to conditions under which Apollo must consummate the Merger Agreement. Also on April 27, 2007 we filed a definitive proxy statement and set May 29, 2007 as the date of the special meeting of stockholders of Smart & Final Inc. to consider and vote on the approval and adoption of the Merger Agreement, as amended.

Results of Operations

The following table shows, for the periods indicated, certain consolidated statements of operations data, expressed as a percentage of sales. Totals may not aggregate due to rounding.

	Twelve Weeks Ended	
	March 25, 2007	March 26, 2006
Sales	100.0%	100.0%
Cost of sales, buying and occupancy	84.4	84.1
Gross margin	15.6	15.9
Operating and administrative expenses	15.7	14.5
(Loss) income from operations	(0.1)	1.4
Interest expense, net	0.4	0.5
(Loss) income before income taxes	(0.5)	0.8
Income tax benefit (provision)	0.2	(0.3)
Equity earnings of joint venture	0.2	0.1
Net (loss) income	(0.1)%	0.6%

Table of Contents

Comparison of Twelve Weeks Ended March 25, 2007 with Twelve Weeks Ended March 26, 2006.

Sales

Sales in the first quarter 2007 were \$468.5 million, an increase of 4.9 percent over the first quarter 2006 sales of \$446.8 million. Our first quarter 2007 comparable store sales increased by 3.8 percent compared to the 2006 level. We define comparable stores as those that have been in operation for 52 full weeks, including stores that have been remodeled or relocated within their same market area.

The year-to-year increase in comparable store sales was primarily attributable to the favorable increase in both average transaction and transaction count. In the first quarter 2007, the comparable average transaction increased by 2.3 percent to \$44.56 from \$43.54 for the first quarter 2006 and the transaction counts increased by 1.4 percent.

Gross margin

Gross margin represents sales less cost of sales, buying and occupancy. The major categories of costs included in cost of sales, buying and occupancy are cost of goods, distribution costs, costs of our buying department and store occupancy costs, net of earned vendor rebates and other allowances. Distribution costs consist of all warehouse receiving and inspection costs, warehousing costs, all transportation costs associated with shipping goods from our warehouses to our stores, and other costs of our distribution network. We do not exclude any portion of these costs from cost of sales.

Gross margin increased \$2.2 million, or 3.1 percent, to \$73.0 million for the first quarter 2007 as compared to \$70.8 million for the first quarter 2006. The increase in gross margin was primarily related to increased sales and decreased distribution costs, partially offset by decreased product margins and increased occupancy costs.

As a percentage of sales, gross margin was 15.6 percent for the first quarter 2007 as compared to 15.9 percent for the first quarter 2006. The 0.3 percent decrease was primarily due to the 0.56 percent decrease in gross profit rate from product sales and 0.18 percent increase in occupancy costs, partially offset by 0.52 percent decrease in distribution costs. The lower gross profit rate from product sales for the first quarter 2007 was partially attributable to increased inventory loss and promotional activities during the first quarter 2007 as compared to the same quarter of 2006. The increase in occupancy cost was due to the new and relocated stores and store remodeling. The decreased distribution cost was primarily due to decreased warehouse shrinkage and favorable labor related costs for the first quarter 2007 as compared to the first quarter 2006.

Table of Contents

Operating and administrative expenses

The major categories of operating and administrative expenses include store direct expenses associated with displaying and selling at the store level (primarily labor and related fringe benefit costs), advertising and marketing costs, overhead costs and corporate office costs.

Operating and administrative expenses increased \$8.8 million, or 13.6 percent, to \$73.5 million for the first quarter 2007 as compared to \$64.7 million for the first quarter 2006.

As a percentage of sales, operating and administrative expenses increased to 15.7 percent for the first quarter 2007 from 14.5 percent for the first quarter 2006. The 1.2 percent increase is comprised of 0.41 percent in costs associated with our assessment of strategic alternatives, 0.34 percent increase related to store operations, 0.28 percent increase in information system costs, primarily a result of increased costs associated with computer maintenance, consultants and software amortization, 0.19 percent in fees and settlement costs related to a stockholder litigation matter and 0.11 percent increase in share-based compensation. These increases were partially offset by a 0.22 percent increase in gain from sale of a store property during the first quarter 2007.

Interest expense, net

Interest expense, net decreased to \$1.8 million for the first quarter 2007 as compared to \$2.4 million for the first quarter 2006. The decrease was due to the lower average debt outstanding partially offset by slightly higher average interest rates. At the end of the first quarter 2007, the outstanding balance on the revolving credit facility was \$25.0 million, compared with \$40.0 million at the end of the first quarter 2006.

Income tax benefit (provision)

Income tax benefit was \$0.9 million as a result of the pretax loss for the first quarter 2007 as compared to income tax expense of \$1.4 million for the first quarter 2006. The effective tax rate for the first quarter 2007 was 39.6 percent and the effective tax rate for the first quarter 2006 was 39.1 percent.

Equity earnings of joint venture

Our wholly-owned subsidiary, Smart & Final de Mexico S.A. de C.V. (Smart & Final Mexico), is a Mexico holding company that owns 50 percent of a joint venture with the operators of the Calimax store chain. The joint venture operated 13 stores in Mexico as a Mexican domestic corporation as of March 25, 2007. Our interest in the joint venture is not consolidated and is reported on the equity basis of accounting. During the first quarter 2007, the equity earnings from the joint venture was \$0.7 million, as compared to \$0.3 million in the first quarter 2006.

Table of Contents

Liquidity and Capital Resources

Cash flows and financial positions

Net cash used in operating activities was \$0.1 million in the first quarter 2007, as compared to net cash used by operating activities of \$13.1 million in the comparable 2006 period. The increase or decrease in cash provided by operating activities reflects our operating performance and the timing of receipts and disbursements. The cash outflow in the first quarter of 2007 was primarily due to cash payments lowering accounts payable, cash payments for 2006 incentive compensation, and a \$4.0 million pension plan funding contribution substantially offset by other favorable working capital changes including a slight reduction in inventory balances. The cash outflow in the first quarter of 2006 was primarily due to cash payments for settlement distributions associated with a litigation matter and 2005 incentive compensation and cash payments lowering our accounts payable, partially offset by cash collections lowering our accounts receivable balance.

Net cash used in investing activities was \$5.2 million in the first quarter 2007 as compared to \$7.5 million in the comparable 2006 period. The decrease was attributable to the \$2.6 million proceeds from sale of a closed store property during the first quarter 2007. In the first quarter 2007, our capital expenditures were \$7.7 million, slightly higher than \$7.5 million for the first quarter 2006.

Net cash used in financing activities was \$1.5 million in the first quarter 2007 as compared to net cash provided by financial activities of \$22.1 million in the comparable 2006 period. Net cash used in the first quarter 2007 of \$1.5 million was primarily a result of the repayment of \$2.6 million notes payable with the proceeds from the sale of a closed store property mentioned above partially offset by cash proceeds of \$1.0 million from issuance of common stock. During the first quarter 2007, there was no additional borrowing under a revolving bank credit facility and at March 25, 2007, the total borrowing under this credit facility was \$25.0 million. Net cash provided in the first quarter 2006 of \$22.1 million was primarily a result of an additional \$20.0 million of borrowings under the credit facility and \$2.1 million of cash proceeds from issuance of common stock. At March 26, 2006, the total borrowing under this credit facility was \$40.0 million.

At March 25, 2007, we had cash and cash equivalents of \$32.1 million, stockholders' equity of \$296.4 million and debt, excluding capital leases, of \$108.8 million. At March 25, 2007, we had a deficit in working capital of \$13.2 million, compared to working capital of \$3.0 million at December 31, 2006. The decrease in working capital during the first quarter 2007 was primarily due to our \$25.0 million obligation under the credit facility being reported under current liabilities at March 25, 2007 whereas such borrowing was reported under long-term liabilities at December 31, 2006. For further discussion about this bank credit facility, see Bank credit facility, lease facility and other financing activities below.

Table of Contents

Capital expenditure and other capital requirements

Our primary requirement for capital is the financing for buildings, leasehold improvements, equipment and initial set-up expenditures for new, relocated and remodeled stores, investment in capitalized software and hardware as well as general working capital requirements.

During the 12 weeks ended March 25, 2007, we opened one new store. During 2006 in the western United States, we opened six stores and relocated one store. Our current plans are to open or relocate approximately eight stores during 2007. We estimate that the capital expenditure requirement for improvements and equipment for a new store is approximately \$1.1 million to \$3.4 million. We typically enter into lease arrangements for our store properties. From time to time we may purchase the properties for an additional capital investment that depends on the property location and market value. Working capital investment related to a new store is approximately \$0.2 million and primarily relates to inventory net of trade vendor accounts payable. We also plan to perform approximately three major remodels to existing stores in 2007 which generally require capital expenditures in excess of \$0.4 million per major remodel. Total capital expenditures, including investment in capitalized software, for 2007 are currently estimated at \$37 million to \$42 million. However, we cannot assure that these estimates will be realized and our capital program plans are subject to change upon our further review.

We have various retirement plans, which subject us to various funding obligations. Our noncontributory defined benefit retirement plan covers substantially all of our full time employees. We fund this plan with contributions as required by the Employee Retirement Income Security Act of 1974 (ERISA). Changes in the benefit plan assumptions as well as the funded status of the plan impact the funding and expense levels for future periods. As we previously disclosed in our 2006 Annual Report on Form 10-K, as amended, we are not required to make any contributions for the 2007 plan year pursuant to the minimum funding requirements of ERISA; however, we may elect to contribute an amount ranging from \$4.0 million to \$6.0 million to this plan in 2007. During the first quarter 2007, we made a \$4.0 million contribution to this plan.

Bank credit facility, lease facility and other financing activities

Amended Credit Facility

In November 2004, we entered into a \$150.0 million Amended and Restated Credit Agreement (Amended Credit Facility) with a syndicate of banks. The Amended Credit Facility is a secured revolving credit facility with a five-year term expiring on November 18, 2009. Interest for the Amended Credit Facility is at the base rate or at the reserve adjusted Eurodollar rate plus, in each case, an applicable margin. Commitment fees are charged on the undrawn amount at rates ranging from 0.15 percent to 0.50 percent. At March 23, 2007, the six-month Eurodollar LIBOR rate offered for borrowings in U.S. dollars was 5.32 percent.

At our option, the Amended Credit Facility can be used to support up to \$15.0 million of commercial letters of credit. Principal repayments may be required prior to the final maturity. Additionally, under certain conditions, pay-downs toward the facility are treated as permanent reductions to the amount committed. At March 25, 2007, \$25.0 million of revolving loans and

Table of Contents

\$5.6 million of letters of credit were outstanding. At March 25, 2007, we had \$119.4 million available under our Amended Credit Facility.

Lease Agreement

In November 2001, we entered into a five-year operating lease agreement (Lease Agreement) with a national banking association. Participants in the Lease Agreement structure include banks and financing institutions as well as Casino USA. At the end of the term, the Lease Agreement requires us to elect to purchase all the properties by a final payment of \$86.4 million or sell all the properties to a third party. If the properties are sold to a third party and the aggregate sales price is less than \$69.2 million, we are obligated to pay the difference of the aggregate sales price and \$69.2 million. The Lease Agreement expired on November 29, 2006.

Effective November 29, 2006, we entered into an agreement with the Lease Agreement parties to extend the maturity of the facility to May 29, 2007. The fixed rate pricing of the Lease Agreement tranches prior to scheduled maturity ranged from 8.72% to 11.22%. For the period of extension, the variable rate pricing of the Lease Agreement tranches will be at LIBOR plus a margin ranging from 0.725% to 0.95%. During the period of extended maturity, we may repay the Lease Agreement at any time without a prepayment penalty and we may also sell, without penalty, up to three properties in the Lease Agreement for a combined aggregate value not to exceed \$15.0 million without penalty.

During first quarter 2007, we sold one closed store location under the Lease Agreement. The \$2.6 million proceeds generated from the sale was used to reduce the value of the Lease Agreement, including \$0.6 million paid toward the interest held by Casino USA. At March 25, 2007, the Lease Agreement as amended, with a value of \$83.8 million, provided the financing for two distribution facilities and 19 store locations. At March 25, 2007, Casino USA held a \$19.5 million interest in the Lease Agreement.

The current maturity date of the Lease Agreement coincides with the special meeting of stockholders to be held on May 29, 2007. Although the Merger Agreement provides for the extinguishment of the Amended Credit Facility and the Lease Agreement at time of closing, the closing of the Merger Agreement is not expected to be consummated as of May 29, 2007. Accordingly, we are assessing our options with respect to the maturity of the Lease Agreement. At this point in time we are unable to identify what specific course of action we will pursue.

The Lease Agreement is considered a variable interest entity and subject to consolidation under Financial Accounting Standards Board (FASB) Interpretation (FIN) No. 46, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51, as amended. Therefore, the related properties and notes payable are included in our consolidated balance sheets under Property, plant and equipment and under current liabilities as Current maturities of long-term debt and capital leases and, for the Casino USA participation, Notes payable to affiliate.

As of March 25, 2007, there was \$0.1 million cash funds in the real estate trust that are restricted as to their use which were reflected on our consolidated balance sheets as Cash held in real estate trust. These cash funds are the remainder of proceeds generated in 2003 from the sale of a Florida distribution facility and a Florida store property originally owned by the real estate trust that were subsequently used in 2004 to purchase six of our owned store properties by the real estate trust.

Table of Contents

Collateral

Borrowings under both the Amended Credit Facility and the Lease Agreement are collateralized by security interests in our receivables, inventory and owned properties. Principal collateral for our obligations under the Lease Agreement includes specific properties and their fixtures and equipment, and additionally a collateral position, subordinate to the Amended Credit Facility, on receivables, inventory and owned properties not serving as principal collateral under the Lease Agreement. The Amended Credit Facility has as principal collateral, our cash and cash equivalents, receivables, inventory and owned properties that are not part of the principal collateral of the Lease Agreement, and has as a subordinate collateral position the properties and related assets that are the principal collateral of the Lease Agreement.

Covenants

The Amended Credit Facility and the Lease Agreement contain various customary and restrictive covenants, including restrictions on cash dividends declared or paid and additional debt and capital expenditures, and require us to maintain certain fixed charge coverage ratios and other financial ratios under each agreement. The covenants do not require us to maintain a public debt rating or a certain liquidity level.

As of March 25, 2007 we were in compliance with all covenants, as amended with the exception of one covenant contained in both the Amended Credit Facility and the Lease Agreement. Included in the calculation of the covenant for which we were not in compliance was approximately \$4.8 million of costs associated with our review of strategic alternatives. Without these costs we would have been in compliance. On April 23, 2007 we secured waivers of the event of default for the first quarter 2007 and the second quarter 2007 for both the Amended Credit Facility and the Lease Agreement. Our obligation of \$25.0 million under the Amended Credit Facility was classified as current maturities of long-term debt on our consolidated balance sheet at March 25, 2007 as the waiver does not cover a full one year period. The Amended Credit Facility expires on November 18, 2009 and accordingly, the obligation under this agreement was classified as long-term debt at December 31, 2006. The Lease Agreement has been classified as current maturities of long-term debt and notes payable to affiliate on our consolidated balance sheets at March 25, 2007 and December 31, 2006 due to its extended expiration in May 2007.

Historically, our primary source of liquidity has been cash flows from operations. Additionally, we have availability under bank credit facilities. We expect to be able to fund future capital expenditures and other cash requirements by a combination of available cash and cash from operations and other borrowings. We believe that our sources of funds are adequate to provide for working capital, capital expenditures, and debt service requirements for the foreseeable future.

New Accounting Pronouncements

SFAS No. 158

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106 and 132(R). SFAS No. 158 requires an employer to a) recognize in its statement of financial position an asset for a

Table of Contents

plan's overfunded status or a liability for a plan's underfunded status; b) measure a plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year; and c) recognize changes in the funded status of a defined benefit postretirement plan in the year in which the changes occur and report these changes in comprehensive income. We adopted SFAS No. 158 regarding the recognition element as of December 31, 2006. The requirement to measure plan assets and benefit obligations as of the end of the employer's fiscal year is effective for fiscal years ending after December 15, 2008. We do not expect the adoption of the remaining elements of SFAS No. 158 will have any material impact on our results of operations or financial position.

SFAS No. 157

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, which provides guidance for using fair value to measure assets and liabilities whenever other standards require or permit and expands disclosure associated with fair value measurements. SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used by market participants when pricing the asset or liability. Under SFAS 157, fair value measurements would be separately disclosed by level within the fair value hierarchy. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We do not believe the adoption of SFAS No. 157 will have a material impact on our results of operations or financial position.

FIN No. 48

In July 2006, the FASB issued FIN No. 48, Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109. FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN No. 48 requires the enterprise to determine whether it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit can be recognized. Additionally, FIN No. 48 provides guidance on recognition measurement, derecognition, classification, related interest and penalties, accounting in interim periods, disclosure and transition. We adopted FIN No. 48 as of January 1, 2007.

As a result of the implementation of FIN No. 48, we recognized an increase of \$3.3 million in liability for uncertain tax positions, a charge of \$0.1 million to retained earnings and an increase of \$3.2 million in deferred tax assets. At the adoption date of January 1, 2007 and at March 25, 2007, we had \$5.7 million of unrecognized tax benefits, \$2.4 million of which would affect our effective tax rate if recognized.

We report interest and penalties related to uncertain tax positions under Income tax benefit (provision) on our consolidated statement of operations. During the first quarter 2007, we recognized an immaterial amount of interest expense and had approximately \$0.3 million of interest accrued as of March 25, 2007.

The tax years from 2002 to 2006 remain open to examination by the major tax jurisdictions to which we are subject.

Table of Contents

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported assets, liabilities, sales and expenses in the accompanying financial statements. Critical accounting policies are those that require the most subjective and complex judgments, often employing the use of estimates about the effect of matters that are inherently uncertain. These critical accounting policies, under different conditions or using different assumption or estimates, could show materially different results on our financial condition and results of operations. Our critical accounting policies are described in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies in our 2006 Annual Report on Form 10-K, as amended. Except for the adoption of FIN No. 48 as described above, there was no change in our critical accounting policies during the first quarter 2007.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks relating to fluctuations in interest rates and the foreign exchange rates between the U.S. Dollar and foreign currencies, primarily the Mexican Peso. Our primary market risk management objective is to minimize the negative impact of interest rate fluctuations on our earnings and cash flows. As of March 25, 2007, our exposure to foreign currency risk was limited.

Interest Rate Risk

We may manage interest rate risk through the use of interest rate collar agreements to limit the effect of interest rate fluctuations from time to time. We presently have no program in place.

Credit Risk

We are exposed to credit risk on accounts receivable through the ordinary course of business and we perform ongoing credit evaluations. Concentrations of credit risk with respect to accounts receivable are limited due to the number of customers comprising our customer base. We currently believe our allowance for doubtful accounts is sufficient to cover customer credit risks.

Foreign Currency Risk

Our exposure to foreign currency risk is limited to our operations under Smart & Final Mexico and the equity earnings of its Mexico joint venture. As of March 25, 2007, such exposure was the \$9.9 million net investment in Smart & Final Mexico which was comprised primarily of the Mexico joint venture. Our other transactions are conducted in U.S. Dollars and are not exposed to fluctuations in foreign currency. We do not hedge our foreign currency exposure and therefore are not exposed to such hedging risk.

Item 4. CONTROLS AND PROCEDURES
Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of March 25, 2007. Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to us (including our consolidated subsidiaries) that is required to be included in our periodic Securities and Exchange Commission reports.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the first fiscal quarter ended March 25, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

We are currently in the process of implementing a new accounting system that will replace our current system. The full implementation of the new accounting system will materially impact our internal control over financial reporting as this new system will change existing business and accounting control processes. We are implementing this system in a phased approach and successfully implemented two modules during our third quarter 2006. While implementation activity is ongoing, we did not implement any additional modules in our first quarter 2007. We have implemented several additional modules in the early part of the second quarter 2007 including various core modules including general ledger, accounts payable and purchasing. We believe the implementation of the aforementioned modules in our second quarter 2007 has resulted in a material change in our internal control over financial reporting for our second quarter 2007 reporting. We plan to complete the final phases of our accounting system implementation in the third quarter 2007.

Additional information regarding a report of management's assessment of the effectiveness of our internal control as of December 31, 2006 and our independent registered public accounting firm's report dated February 26, 2007 on management's assessment as of December 31, 2006 were included in Part II, Item 9. Financial Statements and Supplementary Data of our 2006 Annual Report on Form 10-K, as amended.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

On February 21, 2007 and February 26, 2007, putative class actions entitled *City of Ann Arbor Employees Retirement System vs. Smart & Final Inc., et al.* and *Call 4U, LTD. vs. Smart & Final Inc., et al.* were filed against us and members of our board of directors in the Superior Court of the State of California, County of Los Angeles. In each complaint, the named plaintiffs propose to represent a class of our stockholders and claim that, among other things, the proposed merger is the product of alleged breaches of duty and self-dealing by our board of directors. Along with other relief, the complaints seek an injunction against the closing of the proposed merger. We believe that the actions are without merit and that we have substantial defenses to the claims.

On April 27, 2007 we and members of our board of directors through counsel entered into a memorandum of understanding with counsel for the plaintiffs in the *City of Ann Arbor* and *Call 4U, LTD.* actions under which, subject to court approval, the two actions would be dismissed with prejudice. We have recorded a pre tax charge in the first quarter 2007 in the amount of \$0.9 million related to our legal defense fees and settlement costs associated with these actions

We are named as a defendant in a number of other lawsuits or are otherwise a party to certain litigation arising in the ordinary course of our operations. We do not believe that the ultimate determination of these other cases will either individually or in the aggregate have a material adverse effect on our results of operations or financial position.

Item 1A. Risk Factors

We did not experience any material changes from risk factors previously disclosed in Part I, Item 1A. Risk Factors of our 2006 Annual Report on Form 10-K, as amended, and for the period covered by this quarterly report on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

Not applicable.

Item 5. Other Information

Not applicable.
