**Table of Contents****NOTE 1. BASIS OF PRESENTATION**

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X and, accordingly, do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. Dollar amounts in tables are in thousands, except per share amounts.

Operating results for the three-month period ended March 31, 2007, are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. For further information, refer to the Consolidated Financial Statements and notes included in IORI's Annual Report on Form 10-K for the year ended December 31, 2006 (the 2006 Form 10-K).

Certain balances from 2006 have been reclassified to conform to the 2007 presentation.

**NOTE 2. REAL ESTATE**

On March 31, 2006, IORI acquired a 218-unit apartment complex located in Indianapolis, Indiana (Falcon Point) from Syntek West, Inc. (SWI), a related party for \$3,750,000, which included the assumption of a \$1,500,000 existing mortgage. IORI did not acquire any properties during the three months ended March 31, 2007.

IORI sold no properties during the three months ended March 31, 2007 or 2006.

The following is a list of properties owned by IORI on March 31, 2007:

<sup>1</sup> The Company transferred these six residential properties along with another residential property to partnerships formed with Metra Capital LLC ("Metra") which was recorded as a financing transaction under SFAS 66 "Accounting for Real Estate Sales." The participation in the transaction of a former director of ARI, a related party, as well as the fact that at the time ARI was a related party to the Company, required the treatment as a financing transaction, although title to the residential properties was transferred to another entity. The effect is

for these properties to remain as assets on the financial statements of the Company and liabilities associated with the financing transaction recorded.

**NOTE 5. ADVISORY AGREEMENT**

The Company has an Advisory Agreement with Syntek West, Inc. ( SWI ), wherein SWI is responsible for the Company s day-to-day operations. SWI must formulate and submit to IORI s Board of Directors for approval an annual budget and business plan containing a twelve month forecast of operations and cash flow with a general plan for asset sales and purchases, borrowing activity and other investments. SWI reports to the Board quarterly on IORI s performance against the business plan. The Advisory Agreement further places SWI in a fiduciary relationship to IORI s stockholders and contains a broad standard governing SWI s liability for any losses incurred by IORI.

SWI receives, as compensation for its management and advice, monthly advisory fees based on 6 1/2% of IORI s assets annually as well as specific fees for assisting IORI in obtaining financing and completing acquisitions. If IORI s operating expenses exceed limits specified in the Advisory Agreement SWI is obligated to refund a portion of the advisory fees.

**Table of Contents**

Effective July 1, 2005, the Company and SWI entered into a Cash Management Agreement to further define the administration of the Company's day-to-day investment operations, relationship contacts, flow of funds and deposit and borrowing of funds. Under the Cash Management Agreement, all funds of the Company are delivered to SWI which has a deposit liability to the Company and is responsible for investment of all excess funds, which earn interest at the *Wall Street Journal* Prime Rate plus one percent per annum, set quarterly on the first day of each calendar quarter. Borrowings for the benefit of the Company bear the same interest rate. The Cash Management Agreement and the Advisory Agreement are automatically renewed each year unless terminated by SWI and IORI.

SWI also receives a Net Income Fee calculated as 7.5% of IORI's net income for the year.

**NOTE 6. RECEIVABLE FROM AND PAYABLE TO AFFILIATES**

From time to time, IORI and its affiliates and related parties have made unsecured advances to each other. In addition, IORI and its affiliates have entered into transactions involving the purchase, sale, and financing of property. The table below reflects the various transactions between IORI, SWI, and TCI.

	<b>SWI</b>	<b>TCI</b>	<b>Total</b>

Balance, March 31, 2007	\$ 15,760	\$ 1,292	\$ 17,052

**NOTE 7. OPERATING SEGMENTS**

Significant differences among the accounting policies of the operating segments as compared to the Consolidated Financial Statements principally involve the calculation and allocation of administrative expenses. Management evaluates the performance of each of the operating segments and allocates resources to them based on their operating income and cash flow. There are no intersegment revenues and expenses and IORI conducted all of its business within the United States.

**Table of Contents**

Presented below is the operating income of each operating segment for the three months ended March 31, 2007 and 2006 and each segment's assets at March 31, 2007 (amounts in thousands).

**NOTE 8. COMMITMENTS AND CONTINGENCIES**

*Liquidity.* Management anticipates that IORI may not generate sufficient excess funds from operations in 2007 to discharge all of IORI's debt obligations as they mature. Management may selectively sell income producing assets, refinance real estate, and/or incur additional borrowings against real estate to meet its cash requirements.

*Litigation.* IORI is also involved in various lawsuits arising in the ordinary course of business. Management is of the opinion that the outcome of these lawsuits will have no material impact on the Company's financial condition, results of operations or liquidity.

**ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

***WARNING CONCERNING FORWARD-LOOKING STATEMENTS***

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report.

This Report on Form 10-Q may contain forward-looking statements within the meaning of the federal securities laws, principally, but not only, under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations. We caution investors that any forward-looking statements in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and on assumptions made by, and information currently available to, management. When used, the words anticipate, believe, expect, intend, may, might, plan, estimate, project, should, will, result and similar expressions which do not relate solely to historical matters are intended to identify forward-looking statements. These

## **Table of Contents**

statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution you that, while forward-looking statements reflect our good faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the factors listed and described at Item 1A. Risk Factors in the Company's Annual Report on Form 10-K, which investors should review. There have been no changes from the risk factors previously described in the Company's Form 10-K for the fiscal year ended December 31, 2006.

Other sections of this report may also include suggested factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time and it is not possible for management to predict all such matters; nor can we assess the impact of all such matters on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our quarterly reports on Form 10-Q for future periods and current reports on Form 8-K as we file them with the Securities and Exchange Commission (SEC) and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise.

### ***Overview***

IORI invests in equity interests in real estate through acquisitions, leases, partnerships and in mortgage loans. IORI is the successor to a California business trust organized on December 14, 1984, which commenced operations on April 10, 1985.

### ***Critical Accounting Policies***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires management to use judgment in the application of accounting policies, including making estimates and assumptions. We base our estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of our financial statements. From time-to-time, we evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current information. Below is a discussion of accounting policies that we consider critical in that they may require complex judgment in their application or require estimates about matters that are inherently uncertain.

### ***Real Estate Held for Investment***

Real estate held for investment is carried at cost. Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS No. 144), requires that a property be considered impaired if the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the property. If impairment exists, an impairment loss is recognized, by a charge against earnings, equal to the amount by which the carrying amount of the property exceeds the fair value less cost to sell the property. If impairment of a property is recognized, the carrying amount of the property is reduced by the amount of the impairment, and a new cost for the property is established. Such new cost is depreciated over the property's remaining useful life. Depreciation is provided by the straight-line method over estimated useful lives, which range from five to 40 years.

### ***Real Estate Held-for-Sale***

Foreclosed real estate is initially recorded at new cost, defined as the lower of original cost or fair value minus estimated costs of sale. SFAS No. 144 also requires that properties held-for-sale be reported at the lower of carrying amount or fair value less costs of sale. If a reduction in a held-for-sale property's carrying amount to fair value less costs of sale is required, a provision for loss is recognized

## **Table of Contents**

by a charge against earnings. Subsequent revisions, either upward or downward, to a held-for-sale property's estimated fair value less costs of sale are recorded as an adjustment to the property's carrying amount, but not in excess of the property's carrying amount when originally classified as held-for-sale. A corresponding charge against or credit to earnings is recognized. Properties held for sale are not depreciated.

### ***Investments in Equity Investees***

IORI may be considered to have the ability to exercise significant influence over the operating and investment policies of certain of its investees. Those investees are accounted for using the equity method. Under the equity method, an initial investment, recorded at cost, is increased by a proportionate share of the investee's operating income and any additional investment and decreased by a proportionate share of the investee's operating losses and distributions received.

### ***Recognition of Rental Income***

Rental income for commercial property leases is recognized on a straight-line basis over the respective lease terms. Rental income for residential property leases is recorded when due from residents and is recognized monthly as earned, which is not materially different than on a straight-line basis as lease terms are generally for periods of one year or less.

### ***Revenue Recognition on the Sale of Real Estate***

Sales of real estate are recognized when and to the extent permitted by Statement of Financial Accounting Standards No. 66, Accounting for Sales of Real Estate (SFAS No. 66), as amended by SFAS No. 144. Until the requirements of SFAS No. 66 for full profit recognition have been met, transactions are accounted for using the deposit, installment, cost recovery or financing method, whichever is appropriate. When IORI provides seller financing, gain is not recognized at the time of sale unless the buyer's initial investment and continuing investment are deemed to be adequate as determined by SFAS No. 66 guidelines.

### ***Non-Performing Notes Receivable***

IORI considers a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments. Any new note receivable that results from a modification or extension of a note considered non-performing will also be considered non-performing, without regard to the borrower's adherence to payment terms.

### ***Interest Recognition on Notes Receivable***

Interest income is not recognized on notes receivable that have been delinquent for 60 days or more. In addition, accrued but unpaid interest income is only recognized to the extent that the net realizable value of the underlying collateral exceeds the carrying value of the receivable.

### ***Allowance for Estimated Losses***

A valuation allowance is provided for estimated losses on notes receivable considered to be impaired. Impairment is considered to exist when it is probable that all amounts due under the terms of the note will not be collected. Valuation allowances are provided for estimated losses on notes receivable to the extent that the investment in the note exceeds management's estimate of the fair value of the collateral securing such note.

### ***Fair Value of Financial Instruments***

The following assumptions were used in estimating the fair value of its notes receivable, marketable equity securities, and notes payable. For performing notes receivable, the fair value was estimated by discounting future cash flows using current interest rates for similar loans. For non-performing notes receivable, the estimated fair value of IORI's interest in the collateral property was used. For marketable equity securities, fair value was based on the year-end closing market price of each security. For notes payable, the fair value was estimated using current rates for mortgages with similar terms and maturities.

### ***Liquidity and Capital Resources***

Cash and cash equivalents at March 31, 2007 were \$65,000 compared to \$80,000 at December 31, 2006. IORI's principal sources of cash have been and will continue to be property operations, proceeds from asset sales, interest earned on notes receivable, financings and refinancings and partnership distributions. Management anticipates that IORI will generate excess cash from operations in 2007 due to increased rental receipts at its properties. However, such excess may not be sufficient to discharge all of IORI's debt obligations as they mature. Management may selectively sell income producing assets, refinance real estate, and/or incur additional borrowings against real estate to meet its cash requirements.

The Company reported net income of \$66,000 for the three months ended March 31, 2007, which included the following items for the period: depreciation and amortization of \$283,000, a decrease in other assets of \$487,000, an increase in notes and interest receivable of \$481,000, an increase in notes and interest payable of \$50,000, a decrease in other liabilities of \$1.1 million and an increase in minority interest of \$37,000. Net cash used in operating activities totaled \$645,000 for the three months ended March 31, 2007. During the three months ended March 31, 2007 net cash provided by investing activities was \$714,000, consisting almost entirely of advances from the Company's Advisor under the terms of the Cash Management Agreement. See Note 5. Cash Management Agreement. Net cash used in financing activities was \$84,000 which is principal payments for notes payable.

Management reviews the carrying values of IORI's properties at least annually or whenever events or a change in circumstances indicate that impairment may exist. Impairment is considered to exist if, in the case of a property, the future cash flow from the property (undiscounted and without interest) is less than the carrying amount of the property. If impairment is found to exist, a provision for loss is recorded by a charge against earnings. The property review generally includes selective property inspections, discussions with the manager of the property, visits to selected properties in the area and a review of the following: (1) the property's current rents compared to market rents, (2) the property's expenses, (3) the property's maintenance requirements and (4) the property's cash flows.

### ***Results of Operations***

IORI had a net income of \$66,000 for the three months ended March 31, 2007 as compared to net income of \$594,000 for the corresponding period in 2006. Fluctuations in components of revenue and expense between March 31, 2007 and the corresponding period in 2006 are discussed below.

Rental income for the three months ended March 31, 2007 was \$2.1 million compared to \$1.7 million in the corresponding period in 2006. \$264,000 of the increase is due to revenue from the Falcon Point Apartments which was acquired on March 31, 2006. The balance is due to increased average rents at the various properties.

Property operating expense for the three months ended March 31, 2007 was \$1.1 million compared to \$804,000 for the corresponding period in 2006. The increase is primarily due to operating expenses from the Falcon Point Apartments.

Depreciation expense for the three months ended March 31, 2007 was \$198,000 compared to \$170,000 for the corresponding period in 2006. The increase is due to additional depreciation from Falcon Point Apartments.

General and administrative expenses for the three months ended March 31, 2007 was \$143,000 compared to \$150,000 for the corresponding period in 2006.

Advisory fees to affiliate for the three months ended March 31, 2007 was \$211,000 compared to \$194,000 for the corresponding period in 2006. The increase was due to a net increase in gross assets which is the basis of the advisory fee.

Interest income for the three months ended March 31, 2007 was \$1.1 million compared to \$1.2 million for the corresponding period in 2006.

In May 12, 2006, Encino Executive Plaza Ltd. transferred One Hickory Center and the 202 acres of unimproved real property known as Travelers Land back to IORI in satisfaction of the three notes receivable totaling \$36 million. Interest income received by IORI on the Encino Notes for the three months ended March 31, 2006 was \$499,000.

The overall loss of interest income from the above notes was partially offset by interest income from SWI of \$335,000 in 2007 as compared to \$20,000 in 2006. The interest paid or received from SWI is based upon the Cash Management Agreement between IORI and SWI whereby interest is paid or received at a rate of prime plus one percent based upon the outstanding intercompany balances throughout the period. See NOTE 5. ADVISORY AGREEMENT.

**Table of Contents**

Interest expense for the three months ended March 31, 2007 was \$1.4 million compared to \$896,000 for the corresponding period in 2006. The increase was primarily due to the additional debt incurred by IORI during 2006 due to new loans, refinancings and the acquisition of Falcon Point Apartments. The increase was also due to increased interest rates for IORI's variable interest rate debt.

The net income fee to affiliates for the three months ended March 31, 2007 was \$5,000 as compared to \$50,000 for the corresponding period in 2006. The net income fee is based on 7 1/2% of IORI's net income. See NOTE 5. ADVISORY AGREEMENT.

***Related Party Transactions***

Historically, IORI, ARI, Regis Realty I, LLC ( Regis I ), and TCI have each engaged in and may continue to engage in business transactions, including real estate partnerships with related parties. Management believes that all of the related party transactions represented the best investments available at the time and were at least as advantageous to IORI, ARI, Regis I and TCI as could have been obtained from unrelated third parties.

***Income Taxes***

Financial statement income varies from taxable income principally due to the accounting for income and losses of investees, gains and losses from asset sales, depreciation on owned properties, amortization of discounts on notes receivable and payable and the difference in the allowance for estimated losses. At March 31, 2007, IORI had a net deferred tax asset of approximately \$1.3 million due to tax deductions available to it in future years. However, as management cannot determine that it is more likely than not that IORI will realize the benefit of the deferred tax asset, a 100% valuation allowance has been established.

At March 31, 2007, IORI had a net deferred tax asset of approximately \$1.4 million due to tax deductions available to it in future years. However, as management cannot determine that it is more likely than not that IORI will realize the benefit of the deferred tax asset, a 100% valuation allowance has been established.

***Inflation***

The effects of inflation on IORI's operations are not quantifiable. Revenues from apartment operations tend to fluctuate proportionately with inflationary increases and decreases in housing costs. Fluctuations in the rate of inflation also affect the sales value of properties and the ultimate gain to be realized from property sales. To the extent that inflation affects interest rates, earnings from short-term investments and the cost of new financings, as well as the cost of variable interest rate debt, will be affected.

***Environmental Matters***

Under various federal, state and local environmental laws, ordinances and regulations, IORI may be potentially liable for removal or remediation costs, as well as certain other potential costs, relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where property-level managers have arranged for the removal, disposal or treatment of hazardous or toxic substances. In addition, certain environmental laws impose liability for release of asbestos-containing materials into the air and third parties may seek recovery for personal injury associated with such materials.

Management is not aware of any environmental liability relating to the above matters that would have a material adverse effect on IORI's business, assets or results of operations.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES REGARDING MARKET RISK**

At March 31, 2007 IORI's exposure to a change in interest rates on its debt was as follows:

	Balance	Weighted Average Interest Rate	Effect of 1% Increase In Base Rates
Notes payable:			
Variable rate	\$ 8,200,000	10.40%	\$ 82,000

Total decrease in IORI s annual net income	82,000
Per share	\$ .02
